PRESENTATION DATE: September 16, 2014

LENGTH: 15 Minutes

PRESENTATION TITLE: Fourth Quarter Financial Report (unaudited)

DEPARTMENT: Finance & Regulatory Services

PRESENTER(S): TIM COLLIER, DIRECTOR, FINANCE AND REGULATORY SERVICES (X1913)
MATT SNODGRASS (X 1687)

WORK SESSION PURPOSE & DESIRED OUTCOMES

- Purpose: To inform the Council about the state of Metro finances through the fourth quarter of the fiscal year.

TOPIC BACKGROUND & FRAMING THE WORK SESSION DISCUSSION

Overall revenues performed somewhat better than the conservative pace set forth in the budget plan. Expenditures came in under budget, though largely in-line with expectations.

Do the ending balances for FY 2013-14 signal any concerns about the FY 2014-15 budget plan? A review of ending balances will aid in adjusting expectations for FY 2014-15.

Finally, this report fulfills a requirement of Metro's financial policies for monitoring and regular reporting to the Council of the budget's performance.

FOURTH QUARTER FY 2013-14

MAKING A GREAT PLACE

Clean air and clean water do not stop at city limits or county lines. Neither does the need for jobs, a thriving economy, and sustainable transportation and living choices for people and businesses in the region. Voters have asked Metro to help with the challenges and opportunities that affect the 25 cities and three counties in the Portland metropolitan area.

A regional approach simply makes sense when it comes to providing services, operating venues and making decisions about how the region grows. Metro works with communities to support a resilient economy, keep nature close by and respond to a changing climate. Together, we're making a great place, now and for generations to come.

Stay in touch with news, stories and things to do.

September 16, 2014

Dear President Hughes and Members of the Metro Council:

On behalf of the Finance Team, I am today delivering Metro’s Fourth Quarter Financial Report for FY 2013-14. The fourth quarter report is used for one very important reason: It lets us know if there needs to be any adjustments to the projected beginning fund balance for the FY 2014-15 budget, which could require Council action to adjust the current budget.

All Revenue	Budget	Year-end Actuals	Year-end % of Budget	3-Yr Average
Program Revenues	148,779,046	151,628,097	101.9%	94.9%
General Revenues	90,989,224	93,385,795	103.2%	100.3%
Other Financing Sources	0	1,800,316	0%	98.8%
All Revenue	\$239,768,270	246,814,208	102.9%	141.2%

Expenditures	Budget	Year-end Actuals	Year-end % of Budget	3-Year Average
Personal Services	83,930,272	77,386,988	92.2%	95.2%
Materials and Services	124,609,667	102,096,648	81.9%	81.1%
Total Operating Expenditures	208,539,939	179,483,636	86.1%	86.1%
Total Capital Outlay	63,873,214	38,792,518	60.7%	48.6%
Total Renewal and Replacement	4,919,837	2,194,026	44.6%	75.1%
Total Expenditures	277,332,990	220,470,180	79.5%	75.4%

Revenues continue to outpace projections

Revenues tracked budget pretty closely and were higher in some areas, particularly the venues and solid waste. Transient lodging tax continues its upward trend and construction excise tax has returned to prerecession levels and both are showing continued growth. Property tax collections ended the year above budget. Solid waste tonnage in the region continues the recent years upward trend (up 3.6 percent for FY 2013-14). In a reversal of recent trends we are seeing a greater increase at Metro’s transfer stations (up 7.7 percent) then we are at the private facilities (1 percent increase).

However, there are some areas we need to be watchful of in the coming year. Parks and property stewardship program revenues were mixed and need to continue to be monitored closely. In addition, the attendance drop at the Oregon Zoo continues to put pressure on overall revenue assumptions. While not dramatically influencing the overall budget, we do need to continue to keep an eye on them and adjust throughout the year, as necessary.

Expenditures continue on previous trends

Operating expenditures came in below budgeted levels and match the three year trend, (86.3 percent year end compared to 86.1 percent). This does show that last year’s numbers (87.7 percent compared to 84.3 percent), was a blip, but the three year trend is beginning to rise, which we will have to take into account in future years.

