WORK SESSION PURPOSE & DESIRED OUTCOMES

- Purpose: The purpose of this work session is to provide the Metro Council with a preview the design of the new Oregon Convention Center website and brand identity.
- Outcome: Council understands the business rationale for the web design and re-branding initiatives.

TOPIC BACKGROUND & FRAMING THE WORK SESSION DISCUSSION

The Oregon Convention Center is owned and operated by Metro and is managed by the Visitor Venues department, under the leadership of Metro's Exposition Recreation Commission (MERC). The convention center's operation supports thousands of local jobs and brings more than \$500 million to the region each year in visitor spending. OCC hosts a wide variety of events, from national conventions and trade shows to charity auctions and green meetings.

Initiated in July 2014, the **Oregon Convention Center website improvement project** will be completed this summer with the launch of the new OCC site. Convention center staff and stakeholders participated in a detailed discovery phase. The advisory committee was made up of local hospitality and communications industry professionals, and representatives from Metro. The final list of website features was approved in December of 2014. Using Metro's on-call contracts awarded through a competitive bidding process, the project team selected OMBU Web, a local web development firm, to complete the user experience and build phases of the project, and Sockeye Creative, a local design firm, to complete the design phase.

With the launch of the convention center website this summer, the family of Metro sites – Metro, Portland Expo, Oregon Zoo, Portland'5, and the Oregon Convention Center – will be on the same open source, mobile-friendly platform, increasing efficiencies and assuring that accessibility standards are met across Metro. Like the other Metro sites, the convention center needed a new, robust and relevant website to support sales, provide customers with better tools, and greater flexibility across desktops, tablets and phones.

The convention center tower logo (modified in 2003 to reflect the expansion) was designed in 1990 for stationary and print. The new logo and brand approach is designed to raise awareness and support marketing by positioning the convention center for success in the national and global market.

Oregon Convention Center staff reviewed the proposed logo with Travel Portland Customer Advisory Board and Travel Portland staff and received positive feedback. These key stakeholders expressed confidence that the new brand focus will enhance the customer and visitor experience.

The June 2 work session will provide Council with more information on this analysis as well a preview of the website and the new brand identity.

QUESTIONS FOR COUNCIL CONSIDERATION

- Do the proposed changes to the Oregon Convention Center's website and brand identity support the mission and goals of the convention center and Metro?

DEPARTMENT: Finance & Regulatory Services

PRESENTER(S): TIM COLLIER, DIRECTOR, FINANCE AND REGULATORY SERVICES (x1913)
FOR MORE INFORMATION, ALSO CONTACT MATT SNODGRASS (x1687)

WORK SESSION PURPOSE & DESIRED OUTCOMES

- Purpose: To inform the Council about the state of Metro finances through the third quarter of the fiscal year.

TOPIC BACKGROUND & FRAMING THE WORK SESSION DISCUSSION

Overall revenues performed better than the conservative pace set forth in the budget plan. Expenditures came in under budget, though largely in-line with expectations.

The third quarter report gives the last set of projections going into the end of the fiscal year.

This report also fulfills a requirement of Metro's financial policies for monitoring and regular reporting to the Council of the budget's performance.

