MAKING A GREAT PLACE

Clean air and clean water do not stop at city limits or county lines. Neither does the need for jobs, a thriving economy, and sustainable transportation and living choices for people and businesses in the region. Voters have asked Metro to help with the challenges and opportunities that affect the 25 cities and three counties in the Portland metropolitan area.

A regional approach simply makes sense when it comes to providing services, operating venues and making decisions about how the region grows. Metro works with communities to support a resilient economy, keep nature close by and respond to a changing climate. Together, we're making a great place, now and for generations to come.

Stay in touch with news, stories and things to do.

Glossary F-69

Metro's budget for FY 2014-15 is provided in two volumes. Many readers will find the summaries in Volume 1 sufficient to gain an understanding of Metro's financial strategies for the coming year. Some readers may require the additional detail provided in Volume 2.

DETAIL (VOLUME 2)

Volume 2 provides greater detail about the budget. Readers should consider Volume 2 when looking for additional information about individual aspects of the budget.

Fund summaries and detail

This section presents detailed financial information and analysis for each of Metro's 14 funds, the legal units by which the budget is appropriated. The detail after each fund description contains technical information used by Metro managers to manage their programs. This detail includes current as well as historical line item revenues and line item expenditures required by law.

Capital Improvement Plan detail

Metro's capital budget for fiscal years 2014-15 through 2018-19 is included in the FY 2014-15 budget document. This section presents the department specific project summaries and analysis.

Debt schedules

This section contains information about Metro's outstanding debt obligations. It also provides detailed debt schedules for existing revenue bonds, general obligation bonds, capital leases and other debt.

Budget and financial structure

This section describes the budget process at Metro. It reviews the budget calendar and budget development guidelines.

Appendices

The appendices include several related documents that are legally required to be included with Metro's budget document or that provide additional policy background information. These appendices include the charter of limitations on expenditures, the cost allocation for federal grant purposes, budget transfers, excise taxes, GASB 54 fund balance designation, General Fund Reserves detail, limited duration positions, four-year FTE history and personnel changes detail. The glossary, annual contracts list and detailed chart of accounts are located in this section.

The General Fund includes the operating costs of the Council Office, Metro Auditor, Office of Metro Attorney, Oregon Zoo, Parks and Environmental Services, Planning and Development, Research Center, Sustainability Center, Communications, Finance and Regulatory Services, Human Resources, Information Services and general expense.

BEGINNING FUND BALANCE

This is the combined balance for several major operating areas—Oregon Zoo, Parks and Environmental Services, Planning and Development and Research Center—as well as all general government and central service functions such as Metro Council, Metro Auditor, Metro Attorney, Communications, Finance and Regulatory Services, Human Resources and Information Services. It includes several dedicated reserves such as the General Fund Reserve for Future Expenditures, the Oregon Public Employees Retirement System (PERS) Reserve for pension liability and a reserve for future debt service on the full faith and credit bonds issued to refinance the Metro Regional Center. It also includes reserves for cash flow and fund stabilization. In January 2007 Metro performed a comprehensive review of fund balance needs in the General Fund. Based on this historical analysis, the “adequate reserves” financial policies call for a minimum of 7 percent of operating revenues to be set aside in either a contingency or stabilization reserve to guard against unexpected downturns in revenues and stabilize resulting budget actions. The 7 percent target provides a 90 percent confidence level that revenues might dip below this amount only once in a 10-year period. If Metro taps into reserves as a reaction to an economic downturn, then in accordance with the “pay ourselves first” financial policy, these reserves will be replenished before developing spending plans in the subsequent year. (See the appendices for a complete listing of specific project reserves)

CURRENT REVENUES

Property taxes

Metro receives property tax revenues from a tax levy originally approved by voters in May 1990. Ballot Measure 50, approved by the voters in May 1997, converted the tax levy to a general operating permanent rate levy. Metro’s permanent rate is \$0.0966 per \$1,000 of assessed value and cannot be increased even by the voters. Assessed value is expected to increase 4 percent next year; the maximum 3 percent growth allowed under Ballot Measure 50 plus a 1 percent allowance for new construction. Metro expects to receive 94.5 percent of the property tax levied and approximately \$342,000 in delinquent taxes.

Excise tax

The Metro excise tax is levied as a per-ton flat rate tax on solid waste disposal and as a percentage of all other authorized sales and services. The Metro excise tax is estimated to raise \$16.6 million in FY 2014-15. By Metro Code the amount of the per-ton tax may be increased annually based on the Consumer Price Index. The per-ton tax was consolidated into a single yield-based tax in FY 2010-11, folding in a number of individual per-ton rates which had been imposed at different times. The single rate approach increases predictability and moderates revenue swings in times of either increasing or decreasing tonnage. The consolidation did not change the charter limitation on expenditures. The consolidated rate for FY 2014-15 is \$11.76 per ton, a decrease of 53 cents, effective July 1. The rate for all other authorized

revenues, currently 7.5 percent, will not change unless amended by the Metro Council. The Council has exempted the Oregon Zoo from excise tax; the intergovernmental agreement between Metro and the City of Portland exempts the Portland's Centers for the Arts from the tax.

In 2006 Metro also enacted a construction excise tax to fund land use planning to make land ready for development throughout the region. A 0.12 percent tax is assessed on construction permits issued by local cities and counties in the Metro region. In 2009 the tax was extended for an additional five years, through September 2014, to provide funding for planning of future expansion areas, future urban reserves and planning that enables redevelopment of centers, corridors and employment areas within the existing Urban Growth Boundary. Proceeds from the tax fell sharply during the recession and began rebounding in 2011. The budget assumes the Metro Council will reauthorize the construction excise tax prior to the September 2014 expiration date. The tax is expected to generate \$2.0 million in FY 2014-15.

Grants

The primary planning functions of the agency—Planning and Development and the Research Center—receive approximately \$9.5 million in grant funds, about 90 percent of all General Fund grants. These functions rely on federal, state and local grants to fund most of the transportation planning and modeling programs. Planning grants are anticipated to increase about 5 percent due mostly to increased carryover of PL/STP funds and an increase in Regional Transportation Option grants.

The Sustainability Center receives about \$378,000 in grants, primarily for restoration projects on Metro-owned natural areas, and the Oregon Zoo receives about \$183,000 to support conservation projects performed in cooperation with other jurisdictions. Grant funding fluctuates annually based on project need.

Intergovernmental revenues

This category includes local government shared revenues derived from registration fees for recreational vehicles, county marine fuel taxes and payments from other governmental agencies for services provided by Parks and Environmental Services. This category also includes gain share revenues received from other Oregon counties. In FY 2014-15 marine fuel taxes and vehicle registration fees are expected to increase by 1.4 percent, based on projections. FY 2014-15 also budgets gain share revenue for the first time, anticipating receipt of approximately \$200,000 from Washington County.

Contribution from other Governments

This category includes government contributions to Metro program and projects. A \$3.0 million contribution from TriMet, the region's mass transportation agency, is again anticipated for the Transit Oriented Development program. This is about a 3 percent increase over FY 2013-14.

Licenses and Permits

This category reflects fees received under Metro's regional contractor's business license program. Overall, revenue from licenses has been stable for several years and is not expected to change from previous years.

Enterprise revenues

These are revenues derived from the income producing activities of the General Fund such as the Oregon Zoo and Parks and Environmental Services. They include admission fees, parking fees, food and beverage sales, gift shop sales, train rides, education fees, rental income, greens fees at Glendoveer Golf Course and sales and contracted services generated through the Data Resource Center of the Research

Center. Approximately 95 percent of all General Fund enterprise revenues is generated at either the Oregon Zoo or regional parks and is heavily dependent on weather conditions. The remaining 4 percent is generated through parking fees at Metro Regional Center and the adjoining parking structure and contracts and sales through the Data Resource Center. Most revenue estimates at the Oregon Zoo are based upon per capita revenue projections combined with estimated attendance figures. Revenues at Metro's regional parks are estimated based on a three-year rolling average and local trends and conditions.

Budgeted enterprise revenues in FY 2014-15 are up 3.7 percent, about \$1.0 million, from FY 2013-14. The Oregon Zoo is showing revenue growth of about 4 percent. The Oregon Zoo has experienced record-breaking attendance the last several years; construction on major exhibits is expected to slightly dampen attendance in FY 2014-15. Budgeted per capita shows significant increases in admission revenue due in part to fee increases enacted in February 2013 as well as a shift away from membership admission to paid admissions. Regional parks facilities generate another \$5.0 million in fees and services, an increase of about 2.5 percent, reflecting a modest increase in all facility revenue. Parking fees, business license fees and Data Resource Center revenues account for the remainder of enterprise revenues.

Donations

This category includes contributions from individuals and organizations in support of general operations or specific projects. Anticipated revenues in FY 2014-15 include \$280,000 from the Oregon Zoo Foundation for zoo operations. Oregon Zoo Foundation contributions are down from previous years due to a shift to capital project donations.

Miscellaneous Revenues

The majority of the miscellaneous revenues, approximately \$600,000, is from charges to department to pay for the debt service on the pension obligation bonds. For several years, the debt service was paid entirely from the accumulated PERS Reserve. Beginning in FY 2014-15 this charge will be gradually reinstated over the next five years until it returns to funding 100 percent of the debt service.

Interfund transfers

Metro's central services, including the Office of the Chief Operating Officer, Finance and Regulatory Services, Metro Regional Center Property and Office Services, Human Resources, Information Services, Metro Attorney, Communications and Metro Auditor, are budgeted in the General Fund. Costs of these services are allocated to operating units through an approved cost allocation plan. Operating units that are budgeted outside the General Fund transfer approximately \$10.4 million in reimbursements. In addition, the Research Center charges for services and maintenance associated with the Data Resource Center; Parks and Environmental Services and the Sustainability Center pay the majority of the charges. Previously, finance and administrative staff of Parks and Environmental Services and Sustainability Center were consolidated into one working group in Parks and Environmental Services. Costs were allocated to the various programs both inside and outside of the General Fund. These costs are now directly charged to all funds reducing the need for interfund transfers.

CURRENT EXPENDITURES

Personnel services

This category includes salary, wage and fringe benefits for the 461.15 Full-Time Equivalents (FTE) in the various organizational units of the General Fund. Overall General Fund FTE increased by a net 3.31 from the FY 2013-14 Amended Budget.

This includes the addition of 13.50 FTE, a change in various part-time positions equivalent to 2.31 FTE, and the transfer of 12.50 FTE to the Solid Waste Fund and the Natural Areas Fund. Finance and Administrative staff of Parks and Environmental Services and Sustainability Center were formerly pooled in the General Fund and allocated via interfund transfers to the Solid Waste and Natural Areas funds. These staff are now directly budgeted in the individual funds resulting in a transfer out of the General Fund.

A discussion of staff changes can be found in the budget summary. A detailed listing of all position changes can be found in the appendices of the Detail budget volume. In addition to staffing changes, all departments have experienced increases in personnel services costs related to salary increases, pension and health and welfare costs. The budget assumptions include a variety of anticipated salary adjustments for cost of living, merit pay and annual step. Also, the budget provides for a 4.4 percent decrease in employer pension contributions based on changes made by the Oregon Legislature after the adoption of the FY 2013-14 budget. A more detailed explanation of fringe benefits is included in the appendices. A 10-year comparison of Metro's salary and benefit costs is included in the budget summary.

Materials and services

Expenditures in this category have increased approximately 3.1 percent from FY 2013-14. Fluctuations in this category vary significantly between departments. About 90 percent of Planning and Development and Research Center materials and services costs, about \$8.7 million, are for contracted professional services, Transit Oriented Development land purchases or pass-through to other governments, all funded primarily through grants. With the increase in planning grant funding these areas are reflecting a commensurate increase. Other significant changes include a \$500,000 increase in the Council Office for real estate services for the Regional Infrastructure Supporting our Economy (RISE) program; approximately \$166,000 additional in maintenance costs associated with information technology software; a \$160,000 reduction in Finance and Regulatory Services reflecting the substantial completion of the financial software system evaluation; and a one-time \$500,000 reduction from the FY 2013-14 payment of the Eastside Streetcar local improvement district assessment on Metro Regional Center.

Capital outlay

Most major capital projects and renewal and replacement projects are budgeted in the General Asset Management Fund. In FY 2012-13 the agency embarked on a two-year project to completely redesign the agency's website. The project impacts all departments and is jointly managed by the Communications and Information Services departments. The capital costs associated with this project were budgeted in general expense in the General Fund. This project is to be substantially completed in FY 2013-14. FY 2014-15 provides funding for the development or purchase of an agency wide customer relationship management software package.

Debt service

In fall 2005 Metro joined with a pool of other local governments in Oregon to issue limited tax pension obligation bonds to fund its share of the Oregon PERS' unfunded actuarial liability. Metro's share of the total principal will be repaid over a period of 22 years through assessments on departments in exchange for a lower pension cost. Annual principal and interest costs have been funded through assessments to programs based on eligible salary and are paid through the general expense section of the General Fund. For FY 2014-15 debt payments, two-thirds of the payment will be funded from reserves accumulated for future pension liability. The remaining portion

will be funded through the reinstatement of the PERS Bond Recovery Charge assessed against departments. Additional explanation is provided under the section on ending fund balance that follows.

Interfund Transfers

There are three types of transfers from the General Fund: (1) interfund reimbursements for risk management services, (2) an interfund loan payment to the Solid Waste fund as a first year interest only payment from the Oregon Zoo for funding two large capital renovation projects, and (3) fund equity transfers of resources. Transfers of resources account for 88 percent of expenditures in this category including:

- The transfer of approximately \$2.5 million in renewal and replacement contributions.
- The transfer of approximately \$1.8 million for debt service on the outstanding full faith and credit obligations.
- The transfer of \$1.1 million to the Oregon Convention Center and Expo Center for a combination of purposes including support for capital projects, one-time subsidy of central service costs and possible additional support for the Convention Center Hotel project.
- The transfer of \$391,000 for various capital projects or reserves.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only through Council adoption of a resolution amending the budget. Any transfer from contingency that would exceed a cumulative amount greater than 15 percent of expenditures requires a full supplemental budget amendment. The FY 2014-15 contingency is made up of three types: (1) a general contingency and reserve to provide for unforeseen events through the year, (2) an Opportunity Account provided to the Council to take advantage of unanticipated opportunities that may come up during the year after budget adoption, and (3) a reserve for future one-time expenditures available for appropriation during the year if the revenues in the current fiscal year are sufficient to fund the reserve. During budget development, the Chief Operating Officer authorized allocations from this reserve for the following purposes:

- | | |
|--|-----------|
| • Development of Project Management software | \$141,000 |
| • General Fund's share of the MRC sprinkler system replacement | \$285,091 |
| • Development of customer relationship management software | \$129,150 |
| • Council Chamber cable microphone system replacement | \$120,000 |
| • Replacement of 40 trash bins at the Oregon Zoo | \$64,000 |
| • Purchase of maintenance equipment for Glendoveer Golf Course | \$50,000 |
| • Purchase of canopy for Grill at Oregon Zoo | \$20,000 |
| • Possible additional support for Hotel project | \$321,000 |
| • Renewal and Replacement contribution for sustainability upgrades | \$100,000 |

Additional allocations from this reserve will only be made after fiscal year-end closing reconciliations show sufficient revenues to fund the reserve and only for one-time projects or expenditures.

ENDING FUND BALANCE

The ending fund balance of the General Fund is the combined balance for the major operating units. It includes several dedicated reserves such as a reserve for future debt service on the full faith and credit bonds for the Metro Regional Center and the PERS Reserve for pension liability (see additional discussion on PERS Reserve below). Fund balance also includes reserves for cash flow and fund stabilization. (See the appendices for a complete listing of specific project reserves)

PERS Reserve

An actuarial study for the July 2009 rate period reduced Metro's rates by 3 percent because it reflected only the period prior to the economic downturn. Metro wisely recognized that the rates would be returning and increasing to even higher levels in July 2011, possibly by as much as 6 percent. Instead of spending the short-term rate savings, Metro continued to add three percent to its PERS reserve for the two-year period between 2009 and 2010.

As anticipated, the PERS actuarial study increased Metro's rates by an average of 5.2 percent, effective July 1, 2011. The FY 2011-12 budget mitigated this rate increase by applying the accumulated PERS reserves to the annual debt service associated with the outstanding pension liability bonds, about \$1.65 million per year. The accumulated reserves were transferred from each of the contributing funds into the General Fund reserves, earmarked for PERS debt repayment over the next three to five years. The FY 2013-14 budget anticipated a 4.4 percent increase in the employer paid PERS rate. Following adoption of the budget, the Oregon Legislature took action to mitigate the increase and reduced the rate back to its former amount. The 4.4 percent budgeted in excess of the amount needed was again placed in the PERS Reserve for future use. The FY 2014-15 budget reflects the consolidation of these amounts into the General Fund. The additional contribution in FY 2013-14 will extend the subsidy of the debt payment for another three years, through FY 2019-20. The PERS reserve balance at the end of FY 2014-15 is estimated to be \$3.8 million and will gradually decrease over the next few years.

