

Metro

Adopted budget

FY 2020-21

If you picnic at Blue Lake or take your kids to the Oregon Zoo, enjoy symphonies at the Schnitz or auto shows at the convention center, put out your trash or drive your car – we’ve already crossed paths.

So, hello. We’re Metro – nice to meet you.

In a metropolitan area as big as Portland, we can do a lot of things better together. Join us to help the region prepare for a happy, healthy future.

Stay in touch with news, stories and things to do.

Metro's adopted budget for FY 2020-21 is provided in one volume.

Budget message

By law the budget message is given at the time the budget is proposed and identifies any significant changes from one year to the next. The Metro Chief Operating officer serves as Metro's Budget Officer.

What is Metro

This section provides the reader with an overview of Metro's history, a timeline showing the development of the agency and information regarding Metro's charter.

Budget summary

This section provides a comprehensive summary of the budget. It provides information on schedule of appropriations, property tax calculation, budget environment, revenues and expenditures, including trends and fund summary highlights, and summarizes staffing changes.

Organizational summary

The organizational summary presents Metro's organizational units as required by Oregon budget law. Centers and services may be budgeted in a single fund or in several funds, but always by organizational unit. This section discusses the purpose and organization. It identifies service-level changes in the adopted budget.

Fund summaries and detail

This section presents detailed financial information and analysis for each of Metro's 18 funds, the legal units by which the budget is appropriated. The detail after each fund description contains technical information used by Metro managers to manage their programs. This detail includes current as well as historical line item revenues and line item expenditures required by law.

Capital Improvement Plan detail

Metro's capital budget for fiscal years 2020-21 through 2024-25 is included in the FY 2020-21 budget document. This section presents the overall summary and department specific project summaries and analyses.

Debt schedules

This section contains summary information about Metro's outstanding debt obligations. It also provides detailed debt schedules for existing revenue bonds, pension obligation bonds, general obligation bonds, and full faith and credit bonds.

Appendices

The appendices include several related documents that are legally required to be included with Metro's budget document or that provide additional policy background information. These appendices include the charter of limitations on expenditures, excise tax, budget transfers, GASB 54 fund balance designation, General Fund reserves detail, limited duration positions and FTE history, and other general information. The glossary is also located in this section.

Chief Operating Officer's Budget Message

April 2020

To the Metro Council, residents, valued employees and community and regional partners:

This proposed FY 2020-21 budget for Metro Council consideration is presented at a time of unprecedented uncertainty because of the rapid spread of the COVID-19 virus. As of this writing, the Oregon Convention Center is operating as a shelter for people experiencing homelessness and the Portland Expo Center is operating as a drive-thru testing center in partnership with OHSU.

Metro staff is working tirelessly to understand what Metro's financial future might hold and leadership is making difficult decisions to meet this new reality.

The budget presented below predates the pandemic and reflects a financial health that was the product of a vibrant regional economy, strong fiscal practices, a clear policy agenda developed by the Metro Council, and a collaborative relationship with Metro's labor unions.

As laid out in state statute, we will work together to modify this budget before Council's adoption at the end of June 2020. We will almost certainly need to make additional adjustments through budget amendments to balance to our new fiscal reality.

That being said, what follows remains an important and useful document. It represents Metro's financial plan for accomplishing greater Portland's goals and provides an annual opportunity for the public, the Metro Council and Metro's staff to evaluate how we're faring as a region, assess our progress towards the six desired regional outcomes, and ensure our programs and activities are effective and efficient in providing excellent public services to the people of greater Portland.

The budget that was prepared before the pandemic highlights four major issues.

This proposed budget funds the Metro Council's priorities

Metro Council President Lynn Peterson and the Metro Council have designated a series of strategic priorities to position Metro to continue to inspire, teach, engage and invite people to enhance the quality of life and environment for the region's current and future generations. Throughout Metro's four major lines of business – solid waste, parks and nature, planning and development, and visitor venues – this budget invests in our core services and key initiatives that improve the quality of our programs and services for the benefit of the people of greater Portland. Some of the notable initiatives that will be funded in this budget include:

- Refreshing the region's 2040 vision with an updated plan for housing, employment land,
- Implementing voter-approved housing and parks measures,
- Advancing new investments to make our roads, bridges, sidewalks, bike lanes and transit system safer and easier to use,
- Increasing Metro's leadership on climate mitigation and resilience,
- Working with partners to improve the market for plastics recycling and increase the composting of food scraps,
- Providing better and more equitable access to garbage and recycling services,
- Investing in the long-term health of the region's performing arts centers, visitor venues and the Oregon Zoo,

- Ensuring Metro continues to recruit and retain the most effective and innovative employees by being an employer of choice, and
- Advancing racial equity and inclusion by investing in more diverse workplaces and in the capacity of communities of color to influence public decisions and programs.

This is just a small sampling of the work that will be accomplished in FY 2020-21. The proposed budget funds Metro’s core, everyday operations, and positions us to respond to changing conditions in our region.

This proposed budget continues to invest in equity, diversity and inclusion

Metro is focused on the future, and we know greater Portland’s population will be more racially and ethnically diverse in the future than it is today. We also know that many people in our region face barriers that make it harder for them to succeed.

The Metro Council continues to prioritize increasing the diversity of our workforce, increasing the percentage and dollar value of the contracts we award to minority, women, and emerging-owned businesses, improving our relationships with historically underserved communities, and ensuring that all of the region’s residents have access to the six desired regional outcomes. The Council also is committed to investing in communities of color directly to help provide more and better access to decisions.

This proposed budget includes funding for programs and activities to support diversity, equity, and inclusion in every department of Metro. Some highlights of the proposed budget include:

- Continued support for the Diversity, Equity and Inclusion Team in the Office of the Chief Operating Officer. This team is facilitating the implementation of the Strategic Plan to Advance Racial Equity Diversity and Inclusion and the Diversity Action Plan;
- Support for department implementation of previously adopted department specific equity planning and new planning for remaining departments;
- Implementing the Construction Careers Pathway Project (C2P2), including funds to establish the goals and implement the actions called for in the adopted C2P2 regional framework;
- Increasing training and collaboration with partners to increase the knowledge, skills and capacity of Metro staff to work effectively with communities of color and other underserved groups;
- New funding for the Civic Engagement Capacity Building grants to support long-term partnerships with community-based organizations serving communities of color to expand their civic and community engagement capacity;
- Ongoing support for partnerships for institutional change, which provides youth- and partner-led opportunities for Metro leaders to sustain honest, open and direct relationships with community partners that challenge Metro’s assumptions and processes to create a more equitable institution;
- Increasing access to garbage and recycling facilities for communities of color and low income communities and creating more employment and contracting opportunities for people of color;
- Implementing the more than 40 actions from the Regional Waste Plan that focus directly on advancing equity and reducing disparities;
- Implementing the 2018 voter-approved parks bond in ways that ensure parks and nature across greater Portland benefit people of color, Indigenous people, people with low incomes, people with disabilities and others who have not benefited equitably from past investments;

- Implementation of American Disability Act (ADA) assessments and related actions across Metro’s facilities;
- Increased investment in the Partners in Nature and Access to Nature programs in Parks and Nature;
- Continued support in Human Resources focused on training, employee engagement and retention and on outreach that supports the recruitment goals of the Equity Strategy and Diversity Action Plan;
- Continued support for outreach and process reform for procurement services and efforts to increase participation of Certification Office of Business Inclusion and Diversity (COBID) firms.

This budget continues to adjust for Financial “Headwinds”

In addition to the unprecedented uncertainty created by the corona virus, previous long-term forecasts for the General Fund, the Oregon Zoo and Portland’s Centers for the Arts, in particular, reflect that the financial constraints we have faced in preparing this budget are long-term and are structural in nature. Despite several voter-approved program expansions, personnel costs are growing at more than 6 percent on average. Revenues cannot – legally or actually – keep pace with the increasing costs of providing services.

Additionally, Metro will continue to face increases that are outside of the agency’s direct control for the foreseeable future. The Oregon PERS rate adjusts every two years, with the last increase on July 1, 2019 by about 33%. While the rate does not increase in the FY 2020-21 budget, the rate is expected to increase significantly on July 1, 2021 and then increase again, more moderately, on July 1, 2023. Metro also continues to work on complying with Oregon’s new pay equity law. Metro is required – and desires – to address inequities as they are determined. Additionally, we expect that health care costs will increase by approximately 10% during this budget cycle.

Finally, as has been the case for several years, the cost of personnel is among the most challenging that we face. Metro has a high quality workforce that provides valuable services to the public every day. Our employees work hard to improve the economy, environment and quality of life in our region. And, as directed by the Council, Metro strives to be an employer of choice in greater Portland. This budget ensures wages, benefits and working conditions reflect our values. As we have in the past, Metro management will work collaboratively with our employees to consider all of the options for a sustainable financial future for our agency, and we will continue to honor and respect our employees as dedicated public servants.

This proposed budget invests in Metro’s infrastructure

Metro must invest in its systems and structures. The proposed budget includes those investments and others aimed at increasing our efficiency.

- *Technology.* The proposed budget includes investments in our technology infrastructure, all of which are needed to continue to update software and other systems to meet current needs and employee expectations. In particular, this budget includes continuing improvements to Metro’s websites, payroll and accounting systems, as well as other critical elements that serve to ensure a secure IS infrastructure, which is used by every Metro department.
- *Buildings and Physical Assets.* The proposed budget invests in Metro’s capital assets, with ongoing investments in our visitor venues. Planned projects include continued upgrades at the Oregon Convention Center, acoustical enhancements at the Arlene Schnitzer Concert Hall, and completion of the polar bear, primate, and rhino habitats which are the final construction projects of the 2008 voter-

approved Oregon Zoo Infrastructure and Animal Welfare bonds. Also included in this budget, is the third year of investments in improving Metro’s headquarters, the Metro Regional Center (MRC) building. Projects include ADA upgrades, interior and exterior coatings, lighting upgrades, and elevator retrofits and are funded by full faith and credit bonds approved by Council and issued in 2018.

How the budget proposal was developed

The Metro Council provided direction about strategic priorities and key Council initiatives that would focus their efforts through FY 2020-21. Based on this direction, department directors were instructed to prepare initial budget requests that emphasized these goals and initiatives, maintained the existing portfolio of Metro’s programs and activities and provided a modest increase of 2.5 percent allocated to departments to cover inflation in their materials and services costs. Additional resources were provided to departments, as available, on either a one-time or on-going basis to advance the Council-directed priorities.

As in past years, the proposed budget is anchored by the region’s six desired outcomes. Developed in a collaborative process and adopted by the Metro Council in 2010, the six outcomes focus on what makes this region a great place. Department’s activities and programs are tested against whether they are making these outcomes more likely over time.

SUMMARY OF CHANGES BY DEPARTMENT

The proposed budget includes the following service level changes:

Metro Council

This department includes the functions performed by the Metro Council elected officials and their support staff, and offices of the Chief Operating Officer (COO) and Deputy COO (DCOO). The Council leads Metro towards developing climate mitigation and resiliency strategy, continued regional transportation planning, congestion pricing efforts, and partnerships with community based organizations to advance diversity, equity, and inclusion at a regional level. These, and other Council-directed programs, are outlined in department budgets. The COO manages Metro’s day-to-day operations to implement the Metro Council’s vision and policies. The office of the COO includes the Government Affairs Policy Development (GAPD) program

and Metro's Diversity, Equity and Inclusion (DEI) program. The proposed FY 2020-21 budget includes funding for the GAPD team to support the Council's various regional investments strategies and resources for the DEI program to support civic and community engagement capacity among community based organizations who serve communities of color. The DCOO leads Metro's internal support departments and is instrumental in innovation, process improvement, and performance management.

Office of Metro Auditor

The Office of the Metro Auditor ensures that Metro and its activities are transparent and accountable to the public. Auditors objectively analyze Metro programs to determine areas where service quality can be improved and efficiencies can be gained. The Metro Auditor selects an external financial auditing firm to audit Metro's annual financial statements and administers the contract. There are no significant service level changes proposed for FY 2020-21.

Parks and Nature

Parks and Nature's mission is to protect water quality, fish and wildlife habitat and create opportunities to enjoy nature close to home through a connected system of parks, trails and natural areas.

The Parks Operating Fund manages the resources and uses of the Parks and Natural Areas local option levy, which was renewed by the voters in November 2016 and is therefore in its eighth year. This budget also includes expenditures from the Parks and Natural areas bond recently approved by voters in November 2019. The budget includes the addition of 15 FTE to implement both levy and bond-funded project management, administration, and programming.

The proposed budget for Parks and Nature also reflects continued work on the Willamette Falls Riverwalk, which continues despite a complex change of ownership that required additional work and engagement.

Planning and Development

Planning and Development provides a broad scope of planning services that assure Metro's compliance with federal and state land use and transportation planning requirements, manages grants to other agencies, leverages community development and stimulates private investments in communities that support Metro's desired outcomes in the region.

Planning and Development has significant changes in the FY 2020-21 budget due to shifting priorities and grant funding timelines. Although certain projects are nearing completion (Southwest Corridor; Columbia Connects) and are reflected by a reduction in spending for FY 2020-21, other areas of importance have emerged, such as funding for Congestion Pricing, Emerging Technology and Community Placemaking programs. And, as in the prior year, a significant core function of this department is the responsibility and operations of the Affordable Housing bond program.

Research Center

Research Center serves Metro's six regional outcomes by providing information that enables Council and client departments to make informed plans and decisions. The Research Center coordinates data and research activities with partners in government, academic institutions and the private sector.

The FY 2020-21 budget focuses resources on providing better equity-related data, supporting transportation system analysis, and providing a variety of data and tools.

Visitor Venues

Metro's Visitor Venues include the Oregon Convention Center (OCC), Portland's Centers for the Arts (Portland's), Portland Expo Center (Expo) and the Oregon Zoo. Formed in July 2010 to enhance collaboration on operational issues, the venues team actively works toward a common mission of maintaining world-class gathering and entertainment spaces for residents and visitors and creating significant economic impact throughout the region.

The OCC Convention Hotel was completed and opened during 2019. This will help enhance the OCC marketability for additional conventions to national audiences. The COVID-19 crisis will create significant impacts on each of the visitor venues. Work is underway to evaluate the best way to consider budget decisions in the face of considerable uncertainty. Additional planned FTE, capital projects and maintenance work, and operations are all being evaluated for the FY 2020-21 budget as well as for longer-term financial impacts.

Waste Prevention and Environmental Services

Waste Prevention and Environmental Services contributes directly to the preservation of the region's livability and supports the goals and objectives developed by the Metro Council by providing for the safe, efficient, and effective reuse, recycling, and disposal of solid and household hazardous waste and by promoting sustainable resource management through waste reduction initiatives, technical assistance and youth and adult education.

This budget includes the addition of 23 FTE to implement the 2030 Regional Solid Waste Plan and other Council initiatives, such as capacity building for underserved communities to manage garbage and recycling, capital asset management of existing infrastructure, and continued improvement of customer services and process. Additionally, it should be noted that approximately 16 FTE have been transferred out of this department to the new Capital Asset Management department which has been developed to provide operational support related to agency-wide assets and construction project management, discussed in greater detail below.

Operational Support

Capital Asset Management

Capital Asset Management is a new department for the agency beginning in FY 2020-21. This department supports the management of over \$600 million in agency-wide capital assets and manages the operations of the Metro Regional Center. Additionally, this department provides construction project management and planning for future capital investments. The 23 FTE for this department are being transferred from other Metro departments. This FY 2020-21 budget also includes the addition of 4 FTE for construction project management that will be funded by and reported within other agency departments.

Communications

Metro's Communications supports the Metro Council and departments in providing public involvement in key agency decisions. Audiences include other government partners, specific advocacy groups, media outlets and the general public.

Resources previously dedicated for long-term transportation funding are scheduled to shift to additional Council support during FY 2020-21 and there is a continued focus on community partnerships.

Finance and Regulatory Services

Finance and Regulatory Services (FRS) provides financial management, administrative, regulatory and operational services to Metro's elected officials, operating centers and services, employees and the public. In addition, Finance and Regulatory Services licenses small contractors and sets rates for public solid waste disposal facilities.

The addition of four FTE within this department for FY 2020-21 will give FRS the ability to assist departments with accurate payroll and timekeeping and will provide essential financial assistance to Parks and Nature bond-funded work.

Human Resources

Human Resources (HR) is a full service department providing benefits, classification and compensation, employee and labor relations, organization-wide development and training, department-specific recruitment and selection, and systems administration for the agency.

The FY 2020-21 budget includes the addition of three FTE. New additions will work on training opportunities for Metro employees, assist in HR data and systems maintenance, and will serve the solid waste function as a dedicated business partner providing support in areas such as recruitment, classification and compensation, and employee engagement.

Information Services

Information Services supports Metro's goals and business processes through the development, implementation, support and management of its information systems.

The FY 2020-21 budget focuses on the critical move away from outdated software systems that are no longer supported, and into cloud-hosted applications that allow for better business-continuity, collaboration, and mobile and teleworking arrangements.

Office of Metro Attorney

The Office of Metro Attorney has full charge and control of all legal business for the agency. The Office of Metro Attorney provides legal representation to Metro, both formally and informally, in a manner consistent with Metro's goals and policies, and that fully complies with the highest professional and ethical standards of the Oregon State Bar, the Oregon Supreme Court and the legal profession. There are no significant service level changes proposed for FY 2020-21.

Special Appropriations and Non-Departmental

This category includes non-program revenues such as property tax, excise tax and interest earnings as resources. On the expenditure side, it includes non-operating expenses such as general obligation debt service, transfers and, in the General Fund, special appropriations that are not tied to an individual program, service or center. The greatest interest centers on the General Fund, which is discussed in detail below.

Revenues

The General Fund includes three important discretionary revenues: property tax, excise tax and interest earnings. These are the resources that the Council can direct by choice to any general purpose. Interest earnings from investments are used to fund general operations. The excise tax on solid waste disposal is established in Metro Code to generate a defined yield and may increase annually based on a specific consumer price index. The rate is calculated based on tonnage of the prior two years. For FY 2020-21 the proposed rate will increase by \$0.90 cents per ton; which is expected to generate \$19.1 million for the General Fund. Construction excise tax

(CET) collections are expected to decrease in FY 2020-21, however revenues are still estimated at nearly \$2.8 million. These funds are used to fund grants to local jurisdictions for concept planning such as revitalized town centers, housing and shopping opportunities, and growth planning in new neighborhoods. The tax was extended by the Metro Council in September of 2014.

Property taxes are levied for both operations (discretionary) and general obligation debt service (dedicated). The permanent operating levy has a permanent rate of \$0.0966 per thousand, about ten cents, and raises \$16.7 for discretionary purposes. The Parks and Natural Areas Local Option Levy at \$0.096 per thousand, raises about \$16.2 million a year. The levy for general obligation debt will be \$74.2 million, based on debt schedules and cash flow requirements for existing debt. The estimated schedule is based on a not-to-exceed maximum for each issue, consistent with promises made to Metro taxpayers. Combined, the estimated tax rate for an urban Metro resident is 60 cents per thousand, or about \$120 for owners of property assessed at \$200,000.

Expenditures

The General Expense spending includes general agency payments for elections, the outside annual audit and, in accordance with the financial policies, the appropriated contingency for the General Fund and the annual contribution to renewal and replacement. The General Expense category also includes special appropriations. These include payments for specific organizational dues and sponsorships such as Rail-Volution and the Regional Arts and Culture Council. The proposed FY 2020-21 budget maintains \$50,000 for Intertwine organizational support, and \$60,000 for Willamette Falls Locks, and \$50,000 cost-sharing for Levee Ready Columbia.

CAPITAL IMPROVEMENT PLAN

The five-year Capital Improvement Plan (CIP) identifies all capital projects that exceed \$100,000 and meet the State of Oregon's definition for public improvements. The \$405 million CIP plan includes 155 planned projects across seven different organizational units. These are a mix of new capital projects and scheduled renewal and replacement projects. Funding comes from planned capital reserves (fund balance), local option levy, general obligation and full faith and credit bonds, as well as transient lodging tax pooled capital and grants and donations.

New Capital projects

The Oregon Zoo Infrastructure and Animal Welfare Bond is expected to complete construction on the polar bear, primate and rhino habitats in FY 2020-21. The Solid Waste fund CIP includes land acquisition and facility design for new solid waste facility, and upgrades for organics processing at Central Station. Parks and Nature is constructing day use and nature park areas at Newell Creek Canyon.

Renewal and replacement

Renewal and replacement projects are scheduled according to the expected useful life of the asset and its condition. All operating funds make annual contributions for renewal and replacement. This accumulating strategy is intended to smooth out the funding in years when higher cost projects are scheduled. The General Fund contribution in FY 2020-21 will be \$1.9 million. Significant renewal and replacement projects for FY 2020-21 include Information Services upgrades to accounting systems and network management, investments in Parks and Nature fleet and trail systems, and animal health and welfare and facility maintenance at the Oregon Zoo.

CHARTER LIMITATION ON EXPENDITURES

Metro's charter includes a limitation on expenditures of certain tax revenues imposed and collected by Metro, specifically the general excise tax and the construction excise tax. The general excise tax is a yield-based tax which may increase annually only by the consumer price index. The majority of the excise tax is collected on solid waste activities and is calculated as a per-ton tax. Metro assesses an excise tax on construction permits throughout the region to fund land use planning to make land ready for development. The expenditure limit for FY 2020-21 is \$24.9 million; budgeted expenditures are \$19.7 million. The proposed budget does not exceed this limitation.

DIFFICULT DECISIONS LIE AHEAD

We're all trying the best we can to understand how this world-wide health crisis will impact our ability to equitably provide public services to the residents and visitors of greater Portland. As noted above, the proposed revenue and spending plans represented in this budget will be revised significantly prior to adoption as we adapt to this crisis. Together, we will make the difficult decisions and shared sacrifices required to meet our new financial reality.

One thing I've learned above all else in my short time here is that our Council, staff, and community and regional partners are all dedicated to making this region a better place for everyone.

Sincerely,

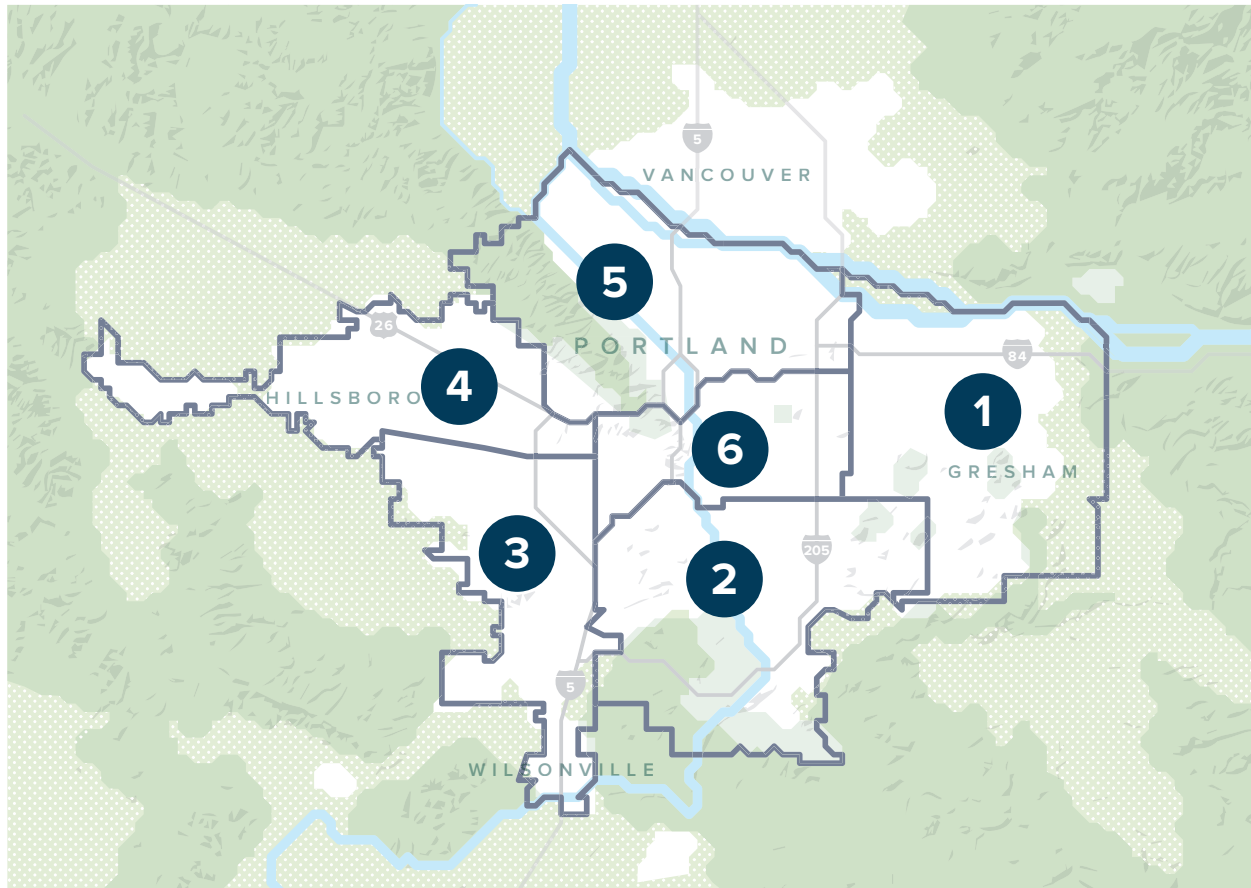

Marissa Madrigal
Chief Operating Officer

What is Metro	B-3
Metro Charter	B-6
Organizational structure	B-8
Metro milestones	B-13

What is Metro

With its thriving communities, cultural amenities, economic vitality, scenic beauty and healthy natural ecosystems, the Portland region has advantages found in few other parts of the world, advantages that make this a great place. For the Portland-area's leaders and residents alike, nurturing this livability is a constant quest. Metro plays a unique and leading role in that effort.

Metro crosses city limits and county lines to make a better, brighter and wilder tomorrow. From protecting our region's air, water and natural beauty to supporting neighborhoods, businesses and farms that thrive, Metro makes this a great place. Metro serves more than 1.8 million residents in Clackamas, Multnomah and Washington counties, and the 24 cities in the Portland metropolitan area. Metro, the only directly elected regional body in the United States, is governed by a president, elected region-wide, and six councilors elected by district. Metro's home rule charter, approved by voters in 1992 and amended in 2000, assigns Metro responsibilities for engaging people in regional land use and transportation planning, and for other issues of metropolitan concern. The charter also reflects Oregon's strong commitment to participatory democracy by requiring that Metro councilors be elected by the people, visible and accountable.