MAKING A
GREAT
PLACE

FINANCIAL
REPORT

THIRD QUARTER FY 2014-15

MAKING A GREAT PLACE

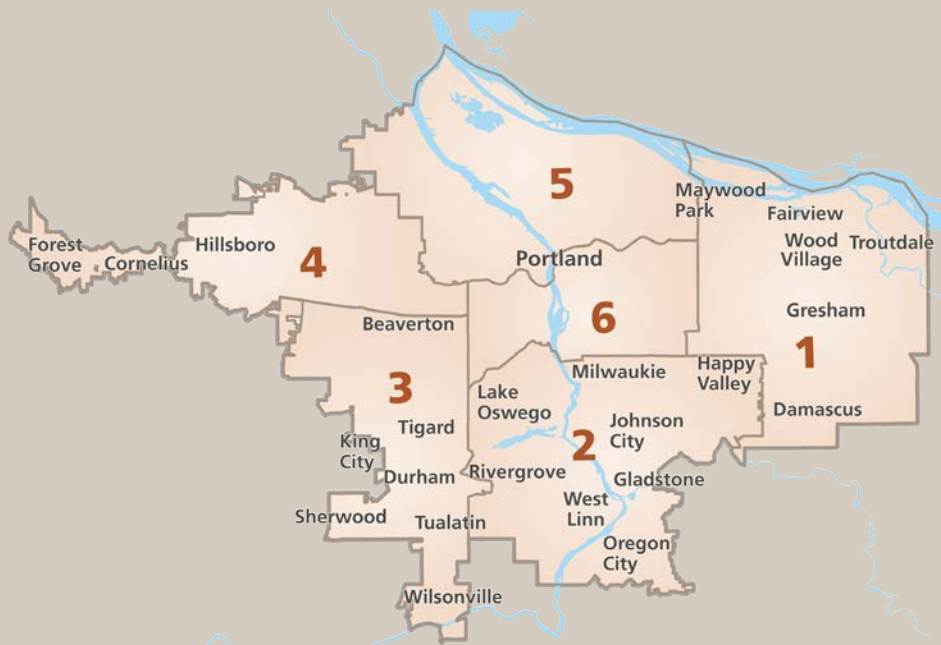

Clean air and clean water do not stop at city limits or county lines. Neither does the need for jobs, a thriving economy, and sustainable transportation and living choices for people and businesses in the region. Voters have asked Metro to help with the challenges and opportunities that affect the 25 cities and three counties in the Portland metropolitan area.

A regional approach simply makes sense when it comes to providing services, operating venues and making decisions about how the region grows. Metro works with communities to support a resilient economy, keep nature close by and respond to a changing climate. Together, we're making a great place, now and for generations to come.

Stay in touch with news, stories and things to do.

June 2, 2015

Dear President Hughes and members of the Metro Council:

On behalf of the Finance Team I am today delivering Metro's Third Quarter Financial Report for FY 2014-15. We utilize the third quarter report in two important ways. One, it determines if we have any potential issues that would require Council action prior to year end to maintain legal expenditure authority. Second, it lets us know if there needs to be any adjustments (both positive or negative) to the projected ending fund balance, which not only impacts the current year, but could impact the proposed FY 2015-16 budget.

Total Expenditures	\$294,176,529	\$170,942,959	58.1%	\$250,358,874	85.1%

Revenues coming in above projections

Revenues are projected to come in above budget. Transient lodging tax (TLT) and construction excise tax are showing continued growth. Property tax collections are on target and are projected to end the year on budget. Solid waste tonnage continues to meet projections, resulting in solid waste revenues in line with our original budget.

Venues revenues are tracking above budget, with record years in Portland's and OCC. Expo continues to trend along its three year average.

Glendoveer revenues are coming in higher than projected, but there is a corresponding uptick in expenditures. Generally most other areas are tracking on budget. We will continue to monitor to see if any last minute adjustments need to be completed prior to the end of the year.

Expenditures continue to track closely to budget

As has been the recent trend, operating expenditures continue to track close to budgeted levels. With the increase in tons at Metro's stations, tonnage related expenditures are up above originally projected levels. As mentioned above, Glendoveer expenditures are a little higher than anticipated but this is offset by higher revenues.

Construction Excise Tax on the upswing

Construction excise tax collections continue to be strong. Projected collections through the end of the year are on pace to be in line with the prior three year totals.

The full report is included in the appendix.

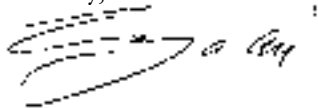

Third quarter prognosis: positive

Generally the news continues to be very positive. Property taxes and TLT are all above original budget. Venues revenues, continue to exceed expectations. We will continue to monitor expenditures, any appropriations issues will be brought to you in the June consolidated budget amendment.

How does this impact the FY 2015-16 budget?