Cemetery Perpetual Care Fund

The Cemetery Perpetual Care Fund was created in FY 2003–04 to provide financial support for the long-term maintenance of the Metro cemeteries after the cemeteries are no longer receiving revenue from grave sales and burial services. The fund was seeded with a transfer of the Willamina Farmer Family account from the Regional Parks Specials Accounts Fund. This account was a bequest from the family to provide for the long-term maintenance and upkeep of the Farmer Family plot and Metro's cemeteries.

Resolution 08-3943, adopted in 2008, clarified the fund as a permanent fund, restricting the use of the principal.

The fund receives revenue from a 25 percent surcharge on grave sales, increased on November 1, 2011, from the previous rate of 15 percent. At that time Metro increased fees for grave sales and services as well, bringing Metro's rates more in line with industry norms; this will also result in increased revenues to the fund. No expenditures are anticipated from this fund until grave sites are exhausted at the cemeteries.

With about 20 years of casket plot inventories remaining and a finite amount of land to be developed, long term revenue options are limited but necessary to ensure that funds are set aside for the perpetual care of the properties. The Cemetery Program completed a Cemetery Business and Operations Plan in September 2011. In addition to the rate increases noted above, the plan has shifted the focus of the program to records management, best management practices and investments in cremation offerings to accelerate sales and contributions to the Perpetual Care Fund.

CURRENT REVENUES

Other derived tax revenue

A 25 percent surcharge is added to every grave sale to provide a contribution to the long-term perpetual care of the plot.

FUND BALANCE

No expenditures are planned from this fund until such time as the cemetery program runs out of grave sites to sell. The fund balance will continue to grow annually with additional contributions from grave sales and interest earnings.

Community Enhancement Fund

The Community Enhancement Fund was established to comply with Senate Bill 662, enacted by the Oregon Legislature in 1985. The Community Enhancement Program was initially established by Metro in the Regional Solid Waste Management Plan in 1988 (Metro Ordinance No. 88-273). The fund accounts for enhancement fees (currently \$0.50 per ton of putrescible solid waste processed or transferred) collected at the Metro Central, Metro South and Forest Grove transfer stations. Funds are used for community enhancement projects in the targeted vicinity of each of these solid waste facilities:

North Portland Community Enhancement Program: For nearly three decades, Metro's North Portland community enhancement grants have helped improve neighborhoods near the now-closed St. Johns Landfill. In 2013, the Metro Council unanimously approved the committee's recommendation to distribute the remaining \$1.6 million in the enhancement grant fund by 2018. The committee dedicated the remaining funds to support a local trail project (North Portland Greenway) and investments in capacity building to strengthen programs and services to North Portland residents. Expenditures in FY 2013-14 were limited to staff support and coaching services for grant applicants. Grants were awarded in June 2014 by the committee. Grant recipients will have two years to spend the awarded funds. In FY 2014-15 it is anticipated that approximately \$300,000 will be reimbursed to these recipients.

Oregon City Community Enhancement Program: Funds from community enhancement fees at Metro South Station are paid to Oregon City on a quarterly basis and are used for local community enhancement projects as determined by the city council through an intergovernmental agreement (IGA) with Metro.

Metro Central Community Enhancement Program: Funds from community enhancement fees at Metro Central Station are used for community enhancement projects in the vicinity of Metro Central Station in Northwest Portland, as recommended by a seven-member citizen committee appointed by Metro.

Forest Grove Community Enhancement Program: Fees collected at a privately owned transfer station in Forest Grove are paid to the city of Forest Grove on a quarterly basis and are used for local community enhancement projects as determined by the city council through an IGA with Metro.

BEGINNING FUND BALANCE

The beginning fund balance represents the amounts remaining in the North Portland and Metro Central enhancement accounts. In the past, the practice was to retain the principal of the reserves. This remains the practice for Metro Central but the North Portland Enhancement Committee will begin spending down funds in that reserve in FY 2013-14.

CURRENT REVENUES

Enterprise Revenues

In prior years community enhancement fees were collected in the Solid Waste Revenue Fund and subsequently transferred to the accounts of the Solid Waste Community Enhancement Fund. With the recent implementation of the Governmental Accounting Standards Board Statement 54, Metro staff determined that under the new and more specific requirements of this standard, community enhancement fees should be received directly into the Solid Waste Community Enhancement Fund. Making this change will permit Metro to report the Solid Waste Community Enhancement Fund in accordance with generally accepted accounting principles. The change was implemented as of March 2012.

Interfund transfers

As noted above, community enhancement revenues will no longer be received via interfund transfer from the Solid Waste Revenue Fund but will instead be recorded as enterprise revenues directly to the accounts of the Solid Waste Community Enhancement Fund.

CURRENT EXPENDITURES**Materials and services**

About 75 percent of the materials and services expenditures in this fund represents grants and contractual services. The North Portland and Metro Central Community Enhancement Committees administer programs through grants and contracts with community organizations and others. Most of the remaining expenditures are direct payments to Oregon City and Forest Grove.

Interfund transfers

This represents funds transferred to the Solid Waste Revenue Fund for personnel services costs associated with employee staffing of the North Portland and Metro Central Community Enhancement committees.

Contingency

Of the \$280,000 budgeted in FY 2014-15, \$200,000 is allocated for the North Portland Community Enhancement program, which has consistently maintained a higher contingency to provide greater flexibility to finance projects during the fiscal year. The Metro Council, through resolution, must authorize any use of contingency funds.

General Asset Management Fund

The General Asset Management Fund was established in FY 2011-12 and combined the former Metro Capital Fund and the General Renewal and Replacement Fund. This fund accounts for major non-bond-funded capital acquisition and construction projects and provides for the ongoing and future renewal and replacement of Metro's General Fund assets. General Fund assets include the Oregon Zoo, regional parks and natural areas, Metro Regional Center and information technology infrastructure.

With the approval of the Oregon Zoo Infrastructure and Animal Welfare general obligation bonds in 2008 and the Parks and Natural Areas Local Option Levy in 2013, most large capital projects are now funded and managed through separate bond and levy funds. What remains are generally smaller projects that are often a combination of renewal and replacement and new capital. Maintaining separate budgetary funds often made management of these projects difficult and inefficient. The consolidation into one fund provides greater efficiencies for ongoing management of assets. Within the fund, separate accounts will be maintained for new capital projects and renewal and replacement projects in order to track spending by purpose.

NEW PROJECT ACCOUNT

The capital portion of this fund is renamed "New Project Account" and is structured into three sections: General Capital Projects (including Information Services, Finance and Regulatory Services and Metro Regional Center), Oregon Zoo Capital Projects Account and Regional Parks Capital Projects Account.

RENEWAL AND REPLACEMENT ACCOUNT

In FY 2007-08 Metro undertook a comprehensive review of General Fund reserve needs. The analysis estimated the financial investment necessary—both one-time and ongoing—to provide fully for current and future needs of existing assets. The preliminary study estimated the financial investment necessary to catch up and then to contribute annually to care for these assets. The Metro Council directed \$5.7 million in general reserves to meet the catch-up requirement and \$1.1 million for the initial annual contribution, to be adjusted annually for the addition of new assets and for inflation. Beginning in FY 2013-14 the standard 2 percent annual increase in the renewal and replacement contribution is expected increase 0.25 percent each fiscal year until it reaches 3 percent. For FY 2014-15, the increase is 2.5 percent.

The Council also appropriated funds for an engineering firm to perform a detailed inventory and asset condition assessment that confirmed the preliminary study and assisted Metro in developing a 25-year renewal and replacement schedule. The schedule is maintained and updated annually, taking into consideration the addition or disposal of assets, any changing conditions and the need to adjust the annual contribution. At least once every five years an assessment is performed, in accordance with the capital asset management policies. Analysis of the FY 2011-12 assessment was completed in FY 2012-13. This review included not only the General Fund assets but also the Solid Waste Revenue Fund's assets and the Metropolitan Exposition Recreation Commission (MERC) Fund's facility assets.

All renewal and replacement projects greater than \$100,000 are listed individually in the capital improvement plan. All other projects less than \$100,000 are aggregated as a single renewal and replacement project within each department. Although the General Fund renewal and replacement account is now contained within the General Asset Management Fund, records are maintained separately from new capital projects and are additionally reported by major area (Information Services, Oregon Zoo, Parks

and Metro Regional Center). A number of regional parks renewal and replacement projects are funded by and budgeted in the Parks and Natural Areas Local Option Levy Fund.

BEGINNING FUND BALANCE

The General Asset Management Fund is a combination of specific capital projects and renewal and replacement reserves. About \$4.0 million of the beginning fund balance is dedicated funding for specific capital projects at the Oregon Zoo or parks facilities. The remaining balance, approximately \$6.0 million, provides long term funding for the future renewal and replacement of the General Fund's assets. The renewal and replacement reserve is managed to provide a positive balance for a minimum of 10 years.

CURRENT REVENUES

Donations

This category includes donations either to support a particular project or support the capital needs of a specific department. The Oregon Zoo Foundation has raised \$5.3 million to be used in support of projects in the zoo bond program in FY 2014-15. This total includes a carry-forward of \$2.2 million from FY 2013-14. The funding will be spent from the Oregon Zoo Capital Projects Account of the General Asset Management to maintain a clear separation from bond funds.

Interfund Loan

A \$3.2 million loan from the Solid Waste Fund will provide funding for two major renovations at the zoo, to occur over FYs 2014-15 and 2015-16: Steller Cove and the zoo train. The zoo will repay the loan, with interest, over 10 years.

Interfund transfers

Interfund transfers are received for a variety of purposes. In FY 2014-15, \$533,000 will be transferred from the Reserve for One-Time Expenditures to fund replacement of a portion of the MRC sprinkler system and audio equipment in the Council Chambers. An additional \$191,000 will transfer from the Reserve for One-Time Expenditures for new capital projects: project management software and maintenance equipment at Glendoveer Golf Course. The zoo will transfer \$200,000 from operations to support new capital projects.

Annual ongoing contributions to the renewal and replacement reserve are necessary to fund scheduled replacements. The General Fund will contribute approximately \$1.6 million from a variety of sources, a minor increase from the previous year. In addition, a \$250,000 transfer from Glendoveer Golf Course revenues will support renewal and replacement needs at the course.

CURRENT EXPENDITURES

Materials and services

Expenditures in this category reflect potential renewal and replacement projects that do not meet the threshold of major capital improvement and which, by definition, are considered capital maintenance. This includes roof replacement projects. These projects are aggregated by organizational unit and included in the renewal and replacement schedule. Capital maintenance projects costing more than \$100,000 are called out separately in the capital improvement plan in this budget document.

Capital outlay

This category represents capital and renewal and replacement projects approved in Metro's capital budget. For additional information see the capital improvement plan in this budget document.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only when Council adopts a resolution amending the budget. Any transfer from contingency throughout the year that would exceed a cumulative amount greater than 15 percent of expenditures requires a full supplemental budget amendment. A large contingency is maintained for renewal and replacement in the event that a planned project is accelerated or a future project becomes necessary earlier due to a failing component.

ENDING FUND BALANCE

This represents the balance of a variety of dedicated reserves associated with new capital projects and the general renewal and replacement reserve. The reserve amount will fluctuate from year to year based on project needs. The current financial plan for renewal and replacement provides for a positive balance in the reserve for the next 10 years.

General Obligation Bond Debt Service Fund

The General Obligation Bond Debt Service Fund receives property tax revenue from voter-approved levies and pays principal and interest due to holders of Metro's outstanding general obligation bonds. The fund contains debt service payments for each of Metro's existing outstanding general obligation bond series.

- Metro Washington Park Zoo Oregon Project, 2005 Series.
- Natural Areas Program, 2007 Series.
- Natural Areas Program, 2012 Series A.
- Oregon Zoo Infrastructure and Animal Welfare, 2012 Series A.
- Open Spaces, Parks and Streams Refunding 2012 B Series.

More information on Metro's outstanding debt may be found in the debt summary section in Summary budget volume. Detailed debt service schedules for each of the issues may be found in the Detail budget volume.

BEGINNING FUND BALANCE

This amount is required to pay debt service due early in FY 2013-14 before property tax revenues are received.

CURRENT REVENUES

Property taxes

Property taxes are levied to meet the outstanding requirements of the general obligation bonds. The levy amount is the amount needed to pay debt obligations assuming a 94.5 percent collection rate. During FY 2012-13 two of Metro's outstanding issues fully matured resulting in a decrease of property tax revenues of about seven percent.

CURRENT EXPENDITURES

Debt service

Principal and interest payments on the outstanding general obligation bonds are based on the actual debt service schedules for each issue. Debt service payments are made semi-annually. In FY 2014-15, the following debt service payments will be made:

	Principal	Interest	Total
<i>General Obligation Bonds</i>			
Natural Areas 2007 Series	4,620,000	3,519,750	8,139,750
Natural Areas 2012A Series	5,350,000	3,219,950	8,569,950
Oregon Zoo Infrastructure 2012A Series	5,670,000	2,551,825	8,221,825
<i>General Obligation Refunding Bonds</i>			
Metro Washington Park Zoo Oregon Project 2005 Series	1,995,000	292,900	2,287,900
Open Spaces, Parks, and Streams 2012B Series	9,535,000	476,750	10,011,750
Total Debt Service	\$27,170,000	\$10,061,175	\$37,231,175

ENDING FUND BALANCE

With the retirement of the Oregon Convention Center 2001 Series and Open Spaces Parks and Streams 2002 Series debt, only one issue still has obligations due early in the fiscal year before property taxes are received. A small balance will be carried forward to the following fiscal year to make the first debt payment when due. The balance will be adjusted over time to meet requirements of the debt obligation.

General Revenue Bond Fund

The General Revenue Bond Fund was established to account for bond proceeds used to construct Metro Regional Center and the assessments against Metro programs to pay debt service on those bonds. In FY 1995–96 the fund was expanded to include loan proceeds for the Washington Park parking lot renovation and a contribution to TriMet for the Oregon Zoo light rail station. In FY 1999–2000 the fund was again amended to include loan proceeds from the Oregon Economic and Community Development Department (OECDD) used to replace Hall D at the Portland Expo Center (Expo). In the future, this financing method and fund could be used to pay for other general purpose capital items.

In FY 2011-12 the last of the Washington Park parking lot project funds were transferred to the General Asset Management Fund to fund an ongoing parking lot management study and implementation strategy. The fund's only purpose at this time is to pay the debt service on the outstanding full faith and credit bonds issued for the projects previously discussed.

CURRENT REVENUES

Interfund transfers

Debt service on the full faith and credit bonds for Metro Regional Center is paid from assessments allocated to the operations and activities that use the Metro Regional Center, and fees and charges for the use of the attached parking structure. The fees, charges and assessments are collected within the General Fund and are transferred to the General Revenue Bond Fund for payment of debt service. Debt service for the Washington Park parking lot obligations is repaid by revenues transferred from zoo operations. Debt service on the obligations for Hall D is repaid by Expo revenues transferred from the MERC Fund.

CURRENT EXPENDITURES

Debt service

This category contains principal and interest due on the outstanding full faith and credit bonds. Debt service payments are made semi-annually and are tied to the debt service schedule. In February 2013 the callable portion of the 2003 Series full faith and credit bonds was refunded. The remaining 2003 Series bonds matured August 2013. The 2013 Series full faith and credit bonds will be repaid over the remaining 10-year life of the previous bonds and will mature in 2022. The 2006 series full faith and credit bonds will be repaid over 18.5 years and will retire in 2024.

The following debt service payments by issue will be made in FY 2014-15:

	Principal	Interest	Total

Metropolitan Exposition Recreation Commission Fund

The Metropolitan Exposition Recreation Commission (MERC) Fund includes three visitor venues: Oregon Convention Center (OCC) and the Portland Expo Center (Expo), both of which are owned by Metro, and Portland's Centers for the Arts (Portland's) operated by Metro through an intergovernmental agreement with the City of Portland, which owns these facilities. The venues are overseen by the Metropolitan Exposition Recreation Commission, a commission appointed by the Metro Council.

BEGINNING FUND BALANCE

The beginning fund balance, projected to be \$34.3 million, represents funds carried over from the previous year. This figure represents the combined operating and capital balance for all three facilities.

CURRENT REVENUES

Local government shared revenues

The revenues recorded in this classification include the Transient Lodging Taxes (TLT) and auto rental taxes collected by Multnomah County to support operations of OCC and Portland's and the Visitor Development Fund allocations to OCC and Portland's. Transient Lodging Tax is forecasted at a 9 percent increase over the previous year's budget. The Visitor Development Fund allocations constitute operating support for both OCC and Portland's and increases by the Consumer Price Index (CPI) each year. In prior years, OCC would pass through VDF funding to Travel Portland, however this has been discontinued, now VDF funding is allocated directly to Travel Portland. The funding for OCC operating support, an annual request, is \$1,281,250, decreased from the \$2,315,251 in the prior year because of the discontinuance of the pass through to Travel Portland. VDF funding supports various operational needs of the convention center, investments in national OCC marketing, marketing Portland as a destination, and support for the convention center hotel project.

