SOURCE SEPARATION POLICY

THE METROPOLITAN SERVICE DISTRICT BOARD HEREBY RESOLVES THAT:

The Metropolitan Service District supports source separation of solid wastes as a way to reduce solid waste quantities and a way to encourage reuse of materials. The MSD recognizes that implementation of source separation programs should be accomplished by local governments responsible for collection aspects of solid waste. The MSD will assist local programs by providing locations and containers at transfer stations deposition points for separated materials such as: paper, glass, metals, corrugated. Further, the MSD will continue to evaluate the economics of transfer of source separated materials at MSD facilities to provide the best service possible at the lowest cost.
