TRI-MET MEMORANDUM

DATE: July 13, 1989

TO: Regional Funding Group

FROM: Dick Feeney

SUBJECT: Final Report, 1989 Legislative Session

This memo is to report the successful outcome of the Transportation 2000 agenda at the 1989 session of the legislature.

A more exhaustive analysis of certain issues will come later, as the work of the committee continues.

Major Accomplishments

- \$130 million was authorized for highways, \$5 million Light Rail, \$5.4 million elderly and handicapped transportation, and, \$5 million for buses.
- Local authority was given for arterial and transit funding.
 Up to \$15 million a year combined.
- Authority to make certain long-term financial commitments were given to Tri-Met and ODOT.
- Authorization of a permanent interest bearing Mass Transit Trust fund.

<u>Disappointments</u>

- The legislators failed to authorize a permanent revenue stream for transit capital replacement.

Bills Passed

HB 3447 - Gas tax and equivalent weight mile and \$5.00 yearly increase in the vehicle registration fee.

Raises \$40.1 million next biennium and \$130 million in the following full biennium.

The Oregon AAA has threatened to refer the bill because of the delay to 1/1/92 of the weight mile tax. Collection of the weight mile tax is

delayed, but the imposition of the tax liability is 1/1/91. The delay is to allow for adjustments to new rules on the taxing of trucks by weight class.

House:

34 - 26

Senate:

16 - 14

Concurrence on

Senate Amendments

33 - 26

Implementation::

Law requires a study of truck taxation in neighboring states and an evaluation of a three-tiered truck tax system: weight, fuel, and registration. Trucks are to be taxed by weight class, not trucks across the board as a class. Effects of another bill, HB 2737, on truck weight mile and registration, to be reported before collections under this bill are made. Also, in legislative history is a commitment by the Public Utility Commission to order a rate increase as soon as law goes into effect.

Responsibility:

Legislative revenue to do comparative tax study.

ODOT to report on effect of HB 2737.

PUC to order interim rate increase.

HB 3446 - Local option vehicle fee.

This bill was totally re-done by T-2000 to deal with the metro area. An intergovernmental agreement is required in the tri-county area between all major actors before any action can be taken. Trucks up to 26,000 pounds included.

Passed:

House 33 - 16

Senate 20 - 10

Implementation:

Outside the tri-county area local option fees are at the initiation of the county board. Any regular or special election date may be picked for voter consideration of a proposal.

In the tri-county area an intergovernmental agreement is required, after a successful vote, with the governing bodies of all counties, Metro and Tri-Met and the City of Portland stating the fee, and how, if any, the revenue

is to be divided among counties and districts. If the fee is used for road purposes, a Regional Arterial fund must be established. If the fee is for transit purposes, the voters must agree on how it is to be used. The statutory limit of \$15 a year per vehicle may not be exceeded by any combination of revenues raised for arterials or transit. REVENUE: \$12M - \$13M/year.

Responsibility:

Transportation 2000 will bring the issue to the local voters. A jurisdiction may call for the vote, but cannot campaign for it. The T-2000 group, because of its private sector membership, is expected to support the issue before the voters.

SJR 12 - Constitutional amendment for transit use of vehicle fees.

Both a statewide vote and a local vote are required. Statewide election will be next May.

Passed: House 39 - 18

Responsibility:

Senate 28 - 0 (Concurrence)

Implementation:

A state-wide vote on May 15, 1990, is required by law. Local votes are additionally required for the actual establishment of a fee. Local vote dates that are authorized for the counties, Metro and Tri-Met are:

T-2000 groups, as in HB 3446 above, has

Count	cres, mecro and iri-met ar	.e:
	4th Tuesday in March Filing: 6l days prior	(March 27, 1990) (Jan. 25, 1990)
PRIMARY	3rd Tuesday in May Filing: 61 days prior	
	Last Tuesday in June Filing: 34 days prior.	
	2nd Tuesday in August Filing: 43 days prior	(Aug. 14, 1990) (July 2, 1990)
	3rd Tuesday in September Filing: 34 days prior	
GENERAL	lst Tues. after the 1st Mon. if November Filing: 61 days prior	(Nov. 6, 1990) (Sept. 6, 1990)

political responsibility.

HB 3056 - Creates Mass Transit Fund.

Amends ORS 184 by changing it from a bus only fund to a fund for buses, equipment, and capital facilities. Any monies deposited into the account are continually appropriated to ODOT's Public Trnsit Division. T-2000's amendment would allow director of ODOT to enter long-term agreements to commit future funds. Tri-Met could apply to this fund for LRT match. HB 3262 authorizes a \$5M deposit into the fund.

Passed: House 49 - 11

Senate 22 - 0

HB 3209 - Cigarette tax for elderly and handicapped.

Raises \$5.4 million a biennium. New features: a discretionary account at ODOT and a maintenance of effort clause, i.e., new money unless it is used to expand service, not save local funds.

HB 3262 - Video Lottery

Creates video games in the lottery fund. Money goes first to faculty salary enhancement at state institutions, \$12.5 million; \$5 million to Light Rail construction fund; \$12.5 million to faculties; \$5 million to ORS 184 (bus fund at ODOT). Second tier of money is unlikely since only experimental areas will be allowed to run the games. Not much money is expected in its first biennium.

Passed: House 38 - 12

Senate 21 - 9

<u>Implementation:</u> Lottery commission <u>may</u> decide to initiate video games in limited geographical areas.

Responsibility: Lottery commission for establishment of games.

Director of ODOT for the granting of funds under SB 475 and HB 3056.

HB 2710 - Leasing authority for transit districts.

This would grant Tri-Met the authority to enter into long-term leasing, enabling it to leverage state grant money into significant up-front LRT matching funds.

Passed: House 50 - 5

Senate 26 - 1

Responsibility: Tri-Met Board would have to approve the

lease purchase agreements.

SB 475 - Light Rail Construction Fund.

Criteria and rules for state and ODOT financial participation in future LRT lines. Amendment added by House would allow ODOT to enter into long-term agreements to commit future anticipated funds. This complements the authority for Tri-Met in HB 2710.

Passed: House 50 - 1

Senate 25 - 0

Implementation:

The terms of SB 475 become operable as soon as funds authorized by HB 3262 are deposited into the fund (ORS 391) created by the legislation. \$5 million in video lottery proceeds are authorized for the next biennium.

Responsibility:

Director of ODOT. ODOT administers fund. Also has the responsibility to execute the long-term financial agreements authorized by the bill.

SB 476 - Extension of payroll tax to counties, cities, and special districts.

Will raise \$600,000 in fiscal '91. \$3 million in fiscal '95. Senate amendments require a study of how schools should participate in transit financing.

Passed: House 33 - 27

Senate 21 - 2

Implementation:

Establishment of this tax is discretionary, but an ordinance doing so must be in place no later than six months prior to the beginning of the fiscal year in which the resources would be used. Thus, to have these resource in fy'91, the ordinance extending the tax must be in place by January 1, 1990. Legally, under Tri-Met rules, the ordinance would have to be ready by November 25. Practically, it means October 24 would be the deadline for first reading.

Responsibility:

Tri-Met Board for tax, Tri-Met staff and tri-county school district officials for study.

Bills Defeated

HB 3055 - Tire and battery fee for buses.

After months of hard work, this bill was re-structured into a capital program as well as a formula transit support program. It would have raised \$11.6 million a biennium. It narrowly passed the House 31 - 29, then failed in the Senate over issues not related to this bill. There were 16 votes going into the session on June 29, but Senators Springer, Kerrans and L. Hill had been counted upon to support it. When they did not, support fell off rapidly.

Failed: Senate 7 - 23

Passed: House 31 - 29

Resources Added	89 - 91	<u>91 - 93</u>

Re:

Changes to Exhibit A, Resolution No. 89-1132

(Transportation Improvement Program)

The following changes to the City of Portland's Federal-Aid Urban section of the Transportation Improvement Program were made after publication:

PROJECT	<u>YEAR</u>	AMOUNT
Deleted:		
Pacific Highway East/Multnomah Street to Glisan Street	1990	\$744,480
Added:		
City of Portland Arterial Overlay Program	1990	\$744,480

Local funds will be used to implement the Pacific Highway East project in lieu of FAU funds. The FAU funds will be used on the overlay project.

STAFF REPORT

Agenda	Item	No.	
Meeting	Date	<u> </u>	

CONSIDERATION OF RESOLUTION NO. 89-1132 FOR THE PURPOSE OF ADOPTING THE FY 1990 TO POST 1993 TRANSPORTATION IMPROVEMENT PROGRAM AND THE FY 1990 ANNUAL ELEMENT

Date: September 7, 1989 Presented by: Andrew Cotugno

FACTUAL BACKGROUND AND ANALYSIS

Proposed Action

The Transportation Improvement Program (TIP) and FY 1990 Annual Element serve as the basis for receipt of federal transportation funds by local jurisdictions, the Oregon Department of Transportation (ODOT) and Tri-Met.

This TIP reflects changes from last year's update due to resolutions and administrative adjustments approved during the past year and to be approved by this resolution. The primary importance of the annual TIP update is to consolidate all past actions into a current document and set forth the anticipated program for FY 1990. The FY 1990 program reflected herein is a first step in establishing actual priorities for FY 1990. A number of future actions will result in refinements to the material presented.

Adoption of the TIP endorses the following major actions:

- Past policy endorsement of projects is identified in the TIP (including projects to be funded with Interstate, Interstate Transfer, Federal-Aid Urban and Urban Mass Transportation Administration (UMTA) funds), thereby providing eligibility for federal funding.
- A process to address regional transportation priorities and funding issues related to them has been implemented by JPACT in the form of Resolution No. 89-1035. The resolution represents a major milestone in reaching a consensus among jurisdictions in the Portland region on how to fund key transportation priorities. It also represents an important starting point for seeking implementation of the proposals by the Legislature, affected boards and commissions and ultimately by the voter. Endorsement was in recognition that it is important to make progress in all aspects of transit and highway in order to most effectively meet the needs of the region.