Construction Excise Tax continues to climb

Construction excise tax collections continue to show improvement. Collections through the end of the year came in at \$2.5 million, the highest collection year since the start of the tax in FY 2006-07.

The full CET report is included in the appendix.

Fourth quarter prognosis: positive

Continuing the trend of the last two years, the news has generally been positive. Venue activity continues to do well and is projected to continue to do so in FY 2014-15. Property taxes, excise tax collections and TLT are all above projections. We will continue to review our projections and the trends, particularly zoo and parks revenues, as we move into the FY 2015-16 budget cycle.

How does this impact the FY 2014-15 budget?

Our final numbers for FY 2013-14 are about what we anticipated during the development of the FY 2014-15 budget. The amount that we are short from projections, about \$600,000, should be able to be made up through budget adjustments throughout the year without major impact to programs. The trends currently are very positive and continue to show improvement. We will continue to monitor throughout the year and will keep you updated on any additional impacts to the budget.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tim Collier', with a stylized flourish at the end.

Agency revenues totaled \$232.6 million through the fourth quarter of FY 2013-14, or 103.2 percent of the annual budget. Year-end revenue projections were on target (103.2 percent as opposed to 102.4 percent, of budget). Tonnage at Metro solid waste facilities continued to rise through the fourth quarter, affecting both departmental revenues and excise tax collections. Transient Lodging Tax also rose faster than was originally expected, year-on-year. Though the Sustainability Center saw delayed growth in revenues through the third quarter, it came in over budget at year-end. Metro's section of the 40-Mile loop trail was also completed during this fiscal year.

Portland'5 Center for the Arts - Program Revenues by Month

shown in millions

Portland Expo Center- Program Revenues by Month

shown in millions

Metropolitan Exposition Recreation Commission (MERC) program revenues, for the three venues, came in at 14.7 percent above budget. MERC Venue event-related revenues (rent and food and beverage) year-to-date (YTD) are 4.7 percent below FY 2012-13 YTD revenues, and 3.6 percent above the three-year historical average. The number of hosted events and attendance are respectively 8 percent and 2 percent below the previous year. Attendance is 7 percent below a two-year historical average. This trend indicates fewer events hosted at the venues with fewer attendees in FY 2013-14 than in recent years but higher revenue generated per event and per attendee.

Through the fourth quarter, event-related revenues for the Oregon Convention Center (OCC) are 12 percent below those of the previous fiscal year, and 5 percent above budget projections. OCC hosted a series of unbudgeted events in late FY 2012-13, which boosted their rent and food and beverage revenues beyond the average. Following that strong FY 2012-13 performance, total OCC revenues lagged the budget by 1 percent relative to the previous year's revenues. Higher than expected Transient Lodging Tax (TLT) receipts kept the revenues nearer to budget than they would otherwise have been. Food and beverage margins are 8 percent below the previous year, however they are only 2 percent below budget projections. This dynamic is due to increased costs in FY 2013-14 and OCC's exceptional food and beverage performance in FY 2012-13.

Portland'5 Centers for the Arts (Portland'5) YTD event-related revenue is 6 percent above FY 2012-13 and 8 percent above budget projections. However, attendance at Portland'5 is 15 percent below the previous year. Portland'5 has hosted fewer resident company shows this year but has replaced them with several Broadway show bookings. Food and beverage margins YTD are 2 percent below the previous year, however 4 percent above budget.

The Portland Expo Center (Expo) YTD event-related revenue is 5 percent above FY 2012-13, though it was 7 percent below budget projections. Expo successfully hosted *Cirque du Soleil* in 2014 for the second time, with its 46 performances and more than 96,000 attendees. Excluding *Cirque* performances, Expo hosted the same number of events in FY 2012-13 as in FY 2013-14. Including *Cirque* performance attendees, total FY 2013-14 attendance was 1 percent below the two-year historical average. This dynamic was caused by the lost attendance due to the snow events in February at Expo's traditionally largest event of the year, the Sportsman and Outdoor Show. Expo food and beverage margins closed 2 percent above the previous year though they were below budget projections.