Contributions from other governments

These revenues represent a contribution from the City of Portland to support the operations of Portland's. The contribution is based on the prior year's actual receipts increased or decreased by Consumer Price Index.

Enterprise revenues

MERC charges various fees for the use of its facilities, including rental fees, concession revenues, catering, parking and other enterprise activities. Enterprise revenue is projected to increase 17.7 percent based upon the event booking schedule. The economic recovery from the Great Recession has been sluggish. Fiscal Year 2015 forecasts show positive trends based upon increased event bookings across the venues. Portland's Centers for the Arts is benefitting from a new, more lucrative ticketing contract and a planned 9.5 weeks of Broadway performances. OCC is forecasting a record number of events and conventions in FY 2014-15, and the Portland Expo Center is forecasting increased per-capita revenues, thanks in part to increased awareness of the West Delta Bar and Grill and maintaining prime locations for points of sale at events.

Donations and bequests

Donations are predominantly from the Portland's Foundation based upon Portland's request. There are no budgeted donations in FY 2014-15.

Interfund transfers

This category includes an allocation of \$600,000 to OCC (\$320,000) and Expo (\$280,000) from General Fund revenues under the Metro Tourism Opportunity and Competitiveness Account for specific competitive enhancement projects at each venue. It also includes an additional \$320,000 of General Fund support for the OCC hotel project.

CURRENT EXPENDITURES

Personnel services

The 3.89 percent increase in budgeted personnel services expense in FY 2014-15 over FY 2013-14 is a result of three primary items: a net increase of 2.80 Full-time Equivalent (FTE) Positions, a budgeted 2.0 percent Cost of Living Allowance (COLA) base salary increase and 2.0 percent base salary increase based upon annual goal achievement. The net 2.80 FTE increases include a 0.25 FTE reduction in MERC administrative staff, a revenue generating position at OCC, a Maintenance Engineer at Expo for increased facility maintenance, and a sales position at Portland's for enhanced client service provisions.

Materials and services

This category includes spending for goods and services required to operate and market the facilities. The major expenditures in this category are for food service contracts, utilities, marketing services and facility maintenance expenses. The one-time LID assessment for the streetcar was budgeted in FY 2013-14. Without the streetcar payment, expenditures are budgeted to increase 4 percent over the previous year mostly in the area of food and beverage expenditures, one-time items at Portland's, and tax assessments at Expo from the Portland Bureau of Environmental Services (BES) and the Multnomah County Drainage District (MCDD).

Capital outlay

Overall spending on capital projects is increasing about 39 percent compared to the prior year. Significant projects in FY 2014-15 include phase 2 of roof replacement for the original OCC facility and a new plaza and website design and tower lighting for OCC; lighting control updates, and new boilers and roof drains at Portland's; and roof repairs and security cameras at Expo. In addition, there are more than 30 projects at the three venues with project costs \$100,000 or less mostly for renewal and replacement.

Interfund transfers

Transfers from the MERC Fund comprise three categories: central service charges, debt service and PERS reserve payments. Transfers to the General Fund are for central service charges as allocated through the cost allocation plan. Transfers to the Risk Management Fund represent MERC's costs associated with property, liability and workers' compensation insurance and claims. The transfer to the General Revenue Bond Fund is for principal and interest payments for debt service and for Expo Hall D replacement. It also includes OCC's third year principal and interest repayment for the 10-year loan from the General Fund for the Eastside Streetcar Assessment. All three venues are assessed a PERS Reserve transfer to the General Fund.

Contingency

A contingency provides for unforeseen needs throughout the year. Operating contingency reserves are sized by venue, recognizing the differences in lines of business. Accumulation reserves for renewal and replacement provide for facility maintenance plans. Additional reserves for new capital and business strategy have also been identified for all three venues. Expenditures from contingency may be made only when Council adopts a resolution amending the budget. Any transfer from contingency throughout the year that would exceed a cumulative amount greater than 15 percent of expenditures requires a full supplemental budget amendment, including public review.

ENDING FUND BALANCE

All fund balances have been budgeted in contingency reserves (\$28.8 million), to provide the most flexibility to the venues in FY 2014-15 for capital projects and new business strategies. The Contingency amount represents contingencies and fund balances combined.

In November 2006 the voters of the Metro region authorized the sale of \$227.4 million in general obligation bonds for the purpose of preserving natural areas and stream frontages, maintaining and improving water quality and protecting fish and wildlife habitat. The \$227.4 million total voter authorization included three elements:

- \$168.4 million regional component to purchase regionally significant natural areas in 27 target areas.
- \$44 million local share component to be provided directly to local cities, counties and park providers to allow flexibility for each community to meet its own needs and offer citizens improved access to nature in neighborhoods.
- \$15 million Nature in Neighborhoods Capital Grant program to complement the regional and local share portions of the 2006 bond measure by providing opportunities for the community to actively protect fish and wildlife habitat and water quality near where people live and work.

The first series of bonds under the 2006 authorization was issued in April 2007 for \$124,295,000. The agency issued \$75 million in additional bonds in May 2012. Metro's AAA bond rating and strong financial position resulted in a \$15 million premium to the fund. The final bond sale under the authorization is expected to occur in spring or summer of 2015. The Natural Areas Fund is used to account for proceeds and expenditures related to the Natural Areas general obligation bonds.

BEGINNING FUND BALANCE

The Natural Areas Fund's beginning fund balance for FY 2014-15 is \$52.6 million.

CURRENT REVENUES

Interest earnings

Interest is budgeted at \$262,738 for FY 2014-15. Bond proceeds are invested in compliance with bond and arbitrage requirements.

CURRENT EXPENDITURES

Personnel services

With the approval of the bond measure in 2006, the Metro Council approved the addition of new positions to support the acquisition, stabilization, local share and community grant elements of the program. Legal and due diligence staff associated with the program are budgeted in the Office of Metro Attorney in the General Fund. This category includes salaries and benefits for 16.05 FTE, an increase of .75 FTE from FY 2013-14. A new Natural Areas Acquisition Supervisor has been added in FY 2014-15 to supervise acquisition staff, coordinate with the Office of Metro Attorney on due diligence work, and negotiate the more complex acquisition deals.

Materials and services

Funds are budgeted for local share payments to other jurisdictions and community grants. Professional and property services related to land acquisition are now budgeted under capital outlay.

Capital outlay

The capital outlay budget provides for the acquisition of land and the capital improvements of some existing properties as authorized under the bond measure. The Natural Areas program is a willing seller program, with actual expenditures dependent on available property. With the economic recession, completed sales dropped significantly through FY 2010-11, but have improved since that time. Capital expenditures of \$20.0 million are budgeted for FY 2014-15.

Interfund transfers

Expenditures in this category include transfers to the General and Risk Management funds for central services, insurance, and costs for the use of offices and shared meeting spaces, which are incurred on behalf of the Natural Areas program. These charges are allocated based on an approved central services cost allocation plan. There is also a transfer to the Research Center for mapping services provided by the Data Resource Center.

Contingency

Contingency funds are provided to meet unforeseen needs throughout the year. The Metro Council may, through budget amendment, move up to 15 percent of the value of the fund's appropriations from contingency. Any greater amount requires a full supplemental budget action. Because of the willing seller nature of the program, the Natural Areas Fund includes a contingency level that is significantly higher than would normally be budgeted. Most of the balance of bond proceeds carried over from previous years and not needed to fund current year expenditures is placed in contingency.

ENDING FUND BALANCE

The fund balance represents unexpended bond proceeds plus interest earned. The balance will decrease as the program goals are achieved.

Open Spaces Fund

In July 1992 Metro adopted the Metropolitan Greenspaces Master Plan. Among other strategies, the master plan called for the acquisition of regionally significant open spaces. The Open Spaces Fund has been used to account for bond proceeds and expenditures related to the Open Spaces, Parks and Streams 1995 general obligation bonds.

The funds have been used to purchase regionally significant open spaces in 14 target areas and six regional trails and greenway areas, construct two regional trails and fund approximately 90 local government parks projects through the local greenspaces project element of the bond measure.

BEGINNING FUND BALANCE

In May 1995 the voters of the Metro region approved a \$135.6 million general obligation bond measure for Open Spaces, Parks and Streams. The fund balance represents the minor amount of proceeds remaining on the program and includes the proceeds from the sale of any property originally purchased by the program.

CURRENT EXPENDITURES

Capital outlay

The capital outlay appropriation reflects the final remaining amount available for the purchase of land.

ENDING FUND BALANCE

The fund balance represents unexpended bond proceeds plus interest earned and the expected proceeds from the sale of property. The balance has decreased as the program goals are achieved.

Oregon Zoo Infrastructure and Animal Welfare Bond Fund

This fund was created in November 2008 following voter approval of the general obligation bond measure. Its purpose is to account for the proceeds and expenditures of all bonds issued under this authorization.

BEGINNING FUND BALANCE

In November 2008 the voters of the Metro region approved a \$125 million general obligation bond measure for Oregon Zoo infrastructure and projects related to animal welfare. Metro issued \$5 million in bonds under this authorization in December 2008, \$15 million in August 2010 and an additional \$65 million in May 2012. During the May 2012 sale, Metro's AAA bond rating and strong financial position resulted in a \$10 million premium to the fund.

CURRENT REVENUES

Interest earnings

Bond proceeds are invested in compliance with bond and arbitrage requirements. Interest on expended bond proceeds must accrue to the bond fund and be treated the same as bond proceeds.

CURRENT EXPENDITURES

Personnel services

This category includes salaries and benefits for 6.00 FTE to continue the implementation of the Oregon Zoo bond program. The FY 2014-15 budget includes a 1.0 FTE Assistant Management Analyst position added by amendment during FY 2013-14.

Capital outlay

Major capital projects during FY 2014-15 include the on-site elephant habitat, the education center and the remote elephant center. In addition the capital outlay budget provides for features funded under the Oregon Percent for Art legislation and the design of interpretives for the bond projects.

Interfund Transfers

This category includes charges from the General or Risk Management funds for services received such as legal, payroll, accounting, insurance, communications, human resources and finance.

Contingency

Contingency funds are provided to meet unforeseen needs or other emergencies throughout the fiscal year. The Metro Council must authorize the appropriation and expenditure of contingency by resolution.

ENDING FUND BALANCE

The fund balance represents unexpended bond proceeds plus interest earned. The balance will decrease as the program goals are achieved.

Parks and Natural Areas Local Option Levy Fund

The Parks and Natural Areas Local Option Levy, approved by the region's voters in May 2013, is directed toward operating and maintaining regional parks and more than 16,000 acres of natural areas held by Metro, including streams, river frontages, wetlands, prairies, forests and more. Specifically, levy funds will improve water quality and restore wildlife habitat, wetlands, and floodplains in the region. The levy will also fund needed upkeep to parks, nature education and community partnerships throughout the region.

BEGINNING FUND BALANCE

The proposed Parks and Natural Areas Local Option Levy's beginning fund balance is \$4.9 million for FY 2014-15.

CURRENT REVENUES

Property taxes

Property tax revenues from the tax levy will stay in effect for five years, and will be assessed at a rate of \$0.096 per \$1,000 of assessed value for each of those years. After losses from property tax compression, Metro expects to receive 94.5 percent of the property tax levied. Assessed values are assumed to increase by 4.0 percent from FY 2013-14 to FY 2014-15.

CURRENT EXPENDITURES

Personnel services

Salaries and benefits for 26.90 FTE are included for the operations, maintenance, and capital projects of Metro's parks and natural areas. This sum is 15.9 percent of the budgeted expenditures, and includes 5.0 more FTE than in the prior fiscal year. The expansion of FTE will include 3.8 new FTE in the Sustainability Center, and transfers of 0.9 FTE from the Natural Areas Fund and 0.3 FTE from the General Fund.

Materials and services

Spending on materials and services required to operate and to maintain the parks and natural areas accounts for 46 percent of the proposed expenditures for FY 2014-15. These expenditures go toward property and professional services on parks and natural areas. Funds are also budgeted to expand volunteer opportunities, increase conservation education activities and expand the Nature in Neighborhoods restoration and enhancement grant program.

Capital outlay

Lands and capital improvements will account for \$3.1 million in spending, and will be used to restore and replace aging restrooms, picnic shelters, playgrounds and other structures located in regional natural areas and expand public access to natural areas.

Interfund transfers

\$1.6 million will be spent on transfers to the General Fund to support and maintain existing parks and natural area programs.

Contingency

Contingency funds are provided to meet unforeseen needs or other emergencies throughout the fiscal year. The Metro Council must authorize the appropriation and expenditure of contingency by resolution.

ENDING FUND BALANCE

The fund balance represents unexpended levy proceeds plus interest earned. The balance will decrease as the program goals are achieved.

This fund accounts for the revenues and expenditures related to administration of Metro's Risk Management program. Claims costs are assessed to all programs based on past experience and exposure. The fund is managed by Finance and Regulatory Services.

BEGINNING FUND BALANCE

The beginning fund balance in the Risk Management Fund primarily represents reserves set aside for the liability, property and workers' compensation programs. The reserves are determined through an actuarial study updated every two years. In addition, a variable reserve to account for the carryforward adjustment from the prior two years' agency Cost Allocation Plan is maintained in beginning fund balance.

CURRENT REVENUES

Grants

Grant reimbursement is available from the State of Oregon Workers' Compensation Division for wage subsidies and work site modification. The amount of grant revenue depends on the number of qualifying injured workers.

Enterprise revenues

Enterprise revenues include internal charges to organizational units for insurance premiums related to unemployment.

Interfund transfers

These transfers represent payments from other Metro programs for their assessed costs of the Risk Management program. Claim costs can vary significantly from year to year. In summer 2012 Metro received its latest scheduled independent actuarial report; Metro's Risk Management Fund exceeds the 85 percent confidence goal recommended by the actuary. The next actuarial report will be issued in summer 2014.

CURRENT EXPENDITURES

Personnel services

Personnel services costs associated with 2.7 FTE moved to the General Fund in FY 2011-12. These costs will continue to be funded through the agency-wide cost allocation plan.

Materials and services

This classification includes the costs for the Liability/Property, Workers' Compensation and Unemployment programs, including insurance premiums and claims costs.

Interfund transfers

The cost of the personnel services are transferred to the General Fund where the positions are now budgeted.

ENDING FUND BALANCE

The Risk Management Fund is required to operate on an actuarially sound basis. Generally accepted accounting principles require that exposure liabilities, once known, be expensed. Although this action reduces the available fund balance, the funds remain with Metro since the liability is "probable" and not yet actually spent. Approximately \$709,368 has been expensed for the probable final costs of workers' compensation, general liability and property claims. This will be reviewed at the end of FY 2013-14, using a recommended two year actuarial cycle.

In FY 2006–07 Metro expanded the opportunity for represented employees to “opt out” of Metro’s health insurance program under certain restrictive conditions. Employees who opt out receive a \$150 monthly stipend. Through FY 2010-11, the net savings to Metro that resulted was transferred to the Risk Management Fund balance, to be used toward health insurance and wellness costs. In FYs 2009-10 through 2011-12, a portion of the opt out balance was spent to buy down Metro’s share of employee health insurance costs. Beginning in FY 2012-13, Metro no longer collected these “opt out funds” in the Risk Management Fund; the savings are passed on to departments directly, as the health insurance charge for an employee who has opted out will be much lower than for those electing insurance coverage. A small portion of the opt out balance remains in the Risk Fund to be used toward the agency cost of health insurance or wellness programs.

Smith and Bybee Wetlands Fund

This fund was established as a dedicated endowment fund for development and management of the Smith and Bybee Wetlands Natural Area as required by the Smith and Bybee Wetlands Natural Resource Management Plan. The plan was adopted by the City of Portland, Port of Portland and Metro Council in 1990. The plan, along with the St. Johns Landfill closure and purchase assurance agreement, designated Metro as the lead agency establishing and managing the fund and implementing the plan.

The plan calls for Smith and Bybee Wetlands to be managed as environmental and recreational resources for the region. The wetlands are to be preserved in a manner faithful to their original condition as historical remnants of the Columbia River riparian and wetland system.

The fund is managed by Parks and Environmental Services.

BEGINNING FUND BALANCE

The beginning fund balance represents the balance remaining of the original reserve created many years ago to enable the development and management of the wetlands as a natural area. The fund balance had remained reasonably stable when interest earnings were higher. More recently interest earnings have not kept pace with expenditures and the fund balance has been declining.

CURRENT EXPENDITURES

Materials and services

Expenditures in this category depend on the nature of projects to be completed under the management plan.