Metro embodies the people of the Portland-area's commitment to maintain and enhance the livability and sustainability of the region. Working together across city and county lines simply makes sense when it comes to protecting natural areas, caring for parks, planning for the future of our neighborhoods, managing garbage disposal and increasing recycling. Metro manages world-class facilities such as the Oregon Zoo, which contributes to conservation and education, and the Oregon Convention Center, which benefits the region's economy.

HISTORY

Metro was first formed in 1979 when voters approved the merger of the Columbia Region Association of Governments with the Metropolitan Service District. Columbia Region Association of Governments was responsible for land use and transportation planning, and the Metropolitan Service District provided regional services that included management of the solid waste and operation of the region's zoo. An elected council and an elected executive officer governed the new Metropolitan Service District. The Metro Council had the combined authorities of the two merging agencies and additional powers.

Since then, the Oregon Legislature, with the concurrence of the cities, counties and other agencies in the region, assigned additional responsibilities to Metro. In 1980 Metro became responsible for regional solid waste disposal when it took over operation of one existing, publicly owned regional landfill and began construction of a solid waste transfer station. In 1986 voters approved general obligation bond funding for the Oregon Convention Center, to be built and operated by Metro. In 1990 Metro assumed management responsibility for the Portland Center for the Performing Arts, Portland Civic Stadium and Portland Memorial Coliseum (Metro no longer manages the stadium or the coliseum. Both are now managed by the City of Portland). Metro assumed management responsibility for the Multnomah County parks system and the Portland Expo Center in 1994. Ownership of these facilities was officially transferred to Metro in 1996.

CHARTER APPROVAL

Metro's home rule charter was approved by voters in 1992. Prior to that, Metro was organized under a grant of authority by the Oregon Legislature and the Oregon Revised Statutes. Metro's powers were limited to those expressly granted by the Legislature, and any extension of that authority first had to be approved by the Legislature.

With the growth of the Portland region, voters were asked whether Metro's power and authority should be controlled directly by the voters of the region and not the state legislature. In 1990 the Legislature referred a constitutional amendment to the voters to allow the creation of a home rule regional government in the Portland metropolitan area. Voters approved the amendment and a charter committee was formed shortly thereafter. In 1992 Metro's charter was referred to and approved by the voters. Metro thereby achieved the distinction not only of being the nation's only elected regional government (as it had been since 1979), but also the only regional government organized under a home rule charter approved by voters.

In 2000 voters in the region approved an amendment to the Metro Charter abolishing the position of an elected executive officer. On Jan. 6, 2003, a new regionally elected Metro Council President absorbed or delegated the authorities and functions previously vested in the executive officer.

REGIONAL LEADERSHIP AND SERVICE

Self-sufficiency

About half of Metro's operating revenues come from fees paid by customers who use Metro's facilities or services such as recycling and solid waste disposal. Other revenues include grants, intergovernmental funds, property taxes for voter-approved bond issues and a small permanent tax base (\$16.5 million), which is allocated annually through the budget process.

Projects and programs

Metro has emerged as a leader of regional initiatives – a collaborative partner, facilitator, technical assistance provider, process manager and advocate. Metro has involved regional homebuilders in the Nature in Neighborhoods program, teaching them how to develop projects that minimize water runoff and negative impacts on natural areas. Metro and its county partners reached an historic collaborative agreement to guide the future growth of the region for the next 50 years, setting aside 28,000 acres for future development if needed and protecting 270,000 acres of farms, forests and natural areas. The Metro-planned Orange Line of the regional light rail system opened in September 2015, and includes the nation's first transit, pedestrian and transit-only bridge built in decades.

Metro provides a rich mix of the region's public places where people are invited to gather to enjoy recreation, education and entertainment. The Metro Council appoints the Metro Exposition Recreation Commission to advise the Council and oversee public assembly facilities including the Oregon Convention Center, Portland's Centers for the Arts and Portland Expo Center. These venues host hundreds of events each year, drawing millions of people and creating hundreds of millions of dollars of local economic benefit.

Metro every day

Metro policies, programs and services are woven into the fabric of the Portland region's life. They are the common threads that connect neighborhood wetlands, the Portland Expo Center antique shows, penguins at the Oregon Zoo, recycled newspapers, extensive bike paths and live symphony performances at the Arlene Schnitzer Concert Hall.

Additionally, Metro is a leading player in preserving and expanding the natural areas available to the people of the region. This includes an interconnected system of parks, trails and greenways. Metro's inviting system of regional parks and natural areas includes Smith and Bybee Wetlands Natural Area, a 2,000-acre freshwater wetland in North Portland, and Oxbow Regional Park, a 1,200-acre forested natural area on the Sandy River east of Gresham. Voters passed a property tax levy that provides

more than \$16 million a year through 2023 to take care of the more than 17,000 acres of parks and natural areas Metro acquired with voter-approved bonds. The levy supports projects that will protect clean air and water and better access to nature for everyone.

Regional Planning and Stewardship

Metro has a primary responsibility for regional land use and transportation planning. The centerpiece of this responsibility is the 2040 Growth Concept. It ensures the region makes the most of its cities and towns and the roads, bridges, sewers, parks and other public structures and systems needed to create a community.

Green Choices

Metro's commitment to sustainability goes beyond its conservation, recycling and regional planning programs. Metro also teaches the community about safe and healthy choices in building and street design and natural gardening and recycling as ways to improve quality of life and leave a legacy for future generations. This is done through partnerships, seminars, publications, demonstration projects, clinics, tours and in-school presentations for teachers and students.

Waste Management and Recycling

Metro manages the region's solid waste system, which includes a renowned curbside residential recycling program. The agency owns and operates two solid waste and recycling transfer stations, which have household hazardous waste facilities. Metro also offers a toll-free recycling hotline, which helps people learn to recycle everything from yard debris to old paint.

Metro Charter

A home rule charter defines Metro's structure, assigns its working priorities and grants the power necessary to achieve its priorities. A home rule charter is a grant of power directly from the citizens of the jurisdiction rather than a grant of power from a legislature or some other body.

The voters of the region approved a home rule charter for Metro in 1992 and a charter amendment in 2000. Prior to the amendment, Metro was governed by a seven-member Council that was responsible for the policy direction of the organization and for legislative oversight of management activities. A regionally elected Executive Officer was responsible for carrying out the policy directives of the Council, day-to-day management of the organization and recommending policy initiatives to the Council. As a result of the charter amendment, effective Jan. 6, 2003, the Council and Executive offices were consolidated. Under the new structure, the number of districts and the number of Councilors were reduced to six. A regionally elected Council President presides over the Council, sets the policy agenda for the Council and has the authority to appoint all members of Metro committees, commissions and boards. A Chief Operating Officer is appointed by the Council President with Council consent and is responsible for day-to-day management of Metro.

The Metro charter also created the elected position of Metro Auditor. The Metro Auditor is responsible for engaging Metro's independent, outside financial auditor and for conducting performance and management audits of Metro operations and functions.

The home rule charter sets Metro's working priorities. Metro's primary responsibility under the charter is regional land use planning. To this end, Metro was required to adopt a future vision for the region. The Metro Council adopted the future vision document on June 15, 1995.

State law requires Metro to develop regional land-use goals and objectives. The Metro Council adopted Regional Urban Growth Goals and Objectives (RUGGO) in 1991. RUGGO provided a policy framework for guiding Metro's regional planning program and established a process for coordinating local planning in the region to maintain the region's livability.

In December 1995 the Metro Council adopted the 2040 Growth Concept which encourages compact development near existing or future transit centers to reduce land consumption. The concept encourages preservation of existing neighborhoods and identifies rural reserves as areas not subject to urban growth boundary expansion to serve as buffers between urban areas. The growth concept sets goals for providing permanent open space areas inside the urban growth boundary and recognizes that neighboring cities will grow and that cooperation is necessary to address common issues. On Dec. 11, 1997, the Council adopted the more detailed Regional Framework Plan (incorporating RUGGO), which specifies how the region will implement the 2040 Growth Concept.

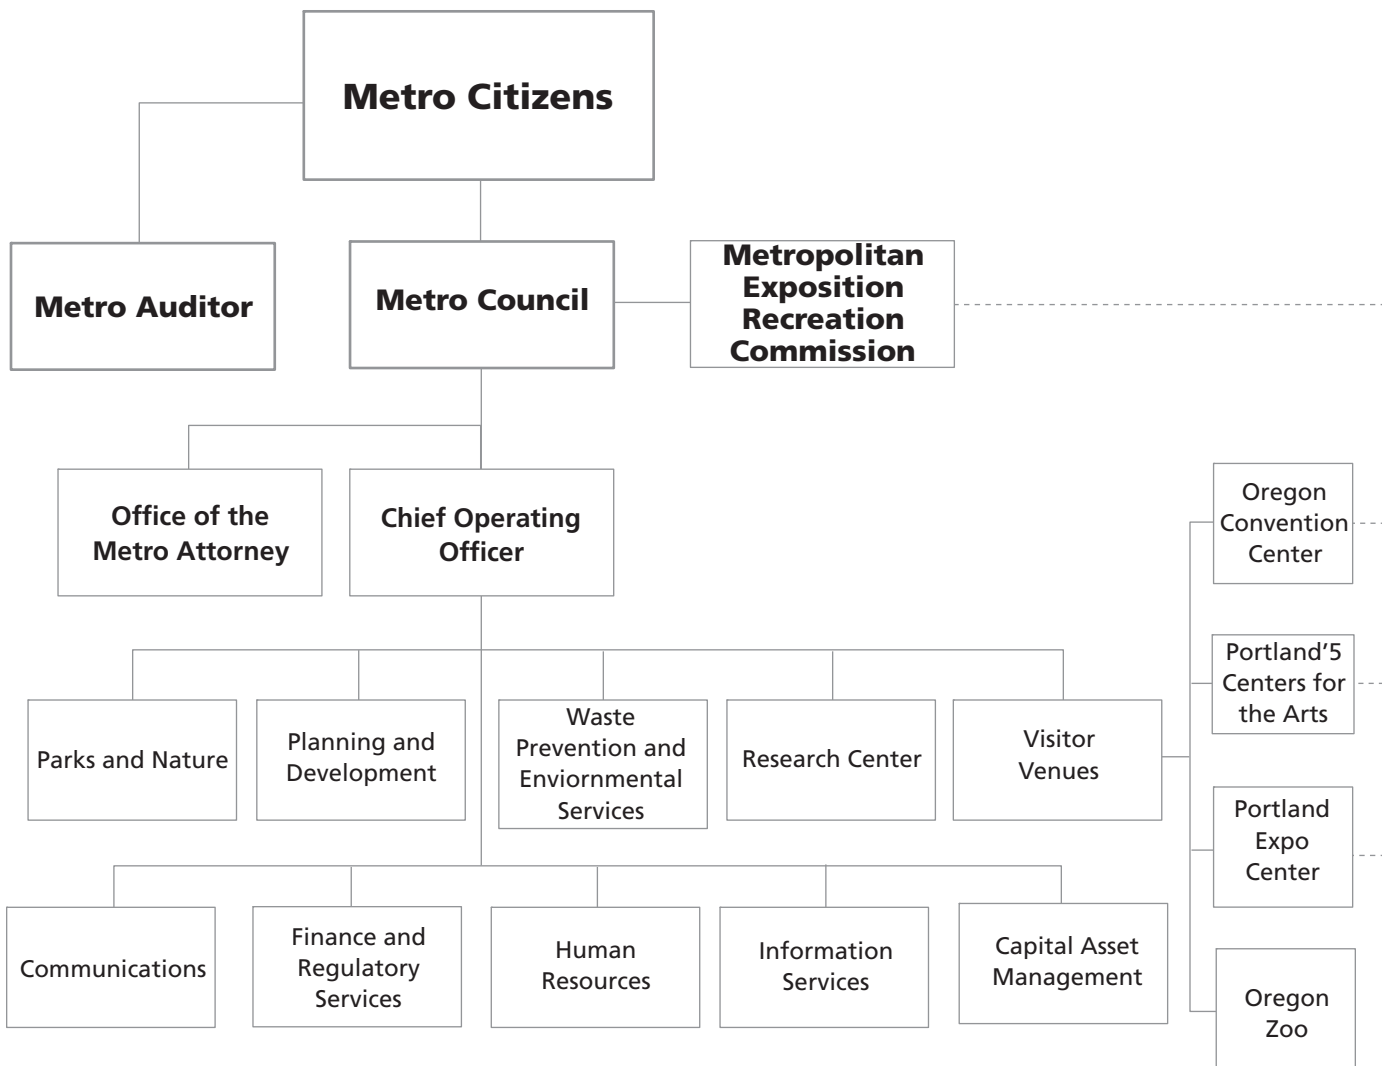

In June 2010 elected leaders from Clackamas, Multnomah and Washington counties and Metro worked together to identify the best places for future growth in the region and the most important lands to protect from development for the next half century. Because of the collaborative work, 266,954 acres of farms, forests and natural areas were set aside as rural reserves and 28,615 acres of land best suited for future urban development were designated as urban. This unprecedented agreement provides certainty for people on both sides of the urban growth boundary.

Although the charter makes regional land use planning Metro's primary responsibility, it also recognizes the significant role Metro has in other regional issues such as solid waste disposal, and the operation and development of regional recreation and visitor facilities such as the Oregon Zoo, the Oregon Convention Center and regional parks and open spaces.

Finally, the charter recognizes that regional government and regional issues evolve over time. The charter grants Metro authority to assume responsibility for issues of metropolitan concern. This allows Metro to work with local jurisdictions as needed to develop common solutions to problems that may exceed local boundaries and may be more difficult to address at the local level.

In addition to defining Metro's structure and priorities, the charter gives Metro the tools necessary to meet its financial resource needs. The charter gives Metro authority to ask voter approval for broad-based revenue sources. These sources include traditional revenues such as property tax, sales tax or income tax. The charter grants Council authority to adopt taxes of limited applicability without a vote of the people. The charter requires the Council to appoint a citizen review committee when it is considering the adoption of a new limited tax. These niche taxes could include a broad list of revenue sources levied on limited activities such as cigarette sales, real estate transfers, hotel/motel occupancy, etc. Expenditures from non-voter approved revenue sources are limited by charter to no more than \$12.5 million per year (in 1992 dollars). This expenditure limitation increases in each subsequent fiscal year by a percentage equal to the rate of increase in the Consumer Price Index (additional information on this charter limitation is available in the Appendix of this budget. The charter grants Metro the authority for levying fees and charges for services it provides on an enterprise basis.

Organizational structure

Elected officials	Position	Service began	Current term expires
Lynn Peterson	Metro Council President	January 2019	January 2023
Shirley Craddick	Councilor- District 1	January 2011	January 2023
Christine Lewis	Councilor- District 2	January 2019	January 2023
Craig Dirksen	Councilor- District 3	January 2013	January 2021
Juan Carlos González	Councilor- District 4	January 2019	January 2023
Sam Chase	Councilor- District 5	January 2013	January 2021
Bob Stacey	Councilor- District 6	January 2013	January 2021
Brian Evans	Metro Auditor	January 2015	January 2023

Organizational Structure

Metro’s organizational structure includes three offices (Metro Council, Metro Auditor and Metro Attorney), Visitor Venues (Oregon Convention Center, Portland Expo Center, Portland’s Centers for the Arts and Oregon Zoo) and nine departments (Parks and Nature, Waste Prevention and Environmental Services, Planning and Development, Research Center, Capital Asset Management, Communications, Finance and Regulatory Services, Human Resources and Information Services).

Office of the Council

The Metro Council is the governing body of Metro. It provides leadership from a “common good” perspective, reflects an ongoing, innovative planning orientation, and focuses on issues that cross local boundaries and require collaborative solutions.

The Office of the Council consists of the Council President and six Councilors; the Chief Operating Officer (COO); the Deputy Chief Operating Officer (DCOO); Government Affairs and Policy Development; and, the Diversity, Equity and Inclusion program. The Council sets overall policy direction and provides legislative oversight of management activities for the agency. The Council President presides over the Council, sets the policy agenda and has the authority to appoint all members of Metro committees, commissions and boards. The Chief Operating Officer, appointed by the Council President with Council consent, is responsible for the day-to-day management of the organization. The Council Office also provides staffing for the Metro Policy Advisory Committee.

Metro Auditor

The elected Auditor and staff make up the Office of the Metro Auditor. The Auditor is responsible for engaging the external financial auditing firm while focusing staff efforts on performance audits.

Office of Metro Attorney

The Office of Metro Attorney provides legal services to the Council, Chief Operating Officer, Auditor and Metro departments. This office includes the due diligence portion of the regional Open Spaces and Natural Areas acquisition programs.

Visitor Venues

A visitor venues group, including the Oregon Convention Center, the Portland’s Centers for the Arts, the Portland Expo Center and the Oregon Zoo, reports to the General Manager of Visitor Venues. Nearly half of the permanent and part time staff at Metro are in the business of providing direct service to venue customers, and the four visitor venues are similar in the enterprise activities, services, customers and skills needed for success. An executive management team consisting of the four venue directors focuses on how best to apply strategies, resources and staff strengths to benefit all Metro’s enterprise venues. The General Manager plays a leadership role in maintaining and improving Metro’s relationships with the City of Portland and Multnomah County; non-profit conservation and education groups; and private sector partners in the lodging and rental car industries.

MERC Venues

The Metropolitan Exposition Recreation Commission (MERC) was established in 1987 and provides citizen oversight for the Oregon Convention Center, the Portland’s Centers for the Arts (Portland’s) and the Portland Expo Center (Expo). The management of the Portland’s Centers for the Arts was transferred to Metro from the City of Portland in 1990 when the convention center opened. Management of Expo was transferred to Metro from Multnomah County in January 1994, with ownership

of the facility transferred in July 1996. The seven-member MERC advises the General Manager and Metro's COO. The commissioners are appointed by Metro to serve four-year terms. The Metropolitan Exposition Recreation Commission does not oversee the Oregon Zoo.

Oregon Zoo

The Oregon Zoo provides important conservation learning opportunities to people of all ages. The zoo strives to motivate people to care and act on behalf of wildlife by offering opportunities for observation, discovery and engagement. The zoo also contributes cutting edge science and research about species conservation and breeding. The zoo supports economic development as a tourist attraction and community asset. As the state's top paid attraction, the zoo draws approximately 1.5 million visitors annually.

Parks and Nature

Parks and Nature focuses on the provision of accessible regional natural areas, parks and trails, including Metro's cemeteries, golf course and marine facilities. The mission of Parks and Nature is to demonstrate and inspire sustainable stewardship of the region's natural resources. The department also focuses on restoring natural areas and on planning, building and maintaining parks and trails.

Planning and Development

Planning and Development facilitates the creation of great places in centers and corridors and throughout the region. It manages the regional urban growth boundary, the primary urban growth management tool mandated by state land-use planning laws. Planning and Development is also responsible for regional transportation planning, which includes preparing the Regional Transportation Plan, securing and allocating federal highway and transit funds for the region and conducting all regional transit and light rail planning under contract with TriMet, the regional transit agency. This department manages the expenditures for the Affordable Housing program, which was approved by voters in 2018. The expenditures are governed by the bond measure and are related to the creation of permanently affordable housing in the greater Portland region.

Research Center

The Research Center supports the Metro Council, Metro staff, external clients and the public by providing information, mapping and technical services to support public policy and regulatory compliance. The center coordinates data and research activities with government partners, academic institutions and the private sector. In addition, the regional economic and travel forecasts provided by the Research Center meet federal and state requirements for consistent, accurate and reliable data and forecasting tools.

Waste Prevention and Environmental Services

Waste Prevention and Environmental Services manages the region's solid waste in an effective, economical and environmentally sound manner, overseeing the operation of two Metro-owned regional solid waste transfer stations, operating two household hazardous waste facilities, managing contracts for the transport and disposal of waste brought to the regional transfer stations and developing the Regional Solid Waste Management Plan. Waste Prevention and Environmental Services also promotes sustainable management of resources through waste reduction initiatives, youth and adult education and volunteer opportunities, grants and demonstration projects.

Capital Asset Management

Capital Asset Management supports planning and management of more than more than \$600 million in capital assets throughout the agency. This department is tasked with facility sustainability, emergency planning, and construction project management. It manages the Metro Regional Center (MRC) building operations, which is Metro's headquarter location.

Communications

Communications provides public involvement, media relations, marketing, writing, web and design services to advance Metro Council policy initiatives and Metro department-led planning and stewardship efforts, public education campaigns, facilities and services. The disciplines represented range from media relations, journalism, marketing, graphic design and web design through event planning and issue management. It also provides support to the Metro Public Engagement Review Committee.

Finance and Regulatory Services

Finance and Regulatory Services provides financial management services for Metro's elected officials, operating departments, employees and the public. FRS includes Accounting, Budget and Financial Management, Payroll, Procurement, and Risk Management. It provides accounting services for the agency; coordinates the preparation, monitoring, and implementation of the agency's annual budget and five-year capital budget; manages debt; performs long-range financial planning; administers Metro's risk management program; coordinates the agency's decentralized purchasing system; manages the Equity in Contracting program; processes the agency payroll; and directs solid waste rate setting and tax compliance.

Human Resources

Human Resources is dedicated to attracting and retaining an effective, engaged work force that reflects the community Metro serves. It provides key services like recruitment and staff development, classification and compensation, labor and employee relations, benefits administration. Human Resources also manages the agency's Human Resource Information System and works directly with the labor unions that represent many Metro employees.

Information Services

Information Services supports Metro's vision, goals and business processes by providing technology based leadership, consulting and direct services. This is accomplished through the support and development of enterprise, operational and custom applications, records management and management of Metro's network infrastructure, as well as development of policies and procedures for access to information within the agency.

METRO ADVISORY COMMITTEES

Metro's charter requires three advisory committees:

Metro Policy Advisory Committee: A committee consisting of representatives of local government and citizens to provide advice and consultation to the Metro Council on the Regional Framework Plan and approval or disapproval of Metro's provision or regulation of a local government service.

Metro Committee for Citizen Involvement: A citizen committee assisting in the development, implementation and evaluation of Metro's citizen involvement activities and advising on ways to involve citizens in regional planning activities.

Metropolitan Exposition Recreation Commission: Made up of business and civic leaders committed to the region's cultural and economic vitality, the Metro Exposition and Recreation Commission works to protect the public investment in Metro's visitor venues.

METRO BOND OVERSIGHT COMMITTEES

Both the 2006 and 2019 Natural Areas Bond and the 2008 Oregon Zoo Infrastructure and Animal Welfare Bond programs include an oversight committee requirement. The Natural Areas Capital Program Performance Oversight Committee includes citizens from throughout the region representing the fields of finance, auditing, accounting, real estate, banking, grant making and law. The 15-member committee is charged with providing the Metro Council and the citizens of the region an independent, outside review of the program in order to help Metro achieve the best results for clean water, fish, wildlife and future generations.

The Oregon Zoo Bond Citizens' Oversight Committee was created to provide a third-party review of the voter approved Oregon Zoo Infrastructure and Animal Welfare Bond program to the Metro Council and citizens. The committee looks at how decision-making occurs and how business is conducted, as well as determines whether the program is on the right path in terms of structure, management, expenditures, personnel and achievement of defined goals. Members include professionals with experience in construction, sustainability, animal welfare, labor, finance, public budgeting and auditing, and general business.

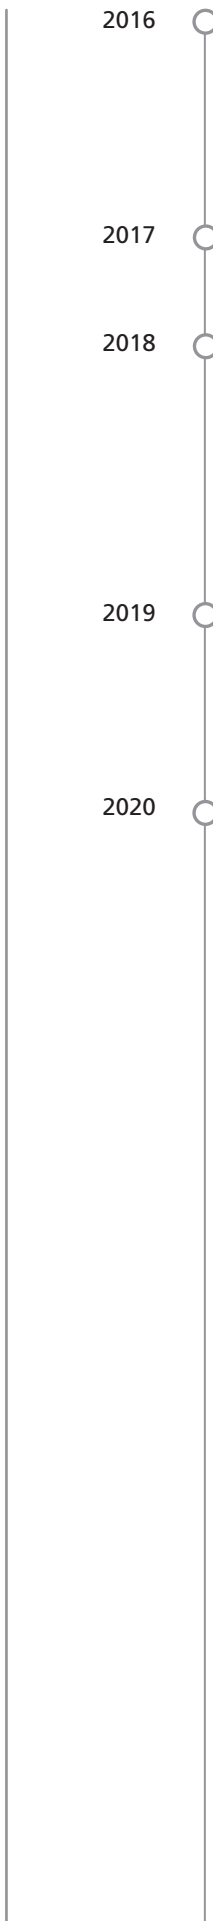

The 2018 Affordable Housing bond program includes an oversight committee requirement. The 13 member committee will review the plans for housing development from the seven jurisdictional partners and also review bond expenditures. The Committee brings great diversity of experience from varied backgrounds and will provide an independent outside review of the program.

Metro milestones

- 1979 ○ Columbia Region Association of Governments combines with the Metropolitan Service District to form Metro. Functions include solid waste and transportation planning, zoo operations and management of the urban growth boundary.
- Joint Policy Advisory Committee on Transportation formed and staffed by Metro's Transportation Planning Department.
- Transfer of the ownership and operation of the Washington Park Zoo to Metro.
- 1980 ○ Solid waste operations (including the management of the St. Johns Landfill) added to Metro's functions.
- 1983 ○ Clackamas Transfer and Recycling Center (now named Metro South Transfer Station) opens.
- 1986 ○ Voters approve \$65 million general obligation bond issue to build the Oregon Convention Center.
- 1987 ○ Metropolitan Exposition Recreation Commission established.
- 1988 ○ Metro assumes responsibility of appointing members of the Portland Metropolitan Area Local Government Boundary Commission.
- 1989 ○ Attendance at the Metro Washington Park Zoo breaks the one million mark.
- 1990 ○ Metro assumes management responsibility for the Portland Center for the Performing Arts, Civic Stadium and Memorial Coliseum.
- Columbia Ridge Landfill opens near Arlington to replace the St. Johns Landfill and serve the Portland metropolitan region.
- Voters approve tax base for the Metro Washington Park Zoo.
- Metro issues \$28.5 million in solid waste revenue bonds to construct the Metro East Transfer Station (now named Metro Central Transfer Station).
- Metro initiates an excise tax on its own enterprise operations.
- Oregon Convention Center opens for business and exceeds projected use and economic projections.
- Voters approve amendment to the Oregon Constitution allowing creation of a home-rule regional government in the Portland metropolitan region and the creation of a charter committee.
- 1991 ○ Metro Central Transfer Station opens.
- 1992 ○ Voters approve a new home-rule charter for Metro, identifying Metro's primary mission, revising Metro's structure, and formally changing the name of the organization from Metropolitan Service District to Metro.
- 1993 ○ Management of the Memorial Coliseum is returned to the City of Portland and subsequently transferred to the management of the Oregon Arena Corporation.
- 1994 ○ Metro assumes management responsibility for the Multnomah County parks system and the Portland Expo Center.
- Region 2040 Concept Plan adopted.
- 1995 ○ New seven-member Metro Council, Executive Officer and Auditor take office under home rule charter.
- Voters approve \$135.6 million general obligation bond measure to acquire and protect open spaces, parks and streams.
- 2040 Growth Concept and Future Vision adopted.
- 1996 ○ Transfer of ownership of the Multnomah County Parks and Portland Expo Center to Metro.