Our projections for how we will end the 2014-15 fiscal year are in line with what we anticipated in developing the 2015-16 budget. Please remember though that these year-end numbers are only estimates, but continue to support the recent positive trends and it looks to be a positive start for the 2015-16 budget year.

Sincerely,

Tim Collier, CPA, MBA

Director of Finance and Regulatory Services

General Revenue	\$79,828,317	\$73,182,861	91.7%	\$80,139,733	100.4%	101.7%

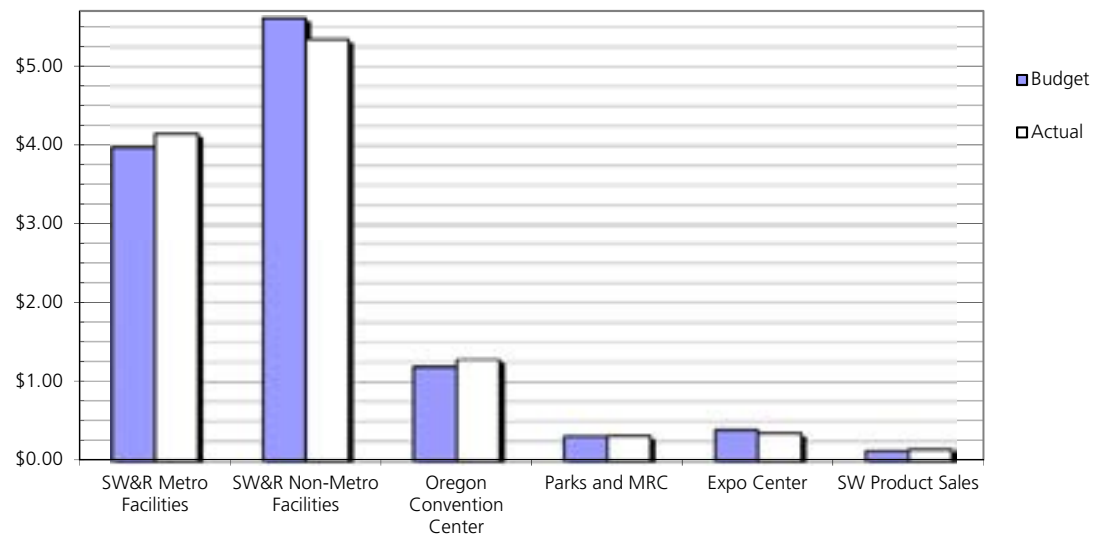

Property Tax – Revenues through the third quarter (in which they come due) came to 98.3 percent of budget.

Construction Excise Tax – at 64.3 percent, for the third quarter, is very similar to that of previous years.

Year-to-date Transient Lodging Tax receipts are \$1.4 million (18 percent) higher than the prior year. According to the Visitor Development Fund intergovernmental agreement, Portland's is allocated a maximum increase over the prior year receipts, of the Portland-Salem, second-half Calendar Year, Consumer Price Index (CPI), of two years prior. For FY 2014-15 this means a 2.8 percent increase over FY 2013-14 actual receipts. OCC is allocated the greater of the two years prior CPI, or 7 percent, over the prior year receipts. All TLT receipts over these maximums are deposited into the MERC Fund TLT Pooled Capital account to be allocated, at the MERC Commission's discretion, to specific projects in future years. \$1.9 million was allocated to the MERC Fund TLT Pooled Capital in FY 2013-14. Finance is currently forecasting approximately \$3.7 million will be deposited into TLT Pooled Capital at the close of FY 2014-15.

An error in the calculation in maximum TLT receipts to be distributed to both OCC and Portland's was discovered in early FY 2014-15, which dated back to FY 2011. Adjusting for this error in the current Fiscal Year will result in OCC receiving \$763,000 less TLT revenue than expected. To mitigate the effect to OCC, the finance department will propose a budget amendment in the current year to transfer an additional \$783,000 from TLT Pooled Capital to OCC. Finance and OCC propose to allocate these funds to the second phase of the OCC original roof replacement project. The impact to Portland's is less than \$20,000 or 1.5 percent of Portland's FY 2013-14 TLT receipts. Future year TLT receipt distributions to OCC and Portland's will be based upon the corrected FY 2014-15 amounts.

