WORK SESSION PURPOSE & DESIRED OUTCOMES

Purpose: To inform that Council about the state of Metro finances through the third quarter of the fiscal year.

TOPIC BACKGROUND & FRAMING THE WORK SESSION DISCUSSION

The third quarter financial report provides information on two aspects of the Metro budget, and fulfills a general requirement as well:

1. Does the third quarter report indicate the need for any budget amendments in the current year, which are necessary to insure its performance within the limitations of legal appropriations?

The budget is on track to perform the FY 13-14 plan with limited adjustments.

Overall revenues are performing at the conservative pace set forth in the budget plan with some limited exceptions, and expenditures, moving at a similarly defined rate, appear to be slightly below budget, though largely in-line with expectations.

2. Do the ending balance projections for the current year signal any concerns about the FY 2014-15 budget plan?

A review of ending balances will determine the starting point for the FY 2014-15 budget process. Our balances are currently tracking where we projected them to be as we started next year's process.

3. Lastly, this report fulfills a requirement of Metro's financial policies for monitoring and regular reporting to the Council of the budget's performance.

FY 2013-14

MAKING A GREAT PLACE

Clean air and clean water do not stop at city limits or county lines. Neither does the need for jobs, a thriving economy, and sustainable transportation and living choices for people and businesses in the region. Voters have asked Metro to help with the challenges and opportunities that affect the 25 cities and three counties in the Portland metropolitan area.

A regional approach simply makes sense when it comes to providing services, operating venues and making decisions about how the region grows. Metro works with communities to support a resilient economy, keep nature close by and respond to a changing climate. Together, we're making a great place, now and for generations to come.

Stay in touch with news, stories and things to do.

June 3, 2014

Dear President Hughes and Members of the Metro Council:

On behalf of the Finance Team I am today delivering Metro’s Third Quarter Financial Report for FY 2013-14. We utilize third quarter report in two important ways. One, it determines if we have any potential issues that would require Council action prior to year end to maintain legal expenditure authority. Second, it lets us know if any adjustments are needed to the projected ending fund balance, which not only impacts the current year, but could impact the proposed FY 2014-15 budget.

Revenues in line with overall projections

Revenues were budgeted conservatively, however there are signs that our revenues are on the upswing. Transient lodging tax (TLT) and construction excise tax are showing continued growth. Property tax collections are slightly above target and are projected to end the year above budget. Solid waste tonnage continues to exceed projections, resulting both in increased solid waste revenues, but also excise tax collections.

Venues revenues are tracking closely to budget, but down from prior years. Overall this was projected to be a down year for the venues and we are following those projections closely.

There are a few areas for us to keep an eye on. Projected Parks and Property stewardship program general fund revenues are anticipated to end the year below budget, but only slightly. This is driven by revenues at Glendoveer being lower than originally projected.

Expenditures continue to track closely to budget

As has been the recent trend, operating expenditures continue to track closer to budgeted levels. Glendoveer’s expenditures are lower than projected, adjusting for the reductions in revenue. We will continue to monitor all expenditures closely.

Construction Excise Tax on the upswing

Construction excise tax collections continues to trend upwards. Projected collections through the end of the year are on pace to be one of the highest collection years since the implementation of the tax, and the third quarter totals are currently only \$30,000 below the FY 2011-12 total. The cycle 3 grants amount of \$4.3 million has been fully funded with still two quarters to go in this collection cycle.

The full report is included in the appendix.

Third quarter prognosis: positive

Generally the news continues to be positive. Property taxes, TLT and Solid Waste Fees are all above projections. Venues revenues, while lower than prior years continue to track with budget. We will continue to monitor expenditures, and any appropriations issues will be brought to you in the June consolidated budget amendment.

How does this impact the FY 2014-15 budget?

Our projections for how we will end the FY 2013-14 are in line with what we anticipated in developing the FY 2014-15 budget. Please remember though that these year-end numbers are only estimates, but continue to support the recent positive trends. The hard financial decisions that the Council has made in prior years, and continued vigilance on spending, have helped put us in a positive position for the coming year.

