TO: Metro Council  
FROM: Executive Officer  
SUBJECT: Amending the FY 81 and FY 82 Unified Work Programs

I. RECOMMENDATIONS:

- A. **ACTION REQUESTED:** Recommend Council adoption of the attached Resolution amending the FY 81 and FY 82 Unified Work Programs (UWP) to reflect:
1. Revision of grant amounts to reflect the amount of actual grant received.
  2. Programming of FY 81 carryover funding on FY 82 projects.
  3. Additional work effort to complete the RTP, set up the RTP monitoring program and evaluate the impact of proposed transit improvements in the McLoughlin Boulevard/Oregon City area.
- B. **POLICY IMPACT:** This action will recognize the Regional Transportation Plan (RTP) as the top priority project including the effort necessary to complete the document and obtain adoption as well as the effort to establish the on-going monitoring process. Funding programmed for Goods Movement, Model Refinement, Technical Assistance and Energy Contingency Planning will be reduced accordingly. TPAC and JPACT have reviewed and approved this amendment to the UWP's.
- C. **BUDGET IMPACT:** This amendment represents a reprioritization of available resources within the Transportation Department budget and not an increase or decrease of grant revenue.

II. ANALYSIS:

- A. **BACKGROUND:** This amendment includes the following increases in project scope relative to that specified in the adopted UWP:
- RTP - The increase in funding is sufficient to complete the RTP document, ensure it meets the needs of affected parties and obtain adoption.
  - Population/Employment Forecasts - In addition to fully revising the year 2000 forecasts as originally planned, the increase will allow Metro to establish the necessary monitoring system called for in the RTP and conduct research and development work on Oregon Employment Services data files to improve existing employment monitoring data.

- McLoughlin Improvements - The additional funding will provide sufficient resources for Metro to evaluate the transit ridership and traffic impacts of proposed improvements along McLoughlin Boulevard in the Oregon City area being examined by Clackamas County.

In conjunction with these increases, the Scope of Work is being reduced for Model Refinement, Energy Contingency and TIP programs and eliminated for the Goods Movement program.

B. ALTERNATIVES CONSIDERED:

- Delay RTP completion to FY 83.
- Defer establishment of the RTP monitoring system to FY 83.

C. CONCLUSION: Recommend adoption of the UWP amendment.