***Cirque Du Soleil* was a big success**

Oregon Zoo

Oregon Zoo- Program Revenues by Month

shown in millions

Program revenue came in at 96.3 percent of budget. The Oregon Zoo experienced a substantial drop in attendance for the 2013-14 fiscal year, with a noted drop in the third quarter, which included the February snow event and the Vancouver school district's spring break. Total attendance was 1,514,192, as compared to 1,683,442 in FY 2012-13. Attendance began to lessen in January and continued through the end of the fiscal year. The period coincides with the implementation of paid parking across Washington Park, which may have had a substantial impact on member attendance, with a 14 percent decrease in member visits versus a 5 percent reduction in paid visits. Zoo management is tracking the downward trend in an attempt to understand how much of the attendance losses may be due to changes in parking fees or to construction activity on the zoo grounds.

Guest Services-generated revenues were down \$600,000 dollars (3 percent) from FY 2012-13. Revenue from admissions and food service increased 2 percent, driven by a \$1.19 increase in per-capita revenue. The zoo train, a significant revenue generator, was out of operation most of the year due to work on the track alignment, which was part of the Elephant Lands exhibit implementation. Overall, enterprise revenues were 1.4 percent below budget projections.

Zoo attendance down from FY 2012-13

Planning and Development/Research Center

Planning and Development/Research Center- Program Revenues by Month

shown in millions

Planning program revenue through the fourth quarter is at 87.8 percent of budget. \$390,600 of the \$2.0 million remaining in the projects budget for the Southwest Corridor will remain for future spending. Funding is in place for the Powell Division Transit project, and though work on the project started in the third quarter, 69.8 percent (\$308,041) of the ODOT grant funding for the fiscal year will be carried into the next fiscal year. Funding from the National Academy of Sciences came in at 33.7 percent above budget, under the SHRP II-TCAPP contract. Annual funding for Transit-Oriented Development, from Trimet, has been raised from \$2.889 million, to \$2.975 million, which was recognized in April. The Regional Travel Options program spent 65.2 percent of its budget, with the unused grant funds carrying into the next fiscal year. Through the fourth quarter, charges for services revenue came in 10.3 percent above budget, driven by Research Center activities.

Note: grant billings for the first quarter are processed in October to allow sufficient time for year-end closing, audit, and reporting.

Parks and Environmental Services

Parks and Environmental Services- Program Revenues by Month

shown in millions

Total Parks and Environmental Services program revenues ended the year 4.8 percent (\$3.0 million) higher than budget, due almost exclusively to Solid Waste Operations, and showing little change from the third quarter.

Solid Waste program revenues, consisting primarily of tonnage fees, paint sales, service fees for the state PaintCare program, and government grants, finished the year 5.7 percent (\$3.2 million) higher than budgeted.

Tonnage delivered to Metro facilities for FY 2013-14 was 9.3 percent more than the budget forecast and 7.7 percent more than the actuals in FY 2012-13, while tonnage at non-Metro facilities was 2.9 percent higher than the budget forecast and 0.9 percent higher than the actuals in FY 2012-13. The year-end tonnage increase figures for FY 2013-14 were primarily driven by positive economic growth trends. Year-end actual figures include higher than budgeted revenues (\$270,000) for the Latex Paint program and lower than budgeted revenues (\$1.1 million) for residential organics. Residential organics tonnage delivered to Metro Central Station was significantly less than budgeted (21,000 tons) mainly due to the action taken by Recology Oregon Recovery to begin hauling residential organics in spring 2013 to their Suttle Road Facility instead of to the Metro Central Station.

Parks and Property Stewardship (including Cemeteries) revenue ended the year 2.0 percent (\$113,000) lower than budgeted, compared to a third quarter estimated year-end shortfall of 1.3 percent (\$81,000). Overall, the year-end result is the net effect of higher than budgeted revenues (\$336,000) from property rentals, cemeteries revenues, and parking fees (at the Metro Regional Center and Irving Street garages) which nearly offset the lower than budgeted revenues (\$440,000) from Glendoveer Golf Course, parks admissions and RV site fees. High rainfall in the third quarter negatively affected visitor facilities attendance figures and consequently affected actual year-end-revenues.