Sincerely,

METRO REVENUES

Overall Revenues

	Budget	Actual YTD	YTD % of Budget	Year-end Projection	Year-end % of Budget	3-Year Average
All Revenue

All Revenue	\$223,933,901	\$174,994,990	78.1%	\$229,224,773	102.4%	

Agency revenues totaled \$174.9 million through the third quarter of fiscal year 2013-14, or 78.1 percent of the annual budget. Year-end revenues are presently projected to reach 102.4 percent of budget. Tonnage at Metro solid waste facilities continues to rise through the third quarter, which will have an impact on both departmental revenues and excise tax collections. Transient Lodging Tax (TLT) is also projected to rise faster than was originally expected, year-on-year. Meanwhile, the Sustainability Center has seen a continued delay in revenue growth, due to lower grant revenues. The 40-Mile loop trail has been completed, and costs borne by Metro are expected to be reimbursed by the end of the fiscal year.

PROGRAM REVENUE BY OPERATING UNIT

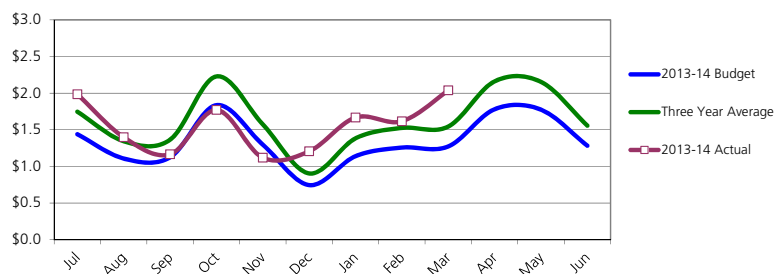

Finance and Regulatory Services

Contractors' Business License revenues through the third quarter came to 71.7 percent (\$272,430) of the amount originally budgeted (\$380,000) and are projected to reach 98.7 percent of that target.

Portland Expo Center- Program Revenues by Month

Metropolitan Exposition Recreation Commission (MERC) program revenues are 80.2 percent of budget, and look to be on-track to finish the fiscal year on, or slightly above, budget. MERC venue event-related revenues (rent and food and beverage), year-to-date, are 1 percent greater than for the prior fiscal year revenues over the same period, and 5 percent greater than a three-year historical average. The number of hosted events and attendance are both 8 percent below FY 2012-13 and attendance is 7 percent below a two-year historical average. This trend indicates that fewer events are hosted at the venues in FY 2012-13, with smaller attendance, but also that higher revenue is currently generated per event and attendee. Because event bookings are scheduled one to three years in advance, the venues continued to experience the tailing effects of the Great Recession, through FY 2013-14, and are optimistic about the FY 2014-15 event bookings.

Through the third quarter, event-related revenues for the Oregon Convention Center (OCC) are very close to those of the prior fiscal year. Total OCC revenues are 7 percent over FY 2012-13 due to higher than expected TLT receipts. Total revenues are, however, 3 percent below budget. Oregon Convention Center events and attendance also trail the previous fiscal year by approximately 11 percent and 8 percent, respectively. Meanwhile, food and beverage margins are slightly (3 percent) lower, though they are on target with the budget projection.

Portland's Centers for the Arts (Portland's) revenue is 6 percent lower than the previous year and 4 percent below budget projections. Meanwhile event-related revenue is 6 percent greater than it was in FY 2012-13. However, both the number of events and attendance at Portland's are 5 percent lower than the previous fiscal year. Portland's has hosted fewer resident company shows this year but has replaced them with more Broadway show bookings. Food and beverage margins are slightly lower than the previous year but 4 percent higher than budget.

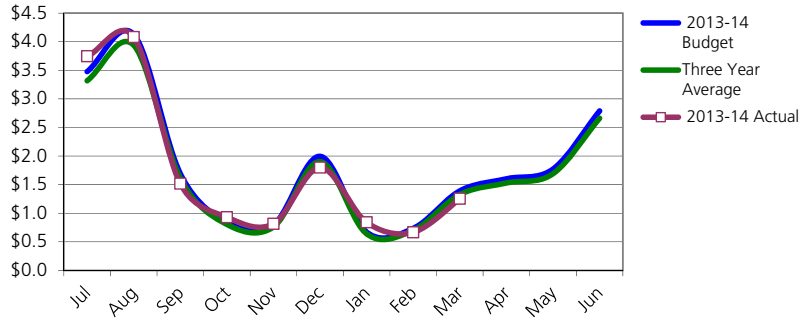

The Portland Expo Center (Expo) revenues are 3 percent below those of FY 2012-13, but are 3 percent above budget. Both the number of events and attendance at Expo are down, year-on-year, by 5 percent and 11 percent, respectively. Expo successfully hosted *Cirque Du Soleil* for the second time this spring. Expo food and beverage margins are nearly identical to those of FY 2012-13, though they are well below budget projections.