As the process of implementing these recommendations proceeds, it will be necessary to evaluate input and determine if changes or refinements are necessary. To guide this effort, the resolution implements a Steering Committee with representatives from the Oregon Transportation Commission, JPACT, the Business Task Force, the Public-Private Task Force, the Tri-Met Board, and the Port of Portland Commission to guide implementation of the proposals. In addition, it will be necessary to involve many other interested parties, including the transportation interest groups, the local governments within the region and business groups.

In April 1989, JPACT endorsed in principle a series of recommendations for use of UMTA funding. These recommendations are enumerated below and are reflected in the UMTA programs appearing in Exhibit A.

- 1. Acquisition of buses rather than rail vehicles with Section 3 Discretionary funding.
- 2. Funding for Project Breakeven from both Section 3 Discretionary and Section 9.
- 3. Use of the remaining Banfield LRT funding for rail vehicles.
- 4. Reprogramming of Section 3 Letter of Intent funding to rail projects, with the associated reductions as follows:

Project	Amount	Comment
Buses Portland Transit Transfers	-\$9.52 m. - 1.64	Fund with Section 3 \$1.2 m. of program remains funded
Washington County TSM	- 1.22	\$1.3 m. of program remains funded
Southwest Transfers	- 0.40	Existing facility available
Merlo Railroad Crossing	- 0.23	Ineligible

5. A reduction in the anticipated level of Section 9 (formula) funding and a shift in emphasis from bus acquisition to rail, including:

LRV Air Conditioning	\$1.92 m.	
Project Breakeven	4.30 m.	
Banfield P & R	0.80 m.	for consideration
Westside Rail Initiatives	0.96 m.	for consideration
Double Tracking	3.76 m.	for consideration

Westside Rail Initiatives is a reserve to be used for Hillsboro P.E., advanced right-of-way acquisition and/or implementation of a program similar to Project Breakeven.

Specific details of these changes may be modified somewhat depending upon results of federal approvals.

- Approximately \$25.0 million of Interstate Transfer funding is programmed for FY 1990. Federal appropriations for the highway portion are estimated to be \$8.0 million for FY 1990 plus carryover funding from prior years adequate to fully fund the program.
- Some \$16.6 million of UMTA Section 3 "Trade" funds are programmed in FY 1990, of which \$10.05 million have been earmarked for bus purchases and \$8.2 million for the Transit Mall Extension North. Allocation of "Trade" funds is intimately related to the Transit Development Plan (TDP) now being refined by Tri-Met.
- The maximum allowable use of UMTA Section 9 funds for FY 1990 operating assistance is included (estimated to be \$4.1 million) which is equal to that for FY 1989. The Section 9 program is projected in the TIP on a continuing basis through post 1993 based upon the Transit Development Plan and its revisions adopted by Tri-Met.
- Private enterprise participation for UMTA Section 3 and Section 9 programs in accordance with Circular 7005.1. This requires that a local process be developed to encourage private providers to perform mass transportation and related services to the maximum extent feasible. See Attachment B.
- On May 11, 1989, the Metro Council adopted a resolution calling for withdrawal of the I-205 bus lanes and allowing for substitution of light rail as an eligible project.

The federal process regarding the withdrawal of portions of the Interstate highway system requires the governor of the concerned state to initiate the withdrawal request following adoption by the Metropolitan Planning Organization and local jurisdictions. The resolution and supporting resolutions of the concerned jurisdictions requested the Governor to formally initiate the withdrawal process by asking the Secretary of Transportation to approve the withdrawal of the I-205 bus lanes and to allow for the consideration of either light rail or a busway as an eligible project in the corridor using the Interstate Transfer funds. The Secretary's approval of this request will allow Metro to conduct an Environmental Impact Statement, in accordance with UMTA

regulations, to determine the preferred mode, segment and timing for the I-205 project.

Evaluation of transit financial capacity which demonstrates that there are sufficient resources to meet future operating deficits and capital costs.

TPAC has reviewed the annual Transportation Improvement Program and Annual Element and recommends approval of Resolution No. 89-1132

Background

The Metro TIP describes how federal transportation funds for highway and transit projects in the Metro region are to be obligated during the period October 1, 1989 through September 30, 1990. Additionally, in order to maintain continuity, funds are estimated for years before and after the Annual Element year. This FY 1990 TIP is a refinement of the currently adopted TIP and is structured by the following major headings:

Interstate Transfer Program
Urban Mass Transportation Administration Programs
Federal-Aid Urban System Program
Other Programs - Interstate, Primary, Bridge, Safety, State
 Modernization, Bike, Etc.

INTERSTATE TRANSFER PROGRAM

The TIP includes a fixed program amount for the Metro region of \$501,384,204 (federal) based upon the amount for the withdrawn freeways and \$731,000 of additional transit withdrawal value. This additional withdrawal value became available in April 1987 upon passage of the Surface Transportation Assistance Act (STAA) and can only be applied to transit projects. At the end of the federal fiscal year, unbuilt FY 1989 projects will automatically shift to FY 1990.

The FY 1990 Interstate Transfer Program of approximately \$25.0 million represents the full funding need and this, together with the projects that slip from FY 1989, is not in excess of the level of funding the region can anticipate. The noted amount is earmarked wholly for FHWA highway projects. Priorities will be established from among the full FY 1989 and FY 1990 programs later in the year based upon a closer estimate of funding revenues. Projects not funded in FY 1990 because of insufficient funds will be delayed; however, they will be considered for implementation in the event additional FY 1990 funds become available, or for funding in FY 1991.

A number of revisions to last year's Annual Report and to the overall project allocations are incorporated including a variety

of minor transfers due to cost overruns and underruns. Schedule changes to the Interstate Transfer Program consist of:

Project	From	To	
Category I			
Bus Purchases	1989	1991	
City of Portland			
N.W. 23rd Avenue/Burnside			
R/W	1989		
Const	1989	1991	
N.W. 21st/22nd Thurman			
R/W	1989	1991	
Const	1990		
N.W. Intersection Improvements (Const)	1989		
Airport Way II	1989		
Surcharge New Construction Requirement	1000	1990	
Roadway Construction	1990	1991	
Airport Way III	1001	1000	
Surcharge and Structures	1991	1990	
Multnomah County			
S.E. Stark - 221st to 242nd Const	1989	1990	
Clackamas County			
82nd Drive	1990	1991	
Thiessen Jennings Corridor	1990	1993	
Beavercreek Road			
R/W	1989		
Const	1990	1991	
New Projects:			
207th - I-84/223rd		\$580,170	
Johnson Creek Boulevard Improvement		\$600,000	
King-Harrison/42nd Avenue		\$178,500	
Pacific Highway West at Canterbury Lane		\$ 31,126	
		•	

McLoughlin Corridor

New estimates have been developed for the McLoughlin Corridor Project:

Unit I	R/W Const Total	\$ 6,137,000 11,900,000 18,037,000
Unit II	R/W Const Total	3,060,000 7,777,500 10,837,500

Unit IIIA				
	R/W	357,000		
	Const	2,720,000		
	Total	3,077,000	•	
PE		1,496,785		•
Total Proj	ect Cost	\$33,448,285	(federal	share)

Some \$20.8 million of Interstate Transfer Funds has been authorized for the McLoughlin Corridor projects; only the Tacoma Overpass and Harrison/River Road project can be fully built. The status of the corridor project using the latest cost estimate is:

Project	TIP Authorization	Shortfall
Tacoma Overpass and Harrison/River Road	\$18,037,000	\$ 0
Tacoma to Highway 224	1,266,215	9,571,285
Union/Grand Viaduct to Harold	0	3,077,000
Preliminary Engineering	1,496,785 \$20,800,000	$\frac{0}{$12,648,285}$

Additional funding is needed to fully complete the project (Units II and IIIA). Likely sources for the additional funding are the McLoughlin Corridor Reserve and the Six-Year Highway Improvement Program update currently being undertaken.

McLoughlin Corridor Reserve

The McLoughlin Reserve was established in March 1986 through Resolution No. 86-632. That resolution allocated \$20.8 million to McLoughlin Highway Improvements; \$1,000,000 to a Milwaukie Corridor DEIS; and \$3,281,000 to the McLoughlin Reserve, of which \$100,000 was allocated to the Southeast Corridor Study. The intent of the reserve when it was established was to fund projects resulting from the Southeast Corridor Study, further LRT studies in the Milwaukie Corridor, or other improvements in the corridor consistent with the McLoughlin Corridor Improvement Program. One of those projects -- Harrison/42nd/King -- was funded from the McLoughlin Reserve by a separate resolution in March 1989. That project was awarded \$178,500, leaving the reserve its current unobligated balance of \$3,002,610.

Resolution No. 89-1135 proposes to allocate the remaining \$3,002,610 McLoughlin Interstate Transfer Reserve to seven projects, subject to adoption of the Southeast Corridor Study,

and have therefore not been incorporated in Exhibit A. The projects are:

<u>Project</u>	Cost
Johnson Creek Boulevard (32nd Avenue to 45th Avenue)	\$1 m.
Harrison Street (Highway 224 - 32nd Avenue)	\$ 50,000 - P.E. Only
Johnson Creek Boulevard (Linwood Avenue to 82nd Avenue)	\$ 50,000 - P.E. Only
45th Avenue (Harney to Glenwood)	\$ 50,000 - P.E. Only
LRT Studies in Milwaukie Corridor	\$ 560,000
Hawthorne Bridge LRT study	\$ 5,000
McLoughlin Corridor Highway	\$1,287,610
	\$3,002,610

Regional Reserve

Metro is seeking policy guidance in allocating the remaining \$5.054 million in the Interstate Transfer Regional Reserve. This amount had been placed on hold pending determination of any remaining cost increases or claims on the Banfield LRT and highway project or the I-505 Alternative projects.