EXCISE TAX

Overall excise tax collections are on budget

Solid waste excise tax is projected to be below budget by 1.3 percent. Overall, excise tax collections remain on pace to exceed those necessary to meet the statutory yield, as tonnage continues to increase on an annualized basis.

Tonnage-based excise tax at Metro facilities is projected to be 4.4 percent above budget, while ending the year at 4.8 percent below budget at non-Metro facilities. Non-tonnage excise tax is projected to come in at 4.0 percent above budget. For more information, see the Parks and Environmental Services revenues narrative (in the Departments section, below), or refer to the Excise Tax Appendix.

OCC set monthly gross revenue records for the quarter

MERC program revenues, for the three venues, came in at 80.2 percent of budget. Year to date (YTD) MERC venue event revenues (rent and food and beverage) are \$5.6 million (22 percent) above the three-year historical average and 14 percent above budget. These increases in revenues over the historical averages are due to the improving economy, higher than average number of events (9 percent) and attendance (13 percent) as well as hosting higher profit margin type events.

OCC

OCC set monthly gross revenue records each month in the third quarter compared to the prior four years. Year to date revenues are 3 percent above budget projections. OCC YTD food and beverage margin is 20 percent. Year to date TLT receipts are 15 percent (\$1.0 million) above the prior YTD, suggesting OCC will meet its imposed cap of a 7 percent increase over the prior year TLT receipts. Please see the TLT section of this report.

Portland'5

Portland'5 year to date revenues are 29 percent (\$2.2 million) above the prior year and 7 percent above budget projections. Portland'5 has hosted more weeks of Broadway Across America performances in FY 2014-15 than FY 2013-14, which are traditionally more profitable than other types of events. Portland'5 YTD food and beverage margin is 29 percent due to two dynamics; 1) Portland'5 has benefited from labor cost savings from two vacant positions and 2) at the same time has benefited from an increase in consumer spending habits without the need for additional labor costs.

Expo

Expo's YTD revenues are 6.3 percent above the prior year and meet budget expectations. Expo's YTD food and beverage margin is 14 percent, 3 percent higher than the prior year to date.

MERC Expenditures

Venue expenses as a whole are 10 percent above the prior year, 11.6 percent above the three-year historical average, and 3 percent below budget. Convention center expenses are 8 percent over the prior year and 6 percent under budget. Portland'5 expenditures are 13 percent over the prior year and 3 percent above budget projections. Expo expenses are 8 percent over the prior year and 1 percent over budget.

Zoo enterprise revenues up over prior year

Zoo program revenue came in at 72.9 percent of budget through the third quarter. A markedly warm and dry spring further bolstered attendance numbers in the third quarter with year-to-date total attendance at 1.15 million guests, a five percent gain over the prior year. Attendance was also driven by more paid visits and a February “community free day”. Member visits as a percentage of overall zoo attendance continues to trend lower than prior years by approximately 7 percent, with the composition zoo attendance changing to more general admission visits.

Total zoo enterprise revenues were driven primarily from the increased attendance and are up 4 percent over prior year. Notably, per-cap food service and retail revenue has grown \$0.05 and \$0.10, respectively. Admissions and railroad operations are managed closely to maximize net revenue, based on estimated attendance. Donation revenue is higher year-over-year, due to several approved funding requests from the Oregon Zoo Foundation.

The zoo continues to hire for open positions, many of which were recently approved by Council. Based on year-to-date spending, year-end projections for personal services are within budget. Based on third-quarter results, management has relaxed the spending restriction, which was previously in place, and is focused on purchasing materials and services required for a successful concert and summer season. Some additional outlays occurred during the third quarter to support the higher attendance.