Oregon Zoo

Oregon Zoo- Program Revenues by Month

shown in millions

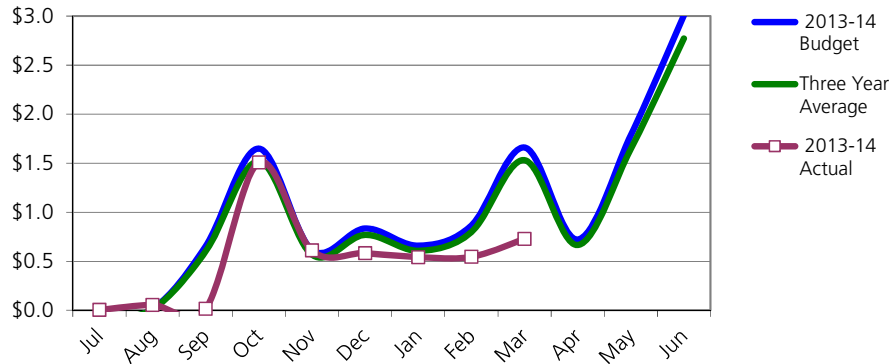

Program revenue for the zoo, at 74.4 percent of the budget, is on track through the third quarter. 119,794 fewer visitors did, however, mean the realization of a 10 percent drop in total attendance, year-on-year. Much of this current quarter's variance appears to be due to the five-day closure during February's snow event and the fourth-quarter timing of the Vancouver School District's spring break. Zoo management is tracking the downward trend in an attempt to understand how much of the attendance losses may be due to changes in parking fees or to construction activity on the zoo grounds. However, per-cap spending has increased substantially with a \$0.99 increase in admissions and a \$0.55 increase in food sales. The current focus is on the zoo Summer Concert series and ensuring that fourth quarter revenue from the event meets expectations.

Zoo per capita spending is up

Planning and Development/Research Center

Planning and Development/Research Center- Program Revenues by Month

shown in millions

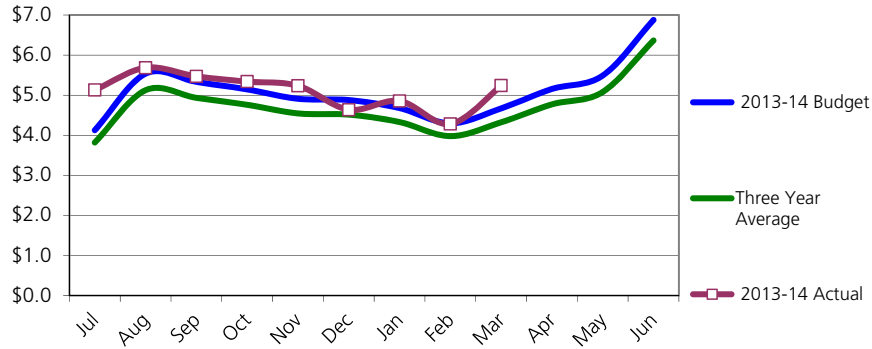

Planning program revenue for the third quarter is at 37.1 percent of budget, and is 5.9 percent below revenues through the same period for the prior fiscal year. \$197,000 of the \$2.0 million in project funding for the Southwest Corridor will be carried forward into the next fiscal year. Funding is in place for the Powell Division Transit project. Work on the Powell project started in the third quarter. Funding from the National Academy of Sciences will bring in \$248,000 of Planning's service revenue, under the SHRP II-TCAPP contract. Annual funding for Transit-Oriented Development, from Trimet, has been raised from \$2.889 million, to \$2.975 million. The Regional Travel Options program is projected to carry \$737,080 in spending forward into the next fiscal year. Through the third quarter, Research Center charges for services revenues come to 57.4 percent of budget.

Note: grant billings for the first quarter are processed in October to allow sufficient time for year-end closing, audit, and reporting.