With the remaining \$5.054 million, it has been recommended that \$1 million be allocated towards transit, \$300,000 be allocated toward Metro Planning and the remaining \$3.75 million allocated towards alternate highway improvements.

The remaining \$3.75 million for alternative road improvements, however, requires policy guidance regarding the approach for staff to use in allocating these funds. In general, the options to be considered are as follows:

- A. 100 percent by formula.
- B. 75 percent by formula/25 percent based upon regionally established criteria.
- C. 100 percent by regionally established criteria.

Exhibit A does not reflect these proposals because formal approval will be forthcoming at a later date.

Overall Program Status

The current status of the Interstate Transfer Program through June 30, 1989 is:

	Highway	<u>Transit</u>	<u>Total</u>
Total Program	\$345,505,903	\$155,878,301	\$501,384,204
Past Obligations Balance	284,409,973 61,095,930	151,440,817 4,437,484	435,850,970 65,533,414
Appropriations to date Appropriations	316,164,718	152,961,012	469,125,730
to go	29,341,185	2,917,289	32,258,474

URBAN MASS TRANSPORTATION ADMINISTRATION PROGRAMS

Resolution No. 88-897 dealt with the comprehensive capital package and recommended the most appropriate use of all available and potential transit capital funding sources. The program in its entirety was incorporated in last year's Annual Report. Recent revisions to Section 3 Discretionary and Section 9 programs were approved through Resolution No. 89-1109 and have brought about changes to the two programs. These changes are highlighted as follows:

Section 3 Discretionary

- Bus Purchases (new project) -- \$4.2 million has been scheduled for FY 1990, and \$10.0 million for FY 1993. The FY 1993 funds will be held until EPA/Alternative Fuel issues are resolved. The \$4.2 million in conjunction with match monies will purchase, at today's prices, 30 standard buses with lifts.
- . Under terms of the full-funding agreement, a \$5.8 million balance is still available to conclude settlement of claims and other final costs. Tri-Met has earmarked a portion of this balance for claims in FY 1991.
- Project Breakeven -- Augmenting the Section 9 program is \$9.5 million of new Section 3 funding for FY 1990. This is in addition to \$5.5 million of previous Section 3 (1989) appropriations and this, in combination with Section 9 monies, will complete Project Breakeven. Funding for the project will allow acquisition of land by Tri-Met, which in turn will be leased back to private interests at commercial rates for private development. Lease revenues and new farebox revenues will help defray the operating costs of the existing MAX route.

Section 3 Discretionary funds are awarded on a competitive basis; therefore, not all projects can be considered for funding from this source. As such, only selected projects are recommended to be pursued.

Section 3 "Trade" Funding

These are funds committed through a \$76.8 million Section 3 "Letter of Intent." The funds are restricted to bus capital purposes under the terms for which they were awarded to the region but are flexible as to the particular bus capital purpose.

The \$76.8 million program in the TIP is predicated on a Letter of Intent extension to 1992 and is currently allocated as itemized on Attachment A and summarized below:

Firm projects with grants approved for expenditure	\$48,391,120
Projects programmed for grant applications next several years 1990 to 1992:	
1990	
Standard Buses North Mall Extension	\$10,000,000 6,600,000
<u>1991</u>	
Route Terminus Sites Parts and Equipment North Mall Extension Special Needs Mini-Buses Information/Communication Equipment	170,000 1,080,000 1,600,000 2,390,000
1992	
Route Terminus Sites Sunset Transit Center Parts and Equipment Contingency	80,000 5,270,000 100,000 <u>8,880</u> \$28,408,880

Program Status

TOTAL

The schedule of funding provided for in the Letter of Intent was approximately \$12 million per year from FY 1982 through FY 1988.

\$76,800,000

Tri-Met applied for these funds at a rate slower than provided by the schedule, so there is currently a remaining balance of \$28.4 million.

Tri-Met has requested an extension of the schedule for funding the remaining balance in the Letter of Intent, and the FY 1988 Conference Report contains specific language requesting a four-year extension. UMTA has concurred in the request for an extension of the Letter of Intent schedule. The revised extended schedule is as follows:

FY	1989	\$ 1.09	million
FY	1990	15.51	million
FY	1991	6.35	million
FY	1992	5.45	million

Section 9

These funds are committed to the region through a formula allocation. There is considerable flexibility on the use of the funds, although there is a maximum allowable level that can be used for operating assistance, and the remainder is generally intended for "routine" capital purposes such as bus replacement and support equipment. Actual funding levels are subject to amounts provided in the Surface Transportation Act, annual appropriations and fluctuations in the formula distribution.

Development of the Section 9 Program in the TIP was based on that proposed by Tri-Met with FY 1990 emphasis on the following projects:

Engineering and Final Environmental Impact Statement \$	1,863,200
Project Breakeven (partial funding for land acquisition, design and construction of a light rail station and associated improvements on MAX line)	4,300,000
Light Rail Vehicles - Air Conditioning Retrofit	1,920,000
Service Vehicles	53,600
Shop Equipment	45,840
Computer Equipment	252,080

Automatic Vehicle Locator - Demonstration

Telecommunications Equipment

Westside Light Rail Project Preliminary

24,320

Project	40,000
Security Equipment	320,000
Subtotal Capital	\$ 8,819,040
Operating Assistance (Up to 50% Funding) For period from July 1, 1989 to June 30, 1990	\$ 4,108,766
TOTAL	\$12,927,806

Section 9 Program Status

Appropriations:

<u>Year</u>	<u>Amount</u>
1983 1984 1985 1986 1987 1988	\$ 4,702,744 13,885,152 15,819,150 13,272,436 12,449,906 10,510,582 9,561,245 \$ 80,201,215
Less Obligations	\$ 74,072,709
Forecast: Carryover 1990 1991 1992	\$ 6,128,506 10,900,000 10,200,000 9,500,000
Total Program	\$110,801,215

Special Transportation

Section 16(b)(2) funding authorizes UMTA to make capital grants (through the state) to private non-profit social service organizations which provide transportation services to the elderly and handicapped.

One new special transportation project was added to the TIP totaling \$100,000 and covering the purchase of vehicles and equipment:

3	Eight-passenger mini-vans	\$ 40,005
2	Modified vans	52,435
2	Wheelchair lifts	7,560
		\$100,000

The project is targeted to providing special transportation services in the Portland metropolitan area to specific client groups not served by Tri-Met. Inclusion in the TIP was based on the need and the applicant's agreement to coordinate service with the LIFT program. The potential recipient is:

Volunteer Transportation Program, Inc.

Inclusion of the project in the TIP for FY 1989 will allow the applicant to request 16(b)(2) funding from ODOT which, in turn, will award funds following consideration of other applications throughout the state.

FEDERAL-AID URBAN SYSTEM PROGRAM

Federal-Aid Urban (FAU) funds can be spent on most of the region's arterials and collectors with allocations from the state to the region based on a population formula. Under federal law, the City of Portland receives a designated portion of the funds with the remainder going to the region. With the FAU allocation in 1988, JPACT established a policy involving the three counties in determining the specific uses of 75 percent of the regional funding, leaving 25 percent to be used on a discretionary basis for agreed-upon project priorities.

Resolution No. 89-1064 allocated Federal-Aid Urban funds for FY 1989 to FY 1991. The formula for distribution of the funds called for each county in the Metro region to receive at least a 75 percent "minimum allocation" based upon population (75 percent of the funds allocated based upon population, 25 percent by regional priority). In addition, it was recommended to "hold back" \$500,000 of the funds to allow for uncertainties in funding levels actually available in the FY 1990 to FY 1991 years. By following this procedure, the allocations for the region were:

FY 1989 Actual		\$2,082,948
FY 1990 Projected		2,094,393
FY 1991 Projected		2,094,393
	TOTAL	\$6,271,734
Less Proposed Reserve		500,000
Balance to Allocate		\$5,771,734

This balance was then distributed to the counties and to reserves as follows:

Multnomah County @ 24.4%	\$1,056,227
Clackamas County @ 31.4%	1,359,243
Washington County @ 44.2%	1,913,330
Unallocated Reserve	1,442,934

TOTAL \$5,771,734

Attachment A reflects these allocations for each of the jurisdictions and includes housekeeping functions as well as new projects under the FAU program. New projects for the region which have been allocated new funding are:

	207th - I-84/223rd - P.E./Reserve	
	for future	\$1,056,227
•	Sunnybrook Split Diamond P.E.	50,000
•	Beaverton/Tualatin Highway @ S.W. Bridgeport	178,000
•	Maple Street Reconstruction - T.V. Highway to	
	Pacific Avenue	80,000
•	Cornelius Pass Road - Sunset Highway to Cornell	
	Road - Construction	600,000
		\$1,964,227

Pre-existing projects in the region which utilize additional new funding allocations are:

•	Boones Ferry Road Hall - Allen to Greenway Other Projects Supplemented Clackamas County Reserve	\$ 620,000 1,200,000 60,330 484,243 \$2,364,573
		\$4.328.800

The City of Portland received a "fair and equitable" allocation for FY 1989 as a percentage of the Portland Urbanized Area. This new allocation and projections for FY 1990 and FY 1991 are reflected in the City's portion of Attachment A. Seven new projects have been programmed for the City:

o Front \$ 380,000
ents - P.E.
460,000
ements -
245,000
E. and
108,000
am - P.E.
348,000
_
800,000
442,000

Resolution No. 89-1090 allocated the amount set aside for the Regional Unallocated Reserve of \$1,442,934 which represented the "25 percent regional priority" and required projects to compete for use of the funds. JPACT's technical criteria was used to rank the projects. Selected projects were:

McLoughlin Boulevard - Harrison to Railroad Crossing - fully funded Cornelius Pass Road - Sunset to Cornell -

\$933,000

509,934

The Cornelius Pass Road project needs \$600,000 for full implementation, but will receive only the above amount in FAU funds, leaving \$90,006 to be covered from other county resources.