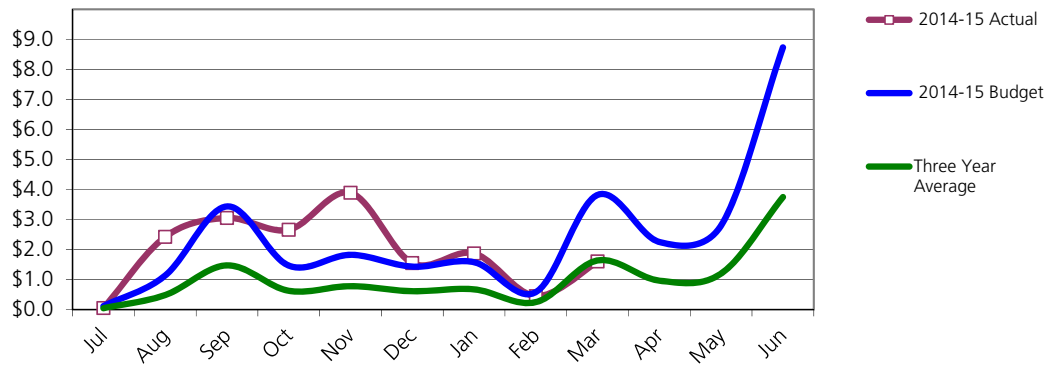

Renewal and replacement projects continue, with roof repairs and HVAC work occurring at AfriCafe. Planning work continues on major capital projects in Steller Cove, with work commencing in spring and continuing through summer. Substantial coordination is necessary to minimize impact on animals and guests.

Elephant Lands construction is nearly 85 percent complete. Elephant Plaza, the north habitat, and Forest Hall all are scheduled to be turned over for zoo operations in the fourth quarter (Forest Hall will open the guests with the Grand Opening later this fall). The Education Center project is continuing on-schedule and on-budget with ground-breaking scheduled for September. High-levels of capital expenditures in the bond fund reflect these planned activities.

Regarding a potential off site elephant facility, staff is working through due diligence tasks with the property owner of Roslyn Lake, specifically around water management. Land-use planning options and strategies are being developed as well as funding sources for long-term operating costs. A feasibility report will be delivered to the Metro Council in 2015 for policy direction.

Planning program revenues through the third quarter are at 32.0 percent of budget. Program revenues are made up primarily of grant revenue (\$6,286,000 forecasted for the year) and also of the annual TriMet support of the TOD program (\$2,975,000 expected in FY 2014-15). Planning and Development spending through the third quarter is at 45.4 percent of budget and is projected to reach 71.9 percent of budget (\$10.8 million) by year end. The projected budget variance, in materials and services, is due in large part to the TOD program (projecting \$2.0 million under budget), the Enterprising Places grant program (estimated \$552,000 under budget), and the SouthWest Corridor Plan (projecting \$510,000 underspend). Personal services spending is expected to be somewhat low for the year due to vacancies in the department.

Research Center program revenues through the third quarter are at 47.1 percent of budget. Program revenues are primarily made up of the ODOT and TriMet discretionary grants (\$1.4 million forecasted), the Aerial Photo Consortium (\$698,000 forecasted), and Sales and Contract revenue (\$209,000 forecasted). Research Center spending through the third quarter is at 57.7 percent of budget and is expected to reach 90.0 percent of budget, (\$4.2 million) by year end. Materials and services costs are expected to come in on budget for the year, while personal services expenditures are forecasted at 86.5 percent of budget (\$3.0 million), partly due to vacancies.

