Re: SWP Metropolitan Service District
Project #113

Dear Mr. schumacher:

The Department of Environmental Quality has received a copy of Ordinance #31 which was adopted on August 8, 1975 by the Metropolitan Service District (MSD).

Ordinance #31 modifies the Solid Waste Management Action Plan as adopted by Ordinance #9 by reduction of the solid waste processing system from four transfer-processing stations to two transfer-processing stations and one transfer station. Any additional facilities could be provided in the future on the basis of demonstrated need.

It is understood by the Department that this revision will lower construction and operational costs without reducing service to the general public.

The reduced system has been reviewed by the Department and found acceptable, therefore the Department hereby approves it as outlined in MSD Ordinance #31.

If you have any questions please feel free to contact the Department's Solid Waste Management Division at 229-5913.

Sincerely,

LOREN KRAMER
Director
