- 12. In accordance with Section 2.02.125 of the Metro Code, the Metro Council hereby authorizes personnel positions and expenditures in accordance with the Annual Budget adopted by Section 1 of this Ordinance, and hereby appropriates funds for the fiscal year beginning July 1, 1997, from the funds and for the purposes listed in the Schedule of Appropriations, Exhibit C.

Portland, Oregon 97232

#### Dear Council Members:

The Tax Supervising and Conservation Commission met on June 12, 1997 to review, discuss and conduct a public hearing on the Metro 1997-98 Annual Budget. This hearing was conducted pursuant to ORS 294.605-705 to confirm compliance with applicable laws and to determine the adequacy of estimates necessary to support the efficient and economical administration of the district.

The 1997-98 budget, filed May 14, 1997 is hereby certified by majority vote of members of the Commission with no objections and the following recommendations. Aside from the exceptions noted, estimates were judged to be reasonable for the purpose shown and the document was found to be in substantial compliance with the law.

#### Recommendations:

#### I. Revenue Estimates - Property Taxes

Budgeted property tax revenue appears accurate. We estimate that Metro's tax base collections under Measure 50 will range between \$5.7 and \$5.9 million. However, it's very difficult if not impossible to accurately estimate the exact property tax loss -at least at this point in time. We recommend you simply closely monitor property tax collections next year as they relate to budget.

#### 2. Use of Dedicated Revenue

#### a. MERC Operating Fund

We noted that the operations of Civic Stadium, Portland Center for the Performing Arts, Oregon Convention Center, Expo Center and MERC Administration are now all being budgeted within one combined fund. While we support any efficiencies gained from the consolidation, we also are aware of the legal necessity to continue to segregate the related revenues and expenditures by facility. Staff has indicated that internal controls are in place to ensure a proper intra-fund accounting of revenues and expenditures. We can't emphasize enough the importance of these controls. Also, we request that future budgets forwarded to TSCC for review include the intra-fund breakout of revenues and expenditures - much like Metro already does within various of its other funds.

Councilors Metro June 12, 1997 Page 2

#### b. MERC Renewal and Replacement Fund

We note that the allowable use of the Multnomah County transient lodging taxes has been expanded to include all MERC facilities. Does the expansion also apply to previous receipts -which at time of collection were restricted for use only at the Oregon Convention Center? It's our understanding that existing MERC Renewal and Replacement Fund reserves have in fact been earmarked for the Convention Center. If it hasn't done so already, Metro may wish to establish a formal policy guiding the use of these resources.

#### c. Risk Management Fund Interest Revenue

The budget message indicates that approximately \$175,000 in MERC support charges were offset by interest income on specific fund reserves. It's our understanding that the majority of the environmental impairment fund's balance was generated through charges to the Solid Waste Revenue Fund. Therefore, it seems reasonable to assume that any benefit from an over-funding of this reserve, including the interest thereon, should either accrue back to the charged department, or at a minimum be used to offset <u>all</u> department risk charges -not just MERC's. We recommend that you re-evaluate the reasonableness of this funding mechanism.

#### 3. Funding of OMSI Contribution

We noted that the 97/98 General fund Special Appropriation budget included \$100,000 donation set aside for OMSI. We realize that Metro has jurisdiction over matters of metropolitan concern. And, that the support of regional non-profit organizations is not unprecedented -as witnessed by past and planned future support of the Regional Arts and Culture Council. We recommend that you simply monitor the nature and extent of these type expenditures. Metro may wish to develop a policy to help guide it in determining when to allocate resources for projects such as these in the future - if it hasn't done so already. Care should be taken to ensure that future expenditures are consistent with statutory and charter limitations.

Re:

RESPONSE TO FY 1997-98 TSCC CERTIFICATION LETTER

Metro is in receipt of letter dated June 12, 1997, from the Tax Supervising and Conservation Commission reporting the results of the Commission's review of Metro's Approved Budget. This review was performed under the provisions of Oregon Revised Statutes 294.605 through 294.705. The law provides, in part, that the Commission must review Metro's approved budget prior to the date Metro adopts its budget.

The Commission has certified Metro's approved budget for the fiscal year 1997-98, and has made several recommendations regarding Metro's budget and it's financial policies. Metro's responses to the Commission recommendations are as follows:

1. Revenue Estimates -- Property Taxes Budgeted property tax revenue appears accurate. We estimate that Metro's tax base collections under Measure 50 will range between \$5.7 and \$5.9 million. However, it's very difficult, if not impossible, to accurately estimate the exact property tax loss -- at least at this point in time. We recommend you simply closely monitor property tax collections next year as they relate to budget.

### Response:

Metro is painfully aware of the difficulties in projecting FY 1997-98 tax receipts. The FY 1997-98 budget contains our best estimate at this time, though we assume that the actual amount will vary depending upon the provisions of implementing legislation yet to be adopted and the application of that legislation by the Oregon Department of Revenue. Metro will continue to monitor the situation closely and will be developing financial strategies to deal with any variation in actual receipts.

In addition to the problems with projecting estimated property tax base collections, we are also very concerned about possible delays in actual property tax collections due to delays in sending out property tax notices. We will be requesting authority for an interfund loan in our budget adoption ordinance to ensure that we will be able to make debt service payments on our General Obligation debt when due.