Note: The FY 2013-14 overall actual revenues are different from those found in the historical averages, primarily due to a new revenue and expense structure under the new Glendoveer Golf Course operating contract that became effective January 1, 2013. Three-year historical monthly averages are therefore based on previous revenue results, which did not include golf course revenues in the way they are now recorded, due to the new contracting structure.

Sustainability Center

Sustainability Center- Program Revenues by Month

Sustainability Center program revenues ended the year 21.5 percent (\$349,000) higher than budgeted, compared to a third quarter estimated year-end shortfall of 19.0 percent (\$313,000). The main drivers of this change are a capital contribution (\$207,000) from the City of Happy Valley for the construction of the Scouters Mountain Nature Park and a grant reimbursement received in April from the North American Wetlands Conservation Act for the acquisition of the Weedman property, both projects under the Natural Areas Bond Program. The year-end actual figures include the completion of the Blue Lake Trail section of the 40-Mile Loop Trail and the recognition in the month of June of all the expenditures made directly by the Oregon Department of Transportation as revenue (\$842,000), which explains much of the the peak observed in June. Grant revenues associated with natural areas restoration projects and Parks and Development projects ended the year lower than budgeted and consistent with the year-end projection made in the third quarter.

General Revenues

	Budget	Actual YTD	Year-end % of Budget	3-Year Average

General Revenue	90,989,224	93,385,795	102.6%	101.1%

Transient Lodging Tax up 9.7 percent more than projections

Property Taxes– Revenues through the fourth quarter came to 100.6 percent of budget.

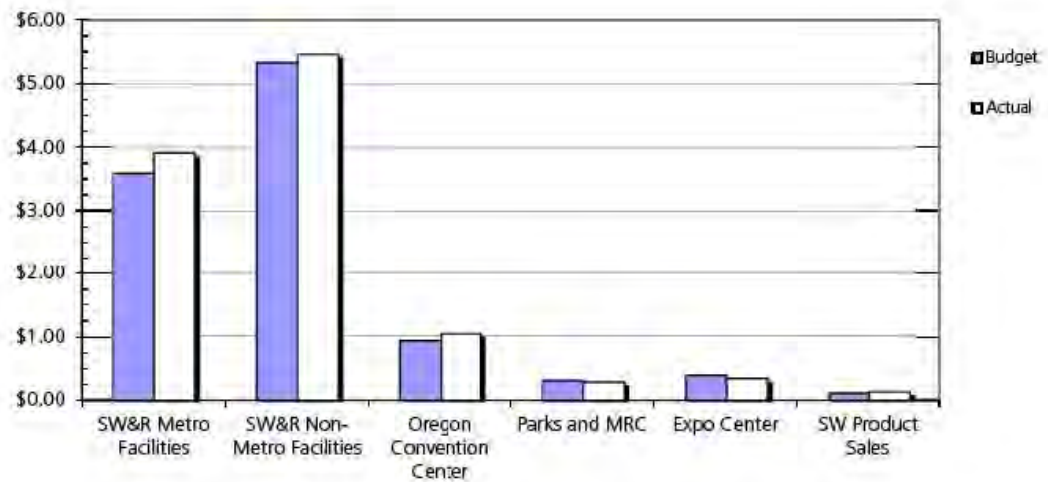

Transient Lodging Tax– Year to date Transient Lodging Tax receipts are \$10.6 million. However, Metro stands to receive an estimated additional \$1 million from the August and September TLT payments from the County. These payments are projected to bring the total TLT receipts for FY 2013-14 9.7 percent above annual budget and Multnomah County’s projection.

Interest Earnings– Total interest earnings ended the quarter at 270.4 percent of budget.

