<b>8</b>	<b>INDEMNIFICATION</b>
	Licensee shall defend, indemnify and hold harmless Metro, its elected officials, officers, employees, agents and representatives from any and all claims, demands, damages, causes of action, or losses and expenses, or including all attorneys' fees, whether incurred before any litigation is commenced, during any litigation or on appeal, arising out of or related in any way to the issuance or administration of this non-system license or the transport and disposal of the solid waste covered by this license.

## STAFF REPORT

IN CONSIDERATION OF RESOLUTION NO. 05-3636 FOR THE PURPOSE OF AUTHORIZING THE CHIEF OPERATING OFFICER TO RENEW A NON-SYSTEM LICENSE ISSUED TO PRIDE RECYCLING COMPANY FOR DELIVERY OF PUTRESCIBLE SOLID WASTE TO THE RIVERBEND LANDFILL

---

November 2, 2005

Prepared by: Steve Kraten

## BACKGROUND

### Description of the Resolution

Approval of Resolution No. 05-3636 will authorize the Chief Operating Officer to renew a non-system license (NSL) issued to Pride Recycling Company ("Pride") to deliver up to a maximum of 45,000 tons annually of mixed residential and commercial solid waste, including putrescible waste, to the Riverbend Landfill located in McMinnville, Oregon. The existing license will expire on December 31, 2005. The proposed renewal requests 20,000 fewer tons than the current license. The amount of solid waste projected to be delivered for disposal under the authority of this license during calendar year 2005 is projected by Metro to be approximately 34,200 tons.

## ANALYSIS/INFORMATION

### 1. Known Opposition

There is no known opposition to the proposed license renewal.

### 2. Legal Antecedents

Section 5.05.035(c) of the Metro Code provides that, when determining whether or not to approve an NSL application, the Council shall consider the following factors to the extent relevant to such determination.

- (1) *The degree to which prior users of the non-system facility and waste types accepted at the non-system facility are known and the degree to which such wastes pose a future risk of environmental contamination;*

The Riverbend Landfill first came into use during the mid-eighties. When the Riverbend became a Subtitle D landfill in 1993, the original unlined cells were capped. Since 1993, the landfill has been filling only lined cells and operating with the required environmental controls required by the Oregon Department of Environmental Quality (DEQ). The landfill has no known history of landfilling wastes that pose a future risk of environmental contamination.

- (2) *The record of regulatory compliance of the non-system facility's owner and operator with federal, state and local requirements including but not limited to public health, safety and environmental rules and regulations;*

The Riverbend Landfill is permitted by the DEQ. The DEQ considers the landfill to be a well-run facility that is in compliance with federal, state and local requirements. The facility has a good compliance record with public health, safety and environmental rules and regulations.

- (3) *The adequacy of operational practices and management controls at the non-system facility;*

The Riverbend Landfill uses operational practices and management controls that are typical of Subtitle D landfills and considered by the DEQ to be adequate for the protection of health, safety, and the environment.

- (4) *The expected impact on the region's recycling and waste reduction efforts;*

Pride Recycling Company performs materials recovery, even from waste streams that have a substantial putrescible component such as multi-family residential. The waste that would be subject to the proposed license is putrescible waste that has no further recovery potential. Therefore, granting the requested license will not impact the region's recycling and waste reduction efforts.

- (5) *The consistency of the designation with Metro's existing contractual arrangements;*

Riverbend Landfill is a Waste Management facility. Thus, under a disposal agreement that has been in force since 1999, waste delivered under the proposed license is included as waste delivered to Metro's contract operator for purposes of Metro's disposal contract. The requested license does not appear to conflict with Metro's disposal contract or any other of its existing contractual arrangements.

- (6) *The record of the applicant regarding compliance with Metro ordinances and agreements or assistance to Metro in Metro ordinance enforcement and with federal, state and local requirements including but not limited to public health, safety and environmental rules and regulations; and*

During fiscal year 2001–02, Pride Recycling Company exceeded the 68,250-ton cap stipulated in its Metro Solid Waste Facility Franchise by 4,343 tons and was issued a Notice of Violation and a \$20,000 fine by Metro. Pride contested enforcement action, which was upheld upon appeal. There have been no other incidents of non-compliance.

- (7) *Such other factors as the executive officer deems appropriate for purposes of making such determination.*

Solid waste delivered to the Riverbend Landfill counts toward the declining block fee schedule stipulated in Metro's disposal contract with Waste Management. Pride Recycling Company has

been disposing of solid waste at the Riverbend Landfill under the authority of a Metro-issued NSL since October 1999.

### Conclusion

The Chief Operating Officer finds that the proposed license satisfies the requirements of Metro Code Section 5.03.035 for the requested Solid Waste Facility License.

### **3. Anticipated Effects**

The effect of Resolution No. 05-3636 will be to issue an NSL for delivery of up to 45,000 tons per calendar year of solid waste, including putrescible waste, to the Riverbend Landfill.

### **4. Budget Impacts**

Renewal of Pride Recycling Company's NSL would continue the status quo with no additional budget impact. The regional system fee will continue to be collected by the applicant on all solid waste received from within the Metro boundary. The excise tax is collected on all waste regardless of where it is generated.

## **RECOMMENDED ACTION**

The Chief Operating Officer recommends approval of Resolution No. 05-3636.