Parks and Environmental Services

Parks and Environmental Services- Program Revenues by Month

shown in millions

Parks and Environmental Services program revenue came in at 75.1 percent of budget for the third quarter and is projected to end the year 4.4 percent (\$2.7 million) above budget, due almost exclusively to Solid Waste Operations. Based on year-to-date actuals, tonnage at Metro facilities and regional tonnage are projected to be higher than the budget estimate, by 9.0 percent and 3.4 percent, respectively. The increase in regional tonnage is primarily driven by economic growth that exceeded forecasts done earlier in the fiscal year. The year-end projection includes lower than budgeted revenues for residential organics.

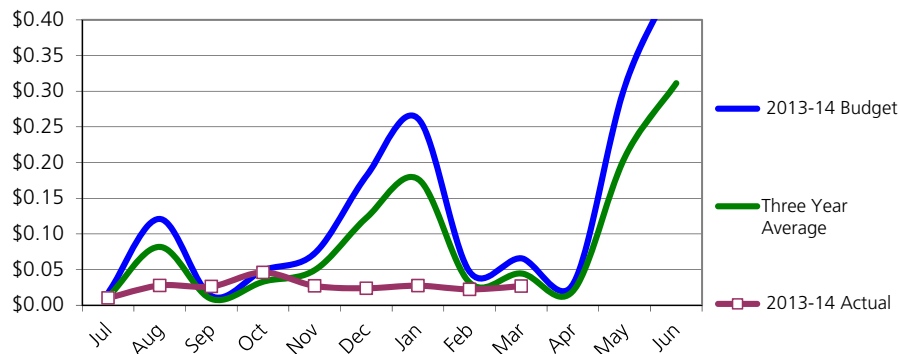

Waste stream tonnage continues to climb

Parks and Property Stewardship (including Cemeteries) revenues are projected to end the year under budget by \$81,000. Based on year-to date results, Glendoveer Golf Course year-end revenues are now expected to be \$212,000 below budget. Park admission revenues and RV Fees continue to be down for the fiscal year, versus those of FY 2012-13, and are projected to end the year \$120,000 below budget. Water quality challenges (algae blooms) in Blue Lake during the first quarter, and high rainfall in the third, are assumed to have affected parks' visitor numbers, and consequently, year-end revenues as well. Therefore, they are taken into account in the projections. Overall, increased revenues in Parking Fees (at the Metro Regional Center and Irving Street garages), Cemeteries Revenues, and Property Rentals nearly offset the decrease in revenues at the golf course, Parks and RV sites.

Note: The FY 2013-14 overall actual revenues are different from those found in the historical averages, primarily due to a new revenue and expense structure under the new Glendoveer Golf Course operating contract that became effective January 1, 2013. Three-year historical monthly averages are therefore based on previous revenue results, which did not include golf course revenues.

Sustainability Center

Sustainability Center- Program Revenues by Month

The Sustainability Center's program revenues, through the third quarter, came to 14.3 percent of budget. Sustainability Center program revenues are projected to end the year 19.0 percent lower than budget, mainly due to grant revenues associated with natural areas

restoration projects and Parks Planning and Development projects grant funding being pushed into the next fiscal year. Several restoration projects (\$166,000 worth) are also expected to be pushed beyond the current fiscal year and into the next. The reduction is offset by a reduction of grant-funded restoration projects in the Science and Stewardship Program. Additionally, grants worth \$75,000, expected from the Tualatin River Boat Launch project, were carried over to FY 2015 as the project is now not expected to begin in the current fiscal year. The ability to meet the projected revenues is dependent upon repayment of Metro funds spent on the Blue Lake Trail section of the 40-Mile Loop Trail, by the Oregon Department of Transportation. This revenue accounts for \$836,000 of the FY 2013-14 projection.

General Revenues

Property Taxes– Revenues through the third quarter came to 96.2 percent of budget.

Transient Lodging Tax– The Transient Lodging Tax projection of \$10,625,571 (OCC - \$9.3 million, Portland’s - \$1.3 million) mirrors the projection provided by Multnomah County in mid January 2014. This projection is \$345,000 or 3.4 percent higher than the FY 2013-14 budget projection.