Excise Tax

Excise Tax Received Through June 30, 2014, Budget vs. Actual

shown in millions

Non-tonnage excise tax came in at 1.0 percent above budget. Solid waste excise tax, overall, came to 6.3 percent above budget. Tonnage-based excise tax at Metro facilities came in at 9.9 percent above budget, while ending the year at 4.2 percent above budget at non-Metro facilities. For more information, see the Parks and Environmental Services revenues narrative (previous page), or refer to the Excise Tax Appendix.

Management identified the trend of lower attendance and revenue, which was particularly pronounced in the fourth quarter, and adjusted spending to accommodate. Fourth quarter spending did, however, increase sharply from the third quarter as the zoo prepares for summer attendance, the premium summer concert series, and fulfillment of other planned expenditures. The seasonality of spending, however, was somewhat less pronounced this year because of on-going budget management and refinement. Management will continue to monitor expenditures with a focus on managing seasonal, temporary and overtime staffing.

Key capital and renewal and replacement projects completed during the year include a new roof on AfriCafe, construction of a commissary refrigerator and freezer to separate human and animal food, and the installation of a modern concert stage and canopy system. Overall capital and renewal and replacement spending is below budgeted amounts as funds were appropriated for the potential purchase of the Roslyn Lake property and a backup power generator replacement which did not take place.

Elephant Lands project on schedule

Construction continues on related infrastructure for the Elephant Lands project. Construction of Forest Hall has started and the Encounter Habitat is open and available to the Elephant herd. Condors of the Columbia is complete and the exhibit is open to guests to view birds in their habitat. Increased capital expenditures in the bond fund reflect this planned activity. The Metro Council directed staff to exercise the property purchase option for the Roslyn Lake property for the Remote Elephant Center and staff are working through due diligence tasks with the property owner. Land-use planning options and strategies are being developed as well as funding sources for long-term operating costs.

Parks and Environmental Services- Operating Expenditures by Month

shown in millions

Parks and Environmental Services monthly operating expenditures in FY 2013-14 reflected normal seasonal patterns of Parks and Property Stewardship and Solid Waste Operations. Operating expenditures were 6.0 percent (\$3.3 million) below budget, attributable primarily to the Solid Waste Operations and to a lesser extent to the Parks and Natural Areas Local Option Levy activities.

Solid waste tonnage delivered to Metro facilities for FY 2013-14 was 9.3 percent more than the budget forecast and 7.7 percent more than the actuals in FY 2012-13. A \$2.4 million budget amendment to increase expenditure authority was approved in April 2014 to pay the costs of station operations, transport and disposal for the additional mixed solid waste tonnage received. The increase in mixed solid waste tonnage-related materials and services expenditures were offset by \$1.0 million less than budgeted expenditures to process residential organics waste, which, together with underspending in non-tonnage materials and services, caused actual year-end materials and services expenditures to be 4.8 percent (\$1.9 million) lower than budget. Residential organics tonnage delivered to Metro Central Station was significantly less than budgeted (21,000 tons) mainly due to Recology Oregon Recovery, which began hauling residential organics in spring 2013 to their Suttle Road Facility instead of to the Metro Central Station.

Cart Barn
completed**

Parks and Property Stewardship (including Cemeteries) materials and services expenditures under the General Fund for FY 2013-14 were lower than budgeted by approximately \$43,000. The change from the third quarter projection is primarily due to Glendover Golf Course operating contract expenses being higher than anticipated in the third quarter and to one-time expenditures related to settlement agreements under the cemetery program during the fourth quarter.

Note: The FY 2013-14 overall actual expenditures are different from those found in the historical averages, primarily due to a new revenue and expense structure under the new Glendover Golf Course operating contract

Capital expenditures were 71.0 percent (\$4.5 million) lower than budgeted during FY 2013-14. Actual capital expenditures in Solid Waste Operations were \$3.1 million below budget. Several capital projects in the Solid Waste Fund, including the St. Johns Landfill Remediation (\$1.0 million) and the Metro Central Storm Water Improvement (\$400,000) projects were carried forward to FY 2014-15. Several projects in the first year of the Parks and Natural Areas Local Option Levy were completed and two projects were carried forward to FY 2014-15. Actual expenditures under the renewal and replacement and the capital fund for Parks and Property Stewardship are related to the Fleet Vehicle Replacement (\$254,000) and Glendover Golf Course projects (\$735,000). Several projects during the fourth quarter have been carried forward to FY 2014-15.