Interfund Transfers

The fund reimburses Parks and Environmental Services, the Sustainability Center and the Oregon Zoo for costs associated with management and oversight of the natural areas, including a small portion of an environmental educator and a natural resource scientist. The transfer to the Oregon Zoo is due to the consolidation of Parks and Natural areas education staff in the zoo budget beginning in FY 2012-13.

ENDING FUND BALANCE

Other than interest earnings, the fund has no continuous source of funding. The fund was established as an endowment fund to enable the development and management of the Smith and Bybee Wetlands Natural Area. However, when the management plan was developed, it was known that the existing fund balance would be insufficient to fund fully all current and long-term needs. The fund balance will show fluctuations depending on specific program needs.

Solid Waste Revenue Fund

The Solid Waste Revenue Fund is an enterprise fund established to account for Metro revenues and expenses related to the operation and management of the region's solid waste system.

Metro Ordinance No. 89-319, known as the Master Bond Ordinance and adopted in 1989, placed restrictions on the uses of this fund as a condition of issuing \$28 million in revenue bonds to finance major capital components of Metro's solid waste system. The ordinance set up the following accounts within the fund to facilitate compliance with bond covenants: operating, debt service, debt service reserve, landfill closure, construction, renewal and replacement and general account. Although the bonds were defeased in December 2008, Metro continues to use the account system set up in the Master Bond Ordinance for its budget.

BEGINNING FUND BALANCE

The Solid Waste Revenue Fund's beginning fund balance of \$41.6 million includes several dedicated reserves for specific purposes. The reserves were initially required to meet bond covenants on the revenue bonds issued to fund the Metro transfer stations. The reserve practices were maintained after the bonds were paid in full as a matter of Council policy and good business practice. The beginning fund balance includes \$6.2 million in reserves for landfill closure; \$9.1 million in the Renewal and Replacement Account; \$5.3 million for capital reserves; \$7.5 million for rate stabilization, \$5.2 million for environmental impairment; and \$7.8 million in a general working capital reserve. The general working capital reserve is designed to hold, at a minimum, the equivalent of 45 days of operating expenses.

CURRENT REVENUES

Enterprise revenues

Metro's solid waste system is funded largely through three types of user fees: the Regional System Fee, the Metro Tip Fee and transaction fees. The Regional System Fee is imposed on all waste generated in the Metro region and ultimately disposed of for a fee. The Metro Tip Fee is a user charge collected only at Metro transfer stations and includes the Regional System Fee. The Transaction Fee is a flat fee charged for each transaction at Metro transfer stations. The transaction fee at the staffed scales (scalehouses) and at the automated scales will remain unchanged in FY 2014-15 at \$12.00 and \$3.00 per transaction, respectively. The adopted rates for FY 2014-15 include a \$0.35 decrease in the Regional System Fee to \$18.21 per ton and a \$1.00 decrease in the Metro Tip Fee to \$93.33 per ton, a drop for the first time in eight years. The recent recovery in the economy has stabilized solid waste generation. Tonnage for FY 2014-15 at Metro transfer stations and at the regional level is expected to increase by 4.5 percent and 4.0 percent, respectively, over the FY 2013-14 trend.

CURRENT EXPENDITURES

Personnel services

The 101.30 FTE budgeted total represents a 10.55 FTE increase from the prior fiscal year. As part of the reorganization strategy of the School Education program, 2.00 FTE Education Specialist III's have been transferred from the Oregon Zoo Fund to the Solid Waste Fund; 1.00 FTE Associate Management Analyst is being added to Finance and Regulatory Services; 1.00 FTE Senior Solid Waste Planner is being added for disaster debris planning; and a net addition of 6.55 FTE is due to the direct administrative, finance and management support in lieu of transfers to the General Fund.

Materials and services

Materials and services are budgeted to increase by approximately 9 percent (\$3.4 million) from the FY 2013-14 budget. This increase is due primarily to higher (\$2.0 million) operating costs, driven by tonnage increases at Metro transfer stations. In addition, the FY 2014-15 budget includes operating costs (\$1.4 million) for the School Education program which was transferred from the Oregon Zoo Fund.

Capital outlay

This category mainly includes the purchase of equipment and capital improvements at Metro solid waste facilities. Capital improvements are scheduled in Metro's capital improvement plan.

Capital expenditures are segregated into three categories. The Solid Waste General Account expenditures are typically new capital assets intended to improve the efficiency and effectiveness of Metro's two transfer stations. Projects in the Renewal and Replacement Account are undertaken to realize the optimal life span of capital assets. The projects funded or identified in the Landfill Closure Account are limited to projects needed to close St. Johns Landfill or implement post-closure monitoring.

About \$3.4 million of total current expenditures will be spent on capital projects, as scheduled in Metro's capital budget. The two largest projects in this fiscal year's capital expenditures are the Metro Central Storm Water Improvements project (\$350,000) and the St. Johns Landfill Remediation project (\$0.8 million).

Transfers

Transfers to other funds include internal service charges for central services and for Geographic Information System services provided by the Research Center. Since FY 2009-10 this category included direct cost transfers for solid waste support services provided by other Metro programs. However, these support services, mainly administrative, finance, and management support, are currently directly charged to the Solid Waste Fund. In addition, the FY 2014-15 budget does not include a transfer to the Oregon Zoo Fund for the Resource Conservation and Recycling School Program. This program was transferred from the Oregon Zoo budget to the Solid Waste Fund. The FY 2014-15 budget includes an Interfund Loan transfer (\$3.2 million) to the General Asset Management Fund for two large renovation projects at the Oregon Zoo. The loan will be repaid over a 10 year period.

Contingency

The operating contingency is funded to cover unanticipated cost spikes or tonnage (revenue) losses. For FY 2014-15 the operating contingency, which represents 12.6 percent of total contingency, is budgeted at \$2.0 million. The remaining contingency consists of restricted funds in the Renewal and Replacement and St. Johns Landfill accounts.

ENDING FUND BALANCE

The unappropriated ending fund balance of \$19.2 million consists of designated and restricted funds, including funds reserved for rate stabilization and available as working capital to meet cash flow needs, a capital reserve account and a reserve for probable Environmental Impairment Liability.

Capital Improvement Plan Detail

Organizational unit summaries and analysis

A capital project is defined in Metro's capital improvement plan (CIP) as any physical asset acquired or constructed by Metro with a total capital cost of \$100,000 or more and a useful life of at least five years. The CIP for the next five years, FY 2014-15 through FY 2018-19, includes 176 projects with anticipated new spending of \$216.4 million.

This section contains capital improvement plan project summaries for each department, including the funding source for each project.

Total projects summary by year

Each section begins with a complete listing of the projects contained in the current capital budget. The chart shows the expected expenditures by year, the total of all years, including prior years, and the five-year total.

Overview of projects

The narrative addresses significant issues regarding each unit's capital budget. The overview includes information about new projects that are in the capital budget proposal and may address changes in timing and scope of projects previously listed.

Project funding

This section of the narrative discusses the sources of funding for the various projects and any significant funding issues. The contribution to the General Renewal and Replacement Account increases each fiscal year for existing assets. When significant new assets are added, the contribution to this fund also increases. Beginning in FY 2013-14 the standard 2 percent increase in the renewal and replacement contribution is expected to increase 0.25 percent each fiscal year until it reaches 3 percent. For FY 2014-15, the increase is 2.5 percent.

Finance and Regulatory Services' responsibilities include management of solid waste rate setting, regional solid waste enforcement efforts, agency financial management and management of the General Asset Management Fund.

OVERVIEW OF PROJECTS

The Solid Waste Information System (SWIS) project to streamline the data gathering function of the solid waste disposal system was implemented on July 1, 2012. Phase II of the project, begun in FY 2013-14 and continuing in FY 2014-15, will improve management reporting and create additional program efficiencies. The enforcement division of Finance and Regulatory Services typically replaces one vehicle each year.

PROJECT FUNDING

The SWIS project is funded by the Solid Waste and Recycling General Account. Projects financed through this account are typically new capital assets designed to increase the efficiency and effectiveness of Metro's solid waste disposal system. Enforcement vehicle replacements are funded by the Solid Waste and Recycling Renewal and Replacement Account.

OPERATIONAL IMPACTS

Operational efficiencies are expected from the SWIS project, but they have not been quantified. Staff will be able to direct more time to analysis and less time to data management.

The Information Services capital budget includes most agency-wide hardware and applications. Applications and hardware specific to individual programs are generally found within those programs.

OVERVIEW OF PROJECTS

The FY 2014-15 through FY 2018-19 Information Services capital budget contains six projects; three are renewal and replacement projects. Renewal and replacement projects support preservation of Metro's various technology systems and servers and include upgrades to business software. In FY 2014-15, two small new software systems will be purchased/built: Customer Relationship Software and Project Management Software that will support management of construction projects across the agency.

PROJECT FUNDING

Projects for agency-wide applications are generally funded by cost allocation transfers from the participating funds into the General Asset Management Fund. The two software applications are funded by Metro's Reserve for One-Time Expenditures.

OPERATIONAL IMPACTS

The operational impact for most of these projects is the ongoing cost to fund renewal and replacement.

Parks and Environmental Services

OVERVIEW OF PROJECTS

General Renewal and Replacement and Capital

Of the 18 projects for Parks and Property Management and Property Services, all but three are scheduled renewal and replacement projects. The largest projects are fleet purchases, replacement of portions of the sprinkler system at the Metro Regional Center (MRC) and the replacement of the roof at the MRC. Projects are funded primarily by the renewal and replacement reserve; the Reserve for One-Time Expenditures will fund the sprinkler project.

Parks and Natural Areas Local Option Levy

The voter-approved Parks and Natural Areas Local Option Levy will fund 27 PES projects in the 5-year CIP. Major projects include substantial renovations at Blue Lake and Oxbow Parks.

Solid Waste Revenue Fund

Projects for the Solid Waste Operating program fall into three categories:

General Account

Projects financed through the Solid Waste General Account are typically new capital assets designed to increase the efficiency and effectiveness of Metro's two transfer stations. The current five-year plan includes nine General Account projects. The largest projects planned for FY 2014-15 are Storm Water Improvement projects at both Metro Central and Metro South transfer stations.

Landfill Closure

The St. Johns Landfill Account is restricted to financing capital projects needed to close the St. Johns Landfill and maintain post-closure performance standards. The projects in the capital budget represent a series of improvements that are needed to minimize erosion damage, restore native vegetation, provide wastewater pretreatment, repair the landfill cover and dike systems and provide adequate facilities for staff.

Renewal and Replacement Account

Projects financed through the Renewal and Replacement Account are replacements of equipment and rehabilitation of facilities necessary to realize the optimal lifespan of capital components. The program regularly contracts with an engineering firm to assess the condition of equipment and facilities and calculate annual contribution amounts to the Renewal and Replacement Account. The latest study was performed in FY 2011-12 in conjunction with a Metro-wide renewal and replacement study. The largest projects in the current five-year plan are shredder and compactor replacements.

MAJOR FUNDING SOURCES

Most capital projects associated with Parks and Property Management have been funded with renewal and replacement reserves, grants funds or special one-time appropriations. The passage of the Parks and Natural Areas Levy provides another source for renovations at Metro parks facilities. Primary financing for Solid Waste projects derives from reserves established for that purpose.

The Sustainability Center capital projects include the acquisition of natural areas and planning and development of new facilities for the parks system.

OVERVIEW OF PROJECTS

This capital plan includes the continued acquisition of natural areas and several design and construction projects funded by the Parks and Natural Areas Local Option Levy.

PROJECTS FUNDING

The land purchases are funded by the Natural Areas Bond Fund. The Parks and Natural Areas Local Option Levy provides a source of funding for restoration, improvements and increased public access at Metro's Natural Areas.

OPERATIONAL IMPACTS

Operating costs include a component for renewal and replacement where appropriate and the expected operating costs of the new parks.

Visitor Venues

Metro's Visitor Venues include the Oregon Convention Center (OCC), the Portland's Centers for the Arts (Portland's), the Portland Exposition Center (Expo), and the Oregon Zoo. Consolidated in July 2010 to enhance collaboration on operational issues, the team actively works toward a common mission of maintaining world-class gathering and entertainment spaces.

The Oregon Convention Center (OCC) is owned by Metro, managed by the Metropolitan Exposition Recreation Commission, and is home to regional and national conventions and trade shows.

OVERVIEW OF PROJECTS

The FY 2014-15 through FY 2018-19 OCC capital budget contains 29 projects; most projects are renewal and replacement. The largest project during FY 2014-15 is phase II of the replacement of the roof over the original portion of the building. Most new capital projects at OCC involve technology upgrades that are key to maintaining business in a competitive environment.

PROJECT FUNDING

OCC's project funding in this five-year plan comes primarily from renewal and replacement reserves. A number of projects will utilize a reserve developed in years in which transient lodging tax collections exceed 7 percent growth, as well as a business strategy reserve.

Portland’5 Centers for the Arts

Portland’5 Centers for the Arts (Portland’5) facilities are owned by the City of Portland and managed by the Metropolitan Exposition Recreation Commission through an intergovernmental agreement between Metro and the City of Portland. P’5 provides world class entertainment spaces for residents and visitors in three buildings:

- Antoinette Hatfield Hall (AHH), containing Dolores Winningstad Theatre, Newmark Theatre and Brunish Hall.
- Arlene Schnitzer Concert Hall (ASCH).
- Keller Auditorium.

OVERVIEW OF PROJECTS

The FY 2014-15 through FY 2018-19 P’5 capital budget contains 22 projects that are all renewal and replacement in nature. The largest project in the five year plan is the \$850,000 replacement of the roof and drains at the Keller Auditorium. The largest project in year one of the plan is the HVAC and lighting controls updates project at Antoinette Hatfield Hall, a project that began in FY 2013-14.

PROJECT FUNDING

Most projects in this five-year plan are funded by renewal and replacement reserves; one is funded by capital reserves.

OVERVIEW OF PROJECTS

Adjustments to the scope and budget of zoo bond projects will continue as design is completed. Bond projects included in the current five-year plan include

- Elephants Habitat and Related Infrastructure (Elephant Lands)
- Remote Elephant Center (offsite facility)
- Education Center (Conservation Discovery Zone)
- Campus and Habitat Interpretive Design
- One-percent for Art Design and Installation
- Polar Bear Habitat
- Primate and Rhino Habitats

Funding from the Oregon Zoo Foundation in support of several of these projects is budgeted in the Zoo Capital subfund of the General Asset Management Fund.

Non-bond projects include significant renovations to the Steller Cove exhibit and to the zoo train, as well as a 750kw backup generator. This generator size is a change from the 1500kw generator which was to be completed in partnership with Portland General Electric. That partnership turned out not to be feasible, and the scope has been scaled back.

PROJECT FUNDING

Of the \$106.9 million in zoo projects in the FY 2014-15 through FY 2018-19 CIP, \$90.98 million (85 percent) is funded from the Oregon Zoo Infrastructure and Animal Welfare Bond. The General Renewal and Replacement Account provides \$7.6 million (7 percent). Capital projects are funded by a mix of zoo capital reserves and donations from the Oregon Zoo Foundation. The Steller Cove and train renovations are funded by a loan from the Solid Waste Fund, to be paid back with interest over 10 years.

In November 2008 the region's voters approved Measure 26-96, a \$125 million general obligation bond measure that directed Metro to fund Oregon Zoo capital projects to protect animal health and safety, conserve and recycle water and to improve access to conservation education. The first series of bonds in the form of a private placement with Bank of America for \$5 million was issued December 22, 2008. A second series of bonds was issued on August 5, 2010, in the form of a two-year private placement with Wells Fargo for \$15 million. The bonds were issued as taxable Build America Bonds (BABs). An additional \$65 million of bonds was issued in May 2012 with the balance anticipated to be issued in 2016.

The Open Spaces, Parks and Streams general obligation bonds were authorized by the voters on May 16, 1995. The original bonds were issued in three series between September 1 and October 15, 1995, to facilitate compliance with federal regulations regarding expenditures and investment of bond proceeds. Bond proceeds are used to purchase regionally significant open spaces and to provide funds for local governments to purchase, construct and improve local parks. Series A and C of the original bonds were refunded in 2002 resulting in a net present value savings of \$6,104,077. The last payment on the Series B bonds was made on Sept. 1, 2010. The portion of the 2002 bonds callable without premium was refunded in May 2012 resulting in a net present value savings of \$2,567,762.

In April 2000 Metro obtained a loan from the Oregon Bond Bank through the Oregon Economic Development Department (OEDD) Special Public Works Fund (SPWF) to pay for the construction of a new building to replace the existing Hall D at the Expo Center. The loan was divided into two parts with the first being used to finance the construction of the Hall D replacement. The second part of the loan was for infrastructure improvements associated with the new building. In April 2006 Metro joined with two other Oregon local governments to issue full faith and credit refunding bonds to refund the outstanding obligation remaining on the loan. The refunding realized a net present value savings of \$758,683; 5.05 percent of refunding proceeds.