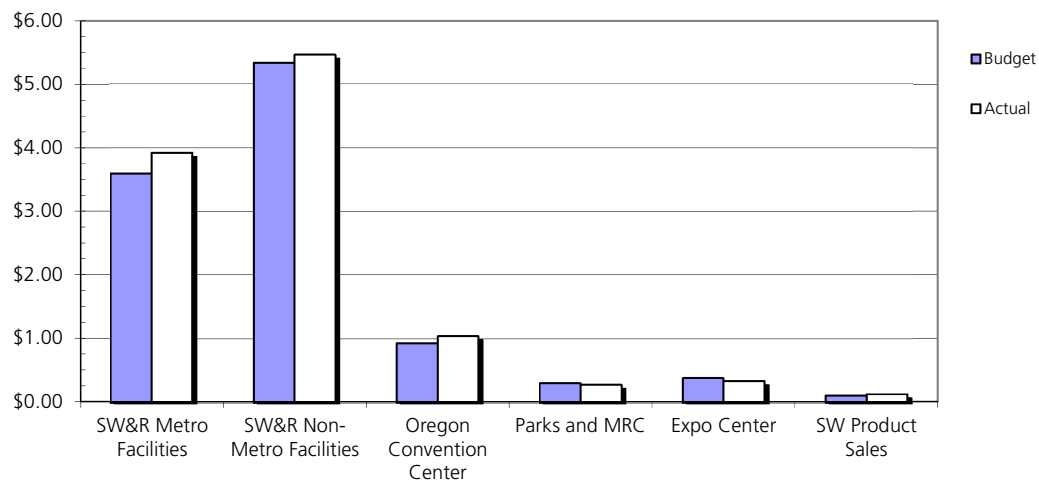

Interest Earnings– Total interest earnings ended the quarter at 80 percent of budget and are projected to come in slightly higher than budget for the fiscal year.

Transient Lodging Tax up over budget

Excise Tax

Excise Tax Received Through March 31, 2014, Budget vs. Actual

shown in millions

Non-tonnage excise tax has been forecasted to come in at 3 percent above budget. Solid waste excise tax, overall, is forecasted to come in at 3.5 percent above budget. Tonnage-based excise tax at Metro facilities is forecasted to end the year at 9.0 percent above budget, while ending the year at 2.4 percent above budget at non-Metro facilities. For more information, see the Parks and Environmental Services revenues narrative (above), or refer to the Excise Tax Appendix.

MERC venue expenses as a whole are 2.6 percent higher than in the prior fiscal year, 4.7 percent higher than the three-year historical average, and approximately 6 percent below budget. Individual venues largely follow this same trend. Oregon Convention Center expenses are 10 percent below budget and 4 percent higher than the previous fiscal year, through the same period. Portland's expenditures are on budget and are 4 percent higher than they were at the same point in the previous fiscal year. Expo expenses are 1 percent higher than the previous year and 1.5 percent higher than budget. The local improvement district (LID) assessment has been completed (at \$1.9 million) and is expected to be paid in the fourth quarter.

The zoo has continued its close monitoring of expenditures with a focus on managing seasonal, temporary and overtime staffing. The Metro Council recently approved several additional FTE as part of the effort to reduce reliance on temporary labor. These positions were funded by a decrease in the temporary labor budget. Zoo management expects to spend less than was budgeted in several contracted services, including on the Zoo Parking Shuttle, Outdoor School, and Concert Promotion. Shuttle costs and Outdoor School were budgeted on a dollar-for-dollar reimbursement basis and are expected to have no impact on the bottom-line. The Summer Concert Series is scheduled to have two concerts this June, while the budget assumed three. The revenues and expenses for the third are expected to come in FY 2014-15. Improvements to the concert stage and lawn, budgeted in the capital fund, are in the procurement process and are scheduled to be completed before the summer 2014 concert series.

Construction has begun in earnest on related infrastructure for the Elephant Lands project. Excavation on Forest Hall has started and the South Encounter Habitat is open and available to the Elephant Herd. The Condors of the Columbia project is complete and birds have been introduced to the habitat. The grand opening to the public is scheduled for May. Increased capital expenditures in the bond fund reflect this planned activity. The Council directed staff to exercise the property purchase option for the Roslyn Lake property for the Remote Elephant Center and staff are working through due diligence tasks with the property owner. Land-use planning options and strategies are being developed, as have funding sources for long-term operating costs.

The Southwest Corridor project recognized expenditures of \$543,000 through the third quarter and projects to spend 59 percent (\$750,000) of its \$1.27 million materials and services budget. The Transit-Oriented Development program projects spent \$721,000, and its spending is projected to be 29 percent of the program purchases budget. The Regional Travel Plan spent \$118,000 and projects spending of 52 percent of budget. The Regional Travel Options (RTO) program spent \$240,000 and projects overall materials and services spending of 59 percent for the fiscal year.