Sustainability Center- Operating Expenditures by Month

shown in millions, excluding capital acquisitions

Sustainability Center operating and capital expenditures were 40.5 percent and 60.8 percent, respectively, below budget. Actual expenditures during FY 2013-14 exhibited large variations from month to month primarily due to the Local Share and the acquisition programs under the Natural Areas Bond Program.

Several projects in the Parks Planning and Development program remained under review, were in the land-use process, or were in the scoping phase during the fourth quarter and were subsequently carried over to FY 2014-15. The year-end expenditures include the completion of the Blue Lake Trail section of the 40-Mile Loop Trail and the recognition (in June) of all expenditures made directly by the Oregon Department of Transportation related to Metro assets under the Bond Program. Year-end capital expenditures under the Parks and Natural Areas Local Option Levy include \$390,000 for construction at Scouters Mountain Nature Park; the site is on track to open on August 28, 2014.

Resource Conservation and Recycling operating expenditures ended the year 11.9 percent (\$700,000) below budget. Multiple projects in various program areas (residential waste, measurement, waste prevention, recycling) were not undertaken, in large part due to delays associated with partners, further refining of scopes of work, more time needed than anticipated for tasks completion, and work plan reprioritization. The majority of these projects were carried forward to FY 2014-15.

During FY 2013-14, in the Natural Areas program, Metro acquired an additional 406 acres of natural areas, bringing the total acreage acquired under the 2006 bond program to 4,992 acres. Capital (land) expenditures were 61.7 percent lower than budget, however, the land acquisition budget is set high to ensure that adequate appropriation exists to cover a large number of potential acquisitions.

Materials and services expenditures from the Local Share and Capital Grants were 68.4 percent below budget. As Metro does not control the timing and amount of reimbursement requests in these programs, the budget is set high to ensure adequate appropriation exists when requests do come in. The peak observed in April is mainly due to City of Portland Neighborhood Park Acquisition reimbursements under the Local Share Program for the acquisition of the Dennis Property (\$1.7 million). Most of the Natural Areas Restoration and Maintenance projects under the Levy Program are progressing as planned and a few are experiencing the normal delays. Several projects (\$1.0 million worth) have been carried over to FY 2014-15.

APPENDIX C – Construction Excise Tax

FY 2013-2014 highest collections ever

Construction excise tax (CET) collections for the fourth quarter, representing permit activity for April, May and June closed the year on a high note to finish the year with the highest collection level since the beginning of the tax. Receipts totaled \$803,800. The total represented the best quarter since the beginning of the CET.

4th Quarter history (rounded)		Annual Collections (rounded)	
FY2014	803,800	FY2014	\$ 2,539,000
FY2013	514,600	FY2013	1,766,000
FY2012	373,600	FY2012	1,441,000
FY 2011	429,000	FY2011	1,428,000

FY2007 (start-up)	378,000	FY2007 (start-up)	1,807,000

Multiple jurisdictions have record years

Several jurisdictions had a record CET collection year. Beaverton, Washington County, Sherwood, Lake Oswego, Happy Valley and Portland all had record years. The City of Portland broke one million dollars collected again (\$1,080,000). Washington County had a 60 percent increase over collections in FY 2012-13 on their way to a record year (\$270,000).

Cumulative collections

Cumulative collections since July 2006 are now \$15.5 million. As part of the legislation extending the tax, Metro began retaining 2.5 percent of the collected receipts above \$6.3 million to recover a portion of its costs in administering the program. To date Metro has collected \$211,000, \$62,000 of which has been used to offset a portion of costs for outside legal services. This rate will be increased to 5 percent at the end of September 2014 when the tax extension goes into effect.

Collections by jurisdiction

Cumulatively, the order of highest collections: Portland (39 percent), Hillsboro (11 percent), Washington County (9 percent), Clackamas County (6 percent), Beaverton (5 percent each), and Gresham, Happy Valley and Wilsonville (4 percent each).