Some \$1.7 million of the City of Portland FAU funds were earlier earmarked for the Convention Center Transit/Highway Improvements project. As related parts of this, funds were transferred and assigned to three sub-element projects:

- . Pacific Highway East/Multnomah Street Glisan Street
- . Holladay Avenue Union Avenue to N.E. 9th Avenue
- . Lloyd Boulevard Grand Avenue to N.E. 11th Avenue

OTHER PROGRAMS

Six-Year Highway Improvement Program

partially funded

ODOT's 1989-1994 Six-Year Highway Improvement Program contains projects identified by a variety of means. The program is updated every two years and incorporates input from citizens, local governments and Highway Division staff, as well as projects carried over from the last Six-Year Program. It is currently undergoing review for the purpose of identifying changing priorities in light of a changing revenue picture. This updated version is expected to be completed later this year.

Metro has initiated the process to establish priorities for the development of a unified recommendation for modernization projects of regional scope to the Oregon Transportation Commission for inclusion in the updated ODOT Six-Year Program. This process will incorporate the previous prioritization efforts conducted for the 1989-1994 Six-Year Program as well as an evaluation of the new project proposals relative to the ranking criteria adopted by JPACT.

The prioritization process will concern itself with three basic categories of project proposals:

- Category 1 -- previously prioritized projects already included in the current (1989-1994) Six-Year Program;
- Category 2 -- previously prioritized projects not contained in the current Six-Year Program; and
- Category 3 -- new project proposals to be folded into the overall prioritization.

It is expected that changes to the program in the TIP will be required after the Six-Year Program is updated.

Immediate Opportunity Fund

The purpose of the "Immediate Opportunity Fund" is to support specific economic developments in Oregon through the construction and improvement of roads. Funding for immediate economic opportunities has been created from the revenues provided by the 1987 Legislature.

The Immediate Opportunity Fund will be financed at a level of \$5 million per year to a maximum of \$40 million through FY 1996. The Fund is restricted for use in situations that require a quick response and commitment of funds.

As a guideline, it is anticipated that the maximum amount available for a single project is \$500,000 or 10 percent of the annual program level.

This fund may be used only when other sources of financial support are unavailable or insufficient. The Immediate Opportunity Fund is not to be used as a replacement or substitute for other funding sources.

The Immediate Opportunity Fund is designed to meet the following objectives:

- A. Provide needed road improvements to influence the location or retention of a firm or development in Oregon.
- B. Provide procedures and funds for the Oregon Transportation Commission to quickly respond to economic development opportunities.
- C. Provide criteria and procedures for the Oregon Economic Development Department (OEDD), other agencies, local governments and the private sector to work with ODOT to provide road improvement needs to assure specific job development opportunities for Oregon.

A key factor in determining eligibility for funds is whether an immediate commitment of funds is required to influence the location of a firm or development in Oregon. Funding is reserved for cases where there is an actual transportation problem to be solved, and where a location decision hinges on an immediate commitment of road construction resources. The fund is restricted to job retention and committed job-creation opportunities, and is not for speculative investments.

A second requirement is that the jobs to be created by the development must be "primary" jobs such as manufacturing, distribution or service jobs that create new wealth for the Oregon economy. Normally, retail jobs do not meet this definition.

OEDD is the head agency for reviewing proposals for economic development eligibility. ODOT will assess the proposed transportation eligibility.

The Other Program section of the TIP is organized by funding sources:

Federal-Aid Interstate System Federal-Aid Primary Highway Bridge Replacement Title II Safety Program State Highway Funds Financing Bicycle Transportation

UMTA Policy on Private Enterprise Participation

On December 5, 1986, UMTA published Circular 7005.1 establishing requirements for ensuring that UMTA grantees provide for consideration of private sector involvement in transit service delivery. Included in the circular is the requirement that the metropolitan planning organization adopts policies ensuring private sector participation and certifies at the time of adoption of the annual Transportation Improvement Program that all requirements are being met. In accordance with these requirements, Tri-Met's compliance with the policy to ensure private sector participation is demonstrated and endorsed by this resolution.

Self-Certification

Metro's certification of compliance with federal requirements has been adopted under separate resolution.

Financial Capacity

On March 30, 1987, UMTA issued Circular 7008.1 which requires transit agencies and MPOs to evaluate the financial ability of transit agencies to construct and operate projects proposed in the TIP. Tri-Met's Finance Administration has conducted an analysis of the District's ability to fund the capital improvements appearing in the TIP. The results show that Tri-Met has the financial capacity to fund the capital projects as programmed.

Air Ouality

The TIP is in conformity with the Oregon State Implementation Plan (SIP) for Air Quality adopted in 1982. Updates to the

carbon monoxide and ozone plans demonstrate attainment of both standards by 1988. All projects specified in the SIP as necessary for attainment of these standards are included in the TIP. In addition, the TIP has been reviewed to ensure that it does not include actions which would reduce the effectiveness of planned transportation control measures.

Federal Transportation Funding

An overview of current federal funding has been provided in the form of Attachment A to the staff report. The overview summarizes the federal funding sources, match, eligibility, and approval requirements necessary to procure federal funds.

EXECUTIVE OFFICER'S RECOMMENDATION

The Executive Officer recommends approval of Resolution No. 89-1132.

WP:mk 89-1132.RES 08-23-89

BEFORE THE COUNCIL OF THE THE METROPOLITAN SERVICE DISTRICT

FOR THE PURPOSE OF ADOPTING THE)	RESOLUTION NO.	89-1132
FY 1990 TO POST 1993 TRANSPORTATION)	Introduced by	
IMPROVEMENT PROGRAM AND THE FY 1990)	Mike Ragsdale,	Chair,
ANNUAL ELEMENT)	JPACT	

WHEREAS, Projects using federal funds must be specified in the Transportation Improvement Program by the fiscal year in which obligation of those funds is to take place; and

WHEREAS, In accordance with the Metropolitan Service
District-Intergovernmental Resource Center of Clark County
Memorandum of Agreement, the Transportation Improvement Program
has been submitted to the Intergovernmental Resource Center of
Clark County for review and comment; and

WHEREAS, The Metropolitan Service District must certify compliance with the proposed policy on private enterprise participation in the Urban Mass Transportation Program; and

WHEREAS, The Metropolitan Service District must evaluate the program of transit projects included in the Transportation Improvement Program to ensure financial capacity; and

WHEREAS, Some 1989 Annual Element projects may not be obligated by the end of FY 1989 and the exact time for their obligation is indeterminate; now, therefore,

BE IT RESOLVED:

1. That the Council of the Metropolitan Service
District adopts the FY 1990 Transportation Improvement Program
for the urban area as contained in the attachment to this Resolu-

tion marked Exhibit A.

- 2. That projects that are not obligated by September 30, 1989, be automatically reprogrammed for FY 1990 for all funding sources.
- 3. That the Council of the Metropolitan Service
 District allows funds to be transferred among projects consistent
 with the Transportation Improvement Program Project Management
 Guidelines adopted by Resolution No. 85-592.
- 4. That the Transportation Improvement Program is in conformance with the Regional Transportation Plan and the 1982 Air Quality State Implementation Plan (Ozone and Carbon Monoxide) and that the planning process meets all requirements of Title 23 Highways and Title 49 Transportation of the Code of Federal Regulations.
- 5. That the Council of the Metropolitan Service District finds that Tri-Met has complied with the requirements of the region's Private Enterprise Participation Policy, adopted in August 1987. Documentation is shown in Attachment B to the staff report.
- 6. That the Council of the Metropolitan Service District finds sufficient financial capacity, as demonstrated in the adopted Transit Development Plan, to complete the projects incorporated in the Transportation Improvement Program.
- 7. That the Council of the Metropolitan Service
 District hereby finds the projects in accordance with the Regional Transportation Plan and, hereby, gives affirmative Inter-

governmental	Project	Review	approval.

	ADOPTED	by the	council	of	the	Metro	politan S	Service	
District	this	_ day c	of	STEAN		, 19	89.

ATTACHMENT A Federal Transportation Funding

	regerati	ransportation runding	
Funding Source	Amount Federal/State/Local Match	Eligibility	Approval Requirements
Interstate (FHWA)	\$18 m. per year statewide 92/8	For completion of previously approved segments of the Interstate system. Includes \$17.75 m. for I-205 busway.	Six-Year Program/TIP
Interstate – 4R	\$38 m. per year statewide 92/8	For rehabilitation and modern- ization of 718-mile Interstate system throughout Oregon (urban and rural).	Six-Year Program/TIP
Primary (FHWA)	\$29 m. per year statewide 88/12	For rehabilitation and modern- ization of 4,926 miles of major state highways throughout Oregon (urban and rural); by OTC policy, 60 percent (\$18 m.) is for rehabil- itation; 40 percent (\$11 m.) is for modernization.	Six-Year Program/TIP
Urban (FHwA)	\$7 m. per year statewide, including: - \$1.6 m. Portland - \$2.2 m. Portland region 88/6/6	For rehabilitation and modern- ization of 1,022 miles of arter- ials and collectors in the Portland region; eligible to be transferred to bus or rail facilities or vehicles.	TIP/OTC
Bridge Replacement (FHWA)	\$10 m. per year statewide 80/10/10	For rehabilitation and replacement of deficient bridges; selected on the basis of statewide bridge sufficiency rating; 15-35 percent of funds to be spent on roads off the Federal-Aid System (not arterials or collectors).	Six-Year Program/TIP
Safety (FHWA)	\$5 m. per year	For the elimination of hazardous conditions and railroad crossings.	Six-Year Program/TIP
Interstate Transfer (FHWA or UMTA)	\$501 m. in 15 years; \$33 m. left to appropriate from Congress; \$5.1 m. Regional Reserve left to allocate; \$3.0 m. McLoughlin Reserve left to allocate. 85/15	For any transit or highway capital improvement on state highways, arterials, collectors (except Interstate), including bus and rail facilities and vehicles. Priority commitment of Regional Reserve for I-505 and Banfield final costs.	TIP
Section 9 (UMTA)	\$11.6 m. per year to Tri-Met 50/50 80/20	Up to \$4.1 m. per year for operations assistance at 50/50. Balance (\$7.5 m. per year) intended for routine capital purposes at 80/20 (such as equipment, bus replacement and minor capital improvements) but is very flexible and can be used for rail purposes. Available to Portland region on a formula basis.	TDP/TIP
Section 3 (UMTA)	80/20	Available on a discretionary, competitive basis for major capital improvements, including fleet expansion, stations, park-and-ride lots, garages and LRT. LRT funding subject to following defined process and meeting cost-effectiveness standards.	TDP/TIP
Section 3 Letter of Intent (UMTA)	\$76.8 m. at \$12 m./year \$48.4 m grants received \$28.4 m programmed 80/20	"Letter of Intent" approved by Congress and awarded to Portland region in 1982 for funding in 1982—1988. Provided as a commitment to "bus only" improvement program in exchange for regional "trade" of Interstate Transfer funds.	TIP/TDP
Section 16(b)(2) (UMTA)	\$320,000 per year statewide 80/20	Available to private, non-profit corporations only for capital improvements required to serve elderly and handicapped and awarded competitively by ODOT. Applications provides local match. Proposed service in Portland region must be service that cannot be provided by Tri-Met LIFT Program.	int