Full Faith and Credit Refunding Bonds, 2013 Series

Full faith and credit bonds were issued in October 2003 to refund outstanding obligations for Metro Regional Center (MRC) acquisition and construction, and for loans from the Oregon Economic and Community Development Department's (OECD) Special Public Works Fund to the Oregon Zoo for Metro's share of light rail station construction and Washington Park parking lot improvements. Bonds to finance Metro Regional Center were originally issued in 1991, and refunded in 1993, as revenue bonds to be paid by assessments to Metro departments. The OECD loans were issued in two series, in 1995 and 1996, to coincide with construction schedules for the Light Rail and parking lot improvements projects. These loans were paid from zoo revenues. The 2003 refunding broadened the pool of available funds to back payment of the obligations, by pledging Metro's general revenues including excise taxes and Metro's permanent rate property tax levy, which is used to support zoo operations. Debt service payments will continue to be made from the same sources as before, but the full faith and credit pledge strengthens the security for bondholders. The refunding bonds produced net present value savings of \$2,462,082. In February 2013 the callable portion of the 2003 bond was refunded resulting in a net present value savings of \$1,284,311; or 10.1 percent of the refunding proceeds.

Limited Tax Pension Obligation Bonds, 2005 Series

Metro joined in a pool with other local governments in the State of Oregon to issue limited tax pension bonds to fund its share of the Oregon Public Employee Retirement System unfunded actuarial liability. The taxable bonds were issued on September 13, 2005. Debt service will be repaid through assessments on departments in exchange for a lower pension cost. The underlying Moody's rating is A3. The issue was insured to receive a Aaa rating.

Budget and financial structure

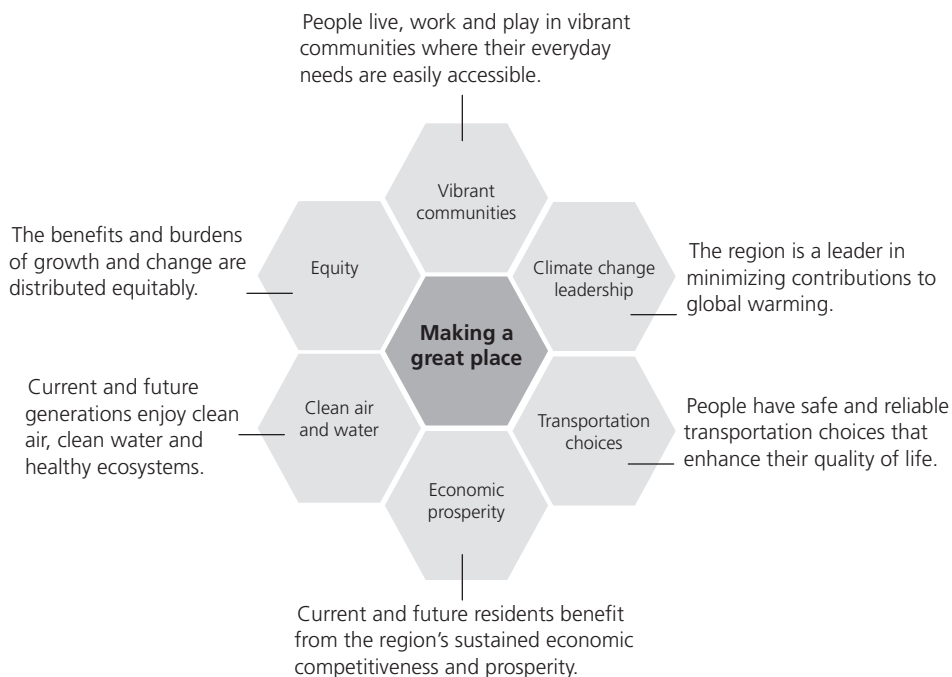

Development of the budget is an important and legally required process. The result is a policy and financial plan covering all of Metro's programs and services. The budget document presents a strategically focused discussion of goals and objectives, programs and outcomes, and spending priorities within resource constraints. The budget process at Metro includes two concurrent, complementary cycles: (1) the strategic process for evaluating progress and setting future expectations and (2) the development of the final policy and financial document.

THE STRATEGIC BUDGET PROCESS

Metro follows a strategic budgeting process that guides not only the development of its annual budget but also provides focus for multi-year funding commitments toward specific objectives. In 2008 under Metro's leadership, regional leaders agreed on six desired outcomes for communities throughout the region. By embracing measurable outcomes, leaders shifted from talking about abstract concepts like "compact urban form" to focusing on what really matters in the everyday lives of the region's 1.5 million residents. Identifying regional values ensures decisions are guided by a clear focus. The following six desired outcomes for the region were adopted by the Metro Council in 2010 as part of the region's growth management policies:

With this regional framework in mind, Metro adopts its agency goals and operates programs and projects that make positive contributions to the regional outcomes. Metro adopts program goals and measures performance, including the internal efficiency and effectiveness of its business practices. During the year the Metro Council reviews quarterly program and financial reports to track performance towards these outcomes. Every fall the Council provides direction to the Budget Officer, increasing focus in particular areas or redirecting efforts to adjust to changing circumstances within the region. The diagram at the top of next page illustrates this year-round dynamic process.

Annual strategic budget process

THE BUDGET CYCLE

The budget cycle focuses on the development of an annual budget document that incorporates the Metro Council's strategic direction into a comprehensive policy and financial plan for all Metro programs and services. It is a process designed to meet the expectations of the general public, the Metro Council and the requirements of Oregon Budget Law.

Review of prior year

Each fiscal year begins with a review of the previous year's budget cycle to determine areas of success and areas of concern. Staff works to refine the process for the upcoming year. New budget parameters are developed to set out the basic assumptions organizational units should adopt for the preparation of their budgets. These parameters are incorporated with the policies and priorities set by the Metro Council and the Chief Operating Officer.

Five Year Forecast Development

An important tool in the evaluation of operating fund performance is the development of the five-year forecasts. The principles of Metro's financial policies are followed throughout the five-year forecast. A factor for historic underspending is included. In the absence of contractual escalators tied to specific indices, general inflationary increases are allowed. A prudent contingency and stabilization reserve is assumed for each fund. Annual renewal and replacement contributions are required. Basic labor assumptions for salaries, wages, COLA, health and welfare, PERS and other benefits are included. The purpose of the forecasts is not to display a balanced budget in all future years. The purpose is to identify vulnerabilities, highlight trends and provide a line of sight to decision making. The forecasts serve as an early warning system for future concerns. Issues identified in the forecasts are considered when setting budget instructions and parameters for the ensuing process.

Budget instructions

The Financial Planning division of Finance and Regulatory Services provides detailed instructions for the preparation of the requested operating and capital budgets. The instructions provide the universal assumptions for increasing or decreasing staff, calculating changes in personnel costs and costing out commonly purchased items such as office furniture and computer software. The instructions also give operating

units detailed information for budgeting capital projects already approved in the five-year Capital Improvement Plan, for proposing new capital projects for future years and for undertaking scheduled renewal and replacement projects to safe guard Metro’s public assets.

Budget requests

Staff in operating units apply the instructions and assumptions from Financial Planning and the direction received from the COO to forecast their base program activities and financial needs for the next fiscal year. In addition, programs prepare a series of proposals to add, cut or change program activities, functions or funding levels. The base forecasts along with the add, cut or change proposals form the basis of the requested budgets.

Review and analysis resulting in proposed budget

The Financial Planning division reviews, analyzes and consolidates the base budget requests, meeting with each operating unit to verify and refine the requests, as needed. The COO, serving as the agency’s Budget Officer, conducts review meetings to discuss identified issues and program changes. The COO presents preliminary budget information to the Metro Council identifying early issues and revenue constraints, seeking additional guidance on program and policy direction. Following additional review, analysis and discussion and budget modification, the COO may hold a work session with the Senior Management Team and the Finance Team to discuss the Council’s additional guidance, the operating proposals and budget balancing options. The COO, as Budget Officer, makes the final decisions, and delivers a budget message and proposed budget to the Metro Council and the public.

Review and analysis by the Metro Council resulting in approved budget

The Metro Council, sitting as the Budget Committee, holds one or more public work sessions to review the budget, take program and public testimony, and make any additions, deletions or modifications to the proposed budget. After due consideration, the Metro Council approves a budget and determines the amount required and allowed to be levied from property taxes. The approved budget and tax levy are then submitted to the Multnomah County Tax Supervising and Conservation Commission (TSCC).

Tax Supervising and Conservation Commission review and certification

Oregon law requires local governments to establish a budget committee that reviews the budget and makes decisions regarding the approved budget. For most jurisdictions this committee comprises members of the governing body and an equal number of citizens. In counties where the population is greater than 500,000 (currently Multnomah County and Washington County), a TSCC may be established. Members of this commission are appointed by the governor to supervise local government budgeting and taxing activities. Currently, Multnomah County is the only county with a TSCC. Washington County has chosen to retain its citizen budget committee and implement the alternative publication option now allowed under Oregon Budget Law. Because more than 50 percent of Metro's total assessed value is within Multnomah County, Metro submits its budget to the Multnomah County TSCC. After the commission reviews Metro's budget, it holds a public hearing and asks for clarification on items within the budget or items affecting the financial health of the organization. Upon completion of the public hearing, the TSCC issues a letter of certification, which becomes part of the official record included with the adoption of the budget.

Metro Council adoption and submission to County Tax Assessors

After receiving certification by the TSCC, the Metro Council makes any necessary and final technical adjustments and adopts the budget prior to June 30, the end of the fiscal year. Legally required documentation to levy property taxes for the ensuing year is filed with each county tax assessor in the region prior to July 15th. The final adopted budget document is prepared, printed and submitted to each of the county tax assessors in the region and to the TSCC.

Changes to the budget after adoption

Oregon Local Budget Law provides several ways for the budget to be changed after adoption. If the government receives additional revenue in the form of grants, donations or bequests, appropriations may be increased through Metro Council action in an amount equal to the additional revenues. If other new revenues are received that were not anticipated at the time that the budget was adopted, the government may prepare a supplemental budget to recognize the additional revenue and increase appropriations. The Council may amend appropriations by ordinance when adjustments within a fund are made between appropriation levels in the budget (e.g., increase in operating expense appropriation and a corresponding decrease in contingency appropriation).

The five-year capital improvement plan

Metro's five-year capital planning process identifies the agency's capital asset needs for projects that cost \$100,000 or more and have a useful life of five years or more. The Metro Council adopted the agency's first capital improvement plan in January 1997. Metro Council reviews the capital budget concurrently to promote improved coordination between capital spending and the overall budget.

Budget development guidelines

The following financial assumptions were used in the development of the FY 2014-15 budget. When changes to the assumptions evolved during the budget deliberation, they are noted.

MAJOR REVENUE ASSUMPTIONS

Excise tax rate on eligible revenues

7.5 percent rate for all non-solid waste revenues subject to the Metro excise tax. For the FY 2014-15 budget, the CPI factor on base solid waste excise tax revenue is 2.5 percent. The base solid waste excise tax amount for FY 2014-15 is \$12,414,623.

General Fund allocations

Allocations of the General Fund's discretionary resources (operating property tax, excise tax, interest earnings) will be made by the Chief Operating Officer during the course of budget development based on program priorities and Council direction.

Interest

Interest rate for resource calculations – 0.50 percent.

MAJOR EXPENDITURE ASSUMPTIONS

Gross available hours per year per FTE

A standard 2088 hours is set for non-exempt, hourly employees. Exempt employees (salaried) are budgeted based on an annual salary. Exempt annual salaries are calculated on a 2080 hour basis.

Salary and wage adjustments

TeamBudget, Metro's budget development and management software, calculates salaries, wages and fringe benefits for all regular benefit eligible positions that are included in PeopleSoft HRMS. All temporary, seasonal, event driven or other part-time staffing are calculated and manually entered by the departments.

For employees on a pay plan with steps based on longevity, TeamBudget will automatically calculate the step increase at the appropriate month in both the current year (FY 2013-14) as well as ensuing budget year (FY 2014-15). For non-rep employees whose salary is based on a pay range, Team Budget will create a pay scale based on current salaries increased by approved adjustments for COLA and merit.

If needed, the Human Resource Department will provide on request a list of all existing employees, their current hourly rate or annual salary and next anniversary date.

Salaries and wages were calculated based on the following assumptions:

Elected Officials

Elected official salaries were budgeted per HB 2322, in line with adjustments to the Circuit Court Judges salaries (effective July 1, 2014).

Metro Non-Represented Employees

Assumed 2.0 percent on existing salaries and wages for COLA (effective July 1, 2014).

Assumed 2.0 percent on existing salaries and wages for Merit (effective July 1, 2014).

Note: Based on the actual Portland-Salem CPI-U 2nd half, the COO has awarded a 2.65% COLA for all non-represented employees effective July 1, 2014. The Merit will be awarded at the discretion of the COO and will be based on evaluation of performance.

MERC Non-Represented Employees

Assumed 2.0 percent on existing salaries and wages for COLA (effective July 1, 2014).

Assumed 2.0 percent on existing salaries and wages for Merit (effective July 1, 2014).

Note: Following a review of the Portland-Salem CPI-U for 2013, the COO has awarded a 2.65% COLA for all non-represented employees effective July 1, 2014. The Merit will be awarded at the discretion of the COO and will be based on evaluation of performance.

Metro AFSCME 3580

Assumed 2.0 percent cost of living adjustment to wages effective July 1, 2014.

Assumed 5.0 percent step increase for eligible employees effective on anniversary data.

Note: The current AFSCME 3580 collective bargaining agreement expires 6/30/14. Negotiations are currently in process for a new agreement to begin July 1, 2014.

LIU Local 483

Assumed 2.0 percent cost of living adjustment to wages effective July 1, 2014.

Assumed appropriate step increases on anniversary date for eligible employees.

Note: The current LIU Local 483 collective bargaining agreement expires 6/30/14. Negotiations are currently in process for a new agreement to begin July 1, 2014.

MERC Represented Groups (all adjustments based on existing collective bargaining agreements)

IUOE 701-1 - Assumed 2.5 percent cost of living adjustment to wages effective July 1, 2014

IUOE 701 – Assumed 2.5 percent cost of living adjustment to wages effective July 1, 2014

AFSCME 3580-1 – Assumed 2.0 percent cost of living adjustment to wages effective July 1, 2014

IATSE B-20 – Assumed 2.03 percent cost of living adjustment to wages effective July 1, 2014

IATSE B28 – Assumed 2.25 percent cost of living adjustment to wages effective July 1, 2014

ILWU 28 – Assumed 2.5 percent cost of living adjustment to wages effective July 1, 2014

Zoo Visitor Services Seasonal

Assumed appropriate increases per the Visitor Services pay range effective Jan. 1, 2014. Minimum wage effective Jan. 1, 2014 = \$9.10.

Assumed a 2.0 percent cost of living adjustment to the pay plan effective Jan. 1, 2015.

All Other Temporary or MERC Part-Time employees

Assume appropriate increases per existing pay plans.

Fringe rates

Base Fringe rates are split into two components – a fixed rate per FTE and a variable rate to be applied to estimated salaries and wages. The variable rate includes all portions of the fringe benefits that are calculated on a straight percentage of salaries/wages – PERS, FICA, TriMet payroll tax, and long-term disability. Some departments

have temporary or seasonal employees that, while not eligible for full benefits, receive PERS benefits. For those employees, departments should use the PERS eligible temporary variable rates.

The fixed rate per FTE includes all other benefits – health & welfare (medical, dental, vision), life insurance, dependent life insurance, accidental death insurance, worker compensation tax, and employee assistance program. There is a fixed component for all temporary or seasonal employees. Although the budget document does not reflect FTE for temporary, seasonal, or MERC part-time event related employees, departments will need to estimate an associated FTE for the purposes of calculating this portion of the fringe costs.

Fringe Benefits also includes the PERS Bond Recovery rate; the amount that is needed to pay the debt service on the bonds that were issued to fund Metro’s unfunded actuarial liability with PERS. Departments received a reduction in their base variable rate at the time the bonds were issued.

Fringe benefits will be budgeted into one of several specific account codes as follows:

511000 – Taxes (FICA, TriMet payroll tax, worker compensation tax)

512000 – Retirement PERS (employer rate, employee pick-up)

513000 – Health & Welfare (medical, dental, vision coverage)

514000 – Unemployment Expense

515000 – Other (life insurance, AD&D insurance, long term disability, dependent life insurance)

519000 – PERS Bond Recovery (amount charged to pay debt service in lieu of retirement)

(1) Almost all new employees pay their own 6.0% employee PERS Rate. TeamBudget is able to identify these employees and calculate the 6.0% pick-up only on eligible employees. A discounted employee rate is no longer provided.

519500 – Opt Out (tracks actual amount paid to employee or recovered by Metro for employees who opt out of Metro coverage. For budget purposes this amount is included under health & welfare.)