Status of Community Development and Planning Grants funded by the Construction Excise Tax

A complete report on grant activity is provided after the following charts.

Charts provide additional detail

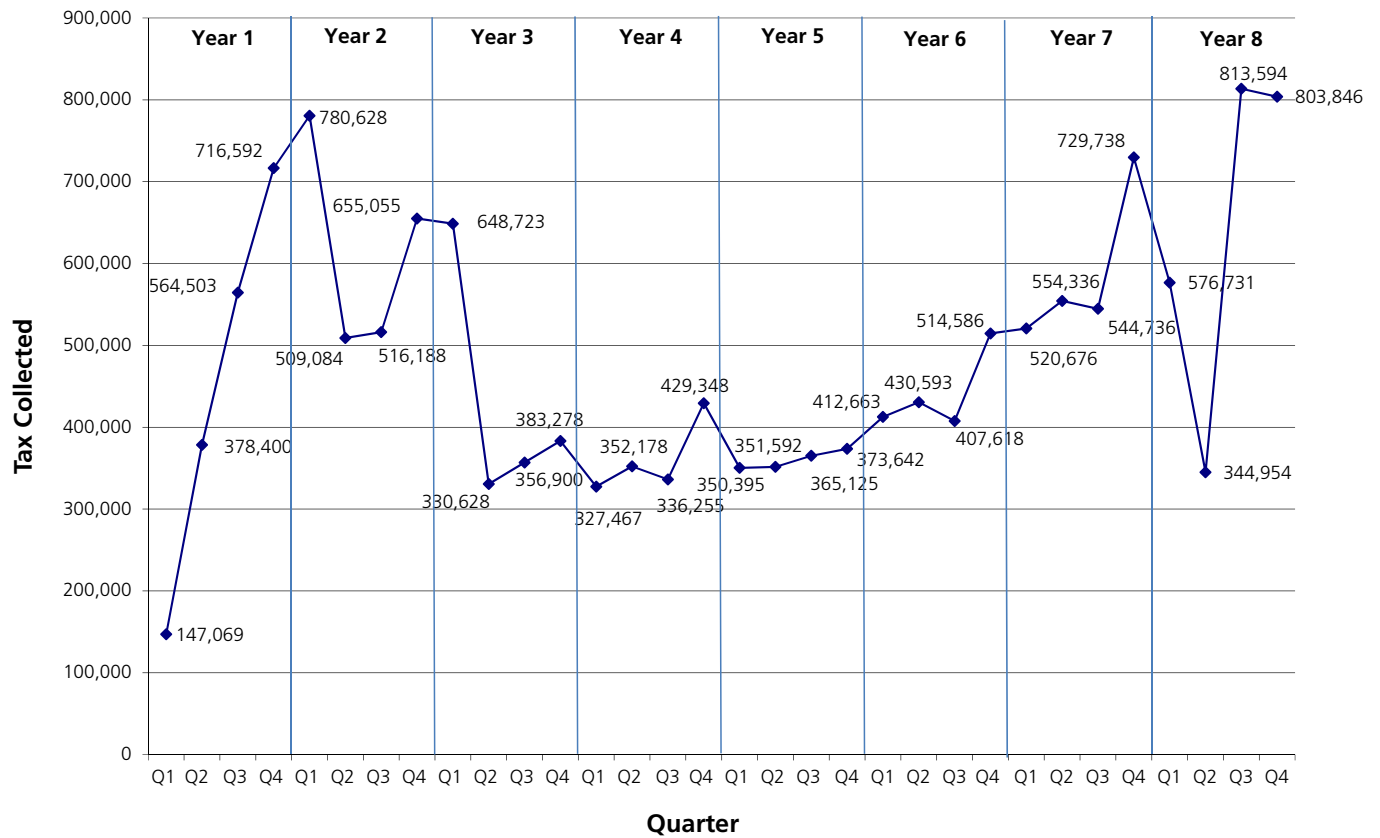

Following this report are charts detailing information about both collections and expenditures of Metro's Construction Excise tax.

Report available on Metro Website