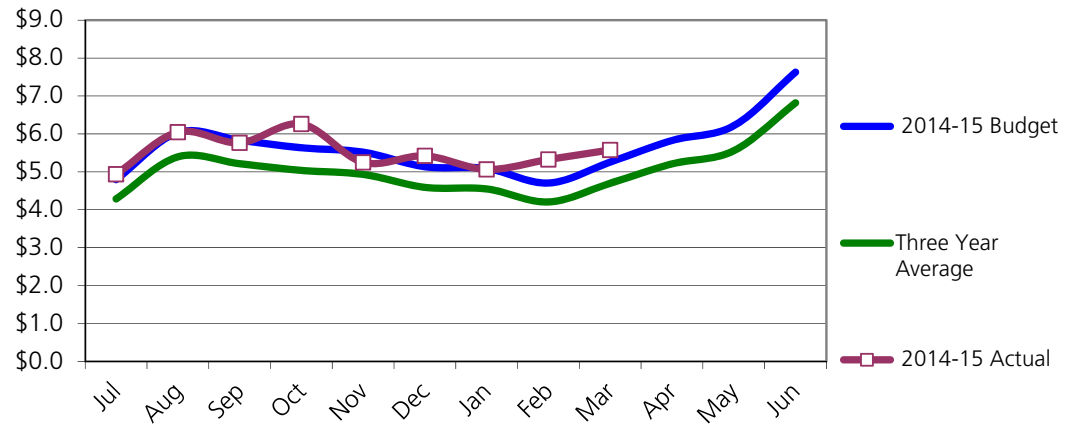

Note: The Consortium product array has been expanded this year to include the LiDAR imagery. The additional materials and services costs associated with the LiDAR data are initially paid for by Metro and passed to the Consortium through the billings process.

Parks and Environmental Services- Expenditures by Month

Total Parks and Environmental Services program revenues, through the third quarter, are 73.4 percent of budget, and are projected to end the year 2.8 percent (\$1.9 million) above budget. Parks and Environmental Services operating expenditures for the third quarter of FY 2014-15 continue to track closely to budget. Expenditures, in general, reflect normal seasonal patterns of Parks and Property Stewardship and Solid Waste Operations. Year-end projections for Personnel Services and Materials and Services are trending toward 99.7 percent and 97.0 percent, respectively, of the budgeted levels.

Based on third quarter results mixed solid waste tonnage at Metro facilities is projected to be higher than the budget estimate by about 10.0 percent (44,000 of mixed solid waste) which is significantly higher than projected in the second quarter. Year-to-date, the increase in expenditures to pay the costs of station operations, transport, and disposal for the additional mixed solid waste tonnage are partially offset by reductions in the costs to process residential organics waste, which is trending lower than originally anticipated. A budget amendment (\$1.4 million) to increase expenditure authority from the Solid Waste Operating Contingency was approved by Council in March 2015. There are no further financial implications of this budget amendment, as the revenue to pay for these costs is collected from current user charges (tip fee and transaction fee) on the additional mixed solid waste that arrives at the Metro transfer stations and recognized as additional revenue in the budget amendment.

Parks and Property Stewardship (including Cemeteries) General Fund Operating expenditures are following seasonal patterns and are projected to end the year slightly higher than budget mainly due to golf course expenditures. Year-end golf course expenditures are expected to be \$250,000 higher than budgeted, however, this is offset by higher than budgeted revenues

(\$318,000) due to an upward trend in rounds played. The department will request a budget amendment in the fourth quarter to recognize the additional revenue and increase budget appropriation in order to cover the additional costs. In addition, the department will process during the fourth quarter an accounting journal entry in order to properly record identified expenses of about \$299,000 in the Parks and Natural Areas Local Option Levy Fund. The March budget amendment added 3.0 FTE (\$61,654 for this FY) in Parks and Property Stewardship.