Zoo bond projects are in full swing

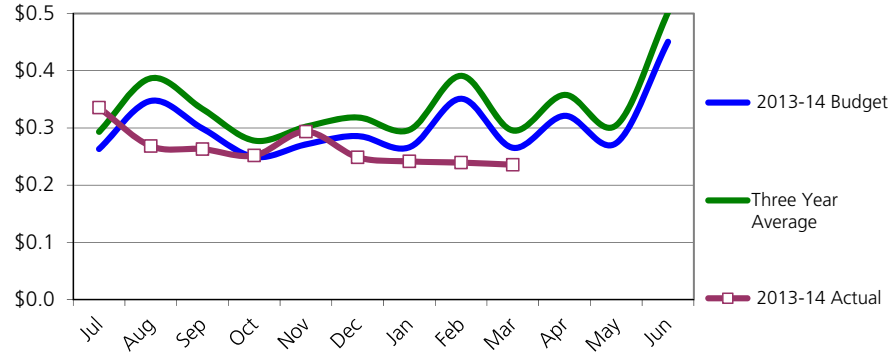

Note: RTO grants are expended over a two-year cycle, with spending expected to pick up next year (the second year of the present cycle).

Research Center spending, through the third quarter, is at 65.3 percent of budget. The spending projection for the fiscal year is 87.3 percent of budget, which is driven, in part, by an expenditure forecast of 33 percent of the \$230,000 budget for the Aerial Photo Consortium. The DRC secured a lower-than-expected bid on the Aerial Photo project, reducing overall costs.

Parks and Environmental Services- Operating Expenditures by Month

shown in millions

Parks and Environmental Services operating expenditures for the third quarter of FY 2013-14 closely tracked budget. Expenditures, in general, reflect normal seasonal patterns of Parks and Property Stewardship and Solid Waste Operations. Year-end projections for total operating expenses are trending toward 97.7 percent of budget, the net effect of mainly higher than budgeted expenses for tonnage related costs under the Solid Waste Fund Operations and lower than budgeted expenses through the Parks and Natural Areas Local Option Levy Fund.

Based on third quarter results mixed solid waste tonnage at Metro facilities is projected to be 9.0 percent higher than budget. Year-to-date, the increase in expenditures to pay the costs of station operations, transport and disposal for the additional mixed solid waste tonnage are partially offset by reductions in the costs to process residential organics waste, which is trending lower than originally anticipated. A budget amendment for \$2.4 million, to increase expenditure authority from the Solid Waste Operating Contingency, was approved by the Council in April. Tip fees and transaction fees are expected to balance the additional expenses.

Operating expenditures in Parks and Property Stewardship have been influenced by seasonal patterns, as outlined in the PES revenue section. General Fund spending on materials and services are close to budget and are projected to come in at \$200,000 under budget, primarily because of lower Golf Course expenditures.

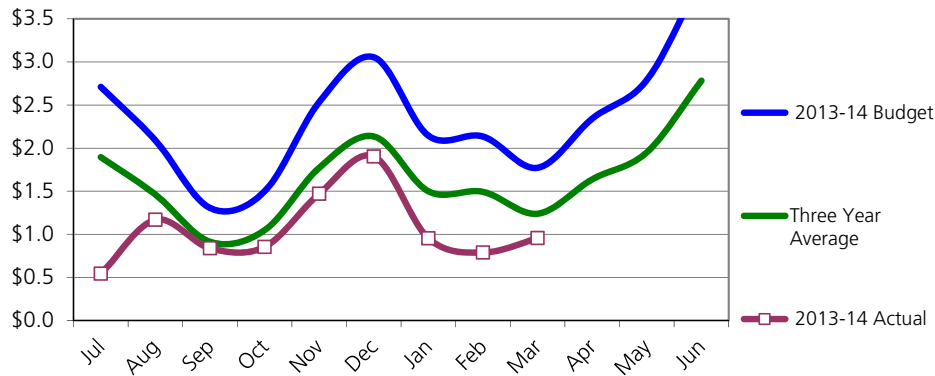

Capital and renewal and replacement spending were low through the third quarter and are projected to end the year at 55.5 percent of budget, based on the year-to-date progression of projects. Several capital projects in the Solid Waste Fund, including the St. Johns Landfill Remediation and the Metro Central Storm Water Improvement projects have been carried forward to FY 2014-15. All Year 1 capital projects under the Parks and Natural Areas Local Option Levy Fund will be completed except the Howell Territorial Park Signage (\$25,000), which is being carried forward until a new master plan is completed for the property. In addition, year-end actual expenditures are projected to come in under budget by about \$450,000, which will be moved forward to the next fiscal year.