ATTACHMENT B

POLICY ON PRIVATE ENTERPRISE PARTICIPATION IN THE URBAN MASS TRANSPORTATION PROGRAM

TRI-MET DOCUMENTATION OF COMPLIANCE FOR FY 90

INVOLVEMENT OF THE PRIVATE SECTOR

Projects included in the FY 90 annual element of the Transportation Improvement Program (TIP) have been identified through the annual Tri-Met budget process. The Tri-Met budget undergoes extensive review by a seven member Citizens Advisory Committee and a public hearing on the proposed budget is convened by the Tri-Met Board of Directors.

The grant application process for all capital projects includes direct mailing to private transportation providers of notices of opportunity for public hearing on the proposed projects. Further opportunity for comment on the projects by private sector representatives is afforded when the Transportation Policy Alternatives Committee and the Joint Policy Advisory Committee on Transportation review the projects prior to approval of the TIP.

Finally, the competitive procurement process for purchase of equipment or vehicles, and provision of services or materials for the TIP annual element projects includes distribution of notices of bid advertisements or requests for proposals to prospective private sector bidders/proposers.

All major capital projects are examined prior to formulation of site plans to be certain that joint development possibilities are maximized from the inception of the project. This analysis focuses on possibilities in the area of obtaining contributions from property owners and developers and in being certain that air rights may be utilized without undue economic penalty to the private development.

In order to increase coordination and information sharing with the private sector, the Oregon Transit Association has expanded membership to include more private transportation providers. The involvement of these private operators in the Oregon Transit Association and their participation in the 1988 annual conference significantly increased the coordination between public transit and the private sector. Continued involvement and communication is scheduled to take place at the 1989 annual conference in September.

PROPOSALS FROM THE PRIVATE SECTOR

Tri-Met has received two unsolicited proposals from the private sector during the last year. Both the proposal for privately operated service along the I-205 corridor and the proposal for testing videotex and audiotex applications for transportation are being considered for funding under the UMTA Entrepreneurial Services Program.

Tri-Met offered no RFP's for the provision of transportation service during the last year but, in the second Quarter of FY '89, Tri-Met will issue RFP's for Elderly and Disabled Service and fixed-route services which are presently contracted to private industry. These contracts will be worth approximately 3.5 million dollars per year.

IMPEDIMENTS TO COMPETITION

A major impediment to holding more service out for competition continues to be the labor union's opinion that only elderly and disabled services can be contracted out under the existing labor contract. However, on January 1, 1989, two areas that had previously received Tri-Met service were withdrawn from the District and the service was replaced by private for-profit operators.

Although Tri-Met was not able to gain approval for increased contracted transportation during the labor negotiations which took place recently, there was an agreement to contract out the transit police at a value of over one-half million dollars and management can also contract out maintenance to bus shelters.

STATUS OF PRIVATE SECTOR COMPLAINTS

Tri-Met has received no private sector complaints regarding privatization in the past year.

PLANNING PROJECTS

Tri-Met is continuing to work on comparing costs of alternative suburban services (contracted service, local transportation districts, shared-ride taxicab service and private vehicles) with the fully allocated costs for Tri-Met service. This evaluation was aided by the removal of Tri-Met service in Wilsonville and Molalla and their replacement by private operators.

'PRIVATE ENTERPRISE PARTICIPATION POLICY

Dispute Resolution Process

A protest based upon Tri-Met's Private Enterprise Participation Policy must be received in writing by the Executive Director of Public Services or his designee no later than 10 working days following any decision or recommendation. The decision of the Executive Director of Public Services can be appealed by written communication to the General Manager or his designee within 10 working days of receiving notice of the Executive Director's decision. Tri-Met must in each case render a decision within 10 working days of receipt of the protest or appeal.

The protest or appeal must be in writing, include a detailed explanation of the basis of the protest or appeal, and state the course of action that the protesting party thinks Tri-Met should take. Any interpretation of UMTA regulations can be appealed to UMTA following the Tri-Met steps.

This dispute resolution process is not applicable to RFQ/RFP or bid protests which have their own procedures.

CONSIDERATION OF RESOLUTION NO. 89-1135 FOR THE PURPOSE OF ALLOCATING THE MCLOUGHLIN CORRIDOR INTERSTATE TRANSFER RESERVE

Date: September 7, 1989 Presented by: Andrew C. Cotugno

PROPOSED ACTION

This resolution allocates the remaining \$3,002,610 McLoughlin Interstate Transfer Reserve to seven projects described in Exhibit A, subject to adoption of the Southeast Corridor Study. The projects include projects resulting from the Southeast Corridor Study, future light rail studies in the Milwaukie Corridor, and the McLoughlin Boulevard highway improvements.

The Southeast Corridor Technical Advisory Committee (TAC) and the Transportation Improvement Program (TIP) Subcommittee discussed the proposed allocation at their meetings on August 1 and 2 and unanimously endorsed this recommendation.

TPAC has reviewed the proposed allocation and recommends approval of Resolution No. 89-1135.

FACTUAL BACKGROUND AND ANALYSIS

The McLoughlin Reserve was established in March 1986 through Resolution No. 86-632. That resolution allocated \$20.8 million to McLoughlin Highway Improvements; \$1,000,000 to a Milwaukie Corridor DEIS; and \$3,281,000 to the McLoughlin Reserve, of which \$100,000 was allocated to the Southeast Corridor Study. The intent of the reserve when it was established was to fund projects resulting from the Southeast Corridor Study, further LRT studies in the Milwaukie Corridor, or other improvements in the corridor consistent with the McLoughlin Corridor Improvement Program.

The Southeast Corridor Study performed an analysis of existing and future transportation problems in a broad study area including Southeast Portland, Milwaukie, and inner Clackamas County. That study, which has not yet been adopted, defined eight projects which are important to provide adequate mobility in the study area, mitigate possible impacts of the Tacoma Overpass, and lessen traffic pressure on Johnson Creek Boulevard. One of those projects -- Harrison/42nd/King -- was funded from the McLoughlin Reserve by a separate resolution in March 1989. That project was awarded \$178,500 leaving the reserve its current unobligated balance of \$3,002,610.

A recent Oregon Department of Transportation (ODOT) analysis indicates that the McLoughlin Corridor Improvement Program is underfunded by approximately \$14 million. This is following a value engineering study which reduced costs on certain elements of the project which were feasible to scale back. The discussion by the Southeast Corridor TAC and the TIP Subcommittee was therefore put in the context that only a limited portion of the highway overrun could be funded even if all the reserve were allocated to it and that ODOT would have to find other resources to complete the highway projects.

Following a discussion of the 1986 JPACT resolution and statements made to neighborhood groups over the past several years, the Southeast TAC and the TIP Subcommittee recommend that the McLoughlin Reserve in part be allocated to a portion of the projects resulting from the Southeast Corridor Study as reflected in Exhibit A. These projects would mitigate traffic impacts of the Tacoma Overpass on Johnson Creek Boulevard. In addition, allocations are recommended to provide additional funding for light rail studies in the Milwaukie corridor and provide additional resources to the McLoughlin Corridor Improvement Program.

The TIP Subcommittee recommends one change from the Southeast Corridor TAC. The Southeast TAC recommends that the Johnson Creek Boulevard project be defined and agreed to within 24 months of this approval. If agreement is not reached, the TAC recommends that the million dollar allocation be available only for projects 2, 3 and 4 on the attached list, which are recommended to be funded for preliminary engineering by this action. The TIP Subcommittee recommends that, if agreement is not reached on the Johnson Creek Boulevard project, the monies would go back into the reserve and be eligible for a wider variety of McLoughlin Corridor related projects.

EXECUTIVE OFFICER'S RECOMMENDATION

The Executive Officer recommends approval of Resolution No. 89-1135.

