

BEFORE THE COUNCIL OF THE
METROPOLITAN SERVICE DISTRICT

FOR THE PURPOSE OF AMENDING THE FUNCTIONAL CLASSIFICATION SYSTEM AND THE FEDERAL AID URBAN SYSTEM (FAUS))	RESOLUTION NO.
)	Introduced by the Joint Policy Advisory Committee on Transportation

WHEREAS, The City of Portland has requested that certain streets in the Hollywood District be functionally classified and federally designated; and

WHEREAS, These requested changes have been brought about as a result of the Hollywood Transportation Study conducted by the City of Portland and the City of Portland's Arterial Street Classification Policy (ASCP); and

WHEREAS, To be eligible for federal funds, streets undergoing roadway improvements must be functionally classified and federally designated; and

WHEREAS, Staff analysis indicates that the proposed changes are consistent with the functions serving the new traffic circulation patterns associated with the Hollywood Transportation project; now, therefore,

BE IT RESOLVED,

1. That the Metro Council amend the Federal Aid Urban System to incorporate Exhibit "A."

2. That the Metro Council amend the Functional Classification system to add as collectors:

- a. N.E. 39th Avenue between Tillamook Street and Broadway.
- b. N.E. Tillamook Street between 39th Avenue and 42nd Avenue.

