NOTES

Data Sources

The 1960 and 1970 population by county, population by incorporated area and population by Census tract, and the 1970 population by traffic zone are from the U.S. Bureau of Census, decennial Censuses.

The 1970 housing units and employment by traffic zone are from the FHWA Census Planning Package, using U.S. Bureau of Census data.

The 1975 population by county and population by incorporated area are from the State of Oregon, Population Research and Census Center (Clackamas, Multnomah, Washington counties) and the State of Washington, Population Studies Division (Clark County).

The 1975 population by census tract and population by traffic zone are from CRAG staff estimates adjusted to county control totals provided by the State of Oregon and the State of Washington.

The 1970 land use by type, by traffic zone are CRAG staff estimates from data assimilated from local jurisdiction land use maps.

The 1990 population estimates by traffic zone for Clark County and employment estimates by traffic zone for the entire transportation planning area are from the Interim Transportation Plan for the Portland - Vancouver Metropolitan Area, CRAG, September, 1975.

The 1985, 1990, 2000 population projections by traffic zone for Clackamas, Multnomah and Washington counties are CRAG staff estimates based on the Interim Transportation Plan and available land use information. The estimates were prepared in 1976.

Additional population estimates for 1970 - 1975 are available in the Building Permit Statistics Report.

Maps

Census tract and traffic zone maps are included in this report. Incorporated areas are shown on the census tract maps.

General Definitions and Limitations

The Portland - Vancouver Metropolitan Area consists of Multnomah, Clackamas, and Washington Counties in Oregon and Clark County in Washington.

The entire metropolitan area has been divided into census tracts. Only the transportation planning area has been divided into traffic zones. Traffic zones are smaller than census tracts.

The projections are for interim use only and, as such, are subject to revision pending further study. See Interim Transportation Plan for the Portland - Vancouver Metropolitan Area, CRAG, September, 1975, for a description of the employment projections by traffic zone and the population projections by traffic zone for Clark County.

Contact the CRAG Public Facilities Division for a description of the population projections by traffic zone for Clackamas, Multnomah and Washington counties.

The preparation of this report was financially assisted through EPA under federal grant, Section 208 of the Federal Water Quality Act Amendments of 1976, and through HUD and FHWA under CRAG's IGA (#CPA-OR-10-00-0003, IGA OR-10-00-0009).

Population, by County,
1960, 1970 and 1975
(in thousands)*

TOTAL COUNTY		92237	157920	190900	265850	303575	348350

Population, Housing Units, and Employment, by Traffic Zone, 1970

Column 1 - Traffic Zone
Column 2 - Population
Column 3 - Housing Units
Column 4 - Total Employment
Column 5 - Retail Employment

Land Use, by Type, by Traffic Zone, 1970

Column 1 - Traffic Zone
Column 2 - Residential Acres
Column 3 - Commercial Acres
Column 4 - Industrial Acres
Column 5 - Public Acres
Column 6 - Vacant Acres
Column 7 - Transportation Acres
Column 8 - Total Acres

See placement of decimal in
NOTE below.

NOTE: In Part II of the Benchmark Data the last number in each column should be preceded by a decimal except in the total acres column, where the decimal follows the last number. That is, the data is given to the tenth of an acre for each column except for the total acres one which is stated in whole acres. Thus, for traffic zone 52, for example, reading across, the acreage figures are: 0.9, 6.8, 1.0, 0.9, 0.0, 14.4, and 23.0. To give another example, reading traffic zone 81 across, the acreage figures are: 24.6, 31.4, 15.8, 14.2, 67.2 and 169.0. Vacant land figures have been rounded to whole values. The totals may not add up due to the rounding of vacant land values.