BEFORE THE COUNCIL OF THE THE METROPOLITAN SERVICE DISTRICT

FOR THE PURPOSE OF ALLOCATING THE)	RESOLUTION NO.	89-1135
MCLOUGHLIN CORRIDOR INTERSTATE)	Introduced by	
TRANSFER RESERVE)	Mike Ragsdale,	Chair,
)	JPACT	

WHEREAS, Metro Resolution No. 86-632 approved a Mc-Loughlin Boulevard Improvement Program, consisting of highway and transit improvements, and established a McLoughlin Corridor Interstate Transfer Reserve; and

WHEREAS, Resolution No. 86-632 included a provision to allocate the newly established Reserve to projects in the corridor that are consistent with the McLoughlin Corridor Improvement Program or that result from the Southeast Corridor Study; and

WHEREAS, The Southeast Corridor Study identified projects which would mitigate potential impacts of the McLoughlin Corridor Improvement Program and improve mobility within the Southeast Study area; and

WHEREAS, These projects have been endorsed by the Southeast Corridor Citizens and Technical Advisory Committees; and

WHEREAS, ODOT and the concerned local jurisdictions have identified the need for further resources to be allocated to the McLoughlin Corridor highway improvements; now, therefore,

BE IT RESOLVED:

- 1. That the Council of the Metropolitan Service District endorses allocation of the McLoughlin Corridor Interstate
 Transfer Reserve to the projects described in Exhibit A.
- 2. That the Transportation Improvement Program is hereby amended in accordance with Exhibit A.

RESOLUTION

The Central Eastside Industrial Council voted unanimously to RECOMMEND THAT:

Improvements made by the County to the Hawthorne Bridge and Ramps include any future requirements necessary for completion of the Milwaukie Light Rail Line.

R. H. Parker, Jr., Chairman

Central Eastside Industrial Council

DRAFT

A resolution for the purpose of presenting a joint southeast neighborhood and business district position as regards the proposed transit corridors to Milwaukie, Oregon (light rail) from downtown Portland, Oregon and across the Hawthorne Bridge, as presented in Policy Number 4, Transportation portion of the Central City Plan which was adopted by the City of Portland on March 24, 1988.

WHEREAS, the Central City Plan, as adopted, was developed by several commissions and committees with direct involvement and support by over 10,000 citizens, and that as a result of these actions, it would be imprudent to consider changing a plan that these citizens of Portland helped develop.

WHEREAS, we do support, and always have supported, an integrated light rail system throughout the metropolitan area to provide transportation capacity for our region's growth and to expedite an economically efficient method of transportation.

addresses WHEREAS, our concern what should be Portland's most effective strategic position that will serve both the North Macadam area and Portland's southeast neighborhoods and business districts. We further believe that consensus and support are critical elements to compete successfully for public and private funds. To meld two distinct transportation corridors (west bank and east bank) into a single corridor competition where one is destined to lose, insures conflict and loss of support.

WHEREAS, there are eighteen (18) southeast neighborhoods impacted that represent approximately 25% of the population of the City of Portland. This population generally consists of people with the demographics well suited for light rail transit corridor.

WHEREAS, with the location of OMSI to it's planned location on the old Station L property targeted for completion in late 1991, the potential ridership in support of an anticipated one million visitors per year is significant. Combine this with the potential ridership linked to completion of the Oregon Convention Center and it's surrounding activities, the issue becomes even more critical as an essential part of the total integrated transit system.

THEREFORE, BE IT RESOLVED, that

- 1. Policy Number 4, Transportation portion of the Central City Plan as it relates to transit corridor (light rail) to Milwaukie, Oregon should be followed.
- 2. The transit corridor (light rail) through North Macadam to Lake Oswego, Oregon should be approached separately from the alignment from downtown Portland, across the Hawthorne Bridge to Milwaukie, Oregon.

TO:

Joint Policy Advisory Committee on Transportation (JPACT)

FROM:

Andy Cotugno, Transportation Director

RE:

ODOT SIX-YEAR HIGHWAY PROGRAM -- REGIONAL PRIORITIES

ODOT's schedule for updating their Six-Year Highway Improvement Program is as follows:

September-October 1989

Oregon Transportation Commission

(OTC) Work Sessions

November 1989

Release Preliminary Draft

December 1989

OTC Approves Draft for Public

Hearing

February 1990

Public Hearing (Statewide)

June 1990

OTC Adoption

Attached is a "Draft" staff report and resolution dealing with project-specific priorities. This recommendation is now under review by TPAC and will be forwarded for JPACT adoption at the October 12 meeting. In addition to project-specific priorities, TPAC recommends that JPACT communicate a number of policy concerns to the OTC to take into consideration as they set the overall policy direction for the program. In particular, TPAC recommends that the following issues be presented to the OTC:

- 1. Consideration should be given to adding the Sunset Highway to the Access Oregon system and to scheduling improvements to be coordinated with the LRT construction schedule. The Sunset Highway should meet ODOT's criteria for the Access Oregon system.
- 2. Consideration should be given to maintaining an adequate funding level for Interstate modernization. The past policy of splitting the FAI-4R funds 60/40 percent for Rehabilitation/Modernization ensures needed modernization projects can be advanced while a change in policy to 90/10 percent Rehabilitation/Modernization would significantly delay the entire program. Maintaining the

40 percent share or supplementing FAI-4R funds with state funds should be considered.

- 3. ODOT should clarify how it proposes to treat arterial projects:
 - a. which arterials does ODOT plan to retain and improve; what funding program is set up for this purpose?
 - b. which arterials does ODOT plan to drop; under what conditions should local jurisdictions expect to assume responsibility?
- 4. The Access Oregon program is a good one, but the region may see little or no improvements for eight to ten years. Although the region expects to seek funding from the Access Oregon program for the Westside Bypass, the Sunrise Corridor and the Mt. Hood Parkway, ODOT's policy prohibits including a commitment to construction in the Six-Year Program until the project has completed the EIS process. As such, funding cannot be committed in this update and perhaps the next update. If the OTC fully commits the Access Oregon funding, no construction activity can be committed to for the next six to eight years, causing a significant delay to these projects. Consideration should be given to not fully committing all available Access Oregon funding in the next several updates to the Six-Year Highway Program.
- 5. Consideration should be given to establishing a funding program for intersection improvements, freeway management projects and other small scale operations improvements. These projects produce a very high degree of benefit at minimal cost.
- 6. Funding Commitment -- The Portland region has historically viewed the Six-Year Program as a commitment by ODOT to fund the project. This is a good policy that should be continued. Furthermore, ODOT should maintain a commitment to a project once included in the Six-Year Program in the event funding is reprogrammed to other purposes.

CONSIDERATION OF RESOLUTION NO. 89-1134 FOR THE PURPOSE OF ESTABLISHING THE REGION'S PRIORITY HIGHWAY PROJECT IMPROVEMENTS FOR INCLUSION IN THE 1991-1996 ODOT SIX-YEAR HIGHWAY PROGRAM

DATE: September 7, 1989 Presented by: Andrew C. Cotugno

PROPOSED ACTION

This resolution would establish the region's priorities for needed highway improvements on the State Highway System to be included for funding in the 1991-1996 Oregon Department of Transportation (ODOT) Six-Year Highway Program. Prior to commencing construction, local government must demonstrate that these projects are consistent with their local comprehensive plans.

FACTUAL BACKGROUND AND ANALYSIS

To begin implementing the regional 10-year transportation program contained in the adopted Regional Transportation Plan (RTP), priorities must be established to guide specific funding decisions, now and during the course of the 10-year period. A major source of funds for the improvements necessary on the State Highway System within the region is the ODOT Six-Year Program, which is currently being updated to provide funding for projects to be implemented during 1991-1996. The attached resolution identifies the region's highway project priorities for inclusion in the current update of the ODOT program.

The highway and transit improvements required to provide an adequate level of service on the region's transportation system have been identified as part of the recently adopted RTP Update. Many of the improvements are projects needed on the State Highway System. Criteria were developed by the Joint Policy Advisory Committee on Transportation (JPACT) to evaluate these necessary improvements so that a set of regional priorities could be determined and forwarded in testimony before the Oregon Transportation Commission (OTC) to be included in the current ODOT Six-Year Program update process.

These criteria consisted of technical measures of current and 1998 congestion levels, vehicle hours of delay (current and 1998), accident rates, economic development factors, and overall cost/benefit in terms of expected year 2005 vehicle usage (see

Attachment A). Point values were assigned for each criterion, and the projects were ranked in each category of Six-Year Program funding: Interstate projects; Access Oregon (see below) projects; and other state-funded projects. The new project proposals for the current update are shown in Table 1. Overall recommendations for inclusion in the Six-Year Program update combining previously ranked projects and new proposals were then made using a combination of the technical ratings and subjective factors such as timing and relationship to other projects (see Tables 2 through 4). Any of those projects recommended for PE/ROW in the "high priority" categories could be accelerated to construction if the process proceeds faster than anticipated at this time.

Access Oregon is a recently added category of project funding in the ODOT Six-Year Plan process. Beginning in 1990, the OTC plans to focus approximately \$150 million in new revenues on projects to modernize routes which significantly contribute to the economic health of the state while providing access to tourist destinations. As currently proposed by ODOT, the Access Oregon and Interstate routes cover all of the major radial corridors in this region (from I-84 to U.S. 26 east; McLoughlin Boulevard and the Sunrise Corridor; the Western Bypass and Highway 99W; I-5, I-84; and U.S. 30) except the Sunset Highway (U.S. 26 West). Sunset Highway is the only major radial corridor that would not qualify for either Interstate funds or Access Oregon funds. is strongly recommended that the Sunset Highway, obviously important from an economic standpoint as the access route to the growing employment base in Washington County and recreationally important as the major metropolitan area route to Tillamook (via Highway 6) and Seaside, be included as either an Access Oregon route or a very high priority for funding from "other" state highway funds. To that end, Sunset Highway improvements have been included in both the Access Oregon priorities (Table 3) and the Other State Fund priorities (Table 4).

In addition to the specific project recommendations, two more generalized priorities were formulated in the process:

- That the state should pursue the establishment of an "operations fund" for each region to be used for intersections and related operations-type improvements, especially in light of the reduction in HES funding levels; and
- That the funding for management technique projects on the freeway system (ramp metering, incident management, etc.) should be pursued. These techniques are often inexpensive and can be a major factor in the more effective use of existing freeway capacity.

There was unanimous concurrence of the Transportation Improvement Program Subcommittee to forward the attached resolution to the Transportation Policy Alternatives Committee (TPAC) for approval.