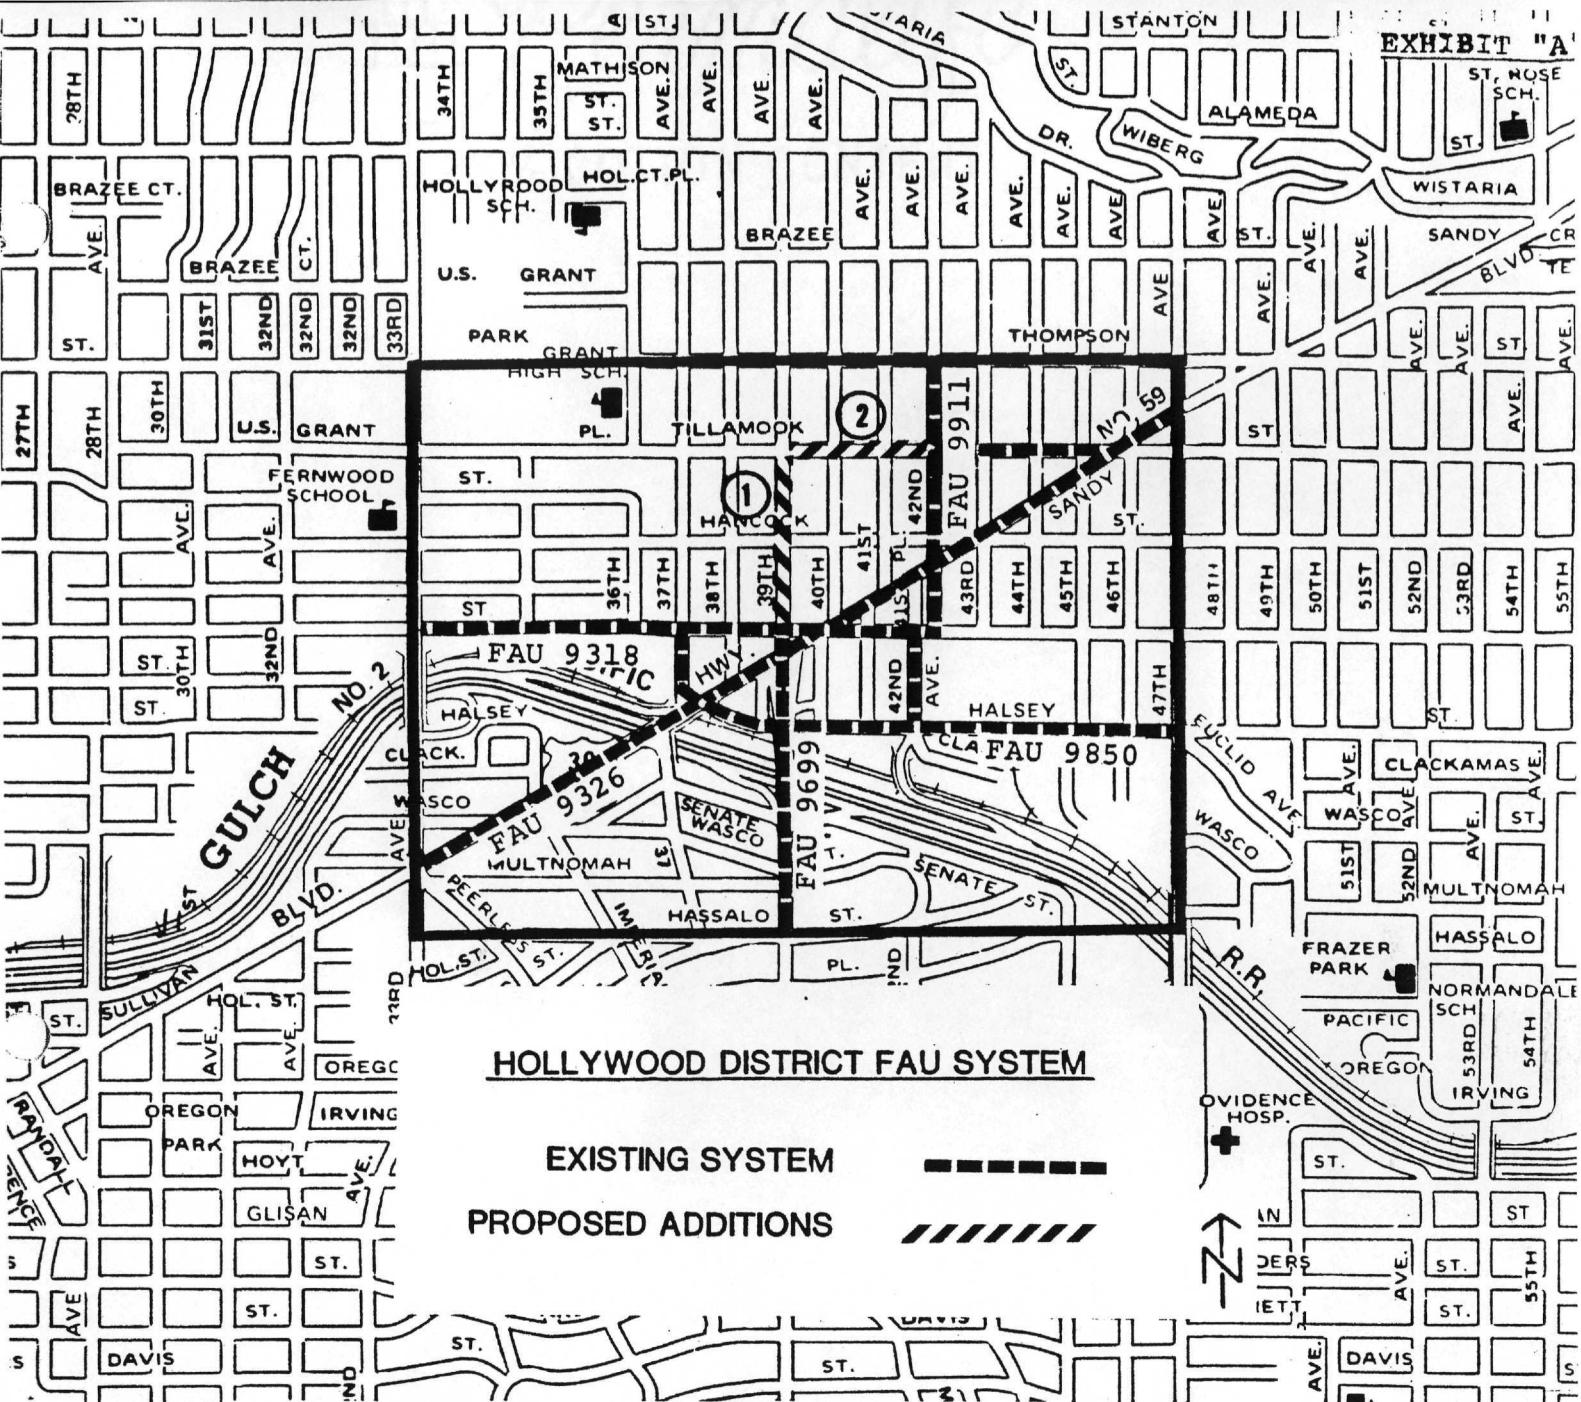

3. That Federal Aid route numbers be assigned to the added segments in accordance with Exhibit "A."

4. That Metro staff coordinate the amendments with ODOT.

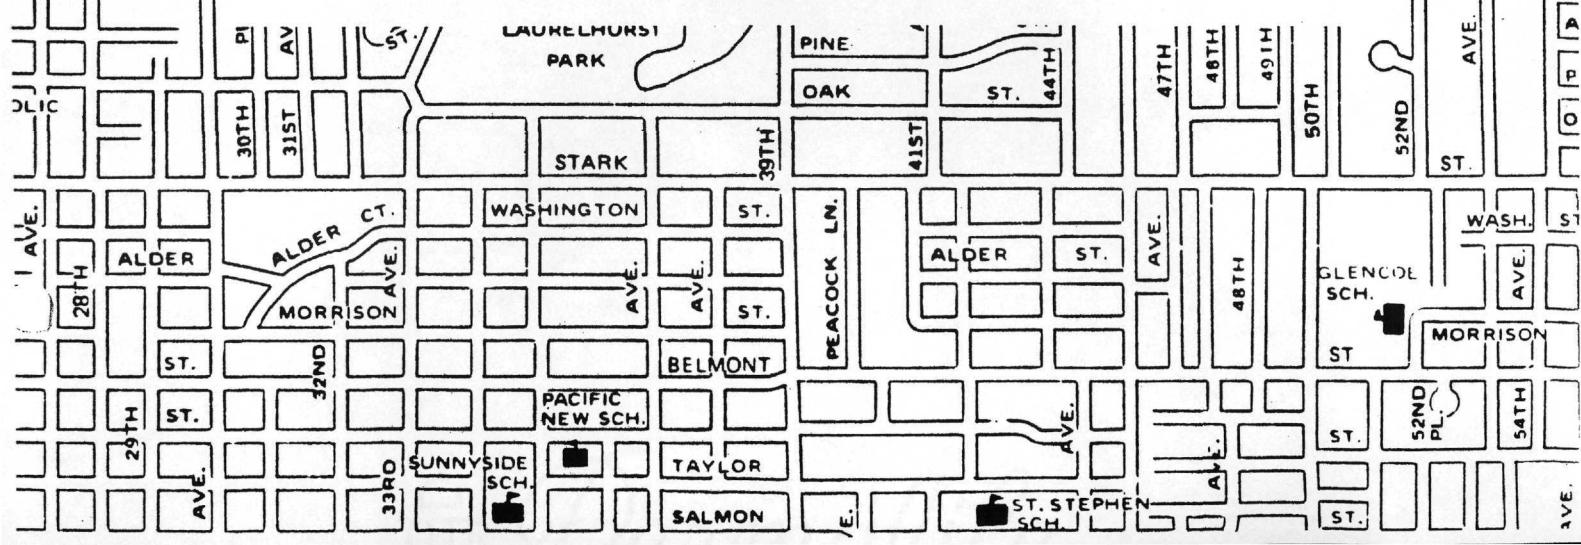

ADOPTED by the Council of the Metropolitan Service District this _____ day of _____, 1982.

Presiding Officer

BP/srb
6577B/318

**COLLECTORS:**

1. N.E. 39th Avenue between Tillamook Street and Broadway.
2. N.E. Tillamook Street between 39th Avenue and 42nd Avenue.

STAFF REPORT

Agenda Item No. _____

Meeting Date _____

APPROVAL OF RESOLUTION NO. ____ FOR THE PURPOSE OF
ADOPTING THE FY 1983 TO POST-1986 TRANSPORTATION
IMPROVEMENT PROGRAM AND THE FY 1983 ANNUAL ELEMENT

Date: August 19, 1982

Presented by: Andy Cotugno

FACTUAL BACKGROUND AND ANALYSIS

Purpose: The Transportation Improvement Program (TIP) and Annual Element serve as the basis for receipt of federal transportation funds by local jurisdictions, the Oregon Department of Transportation (ODOT) and Tri-Met.

Policy Impact: Adoption of the TIP constitutes the following actions:

- Past policy endorsement of projects is identified in the TIP (including projects to be funded with Interstate, Interstate Transfer, Federal Aid Urban and UMTA funds) thereby providing eligibility for federal funding. Four new projects have been proposed for addition to the TIP.
- The current status of Interstate Transfer funding is accounted for, including past obligations and current funding level authorization (including escalation).
- Interstate Transfer projects included in FY 82 are in accordance with priorities and policies set by Resolution No. 81-304 and includes programming of some \$13.3 million in excess of expected funds; unfunded projects will automatically shift into FY 83.
- Approximately \$109.3 million of Interstate Transfer funding is programmed for FY 83 and includes all projects that will be considered for funding; actual FY 83 priorities will be established among these candidates later this year.

Budget Impact: The existing Metro budget provides for development of the TIP.