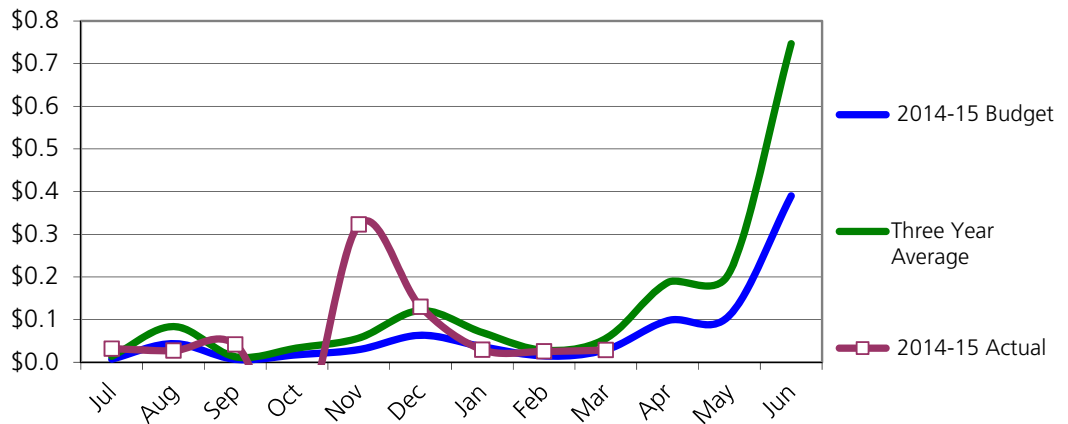

Capital and renewal and replacement spending were low through the third quarter and are expected to end the year at 54.6 percent of budget, based on the year-to-date progression of projects. About 45.0 percent of the capital budget is related to Solid Waste operations and 30.0 percent to Park improvements projects under the Parks and Natural Areas Local Option Levy Fund. Projects expected to be completed next fiscal year have been carried forward to the FY 2015-16 budget and also incorporated in Metro's FY 2015-16 Capital Improvement Plan. The March budget amendment increased capital appropriation under the Renewal and Replacement Fund to provide funding for the Ringside East Restaurant Renovation Project (\$375,000) and for the Ringside East Restaurant Heating and Cooling System Project (\$240,000) at the Glendoveer Golf Course.

Sustainability Center program revenues through the third quarter came to 52.9 percent of budget, and are projected to reach 73 percent of budget at year-end. Sustainability Center actual operating expenditures for the third quarter of FY 2014-15 are below budget and three-year average trend primarily due to the Local Share Program under the Natural Areas Bond Program and delays in Natural Area Restoration projects under the Local Option Levy Program. Year-end projections for personnel services and materials and services expenses are trending toward 93.1 and 72.1 percent, respectively, of the budgeted levels. Capital expenditures are projected to end the year 52.6 percent below budget, due almost exclusively to lower than budgeted land acquisition under the Natural Areas Bond Program.

Several projects in Parks Planning and Development are under design review or in the scoping phase. The third quarter year-end projection anticipates completion of various projects in next fiscal year, under both the Parks and Natural Areas Local Option Levy Fund and the General Fund, which have been carried forward to the FY 2015-16 budget. The March consolidated amendment recognized a \$100,000 grant from the Clackamas County Tourism and Cultural Affairs for the Willamette Falls Legacy Project and provided additional appropriation for the project under the Parks Capital Account within the General Asset Management Fund.

Expenditures in the Resource Conservation and Recycling program generally take place from the second to fourth quarter, mainly as Grants to Other Governments. Operating

expenditures are projected to end the year 12.9 percent (\$1.0 million) lower than budget mainly due to underspending in contracted professional services. Several contracts will be carried forward to FY 2015-16.

Materials and services from the Local Share Program under the Natural Areas Bond Program are below budget and the three-year average. The year-end forecast for Local Share and for capital (land acquisition) under the Natural Areas Bond Program is conservative, based on historical patterns and expected acquisitions by the end of the fiscal year. The Natural Area Restoration and Maintenance projects under the Levy Program are progressing as planned and the year-end projection anticipates project completion of the vast majority of projects identified in the FY 2014-15 budget.

APPENDIX C – Construction Excise Tax

Collections continue to be strong

Construction excise tax collections for the third quarter, representing permit activity for January, February and March, continues to be strong. This continues the trend of strong collection amounts that started in 2012.

3rd Quarter history (rounded)		Annual Collections (rounded)	
FY2015	\$316,000	FY2015 YTD	\$1,459,000

FY2007 (start-up)	378,000	FY2007 (start-up)	1,807,000

Washington County continues to generate large CET sums

Washington County had its third highest quarter (81,000) since the tax started in 2006. The county is within 30,000 of breaking its collection record which was set last year. Hillsboro had another strong quarter (40,000) followed by Wilsonville at 33,000 for the quarter.