EXECUTIVE OFFICER'S RECOMMENDATION

The Executive Officer recommends approval of Resolution No. 89-1134.

ATTACHMENT A

I. JPACT CRITERIA

To implement the 10-year program, priorities must be established to guide specific funding decisions, now and during the course of the 10-year period. Criteria for setting these priorities will be as follows:

A. Criteria for Ranking Projects:

- Improvements that correct severe existing traffic problems will have first priority.
- Improvements that correct traffic congestion problems anticipated in the next 10 years and improvements that correct access capacity deficiencies that constrain 10-year development areas will have next priority.
- B. In order to minimize costs, regional corridor improvements to be implemented will give priority consideration to actions to reduce costs through increased people-moving capacity obtained by transit, regional and corridor ride-share programs and low-cost management techniques such as ramp metering, signal improvements, access control and high-occupancy vehicle lanes.
- C. Large projects should be broken into manageable parts so that the most critical part is prioritized for construction.
- D. Consideration should be given to the region "reserving" a portion of available funds in order to be able to quickly respond to economic development opportunities.

II. TECHNICAL CRITERIA

- A. 1985 v/c: Volume to capacity ratio (p.m. pk. hr./pk. direction)
 - \cdot > .9 = High = 3 pts.
 - \cdot .8 .9 = Med. = 2 pts.
 - \cdot < .8 = Low = 1 pt.
- B. 1985 Accident Rate per vehicle mile (from 1985 ODOT Accident Rate Book)
 - > 124% statewide median = High = 3 pts.
 - 100% 124% statewide median = Med. =
 2 pts.
 - 100% statewide median = Low = 1 pt.

C. 1985 VHD = annual vehicle hours of delay

(time at assigned peak-hour volume) - (time at LOS "c" volume) x 3,300 x peak-hour volume

- 1. Intersections/Interchanges
 - > 9 hours = High = 3 pts.
 - 5 9 hours = Med. = 2 pts.
 - < 5 hours = Low = 1 pt.
- 2. Interstate Projects
 - > 74 hours = High = 3 pts.
 - 25 74 hours = Med. = 2 pts.
 - < 25 hours = Low = 1 pt.</pre>
- 3. Link Improvements
 - > 15 hours = High = 3 pts.
 - 7.5 15 hours = Med. = 2 pts.
 - < 7.5 hours = Low = 1 pt.</pre>
- D. 1998 v/c: Volume to capacity ratio (p.m. pk. hr./pk. direction)
 - > .94 = High = 3 pts.
 - \cdot .85 .94 = Med. = 2 pts.
 - \cdot < .85 = Low = 1 pt.
- E. 1998 VHD = annual vehicle hours of delay

(time at assigned peak-hour volume) - (time at LOS "c"
volume) x 3,300 x peak-hour volume

- 1. Intersections/Interchanges
 - > 19 hours = High = 3 pts.
 - 10 19 hours = Med. = 2 pts.
 - < 10 hours = Low = 1 pt.</pre>
- 2. Interstate Projects
 - > 149 hours = High = 3 pts.
 - 50 149 hours = Med. = 2 pts.
 - < 50 hours = Low = 1 pt.
- 3. Link Improvements
 - > 29 hours = High = 3 pts.
 - · 15 29 hours = Med. = 2 pts.
 - < 15 hours = Low = 1 pt.</pre>

F. 1998 v/c > .9 Into Development Area

Does the project improve 1998 access into an area with vacant developable acreage with a projected v/c greater than .9? (Yes/No)

G. Recent Development Occurred?

Using 1980-1987 Total Employment and recent commitments, is the area accessed by the project actively developing? (Yes/No)

Combined Rating for F. and G.

- Yes/Yes = High = 3 pts.
- Yes/No or No/Yes = Med. = 2 pts.
- No/No = Low = 1 pt.

H. Cost per 2005 VMT (or VT: Interchanges and intersections)

Estimated project cost ÷ 2005 Vehicles or Vehicle Miles of Travel

Intersections/Interchanges

- < \$.51/vehicle = High = 3 pts.</pre>
- \$.51 \$.99/vehicle = Med. = 2 pts.
- \$1.00/vehicle or over = Low = 1 pt.

2. Interstate Projects

- · 0 \$.50/vehicle-mile = High = 3 pts.
- \$.51 \$.99/vehicle-mile = Med. = 2 pts.
- * \$1.00/vehicle-mile or more = Low = 1 pt.

3. Link Improvements

- 0 \$.33/vehicle-mile = High = 3 pts.
- \$.34 \$.67/vehicle-mile = Med. = 2 pts.
- > \$.67/vehicle-mile = Low = 1 pt.

BEFORE THE COUNCIL OF THE METROPOLITAN SERVICE DISTRICT

FOR THE PURPOSE OF ESTABLISHING)	RESOLUTION NO. 89-1134
THE REGION'S PRIORITY HIGHWAY)	Introduced by Mike
PROJECT IMPROVEMENTS FOR INCLUSION)	Ragsdale, Chair, Joint
IN THE 1991-1996 OREGON DEPARTMENT)	Policy Advisory Committee
OF TRANSPORTATION SIX-YEAR HIGHWAY)	on Transportation (JPACT)
PROGRAM)	

WHEREAS, The Joint Policy Advisory Committee on Transportation has established a preliminary 10-year transportation program of priorities and strategies; and

WHEREAS, These priorities are identified in the adopted Regional Transportation Plan (RTP); and

WHEREAS, The program sets the agenda for transportation improvements throughout the next decade; and

WHEREAS, Many of the identified improvements are required on facilities owned by the state of Oregon; and

WHEREAS, The improvements programmed on the State
Highway System must be included in the Oregon Department of
Transportation Six-Year Highway Improvement Program; and

WHEREAS, The Six-Year Program is currently being updated to encompass projects to be scheduled in the period 1991-1996; and

WHEREAS, The Transportation Improvement Program Subcommittee and the Transportation Policy Alternatives Committee have developed a consensus as to the region's priorities for projects to be included in the current Oregon Department of Transportation Six-Year Program update; now, therefore,

BE IT RESOLVED:

- 1. That the Council of the Metropolitan Service District adopts the highway improvements contained in Exhibit A as the region's priorities for inclusion in the 1991-1996 Oregon Department of Transportation Six-Year Program.
- 2. That staff be directed to forward these priorities in testimony during the appropriate hearings on the Six-Year Program update by the Oregon Transportation Commission.
- 3. That this action is consistent with the Regional Transportation Plan.

METRO

Memorandum

2000 S.W. First Avenue Portland, OR 97201-5398 503/221-1646

Date: September 14, 1989

To: JPACT

From: JPACT Membership Committee

Re: Draft JPACT Bylaws

Enclosed is a complete "draft" set of JPACT bylaws that is written to largely institutionalize present practice and is intended to define JPACT as the key focus for regional transportation decision-making in the Portland metropolitan area. It deals with the present roles and responsibilities of JPACT and recognizes the pending addition to JPACT's responsibilities as it relates to an Arterial Fund. It is also structured around the present 17 members, although it proposes refinements in who represents some of the agencies and how they are selected.

In addition to the attached bylaws that are oriented toward refinement of status quo, other options that involve a significant shift in membership should also be considered by JPACT, including:

Option 1 -- Reduce JPACT membership by:

- a. Reducing "city" representatives from 3 to 1
- b. Reducing Clark County representatives from 3 to 1
- c. Reducing Metro Council representatives from 3 to 1
- d. Reducing state agency representatives from 2 to 1

Option 2 -- Increase JPACT membership by:

- a. Adding a C-TRAN member
- b. Providing for 2 "city" representatives from each county

Option 3 -- Creating an Executive Committee with expanded membership on the general committee and reduced membership on the Executive Committee.

The JPACT Membership Committee recommends that serious consideration be given to Option 3 involving an expansion of general membership with the appointment of an Executive Committee. For purposes of discussion by the full JPACT, presented below are some principles that could be followed in implementing Option 3:

- a. The full JPACT would be expanded to include more "city" representatives and a C-TRAN representative. Additional "city" representatives could be included on the basis of two per county or one per county plus one for each city in excess of 30,000 population (Gresham -- 60,315; Beaverton -- 40,515; and Hillsboro -- 32,320).
- b. An Executive Committee would be appointed to include:

•	Portland	•	•	•		•	•		•	•		•	•	•	•	•	•	1
	Counties																	
	Cities .		•						•,							•		1-3
	ODOT																	1
	Tri-Met.																	1
	Metro				•													1
	State of																	
		•			- 5		-	•	•	•	•		-		-			9-11

- c. The following action items would require approval of the full (expanded) JPACT:
 - Annual adoption of the Regional Transportation Plan, Transportation Improvement Program and Unified Work Program
 - 2. Adoption of Six-Year Program priorities
 - 3. Allocation of new funding
 - 4. Approval of any action item considered by the Executive Committee not receiving a unanimous vote
- d. The Executive Committee would meet monthly and the full JPACT bimonthly.
- e. All Executive Committee meetings would be publicized and open to all JPACT members and alternates.
- f. These changes would be tried on a test basis and the bylaws would include an automatic Sunset clause (i.e., the bylaws would expire December 31, 1990).

Comments on these options should be forwarded to Mike Ragsdale, Chair of the JPACT Membership Committee. The Committee will then formulate a recommendation for JPACT's consideration.

JOINT POLICY ADVISORY COMMITTEE ON TRANSPORTATION (JPACT)

BYLAWS

ARTICLE I

This committee shall be known as the JOINT POLICY ADVISORY COMMITTEE ON TRANSPORTATION (JPACT).

ARTICLE II MISSION

It is the mission of JPACT to coordinate the development of plans defining required regional transportation improvements, to develop a consensus of governments on the prioritization of required improvements and to promote and facilitate the implementation of identified priorities.