TeamBudget automatically calculates all fringe benefits for regular benefit eligible employees – those employees with FTE reflected in the budget. Departments manually calculate and enter fringe benefits for all other temporary, seasonal, event driven or part-time employees.

Note: The PERS Bond Recovery will be partially funded from the accumulated PERS Reserve for FY 2014-15. Historically, this charge has varied between 3.0 to 3.2 percent of eligible salaries.

New positions

New position requests are not allowed in the base budget request. All new positions must be requested as an add package to a program proposal. The need for a new position should be well documented as to need and anticipated benefit. New positions are to be budgeted at no more than 20 percent above the beginning rate or step. Positions that are budgeted at the beginning rate should allow for a 5 percent increase after successful completion of a six-month probationary period.

Vacant positions

Vacant positions are to be budgeted at no more than 20 percent above the beginning rate or step.

Reclasses

Base budget requests should include reclasses already approved in the current fiscal year. Any reclass proposed for the coming fiscal year, including career ladder changes, will be allowed in the base budget request for FY 2014-15, if the department chooses the additional cost as a priority for the department. No additional funding will be provided to a department as a result of reclass. The reclass(s) must be disclosed in the budget transmittal.

Materials and services

Inflation factor = 2% . There will be a 2% materials & services inflation factor. You can move and adjust between M&S line items as you need, the total above the current budget after adjusting for one-time expenditures should be no more than 2%. If you have multi-year contracts with automatic contract escalators you will need to manage by adjusting other items down.

Contingency

General Fund contingency and reserves will be budgeted in accordance with established policy. The consolidated General Fund will provide for the following:

Contingency equivalent to 4 percent of total operating revenues.

Stabilization Account equivalent to 3 percent of total operating revenues.

Opportunity Account - \$500,000

For other funds, contingency should be an amount not less than 4 percent of the total of personal services, materials and services and capital outlay. Variations from this amount are allowed based on operational needs. Other reserves should be budgeted in accordance with adopted policies.

Unemployment

Unemployment costs are budgeted in the Risk Management Fund on a retrospective basis. For FY 2014-15 costs reflect actual expenditure incurred in FY 2012-13.

FUND-BASED BUDGET

Metro's accounts are organized on the basis of funds, where each fund is considered a separate fiscal entity accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Each fund has a specific purpose, with specific revenue sources and uses and is classified according to GASB standards.

BASIS OF ACCOUNTING USED BY METRO FOR BUDGETING

Metro's budget is prepared on the modified accrual basis of accounting. In modified accrual accounting revenues are recognized when they become measurable and available. Measurable means that the dollar value of the revenue is known. Available means that it is collectible within the current period, or soon enough after the end of the current period to pay the liabilities of the current period. Significant revenues that are considered to be measurable and available under the modified accrual basis of accounting are interest earned on temporary investments, property taxes received within approximately 60 days of the end of the fiscal year, excise taxes, cemetery revenue surcharges, grants, local government shared revenues such as hotel/motel taxes, government contributions and charges for services. Expenditures are recognized when the liability is incurred, if measurable, except for interest on long-term debt which is recognized on its due date and certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The Comprehensive Annual Financial Report (CAFR) shows the status of Metro's finances in accordance with "generally accepted accounting principles" (GAAP). In many cases, this conforms with the way Metro prepares its budget. Major exceptions are as follows:

- Central services costs incurred by funds are recorded as direct expenses on a GAAP basis, whereas these amounts are reflected as operating transfers on a budget basis.
- Depreciation and amortization expenses are recorded on a GAAP basis. The budget basis does not reflect these items.
- Reductions to certain liabilities on a GAAP basis are recorded as expenditures on a budget basis.
- Certain funds are aggregated and reported as fund components on a GAAP basis and are reported as separate funds on a budget basis.

The Comprehensive Annual Financial Report shows fund expenditures and expenses, as well as revenues, on both a GAAP basis and budget basis for comparison purposes.

GENERAL FUND

In accordance with GAAP, the General Fund accounts for all activities not required to be accounted for in another fund. In FY 2005–06 the General Fund was consolidated to conform to Metro’s strategic objectives and includes Metro’s general government activities (including Council and Communications functions, regional transportation and growth planning, regional parks, and operations of the Oregon Zoo), as well as all administrative support functions (such as Finance and Regulatory Services, Human Resources, Information Services, Metro Auditor, Office of Metro Attorney and Metro headquarters building operations). The principal resources of the fund are an excise tax on Metro’s facilities and services levied in accordance with the Metro Code, general property taxes derived from a tax levy approved by voters in May 1990, charges for services provided by the various activities of Metro, intergovernmental revenues in the form of grants and contracts, charges for services provided to Metro functions not accounted for within the General Fund and investment earnings.

ENTERPRISE FUNDS

Solid Waste Revenue Fund

This fund accounts for revenues and expenditures for the implementation, administration, and enforcement of Metro’s Solid Waste Management Plan. The primary revenue source is from fees collected for the disposal of solid waste. This fund also accounts for the operation of the Metro South and Metro Central transfer stations and recycling facilities, and the closed St. Johns Landfill.

Metropolitan Exposition Recreation Commission Fund

This fund accounts for the revenues and expenditures of the Metropolitan Exposition Recreation Commission (MERC), which includes the Oregon Convention Center, Portland’s 5 Centers for the Performing Arts and the Portland Expo Center. The fund maintains the facilities and administration as divisions within the fund but is appropriated at the following levels: total operating expenditure including capital outlay for all venues, debt service, transfers and contingency. Principal sources of revenues are user fees and charges, food service revenues and hotel/motel tax.

SPECIAL REVENUE FUNDS

Smith and Bybee Wetlands Fund

This fund accounts for the implementation of the Smith and Bybee Lakes management plan, managed by Metro’s Parks and Environmental Services. A natural Resources Plan for Smith and Bybee Lakes was adopted by the City of Portland and Metro in December 1990. Primary resources are grants and interest.

General Asset Management Fund

This fund accounts for major non-bond funded capital acquisition and construction projects undertaken by General Fund assets of Metro as well as provides for the ongoing and future renewal and replacement needs of Metro’s assets acquired by the General Fund. Included are projects for regional parks and facilities and the Oregon Zoo as well as significant capital expenditures for other non-enterprise related Metro activities. In addition, this fund accounts for designated funds transferred from Multnomah County as of January 1, 1994. The funds are restricted for use at Oxbow Regional Park. Major capital project revenue sources include, but are not limited to, grants, donations, contributions from the General Fund and other revenues

and contributions identified for capital purpose. Primary sources of revenue for renewal and replacement are annual scheduled contributions from the General Fund and interest earnings. Expenditures are made in accordance with a 25-year renewal and replacement schedule reviewed and updated on a regular basis, with physical inventory and evaluation at least once every five years. In the CAFR, this fund is consolidated as part of the General Fund to be in compliance with GAAP.

General Revenue Bond Fund

General revenue bonds and other financing proceeds are accounted for in this fund. To date this fund has been used for construction of the Metro Regional Center, the Washington Park parking lot renovation, contribution to TriMet for the zoo light rail station and for the construction of the Expo Center Hall D replacement. This fund also accounts for the payments on outstanding debt associated with these projects. The principal sources of revenue are charges to organizational units for debt service, interest earnings and loan proceeds. In the CAFR, this fund is segregated and then combined with another applicable fund for proper GAAP classification within the General Fund (zoo and building management), and an enterprise fund (MERC) on a GAAP basis.

Community Enhancement Fund

This fund accounts for funds received and expenditures for rehabilitation and enhancement of the area in and around the solid waste transfer facilities and St. Johns Landfill. Primary resources are rehabilitation and enhancement fees and interest. Expenditures are for planning and implementation of rehabilitation and enhancement programs in the area.

Parks and Natural Areas Local Option Levy Fund

This fund accounts for proceeds received from the five-year local option levy approved by the voters of the Metro region in May 2013. Primary resources of the fund are property taxes. These resources are restricted by the local option levy measure for specified expenditures related to the operation, restoration and development of regional parks and natural areas and do not include debt service expenditures or expenditures on large capital projects.

CAPITAL PROJECTS FUNDS

Open Spaces Fund

This fund accounts for the bond proceeds and expenditures related to the Open Spaces, Parks and Streams general obligation bonds approved by the voters in 1995. Primary sources of revenue include interest earnings on the bond proceeds and public and private contributions toward the acquisition program. Expenditures are governed by the bond measure and are related to the acquisition of land and the establishment of trails.

Natural Areas Fund

This fund accounts for the bond proceeds and expenditures related to the Natural Areas general obligation bonds approved by the voters in 2006. Primary sources of revenues include bond proceeds, interest earnings on the bond proceeds and public and private contributions toward the acquisition program. Expenditures are governed by the bond measure and are related to the acquisition of land and the preservation of natural areas.

Oregon Zoo Infrastructure and Animal Welfare Bond Fund

This fund accounts for bond proceeds and expenditures related to the Oregon Zoo general obligation bonds approved by the voters in 2008. Primary sources of revenue include bond proceeds and interest earnings on the bonds. Expenditures are governed by the bond measure and are related to design and construction of capital projects for infrastructure and animal welfare at the Oregon Zoo.

INTERNAL SERVICE FUNDS

Risk Management Fund

This fund accounts for insured, self insured and risk management activities performed for the organizational units within Metro. The fund purchases property and liability insurance and maintains reserves for self insured deductible expenses. Workers' compensation costs are also a combination of purchased and self insurance. In addition, the fund accounts for unemployment insurance. Primary revenues are charges to user funds and interest. Primary expenditures are insurance premiums, claims costs and actuarial evaluations.

DEBT SERVICE FUND

General Obligation Bond Debt Service Fund

This fund accounts for payments of general obligation bond principal and interest to bond holders. The principal source of revenue is property taxes.

PERMANENT FUND

Cemetery Perpetual Care Fund

This fund was created in 2003 to provide financial support for the long-term maintenance of the Metro Pioneer Cemeteries after the cemeteries are no longer receiving revenue from grave sales and burial services. The fund will receive revenue from a 25 percent surcharge on grave sales. It is anticipated that no expenditures will be made from this fund until grave sites are exhausted at the cemeteries.

Charter limitation on expenditures

In November 1992 the voters of the region approved a home rule charter for Metro. Section 14 of the Charter places limitations on the expenditures of certain tax revenues as follows:

Section 14. Limitations on Expenditures of Certain Tax Revenues

1. Generally, except as provided in this section, for the first fiscal year after this charter takes effect Metro may make no more than \$12,500,000 in expenditures on a cash basis from taxes imposed and received by Metro and interest and other earnings on those taxes. This expenditure limitation increases in each subsequent fiscal year by a percentage equal to (a) the rate of increase in the Consumer Price Index, All Items, for Portland-Vancouver (All Urban Consumers) as determined by the appropriate federal agency or (b) the most nearly equivalent index as determined by the council if the index described in (a) is discontinued.
2. Exclusions from limitation. This section does not apply to (a) taxes approved by the voters of Metro for the Metropolitan Service District and interest and other earnings on those taxes, (b) payroll taxes specified in section 11 of this charter, and (c) tax increment financing charges on property.

The following table reflects the dollar limitation on expenditures from these tax revenues for each fiscal year. The Consumer Price Index (CPI) is calculated using the latest calendar year-end data available at budget adoption time and comparing that with the prior year. Data is from the U.S. Department of Labor, Bureau of Labor Statistics.

The Consumer Price Index for All Urban Consumers, Portland-Salem Consolidated Metropolitan Statistical Area now stands at 237.32 on the 1982–84=100 reference base.

For FY 2014-15 the adopted budget authorizes 97 percent of the limit.

Excise tax

Chapter III Section 10 of the Metro Charter authorizes Metro to levy and collect taxes except as prohibited by law or restricted by the Charter. The Metro Code Chapter 7.01.020 imposes a tax on each user for the privilege of using the facilities, equipment, systems, functions, services or improvements owned, operated, franchised or provided by Metro. Certain exemptions to the tax are specified in Section 7.01.050 of the Code. The tax is not applied to the Portland's Centers for the Arts under terms of the Consolidation Agreement with the City of Portland, nor to the Oregon Zoo operations by Council action.

The excise tax is Metro's primary General Fund revenue source. It supports the Council Office and transfers of indirect costs of associated central services. The tax also supports various planning, parks facility activities and MERC marketing efforts.

Almost 84 percent of all excise tax is generated on solid waste revenue. To increase revenue predictability, the Council changed the method by which the solid waste excise tax is calculated from a percentage of the tipping fee to a per-ton fee in 2000. For budgeting purposes, the revenue raised increases at the same rate as the Consumer Price Index. The Council may exceed the Consumer Price Index limitation if additional resources are deemed necessary during the budget review and adoption process.

The Metro excise tax is levied as a flat rate per-ton tax on solid waste disposal and as a percentage of all other authorized sales and services. The Metro excise tax is estimated to raise \$16.6 million in FY 2014-15. By Metro Code, the amount of the per-ton tax may be increased annually based on the Consumer Price Index. The flat-rate per-ton tax was consolidated into a single yield-based tax in FY 2010-11, folding in a number of individual per-ton rates which had been imposed at different times. The single rate approach increases predictability and moderates revenue swings in times of either increasing or decreasing tonnage. The consolidation did not change the charter limitation on expenditures. The consolidated rate for FY 2014-15 will be \$11.76 per ton, a decrease of 53 cents, effective July 1. The rate for all other authorized revenues, currently 7.5 percent, will not change unless amended by the Metro Council.

* In December 2000, the Council converted the excise tax levied on solid waste activities from 8.5% to a per ton rate. The per ton rate is set annually during the budget process. The FY 2014-15 budget excise tax rate is \$11.76 per ton.

** The budget reflects the Oregon Zoo Operations exemption from excise tax effective September 1, 2008.

****Regional Parks and Greenspaces and Building Management, previously listed separately are combined to form Parks and Environmental Svc-General Fund.

FY 2014-15 budget transfers

Interfund transfers are a significant part of the annual budget. Generally, transfers are made between funds when the revenue is received in one fund for an expenditure that occurs in another fund. Another primary reason for transfers is for a fund to pay for services provided by another fund. For example, the Solid Waste Revenue Fund transfers money to the Risk Management Fund for insurance coverage.

A transfer is an expenditure to the fund that is transferring the money out or buying services. A transfer is a resource to the fund that is receiving the money or selling the services. For every expenditure transfer there is a corresponding resource transfer. The expenditure of “Transfer to Risk Management Fund” in the Solid Waste Revenue Fund would show as a resource “Transfer from Solid Waste Revenue Fund” in the Risk Management Fund. The corresponding transfers must show the same dollar amount. Since the internal transfers are complex and can be difficult to understand and trace through the budget document, the following explanation is provided for each transfer, by fund.

From (Expenditures)	To (Resources)	Type	\$ Amount	Purpose
General Fund	Risk Management Fund	Indirect	\$768,867	Charges for insurance premiums and costs associated with the agency's liability, property, safety and worker's compensation programs.
	General Revenue Bond Fund (Debt Service Account)	Resource	\$1,765,393	Charges for debt service payments on Metro Regional Center and the parking structure. Charges are included in each department's indirect transfer to the General Fund and passed through to the General Revenue Bond Fund when debt service payments are due. Also includes transfer from the Oregon Zoo to repay debt issued to reconfigure parking lot and contribute to light rail station.
	MERC Fund	Resource	\$600,000	Transfer from the Metro Tourism Opportunity and Competitiveness Account designed to assist event facilities' competitiveness in attracting conventions from outside the region.
	MERC Fund	Resource	\$216,263	Subsidy from the General Fund toward the cost of agency central services.
	MERC Fund	Resource	\$321,000	Transfer to support possible work needed on the Headquarters Hotel project.
	General Asset Management Fund	Resource	\$1,968,575	Annual renewal and replacement contribution to provide for General Fund assets including Metro Regional Center, Oregon Zoo, Parks and Environmental Services, and Information Services.
	General Asset Management Fund	Resource	\$553,000	Transfer to the renewal and replacement subfund to support specific R&R projects in FY 2014-15.
	General Asset Management Fund	Resource	\$391,000	Transfer to the parks, zoo and general Capital Accounts to support new capital projects.
	Solid Waste Revenue Fund	Resource	\$139,777	Transfer to support agency Sustainability program.
	Solid Waste Revenue Fund	Interfund Loan	\$16,140	Year one interest payment on interfund loan from Solid Waste to support capital projects at the Oregon Zoo.

GASB 54 fund balance designations

Governmental Accounting Standards Board Statement 54 introduces a restructuring and redefinition of fund balance components for governmental fund types. Enterprise funds such as the Solid Waste and MERC funds are not included. The statement is intended to improve the usefulness of the amount reported in fund balance by providing more structured classification. To improve the reporting of fund balance, a hierarchy of fund balance classifications has been created based primarily on the extent to which governments are bound by constraints on resources reported in the funds. This approach is intended to provide users more consistent and understandable information about a fund's net resources.