- 2009 ○ Cooper Mountain, a restored 231-acre nature park complete with nature house and three and a half miles of trails, opens to the public.
- Metro Council extends the construction excise tax for an additional five years, to provide funding for planning of future expansion areas, future urban reserves and planning that enables redevelopment of centers, corridors and employment areas within the existing Urban Growth Boundary.
- The zoo opens the *Predators of the Serengeti* exhibit, bringing lions back to the zoo.
- 2010 ○ Metro collaborates with counties, cities and a wide variety of stakeholders to reach agreements on the Urban and Rural Reserves that protect 270,000 acres of farms, forests and natural areas and provide up to 28,000 land for growth if needed.
- Zoo *Red Ape Reserve* exhibit opens.
- Metro opens Graham Oaks nature park which contains three miles of trails traversing 250 acres of restored oak woodland habitat, a conifer forest, wetlands, five creeks, interpretative plazas and scenic overlooks, a picnic area and the beginning of the regional Tonquin Trail, which will eventually connect Wilsonville, Tualatin and Sherwood.
- 2011 ○ Metro Council adopts Community Investment Strategy and capacity ordinance to set the stage for meeting the region's 20-year growth needs.
- The Portland Expo Center opens West Delta Bar and Grill, providing needed onsite food services to visitors.
- 2012 ○ Oregon Zoo opens new Veterinary Medical Center in January. The center is the first major new facility to be completed with funding from the community-supported Oregon Zoo Bond.
- The Oregon Convention Center's outdoor plaza opens between Grand Avenue and Martin Luther King Jr. Boulevard, providing an open space for outdoor events in the Lloyd District.
- The Oregon Zoo was granted a conditional use approval for its elephant habitat, releasing \$58 million in bonds for construction activity.
- Metro's AAA bond rating was reaffirmed and the regional government was issued \$140 million of general obligation bonds, receiving a \$25 million premium.
- 2013 ○ Flamingo Aviary opens at the Oregon Zoo.
- Voters in the Metro region approve the five-year Parks and Natural Areas Local Option Levy. This levy is directed toward operating and maintaining regional parks and more than 16,000 acres of natural areas held by Metro, including streams, river frontages, wetlands, prairies, forests and more.
- 2014 ○ Condors of the Columbia exhibit opens at the Oregon Zoo.
- Metro Council approves the Development and Financing Agreement on the planned Oregon Convention Center Headquarters Hotel.
- The Oregon Convention Center achieves LEED Platinum Certification. It is the first convention center in the US to reach that level.
- Metro implements the Unclaimed Burial Spaces strategy to clarify ownership, eliminate risks, improve customer service, and create available inventory in Metro's historic cemeteries.
- 2015 ○ Elephant Lands opens, a major project of the voter-approved 2008 Oregon Zoo bond measure, dramatically increased the elephant habitat from 1.5 to 6 acres. The LEED Gold facility features a 160,000-gallon pool, hilly corridors, shady areas, an expansive indoor space, and automatic feeders to promote natural behavior.

- 
- 2016
- Metro's AAA bond rating was reaffirmed and received \$30 million from the 200 Oregon Zoo voter-approved bond measure.
 - Metro Council adopted the Parks and Nature System Plan which lays out Metro's mission and role, the state of the portfolio today, trends that will shape this work and a slate of strategies to guide the future of Metro's park and natural areas system.
- 2017
- Metro received a Aa3 rating for its dedicated tax revenue bonds from Moody's Investor Services. These bonds will be used for the OCC Hotel project.
- 2018
- Metro's AAA bond rating was reaffirmed by Standard & Poor's.
 - \$38.1 million of General Obligation Bonds were issued; \$10 million for the Oregon Zoo and \$28.1 million for the Natural Areas voter approved bond measures.
 - Metro issued \$13.3 million in full faith and credit bonds for renovations and repairs at the Metro Regional Center and Lone Fir Cemetery.
 - Metro received a \$5.9 million premium on the bond issuances in 2018.
- 2019
- Metro's AAA bond rating was reaffirmed by Standard & Poor's and Moody's rating agencies.
 - \$652.8 million of Affordable Housing Bonds were issued.
 - Metro voter's approved a \$475 million measure to protect natural areas and connect people to nature.
- 2020
- Metro issued the first \$200 million in bonds related to the 2019 Natural Areas measure approved by voters in 2019.
 - In May 2020, voters approved the Supportive Housing Services measure.

Budget summary

Metro uses many important tools in building the budget, but one of the most important is the five-year forecast, primarily for the General Fund and Oregon Zoo Operating Fund. The other primary operating funds, Metropolitan Exposition Recreation Commission (MERC) Fund and the Solid Waste Revenue Fund, are assessed slightly differently. The MERC Fund has a shorter focus, but with an emphasis on long-term capital requirements. The Solid Waste Revenue Fund is assessed based on how future expenditures and tonnage forecasts will impact the the solid waste fees . Each budget cycle begins with a review of how the funds are performing, what factors affect the funds in the same way and become the global assumptions, and what factors are related to the nature of the operations and need individual assumptions.

COVID-19 Pandemic economic impact to the adopted budget

Metro had finished its proposed budget when the pandemic impacted the region. Due to time constraints the proposed budget was not modified at that time but instead the Agency made larger scale changes from proposed to adopted. The largest and most important changes were made to the Zoo Operating Fund and the MERC Funds due to State's Covid-19 pandemic response and the resulting closures to facilities. The venue related budget changes directly impacted the General Fund's intragovernmental revenue sources and the pandemic also impacted the Fund's revenues and costs from the updated remote work policy. Additionally, the economic downturn has impacted Solid Waste Revenue Fund's tonnage related revenue and capital plans.

Although large scale changes were implemented, many unknown impacts both short term and long term were not visible at the time of adoption. Some larger financial decisions were made after adoption that Metro deemed necessary as the days moved forward. These changes were salary freezes to non-represented staff, participation in the unemployment Work Share program and ongoing schedule reductions and layoffs. These changes are not reflected in the adopted budget or in the discussions regarding funds and departments.

As the year marches on, Metro leadership will continue to closely monitor the economic environment of the region, important economic and financial indicators and overall health of the Agency and will make decisions that are financially prudent.

Global labor assumptions

Most labor costs affect the primary funds in the same way. There are some differences in individual collective bargaining agreements which are implemented and carried throughout the forecast period; benefit costs follow the same assumptions.

The Public Employee Retirement System (PERS) sets the rate for a two-year period, the current beginning in July 2019. The July 2019 increase was 3.8 percent, which represented a 44 percent increase over the previous rate effective July 1, 2017. The projection is for a slightly larger increase on July 1, 2021 with only a small increase on July 1, 2023. These increases have been factored into the forecasts.

To help mitigate the expected future increases, Metro established a PERS reserve, funded by capturing a temporary rate decrease from a prior period. FY 2020-21 is the fifth and final year in which this PERS reserves is available to reduce pension bond debt service payments.

Metro has also implemented a specific cost sharing formula for its health insurance programs: all employees, regardless of bargaining group, pay an 8 percent share. This is intended to influence the design of future benefit plans where cost savings can be shared. Nevertheless, health insurance costs continue to rise over the forecast period.

Global operating assumptions

The principles of Metro’s financial policies are followed throughout the five-year forecasts. Limited duration positions are eliminated as scheduled; no additional positions are included. A factor for historic under spending is included in the forecast. In the absence of contractual escalators tied to specific indices, general inflationary increases are modest and uniform. Each operating fund must budget for prudent contingency and stabilization reserves. Annual renewal and replacement contributions are required, reflecting Metro’s commitment to care for its assets.

Unique operating assumptions

Each fund also has assumptions unique to its operations. Factors such as general and specialized taxes, federal and state grant funding, tonnage or attendance-driven enterprise activity impact the funds differently. Interest earnings calculations remain historically low and are applied uniformly. The visitor venues are more sensitive to utility costs, food and beverage margins or per capita spending. Planning and Development is experiencing constraints tied to uncertainties in funding at the national level. The unique assumptions are addressed in the individual forecasts.

Understanding the importance of the forecasts

The purpose of the forecasts is not to display a balanced budget in all future years. The purpose is to identify vulnerabilities, highlight trends and provide a line of sight to help guide decision making. The forecasts serve as an early warning system and confirm that without continued strategic decision making, the current plan will not be sustainable. The five-year forecast keeps Metro focused on how decisions today set the path for future choices.

General Fund

The General Fund has more complex challenges because of its mix of enterprise, grant and general governance activities. The parks system has become less dependent on general support, as voters have renewed the Parks and Natural Areas Local Option Levy for a second five-year period effective July 1, 2018 through June 30, 2023. Planning and Development is heavily reliant on federal transportation funding for general transportation system planning and for specific project planning, both areas where federal support has flattened or modestly increased.

The General Fund includes three important discretionary revenues for FY 2020-21 property tax (\$16.7 million), general excise tax (\$19 million) and interest earnings. These are the resources that the Council can direct by choice to any general purpose. Throughout the forecast period property taxes maintain their solid collection rate and continue to grow at a modest rate. Excise tax is established in Metro code and grows at the rate of the Consumer Price Index. Over the forecast period excise tax does grow modestly, mostly due to the expectation of increases to Solid Waste tonnage, from which the majority of the excise tax is derived. Fluctuations in tonnage can cause increase or decreases in excise tax revenue collections. The General Fund also includes the construction excise tax, which is expected to only slightly increase over the forecast period. The construction excise tax is a dedicated tax used to provide funding for planning of future expansion areas, future urban reserves and planning that enables redevelopment of centers, corridors and employment areas within the existing Urban Growth Boundary.

Enterprise revenues in the General Fund are generated by Glendoveer Golf Course activities and MRC parking. Discretionary federal funding for general system planning, the Regional Transportation Plan and the Metropolitan Transportation Improvement Program, is expected to increase slightly, however the increased revenues are not expected to keep pace with the rise in expenses necessary to run the programs.

The forecast illustrates the application of one-time resources accumulated in one year to one-time spending, usually in a later year. Earlier multi-year special allocations were committed to urban and rural reserves and climate change start up; current multi-year allocations include programs such as Levee ready Columbia, Willamette Falls Locks and Intertwine. For the General Fund the five-year forecast reminds the agency of the need to be proactive, not reactive, to challenges that are seen in the future years. Combined, the steps taken over the last several years have helped make the five-year gap manageable. However, the forecast does suggest that additional adjustments will be required in future years. Unique to the General Fund is Metro's charter limitation, a limit on excise tax spending, adjusted annually by the Consumer Price Index. This limit includes spending of general excise tax and any portion of construction excise tax spent directly by Metro. Construction excise tax granted to other agencies is considered passed through and does not fall under the charter limitation on excise tax spending. The budget and the forecast years do not exceed the spending limit.

Metropolitan Exposition Recreation Commission Fund

MERC Fund continues to be strong particularly at the Oregon Convention Center and Portland's Centers for the Arts. Transient lodging tax continues to show modest growth throughout the forecast.

Revenues throughout the forecast reflect confirmed bookings. Food and beverage margins are based on current performance and maintained throughout. Revenues and expenditures directly related to event activity rise and fall with bookings. Fixed costs, facility maintenance and capital improvements require operational support from public resources, primarily transient lodging taxes.

The Portland Expo Center continues to face challenges on the expenditure side over the long-term. Current projects include a detailed review to develop options for the future.

Solid Waste Revenue Fund

The Council sets rates to fund the current expenditures of the Solid Waste Revenue Fund, balancing the public's interest in its facilities with the pocketbook issues of its rate payers. Solid waste Fees will rise over the next five year period, as Metro initiates significant infrastructure investments into the waste system and implements the 2030 Regional Waste Plan. Metro has been able to accumulate sufficient resources to help fund future capital improvements to limit future impacts on rates. In FY 2020-21 it is anticipated that reserves will be used to help subsidize commercial organics, fund some of the start of 2030 Regional Waste Plan goal and Council priorities and capital purchases to keep rates under an 11 percent increase. The solid waste fees have been budgeted to revenue for FY 2020-21 as a 10.9 percent increase, however the adoption of the rates will not occur until the second quarter of the fiscal year and may increase or decrease from the budgeted revenues. If rates are not increased, then the Solid Waste Fund's rate stabilization reserves will be used to cover current year costs. After 30 years the disposal contract and 90 percent flow guarantee to the current operator of the contract changed January 1, 2020. Reserves are established to provide some assistance in the event of an economic downturn with rates being adjusted to compensate in future budget years.

Oregon Zoo Operating Fund

In a typical budget cycle, the Oregon Zoo projects attendance to be approximately 1.525 million . However due to the negative impacts of the COVID-19 pandemic, this budget was adjusted to assume attendance of 762,500. Construction of the new Polar Passage and Primates exhibits, and improved habitat for rhinos will be finished in FY 2020-21. Per capita spending is also projected to increase moderately.

Adopting Resolution

BEFORE THE METRO COUNCIL

FOR THE PURPOSE OF ADOPTING THE ANNUAL)	RESOLUTION NO 20-5095A
BUDGET FOR FISCAL YEAR 2020-21, MAKING)	
APPROPRIATIONS AND LEVYING AD VALOREM)	Introduced by Marissa Madrigal, Chief
TAXES)	Operating Officer, with the concurrence of
)	Council President Lynn Peterson

WHEREAS, the Multnomah County Tax Supervising and Conservation Commission held its public hearing on the annual Metro budget for the fiscal year beginning July 1, 2020, and ending June 30, 2021; and

WHEREAS, recommendations from the Multnomah County Tax Supervising and Conservation Commission have been received by Metro (attached as Exhibit A and made a part of the Resolution) and considered; now, therefore,

BE IT RESOLVED,

1. The “Fiscal Year 2020-21 Metro Budget,” in the total amount of ONE BILLION, FOUR HUNDRED THIRTY FOUR MILLION SIX HUNDRED NINETY SIX THOUSAND EIGHT HUNDRED SEVENTY FOUR (\$1,434,696,874), attached hereto as Exhibit B, and the Schedule of Appropriations, attached hereto as Exhibit C, are hereby adopted.

2. The Metro Council does hereby levy ad valorem taxes, as provided in the budget adopted by Section 1 of this Resolution, at the rate of \$0.0966 per ONE THOUSAND DOLLARS (\$1,000) of assessed value for operating rate levy; at the rate of \$0.0960 per ONE THOUSAND DOLLARS (\$1,000) of assessed values for local option rate levy and in the amount of SEVENTY FOUR MILLION EIGHT HUNDRED SIXTY NINE THOUSAND TWO HUNDRED TWENTY (\$74,869,220) for general obligation bond debt, said taxes to be levied upon taxable properties within the Metro District for the fiscal year 2020-21. The following allocation and categorization subject to the limits of Section 11b, Article XI of the Oregon Constitution constitute the above aggregate levy.

SUMMARY OF AD VALOREM TAX LEVY

	Subject to the General Government <u>Limitation</u>	Excluded from <u>the Limitation</u>
Operating Tax Rate Levy	\$0.0966/\$1,000	
Local Option Tax Rate Levy	\$0.0960/\$1,000	
General Obligation Bond Levy		\$74,869,220

3. In accordance with Section 2.02.040 of the Metro Code, the Metro Council hereby authorizes positions and expenditures in accordance with the Annual Budget adopted by Section 1 of this Resolution, and hereby appropriates funds for the fiscal year beginning July 1, 2020, from the funds and for the purposes listed in the Schedule of Appropriations, Exhibit C.

4. The Chief Operating Officer shall make the filings as required by ORS 294.458 and ORS 310.060, or as requested by the Assessor's Office of Clackamas, Multnomah, and Washington Counties.

ADOPTED by the Metro Council on this 18th day of June 2020.

Lynn Peterson, Council President

APPROVED AS TO FORM:

Carrie MacLaren, Metro Attorney

FTE CHANGE FROM FY 2018-19 AMENDED BUDGET							(19.90)

Revenues and fund balance

FY 2018-19 current revenues include \$652.8 million of Affordable Housing Bonds. FY 2019-20 beginning fund balance includes unspent proceeds from those bonds. In addition, beginning fund balance for FY 2020-21 includes \$200 million in proceeds from the issuance of Natural Areas Bonds in April 2020.

Expenditures and fund balance

FY 2018-19 ending fund balance includes unspent bond proceeds from Affordable Housing Bonds.

Where the money comes from

Resources to meet Metro’s obligations and needs are derived from three primary sources: beginning fund balance, current revenues and interfund transfers. Beginning fund balance consists of resources carried forward from previous fiscal years, including proceeds from voter-approved bonds (e.g., Natural Areas, Oregon Zoo Infrastructure and Animal Welfare, and Affordable Housing), reserves for specific purposes (e.g. debt reserves, renewal and replacement, specific projects or programs) and monies used for cash flow. Current revenues are those earned from Metro operations or taxes levied during the fiscal year. The principal sources of current revenues are user fees and charges from individuals and organizations that pay to use Metro facilities or buy its services. Interfund transfers are payments from one fund to another fund usually for services rendered.

BEGINNING FUND BALANCE

Metro’s beginning fund balance constitutes 73 percent of its total resources.

The beginning fund balance for each fund consists of unspent resources carried forward from the previous fiscal year. Primary among these are unspent bond proceeds for the Oregon Zoo, Parks and Natural Areas, and Affordable Housing, as well as fees collected in prior years in the Solid Waste Revenue Fund and MERC Fund for operations, capital projects and other dedicated accounts. Another element of the beginning fund balance includes reserves for specific purposes (e.g. future capital reserves, debt reserves and specific projects or programs), which are generally required by law, policy or operating agreements. The beginning fund balance also provides cash flow for specific operations until current year revenues are received.

The General Fund’s \$49.8 million beginning fund balance accounts for 3 percent of the total beginning balances and is a combination of externally restricted grant funds and other internally identified balances. The internally identified balances include amounts committed for construction excise tax, designated for PERS reserve and future debt service, and funds designated for future uses. In addition, as part of its financial policies, the Council also directed that undesignated balances be maintained for contingency, available for any lawful purpose in the event of sudden and unforeseen revenue drops or unplanned expenditures. For FY 2020-21 about \$10.2 million of the General Fund’s beginning fund balance is undesignated.

FY 2020-21 Total resources

*Includes \$652 million in Affordable Housing Fund beginning fund balance.
 **Includes \$190 million in Parks and Nature Bond Fund beginning fund balance.

Total resources \$1,434,696,874

CURRENT REVENUES

Current revenues account for 23 percent of Metro’s total resources. The major elements of current revenues and the percentage of total current revenues they represent include the following:

Enterprise revenues– 40 percent

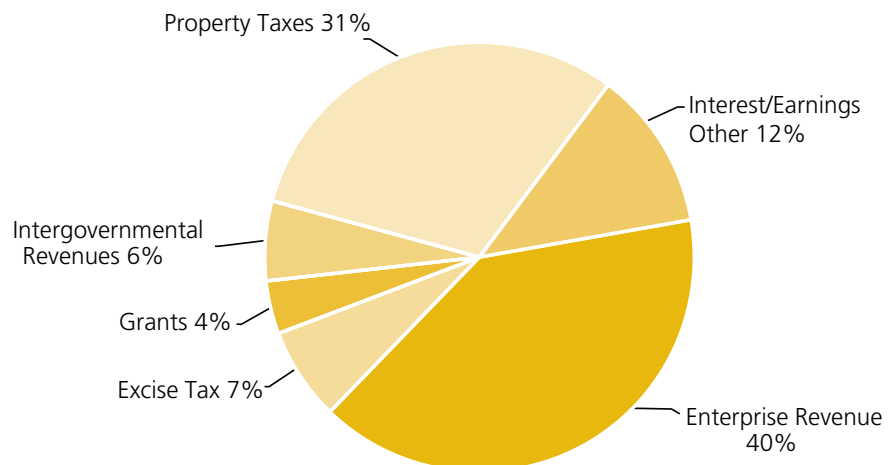

Enterprise activities generate the largest piece of current revenues at \$132.7 million. Metro’s largest enterprise activity is solid waste disposal, generating \$79.2 million, which comes from fees charged on solid waste deposited at Metro’s transfer stations or several other designated solid waste facilities. This is approximately a 3.5 percent increase from FY 2019-20. The various fees charged within Metro’s solid waste system, including fees based on tonnage, are discussed in the Solid Waste Revenue Fund summary later in this document.

The Visitor Venues include the Oregon Zoo along with the MERC Venues (OCC, Portland’s 5 and Expo) which together produce \$44.9 million in enterprise revenues, about 49 percent less than the prior year, due to the negative COVID-19 pandemic impacts on event schedule and attendance. The Oregon Zoo is showing enterprise revenue decline of about 52.7 percent and includes admissions fees, membership revenues, food and beverage sales, and other fees, rentals, and sales. The budget assumes attendance of 762.5 thousand in FY 2020-21. Enterprise revenues are the largest revenue source for all MERC venues, and consist of all charges related to event rentals and food and beverage sales. At OCC, enterprise revenues are 62 percent of current revenues, and are driven by convention bookings and regional events. At Portland’s 5 enterprise revenues make up 65 percent of current revenues, and include Broadway Across America, commercial rentals and rentals to resident companies and local non-profits. Expo also relies on enterprise revenues, which generate 60.8 percent of current revenues. These revenues are from consumer public shows, tradeshow and special feature events.

The Parks and Nature department charges for various services including parking at some of the park and boat ramp sites, cemetery sales, camping, nature education programming, and rental space. These amounts fluctuate annually based on demand in the region but are estimated at \$5.4 million for FY 2020-21. The remainder of the enterprise revenues come from parking fees, business license fees, community enhancement fees and data resource center charges for services.

FY 2020-21 Current revenues

RESOURCES	
Beginning Fund Balance	\$1,050,538,704
Current Revenues	
Real Property Taxes	103,937,844

Fund Equity Transfers	25,785,738
Subtotal Interfund Transfers	50,467,463
TOTAL RESOURCES	\$1,434,696,874

Total current revenues \$333,690,707

Property taxes– 31 percent

Metro expects to receive \$103.9 million in property tax revenues in FY 2020-21. This includes current year tax receipts to the General Fund directed toward operations of \$16.5 million; \$70.8 million related to debt service levies for general obligation bond issues for the Natural Areas program, the Oregon Zoo Infrastructure and Animal Welfare, and on Affordable Housing bonds (see Debt Schedules, section G for additional detail); and \$16.0 million from the local option levy for natural areas operations, which was extended for a second five-year period through FY 2022-23. The remainder, approximately \$642,000, will be received in the form of delinquent property taxes, levied in prior years but received in the current year, and interest and penalties on those late payments.

Excise taxes– 7 percent

Excise tax is recorded as revenue in the General Fund. It supports the costs of general government activities, such as the Council Office and elections expense. The tax also supports various planning, parks and venue activities.

The Metro excise tax is levied as a flat-rate per-ton tax on solid waste disposal and as a percentage of all other authorized sales and services. The Metro excise tax is estimated to raise \$19.2 million in FY 2020-21. By Metro Code, the amount of the per-ton tax may be increased annually based on the Consumer Price Index. The flat-rate per-ton tax was consolidated into a single yield-based tax in FY 2010-11, folding in a number of individual per-ton rates which had been imposed at different times. The single rate approach increases predictability and moderates revenue swings in times of either increasing or decreasing tonnage. The consolidation did not change the charter limitation on expenditures. The consolidated rate for FY 2020-21 will be \$12.47 per ton, an increase of \$0.90, effective July 1. The rate for all other authorized revenues, currently 7.5 percent, does not change unless amended by the Metro Council. The Council has exempted the Oregon Zoo, OCC, Expo, and the revenue generating functions resident in the General Fund – Parks and Nature, Metro Regional Center, and the Research Center – from excise tax; the intergovernmental agreement between Metro and the City of Portland exempts Portland’s from the tax.

In 2006 Metro also enacted a construction excise tax to fund land use planning projects to make land ready for development throughout the region. A 0.12 percent tax is assessed on construction permits issued by local cities and counties in the Metro region to provide funding for planning of future expansion areas, future urban reserves and planning that enables redevelopment of centers, corridors and employment areas within the existing Urban Growth Boundary. The Council reauthorized the excise tax in June 2014 extending the tax through December 2020. The tax is expected to generate \$2.8 million in FY 2020-21.

Intergovernmental revenues– 6 percent

Metro receives revenue from both state and local agencies. Among these are transient lodging tax receipts from Multnomah County, funds from the City of Portland to support the Portland’s, state marine fuel tax revenues and a portion of the recreational vehicle registration fees passed through Multnomah County from the State of Oregon to support the regional parks. It also receives an allocation from the Visitor Facilities Trust Account (VFTA) created as a cooperative agreement between Metro, Multnomah County, the City of Portland and the hotel and car rental industries to cooperatively support and market various visitor facilities and amenities in the region. Transient Lodging Tax receipts are projected to decrease 58.8 percent in FY 2020-21 due to negative impacts of the COVID-19 pandemic.

Also included are TriMet contributions for \$3.4 million for the Transit Oriented Development program and \$2.5 million for Regional Flexible Fund Allocation, and \$3.4 million from the VFTA for debt service on the OCC Hotel revenue bonds.

Grants– 4 percent

Grants are anticipated to provide \$13 million to the revenue mix. The primary planning functions of the agency—Planning and Development and the Research Center—receive approximately \$11.4 million in grant funds. These functions rely on federal, state and local grants to fund most of the transportation planning and modeling programs. Metro also receives grants for projects planned at regional parks and natural areas and the Oregon Zoo, and periodically for projects at MERC venues. Non-planning grant funds are project specific and will vary from year to year.