ARTICLE III PURPOSES

<u>Section 1</u>. The purpose of JPACT is as follows:

- a. To provide the forum of general purpose local governments and transportation agencies required for designation as the metropolitan planning organization for the Oregon urbanized portion of the Portland metropolitan area and to provide a mechanism for coordination and consensus on regional transportation priorities and to advocate for their implementation.
- b. To provide recommendations to the Metro Council under state land use requirements for the purpose of adopting and enforcing the Regional Transportation Plan.
- c. To coordinate on transportation issues of bi-state significance with the Clark County, Washington metropolitan planning organization and elected officials.
- d. (Pending establishment of an Urban Arterial Fund) To establish the program of projects for disbursement from the Urban Arterial Fund.

- <u>Section 2</u>. In accordance with these purposes, the principal duties of JPACT are as follows:
- a. To approve and submit to the Metro Council for adoption the Regional Transportation Plan (RTP) and periodic amendments.
- b. To approve and submit to the Metro Council for adoption short and long range growth forecasts and periodic amendments upon which the RTP and other Metro functional plans will be based.
- c. To adopt and periodically amend the Unified Work Program for the Oregon and Washington portions of the metropolitan area.
- d. To adopt and periodically amend the Transportation Improvement Program (TIP). Projects included in the Transportation Improvement Plan must be consistent with the RTP or a concurrent RTP amendment will be submitted to the Metro Council for approval.
- e. To adopt the program of projects for annual disbursement of funds from the Urban Arterial Fund (pending). Projects recommended for funding must be consistent with the RTP or a concurrent RTP amendment will be submitted to the Metro Council for approval.
- f. To adopt and periodically amend the transportation portion of the State Implementation Plan for Air Quality Attainment for submission to the Oregon Department of Environmental Quality.
- g. To periodically adopt positions that represent the consensus agreement of the governments throughout the region on transportation policy matters, including adoption of regional priorities on federal funding, the Surface Transportation Act, the Six-Year Highway Improvement Program priorities and regional priorities for LRT funding.
- h. To review and comment on the RTP and TIP for the Clark County portion of the metropolitan area and include in the RTP and TIP for the Oregon urbanized portion of the metropolitan area a description of issues of bi-state significance and how they are being addressed.
- i. To review and comment, as needed, on the regional components of local comprehensive plans, public facility plans and transportation plans and programs of ODOT, Tri-Met and the local jurisdictions.

ARTICLE IV MEMBERSHIP

Section 1. Membership

a. The Committee will be made up of representatives of the following jurisdictions and agencies:

City of Portland
Multnomah County
Washington County
Clackamas County
Cities of Multnomah County
Cities of Washington County
Cities of Clackamas County
Oregon Department of Transportation 1
Tri-Met
Port of Portland
Department of Environmental Quality 1
Metropolitan Service District
State of Washington
TOTAL 17

- b. Alternates may be appointed to serve in the absence of the regular members.
- c. Members and alternates will be individuals in a position to represent the policy interests of their jurisdiction.

Section 2. Appointment of Members and Alternates

- a. Members and alternates from the City of Portland and the Counties of Multnomah, Washington and Clackamas will be elected officials from those jurisdictions and will be appointed by the chief elected official of the jurisdiction. The member and alternate will serve until removed by the appointing jurisdiction.
- b. Members and alternates from the Cities of Multnomah, Washington and Clackamas Counties will be elected officials from the represented cities and will be appointed through the use of a mail ballot of all represented cities based upon a consensus field of candidates developed through a forum convened by the largest city being represented. The member and alternate will be from different jurisdictions. The member and alternate will serve for two-year terms. In the event the member's position is vacated, the alternate will automatically become member and complete the original term of office. The member and alternate will periodically consult with the appropriate transportation coordinating committees for their area.

- c. Members and alternates from the two statewide agencies (Oregon Department of Environmental Quality and Oregon Department of Transportation) will be a principal staff representative of the agency and will be appointed by the director of the agency. The member and alternate will serve until removed by the appointing agency.
- d. Members and alternates from the two tri-county agencies (Tri-Met and the Port of Portland) will be board members and will be appointed by the chief board member of the agency. The member and alternate will serve until removed by the appointing agency.
- e. Members and alternates from the Metropolitan Service District will be elected officials and will be appointed by the Presiding Officer of the Metro Council in consultation with the Metro Executive Officer and will represent a broad cross-section of geographic areas. The member and alternate will serve until removed by the Presiding Officer of the Metro Council.
- f. Members and alternates from the State of Washington will be either elected officials or principal staff representatives from Clark County, the cities of Clark County, the Washington Department of Transportation or C-TRAN. Each member will be from different organizations. The members and alternates will be appointed by the Clark County metropolitan planning organization and will serve until removed by the appointing agency.

ARTICLE V MEETINGS, CONDUCT OF MEETINGS, QUORUM

- a. Regular meetings will be held each month at a time and place established by the chairperson. Special meetings may be called by the chairperson or a majority of the membership.
- b. A majority of the voting members (or designated alternates) shall constitute a quorum for the conduct of business. The act of a majority of those present at meetings at which a quorum is present shall be the act of the Committee.
- c. Subcommittees to develop recommendations for JPACT can be appointed by the Chair. The Chair will consult on subcommittee membership and charge with the full membership at a regularly scheduled meeting. Subcommittee members can include JPACT members, JPACT alternates and/or outside experts.
- d. All meetings shall be conducted in accordance with Robert's Rules of Order, Newly Revised.
- e. The Committee may establish other rules of procedure as deemed necessary for the conduct of business.

- f. Each member shall be entitled to one (1) vote on all issues presented at regular and special meetings of the Committee. In the absence of the member, the alternate shall be entitled to one (1) vote. The chairperson shall vote only in case of a tie.
- g. Unexcused absence from regularly scheduled meetings for three (3) consecutive months shall require the chairperson to notify the appointing agency with a request for remedial action. In the case of the representative for the "cities" of Multnomah, Washington and Clackamas Counties, the chairperson will contact the largest city being represented to convene a forum of represented cities to take remedial action.
- h. The Committee shall make its reports and findings public and available to the Metro Council.
- i. Metro shall provide staff, as necessary, to record the actions of the Committee and to handle Committee business, correspondence and public information.

ARTICLE VI OFFICERS AND DUTIES

- a. The chairperson and vice-chairperson of the Committee shall be designated by the Metro Presiding Officer.
- b. The chairperson shall preside at all meetings he/she attends and shall be responsible for the expeditious conduct of the Committee's business.
- c. In the absence of the chairperson, the vice-chair-person shall assume the duties of the chairperson.

ARTICLE VII RECOGNITION OF TPAC

a. The Committee will take into consideration the alternatives and recommendations of the Transportation Policy Alternatives Committee (TPAC) in the conduct of its business.

ARTICLE VIII AMENDMENTS

a. These bylaws may be amended or repealed only by a majority vote of the full membership of the Committee.

Attn: Kevin McDonald

Re: Project Breakeven/Holladay Investors, Ltd.

Dear Mr. McDonald:

We have been retained to assist Holladay Investors, Ltd. relative to the request to inspect public records signed by Mr. Alan Peters dated July 11, 1989, and your response in memorandum form dated August 14, 1989. The purpose of this letter is to inform you that unless all of the previously requested records are made available to Mr. Peters, a petition pursuant to ORS 192.460 will be filed.

As we understand it, Mr. Peters was allowed to inspect certain documents in your office made available by you relating to Project Breakeven and the hotel component of said project. At that time, Mr. Peters read in the files provided, a number of letters and interoffice memorandum which he was interested in obtaining a copy of. Among those items for which copies were requested were all of the items listed on your memorandum of August 14. You have relied upon ORS 192.500(2)(a) in denying Mr. Peters copies of these documents. We do not understand how the "trade secrets" exemption applies. We were also unable to find ORS 192.500(2)(a).

While we do not agree with your interpretation of ORS 192.500 and its application to exempting the documents listed, once a public agency has made available for inspection any documents to a member of the public, the claim of exemption is thereafter waived. Having originally made these documents available for inspection, it is unimaginable that your present refusal to provide copies as requested would be construed as anything other than a blatant attempt on the part of the agency to avoid whatever potential liability is perceived results from the positions taken in those documents. If in fact the documents are or could be used in a later proceeding, your refusal to provide them at this time will only serve to exacerbate the negative effect of those documents.

HAGEN. DYE, VIAL & HIRSCHY, P.C.

ATTORNEYS AT LAW

Tri-County Metropolitan Transportation District of Oregon August 22, 1989 Page 2

Holladay Investors, Ltd. is very concerned about the fact that going back even one year ago, Tri-Met has not been forthright in providing requested information. Not only did Mr. Peters learn recently while reviewing the documents provided in your office that a number of pages from the Project Breakeven/Proposal for a Major Breakthrough package were originally withheld, but he also noted that none of the correspondence between himself and your agency was included in the files he reviewed. We obviously are left with the question as to how many files were not shown to Mr. Peters at all.

As legal counsel, we also would like to inspect the records previously made available to Mr. Peters. I will contact your office shortly to arrange a mutually convenient time when that inspection will take place. It may be convenient for you to provide the copies spoken of above at that time.

Recently, newspaper articles have clearly established the relationship Tri-Met has with PDC regarding the hotel site for Project Breakeven. As you are no doubt aware, Holladay Investors, Ltd. is currently engaged in litigation with PDC regarding the property and the Urban Renewal District which would affect it. We have recently become aware of a very rapid timetable proposed by PDC to establish the need for a hotel and move toward acquisition of property. We are anxious that during this time we are not misled by Tri-Met as to its intentions.

We are confident that Tri-Met and its Board will recognize the prudence of being completely forthright concerning Mr. Peters' interest in Project Breakeven and the hotel site which his company controls.

Thank you very much for your time and attention to this matter. We look forward to working with you on this matter. Please feel free to call if you have any questions.

Very truly yours,

HAGEN, DYE, VIAL & HIRSCHY, P.C.

A. Richard Vial