The hierarchy of five possible classifications of fund balance is:

- Nonspendable - balances in permanent funds and inventories that are permanently precluded from conversion to cash.
- Restricted - constrained to a specific purpose by enabling legislation, external parties or constitutional provisions.
- Committed - constraints imposed by the government using the highest level of decision-making authority.
- Assigned - amounts intended for a specific purpose by a government's management.
- Unassigned - amounts available for any purpose.

Estimated July 1, 2014, fund balance designations are:

In addition, Metro has received authorization from the voters of the region for two longer-term general obligation capital programs – the Natural Areas program approved in November 2006 and the Oregon Zoo Infrastructure and Animal Welfare program approved in November 2008. With the approval of the bond programs, the Council authorized the addition of a number of positions specifically funded by bond proceeds. All bond funded positions are authorized for the duration of the program – both estimated to be eight to 10 years – and are evaluated annually during the budget process for continued need. The following positions were authorized for bond programs:

The objectives of Metro’s chart of accounts are to:

1. Conform to generally accepted accounting principles (GAAP) and Governmental Accounting Auditing and Financial Reporting (GAAFR) standards.
2. Establish concise account chartfields that will be consistent in all funds and departments.
3. Permit full grant and project accounting.
4. Meet specific accounting and reporting needs of all Metro departments.
5. Allow “roll-up” to higher summary levels for managerial analysis and public review.

The chart of accounts is currently made up of the following chartfield components: Account, Fund, Department, Program, Class, ProjectID, Sustainability, and Event and when placed together are referred to as a chartfield combination. For budgetary compliance reporting, the Fund, Department, Program and Account chartfields are required. The remainder of the chartfields is used for internal management reporting needs, with the Sustainability chartfield being required for all expenditure accounts.

Only definitions for the Account chartfield (and specifically, only the budgeted resources/revenues and uses/expenditures) are presented below. Fund definitions can be found in the adopted budget document fund narratives, as can many of the departmental definitions.

The chart of accounts presented below conforms to the requirements of Governmental Accounting Standards Board (GASB) Statement No. 34 and subsequent pronouncements.

ACCOUNT CHARTFIELD

The various account chartfields are presented below and are identifiable as a six digit number beginning with the digit 4 for revenues (or resources) and 5 for expenditures (or uses). This is a change from the prior year when a four digit chartfield was used, the change being required to conform the agency’s chart of accounts used for all Metro reporting units. Reporting roll-up relationships are represented on tree structures contained in Metro’s PeopleSoft financial management system; trees are structured to conform to the presentation (order) required by GAAP. The order of appearance of the account chartfields below is based upon their order of presentation for budget purposes, which generally follows a numerical sequence.

RESOURCES

GENERAL REVENUES

All revenues are general revenues unless they are required to be reported as program revenues (see category below). All taxes, even those levied for a specific purpose, are general revenues.

General Property Taxes: General property taxes are *ad valorem* taxes levied on an assessed valuation of real and/or personal property. The distinguishing characteristics of general property taxes are that the revenues are (1) derived from taxes, (2) levied by the government reporting entity and (3) assessed on the general property.

401000 Real Property Taxes–Current Year: Revenues received from *ad valorem* taxes assessed on real property within the Metro area, which is collected by the counties and remitted to Metro. This account reflects the collections assessed for the current fiscal year.

401500 Real Property Taxes–Prior Year: Revenues received from *ad valorem*

taxes assessed on real property within the Metro area, which is collected by the counties and remitted to Metro. This account reflects the collections on prior year assessments.

401800 Payments In Lieu of Property Taxes: Revenues received from the counties in lieu of property taxes (for example, Western Oregon Timber Tax, etc.).

401900 Interest and Penalties—Real Property Taxes: Interest earned on property tax receipts while in the county's treasury and remitted to Metro, as well as interest and penalties assessed to the taxpayer which are remitted to Metro.

Excise Taxes

405000 Excise Tax: Taxes imposed on Metro services and Metro-related revenues as defined in Metro Code to fund general government functions as prescribed.

405100 Excise Tax Rebates: A contra revenue account to segregate amounts collected on excise tax that are rebated to the taxpayer in accordance with any Metro Code approved rebate criteria. The balance of this account reduces the total reported for Excise Tax revenue in Metro's financial reports.

405500 Construction Excise Tax: An excise tax imposed on construction within the district as defined in Metro code.

405600 Construction Excise Tax Administration: Metro retains 2.5 percent of Construction Excise Tax collections to pay for administering the collections and grants.

Other Derived Tax Revenues

406000 Cemetery Revenue Surcharge: Amount assessed on cemetery revenues to provide funding for perpetual care of Metro's cemeteries.

Local Government Shared Revenues

413000 Hotel/Motel Tax: Revenue received through the City of Portland from Multnomah County based upon the agreed upon percentage of transient lodging taxes collected.

413200 Vehicle Rental Tax: This account records the amounts received as intergovernmental shared revenues from the Multnomah County Vehicle Rental Tax, a portion of which is shared by the County under the terms of an intergovernmental agreement—the Visitor Development Initiative (VDI).

413300 Visitor Development Fund Allocation: Amounts received under the intergovernmental agreement with Multnomah County from lodging and rental tax sources to be used for securing Oregon Convention Center business that generates hotel room and vehicle rental revenues.

413310 Enhanced Marketing Visitor Development Fund: Amount received under the intergovernmental agreement with Multnomah County from lodging and rental tax sources to be used for Oregon Convention Center enhanced national marketing. Upon receipt of funds this amount is paid to Travel Portland, which is responsible for the Oregon Convention Center national marketing program.

413500 Marine Board Fuel Tax: Tax revenues from the State of Oregon and Multnomah County from sales of marine fuel.

413900 Other Local Government Shared Revenue: Miscellaneous other tax revenue shared by another government with Metro.

414000 Local Government Service Fees: Revenues received from local governments for services provided under contract, such as Data Resource Center services.

PROGRAM REVENUES

Program revenues derive directly from the program itself or from parties outside Metro's taxpayers or citizenry, as a whole; and they reduce the net cost of the function to be financed from Metro's general revenues. This classification includes three categories of revenue: charges for services, program-specific operating grants and contributions and program-specific capital grants and contributions.

Program Operating Grants and Contributions: This revenue category includes program-specific operating grants and contributions.

Intergovernmental Revenue: Revenues from other governments in the form of grants, entitlements, shared revenues or payments in lieu of taxes. The grant revenues identified below must be analyzed closely to determine the appropriate classification of the revenue. Federal Grants consist of grant funds provided by the federal government, whereas State and Local Grants are funds provided by those respective jurisdictions from their own funds. Operating grants are contributions from another government to be used or expended for a specified purpose or activity. Capital grants are restricted by the grantor for the acquisition and/or construction of fixed assets. A grant may be received either directly from the granting government or indirectly as a pass-through from another government. Departments are cautioned to determine if money received from state or local governments is actually federal grant funds being passed through or used to fund the activity. Categorical grants are grants received from agencies whose programs are listed in the Catalogue of Federal Domestic Assistance (CFDA).

430100 Disposal Fees–Direct Haul: Fees charged to customers who are authorized by Metro to haul waste directly to a Metro designated disposal site.

430200 Disposal Fees–Unspecified: Revenues received from disposal charges where the components of the fee have not been designated by Council action in the rate-setting process.

430500 Regional System Fee: Fees charged to customers at Metro solid waste disposal sites to cover the costs of administering the Solid Waste program. This fee may also be assessed at non-Metro operated sites on waste generated within Metro's boundaries.

431000 Metro Facility Fee: Fees charged customers at Metro disposal sites to cover the cost of the Metro disposal system such as capital items directly related to these facilities.

431500 Regional Transfer Charge: Fees charged customers at Metro solid waste disposal sites to cover the cost of operating the transfer station system. This fee may also be assessed at non-Metro operated sites on waste generated within Metro's boundaries.

432500 Rehabilitation and Enhancement Fee: Fees required by state law (or Metro Code) to be collected to rehabilitate and enhance the areas surrounding the landfill or other disposal site.

433000 Transaction Fee–Manual: A fee assessed at Metro's disposal facilities on a per transaction basis when using a "manual" transaction processing methodology at the scalehouse.

433100 Transaction Fee–Automation: A fee assessed at Metro's disposal facilities on a per transaction basis when using an "automated scale" transaction processing methodology at the scalehouse.

433300 Uncovered Surcharge: A fee charged transfer station customers for arriving at scalehouse with an uncovered load.

433500 Host Fee: Fees assessed per Metro Code at non-Metro disposal facilities and remitted to Metro for pass-through to entities in the area where disposal facilities are sited.

434000 Tire Disposal Fee: Fees assessed for disposal of tires at Metro transfer station facilities.

434200 Organics Fee: Fees assessed for disposal of organic wastes at Metro transfer stations.

434300 Organics Fee - Residential: Fees assessed residential (non-commercial) customers for disposal of organic wastes at Metro transfer stations.

434500 Yard Debris Disposal Fee: Fees assessed for disposal of yard debris at Metro transfer station facilities.

434600 Curbside Yard Debris Fee: Fees collected for curbside yard debris; a subcategory of 434500.

435000 Orphan Site Account Fee: Fees collected to pay off debt incurred by the State of Oregon to clean up orphaned waste sites (assessed only on landfill waste).

435500 Department of Environmental Quality Promotion Fee: Fees collected to fund state-wide promotion of recycling by the State of Oregon's Department of Environmental Quality (assessed on waste disposed at all sites).

436000 Refrigeration Unit Disposal Fee: Fees collected at Metro facilities for disposal of refrigeration units.

436500 Household Hazardous Waste Disposal Fee: Fees charged for the disposal of household hazardous waste at Metro facilities.

436800 Paint Recycling Fees: Fees charged to customers for recycling paint.

436900 PaintCare Revenue: Revenues received under the state's PaintCare program as stipulated in the contractual agreements for recycled paint processing.

437000 Conditionally Exempt Generator Fees: Revenues received for hazardous waste disposal from entities that generate small quantities of such waste as defined by Metro policy.

440000 Salvage Revenue: Revenue received from the sale of recyclable material.

2040: See *Metro 2040 Growth Concept*.

Accrual Basis of Accounting: Accounting method in which revenue is recognized when it is earned, regardless of when cash is received; expenses are recognized when the associated liability is incurred, regardless of when cash is paid.

Ad Valorem Tax: A tax based on the assessed value of taxable property.

AFSCME: See *American Federation of State, County, and Municipal Employees*.

American Federation of State, County, and Municipal Employees (AFSCME): An organized labor bargaining unit.

Appropriation: The legal spending authority approved by Metro Council to fund Metro activities. Can be changed only by the action of the Council and in some instances is further restricted by Oregon budget law.

Arbitrage: Interest earned from the proceeds of bond issues in which the rate of interest earned is greater than the interest rate owed on the bonds. Arbitrage earnings must be reported to the Internal Revenue Service.

Arbitrage Rebate: Money owed to the Internal Revenue Service from interest earnings on bond proceeds that exceed the interest (bond yield) owed on the bonds.

Assessed Value: The value set by a county assessor on real and personal taxable property as a basis for levying taxes.

Ballot Measure 5: Amendment to the Oregon Constitution approved by the voters in 1990, which limits property tax rates. This is now Article XI, Section 11(b) of the Oregon Constitution.

Ballot Measure 37: Constitutional amendment approved by voters in November 2004. Measure 37 requires that governments pay owners, or waive enforcement by repealing, changing or not applying restrictions, when certain land use restrictions reduce owners' property value.

Ballot Measure 47: Constitutional amendment approved by voters in November 1996. Ballot Measure 47 rolled back property taxes on individual properties to either the FY 1994–95 tax or the FY 1995–96 tax less 10 percent, whichever was less. The measure allowed increases of no more than 3 percent per year in property tax bills in ensuing years and limited fee increases without voter approval. Ballot Measure 47 was to take effect in FY 1997–98, but was repealed in May 1997 by Ballot Measure 50.

Ballot Measure 50: A Constitutional amendment referred to the voters by the Legislature in May 1997. Ballot Measure 50 repealed and replaced Ballot Measure 47. Ballot Measure 50 rolled assessed values back to FY 1994–95 levels less 10 percent and allows them to increase no more than 3 percent per year. Existing operating tax levies (including tax bases and levies approved in November 1996) were reduced by a statewide average of 17 percent and were converted to rate-based levies. Ballot Measure 50 took effect in FY 1997–98.

Beginning Fund Balance: Net resources (cash and non-cash) available in a fund at the beginning of a fiscal year, carried over from the prior fiscal year.

Bonds: A written promise to pay a sum of money at a future date, with interest paid at an agreed rate on a set schedule. Bonds are typically used by governments to finance long-term capital improvements.

Brownfield: Land previously used for industrial purposes or certain commercial uses. The land may be contaminated by low concentrations of hazardous waste or pollution, and has the potential to be reused once it is cleaned up.

Budget: A plan for receiving and spending money in a fiscal year. The budget is the financial plan for Metro's allocation of resources to provide services, accomplish Metro's objectives and perform activities.

Budget Calendar: The schedule of key dates and major events in the budget process.

Budget Committee: The Metro Council sits as a special committee under Oregon Budget Law to review the Chief Operating Officer's proposed budget and to adopt the budget for the following fiscal year.

Budget Phases: Metro's annual budget is developed in four phases, as follows:

Requested: Requests from departments for the following year's budget.

Proposed: The Chief Operating Officer's recommended budget, which is reviewed by the Council Budget Committee.

Approved: The budget and tax levy as approved by the Council that is forwarded to the Multnomah County Tax Supervising and Conservation Commission for its certification.

Adopted: The budget as adopted by the Council in the annual budget ordinance, following certification by the Tax Supervising and Conservation Commission.

Budget Program: A portfolio of products, services, funding and performance measures that links to Council goals within a performance-based program budget. A performance-based program budget links funding to agency results affecting external audiences. Metro budget programs include varying levels of programs, projects and operations.

Budget Program Performance Measures: Designed to measure the effectiveness of Metro budget programs. These outcome-based measures should specifically track Metro's efforts relative to achieving regional goals. Budget program performance measures provide feedback for strategic guidance in aligning budget programs with regional goals. Regularly provided to Council in the quarterly management report.

Capacity ordinance: Every five years Metro Council must examine the capacity of the region to accommodate the next 20 years' growth and, if found lacking, a plan for achieving it.

CAFR: See *Comprehensive Annual Financial Report*.

Capital Improvement Plan (CIP): a long-range plan prepared annually to identify capital projects to be funded over a five-year period. The five-year capital budget identifies each project, the year in which it will be started or acquired, the yearly expenditures of the project and proposed method of financing. The capital budget is reviewed and approved by the Chief Operating Officer and the Metro Council. Projects approved for the first year of the plan become part of Metro's budget for the ensuing year and may be modified in subsequent years. The document is included in the agency budget document. The capital budget and the annual operating budget document are presented to the Council by the Chief Operating Officer for its consideration and adoption.

Capital Outlay: A major expenditure category that includes appropriations for the purchase or improvement of land and buildings, and for furniture and equipment with a cost of more than \$5,000 and a useful life of one or more years.

Capital Project: A capital project is any physical asset acquired, constructed or financed by Metro, with a total capital cost of \$100,000 or more and a useful life of at least five years. It can include land, facilities, trails, roads, other infrastructure,

major equipment and parts. It can include renewal and replacement projects as well as new acquisitions and construction projects. Acquisition or construction of a capital project may be staged over several years.

Cash Basis of Accounting: Accounting method under which transactions are recognized when cash changes hands.

Centers and Services: Work units organized to serve budget programs and/or provide internal services (also referred to “as departments”).

Central Services: Services provided internally to Metro departments by another Metro department or departments. These are primarily business services, such as accounting, risk management, information services, human resources and legal services.

CET: See *Construction Excise Tax*.

Chart of Accounts: A coding framework that categorizes various financial information into a logical structure which is the basis and foundation for all financial reporting within the agency.

CII: See *Community Investment Initiative*.

CIP: Capital Improvement Plan, See *Five-Year Capital Budget*.

CIS: See *Community Investment Strategy*.

COLA: Cost of Living Adjustment.

Commission: An appointed body established in the Metro Code responsible for daily operations of a Metro operation (specifically MERC).

Community Investment Initiative (CII):A component of the Community Investment Strategy, the Community Investment Initiative is led by a Leadership Council consisting of business leaders, community nonprofit representatives, educators and former elected officials. The Leadership Council’s mission is to build the region’s economy by investing in infrastructure to create living-wage jobs. The Leadership Council and Metro staff work together to craft an integrated federal, state, regional and local investment strategy to help close the gap between the region’s needs and its financial means.

Community Investment Strategy (CIS): The Community Investment Strategy (CIS) is a coordinated set of policies and investments designed to achieve the six desired regional outcomes. The strategy calls for better leveraging of public and private resources, increasing regional collaboration and focus and spurring innovative practices to realize the goals of the 2040 Growth Concept. Community Investment Strategy work recognizes that our region is failing to maintain the public structures that support our quality of life, and that we do not have the resources to make the investments we need to protect our livability as we grow.