Sustainability Center- Operating Expenditures by Month

shown in millions, excluding capital acquisitions

Sustainability Center actual operating expenditures for the third quarter of FY 2013-14 are below budget primarily due to underspending in the Local Share Program under the Natural Areas Bond Program, as well as to delays in Natural Area Restoration projects under the Local Option Levy Program. Year-end projections for personnel services and materials and services expenses are projected at 89.6 percent and 70.3 percent, respectively, of budget, and are strongly affected by underspending in the Parks and Natural Areas Local Option Levy Fund.

Several projects are under review or in the scoping phase in the Parks Planning and Development division. The year-end projection includes the completion of the Blue Lake Trail section of the 40-Mile Loop Trail (\$836,000) under the Bond Program and the recognition of the expenditures made directly by the Oregon Department of Transportation as a Metro asset. Various projects budgeted in the Parks and Natural Areas Local Option Levy Fund (\$100,000) and under the General Fund (\$90,000) have been carried forward to FY 2014-15. Capital projects under the Parks and Natural Areas Local Option Levy are expected to be 70.0 percent (\$500,000) lower than budget and have been carried over to next fiscal year.

Expenditures in the Resource Conservation and Recycling program are projected to end the fiscal year at 8.6 percent below budget, mainly due to underspending on contracted professional services, as well as to several contracts, which will be carried into the next fiscal year.

Expenditures in materials and services from the Local Share Program under the Natural Areas Bond Program are below budget. The year-end forecast for Local Share and for capital (land acquisition) under the Natural Areas Bond Program is conservative, based on historical patterns and expected acquisitions by the end of the fiscal year. Several grant-funded restoration projects (\$166,000) in the General Fund are expected to be carried forward into the next fiscal year. The Natural Area Restoration and Maintenance projects under the Levy Program had a slow start due to recruitment process and are now in the planning and development phase. Several projects (\$1,000,000) will be carried over to FY 2014-15.

APPENDIX C – Construction Excise Tax

Third quarter continues upward trend

Construction excise tax collections for the third quarter, representing permit activity for January, February and March, continue to affirm the positive collection trends we have seen recently. Receipts totaled \$ 813,600, which also includes Portland’s 2nd quarter payment. Net of that additional payment collections were \$560,000, the second best third quarter since the beginning of the Construction Excise Tax.

3rd Quarter history (rounded)		Annual Collections (rounded)	
FY2014	\$813,600	FY2014 (to date)	\$ 1,735,000
FY2013	554,300	FY2013	1,075,000
FY2012	430,600	FY2012	1,765,000
FY 2011	351,600	FY2011	1,441,000
FY2010	352,000	FY2010	1,428,000
FY2009	330,600	FY2009	1,720,000
FY2008	509,000	FY2008	2,461,000
FY2007 (start-up)	378,000	FY2007 (start-up)	1,807,000

Washington County collections increasing

Washington County continues to increase collections. The third quarter total (173,000) is already their second highest total for a full year with a quarter of collections to go. Portland continues to lead all jurisdictions in total collections and is on pace to beat last year’s total of \$1 million. Clackamas County jurisdictions remain comparatively flat on a year over year basis. Oregon City will end the year below their last year’s total, but Lake Oswego will end up over last year’s collection amount. This seems to suggest that construction in the region continues to be strong overall, but not necessarily in every jurisdiction at the same time.

Cumulative collections

Cumulative collections since July 2006 are now \$14.7 million. As part of the legislation extending the tax, Metro began retaining 2.5 percent of the collected receipts above \$6.3 million to recover a portion of its costs in administering the program. To date Metro has collected \$211,000, \$62,000 of which has been used to offset a portion of costs for outside legal services.