Other miscellaneous revenues/Interest earnings– 12 percent

In FY 2020-21 other revenues include \$8.6 million in donations, \$22.5 million in projected interest earnings, due to the Affordable Housing bond issuance in May 2019 and the Parks and Nature Bond approved by voters in 2019 and issued in April 2020. About \$9.9 million is received from a variety of other miscellaneous revenue categories, including \$7.5 million related to the Zoo to account for possible increased admissions and services in case of recovery from the pandemic, which is offset by the same amount in miscellaneous revenue.

INTERFUND TRANSFERS

The remaining 4 percent of total resources comes from interfund transfers. Metro budgets its resources in separate and distinct funds. Transfers between funds pay for internal services provided directly by one department to another or indirectly on a cost-share basis as determined through the indirect cost allocation plan. Interfund reimbursements (indirect services) and internal service transfers (direct services) total \$24.7 million in FY 2020-21. The transfer classification also includes \$25.8 million in fund equity transfers (revenue sharing between funds). This includes transfers such as discretionary revenues from the General Fund to provide for Oregon Zoo operations and transfers to assist in capital development and renewal and replacement of General Fund assets.

Metro uses its resources for a variety of purposes prescribed by state law and Metro Charter. Ending fund balances are resources that are not spent during the year but carried over to subsequent year(s). They include reserves, monies for cash flow purposes and bond proceeds that will be spent in ensuing years for capital projects. Resources to be spent during the year can be categorized in one of several current expenditure categories.

Metro’s total current expenditures are allocated for the specific programs and functions described in the Organizational Summary section contained in the body of this budget document. 45 percent of current expenditures support the operations of Metro facilities such as the Oregon Zoo, OCC, Expo, Portland’s, regional park facilities and solid waste disposal facilities, as well as programs such as waste reduction, recycling information and regional transportation and growth management planning. Another 29 percent is allocated for specific requirements, which is predominantly related to Affordable Housing, but also includes cemetery perpetual care, risk management, community enhancement and the Smith and Bybee Wetlands. 13 percent is dedicated to debt service on outstanding general obligation, revenue and full faith and credit bonds. And the remaining 13 percent is allocated for capital outlay and improvements to various facilities and acquisition of new natural areas.

Interfund transfers between funds and contingencies for unforeseen needs, such as unexpected increases in costs or drops in revenue, make up the balance of Metro expenditure requirements.

FY 2020-21 Total requirements

NOTE: the percentages in parentheses are the percent of total current expenditures.

Total requirements \$1,434,696,874

CURRENT EXPENDITURES

Current expenditures consist of amounts to be paid out in the current fiscal year by categories defined in budget law. This includes payments for operations, debt service, grants, capital improvements and acquisitions. The major elements of current expenditures and the percentage of total current expenditures they represent include the following:

Personnel services– 20 percent

Metro plans to spend approximately \$121.5 million for salaries and wages and related expenditures for its employees in FY 2020-21. Personnel services include employee-related benefit costs such as health and welfare and pension contributions. Fringe benefits are about 51.7 percent of salaries and wages and 34.1 percent of total

FY 2020-21 FTE positions by function

Total FTE 979.66

personnel services costs. For a more detailed discussion of fringe benefits refer to the appendix “Fringe benefit rate calculation.” A 10-year comparison of salaries, wages and benefits is provided later in this section.

The FY 2020-21 budget includes 979.66 full-time equivalent positions, a decrease of 19.9 FTE. “FTE” means regular, benefit-eligible full or part-time positions. While temporary, seasonal and event-related labor costs are reflected in the total personnel services expenditures, these employees are not considered FTE. A discussion of staff levels is provided later in this section.

Materials and services– 57 percent

Metro plans to spend approximately \$354.6 million on materials and services in FY 2020-21, which is an 8 percent decrease from the prior year. Metro plans on distributing \$170.8 million in FY 2020-21 to local jurisdictions for land acquisition, acquisition and rehabilitation of existing residential properties, and new construction of affordable housing. Other significant materials and services expenditures include \$60.7 million for solid waste transfer station operations and the transport of solid waste to the Columbia Ridge Landfill in Gilliam County, program costs for Resource Conservation Recycling and Solid Waste Compliance and Cleanup. The Parks and Nature Bond that was approved by Oregon voters in 2019 is anticipates to spend \$25.3 million in materials and services in support of payments to other jurisdictions and community grants. In addition, materials and services at the Visitor Venues (OCC, Oregon Zoo, Expo and Portland’s), which account for spending necessary to operate and market the facilities, approximates \$41.3 million for FY 2020-21.

Capital outlay– 10 percent

Approximately \$62.1 million is provided for capital expenditures. These funds provide for land acquisitions and major capital improvement projects at various facilities. The largest uses of capital funds are \$19.6 million for capital improvements at the Oregon Zoo under the Oregon Zoo Infrastructure and Animal Welfare Bond measure, \$3.3 million for land acquisition and capital expenditures related to the Natural Areas program, \$1.1 million for capital expenditures in the Parks and Nature Bond Fund, \$6 million for capital improvements at MERC facilities, and \$13.8 million for solid waste facility capital projects of which \$7.5 million of solid is allocated for land acquisitions. Another \$14.2 million is provided for various capital or renewal and replacement projects at the regional parks or Metro Regional Center, including information technology infrastructure. Capital expenditures include

purchases of land and equipment, improvements to facilities and other capital related expenditures. Projects costing \$100,000 or more are included in Metro’s capital improvement plan, which is updated and adopted annually and can be viewed in the Capital Improvement Plan section of this document.

Debt service– 13 percent

Debt service provides for payments on limited tax pension bonds, general obligation and full faith and credit bonds sold for Affordable Housing, OCC, Metro Regional Center, the Natural Areas program, Expo and the Oregon Zoo, and dedicated tax revenue bonds for the OCC Hotel Project. A more detailed discussion of outstanding debt, including new debt, is provided in the Debt Summary section of this document.

INTERFUND TRANSFERS

Metro budgets its resources in separate and distinct funds. Transfers between funds are made to pay for the cost of services provided in one fund for the benefit of another (e.g., payroll, fleet, etc.) or to share resources between funds. Interfund transfers in FY 2020-21 total \$50.5 million. Interfund transfers appear as both a resource to the receiving fund and a requirement for the transferring fund in the budget. An explanation of all transfers is provided in the appendices.

CONTINGENCY

Contingencies in each fund are created to provide for unforeseen requirements such as unexpected increases in costs or drops in revenue. These funds may be spent only after an action of the Metro Council authorizes transferring appropriations from contingency to an expenditure line item.

FY 2020-21 Current expenditures by budget category

Operating Funds

The operating funds include the General Fund, MERC Fund, Oregon Zoo Operating Fund, Solid Waste Revenue Fund and the Parks and Nature Operating Fund. A more detailed presentation of the operating funds is found in the Fund Summary section.

- Property taxes reflect Metro's permanent operating rate of \$0.0966/\$1,000 of assessed value; and the local option levy rate of \$0.0960/\$1,000 of assessed value. FY 2020-21 is the third year of the second five-year local option levy approved for renewal approved by voters in 2016. Both levies assume a 4.0 percent increase in assessed value and a 94.5 percent collectible rate.
- Local government revenues include the Transient Lodging Tax (TLT) collected by Multnomah County to support operations of OCC and Portland's and capital funding for OCC and Expo, and the Visitor Facilities Trust Account (VFTA) allocations to OCC and Portland's. Those revenues are expected to decrease related to expected negative impact of the COVID-19 pandemic on the number of hotel room nights and associated lodging revenues.
- Enterprise revenues include a 46.5 percent decrease at MERC, a 52.7 percent decrease at the Oregon Zoo and a 3.5 percent increase in solid waste revenues.
- Personnel services costs decreased by 2%. The decrease is related to staff reductions related to the COVID-19 pandemic and is partially offset by an increase in PERS costs and salary adjustments for cost of living adjustment, merit and step increases. A large percentage of Metro staff are represented and salary increases are based on specific collective bargaining agreements. A detailed chart of FTE changes is provided later in this section.
- Contingencies are replenished following Council approved financial policies.

Capital/Bond Funds

The capital/bond funds include the General Asset Management Fund, Oregon Zoo Asset Management Fund, Natural Areas Fund, Open Spaces Fund, Oregon Zoo Infrastructure and Animal Welfare Fund and Parks and Nature Bond Fund.

The General Asset Management Fund and the Oregon Zoo Capital Asset Management Fund are funded through resource transfers from other funds and the issuance of Full Faith and Credit Bonds in FY 2017-18.

The Open Spaces Fund, Natural Areas Fund, Oregon Zoo Infrastructure and Animal Welfare Fund, and Parks and Nature Bond Fund are funded through the sale of general obligation bonds following voter authorization in 1995, 2006, 2008, and 2019, respectively.

Significant project expenditures in FY 2020-21 include:

- \$7.5 million for land acquisition facility design for a new solid waste facility
- \$15 million for land acquisition for affordable housing projects
- \$21.6 million for the Polar Bear Passage and Primate Exhibit at the Oregon Zoo
- \$4.2 million for equipment building and infrastructure improvements at the MRC building
- \$4.5 million for design and construction of the Willamette Falls project.

- \$4.3 million for acoustical enhancements at Arlene Schnitzer Concert Hall
- \$2.3 million for development of the Chehalem Ridge Nature Park in parks and natural areas
- \$2.0 million in additional renovations and equipment purchases at the Oregon Zoo

Debt Service Funds

The debt service funds include the General Revenue Bond Fund and the General Obligation Bond Debt Service Fund. Property taxes provide for debt service payments on the outstanding general obligation bonds.

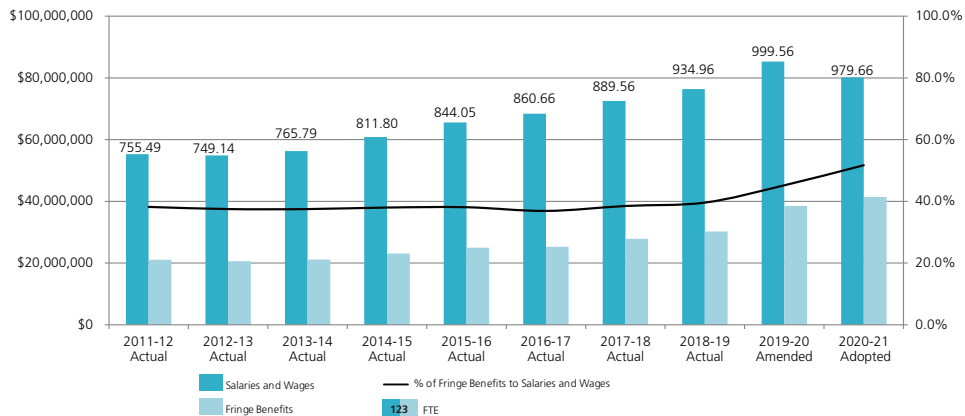

\$200 million of general obligation bonds were issued in April 2020 for the Natural Areas program and the debt service payments on the issuances begin in FY 2020-21.

Other Funds

Other funds include the Affordable Housing Fund as well as the Cemetery Perpetual Care, Community Enhancement, Risk Management and the Smith and Bybee Wetlands Funds.

Current revenues include \$18 million in interest earnings, primarily from earnings on investments of Affordable Housing bond funds. Current expenditures include payments to other governmental agencies of \$150 million and program purchases of \$20 million for affordable housing. Contingency of \$35 million is also included in FY 2020-21 appropriations.

FY 2020-21 Comparison of salaries and wages

Salaries, wages and benefits

Over the 10-year period authorized FTE has risen by approximately 224 FTE. Impacts have come from a variety of different programs within the agency. The Parks and Nature programs have seen increases in FTE related to bond-funded programs as well as programs funded by the Parks and Natural Areas Local Option Levy. The Solid Waste Fund has had significant programmatic and operating changes which has resulted in additional FTE. Over the past 10 year period, the Visitor Venues (Oregon Zoo, OCC, Expo Center and Portland's) have also increased staffing to improve service levels and better manage the animal collection and exhibit structures; however the Visitor Venues have decreased their FTE by 18 FTE for the FY 2020-21. The decrease is mostly from a move to contracted services for some functions at the Oregon Zoo. Other increases over time have been due to reclassifying temporary staff that were being used on a consistent basis to regular positions, and including all regular part-time, non-event driven positions in FTE. These changes have impacted the number of FTE without a significant change in operations. The positions are a combination of limited duration and regular status. Council approves the addition of each FTE.

Salaries are a reflection of authorized FTE and are adjusted based on cost of living, step increase or merit awards and other collective bargaining factors. Metro has eight collective bargaining units. AFSCME 3580 and LIUNA 483, the two largest collective bargaining units representing approximately 61 percent of all regular positions and 92 percent of represented regular positions. AFSCME 3580 has an agreement in place through June 30, 2020. As of the preparation of this document, negotiations were in progress to reach a new agreement between Metro and AFSCME 3580. LIUNA 483's current agreement ends June, 30, 2023. In addition, LIUNA 483 represents all temporary and seasonal employees at the Oregon Zoo. The budget provides for a cost of living adjustment for represented and non-represented regular employees, ranging from 2.5 percent to 3.25 percent, depending on the agreement. However, due to the economic impacts of the COVID-19 pandemic, non-represented employees are not expected to receive the budgeted cost of living increase for FY 2020-21. Represented employees are also eligible for step increases based on longevity as determined by each collective bargaining agreement. As a cost-saving measure, non-represented employees are not expected to receive a merit increase in FY 2020-21. Metro's salary plan remains competitive in the market although there may be slight adjustments to salary ranges for specific classifications.

Fringe benefits include components such as payroll taxes, pension contribution and health and welfare premiums. Overall costs are driven primarily by two factors: pension contributions and health and welfare premiums. The PERS rate is set for a

two-year period and became effective July 1, 2019. Therefore, the rate used for the FY 2020-21 budget has not changed from the previous year and is set at 16.4 percent of salary. Another rate increase is expected with the new rates effective July 1, 2021, which will impact the FY 2021-22 budget. Anticipating significant rate increases, the Metro Council decided in FY 2009-10 to reserve for two years the 3 percent rate reduction of that actuarial period as a hedge against future rate increases. Since the reserve was established, Metro has contributed additional funds into the reserve, including health and welfare rate savings in FY 2016-17. The PERS reserve is used to partially offset PERS related costs, resulting in a 0.5 percent offset in FY 2020-21. The reserve will be fully utilized in FY 2020-21.

The PERS rate is divided into two components – the employer rate and the employee contribution. The employer rate is determined through actuarial studies performed every two years. The employee pick-up rate is set at 6 percent. For years, Metro paid the employee contribution on behalf of the employee, except for one collective bargaining group, which opted to receive the salary increase. Beginning July 1, 2011, all newly hired unclassified and non-represented employees began paying their own PERS employee contributions. Beginning July 1, 2012, all newly hired AFSCME employees began paying their own PERS employee contributions, with the exception of AFSCME members hired to work at OCC and Expo. As of July 1, 2014, OCC and Expo AFSCME workers, in addition to all newly hired employees are now paying their own PERS employee contributions.

Metro provides medical, dental and vision coverage on behalf of its employees. Metro picks up a set percentage amount of the premium based on an employee's health and welfare elections, with the employee paying the remaining portion. All regular eligible employees receive a 92 percent employer share and 8 percent employee share.

The FY 2020-21 budget assumes a 10 percent increase in health care premiums effective upon renewal in January. Actual costs will depend on provider proposals, which are reviewed by the agency's Joint Labor Management Committee on health care, and the enrollment choices made by Metro employees.

The appendices at the end of this volume provide more discussion on fringe benefit components.

Staff levels

Metro counts regular, benefit-eligible staff positions by FTE. One FTE equals one person working full time for one year (2,080 hours). One FTE most often means one person working full-time, but it may also be two people each working half-time, or some other combination of people whose total work time does not exceed 2,080 hours. Temporary, seasonal and MERC event-related positions are not included in the FTE chart.

Overall staffing levels gradually increased from FY 2017-18 to FY 2019-20. The FY 2020-21 budget shows a reduction by nearly 20 FTE, which is discussed in the section below. The increases over time have been a result of operational and programmatic requirements. Metro established the Affordable Housing Fund after voters approved a \$652.8 million bond measure in 2018; the FY 2020-21 budget has allocated 7.70 FTE to this fund. Voters have renewed the commitment to the Parks and Natural Areas Local Option Levy through FY 2022-23 and in 2019 voters approved the issuance of up to \$475 million in Natural Areas bonds. These funding sources have allowed Parks and Nature to increase FTE over the years and add 17 new positions in FY 2020-21. FTE increases within the Solid Waste Fund are in response to the region's continued growth. Approximately 52.0 FTE within the Solid Waste fund have been added since FY 2017-18, performing a variety of functions within operations; educational support; conservation and recycling; and compliance and cleanup. The

Total Visitor Venue FTE	403.25	410.22	410.70	392.35	(18.35)	(10.90)

General Fund has added new FTE to meet the ongoing operational needs of the agency, providing support in such areas as capital asset management; communications; leadership and policy development; diversity, equity and inclusion; financial and information services, and human resources. New additions to the Visitor Venues are in response to service level requirements, security, and exhibit management.

Staffing changes for FY 2020-21

The FY 2020-21 budget includes 20 new positions, 17 of which are funded within Parks and Nature mainly as a result of the issuance of \$200 million in Natural Areas Bonds in April 2020 (see Debt Schedules section for additional information). However, even as some new FTE have been added in FY 2020-21 to address operational needs, the agency eliminated nearly 40 FTE from the FY 2020-21 budget, for a net decrease of 19.90 FTE. Of the decrease, nearly 15 FTE were at the Oregon Zoo as some services moved to contract basis. An additional 25 FTE were reduced across various departments as a cost-savings measure in response to the economic impacts of COVID-19 on the agency. Additionally, 4.45 FTE were moved from the Visitor Venues to other departments to reduce costs at the Venues and to support shifting needs of the agency. A reorganization resulted in the development of the Capital Asset Management department within the General Fund; 25 FTE were transferred from Council and Waste Prevention and Environmental Services (WPES) to this new department. The 17 new positions that were added to Parks and Nature will fill a variety of needs such as increased park ranger coverage, maintenance and support of parks resources, and administrative assistance. Finance and Regulatory Services and Human Resources each added a new position to support the ongoing operations of Metro. Other staffing changes by service area reflect continuing consolidation and realignments arising from agency reorganizations.

A four-year FTE history detail is provided in the appendices of the Adopted Budget.

The Metro Council provides regional governance and leadership by fulfilling Metro’s mission of crossing city limits and county lines to work with communities to create a vibrant and sustainable region for all. As the governing body of Metro, the Council develops long range plans for existing and future Metro activities, and assures the financial integrity of the agency. The Council Office supports the Councilors as individuals as well as the Council as a whole in its role as a legislative body. Professional staff acts as a liaison between the Councilors and Metro staff and external partners and stakeholders.

The Office of the Chief Operating Officer (COO) leads staff in implementing the Council’s policy directives, goals and objectives. The COO and Deputy COO (DCOO) enforce Metro ordinances, provide day-to-day management of Metro’s resources, programs, enterprise businesses, facilities and workforce, and prepare the proposed budget for Council consideration.

Government Affairs and Policy Development (GAPD) represents Metro’s interests before local, state and federal governments, to help the Metro Council and agency departments develop policy concepts, initiatives, and strategies, and to carry out special projects and partnerships.

The Diversity, Equity and Inclusion (DEI) program coordinates and leads efforts to cultivate diversity, advance equity and practice inclusion across the agency by implementing the Strategic Plan to Advance Racial Equity, Diversity and Inclusion, the Diversity Action Plan, and inclusive community engagement practices to achieve equitable outcomes and strengthen relationships with diverse communities.

SIGNIFICANT CHANGES FOR THE BUDGET

For FY 2020-21, the Council/COO department budget has committed \$460,000 for a capacity building pilot program that would support civic and community engagement capacity among CBOs who serve communities of color.

Additional changes for the Council/COO budget include a reduction in personnel services costs due to the transfer of 8.2 FTE to the new Capital Asset Management department. Other personnel services changes include the transfer in of a 1.0 FTE to work within GAPD, request for funding to support a 1.0 FTE for Regional Investment Strategy work within GAPD and the reduction of 2.0 FTE as a cost-savings measure due to the financial impacts of COVID-19 pandemic on the agency. In addition to a reduction in overall Personnel Services, the Council department committed to a reduction of over 4% in Materials & Services.

REGION’S SIX DESIRED OUTCOMES

The Metro Council’s alignment with the six desired outcomes include investing in public infrastructure by identifying funding sources for transportation to build out important projects; participating in innovative planning to guide an affordable housing strategy, the growth management process, solid waste roadmap, and the 2018 Regional Transportation Plan; ensuring environmental preservation and enhancement through implementation of the natural areas system plan and climate smart strategies; investing in high wage jobs through the Oregon Convention Center hotel project, industrial lands and brownfields redevelopment and the Willamette Falls Legacy Project; and supporting regional efforts to promote diversity and equity.

GAPD works with the Metro Council Office and other departments to achieve key objectives that advance the agency’s six desired outcomes. Critical activities in the FY 2020-21 budget include advancing Council’s goals for creating a more livable region through a coordinated Regional Investment Strategy advancing regional investments in affordable housing, supportive housing services, parks and nature and

transportation. GAPD is coordinating the investment strategy's steering committee and project team process, and coordinating outreach to key stakeholders including our government partners and local community groups. GAPD will be executing the agency's 2021 legislative strategy, including advocating for land use priorities, housing affordability, transportation funding, and product stewardship.

In the coming fiscal year, the DEI program will focus on advancing the opportunity to establish funding for a capacity building pilot program that would support civic and community engagement capacity among CBOs who serve communities of color. The program would address the increasing demand Metro is placing on CBO partners and would strengthen coalition building so together we can deliver on Metro's region-wide efforts to invest in vibrant communities and advance equity in the region and deliver on outcomes for Metro's Strategic Plan to Advance Racial Equity, Diversity and Inclusion; Regional Waste Plan; Regional Transportation Plan; Parks and Nature System Plan; Housing Bond; and Parks and Nature Bond.

METRO'S EQUITY STRATEGY

Metro Council adopted the Strategic Plan to Advance Racial Equity, Diversity and Inclusion in June 2016 and adopted an updated version of the Diversity Action Plan in May 2017. Through the DEI program, Metro has been focused on implementing action items identified in both plans, and collaborates with departments and venues to ensure Metro staff and leaders feel empowered and able to successfully accomplish the goals and action items. The Committee on Racial Equity is in its third year and DEI continues to recruit new members and provide opportunities for training and leadership development opportunities for co-chairs and members.

GAPD, in partnership with the DEI team, works with Metro departments to embed the agency's Strategy to Advance Racial Equity within the Regional Investment Strategy funding initiatives. This work includes the development of policies, engagement of community, establishment of goals and outcome measures, development of oversight and accountability mechanisms, and specific steps planned for implementation of each of the Regional Investment Strategy programs.

In FY 2020-21, the Construction Careers Pathways project will work on phase two of the effort which includes: formalized regional collaboration table consisting of participating public partners, deliver a publicly accessible workforce equity dashboard for public construction projects, develop a multi-jurisdiction project labor agreement with union partners, and launch a coordinated strategy to invest in culturally specific workforce advocacy organizations.

DEI program will assist the Oregon Convention Center, P5, and the Expo Center in completing their racial equity plans and launch the first year of implementation.

In addition, Metro, through the DEI program, will focus on agency wide work to build staff capacity to advance racial equity,

- Develop and launch a required Metro managers and supervisors DEI competencies training program
- Implement recommendations from the Transgender Non Binary employee policy audit conducted by Rhodes Perry.
- Develop new innovative strategies to support Metro's diverse employees to create welcoming culture and better systems to address, reduce, and prevent conflict and micro-aggressions in the workplace.
- Increase storytelling and shared learning opportunities to advance DEI practices through internal Metro mediums from Monday Message, all staff gatherings, and site visits to encourage participation.

The Office of the Metro Auditor ensures that Metro and its activities are transparent and accountable to the public. The office has three core functions:

Performance Audits – Audit reports provide recommendations to improve the efficiency and effectiveness of Metro’s programs and services. Audits are conducted following Government Auditing Standards. The results are presented publicly to the Metro Council and published on the Auditor’s website. The office tracks the implementation of audit recommendations and conducts follow-up audits after the original audit work is completed.

Metro Accountability Line – The office administers a phone and online system that allows employees and the public to anonymously report concerns related to fraud, waste, abuse and inefficiency. The Auditor oversees investigations conducted in response to reports and can initiate an audit if needed.

Financial Statement Audit – The Auditor appoints the external auditor and administers the contract for the annual audit of Metro’s financial statements.

SIGNIFICANT CHANGES FOR THE BUDGET

The Auditor reduced the office’s budget to respond to the financial challenges resulting from COVID-19. The adopted budget includes reduced spending for both personnel and materials and services from the initial proposed budget.

REGION’S SIX DESIRED OUTCOMES

The performance audits conducted by the Auditor’s Office provide information about Metro’s progress in achieving the region’s six desired outcomes.

METRO’S EQUITY STRATEGY

Performance audits and the Accountability Line provide opportunities to evaluate Metro’s progress on the Equity Strategy. The mission of the Auditor’s Office is to ensure accountability and transparency to the public, which is consistent with the goals of Metro’s Equity Strategy.

FTE CHANGE FROM FY 2019-2020 AMENDED BUDGET							16.30

Parks and Nature protects water quality, fish and wildlife habitat and connects people to nature through a connected system of parks, trails and natural areas. With 17,000 acres, the department manages parks and natural areas across every community in the region – from Chehalem Ridge on the west to the Sandy River Gorge on the east, from Blue Lake and Broughton Beach on the north to Graham Oaks on the south. Our flourishing network of parks, trails, natural areas, nature programs and cemeteries supports Metro’s broader mission: making a great place.

SIGNIFICANT CHANGES IN THE BUDGET

In November 2019 voters across the Metro region approved a renewal of the Metro Parks and Nature bond measure, which will raise \$475 million to protect clean water, restore fish and wildlife habitat and provide opportunities for people to enjoy nature close to home. The FY 2020-21 budget includes \$25 million for various bond related projects and has added 14.0 FTE to carry out the bond work. Those FTE include the following:

- 9.0 FTE to support the “Protect and Restore Land” program area
- 1.0 FTE to support the “Nature in Neighborhoods Capital Grants” program area
- 1.0 FTE to support the “Take Care of Metro Parks” program area
- 3.0 FTE to manage the bond program, engage with community, and support the bond administratively

To address increased visitation at the Metro park sites and in preparation for new parks opening in FY 2020-21, the department has added \$40,000 to their Park Operations budget and added 8 FTE for the following purposes:

- 2.0 FTE to add overnight ranger support at Oxbow Park
- 2.0 FTE to support the increasing natural areas portfolio resulting from bond work
- 2.0 FTE to provide additional guest service opportunities and coverage
- 2.0 FTE to support the Park Operations and Maintenance teams

The Parks and Nature department is combining their General Fund and Levy resources into one fund (the Parks and Nature Operating Fund). This will result in a clearer overall picture of the health of the department’s operating budget as well as easier and better financial tracking.