Compensation Plan: A listing of all Metro position classifications, their classification number and the rates of pay authorized.

Component Unit: Legally separate organization for which elected officials of the primary government are financially accountable. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity’s statements to be misleading or incomplete, in accordance with GASB Statements 14 and 39.

Comprehensive Annual Financial Report (CAFR): The official public record of Metro’s financial condition and results of operations, prepared at the close of each fiscal year, subject to audit.

Compression: The effect produced if the combined (and otherwise authorized) property tax rates of all non-school jurisdictions in a taxing area exceed the limit of

\$10 tax per \$1000 in assessed value, as required by the Oregon Constitution since the passage of Ballot Measure 5. The result of such an excess is reduced proportionally to each general government jurisdiction's rate so the total rate does not exceed \$10.

Concept Plan: See *Metro Region 2040 Growth Concept*.

Connecting Green: Connecting Green was the initial effort to create this country's best parks and trails system. Guided by a vision of making parks, trails and natural spaces as important to our core infrastructure as roads, power, sewage and schools, the effort plans to deliver a healthier, happier population, sustainable, vibrant metropolitan expansion and a cleaner, richer ecosystem. Renamed "The Intertwine" in FY 2009-10.

Construction Excise Tax (CET): Effective July 1, 2006, Metro imposed a 0.12 percent Construction Excise Tax on eligible construction throughout the region to fund concept planning for areas brought into the Urban Growth Boundary in 2002 and 2004. All jurisdictions issuing permits have signed intergovernmental agreements to collect the tax on Metro's behalf. The CET was extended for five years in 2009.

Contingency: A major expenditure category that includes appropriations set aside for unforeseen expenses. The Council must approve, by ordinance, any transfers from a contingency account to an expenditure account.

Contract: An agreement in writing between two parties where there is an exchange of goods or services. A contract is enforceable by law.

COO: Chief Operating Officer.

Cost Allocation Plan: A document prepared each fiscal year that identifies costs for central services and assigns them to operating units based on the best estimate of use or benefit received. The plan is used in preparing the annual budget to determine the amount of interfund transfers for the central service funds.

CPI: Consumer Price Index.

CRAG: Columbia Region Association of Governments.

Data Resource Center (DRC): The division of Metro's Research Center that supplies economic and demographic information for Metro's planning functions, and that manages the Regional Land Information System (RLIS).

DBE: See *Disadvantaged Business Enterprise*.

Debt Service: 1. Payment of principal and interest on bonds, interest-bearing warrants and short-term notes; 2. A major expenditure category that includes all categories of debt service payments.

DEIS: Draft Environmental Impact Statement.

Department: A functional unit of Metro.

Department of Environmental Quality–Oregon (DEQ): The Oregon Department of Environmental Quality, a state agency, which regulates Metro's solid waste disposal system and aspects of Metro planning operations such as air quality and water quality.

DEQ: See *Department of Environmental Quality*.

Direct Costs: The amount of charges to a department for specific services provided by another department.

Disadvantaged Business Enterprise (DBE): A for-profit, small business concern (a), that is at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged or, in which 51 percent of the stock is owned by one or more such individual; and (b), whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

DRC: See *Data Resource Center*.

Dry Waste: Non-putrescible (does not decay) waste, including demolition debris.

EBMS: See *Event Business Management System*.

EEO: Equal Employment Opportunity.

Emerging Small Business (ESB): There are two tiers for certification as an ESB in the State of Oregon: 1. Tier 1 program participation is restricted to Oregon-based firms with 20 or fewer employees whose average annual gross receipts over the last three years have not exceeded \$1.5 million for construction firms and \$600,000 for non-construction related firms. Tier 2 program participation is restricted to Oregon-based firms with 30 or fewer employees whose average annual gross receipts over the last three years have not exceeded \$3 million for construction firms and \$1 million for non-construction related firms. An ESB must be properly licensed, legally registered and an independently-owned Oregon firm.

Ending Fund Balance: Unspent and unobligated net resources at the end of a fiscal year. Usually generated by cash reserves and under-spending of appropriations.

Enhancement Grants: Grants for community projects made to local communities that contain major solid waste disposal facilities. There are four such grant programs (for Forest Grove, Metro Central, Metro South and St. Johns), funded out of the Community Enhancement Fund by a surcharge of \$0.50 per ton on waste deposited at the facility.

Enterprise Activity: Business conducted by Metro in which a customer pays a fee or charge for a service or product.

Enterprise Revenues: Revenues earned through the sale of Metro goods or services, including admission fees, building rentals, food and drink at Metro facilities; solid waste fees for disposal and waste processing.

EPA: Environmental Protection Agency (Federal agency).

ESB: See *Emerging Small Business*.

Event Business Management System (EBMS): an integrated software for event based programs.

Excise Tax: A tax that is paid by users of Metro facilities for the privilege of the use of the facilities, equipment, systems, or services owned, licensed, franchised or operated by Metro. For additional information, see Appendices, Excise Tax.

Expenditure: The actual outlay of, or obligation to pay, cash.

Expo: *Portland Expo Center*; located at 2060 North Marine Drive in Portland, consists of 333,000 square feet of flat floor space in four adjacent buildings for public exhibits and shows.

Ex Situ research: Research conducted on wildlife that is not in its native range.

FRS: Finance and Regulatory Services.

Fiscal Year: Metro's annual budget and accounting period, from July 1 through June 30.

FMLA: Family Medical Leave Act.

Fringe Benefits: Non-salary employee benefits provided in accordance with state and federal law, union contracts and/or Council policy. Such benefits for regular employees include pension plans (including PERS and Social Security); medical, dental, vision and life insurance; vacation, holiday and sick leave; workers' compensation and unemployment insurance. Temporary employees receive only those benefits mandated by law, such as Social Security, workers' compensation and unemployment insurance.

FTA: Federal Transit Administration (formerly UMTA, Urban Mass Transit Administration).

Full-time Equivalent (FTE): The ratio of time expended in any position to that of a full-time position. One person working full-time for one year is one FTE.

Functional Plan: Urban Growth Management Functional Plan.

Fund: An independent fiscal and accounting entity with a self-balancing set of accounts that is segregated for the purpose of carrying on specific activities or attaining certain objectives. Metro maintains several types of funds, including:

General: Revenues may be spent for any legitimate Metro purpose.

Enterprise: A fiscal and budgeting entity that accounts for a specific Metro operation that earns a substantial portion of its money through enterprise activities. An example of a Metro enterprise fund is the Solid Waste Revenue Fund.

Special Revenue: Resources are restricted to expenditures for specific purposes, generally in support of the department that manages the fund.

Capital Projects: Dedicated to acquisition, construction or improvement of the fixed assets managed by a particular department.

Internal Service: Accounts for the financing of goods or services provided by a central service department, with revenues coming from benefiting units on a cost-reimbursement basis.

Debt Service: Dedicated to paying debt service obligations.

Trust: Expenditures are dedicated to a specified purpose, as stipulated by the entity or entities that provided money to establish the fund.

Fund Balance: The difference between a fund's assets and its liabilities; a fund's net resources.

FY: Fiscal Year.

GAAP: See *Generally Accepted Accounting Principles*.

GASB: See *Governmental Accounting Standards Board*.

General Fund: See description under *Fund*.

General Obligation Bonds: Bonds that are backed by the full faith and credit of the issuing government. General obligation bonds must be approved by the voters, and are paid through property taxes.

General Renewal and Replacement Fund: The General Renewal and Replacement Fund was created as a separate fund in FY 2008-09 to provide for Metro's general assets including the Oregon Zoo, Regional Parks, Metro Regional Center and Information Services. Now a subfund of the General Asset Management Fund.

Generally Accepted Accounting Principles (GAAP): A standard established by the Accounting Practices Board of the American Institute of Certified Public Accountants. These rules, conventions and procedures define accepted accounting practices.

GFOA: Government Finance Officers Association.

GIS: Geographical Information System.

Governmental Accounting Standards Board (GASB): A private, non-profit organization established in 1984; responsible for setting generally accepted accounting principals for state and local governments.

Grant: A contribution of assets by one entity to another. Grants are generally designated for a specific expenditure or project.

Greater Portland Pulse: Greater Portland Pulse is a joint Metro/Portland State University collaborative effort to establish, maintain and utilize a common set of regional performance indicators and data that tracks the interconnected social equity, economic and environmental objectives for Clackamas, Washington, and Multnomah

Counties in Oregon and Clark County, Washington. The indicators are intended to guide policy and resource decisions across nine key community livability categories including the economy, education, access to culture, civic engagement, health and safety, access and mobility, housing and the environment (all within an equity framework).

Greater Portland Inc (GPI): Greater Portland Inc. is the Portland-Vancouver regional economic development partnership collaboratively driving quality economic expansion and job creation. Founded as a public/private effort, the region's private sector industry leaders, elected officials and economic development groups have joined together to represent and further the economic future of the entire region. With its state and local economic development partners, Greater Portland Inc. is advancing a coordinated regional economic development strategy, a coordinated brand to promote the region's assets, and a coordinated business retention, expansion, and targeted recruitment program to stimulate capital investment and job creation in the region.

Greenhouse gases: Gases in an atmosphere that absorb and emit radiation within the thermal infrared range.

Greenspaces: Open areas, usually in public ownership, that are available for public use. While mostly undeveloped or developed only minimally, greenspaces may also include parks, cemeteries, natural areas and golf courses.

Greenspaces Master Plan: The Council-adopted document that establishes policies and lays out long-range plans and goals for Metro's program of acquiring, preserving and developing open spaces for public use and protection of wildlife habitat.

Growth Concept: See *Metro 2040 Growth Concept*.

High Capacity Transit (HCT): High capacity transit includes any form of public transit that has an exclusive right of way, a non-exclusive right of way or a possible combination of both. High capacity transit includes options such as light rail, commuter rail and bus rapid transit; these and others will be examined as part of the High Capacity Transit System Plan.

Household Hazardous Waste: Any discarded chemical materials or products that are or may be hazardous or toxic to the public or the environment and are commonly used in or around households.

International Alliance of Theatrical State Employees (IATSE): An organized labor bargaining unit.

IGA: See *Intergovernmental Agreement*.

Indirect Costs: The central overhead costs (i.e., payroll, accounts payable, legal counsel) necessary for the operation of a department or execution of a grant and not directly attributable to a specific function or grant. These costs are computed and charged to the appropriate department or grant based on a cost allocation plan.

In Situ research: Research conducted with wildlife in its native range.

Interfund Transfer: 1. An amount of money distributed from one fund to finance activities in another fund. The most common types of interfund transfers are for central services, payment for specific services performed or for general financial support. 2. A major expenditure category that accounts for all movement of money from one fund to another.

Intergovernmental Agreement (IGA): A signed agreement between two or more units of government, often approved by governing bodies, that provides for the exchange of goods or services between the governments.

Intergovernmental Revenue: Funds received from a unit of government other than Metro in support of a Metro activity.

The Intertwine: A network of integrated parks, trails and natural areas. The Intertwine provides opportunities to preserve natural areas, open spaces, water and wildlife habitat.

IT: Information Technology.

IS: Information Services.

Joint Policy Advisory Committee on Transportation (JPACT): This committee consists of elected and appointed officials from jurisdictions throughout the region who are charged with developing and approving regional transportation plans.

KFD: Killingsworth Fast Disposal (landfill site).

Latex Paint Facility: Metro facility which treats, recycles and disposes of latex paint.

Leadership in Energy and Environmental Design (LEED): A Green Building Rating System; a voluntary, consensus-based national standard for developing high-performance, sustainable buildings; developed by U.S. Green Building Council, representing all segments of the building industry.

Line Item: An individual object of expenditure. See *Chart of Accounts*.

Line Item Budget: An increasingly rare form of government budgeting in which proposed expenditures are appropriated by individual objects of expenditure within a fund or department.

LIU: Laborers International Union.

Major Expenditure Category: One of six classifications of spending, including personal services, materials and services, debt service, capital outlay, interfund transfers and contingency.

Master Plan: A comprehensive plan for a program or facility that establishes policies and goals for the program or facility, for a period of five years or longer.

Material Recovery Facility (MRF): A waste facility that receives commingled loads of waste and sorts them into recyclable and non-recyclable components.

Materials and Services (M&S): A major expenditure category that includes contractual and other services, materials, supplies and other charges.

MAX: TriMet's Light Rail system, Metropolitan Area Express, connects Portland, Gresham, Beaverton, Hillsboro, Clackamas and the Portland Airport.

MBE: See *Minority Business Enterprise*.

MCCI: Metro Committee for Citizen Involvement.

Minority Business Enterprise (MBE): A business concern 1. that is at least 51 percent owned by one or more minority individuals, or, in the case of a publicly owned business, at least 51 percent of the stock is owned by one or more minority individuals; and 2. whose daily business operations are managed and directed by one or more of the minority owners.

Measure 5, Measure 37, Measure 47, Measure 50: See *Ballot Measures*.

MERC: See *Metropolitan Exposition Recreation Commission*.

Metropolitan Exposition Recreation Commission (MERC): An appointed seven-member board and its staff, which is responsible for daily operations of the Oregon Convention Center, Portland Center for the Performing Arts and the Portland Expo Center.

Metro 2040 Growth Concept: Defines regional growth and development in the Portland Metropolitan region. The growth concept was adopted in the Region 2040 planning and public involvement process in December 1995.

Metro Central: Metro's solid waste transfer station at 6161 NW 61st Avenue, Portland.

Metro Export Initiative (MEI): a strategy sponsored by Greater Portland Inc. and developed in cooperation with the Brookings Institute that seeks to double regional exports in the next five years.

MetroPaint: A high quality, affordable, 100 percent recycled latex paint produced in Portland, Oregon, since 1992. Metro produces and sells recycled latex paint in 5-gallon pails and 1-gallon cans.

Metro Regional Center: Metro's governmental headquarters, located at 600 NE Grand Avenue, Portland.

MetroScope: MetroScope is a set of decision support tools used by Metro and the City of Portland to model changes in measures of economic, demographic, land use and transportation activity. MetroScope comprises four models and a set of GIS (geographic information system) tools that keep track of the location of development activities and produce visual representations (maps) from the models' output.

Metro South: Metro's solid waste transfer station at 2001 Washington St., Oregon City.

Modified Accrual Basis of Accounting: The accrual basis of accounting adapted to the governmental fund type under which revenues are recognized when they become both measurable and available to finance expenditures of the current period. Expenditures are generally recognized when the related fund liability is incurred.

MPAC: Metro Policy Advisory Committee.

MPO: Metropolitan Planning Organization.

MRF: See *Material Recovery Facility*.

MTAC: Metro Technical Advisory Committee.

MTIP: Metropolitan Transportation Improvement Program.

MTOCA: Metropolitan Tourism Opportunity and Competitiveness Account.

MTP: Metropolitan Transportation Plan (Clark County, Washington).

Natural Areas Program (2006): Program designed to conserve a regional system that protects the very best remaining fish and wildlife habitats, lands around local rivers and streams that are important to water quality and natural areas threatened by urban development. It establishes target areas for protection by incorporating some of the target areas established in the 1995 open spaces, parks and streams bond measure and adding new areas that have been recognized as priorities during the past decade.

Natural Areas Bond Measure: A voter-approved bond measure passed in November 2006. The \$227.4 million bond measure protects natural areas and lands near rivers and streams throughout the metro region, safeguarding the quality of our water while managing the impacts of growth and maintaining the area's quality of life for future generations.

Nature in Neighborhoods: A regional habitat protection, restoration and greenspaces program that inspires, strengthens, coordinates and focuses the activities of individuals and organizations with a stake in the region's fish and wildlife habitat, natural beauty, clean air and water and outdoor recreation.

OCC: See *Oregon Convention Center*.

ODOT: See *Oregon Department of Transportation*.

OECD: See *Oregon Economic and Community Development Department*.

OMA: Office of Metro Attorney.

One-time Revenue: A source of funding that cannot reasonably be expected to recur. Examples include single-purpose grants, use of reserves and proceeds from the sale of property or other assets.

Open Spaces: Undeveloped land, preserved for its natural, environmental or recreational benefits.

Open Spaces Bond Measure: The Metro bond measure approved by the voters in 1995, authorizing \$135.6 million for public acquisition of open spaces and natural areas in and near the Metro region.

Open Spaces Program: Metro's program of acquiring and preserving open spaces and natural areas. The program is administered by the Sustainability Center and funded by bond proceeds through the Open Spaces Fund.

Oregon Convention Center (OCC): The Oregon Convention Center, located at 777 N.E. Martin Luther King Jr. Boulevard in Portland, consists of 50 meeting rooms and 255,000 square feet of exhibition space.

Oregon Department of Transportation (ODOT): A department of the Oregon state government responsible for systems and transportation.