Cumulative collections

Cumulative collections since July 2006 are now \$17.0 million. As part of the legislation extending the tax in June, Metro began retaining 5 percent of the collected receipts above \$6.3 million to recover a portion of its costs in administering the program. To date Metro has collected over \$267,000, \$62,000 of which was used to offset costs for outside legal services.

Charts provide additional detail

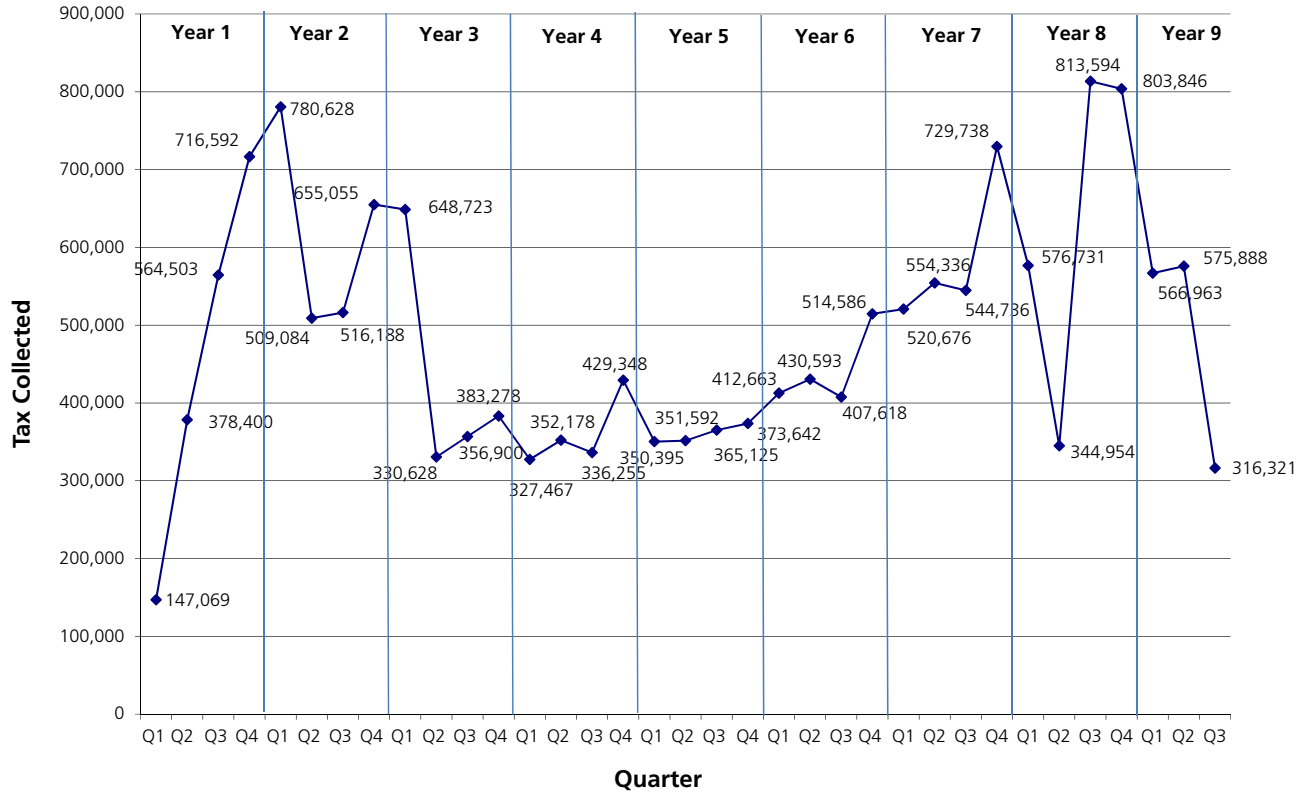

Following this report are charts detailing information about both collections and expenditures of Metro's Construction Excise tax. The expenditure information is included with the as well as status of the Community Development and Planning Grants funded by the CET.

Report available on Metro Website

Metro posts its Construction Excise tax reports on Metro's website www.oregonmetro.gov for participating jurisdictions and interested citizens.