Additional resources were allocated for the following purposes:

- \$260,000 to fund various agency initiatives including CO2 sequestration research, capacity building for agency-wide DEI, and additional resources for data research.
- \$100,000 for the Natural Areas Land Management team to account for rising costs of restoration and land management work.
- \$134,500 for development of a department wide DEI training plan and additional resources for the Salmon Homecoming event with increased indigenous community outreach.
- \$50,000 for additional department training and staff development.

Due to the COVID-19 pandemic, the Parks and Nature department budget changed prior to adoption. These changes relate mostly to shifting funding from our operating fund to bond fund when possible, delaying start dates for some of the new FTE added in FY 2020-21, and the elimination of 2 vacant FTE.

REGION'S SIX DESIRED OUTCOMES

The work of the Parks and Nature Department is primarily focused on ensuring that current and future generations enjoy clean air, clean water and healthy ecosystems. That work is organized into five program areas:

- Protect and Conserve Nature
- Create and Maintain Great Places
- Connect People to Nature
- Support Community Aspirations
- Convene, Plan and Build a Regional Trail System

The FY 2020-21 budget advances this work through a continuation of important efforts such natural area land acquisition that is funded by the voter-approved 2006 and 2019 Natural Areas bond measures and the implementation of work plans funded by the 2018 Parks and Natural Areas levy. The levy, along with Metro's general fund, support Parks and Nature operations and maintenance.

METRO'S EQUITY STRATEGY

Commitment to diversity, equity, and inclusion is woven through all Parks and Nature investments and programs. This budget supports implementation of the Strategic Plan to Advance Racial Equity, Diversity and Inclusion by continued investment in staff training and development to complete the strategies and actions included in the plan. Funding for programs like Partners in Nature and Access to Nature continues in this budget. These programs are specifically designed to connect communities of color to Metro's parks, trails, and natural areas, and improve Metro's park design to make our natural areas more welcoming to diverse communities.

Planning and Development works and engages with the public about the challenges and opportunities of community livability, development, growth and change over the long term. As such, our work must anticipate and respond to regional and national economic, demographic, and financial trends impacting our region's ability to accomplish the vision of the 2040 Growth Concept.

While the department's work is fundamentally based on accomplishing federal, state, and regional planning and policy requirements, our ability to accomplish these policy goals is directly linked to the programs and investments we deliver to our government and community partners, so these programs are an equally fundamental part of the department's work. Linking together planning, policy, and programs has made Metro a national leader in planning and development. Because multiple external factors and changing trends affect community development, the department must continually assess and ensure that our resources and programs are investing in effective and relevant ways to help the region's communities plan for growth.

With the approval of the November 2018 Affordable Housing Bond, Planning and Development added a significant new core function: responsibility for operating a program to build 3900 affordable permanently affordable homes across the region, and to ensure public oversight and accountability for the bond fund investments. This work is expected to last five to seven years and will be integrated with other land use and equitable development work. While this work is modeled on our other programs that invest resources in local government partners' implementation of projects, the scale of housing bond resources has required the department to build program capacity. This program scale and capacity as well as Metro's responsibility for bond oversight, means it is now part of the department's fundamental mission. The FY 2020-21 budget reflects the program's second full year of implementation.

SIGNIFICANT CHANGES IN THE BUDGET

Planning and Development has seen a number of adjustments for FY 2020-21 due to shifting priorities and grant funding timelines.

- Southwest Corridor is nearing completion which is reflected by a \$700,000 reduction in contract costs.
- The Columbia Connects project is reduced by \$300,000 in contracts costs.
- One-time funding for Congestion Pricing contracts will be spent reducing contracts by \$190,000 as the project moves to the next phase.
- Montgomery Park to Hollywood Development payments to local partners is reduced \$500,000 as anticipated in the project scope and timeline.
- The Transit Oriented Development program M&S budget is reduced by \$4.0 million to reflect actual expenditure needs.
- Affordable Housing Fund decreased capital outland by \$30.0 million to reflect no capital outlay expenditures for the scope of the project plan.
- Grant funding for both the Community Placemaking (\$200,000 per year) and Emerging Technology (\$150,000 per year) programs is now an annually ongoing allocation.

REGION'S SIX DESIRED OUTCOMES

In the early 1990s thousands of Portland area residents weighed in on a 50-year blueprint for growth that aims to protect farms, forests and historic neighborhoods and ensure access to good jobs, housing and transportation options for all. Planning

and Development works with local partners to bring this vision to life across the region – targeting investments in downtowns and main streets that spur economic development and accommodate growth while preserving the unique character of each community for all residents. As the region’s Metropolitan Planning Organization, we work collaboratively with cities, counties, and transportation agencies to expand transportation options, make the most of existing streets and improve public transit service in order to provide safe, reliable transportation choices and to help continue our region’s leadership on climate resilience and greenhouse gas reduction. In the FY 2020-21 budget, we will begin to look at ways to refresh our region’s long term vision and recommend new approaches that will help us achieve our six desired outcomes.

METRO’S EQUITY STRATEGY

In 2018, after significant engagement with staff, agency colleagues, and community partners, the department completed its own strategy to advance racial equity, aligned with Metro’s agency-wide strategy to achieve racial equity. Our vision states: “Metro’s Planning and Development Department will work together to ensure that all facets of our work actively advance or support the advancement of racial equity. We will actively dismantle structures of racial inequality, both internally and throughout the region. We will use Metro’s unique position as a leader in the discipline of urban planning to normalize racial equity work in contemporary planning practice and we will remain committed to this endeavor until racial equity is achieved.”

Our equity goals are organized around five key principles of power, influence, innovation, culture and accountability. The FY 2020-21 budget incorporates the action items in these categories as we prioritize implementation of the department’s racial equity strategy.

The Research Center (RC) supports Metro policy-making and operations by providing high-quality information. The two most visible functions RC fulfills for Metro are providing decision support analytics and providing program support software applications. Selected examples of decision support include forecasting transport system performance given the investments in the Get Moving 2020 bond measure or the Regional Transportation Plan; and supplying centralized, accessible, and sustainable performance measurement information through Metro's By The Numbers system. Operational support for programs includes ParkMap, the Pesticide Application Report (PAR) system for WPES' Integrated Pest Management program, and the field application that WPES' Regional Illegal Dumping team uses to log evidence, view case data, and assess program performance.

RC delivers excellent decision and program support because those tasks are founded in a third critical function: collecting and analyzing high-quality data through the Regional Land Information System (RLIS) program. RLIS will continue to evolve as necessary to support the needs of By the Numbers, Metro's new housing program, next-generation transportation data, Council priorities, and more. RC's base budget proposal focuses on sustaining high-priority Metro programs and pivoting as much effort as possible, under extremely tight revenue conditions, to emerging programmatic needs.

SIGNIFICANT CHANGES IN THE BUDGET

The Research Center FY2020-21 budget contains several significant changes to revenues, total FTE, and work allocations to deal with the following several objectives:

- Reduce budget to mitigate agency wide financial impacts of COVID-19
- Cope with the perennial challenges of both flat federal funding and lack of buying power in General Fund revenues versus real inflation
- Fully account for the impacts of non-billable time and staff vacancies on indirect cost recovery
- Cope with ongoing challenges created by the fact that despite years of repeated negotiations, funding from key external partners (ODOT and TriMet) also remains flat and thus does not keep pace with real inflation

The RC budget pivots as much attention to emerging Council and other Metro priorities as possible in the face of the challenges listed above, while sustaining critical activities that support mandated Metro programs (e.g. MPO functions) and essential foundation tasks (sustaining critical software and data). The major changes to the budget to achieve these multiple objectives include:

- Reduce department FTE by 4.75
- Reduce Materials and Services by \$374K
- A mixture of tactics (details to be determined) to save Material and Services funds, re-purpose existing staff, and/or leverage attrition to find resources for emerging work

REGION'S SIX DESIRED OUTCOMES

The Research Center FY 2020-21 budget focuses on sustaining the highest priority existing work and thinly spreading the re-purposed resources described in the previous section across the emerging programs' needs. This provides some analytic support to all desired outcomes:

- Providing better **equity**-related data and methodology to help Metro apply an equity lens to all its endeavors (receives added but still low levels of support)
- Supporting transportation system analysis and forecasting for both ODOT and Metro planning activities that seek to optimize the region's **transport** services for all residents (receives essential support but not as much value-added support as in prior years)
- Providing data and tools that let Metro and stakeholders understand the **economic** potential and viability of different parts of the region for different demographic groups (receives essential support but not as much value-added support as in prior years)
- Sustaining existing efforts on, and adding somewhat to the RC's analytic and data capacity, to support mitigation efforts for **climate change**
- Sustaining and slightly adding to the data, analytics, and forecasting support RC provides to Metro's waste prevention efforts that continue to protect our region's **environment**
- Sustaining (at a somewhat reduced level of refresh frequency) key data and performance measurement assets—Metro's By The Numbers system and the region's data hub, RLIS—that Metro and other regional stakeholders use for assessing how **vibrant the region's communities are**

METRO'S EQUITY STRATEGY

To date in FY 2020-21 the Research Center has provided support for Metro's Housing Bond implementation by providing new equity data, supported equity-focused accessibility studies to Metro facilities (especially parks), acquired new equity analytic training for RC and other Metro staff, sustained and updated the 'equity dashboard' that monitors Metro's own staff demographic makeup for equity purposes, crafted a long-term work plan for Metro's equity analytics, and begun the stakeholder engagement needed to flesh out and implement that plan. The RC very much wants to provide Metro with better data and analytic methodology that will truly enable Metro to put an equity lens on all it does.

Realizing RC's ambitious goals for better equity analytic support will be challenging given the realities of the FY2020-21 budget. While RC had requested a new "equity analytic lead" position to serve as the convener for analytically-related stakeholder engagement so that equity communities have a voice in what the RC does, Metro lacks the resources to provide such a position. The RC is working with Metro's DEI program and other partners to devise other ways of meeting this important need. The RC will pivot as much effort as it can to addressing the new equity analytic vision while still supporting mandated activities and mission-critical data assets.

Metro's visitor venues group is comprised of the Oregon Convention Center (OCC), Portland's Centers for the Arts (Portland's), Portland Expo Center (Expo) and the Oregon Zoo. Formed in July 2010 to enhance collaboration on operational issues, the Metro team actively works towards a common mission of maintaining world-class gathering and entertainment spaces for residents and visitors.

Through its Metropolitan Exposition Recreation Commission (MERC), Metro benefits from business and community leaders whose expertise and guidance set the strategic business direction for three of the venues: OCC, Portland's and Expo. Commissioners are appointed by the Metro Council upon recommendation from local area governments. The commission includes seven members; two each representing the city of Portland and Metro, and one each for Clackamas, Multnomah and Washington counties. The commissioners serve four-year terms.

The Oregon Zoo also benefits from a key public/private partnership through the Oregon Zoo Foundation (OZF) which is comprised of business and community leaders. The OZF's mission is to foster community pride and involvement in the Oregon Zoo and to secure financial support for the zoo's conservation, education and animal welfare programs. The Metro Visitor Venues are varied in building type, history, business focus and client mix:

OCC is designed to maximize economic benefit for the state and region by attracting out-of-town visitors to conventions and local residents to special events and trade shows;

Portland's is the cultural hub for the metropolitan region hosting a variety of performances and entertainment events in its multiple theatres;

Expo is the region's primary destination for public events and consumer shows, some of which have been held there for 50 years; and

The Oregon Zoo is the state's most popular paid attraction, whose mission is to create a better future for wildlife by inspiring visitors to respect animals and learn about endangered species protection and take action on behalf of the natural world.

SIGNIFICANT CHANGES IN THE BUDGET

The venues have experienced severe financial impacts due to the COVID-19 pandemic. These impacts will be long lasting and will likely result in permanent changes in the way our venues operate. There are still many unknowns about FY20-21 – when and how the venues will be able to reopen, what changes will be necessary to operate safely and efficiently, and to what extent patrons will be ready to again gather in large groups. Venue staff are planning for reopening and recovery based on guidance from the State and health authorities. The decrease of \$47 million from the Proposed FY 2020-21 Budget reflects the impact of the pandemic.

MERC Admin is requesting a new 1.0 FTE Policy Advisor III to support specific initiatives of MERC Admin. This position will work with the General Manager of Visitor Venues, MERC venues, other jurisdictions and community partners to support and promote the success of the venues. This position will manage projects such as the Expo Development Opportunity Study and ongoing relationships such as between Portland's and the city of Portland.

REGION'S SIX DESIRED OUTCOMES

The individual and aggregate contributions each makes towards the region's economy is powerful and significant: more than \$875 million in direct and indirect regional spending which supports more than 8,000 total jobs, based on the most recent economic report from FY 2018-19. Combined, the venues hosted approximately 1,500 events/performances in FY 2018-19 that attracted 3.4 million people and offered a wide range of experiences for visitors and residents – contributing to the quality of life for the region and beyond.

SIGNIFICANT CHANGES IN THE BUDGET

MERC Admin supports the venues in their dedication to Metro's Equity Strategy including facilitating contractual services, goal setting, strategic planning, and special project management.

When it comes to showcasing the genuine Portland experience and contributing to the regional economy, OCC is unparalleled. As the largest event venue in the Pacific Northwest, the center attracts hundreds of thousands of visitors annually from the region and around the world to exchange ideas, and share their expertise which leads to innovation and business connections.

OCC continues to lead the charge within our industry for environmental responsibility and sustainability. On top of industry leading certifications of LEED Platinum, Salmon-Safe, and APEX/ASTM Green Venue, 6,500 solar panels on the center's roof produce 25 percent of the building's annual energy use, and its industry leading waste diversion program is changing the way event organizers select materials while dramatically reducing the waste produced at events.

OCC serves as a catalyst for Oregon's economy. In addition to the 5,000 jobs supported by the facility in the local region, direct and induced spending totaled more than \$650 million in FY18-19 as a result of the center's business. In 2019, OCC completed a major renovation of the Oregon Ballroom, outdoor plaza and related interior and exterior spaces. The center's renovation project bidding at that time resulted with the largest public works contract awarded to a minority owned business in the state's history. Project completion was timed with the opening of the new 600-room Hyatt Regency Portland at the Oregon Convention Center, located across the street from the center.

SIGNIFICANT CHANGES IN THE BUDGET

The Oregon Convention Center has experienced severe financial impacts due to the COVID-19 pandemic. The adopted budget assumes no events through September 2020, with a slow reopening in the fall. Overall annual event revenues are expected to be down 56% from the Proposed FY 2020-21 budget, from \$32.5 million to \$14.2 million. Support from the Visitor Facilities Trust Account and Transient Lodging Tax Excise Fund are also expected to be down as the pandemic has significantly impacted our hotel partners. Revenues originally projected at \$22.5 million are now projected at \$8.6 million. The budget includes \$1.2 million of pandemic support from the General Fund.

Expenses have been adjusted relative to the revised revenues, however OCC now projects an operating deficit which will be funded by beginning fund balance. Metro has waived the management fee for FY 2020-21. Capital improvement plans have reduced FY 2020-21 projects to health/safety or externally funded projects only.

REGION'S SIX DESIRED OUTCOMES

OCC strives to be a premier event facility in North America and is passionate about being a leader in the events industry while simultaneously exemplifying the highest standards for sustainability and operational efficiency. OCC's budget reflects its commitment to key components of the Region's Desired Outcomes and Metro Council Priorities. The budget reflects funds to maintain the center at a level comparable to the OCC peer set of convention centers while focusing on sustainable operations and maintaining LEED Platinum certification. OCC's innovative waste diversion policy and program supports show management and exhibitors to reduce waste generation and prevents the use of non-recyclable products, such as foam core signage. The program collaborates with clients to donate surplus supplies and food from events to local community organizations to address the region's food scarcity.

In 2019, OCC joined The Wave, a new Northwest-based coalition dedicated to helping the region address and mitigate rapid climate change. OCC prioritizes hiring employees residing within the First Opportunity Target Area, providing priority hiring for residents adversely impacted by former developments in the North / Northeast Portland neighborhoods.

Additionally, OCC has expanded staff health and welfare benefits and TriMet universal transit passes due to legislative changes and Metro benefit enhancements agency-wide.

OCC will continue its active participation in Lloyd area organizations such as GoLloyd, Lloyd EcoDistrict, Lloyd District Community Association and Lloyd Enhanced Services District, all focused on neighborhood improvement efforts and improving the experience of guests attending events at the center.

METRO'S EQUITY STRATEGY

OCC's budget works to meet the goals of Metro's adopted Equity Strategy by ensuring ongoing staff participation in meetings and forums and a commitment to COBID purchasing. Like previous years, the operations department will commit 15 staff hours to the annual Metro Small Business Open House networking event, continue to award direct award contracts to COBID firms, and continue to place language in Requests for Proposals asking for subcontracting partnerships with COBID firms. OCC's five year capital plan includes multiple construction projects which will implement the Construction Career Pathways Project, a regional framework aimed at recruiting and retaining women and people of color in the construction trades.

OCC is currently developing a Racial Equity Action Framework specific to the work and staff of OCC. An employee-led Equity Team was established in March of 2019, and staff engagements took place over the course of several months. The framework will identify specific actions and objectives to pursue over the following years with target goals for future periods. This plan is anticipated to be approved in FY 2020-21 with implementation actions occurring this year and in future years.

Portland's brings nearly 1,000 music, theater, dance, and lecture performances to Portland each year because it knows that art matters. Art brings joy, inspires the mind, and unites communities. Art changes lives.

Among the largest performing arts centers in the country, Portland's is a national leader in keeping art and culture thriving. The five theaters draw close to one million patrons to downtown Portland's Cultural District and generate \$85 million in regional spending every year.

SIGNIFICANT CHANGES IN THE BUDGET

Portland's has experienced severe financial impacts due to the COVID-19 pandemic. The adopted budget assumes no events through September 2020, with a slow reopening in the fall. Overall annual event revenues are expected to be down 40% from the Proposed FY 2020-21 budget, from \$19.7 million to \$11.7 million. Support from the Visitor Facilities Trust Account and Transient Lodging Tax Excise Fund are also expected to be down as the pandemic has significantly impacted our hotel partners. Revenues originally projected at \$2.2 million are now projected at \$1.1 million. The budget includes \$575,000 of pandemic support from the General Fund.

Portland's's Proposed Budget included rental rate increases for all users, however, the Adopted Budget includes rental rate increases for commercial clients only. Due to the impact of the pandemic on resident companies and non-profits, Portland's has postponed rental rate increases to those groups.

Expenses have been adjusted relative to the revised revenues, however Portland's now projects an operating deficit which will be funded by beginning fund balance. Capital improvement plans have reduced FY 2020-21 projects to health/safety or externally funded projects only.

The Arlene Schnitzer Concert Hall will be closed this summer for the first phase of acoustical enhancements, a \$9 million project with \$6.5 million in outside funding, and replacement of the marquees on Broadway and Park Avenue.

REGION'S SIX DESIRED OUTCOMES

Portland's provides subsidized use of its venues for local arts organizations so they may grow and flourish. The resident companies are the Oregon Symphony, Portland Opera, Portland Ballet Theatre, Oregon Children's Theatre and Portland Youth Philharmonic. It is a gathering place for citizens to come together to experience a variety of art forms.

Portland's Presents offers free summer performances with our Music on Main and Summer Arts on Main series, though these events were cancelled in 2020 due to the pandemic. The education program brings in 10,000 students from regional Title 1 schools at no cost to the schools.

METRO'S EQUITY STRATEGY

Through the education program, Portland's removes barriers and provides access to a diverse selection of world-class lectures and performing arts. This program offers free performances in the venues and in the community, career shadow opportunities, summer internships, and curriculum support. The education program intentionally seeks and supports teachers and students in Title-I schools.

The Portland Expo Center has a rich cultural past that has touched the lives of many Portlanders and visitors throughout its history. From its agricultural beginnings as a livestock exhibition hall to today's consumer-public hub for face-to-face commerce, the Expo Center has maintained the indispensable role as a gathering place serving the Pacific Northwest region.

Expo is a 53-acre multi-purpose exhibition facility comprised of exhibit halls, meeting rooms, a full-service kitchen, restaurant and flexible outdoor exhibit space. On average, it hosts more than 100 events each year, attracting more than 450,000 visitors. According to the most recent economic impact report, Expo generated \$47 million in direct and induced annual spending which supported 470 jobs.

SIGNIFICANT CHANGES IN THE BUDGET

Expo has experienced severe financial impacts due to the COVID-19 pandemic. The adopted budget assumes no events through September 2020, with a slow reopening in the fall. Overall annual event revenues are expected to be down 48% from the Proposed FY 2020-21 budget, from \$8 million to \$4.2 million. Support from the Visitor Facilities Trust Account and Transient Lodging Tax Excise Fund are also expected to be down as the pandemic has significantly impacted our hotel partners. Revenues originally projected at \$1.9 million are now projected at \$150,000. The budget includes \$225,000 of pandemic support from the General Fund.

The return of Cirque du Soleil, originally scheduled for summer 2020, has been rescheduled to open in June 2021.

Expenses have been adjusted relative to the revised revenues, however Expo now projects an operating deficit which will be funded by beginning fund balance. Capital improvement plans have reduced FY 2020-21 projects to health/safety or externally funded projects only.

The allocation from the General Fund and the management fee paid by Expo to Metro have both been eliminated for FY 2020-21. Expo's share of MERC Administration fees continue to be waived.

Expo is committed to revitalizing this regional asset, protecting our investments, meeting our goals for community, sustainability and equity and driving valuable economic impacts to the region. A Development Opportunity Study is currently underway to assess the center's greatest public benefit.

REGION'S SIX DESIRED OUTCOMES

The Portland Expo Center continues to grow as Portland's gathering place, with varied events for the public and culturally significant events, including the annual Honoring our History: Reflections on the Vanport Flood and the Portland Assembly Center.

Expo is also the home of the largest stormwater greenwall in the nation. This unique project was created in partnership with the Environmental Protection Agency, the City of Portland and many others as a showcase of what visionary thinking can produce to support the environment. This area was recently developed into a food and beverage plaza to expand the use of this beautiful space.

Expo is committed to becoming more sustainable every year, with upgrades such as parking lot and exhibit hall lighting to replace existing lighting with energy efficient lighting, reducing cost and electricity usage.

METRO'S EQUITY STRATEGY

Expo is focusing on partnerships that help us grow and learn as a department and in turn share that knowledge with our clients and patrons. Expo has completed work with Oregon Nikkei on a virtual tour of the campus that once housed the Portland Assembly Center. Additionally, Expo is working with both Portland Public Schools and with the 501c3 Vanport Mosaic, towards the presentation of historically significant subject matters in a way that generates greater community and understanding. Staff continue to be involved in neighborhood activities, schools and coalition building with events such the Vanport Mosaic Festival. Staff and contracted agents are committed to COBID purchasing goals and renewed efforts that are making positive impacts in the community. Starting in 2019, the Expo center embarked on its Racial Equity plan by engaging staff and engaging strategic external community members to ensure our gathering space is safe and welcoming with a racial equity lens.

FTE CHANGE FROM FY 2019-2020 AMENDED BUDGET							(15.85)

The Oregon Zoo’s mission is to create a better future for wildlife. We inspire the community to respect animals and take action on behalf of the natural world. We do this by advancing the highest level of animal care and welfare, environmental literacy and conservation science as we create engaging and educational experiences accessible to all. Zoo leadership — with input from guests, staff, volunteers and the community — has developed a three-year strategic plan to guide us as we pursue our vision. As the region’s most-visited cultural institution, the zoo is also a venue for world-class events, a place for families to create lasting memories, and a popular destination for tourists.

The zoo has a long history of community support and, since its humble beginnings in 1888, has evolved into a world leader among zoos and conservation organizations. Since 2008, thanks to a voter-approved bond measure and additional support provided through grants and private donations, the zoo has been undergoing a major transformation aimed at advancing animal welfare, increasing educational opportunities and improving environmental sustainability. With five major projects now complete, the final three — new habitats for polar bears and primates, and an improved habitat for rhinos — are being managed as a single construction project to be finished in FY 2020-21. Between day-to-day operations and capital projects, the zoo has a positive economic impact on the region, with direct and indirect impacts estimated at over \$90 million annually.

SIGNIFICANT CHANGES IN THE BUDGET

- The FY 2020-21 budget originally reflected a focus on advancing priorities identified for Year 1 of the Strategic Plan. These include: Advancing Animal Care & Welfare, AZA Accreditation, Integrated Conservation Action Plan, Master Plan Refresh, DEI, Community Engagement, and Financial Sustainability. The zoo made the decision to close to the public in March to ensure the safety of the staff, animals, and guests. Due to the financial implications from being closed during the COVID-19 pandemic, the zoo dramatically modified its budget to focus solely on maintaining Animal Care & Welfare and Financial Sustainability.
- Attendance, originally projected at 1.525 million, has been reduced by 50 percent and an assumed reopening date in July 2020.
- An early decision was to cancel summer camp in light of the uncertainty caused by the pandemic.
- The train and carousel will remain closed during the initial phases of reopening.
- A \$3M decrease in personnel services is related to significant layoffs occurring in March, partially offset by anticipated costs to scale back for opening.
- Animal food reflects a significant increase (13 percent) primarily due to diet and bedding for animals anticipated to inhabit our exhibits opening in FY 2020-21.
- Personnel Changes
 - 46 regular benefitted positions are defunded for the zoo’s FY 2020-21 budget, while all areas were impacted the education and marketing teams saw the largest decreases.
 - Extend Two (1.0 FTE each) Bond Project Managers-Limited Duration.

REGION’S SIX DESIRED OUTCOMES

The zoo contributes to vibrant communities in the region by providing appropriate education, conservation and cultural institution (“venue”) activities, programs and events to engage a wide range of community members. Public appreciation of these

Oregon Zoo efforts is evident in the education program participation by over 200,000 students annually, and by consistent annual attendance of over 1.5 million visits (the most-visited cultural institution in this region).

With sustainably designed capital projects, the zoo is leading by example while showing visitors how they too can make a difference. This is especially true in the Education Center, which in 2018 received LEED Platinum status.