Background: The Metro TIP describes how federal transportation funds for highway and transit projects in the Metro region are to be obligated during the period October 1, 1982 through September 30, 1983. Additionally, in order to maintain continuity, funds are estimated for years before and after the Annual Element year. The

FY 83 TIP is a refinement of the currently adopted TIP and involves the following significant actions:

Interstate Transfer Funding

The TIP includes escalation, according to the National Construction Cost Index, to December 31, 1981 and represents a total \$475 million program (federal). The FY 82 TIP included \$89.6 million of projects for FY 82 funding based upon actual receipt of that amount of obligational authority. This FY 83 TIP update reduces the previously adopted FY 81 and FY 82 programs to match the adopted priorities. At the end of the federal fiscal year, unfunded projects will automatically shift to FY 83, thereby being eligible to compete for FY 83 funding.

The FY 83 Interstate Transfer program of approximately \$122.6 million represents the full funding need and is in excess of the level of funding the region can anticipate. The noted amount includes Banfield transit funds of \$56.0 million in accordance with the UMTA full funding contract with the balance of \$66.6 million being earmarked for FHWA highway projects. Priorities will be established from amongst the full FY 83 program later in the year based upon a closer estimate of funding. Projects not funded in FY 83 will be delayed; however, they will be considered for implementation in the event additional FY 83 funds become available, or for funding in FY 84.

Section 3 Trade Funding

In April 1982, Metro Council endorsed the use of Section 3 funds for selected transit projects in exchange for Interstate Transfer funds. This involved transfer of funds from a series of regionwide transit projects to the Banfield project; in exchange, Section 3 funds previously earmarked for the Banfield were assigned to transit projects. Subsequently, the fixed amount of \$76.8 million was committed by UMTA for the Section 3 Trade Program. In a Letter of Intent issued by the Administrator on May 14, 1982, it is expected that these trade funds will be made available at approximately \$12.0 million per year for fiscal years 1982 through 1987 depending on availability of federal funds. The actual amount awarded in FY 1982 was \$13.7 million. Projects and priorities for use of FY 1983 funds will be developed in compliance with the priority-setting process later in 1982.

Banfield Funding

The TIP includes both Interstate Transfer funding and \$8.9 million in Section 3 funding for the Banfield. The amounts are programmed in 1981 dollars and are consistent with the level of Interstate Transfer funding locally authorized for the Banfield and with Section 3 funds awarded in the grant. Funding levels by year differ from previously published

estimates due to differential inflation rates. The funding program may require revision at a later date depending upon actions by Congress and USDOT.

Westside Corridor Funding

This program is composed of Section 3 trade and Section 103(e)(4) funds. Some \$10.9 million in trade funds were assigned to specific projects for FY 1982 by Metro Resolution No. 82-341. Further assignments will be established later this year utilizing the process previously established for allocation of this Westside Corridor reserve. The Section 103(e)(4) reserve currently has some \$17.5 million of unobligated authority; \$500,000 of this has been earmarked in FY 1983 for initiating preliminary engineering on new Westside projects. When specific projects have been defined for the use of those earmarked funds (sometime in October or November of this year), the \$500,000 will be distributed accordingly.

Federal Aid Urban

New federal legislation proposes to terminate this program by FY 84. However, pending this change by Congress, FAU funds are included through FY 86 in accordance with current legislation.

Section 5 - Transit Operating Assistance

New federal legislation proposes to gradually phase out this program by FY 85. However, pending this change by Congress, Section 5 operating assistance is continued at the FY 81 level.

Five-Year Transit Development Program

The transit capital program is in accordance with the adopted TDP and now under review by Tri-Met. TIP revisions by Metro are likely after review of the TDP. Several projects recommended by the Westside Corridor Project use Section 3 funds.

Interstate Funds

Interstate projects are programmed in accordance with the ODOT Six-Year Plan adopted in early 1982.

Air Quality

The TIP is in conformity with the Oregon State Implementation Plan (SIP) for Air Quality adopted in 1982. Updates to the carbon monoxide and ozone plans demonstrate attainment of both standards by 1987. All projects specified in the SIP as necessary for attainment of these standards are included in the TIP. In addition, the TIP has been reviewed to ensure that it does not include actions which would reduce the effectiveness of planned transportation control measures.

New Projects

This TIP update incorporates several new projects that have been identified by the sponsoring jurisdictions and/or Metro. The following projects have been included at the request of the City of Portland to be funded with Interstate Transfer funding previously earmarked for Portland projects.

S.W. Vermont Corridor, 30th to 60th

This project involves improvements to S.W. Vermont between S.W. 30th and S.W. 60th. The portion between S.W. 30th and S.W. 45th will be widened to accommodate two full travel lanes and parking on both sides of the street. The portion between S.W. 45th and S.W. 60th will also be improved although the widening will not be as extensive due to the limited availability of right-of-way. Curbs, sidewalks and drainage improvements are planned for the entire length of the project. Also, the intersection at S.W. 35th and Vermont will be improved by reducing the slope of S.W. Vermont below 35th. This will improve the sight distances for traffic on both 35th and Vermont. These improvements should increase the safety and convenience for both drivers and pedestrians.