Collections by jurisdiction

Cumulatively, the order of highest collections: Portland (41 percent), Hillsboro (11 percent), Washington County (9 percent), Clackamas County and Beaverton (6 percent each), and Gresham. Happy Valley and Wilsonville (4 percent each)

Status of Community Development and Planning Grants funded by the Construction Excise Tax

A complete report on grant activity is provided in the second and fourth quarters. However, collections to date have been sufficient to cover the cycle 3 \$4.3 million granted, with two quarters of collections to go.

Charts provide additional detail

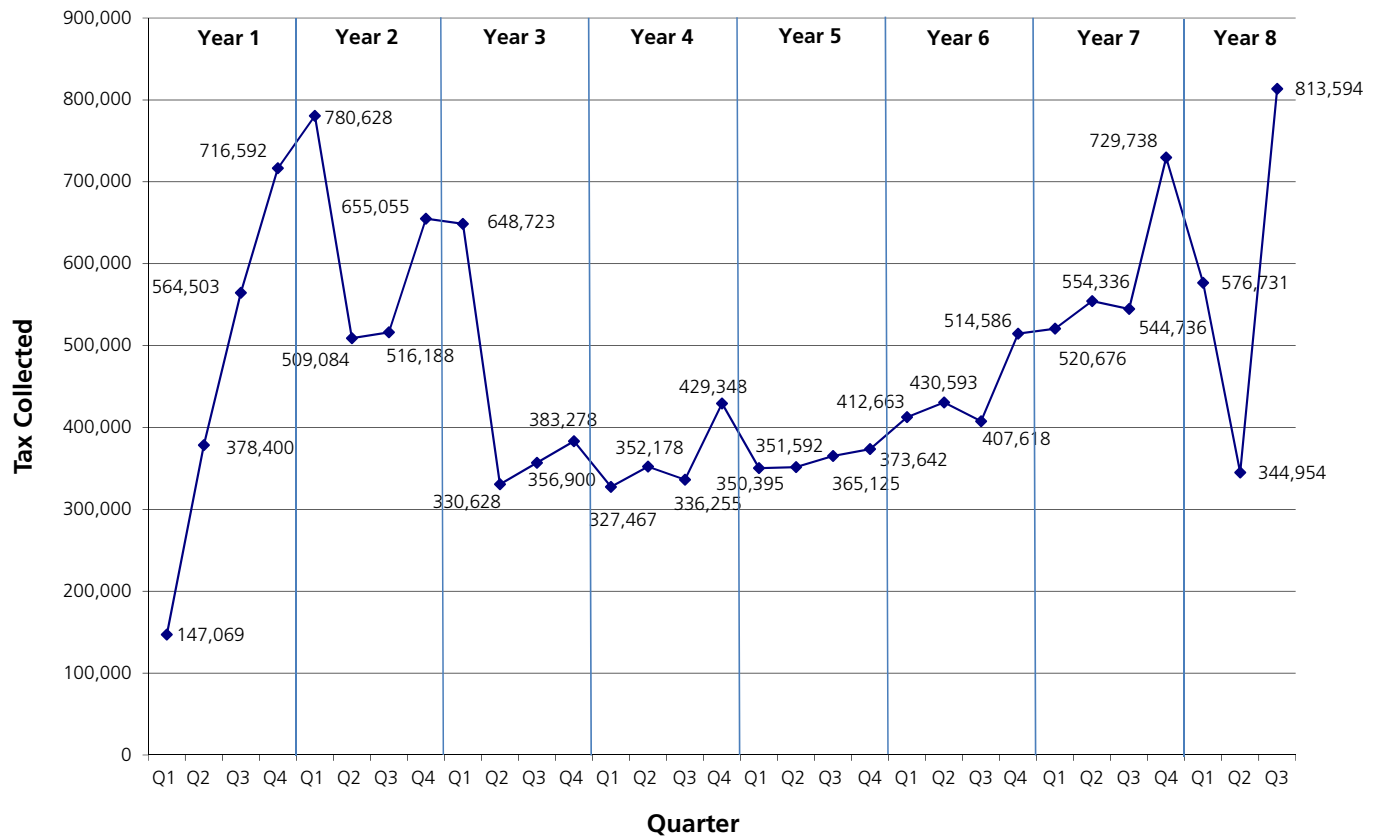

Following this report are charts detailing information about both collections and expenditures of Metro’s Construction Excise tax.

Report available on Metro Website

Metro posts its Construction Excise tax reports on Metro’s website www.oregonmetro.gov for participating jurisdictions and interested citizens.