Zoo leadership is working with Explore Washington Park, other cultural institutions and TriMet leadership to increase mass transit use for trips to the park. This will help to ensure that more people use mass transit to enhance quality of life by getting outside in the park, and experiencing its world-class cultural institutions and other venues. This effort should be sustained by a stronger investment via Explore Washington Park and TriMet.

The zoo's final major project, Polar Passage/Primate Forest, will teach visitors about the impacts of climate change on polar bears and palm oil operations on orangutans and chimpanzees, and show how individuals can take action to mitigate effects of climate change and habitat conversion.

The zoo's education programs increase the public's understanding of environmental issues and the need for direct action related to clean air and water, the sustainable management of resources for future generations, and improving access to nature. These programs are provided to hundreds of thousands of people annually.

See below regarding advancing equity in the region.

METRO'S EQUITY STRATEGY

In FY 2020-21, when open, the zoo will continue to improve accessibility for lower-income community members through our Zoo For All program (discount program for qualifying individuals), targeted distribution of free admission to community organizations who work with communities of color and their low-income residents/ individuals, and continuation of Second Tuesdays discounts for all from September through May. The free admission program is valued at over \$300,000 in accessibility for lower-income communities, based on tickets redeemed.

Equity in contracting is also a focus. The aspirational contracting goal for the zoo bond-funded construction projects is 15 percent participation from COBID firms. The zoo has developed an action plan for implementing Metro's strategy to advance racial equity, adopted in 2016 and began implementation as a pilot venue in FY2018.

Waste Prevention and Environmental Services

The Waste Prevention and Environmental Services (WPES) department is responsible for ensuring that all solid waste generated in the region is managed in a manner that protects public health and safeguards the environment. This work is guided by the 2030 Regional Waste Plan that serves as the greater Portland area's blueprint for investing in our garbage and recycling system, reducing the environmental and health impacts of materials that end up in this system, and advancing progress towards Metro's racial equity goals. To fulfill this responsibility and implement the plan direction, the department's core functions include:

- **Reducing impacts of products and waste through policy and regulation.** This includes development of state legislation, regional policy and programs and regulation of the solid waste system.
- **Reducing the impacts of products and waste through education, technical assistance and partnerships.** This includes supporting the development of youth leadership; providing education, technical and information services to the public; and providing waste-related community services such as paint recycling and cleanup of illegal disposal sites.
- **Providing safe, economic and environmentally sound operation of Metro facilities that provide garbage transfer and disposal, recycling and recovery of certain materials, and hazardous waste collection services.** This includes operations and operational resilience of Metro South and Central transfer stations and hazardous waste facilities, and management of the St. John's landfill.
- **Planning for long term system adaptability, sustainability and resilience.** This includes long range system planning, making strategic system investments, planning new facilities and public services, disaster debris planning, and ongoing performance monitoring, improvement and evaluation.

SIGNIFICANT CHANGES IN THE BUDGET

Metro continues to work on a number of programs and initiatives as a direct result of the 2030 Regional Waste Plan and Metro Council priorities. As a result of the COVID-19 pandemic, WPES modified the department's original budget request to provide to reduce requested spending on staff, materials and services and delaying some capital improvement projects. Using a racial equity framework, the department included the following budget additions for the upcoming fiscal year.

Implementing the 2030 Regional Waste Plan and Metro Council priorities including:

- Providing more relevant equity staff training to build our internal capacity, understanding and service delivery (\$100,000);
- Setting regional standards for collection services to multi and single family homes to ensure all residents have equitable, adequate and consistent access to high quality garbage and recycling services. This requires research and investments in labeling and standardizing the colors of roll carts and bins. (\$600,000);
- Increasing participation by people of color in waste prevention education programs by building capacity with many of our partner organizations to co-create, promote and deliver more culturally relevant and responsive outreach services and materials to their communities.

Increase of \$1.7 million in capital outlay over FY 2019-20 amended budget, including

land purchase for new facilities and improvements to existing facilities:

- Purchase land for new facilities in Cornelius and likely near Oregon City;
- Build out for new commercial food waste processing at Metro Central transfer station;
- General repair and improvement of existing facility assets.

New FTE for the department as a result of the organizational assessment and reorganization include:

- Increase of 1.0 FTE at Metro Paint to seek markets and increase sales and use of recycled paint throughout the region;
- Increase of 1.0 FTE (Deputy Director) to focus on internal department activities, production, culture, and process improvement;
- Increase of 1.0 FTE (Education Specialist III) to coordinated the regional Recycling or Not education initiative and research;
- Increase of 1.0 FTE to manage the Technical Assistance and Information Services team; and
- Increase of 1.0 FTE to manage the environmental compliance requirements, manage capital assets, and improve customer and staff safety as well as improve accessibility to public facilities and meet ADA requirements

REGION'S SIX DESIRED OUTCOMES

WPES contributes directly to the preservation of the region's livability and supports the goals and objectives developed by the Council by providing for the safe, efficient, and effective reuse, recycling, cleanup and disposal of solid and household hazardous waste and by promoting sustainable resource management through waste reduction initiatives, hands-on interpretive programs, youth and adult education, grants demonstration projects, and volunteer opportunities.

METRO'S EQUITY STRATEGY

Now in its sixth year, WPES's equity program is focused on implementing the WPES Diversity, Equity and Inclusion Work Plan, a five-year work plan designed to help Metro meet the goals of its Strategic Plan to Advance Racial Equity, Diversity and Inclusion. The department's work on racial equity is focused on several key outcomes: creating economic opportunities through employment and contracts; providing services and programs more equitably across the region; minimizing negative impacts from the regional solid waste system; and generating positive benefits for the community, including communities of color and communities historically impacted by the solid waste system. Implementing this plan also supports the equity-focused elements of the Regional Waste Plan.

To this end, the department's DEI efforts for FY20-21 are focused in the following strategic areas from the WPES DEI Work Plan:

1. Meaningfully engage and educate employees on diversity, racial equity and inclusion;
2. Meaningfully engage communities of color and partner with community-based organizations to advance racial equity;
3. Provide public services equitably, with a priority on communities of color;
4. Manage WPES facilities to be more welcoming for people of color and to increase accessibility;

5. Create jobs, career pathways and promote workforce equity in the sectors where WPES works, with a priority on people of color and women;
6. Incorporate racial equity outcomes into WPES procurement, contracts and allocation of budget resources; and
7. Evaluate and report on WPES's diversity, racial equity and inclusion efforts to ensure accountability and transparency.

The proposed department budget includes central equity program related expenses, funds for new community partnerships that advance equity in the garbage and recycling system, equity training for WPES staff as well as a community partnerships which are program-specific in program budgets. Equity is also reflected in the community relations and communications budget for the department. WPES also supports Metro's efforts to build general capacity among partner community-based organizations.

Waste Prevention and Environmental Services

FTE CHANGE FROM FY 2019-2020 AMENDED BUDGET							24.00

Metro currently manages more than \$600 million in capital assets and has plans for significant new investments in parks, venues, and waste management facilities. These facilities and properties are essential to delivering community programs and services that align with Metro's vision for the region. The Capital Asset Management department supports planning and management of those assets, including facility sustainability, emergency planning and construction project management. This department also houses the operations of Metro Regional Center.

SIGNIFICANT CHANGES IN THE BUDGET

Capital asset management:

- Capital Asset Management transferred in 24 FTE from other departments. Of these, 2.5 FTE are allocated for work on bond-funded projects within the General Asset Management Fund, and the remaining 21.5 FTE are within the General Fund and work on a variety of operational needs.
- The Construction Project Management (CPMO) division within the department added 1.0 FTE to increase capacity for the Parks & Nature department for bond related projects and this FTE is reported within the Parks and Nature Bond Fund.
- FY20-21 funding includes support for Metro's involvement in two regional programs:
 - Construction Career Pathways:** \$200,000 will be used to support coordinated approach to recruitment, training and retention of women and people of color in the construction workforce. A granting framework will be developed with Metro's Diversity, Equity and Inclusion program.
 - Clean Air Construction Standards:** \$46,000 represents Metro's share of the regional program, which will be administered by the City of Portland.

Due to the economic impacts from the COVID-19 pandemic, agency-wide cost-saving measures were implemented. The Capital Asset Management budget includes a 10 percent reduction. This department had additional planned FTE to assist with project management at an agency-wide and departmental level, but those FTE were not included in the final adopted budget. Although capital project spending has been reduced as an agency to cut expenses in FY 2020-21, the bond-funded projects have been able to continue and existing personnel designated for capital project management have been shifted to those bond-funded projects.

REGION'S SIX DESIRED OUTCOMES

The Capital Asset Management department encourages alignment with the six desired outcomes in our management of and investment in public assets. COBID contracting goals and financial investment in Construction Career Pathways help improve equity and economic prosperity in the region. Sustainable choices in capital projects promote clean air and water and climate change leadership. Clear policies for capital planning and asset management ensure our facilities are well cared for, are accessible to all in the region and stimulate vibrant communities.

METRO'S EQUITY STRATEGY

There is significant opportunity to improve equity outcomes via capital projects. Capital Asset Management has worked closely with Metro's Diversity, Equity and Inclusion program on implementation of Construction Careers Pathway – a regional framework which outlines tools and policies to grow the number of people of color and women working on our construction projects. CPMO partners with the National Association of Minority Contractors (NAMC) to encourage and support involvement of minority contractors on Metro capital projects.

Communications advocates for the people of greater Portland and ensures people are aware of and have a voice in Metro's work. Communications helps the public understand and respond to Metro's portfolio of projects and connect to Metro services, fulfilling its ultimate goal of building trust with communities of color, voters and residents of the greater Portland area. Communications' staff includes professionals in media relations, public involvement, journalism, marketing, graphic and web design, issue management, stakeholder analysis and advocacy.

SIGNIFICANT CHANGES IN THE BUDGET

The FY 2020-21 budget has \$150,000 to continue the support of the agency-wide Partnerships for Institutional Change Program. This program helps deliver community expertise, knowledge and lived experience to Metro program and diversity, equity and inclusion efforts. For FY 2020-21, the program will focus on transitioning more management of partnership work plan to partner organizations to support their direct collaboration with staff and leadership at the department and program level. This includes expansion of partnership opportunities to new organizations and the community informed development of tools and trainings for Metro staff and leadership.

Due to the economic impacts from the COVID-19 pandemic, agency-wide cost-saving measures were implemented. The Communications budget includes more than a 10 percent reduction, including the reduction of 1.0 FTE.

REGION'S SIX DESIRED OUTCOMES

Communications top job is to help Metro communicate effectively across all business lines with the goal of increasing public awareness and supporting positive public experiences that build trust, engagement and support for Metro initiatives. This advances the Metro Council agenda and supports the work of operating departments on behalf of the people of greater Portland helping achieve all six desired outcomes.

METRO'S EQUITY STRATEGY

Communications is focused on giving voice to people of color and other underrepresented communities. We are committed to creating spaces where people of color and decision makers interact face-to-face. We are working hard to improve Metro's capacity to work effectively and respectfully with communities of color. All of Communications' goals and FY 2020-21 budget initiatives are shaped by and serve Metro's equity strategy. Communications takes the lead on the "inclusion" part of DEI.

Finance and Regulatory Services (FRS) provides financial management, administrative, regulatory and operational services to Metro's elected officials, operating centers and services, employees and the public. Key functions include: Budget and Financial Management, Accounting, Payroll, Risk Management, and Procurement. In addition, Finance and Regulatory Services licenses small contractors and sets rates for public solid waste disposal facilities.

SIGNIFICANT CHANGES IN THE BUDGET

- 1.0 FTE for timekeeping staff to support the payroll process across Metro
- 1.0 FTE to support implementation of the 2019 Parks and Nature Bond
- Investment of \$290,660 for software services to automate and improve invoice processing

Between the Proposed and Adopted budget stages, the agency was significantly impacted by the onset of the COVID-19 pandemic. The Materials & Services budget for the Risk Management division of FRS was increased by approximately \$842,000 to allow for expected increases of agency-wide unemployment expenses and other increased costs associated with the pandemic.

REGION'S SIX DESIRED OUTCOMES

As the financial arm of the agency, FRS focuses on serving the other operating departments and Council in their work for the region. By managing the processing and reporting of all financial transactions, budgetary oversight, and critical forecasting services, FRS ensures the highest level of accountability in financial and operational performance. The annual budget provides sufficient funding to support these functions in an efficient manner.

Other services include the management of the Contractor's Business License program and collection of the Construction Excise Tax. FRS allows other departments to focus on the programmatic work that achieves the desired outcomes of the Agency. FRS also prepared and presents Solid Waste Rates at Metro -owned facilities, excise tax and regional system fees based off of forecasting, modeling and analysis provided by Solid Waste Policy and Compliance.

All of these functions, key to remaining accountable to Metro employees, elected officials and most importantly to the citizens of our region, assist Metro in achieving all of the six desired outcomes.

METRO'S EQUITY STRATEGY

The budget includes support for the Equity in Contracting program in the procurement department. Procurement Services oversees the contracting and purchasing activities of Metro's operating centers to assure compliance with state and federal regulations and Metro Code and to encourage a competitive process that supports openness and impartiality. Metro Code establishes policies that encourage the use of COBID certified firms (minority, women, service-disabled veteran owned, and emerging small businesses) by creating the maximum possible opportunity for such businesses to compete for and participate in Metro contracting activities. Success measures in COBID utilization have steadily increased due to the establishment of the Contracting Equity Program and Procurement Services is now moving its focus to measuring and improving the diversity of the contracted workforces on Metro's job sites.

Human Resources (HR) serves as a business partner to provide strategic and sustainable human resources practices and systems to help position our customers to fulfill their mission. Human Resources is a full-service HR department providing benefits, classification and compensation, employee and labor relations, organizational development and training, recruitment and selection, and systems administration for the agency.

HR leads the work of Metro's agency goal related to its employees: "By December 31, 2021 employ a highly engaged workforce that reflects or exceeds the diversity of the region."

SIGNIFICANT CHANGES IN THE BUDGET

- 1.0 FTE dedicated to employee learning and development efforts for Metro employees;
- Due to the economic impacts from the COVID-19 pandemic, agency-wide cost-saving measures were implemented. Human Resources implemented significant budget reductions, while at the same time ensuring sufficient funding to cover operational needs. This budget allows for printing, posting, and mailing services to expand our communication efforts to better reach all employees - especially variable hour employees who do not have or regularly check email for updates, funding for increased benefit contract costs (resulting from increased service utilization), and to fully fund the costs associated with the annual employee engagement survey.

REGION'S SIX DESIRED OUTCOMES

Human Resources advances the organization in achieving the six desired outcomes by ensuring Metro has highly qualified human resources to carry out the agency's work. HR's goals directly align with the agency goals.

METRO'S EQUITY STRATEGY

Through our recruitment efforts, HR leads the work related to hiring a diverse workforce. We now have a new recruitment manager and a recruitment team that is reenergized around their influence on diversity, equity and inclusion at Metro. In addition, HR either facilitates or participates in a number of DEI related committees and activities and will be even more involved through our new Employee Engagement framework that is designed to take the feedback received in our annual employee engagement survey and implement needed change(s) as identified by our workforce.

FTE CHANGE FROM FY 2019-2020 AMENDED BUDGET							(2.00)

Information Services (IS) helps Metro achieve its mission and helps to deliver on its promises to citizens by providing technology and information services for all areas of the agency. IS manages essential services for communication systems, local area networking, email and desktop support. The department also manages enterprise applications such as, budgeting, finance, human resources, payroll, ticket and event management systems, point of sale, web site support and other site-specific applications. Finally, IS also manages the records management process and provides public record request services to the public and the media.

SIGNIFICANT CHANGES IN THE BUDGET

Due to the economic impacts from the COVID-19 pandemic, agency-wide cost-saving measures were implemented. Information Services implemented significant budget reductions, including the reduction of 2.0 FTE, while at the same time ensuring sufficient funding to cover operational and capital needs. The FY 2020-21 budget includes:

- Significant increases in software maintenance and support due to agency growth
- Larger emphasis on cloud-based software and system resiliency
- Greater focus on system and email security
- Migration to Office 365, including Teams, Exchange and SharePoint in the cloud

REGION'S SIX DESIRED OUTCOMES

As a support department, IS participates in each of Metro's regional desired outcomes. By ensuring fast, reliable applications, records management, data transport and storage, the department provides the foundation for communication systems, web services, mapping and planning, security systems, financial and payroll services and specialized payment and operational systems. Together, these systems support Metro's services to create vibrant communities, safe, reliable transportation, economic prosperity, equity, clean air and water and leadership on climate change.

METRO'S EQUITY STRATEGY

Because technology can be a powerful enabler, Information Services is dedicated to equity initiatives throughout the enterprise. Metro's website was initially designed with translation and accessibility standards in mind and included a mobile-first approach to websites, to better reach underserved populations. The department also supports research center mapping tools, support for contracting, recruitment support, access to public records and video feeds of council meetings, including closed captioning services and assisted listening services within the council chambers. In FY 2020-21, IS is proposing additional software that can help the agency engage with citizens throughout the region and add additional tools for staff.

The Office of Metro Attorney (OMA) is required by the Metro Charter and created by the Metro Code. The core function of OMA is to provide legal advice and legal services to the Metro Council, Metro COO, Metro departments and the Auditor. The Metro Attorney has general control and supervision of all civil actions and legal proceedings in which Metro is a party. The Metro Attorney has full charge and control of all the legal business of all departments and commissions of Metro.

SIGNIFICANT CHANGES IN THE BUDGET

There are no significant changes to Metro's budget. A small addition of \$10,000 has been added for expanding training needs.

REGION'S SIX DESIRED OUTCOMES

OMA's FY 2020-21 budget fully aligns with the Region's Six Desired Outcomes by providing legal advice and services to the Metro Council, the COO and the Metro departments in their activities.

METRO'S EQUITY STRATEGY

OMA's work aligns with Metro's Strategic Plan to advance racial equity, diversity and inclusion in many ways. OMA has an internship program that funds three positions, two legal interns and one administrative intern, focused on applicants from diverse backgrounds. OMA has been very successful in hiring and mentoring future lawyers from communities of color for many years. OMA staff support Metro's Equity Strategy through participation in DEI programs, trainings and by providing legal advice to DEI. OMA is very involved in the C2P2 project, the Metro COBID contracting program as well as Title VI compliance for Planning and Development.

FTE CHANGE FROM FY 2019-2020 AMENDED BUDGET							(1.00)

The expenditures listed in the non-departmental summary are primarily non-operating expenses such as general obligation bonds and pension bonds debt service and interfund transfers. Expenditures also include items such as special appropriations that cannot be easily tied to a single program, center or service and costs such as election expenses that do not occur every year.

Highlights of the FY 2020-21 non-departmental budget are:

Debt Service

- Debt service on general obligation bonds totaling \$72.7.5 million, which includes Affordable Housing bonds, outstanding Oregon Zoo Infrastructure bonds, and Natural Areas Program bonds including the issuance of new bonds in May 2020.
- Debt service on pension obligation bonds of \$2.2 million.

Transfers - a detail of FY 2020-21 budget transfers can be found in the appendices; below are some highlights:

- Interfund reimbursements of \$23.9 million for agency-wide central service functions such as accounting, legal services, communications, risk management and Metro Regional Center management.
- Transfer of \$13.7 million in ongoing operating support from the General Fund to the Oregon Zoo Operating Fund.
- Transfer of \$42.5 million in ongoing operating support from the General Fund to the Parks and Nature Operating Fund.
- Transfer of \$3.4 million to the Visitor Venues to offset the economic impacts of COVID-19 on the Oregon Zoo, OCC, Expo, and P'5.
- Transfer of \$1.9 million from the General Fund to the General Revenue Bond Fund for debt service on FFC 2013 and 2018 bonds.
- Transfer of \$1.0 million from the MERC Fund to the General Revenue Bond Fund for debt service on outstanding bonds at Expo.

General Fund special appropriations: \$3.6 million

- \$2.0 million for Construction Excise Tax grants to local governments for concept planning.
- \$310,000 for Regional Investment Strategy.
- \$235,000 for the TriMet passport program, Metro's primary employee commute option strategy.
- \$200,000 for November 2020 bond measure and general election expenses.
- \$200,000 to initiate Supportive Housing Services program work.
- \$194,000 for Metro's required outside financial audit.
- \$34,000 and \$45,000 for IFA loan #1 and IFA loan #2, respectively. Payments are for year two of Metro's seven year commitment to the Columbia Corridor Drainage Districts Joint Contracting Authority for the Infrastructure Finance Authority loans.
- \$50,000 for cost sharing of the proposed Levee Ready Columbia project office budget (year 4 of contribution).
- \$50,000 for BOLI/Performance Bonds for Agency-wide contracts.
- \$35,000 for general Metro sponsorship account.

- The following designated contributions are also included: (# of years of contribution, if known)
 - \$15,000 for City of Portland Property Management dues
 - \$15,000 for Rail~Volution
 - \$10,000 for Intelligent Transportation Society of America, Mobility on Demand (year 2)
 - \$2,700 for Clackamas County Business Alliance (year 7)
 - \$2,700 for East Metro Business Alliance (year 7)
 - \$2,700 for Westside Economic Alliance (year 7)
 - \$2,700 for Columbia Corridor Association (year 7)
 - \$50,000 to the Intertwine Alliance
 - \$25,000 to the Regional Arts and Culture Council
 - \$25,000 to the Metropolitan Export Initiative (year 8)
 - \$25,000 for Greater Portland, Inc.
 - \$20,000 for the Skanner News Martin Luther King, Jr. breakfast sponsorship (year 1)
 - \$15,000 for First Stop Portland
 - \$4,700 for Transportation for America (year 7)
 - \$30,000 for Speaker Bureau (year 6)
 - \$50,000 for Willamette Falls Lock Sponsorship (year 6)
 - \$5,000 for Willamette Falls Heritage Coalition (year 3)

FTE CHANGE FROM FY 2019-20 AMENDED BUDGET							(62.70)

The General Fund accounts for the operating costs of all general government and central service functions including Metro Council, Metro Auditor, Metro Attorney, Capital Asset Management, Communications, Finance and Regulatory Services, Human Resources and Information Services. It also accounts for operating costs of Planning and Development and the Research Center, as well as for the Glendoveer Golf Course.

BEGINNING FUND BALANCE

This is the combined balance for the operating areas described above. It includes several components including the restricted Transit Oriented Development program balance, the committed Construction Excise Tax grants program balance and reserves for the Oregon Public Employees Retirement System (PERS) pension liability, future debt service on the full faith and credit bonds issued to refinance the Metro Regional Center and other program related purposes. It also includes undesignated fund balance available for general government uses. In January 2007 Metro performed a comprehensive review of fund balance needs in the General Fund. Based on this historical analysis, the “adequate reserves” financial policies call for a minimum of 7 percent of operating revenues to be set aside in a contingency reserve to guard against unexpected downturns in revenues and stabilize resulting budget actions. The 7 percent target provides a 90 percent confidence level that revenues might dip below this amount only once in a 10-year period. If Metro taps into reserves as a reaction to an economic downturn, then in accordance with the “pay ourselves first” financial policy, these reserves will be replenished before developing spending plans in the subsequent year.

Please refer to the appendices for a complete listing of specific project reserves.

CURRENT REVENUES

Property taxes

Metro receives property tax revenues from a tax levy originally approved by voters in May 1990. Ballot Measure 50, approved by the voters in May 1997, converted the tax levy to a general operating permanent rate levy. Metro’s permanent rate is \$0.0966 per \$1,000 of assessed value and cannot be increased even by the voters of the region. Assessed value is expected to increase 4.0 percent next year; the maximum 3 percent growth allowed under Ballot Measure 50 plus a 1.0 percent allowance for new construction. Metro expects to receive 94.5 percent of the property tax levied and approximately \$190,000 in delinquent taxes.

Excise tax

The Metro excise tax is levied as a per-ton flat rate tax on solid waste disposal and as a percentage of all other authorized sales and services. The Metro excise tax is budgeted at \$19.2 million in FY 2020-21. The per-ton tax was consolidated into a single yield-based tax in FY 2010-11, folding in a number of individual per-ton rates which had been imposed at different times. The single rate approach increases predictability and moderates revenue swings in times of either increasing or decreasing tonnage. The consolidation did not change the charter limitation on expenditures. The consolidated rate for FY 2020-21 is \$12.47 per ton, an increase of \$.90, effective July 1. The rate for all other authorized revenues, currently 7.5 percent, will not change unless amended by the Metro Council. The Council has exempted the Oregon Zoo from excise tax, as well as revenue generating functions resident in the

General Fund—Parks and Nature, Metro Regional Center and the Research Center. The intergovernmental agreement between Metro and the City of Portland exempts the Portland's Centers for the Arts (Portland's) from the tax. Council has also exempted the Portland Expo Center (Expo) and Oregon Convention Center (OCC) from excise tax.

In 2006 Metro enacted a construction excise tax to fund land use planning to make land ready for development throughout the region. A 0.12 percent tax is assessed on construction permits issued by local cities and counties in the Metro region for construction projects costing more than \$100,000. The tax is capped at \$12,000 per project. In 2009 the tax was extended for an additional five years, through September 2014, and again in June 2014 through December 2020, to provide funding for planning of future expansion areas, future urban reserves and planning that enables redevelopment of centers, corridors and employment areas within the existing Urban Growth Boundary. The tax is expected to generate \$2.7 million in FY 2020-21.

Grants

Approximately 100 percent of the General Fund's \$11.3 million of anticipated grants are received by the primary planning functions of the agency—Planning and Development and the Research Center. These functions rely on federal, state and local grants to fund most of the transportation planning and modeling programs.

Contribution from other governments

This category includes government contributions to Metro programs and projects and FY 2020-21 revenues are estimated to be approximately \$6.0 million. These funds are largely from \$2.5 million in anticipated Regional Flexible Funding Account contributions from Tri Met and a \$3.4 million contribution from Tri Met for the Transit Oriented Development program.

Licenses and Permits

This category reflects fees received under Metro's regional contractor's business license program. Revenues are expected to decrease modestly from FY 2019-20.

Enterprise revenues

These are revenues derived from the income producing activities of the General Fund. They include parking fees, greens fees at Glendoveer Golf Course, rental fees, and sales and contracted services generated through the Data Resource Center. Approximately 70 percent of all General Fund enterprise revenue is generated at Glendoveer Golf and Tennis Center. Another 23 percent is generated through parking fees at Metro Regional Center and the adjoining parking structure, with the remaining 7 percent generated by contracts and sales through the Research Center's Data Resource Center. In FY 2020-21 certain Parks & Nature operations were moved out of the General Fund and are being reported as part of the Parks & Nature Operating fund. This reporting change leads to the 36 percent decrease in budgeted enterprise revenues in the General Fund in FY 2020-21.