Marquam Ramp Street Improvements

This project is being developed in anticipation of increased traffic volumes in the Central Eastside area resulting from completion of the new East Marquam ramps to and from I-5. Improvements include signalization of the intersection of Water Avenue and Taylor Street, and the removal of rail tracks from Water Avenue. Traffic flow patterns will be altered by creating one-way couplets at Stark/Clay and Taylor/Yamhill between Union Avenue and Water Avenue. Also, the intersection of Stark and Water Avenue will be improved by reducing the severity of the turning angle. This project also includes improvements to lighting and rail crossing protections in this vicinity.

Foster Road, 122nd to Jenne Road

This project involves widening and improving S.E. Foster Road between 122nd and 145th. This improved facility will have two travel lanes in each direction, curbs and sidewalks along with better lighting and drainage facilities. The second element of this project involves safety improvements to the intersection of Foster Road and Jenne Road. Foster Road will be widened in this vicinity with left-turn lanes provided on Foster Road eastbound and Jenne Road southbound, and an improved signal system will be installed.

Banfield Fire Line

This project involves the installation of an 8-inch water supply main along the shoulder of the Banfield Freeway between 16th Avenue and 92nd Avenue. This addresses a long-term problem of insufficient water access for fire equipment along the Banfield Corridor and is particularly important for freeway and LRT accident response. Fire hydrants will be located at 1,000-foot intervals along the freeway shoulder and service vaults will be located at 16th Avenue, 44th Avenue and 92nd Avenue. This will help provide adequate fire protection for the freeway and adjacent businesses and the Banfield light rail line.

N. Columbia Blvd. Frontage Road

This project includes construction of a new frontage road along the north side of the railroad tracks and Columbia Blvd. with traffic signals at Argyle and/or Washburn and/or Peninsular. It also includes the elimination of several unrestricted railroad crossings and provision of access to Columbia Blvd. at signalized intersections only. This project will help minimize traffic safety hazards between railroad operations and industrial traffic, improve railroad operating efficiency and improve traffic operation of Columbia Blvd. as a major arterial by minimizing curb cuts.

EXECUTIVE OFFICER'S RECOMMENDATION

Adopt the resolution to allow timely flow of federal funds into the region.

COMMITTEE CONSIDERATION AND RECOMMENDATION

TPAC has reviewed this action and recommends adoption.

BP/srb
6589B/318
08/31/82

BEFORE THE COUNCIL OF THE
METROPOLITAN SERVICE DISTRICT

FOR THE PURPOSE OF ADOPTING THE) RESOLUTION NO.
FY 1983 TO POST-1986 TRANSPORTA-)
TION IMPROVEMENT PROGRAM AND THE) Introduced by the
FY 1983 ANNUAL ELEMENT)

WHEREAS, Metro staff and the Transportation Improvement Program Subcommittee have prepared a final draft of the Transportation Improvement Program (TIP) for the Metro urban area which implements the adopted Regional Transportation Plan and complies with federal guidelines as set forth in 23 CFR--Part 450; and

WHEREAS, In accordance with the Metro/Regional Planning Council (RPC) of Clark County Memorandum of Agreement, the TIP has been submitted to the RPC for review and comment; and

WHEREAS, Projects using federal funds must be specified in the TIP by the fiscal year in which obligation of funds is to take place; and

WHEREAS, Some 1982 Annual Element projects may not be obligated in FY 1982 because the exact point in time for obligation is indeterminate; now, therefore,

BE IT RESOLVED,

1. That the Metro Council adopts the FY 1983 TIP for the urban area as contained in the Attachment to this Resolution marked Exhibit "A."

2. That projects that are not obligated by September 30, 1982 be automatically reprogrammed for FY 1983 for all funding sources.

3. That the TIP is in conformance with the Regional Transportation Plan and the 1982 Air Quality State Implementation Plan.

4. That the Metro Council allows the use of funds to be transferred among the particular phases (PE, ROW or Construction) of a given project and allows adjustment of project funding authorizations consistent with the cost overrun policy adopted by Resolution No. 79-103.

5. That the Metro Council hereby finds the projects in accordance with the region's continuing, cooperative, comprehensive planning process and, hereby, gives affirmative A-95 Review approval.

ADOPTED by the Council of the Metropolitan Service District this _____ day of _____, 1982.