#### 2. Use of Dedicated Revenue

a. <u>MERC Operating Fund</u> We note that the operations of Civic Stadium, Portland Center for the Performing Arts, Oregon Convention Center, Expo Center, and MERC Administration are now all being budgeted within one combined fund. While we support any efficiencies gained from the consolidation, we also are aware of the legal necessity to continue to segregate the related revenues and expenditures by facility. Staff has indicated that internal controls are in place to ensure a proper intra-fund accounting of revenues and expenditures. We can't emphasize enough the importance of these controls. Also, we request that future budgets forwarded to TSCC for review include the intra-fund breakout of revenues and expenditures -- much like Metro already does within various of its other funds.

#### Response:

All accounting for revenues and expenditures for each of the MERC facilities will be tracked separately within Metro's financial system. In addition, the Metro Council has directed MERC to continue to submit its budget request at the facility level, even though operations will be formally appropriated at the fund level. This information will be available in Metro's budget document.

b. <u>MERC Renewal and Replacement Fund</u> We note that the allowable use of the Multnomah County transient lodging taxes has been expanded to include all MERC facilities. Does the expansion also apply to previous receipts -- which at the time of collection were restricted for use only at the Oregon Convention Center? It's our understanding that existing MERC Renewal and Replacement reserves have in fact been earmarked for the Convention Center. If it hasn't done so already, Metro may wish to establish a formal policy guiding the use of these resources.

#### Response:

The restriction on previous transient lodging tax receipts was not specifically addressed by Multnomah County when it broadened the use of those resources. Logically, however, we assume that the broadened use would apply to previously collected receipts. In point of fact, however, the existing renewal and replacement reserve is dedicated to the Oregon Convention Center. In the future, as MERC builds renewal and replacement reserves for the other MERC facilities, additional accounts will be established within the MERC Renewal and Replacement Fund to track those reserves separately.

c. <u>Risk Management Fund Interest Revenue</u> The budget message indicates that approximately \$175,000 in MERC support charges were offset by interest

income on specific fund reserves. It's our understanding that the majority of the environmental impairment fund's balance was generated through charges to the Solid Waste Revenue Fund. Therefore it seems reasonable to assume that any benefit from the over-funding of this reserve, including the interest thereon, should either accrue back to the charged department, or at a minimum be used to offset all department risk charges -- not just MERC's. We recommend that you re-evaluate the reasonableness of this funding mechanism.

#### Response:

After TSCC staff first raised this issue, we again reviewed the establishing ordinance for the Risk Management Fund and past practices. We found that our use of interest earnings in FY 1997-98 is consistent with both the ordinance and past practice. We should also note that although the budget message addressed only \$175,000 of the interest earnings from the risk reserves, in fact we have used a total of \$340,000 in FY 1997-98 to provide benefit to all departments except Regional Environmental Management. Last year, the benefit was directed exclusively to Regional Environmental Management, so over time, we have used these earnings to the benefit of all departments. Taking a longer view, as we have done, ensures equity over time while allowing us to direct funds to areas of greatest need in any one year.

3. <u>Funding of OMSI Contribution</u> We noted that the 97/98 General Fund Special Appropriation budget included \$100,000 donation set aside for OMSI. We realize that Metro has jurisdiction over matters of metropolitan concern. And, that the support of regional non-profit organizations is not unprecedented — as witnessed by past and planned future support of the Regional Arts and Culture Council. We recommend that you simply monitor the nature and extent of these type expenditures. Metro may wish to develop a policy to help guide in determining when to allocate resources for projects such as these in the future — if it hasn't done so already. Care should be taken to ensure that future expenditures are consistent with statutory and charter limitations.

#### Response:

The Special Appropriation to OMSI is a one-year-only contribution, contingent upon contributions from Multnomah County and the City of Portland. The TSCC has raised legitimate issues with this contribution, and we will continue to monitor this and any similar future appropriations as the TSCC has suggested.

#### STAFF REPORT

CONSIDERATION OF ORDINANCE NO. 97-679 ADOPTING THE ANNUAL BUDGET FOR FISCAL YEAR 1997-98, MAKING APPROPRIATIONS AND LEVYING AD VALOREM TAXES; AND DECLARING AN EMERGENCY

Date: February 4, 1997 Presented by: Mike Burton

**Executive Officer** 

#### **FACTUAL BACKGROUND AND ANALYSIS**

I am forwarding to the Council for consideration and approval my proposed budget for Fiscal Year 1997-98.

Council action, through Ordinance No. 97-679, is the next step in the process for the adoption of Metro's operating financial plan for the forthcoming fiscal year. Final action by the Council to adopt this plan must be completed by June 30, 1997.

Oregon Revised Statutes 294.635, Oregon Budget Law, requires that Metro prepare and submit Metro's approved budget to the Tax Supervising and Conservation Commission by May 15, 1997. The Commission will conduct a hearing during June 1997 for the purpose of receiving information from the public regarding the Council's approved budget. Following the hearing, the Commission will certify the budget to the Council for adoption and may provide recommendations to the Council regarding any aspect of the budget.

Once the budget plan for Fiscal Year 1997-98 is adopted by the Council, the number of funds and their total dollar amount and the maximum tax levy cannot be amended without review and certification by the Tax Supervising and Conservation Commission. Adjustments, if any, by the Council to increase the level of expenditures in a fund are limited to no more than 10 percent of the total value of any fund's appropriations in the period between Council approval and adoption.

Exhibits B and C of the Ordinance will be available at the public hearing on February 20, 1997.

### **EXECUTIVE OFFICER'S RECOMMENDATION**

The Executive Officer recommends that the Council conduct a public hearing on Ordinance No. 97-679. The Executive Officer recommends that the Council schedule consideration of the proposed budget and necessary actions to meet the key dates as set out in Oregon Budget Law described above.