Internal Charges for Services

These revenues are derived from the management fee assessed to the OCC to support the costs of general government activities. Due to the economic impact of COVID-19 on the Visitor Venues, the General Fund will not assess this charge in FY 2020-21.

Miscellaneous Revenues

Two primary revenues for FY 2020-21 are interest on investments and charges to departments to pay for the debt service on the pension obligation bonds. Interest earnings are expected to increase due to rate increases over the historically low rates

of the last several years. Payments from departments for the debt service on the pension bonds increased by almost 94 percent as the PERS Reserve will pick up a lesser share of the debt service this year.

Interfund transfers

Costs of Metro's central services are allocated to operating units through a cost allocation plan. Operating units that are budgeted outside the General Fund transfer approximately \$20.3 million in reimbursements. The Research Center, Diversity, Equity, and Inclusion program, and other General Fund operating units receive approximately \$2.7 million in transfers for other direct charges.

CURRENT EXPENDITURES

Personnel services

This category includes salary, wage and fringe benefits for the 264.10 Full-Time Equivalents (FTE) resident in various departments of the General Fund. Overall General Fund FTE decreased by a net 19.2 percent from the FY 2019-20 amended budget, mainly due to the movement of approximately 49.0 FTE to the Parks & Nature Operating Fund and the Risk Fund that were previously budgeted within the General Fund. The remainder of the FTE reductions were due to agency-wide cost savings measure as a result of the economic impact of COVID-19. Personnel services costs are a reflection of salary and wages, payroll taxes, pension and health and welfare costs.

Please refer to the budget summary for a ten-year comparison of Metro's salary and benefit costs as well as a general discussion of staff changes. The appendices also include detailed information on FTE changes and fringe benefits.

Materials and services

Expenditures in this category decreased approximately 24 percent from FY 2019-20. Historically, certain costs for parks operations have been budgeted within the General Fund. In FY 2019-20, the General Fund budget for Parks & Nature operations was approximately \$3 million. Beginning in FY 2020-21, the budget includes these costs within the Parks and Nature Operating Fund. Due to the economic impacts from the COVID-19 pandemic, agency-wide cost-saving measures were implemented. Each department within the General Fund made significant budget reductions, which are reflected within Materials & Services expenditures.

Capital outlay

Most major capital projects and renewal and replacement projects are budgeted in the General Asset Management Fund. The capital outlay budgeted in FY 2020-21 relates to small projects for the Glendoveer Golf Course.

Debt service

In fall 2005 Metro joined with a pool of other local governments in Oregon to issue limited tax pension obligation bonds to fund its share of the Oregon PERS' unfunded actuarial liability. Metro's share of the total principal will be repaid over a period of 22 years through assessments on departments in exchange for a lower pension cost. Annual principal and interest costs have been funded through assessments to programs based on eligible salaries and are paid through the general expense section of the General Fund. For FY 2020-21 debt payments, one third of the payments will be funded from reserves accumulated for future pension liability. The remaining portion will be funded through the PERS Bond Recovery Charge to departments. Additional explanation is provided under the section on ending fund balance that follows.

Interfund Transfers

Interfund Transfers

There are three types of transfers budgeted from the General Fund in FY 2020-21; Internal Service Transfers for materials and service costs and personnel service costs, Interfund Reimbursements for risk management services and Fund Equity Transfers of resources. The Fund Equity Transfers account for 97 percent of the expenditures in this category and include the following significant transfers:

- There are three types of transfers budgeted from the General Fund in FY 2020-21; Internal Service Transfers for materials and service costs and personnel service costs, Interfund Reimbursements for risk management services and Fund Equity Transfers of resources. The Fund Equity Transfers account for 97 percent of the expenditures in this category and include the following significant transfers:
- The transfer of \$13.7 million for ongoing operational support to the Oregon Zoo.
- The transfer of \$2.5 million for ongoing operational support of the Parks & Nature program.
- The transfer of \$3.4 million to the Visitor Venues to offset the economic impacts of COVID-19 on the Oregon Zoo, OCC, Expo, and P'5.
- The transfer of approximately \$2.1 million in renewal and replacement contributions for General Fund and Oregon Zoo assets.
- The transfer of approximately \$1.8 million for debt service on the outstanding full faith and credit obligations.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only through Council adoption of a resolution amending the budget. Any transfer from contingency that exceeds a cumulative amount greater than 15 percent of expenditures requires a full supplemental budget amendment. The FY 2020-21 contingency includes general and program related contingencies. It also includes an Opportunity Account provided to the Council who chose to apply the amount to the Regional Investment Strategy program. Please refer to the appendices for a more detailed listing of all General Fund contingency and reserves.

ENDING FUND BALANCE

The ending fund balance of the General Fund is the combined balance for the major operating units. It includes several components including the restricted TOD and IGA Contributions programs' balances and the committed Construction Excise Tax grants program balance. The unassigned but reserved component includes amounts for the future debt service on the full faith and credit bonds issued to refinance the Metro Regional Center and reserves for other programmatic costs.

FTE CHANGE FROM FY 2019-20 AMENDED BUDGET							1.55

In 2018, voters approved a \$652.8 million affordable housing bond measure to create permanently affordable homes across greater Portland. The Affordable Housing Fund was created to account for bond proceeds and expenditures related to working with local partners and communities to bring affordable homes to 12,000 people, including seniors, working families, veterans and others who need them.

BEGINNING FUND BALANCE

The balance is comprised of bond proceeds received from the issuance in spring 2019.

CURRENT REVENUES

Miscellaneous Revenues

This category includes \$18 million of interest earnings.

CURRENT EXPENDITURES

Personnel Services

This category includes salaries, wages and fringe benefits for the 7.70 FTE resident in the fund.

Materials and Services

Expenditures in this category include \$171 million in payments to local partners for approved affordable housing projects and administrative costs.

Interfund Transfers

This category includes payments to Metro's cost allocation plan in the amount of \$254k.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only through Council adoption of a resolution amending the budget. Any transfer from contingency that would exceed a cumulative amount greater than 15 percent of appropriations requires a full supplemental budget amendment. The FY 2020-21 contingency is reserved for future acquisitions and payments to local partners.

FUND BALANCE

The ending fund balance of \$498 million is reserved for future acquisitions and payments to local partners.

Cemetery Perpetual Care Fund

The Cemetery Perpetual Care Fund was created in FY 2003–04 to provide financial support for the long-term maintenance of the Metro cemeteries after the cemeteries are no longer receiving revenue from grave sales and burial services. The fund was seeded with a transfer of the Willamina Farmer Family account from the Regional Parks Specials Accounts Fund. This account was a bequest from the family to provide for the long-term maintenance and upkeep of the Farmer Family plot and Metro's cemeteries.

Resolution 08-3943, adopted in 2008, clarified the fund as a permanent fund, restricting the use of the principal.

The fund receives revenue from a 25 percent surcharge on grave sales, increased on November 1, 2011, from the previous rate of 15 percent. At that time Metro increased fees for grave sales and services as well, bringing Metro's rates more in line with industry norms; this will also result in increased revenues to the fund.

With about 20 years of casket plot inventories remaining and a finite amount of land to be developed, long term revenue options are limited but necessary to ensure that funds are set aside for the perpetual care of the properties. The Cemetery Program completed a Cemetery Business and Operations Plan in September 2011. In addition to the rate increases noted above, the plan has shifted the focus of the program to records management, best management practices and investments in cremation offerings to accelerate sales and contributions to the Cemetery Perpetual Care Fund.

CURRENT REVENUES

Other derived tax revenue

A 25 percent surcharge is added to every grave sale to provide a contribution to the long-term perpetual care of the plot.

FUND BALANCE

The fund balance will continue to grow annually with additional contributions from grave sales and interest earnings.

Community Enhancement Fund

The Community Enhancement Fund was established to comply with Senate Bill 662, enacted by the Oregon Legislature in 1985. The Community Enhancement Program was initially established by Metro in the Regional Solid Waste Management Plan in 1988 (Metro Ordinance No. 88-273). On October 30, 2014, the Metro Council adopted Ordinance No. 14-1344 that amended Metro Code Chapter 5.06 updating the Community Enhancement Program. The fund accounts for enhancement fees (currently \$1.00 per ton of putrescible solid waste processed or transferred) collected at all transfer stations. This fee will remain unchanged in FY 2020-21. Funds are used for community enhancement projects in the vicinity of each of these communities hosting solid waste facilities:

North Portland Community Enhancement Program: For nearly three decades, Metro's North Portland community enhancement grants have helped improve neighborhoods near the now-closed St. Johns Landfill. In 2013 the Metro Council unanimously approved the committee's recommendation to distribute the remaining \$1.6 million in the enhancement grant fund by 2018. The committee dedicated the remaining funds to support a local trail project (North Portland Greenway) and investments in capacity building to strengthen programs and services to North Portland residents. Grants were awarded in June 2014 by the North Portland Enhancement Committee. Grant recipients have two years to spend the awarded funds and recipients have used and received almost all of these funds. No further grants will be awarded and, in FY 2019-20, the majority of the small amounts of funds were budgeted.

Oregon City Community Enhancement Program: Funds from community enhancement fees at Metro South Station are paid to Oregon City on a quarterly basis and are used for local community enhancement projects as determined by the city council through an intergovernmental agreement (IGA) with Metro. It is expected that about \$323,488 will be collected in FY 2020-21 from Metro South.

Metro Central Community Enhancement Program: Funds from community enhancement fees at Metro Central Station are used for community enhancement projects in the vicinity of Metro Central Station in Northwest Portland, as recommended by a seven-member citizen committee appointed by Metro. It is expected that about \$310,676 will be collected in FY 2020-21 from Metro Central.

Forest Grove Community Enhancement Program: Fees collected at a privately owned transfer station in Forest Grove are paid to the City of Forest Grove on a quarterly basis and are used for local community enhancement projects as determined by the city council through an IGA with Metro. It is expected that about \$95,218 will be collected in FY 2020-21 from Forest Grove Transfer Station (owned by Waste Management).

Troutdale Community Enhancement Program: Fees will be collected at a privately owned transfer station in Troutdale and will be paid to the City of Troutdale on a quarterly basis and will be used for local community enhancement projects as determined by the city council through an IGA with Metro. It is expected that about \$91,841 will be collected in FY 2020-21 from Troutdale Transfer Station (owned by Waste Management).

Sherwood Community Enhancement Program: Fees will be collected at a privately owned transfer station in Sherwood and will be paid to the City of Sherwood on a quarterly basis and will be used for local community enhancement projects as determined by the city council through an IGA with Metro. It is expected that about \$79,230 will be collected in FY 2020-21 from Pride Recycling (owned by Pride Disposal).

Wilsonville Community Enhancement Program: Fees will be collected at a privately owned transfer station in Wilsonville and will be paid to the City of Wilsonville on a quarterly basis and will be used for local community enhancement projects as determined by the city council through an IGA with Metro. It is expected that about \$76,269 will be collected in FY 2020-21 from Willamette Resources, Inc. (owned by Republic Waste).

Suttle Road Community Enhancement Program: Fees will be collected at a privately owned food waste reload facility in Portland and will be used for local community enhancement projects as determined by a local committee working through an IGA with Metro. The committee and agreement are under development. It is expected that about \$29,603 will be collected in FY 2020-21 from the Suttle Road Recovery Facility (owned by Recology, Inc.)

Gresham Community Enhancement Program: Fees will be collected by the privately-owned transfer station in Gresham and be remitted to the City of Gresham by Metro to be used for local community enhancement projects as determined by a local committee working through an IGA with Metro. The committee and agreement are under development. It is expected that about \$58,781 will be collected in FY 2020-21.

City of Roses Enhancement Program: Fees will be collected at a privately owned transfer station in Portland and will be used for local community enhancement projects as determined by a local committee working in partnership with Metro. The committee is under development. It is expected that about \$30,000 will be collected in FY 2020-21 from COR Transfer Station (owned by City of Roses Disposal and Recycling).

BEGINNING FUND BALANCE

The beginning fund balance represents the amounts remaining in the North Portland and Metro Central enhancement accounts. In the past, the practice was to retain the principal of the reserves. This remains the practice for Metro Central but the North Portland Enhancement Committee will continue the spend-down of funds in that reserve in FY 2020-21.

CURRENT REVENUES

Enterprise Revenues

Community enhancement and host fees received by Metro are recorded as enterprise revenue in the Community Enhancement Fund. The total expected revenue collected for FY 2020-21 will decrease by \$16.8k (0.7 percent) compared to FY 2019-20.

CURRENT EXPENDITURES

Materials and services

95.8 percent of the materials and services expenditures in this fund represents grants and payments to other agencies. The North Portland and Metro Central Community Enhancement Committees administer programs through grants and contracts with community organizations and others including direct payments to Oregon City, Troutdale, Sherwood, Wilsonville, Gresham, Portland and Forest Grove.

General Asset Management Fund

This fund accounts for major non-general obligation bond-funded capital acquisition and construction projects and provides for the ongoing and future renewal and replacement of Metro's General Fund assets. General Fund assets include the regional parks and natural areas, Metro Regional Center and information technology infrastructure.

With the renewal of the Parks and Natural Areas Local Option Levy in 2016, the 2018 issuance of the general obligation bonds for Oregon Zoo Infrastructure and Animal Welfare and the 2018 and 2020 general obligation bonds for the Natural Areas program, most large capital projects continue to be funded and managed through separate bond and operating funds. Within this fund, separate accounts are maintained for new capital projects and renewal and replacement projects in order to track spending by purpose and department.

NEW CAPITAL

This fund accounts for new capital additions for Information Services, Finance and Regulatory Services and Metro Regional Center and Regional Parks Capital Projects Account (including parks capital and parks special projects).

RENEWAL AND REPLACEMENT

This fund accounts for renewal and replacement including capital upgrades and capital maintenance. Each year, an annual contribution is directed into the fund to provide for the current and future needs of existing assets. The FY 2020-21 contribution is \$2.2 million.

All renewal and replacement projects greater than \$100,000 are listed individually in the capital improvement plan. Within the General Asset Management Fund, renewal and replacement records are maintained separately from new capital projects and are reported by major area (Information Services, Parks and Metro Regional Center). Regional parks projects may also be funded by and budgeted in other Parks department funds. See the Capital Improvement Plan detail section for additional information on capital projects and their funding sources.

WILLAMETTE FALLS CAPITAL

This fund also tracks and manages the Willamette Falls Riverwalk project budget. The project is anticipated to take several years to complete and includes several distinct and dedicated funding sources, including \$12.5 million in Oregon State Lottery funds.

BEGINNING FUND BALANCE

The General Asset Management Fund is a combination of specific capital projects and renewal and replacement reserves. About \$21.5 million of the beginning fund balance is dedicated funding for capital projects related to Parks and Nature, including \$13.2 million reserved for the Willamette Falls Riverwalk project. Approximately, \$2.4 million is reserved for information services technology upgrades and enhancements. Another \$5.4 million is dedicated to the renewal and replacement capital requirements of the Metro Regional Center and surrounding facilities, and to other designated future project funding.

CURRENT REVENUES

Interfund transfers

Interfund transfers are received for a variety of purposes. Transfers to the Parks Capital Subfund include Glendoveer funds of \$25,000 in merchandise revenue. The General Fund will contribute approximately \$1.8 million in FY 2020-21 for annual ongoing and one-time contributions to the renewal and replacement reserve, which are necessary to fund scheduled replacements as well as \$124,000 for sustainability upgrades.

CURRENT EXPENDITURES

Materials and services

Expenditures in this category reflect potential renewal and replacement projects that do not meet the threshold of major capital improvement and which, by definition, are considered capital maintenance, including roof replacement projects. These projects are aggregated by department and included in the renewal and replacement schedule. Capital maintenance projects costing more than \$100,000 are called out separately in the capital improvement plan in this budget document.

Capital outlay

This category represents capital and renewal and replacement projects approved in Metro's capital budget. For additional information see the capital improvement plan in this budget document.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only when Council adopts a resolution amending the budget. Any transfer from contingency throughout the year that would exceed a cumulative amount greater than 15 percent of expenditures requires a full supplemental budget amendment. A large contingency is maintained for renewal and replacement in the event that a planned project is accelerated or a future project becomes necessary earlier due to a failing component. In FY 2020-21 the contingency also includes portions of the Willamette Falls Riverwalk project (\$3.5 million).

ENDING FUND BALANCE

This represents the balance of a variety of dedicated reserves associated with new capital projects and the general renewal and replacement reserve. The reserve amount will fluctuate from year to year based on project needs.

General Obligation Bond Debt Service Fund

The General Obligation Bond Debt Service Fund receives property tax revenue from voter-approved levies and pays principal and interest due to holders of Metro's outstanding general obligation bonds. The fund contains debt service payments for each of Metro's existing outstanding general obligation bond series. The Natural Areas Program bonds, 2020 series was issued in May 2020 and was incorporated into the FY 2020-21 budgeted property tax levy and debt service payments.

- Affordable Housing, 2019 Series.
- Natural Areas Program, 2012 Series A.
- Natural Areas Program, 2018 Series.
- Natural Areas Program, 2020 Series A and B.
- Oregon Zoo Infrastructure and Animal Welfare, 2012 Series A.
- Oregon Zoo Infrastructure and Animal Welfare, 2018 Series.

More information on Metro's outstanding debt as well as detailed debt service schedules for each of the issues may be found in the debt summary section.

BEGINNING FUND BALANCE

The residual balance remaining from the previous year after all debt service is paid, which will be used to offset the FY 2020-21 property tax levy.

CURRENT REVENUES

Property taxes

Property taxes are levied to meet the outstanding requirements of the general obligation bonds. The levy amount is the amount needed to pay debt obligations assuming a 94.5 percent collection rate. In May 2012 and 2018, respectively, Metro issued \$75 million and \$28.1 million for the 2006 Natural Areas Program voter-approved measure. In November 2019, the region's voters approved a \$475 million Natural Areas Program. Under this authorization, Metro issued the first \$200 million in bonds in April 2020. Under the 2008 Oregon Zoo Infrastructure and Animal Welfare voter-approved measure, there are two outstanding bonds issued: \$65 million issued in May 2012 and \$10 million issued in May 2018, which is the final issuance under that authorization.

CURRENT EXPENDITURES

Debt service

Principal and interest payments on the outstanding general obligation bonds are based on the actual debt service schedules for each issue. Debt service payments are made semi-annually. In FY 2020-21 the following debt service payments will be made:

General Obligation Bond Fund	Principal	Interest	Total
<i>General Obligation Bonds</i>			
Natural Areas 2012A Series	5,300,000	2,105,450	7,405,450

General Revenue Bond Fund

The General Revenue Bond Fund accounts for bond proceeds that Metro uses for a variety of construction, renovation, and upgrade projects throughout the agency. The fund contains debt service payments for each of Metro's existing outstanding full faith and credit bond series and dedicated tax revenue bond series. In 2013, Metro issued bonds to refund previously issued obligations for MRC acquisition and construction and loans from the Oregon Economic and Community Development Department for light rail station construction and Washington Park parking lot improvements. In 2016, Metro issued bonds which refunded outstanding loans that paid for construction to replace Hall D at the Portland Expo Center (Expo). In August 2017, Metro issued bond proceeds to fund the Oregon Convention Center (OCC) hotel project. In May 2018, bonds were issued to fund renovations, upgrades, and repairs to the MRC building.

BEGINNING FUND BALANCE

The OCC hotel project debt service is funded by transient lodging taxes received from the Visitor Facilities Trust Account managed under the Visitor Development Fund agreement with Multnomah County and the City of Portland, which is budgeted at \$3.39 million for FY 2020-21.

CURRENT REVENUES

Local Government Shared Revenues

The OCC hotel project debt service is funded by transient lodging taxes received from the Visitor Facilities Trust Account managed under the Visitor Development Fund agreement with Multnomah County and the City of Portland, which is budgeted at \$3.4 million for FY 2020-21.

Interest Earnings

Interest earnings are anticipated primarily on the debt reserves associated with the OCC hotel project.

Interfund transfers

Debt service on the full faith and credit bonds for MRC is paid from assessments allocated to the operations and activities that use the MRC, and fees and charges for the use of the attached parking structure. The fees, charges and assessments are collected within the General Fund and are transferred to the General Revenue Bond Fund for payment of debt service. Debt service on the obligations for Hall D is repaid by Expo revenues transferred from the MERC Fund. The full faith and credit bonds issued in May 2018 are used to fund projects related the MRC building. The debt service related to the MRC building projects is paid from assessments on the various Metro departments for their shared use of the MRC building. These assessments and other revenues are transferred from the General Fund to the General Revenue Bond Fund.

CURRENT EXPENDITURES

Debt service

This category contains principal and interest due on the outstanding bonds. Debt service payments are made semi-annually and are tied to the debt service schedules. The 2013 series full faith and credit bonds will mature in 2022. The 2016 series full faith and credit bonds will mature in 2024. The 2018 series full faith and credit bonds

mature in 2033. Metro is responsible for debt service payments on the OCC hotel project revenue bonds until maturity in 2047; the funding for the debt service comes from the Visitor Facilities Trust Account managed under the Visitor Development Fund agreement. The following debt service payments by issue will be made in FY 2020-21:

General Revenue Bond Fund	Principal	Interest	Debt Service
<i>Full Faith & Credit Refunding Bonds</i>			
2013 Series	1,320,000	70,595	1,390,595
2016 Series	890,000	126,475	1,016,475
<i>Full Faith & Credit</i>			
2018 Series	-	586,450	586,450
<i>Revenue Bonds</i>			
OCC Hotel Project, Series 2017	930,000	2,469,800	3,399,800
	3,140,000	3,253,320	6,393,320

ENDING FUND BALANCE

A debt service reserve of approximately \$4.1 million is maintained on the OCC hotel project until the loan balance is paid in full. The remaining balance is residual interest earnings which will be used for future debt service payments.

Metropolitan Exposition Recreation Commission Fund

The Metropolitan Exposition Recreation Commission (MERC) Fund includes the operating, capital and fund balance resources and requirements of three visitor venues: Oregon Convention Center (OCC) and the Portland Expo Center (Expo), both of which are owned by Metro, and Portland's Centers for the Arts (Portland's) owned by the City of Portland and operated by Metro through an intergovernmental agreement. The venues are overseen by the Metropolitan Exposition Recreation Commission, whose members are appointed by the Metro Council, Multnomah County and the City of Portland.

BEGINNING FUND BALANCE

The beginning fund balance, projected to be \$25.5 million, represents Transient Lodging Tax (TLT) Pooled Capital reserves, funds carried over from the previous year and reserves for capital asset refurbishment and replacement for all three facilities.

CURRENT REVENUES

Local government shared revenues

Local government revenues include the TLT collected by Multnomah County to support operations of OCC and Portland's and capital funding for OCC and Expo, and the Visitor Facilities Trust Account (VFTA) allocations to OCC and Portland's. Those revenues are expected to increase as the area has seen significant growth in the number of hotel room nights and associated lodging revenues.

Contributions from other governments

The only contribution included in this category is from the City of Portland to support the operations of Portland's. The contribution is based on the prior year's actual receipts increased or decreased by the West Class Size A Consumer Price Index.

Enterprise revenues

MERC charges various fees for the use of its facilities, including rent, concessions and catering, parking and other enterprise activities. The venues have experienced severe financial impacts due to the COVID-19 pandemic. The adopted budget assumes no events through September 2020, with a slow reopening in the fall. Overall annual event revenues are expected to be down 50 percent from the Proposed FY 2020-21 budget, from \$60.3 million to \$30.1 million.

Contributions from private sources

This category includes \$4 million in contributions toward the Arlene Schnitzer Concert Hall acoustical enhancement project at Portland's.

Interfund transfers

In prior years this category included an allocation of \$400,000 to Expo from General Fund revenues. That allocation, and a management fee paid by Expo to the General Fund, have both been eliminated in FY 2020-21. The Adopted FY 2020-21 Budget includes \$2.1 million of pandemic support from the General Fund.

CURRENT EXPENDITURES

Personnel services

Expenses have been decreased relative to the revised revenues, including personnel costs. Increases include one new FTE in MERC Administration and estimated costs for the implementation of the State of Oregon's Equal Pay Law.

Materials and services

Materials and Services include spending to operate and market the facilities. The major expenditures in this category are for food service contracts, utilities, marketing services and facility maintenance expenses, including capital projects that do not create or extend the life of a capital asset. Materials and services are budgeted to decrease significantly, due to the completion of the OCC major renovation project in FY 2019-20 and decreased operating budgets due to revised revenues.

Capital outlay

Capital Outlay budgets include the Arlene Schnitzer Concert Hall acoustical enhancement project at Portland's and equipment upgrades at OCC.

Interfund transfers

Transfers from the MERC Fund are for central service charges and debt service. Transfers to the General Fund are for central service charges as allocated through the cost allocation plan. Transfers to the Risk Management Fund represent MERC's costs associated with property, liability and workers' compensation insurance and claims. The transfer to the General Revenue Bond Fund is for principal and interest payments for debt service and for Expo Hall D replacement.

Contingency and ending fund balance

The venues budget the entire estimated ending fund balance in contingency, to provide the most flexibility during the year. Expenditures from contingency may be made only when Council adopts a resolution amending the budget. Any transfer from contingency throughout the year that would exceed a cumulative amount greater than 15 percent of expenditures requires a full supplemental budget amendment.

FTE CHANGE FROM FY 2019-20 AMENDED BUDGET							(8.55)

In November 2006 the voters of the Metro region authorized the sale of \$227.4 million in general obligation bonds for the purpose of preserving natural areas and stream frontages, maintaining and improving water quality and protecting fish and wildlife habitat. The \$227.4 million total voter authorization included three elements:

- \$168.4 million regional component to purchase regionally significant natural areas in 27 target areas.
- \$44 million local share component to be provided directly to local cities, counties and park providers to allow flexibility for each community to meet its own needs and offer citizens improved access to nature in neighborhoods.
- \$15 million Nature in Neighborhoods Capital Grant program to complement the regional and local share portions of the 2006 bond measure by providing opportunities for the community to actively protect fish and wildlife habitat and water quality near where people live and work.

The first series of bonds under the 2006 authorization was issued in April 2007 for \$124,295,000. The agency issued \$75 million in additional bonds in May 2012 and will issue the remaining \$28 million in May 2018. Metro's AAA bond rating and strong financial position resulted in a \$15 million premium to the fund. The Natural Areas Fund is used to account for proceeds and expenditures related to the Natural Areas general obligation bonds.

BEGINNING FUND BALANCE

The Natural Areas Fund's estimated beginning fund balance for FY 2020-21 is \$12 million.

CURRENT REVENUES

Interest earnings

Interest is budgeted at \$325,000 for FY 2020-21. Bond proceeds are invested in compliance with bond and arbitrage requirements.

CURRENT EXPENDITURES

Personnel services

Salaries and benefits are included for acquisition, stabilization, grants and capital projects of Metro's parks and natural areas. Legal, due diligence and communication staff associated with the program are budgeted in the in the General Fund. Due to the sunset of the Bond activities, 8.55 FTE were reallocated to the new Parks and Nature Bond Fund for a total FTE in FY 2020-21 of 7.20.

Materials and services

Funds are budgeted for local share payments to other jurisdictions and community grants. Professional and property services related to land acquisition are budgeted under capital outlay.

Capital outlay

The capital outlay budget provides for the acquisition of land and the capital improvements of some existing properties as authorized under the bond measure. The Natural Areas program is a willing seller program, with actual expenditures dependent on available property. For FY 2020-21 \$3 million for capital expenditures projects to increase access to natural areas acquired through the 2006 Natural Areas Bond Program.

Interfund transfers

Expenditures in this category include transfers to the General and Risk Management funds for central services, insurance, and costs for the use of offices and shared meeting spaces, which are incurred on behalf of the Natural Areas program. These charges are allocated based on an approved central services cost allocation plan.

The difference between the proposed and adopted internal service transfers is related to the PERS Employer Incentive Fund program. Prior to the COVID-19 pandemic, Metro was planning to participate in this program. Each department was to contribute a portion of available fund balance to help with PERS rate savings over the next six years. The Natural Areas fund budgeted a transfer of \$247,500 to help fund the full Agency contribution to the PERS program, but eliminated the transfer as Metro is no longer able to participate in the program due to budget cuts related to COVID-19.

Contingency

Contingency funds are provided to meet unforeseen needs throughout the year. The Metro Council may, through budget amendment, move up to 15 percent of the value of the fund's appropriations from contingency. Any greater amount requires a full supplemental budget action. Because of the willing seller nature of the program, the Natural Areas Fund includes a contingency level that is significantly higher than would normally be budgeted. Most of the balance of bond proceeds carried over from previous years and not needed to fund current year expenditures is placed in contingency.

ENDING FUND BALANCE

The fund balance represents unexpended bond proceeds plus interest earned. The balance will decrease as the program goals are achieved.

Open Spaces Fund

In July 1992 Metro adopted the Metropolitan Greenspaces Master Plan. Among other strategies, the master plan called for the acquisition of regionally significant open spaces. The Open Spaces Fund has been used to account for bond proceeds and expenditures related to the Open Spaces, Parks and Streams 1995 general obligation bonds.

The funds have been used to purchase regionally significant open spaces in 14 target areas and six regional trails and greenway areas, construct two regional trails and fund approximately 90 local government parks projects through the local greenspaces project element of the bond measure.

BEGINNING FUND BALANCE

In May 1995 the voters of the Metro region approved a \$135.6 million general obligation bond measure for Open Spaces, Parks and Streams. The fund balance represents the minor amount of proceeds remaining on the program and includes the proceeds from the sale of any property originally purchased by the program.

CURRENT EXPENDITURES

Capital Outlay

The appropriation reflects the final remaining amount dollars to be spent on Parks and Nature capital in early FY 2020-21 close the fund.

ENDING FUND BALANCE

The fund balance represents zero holdings to close the fund in FY 2020-21.

Oregon Zoo Asset Management Fund

The Oregon Zoo Asset Management Fund was established in FY 2015-16 and was created by segregating the zoo-designated resources in the General Asset Management Fund. This fund accounts for major non-bond capital acquisition and construction projects and provides for the ongoing and future renewal and replacement of the Oregon Zoo's assets.

BEGINNING FUND BALANCE

This amount is fund balance from the Oregon Zoo Capital Projects Account, previously a part of the General Asset Management Fund, is a designated resource for non-bond funded capital projects supplementing bond activities, major repair work funded by an interfund loan from the Solid Waste Fund taken in FY 2014-15 and FY 2015-16, and unassigned resources available for renewal and replacement projects.

CURRENT REVENUES

Donations

Anticipated capital contributions from Oregon Zoo Foundation for miscellaneous capital projects.

Interfund transfers

One transfer is budgeted to occur in FY 2020-21 from the General Fund to support renewal and replacement projects.

CURRENT EXPENDITURES

Materials and services

Expenditures in this category reflect potential renewal and replacement projects that do not meet the threshold of major capital improvement and which, by definition, are considered capital maintenance. Capital maintenance projects exceeding \$100,000 are called out separately in the capital improvement plan in this budget document.

Capital outlay

This category represents capital and renewal and replacement projects approved in Metro's capital budget. For additional information, see the capital improvement plan in this budget document.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only through Council adoption of a resolution amending the budget. Any transfer from contingency that would exceed a cumulative amount greater than 15 percent of appropriations requires a full supplemental budget amendment. The FY 2020-21 contingency is comprised of a general contingency and reserve to provide for unforeseen events and a specific contingency for renewal and replacement projects in case a planned project is accelerated or becomes necessary due to failure.

Oregon Zoo Infrastructure and Animal Welfare Fund

This fund was created in November 2008 following voter approval of the general obligation bond measure. Its purpose is to account for the proceeds and expenditures of all bonds issued under this authorization.

BEGINNING FUND BALANCE

The beginning fund balance represents funds carried over from the previous year, which are reserved for the execution of capital construction projects.

CURRENT REVENUES

Interest earnings

Bond proceeds are invested in compliance with bond and arbitrage requirements. Interest on expended bond proceeds must accrue to the bond fund and be treated the same as bond proceeds.

CURRENT EXPENDITURES

Personnel services

This category includes salaries and benefits for 4.7 FTE to continue the implementation of the bond program.

Capital outlay

Capital projects during FY 2020-21 include the completion for the polar bear, primate, and rhino habitats. In addition, the capital outlay budget provides for features funded under the Oregon Percent for Art legislation and the design of interpretive displays for the bond projects.

Interfund transfers

This category includes charges from the General or Risk Management funds for services received such as legal, payroll, accounting, insurance, communications, human resources and finance.

Contingency

Contingency funds are provided to meet unforeseen needs or other emergencies throughout the fiscal year. The Metro Council must authorize the appropriation and expenditure of contingency by resolution.

ENDING FUND BALANCE

The fund balance represents unexpended bond proceeds plus interest earned. The balance will decrease as the program goals are achieved.

FTE CHANGE FROM FY 2019-20 AMENDED BUDGET							(15.90)

The Oregon Zoo Operating Fund is an enterprise fund that was created by segregating zoo activity from Metro's General Fund in FY 2015-16. The zoo's activities had historically been recorded in a sub-fund of the General Fund, and historical data was able to be isolated and moved into the new enterprise fund.

BEGINNING FUND BALANCE

The Oregon Zoo Operating Fund's beginning fund balance is \$1.9 million for FY 2020-21.

CURRENT REVENUES

Grants

The Oregon Zoo anticipates receiving about \$562,000 in grants to support conservation projects from various government agencies at the state and federal level. Grant funding fluctuates annually based on project need and available funding.

Enterprise revenue

These are revenues derived from the income producing activities of the Oregon Zoo, and include admissions fees, membership revenue, food and beverage sales, gift shop commissions, train and carousel rides, education fees and space rentals. Most revenue estimates are based upon per capita revenue projections combined with estimated attendance figures. As a seasonal attraction, zoo revenues are heavily dependent on weather conditions. However, due to the COVID-19 pandemic and closure to the public in March 2020, the zoo had to dramatically modify its budget for FY21 with reductions in projected attendance and revenue.

Budgeted enterprise revenues in FY 2020-21 are down 52.5 percent, or \$16.4 million dollars less, from the prior fiscal year, due to the expected impact of the COVID-19 pandemic on business operations. The Oregon Zoo's budgeted attendance, originally projected at 1.525 million, has been reduced by 50 percent down to 762,500, with the assumption of a July 1, 2020 re-opening date.

Donations

This category includes contributions from individuals and organizations in support of general operations or specific projects. The amount budgeted in this area is primarily, but not exclusively, support from the Oregon Zoo Foundation, and is not comprehensive of the support the zoo receives from the Oregon Zoo Foundation.

Miscellaneous revenue

The zoo receives a minor amount of revenue that cannot be classified in any other category. It is expected that these types of inflows will not exceed \$25,000 in FY 2020-21. There is an additional \$7.5M in estimated revenue (offset with the same amount in Miscellaneous Expenditures) representing approximately 25 percent of original enterprise revenue to account for possibility of any actual increase in revenue and expenses from the adjusted down budget due to COVID-19.

Interfund transfers

The Oregon Zoo Operating Fund receives support from several other Metro funds: the General Fund and the Solid Waste Reserve Fund. The General Fund transfer comprises 99.8 percent of the interfund transfers to the Oregon Zoo Operating Fund. An additional \$1.3M is being provided due to the COVID-19 pandemic. The Solid Waste funds support specific educational programs housed and managed at the zoo and amounts are determined by direct costs.

CURRENT EXPENDITURES

Personnel services

This category includes salary, wage and fringe benefits for the 188.45 Full-Time Equivalents (FTE) in the Oregon Zoo Operating Fund. However, 46 regular benefitted positions have been subsequently defunded for the zoo's FY 2020-21 operating budget due to COVID-19.

In addition to staffing changes, all divisions have experienced significant decreases in personnel services costs due to COVID-19. Overall budgeted personnel expenses has decreased by over \$3M compared to FY 2019-20, about a 13.4 percent decrease due to necessary budget reductions in response to the COVID-19 pandemic. A detailed explanation of fringe benefits is included in the appendices. A 10-year comparison of Metro's salary and benefit costs is included in the budget summary.

Materials and services

Expenditures in this category have decreased by 5 percent from FY 2019-20, primarily due to COVID-19 factors. There is an additional \$7.5M in estimated Miscellaneous Expenditures (offset with the same amount in Miscellaneous Revenue as noted above) representing approximately 25 percent of original enterprise revenue to account for possibility of any actual increase in revenue and expenses from the adjusted down budget due to COVID-19.

Capital outlay

Most major capital projects and renewal and replacement projects are budgeted in the Oregon Zoo Asset Management Fund. Budgeted expenditures in this category are for capital equipment purchases that do not meet the threshold for projects in the Capital Improvement Plan.

Interfund Transfers

There are three types of transfers from the Oregon Zoo Operating Fund: (1) interfund reimbursements for risk management services, (2) transfers for central service charges as allocated through the cost allocation plan, and (3) transfer to the Oregon Zoo Asset Management Fund for renewal and replacement projects. The plan in the initial proposed budget was to transfer \$400K to the Oregon Zoo Asset Management Fund. However, that has been redirected to support operations in light of the COVID-19 pandemic.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only through Council adoption of a resolution amending the budget. Any transfer from contingency that would exceed a cumulative amount greater than 15 percent of appropriations requires a full supplemental budget amendment. The FY 2020-21 contingency is currently only a general contingency and reserve to provide for unforeseen events.

ENDING FUND BALANCE

All fund balances have been budgeted in contingency reserves to provide the most flexibility to the zoo in FY 2020-21 to respond to any material reduction in enterprise revenues or unforeseen needs. The contingency amount represents contingencies and fund balances combined.

Parks and Nature Bond Fund

In November 2019 the voters of the Metro region authorized the sale of \$475 million in general obligation bonds for the purpose of protecting natural areas, water quality and fish and wildlife habitat and connecting people to nature. The \$475 million total voter authorization included the following elements:

- \$155 million to purchase land from willing sellers and restore it to improve water quality, fish and wildlife habitat. Projects would be selected from 24 distinct geographic areas based on attributes such as the potential to restore stream banks, oak and prairie habitat, or their cultural significance
- \$98 million to complete nature parks such as Chehalem Ridge in Washington County, increase access for people with disabilities and maintain water systems, trails, bathrooms and other amenities at parks such as Oxbow and Blue Lake.
- \$40 million to award grants for capital projects to purchase land, restore fish and wildlife habitat, or provide access to nature. Priority would be given to projects that reduce the impacts of climate change and implement Metro’s Strategic Plan to Advance Racial Equity, Diversity and Inclusion.
- \$92 million to distribute money to cities, counties and park providers across greater Portland to purchase land, restore fish and wildlife habitat, and build and maintain parks in local communities.
- \$40 million to secure rights to build new trails and construct missing sections, completing projects identified in a regional plan for a network of walking and biking paths.
- \$50 million to provide funding for public projects that also address other community issues such as jobs, housing and transportation. This program area would include \$20 million to help provide public access to Willamette Falls in downtown Oregon City.

The first series of bonds under the 2019 authorization is expected to be issued in May 2020 for \$200,000,000. The Parks and Nature Bond Fund is used to account for proceeds and expenditures related to the general obligation bonds.

BEGINNING FUND BALANCE

The Parks and Nature Bond Fund’s estimated beginning fund balance for FY 2020-21 is \$190 million.

CURRENT REVENUES

Interest earnings

Interest is budgeted at \$513,000 for FY 2020-21. Bond proceeds are invested in compliance with bond and arbitrage requirements.

CURRENT EXPENDITURES

Personnel services

Salaries and benefits are included for that staff supporting the 6 program areas. New positions in FY 2020-21 include 8 FTE to support the “Protect and Restore Land” program area, 2 FTE to support the “Take Care of Metro Parks” program area, 1 FTE to support the “Nature in Neighborhoods Capital Grants” and “Support Local Projects” program areas, 1 FTE to support the “Create Trails for Walking and Biking” program area, and 4 FTE to manage the bond program, engage with community,

and support the bond administratively. Due to the sunset of the Natural Areas Bond activities and re-evaluation of duties for FTE allocated to the Parks and Natural Areas Operating Levy, 13 FTE were reallocated to the Parks and Nature Bond Fund for a total 29 FTE in FY 2020-21 (proposed). Due to the COVID-19 pandemic, 3 additional FTE were shifted from other funding sources to the Parks and Nature Bond fund in order to account for budget cuts. This resulted in a total of 32 FTE funded by the Parks and Nature Bond fund for FY 2020-21.

Materials and services

Funds are budgeted for local share payments to other jurisdictions and community grants. Professional and property services related to land acquisition are budgeted under capital outlay. Increases in this category from proposed to adopted are related to funding sources shifting for some projects due to budget cuts related to COVID-19.

Capital outlay

Lands and capital improvements will account for \$1.5 million in spending, and will be used to replace pathways, aging sanitary systems, Americans with Disabilities Act improvements and other structures located in regional natural areas and expand public access to natural areas. Increases in this category from proposed to adopted are related to funding sources shifting for some projects due to budget cuts related to COVID-19.

Interfund transfers

The difference between the proposed and adopted internal service transfers is related to the PERS Employer Incentive Fund program. Prior to the COVID-19 pandemic, Metro was planning to participate in this program. Each department was to contribute a portion of available fund balance to help with PERS rate savings over the next six years. The Parks and Nature Bond fund budgeted a transfer of \$281,900 to help fund the full Agency contribution to the PERS program, but eliminated the transfer as Metro is no longer able to participate in the program due to budget cuts related to COVID-19.

Contingency

Contingency funds are provided to meet unforeseen needs throughout the year. The Metro Council may, through budget amendment, move up to 15 percent of the value of the fund's appropriations from contingency. Any greater amount requires a full supplemental budget action. Because of the willing seller nature of the program, the Parks and Nature Bond Fund includes a contingency level that is significantly higher than would normally be budgeted. Most of the balance of bond proceeds carried over from previous years and not needed to fund current year expenditures is placed in contingency.

ENDING FUND BALANCE

The fund balance represents unexpended bond proceeds plus interest earned. The balance will decrease as the program goals are achieved.

Parks and Nature Operating Fund

The Parks and Nature Operating Fund includes funding from the Parks and Natural Areas Local Option Levy, revenue from charges for services, and a transfer from the General Fund. The Parks and Natural Areas Local Option Levy was approved by the region's voters in May 2013, is directed toward operating and maintaining 17,000 acres of regional parks and natural areas held by Metro, including streams, river frontages, wetlands, prairies, forests and more. Specifically, levy funds will improve water quality and restore wildlife habitat, wetlands, and floodplains in the region. The levy will also fund needed upkeep to parks, nature education and community partnerships throughout the region.

BEGINNING FUND BALANCE

The Parks and Nature Operating Fund's beginning fund balance is estimated to be \$8.8 million for FY 2020-21.

CURRENT REVENUES

Charges for Services

The Parks and Nature department charges for various services including parking at some of the park and boat ramp sites, cemetery sales, camping, nature education programming, and rental space. These amounts fluctuate annually based on demand in the region but are estimated at \$2.3 million for FY 2020-21.

Property taxes

Property tax revenues from the tax levy will stay in effect for five years, and will be assessed at a rate of \$0.096 per \$1,000 of assessed value for each of those years. The levy was renewed in November 2016 for another five years, through FY 2022-23, at the same rate. After losses from property tax compression, Metro expects to receive \$16.2 million in property tax revenues from the tax levy.

Revenue Transfers

The Parks and Nature department receives an annual transfer from the General Fund. The proposed amount approximated \$4.9 million for FY 2020-21. The adopted amount approximates \$2.5 million. The decrease is due to budget cuts related to COVID-19.

CURRENT EXPENDITURES

Personnel services

Salaries and benefits for 98.8 FTE (proposed) are included for the operations, maintenance, and capital projects of Metro's parks and natural areas. The major increases from the prior year are due to all previously funded General Fund positions being moved to the Parks and Nature Operating Fund as well as an increase in Park Operations personnel resources for supervision and office coverage (2.0 FTE), increased overnight ranger coverage at Oxbow and ranger coverage at our Natural Areas (increase of 4.0 FTE), increase in maintenance support for the entire Parks and Nature portfolio (increase 1.0 FTE) and administrative support for the Park Operations division (increase 1.0 FTE). The other changes were a culmination of small personnel movements due to evaluation of job duties and the ramp up of the new Parks and Nature Bond Fund. The difference between proposed and adopted total FTE includes 2 FTE being eliminated from the budget and 4 FTE having their start date pushed back from 7/1/2020 to 1/1/2021, effectively reducing their FTE status to 0.5 each.

Materials and services

Spending on materials and services required to operate and to maintain the parks and natural areas accounts for 35 percent of the proposed expenditures for FY 2020-21. These expenditures go toward property and professional services on parks and natural areas. The difference between proposed and adopted relates to budget cuts resulting from the COVID-19 pandemic. These cuts are mostly related to events the department cannot host due to gathering restrictions in the state of Oregon.

Capital outlay

Capital improvements will account for \$1.1 million in spending, and will be used to replace pathways and other structures located in regional natural areas and expand public access to natural areas. The difference between proposed and adopted for Capital is related to shifting of funding resources. No capital projects were cancelled in FY 2020-21 due to COVID-19.

Interfund transfers

\$3.9 million will be spent on transfers to other funds to support and maintain existing parks and natural area programs.

The difference between the proposed and adopted internal service transfers is related to the PERS Employer Incentive Fund program. Prior to the COVID-19 pandemic, Metro was planning to participate in this program. Each department was to contribute a portion of available fund balance to help with PERS rate savings over the next six years. The Natural Areas fund budgeted a transfer of \$3.5 million to help fund the full Agency contribution to the PERS program, but eliminated the transfer as Metro is no longer able to participate in the program due to budget cuts related to COVID-19.

Contingency

Contingency funds are provided to meet unforeseen needs or other emergencies throughout the fiscal year. The Metro Council must authorize the appropriation and expenditure of contingency by resolution.

ENDING FUND BALANCE

The fund balance represents unexpended levy proceeds plus interest earned. The balance will decrease as the program goals are achieved. All anticipated unexpended funds for FY 2020-21 have been included in the Contingency category.

FTE CHANGE FROM FY 2019-20 AMENDED BUDGET							2.00

This fund accounts for the revenues and expenditures related to administration of Metro's Risk Management program. Claims costs are assessed to all programs based on past experience and exposure. The fund is managed by Finance and Regulatory Services.

BEGINNING FUND BALANCE

The beginning fund balance in the Risk Management Fund primarily represents reserves set aside for the liability, property and workers' compensation programs. The reserves are determined through an actuarial study updated every year. The study also identifies future contingent claims that require accrual (recognition of expense) under generally accepted accounting rules and as a result, Metro recognizes the required expense each fiscal year.

CURRENT REVENUES

Grants

Grant reimbursement is available from the State of Oregon Workers' Compensation Division for wage subsidies and work site modification. The amount of grant revenue depends on the number of qualifying injured workers.

Enterprise revenues

Enterprise revenues include internal charges to departments for unemployment insurance premiums.

Interfund transfers

These transfers represent payments from other Metro programs for their assessed costs of the Risk Management program. The Risk Management Fund is required to operate on an actuarially sound basis and as a result, Metro annually evaluates the interfund transfers assessed to each program. A significant factor in the annual evaluation is the most recent actuarial report. Metro received its last actuarial report in summer 2018 and Metro's Risk Management Fund exceeds the 90 percent confidence goal recommend by the actuary.

CURRENT EXPENDITURES

Personnel services

This fund has 2.0 FTE that manage the risk program. These FTE have historically been budgeted within the General Fund, but beginning in FY 2020-21 will be accounted for within the Risk Fund.

Materials and services

This classification includes the costs for the liability/property, workers' compensation and unemployment programs, including insurance premiums and claims costs.

Contingency

A contingency provides for unforeseen needs throughout the year. Expenditures from contingency may be made only through Council adoption of a resolution amending the budget. Any transfer from contingency that would exceed a cumulative amount greater than 15 percent of appropriations requires a full supplemental budget amendment. The FY 2020-21 contingency is a general contingency to provide for unforeseen events.

ENDING FUND BALANCE

As noted above, Metro receives an annual actuarial report. The report is used to evaluate interfund transfers, expected claims costs and recommended reserves. Metro recognizes the contingent liabilities and related expense outlined in the annual actuarial study and includes those factors in its assessment of the required amounts of interfund transfers. The transfer amounts and year end accruals impact fund balance.

Metro provides employees an “opt out” option from agency health insurance programs under certain restrictive conditions. In past years, the resulting net savings to Metro were transferred to the Risk Management fund for costs associated with health insurance or wellness programs. Beginning in FY 2012-13, Metro changed its policies and the net savings instead stay within the employees’ departments. Approximately \$81,000 of the “opt out” savings from prior years remains in the Risk Management ending fund balance. The amount may only be used for health and wellness programs. Other than the “opt out” reserve, all fund balance has been budgeted in contingency to provide the maximum flexibility to respond to unforeseen events.

Smith and Bybee Wetlands Fund

This fund was established as a dedicated endowment fund for development and management of the Smith and Bybee Wetlands Natural Area as required by the Smith and Bybee Wetlands Natural Resource Management Plan. The plan was adopted by the City of Portland, Port of Portland and Metro Council in 1990. The plan, along with the St. Johns Landfill closure and purchase assurance agreement, designated Metro as the lead agency establishing and managing the fund and implementing the plan.

The plan calls for Smith and Bybee Wetlands to be managed as environmental and recreational resources for the region. The wetlands are to be preserved in a manner faithful to their original condition as historical remnants of the Columbia River riparian and wetland system.

The fund is managed by Parks and Nature.

BEGINNING FUND BALANCE

The beginning fund balance represents the balance remaining of the original reserve created many years ago to enable the development and management of the wetlands as a natural area. The fund balance had remained reasonably stable when interest earnings were higher. More recently interest earnings have not kept pace with expenditures and the fund balance has been declining.

CURRENT EXPENDITURES

Materials and services

Expenditures in this category depend on the nature of projects to be completed under the management plan.

Interfund Transfers

The fund reimburses Parks and Nature for costs associated with management and oversight of the natural area.

Contingency

Contingency funds are provided to meet unforeseen needs throughout the year. The Metro Council must authorize the appropriation and expenditure of contingency by resolution.

ENDING FUND BALANCE

Other than interest earnings, the fund has no continuous source of funding. The fund was established as an endowment fund to enable the development and management of the Smith and Bybee Wetlands Natural Area. However, when the management plan was developed, it was known that the existing fund balance would be insufficient to fund fully all current and long-term needs. The fund balance will show fluctuations depending on specific program needs.

FTE CHANGE FROM FY 2019-20 AMENDED BUDGET							(6.95)

The Solid Waste Revenue Fund is an enterprise fund accounting for revenues and expenses related to the operation and management of the region's solid waste system. Metro Ordinance No. 89-319, established the following accounts within the fund facilitating compliance with bond covenants: operating, debt service, debt service reserve, landfill closure, construction, renewal and replacement and general account. Metro continues to use the account system established in the Ordinance for its budget.

BEGINNING FUND BALANCE

The Solid Waste Fund's beginning fund balance of \$52.8 million includes several dedicated reserves for specific purposes. The reserves were initially required to meet bond covenants on the revenue bonds issued to fund the Metro transfer stations. The reserve practices were maintained after the bonds were paid in full as a matter of Council policy and good business practice. The beginning fund balance includes \$5.6 million in reserves for landfill closure, \$4.7 million in the Renewal and Replacement Account, \$6.2 million for capital reserves, \$14.9 million for rate stabilization, \$5.2 million for environmental impairment and \$16.2 million in a general working capital reserve. The general working capital reserve is designed to hold, at a minimum, the equivalent of 45 days of operating expenses.

CURRENT REVENUES

Enterprise revenues

Metro's solid waste system is funded largely by three user fees: the Regional System Fee, the Metro Tip Fee and transaction fees. Due to the COVID-19 pandemic, these fees remain the same as FY 2019-20 upon budget adoption. Council and staff have decided to adopt updated fees later in the fiscal year when the economic stability of the waste system is more evident. The objective for the new fees and consistent generation of current fees, is to generate, in aggregate, \$77 million in revenues for the fund. The Regional System Fee is imposed on all waste generated in the Metro region and ultimately disposed of for a fee. The Metro Tip Fee is a user charge collected only at Metro-owned transfer stations and includes the Regional System Fee. The Transaction Fee is a flat fee charged for each transaction at Metro transfer stations. The expectation of tonnage is that it will be lower than FY 2019-20 and the original FY 2020-21 tonnage forecast from November 2019, which had forecasted a flat solid waste generation for all waste materials. The total impact of tonnage due to the pandemic is unknown but was projected at the time of the approved FY 2020-21 budget to be a 3.9 percent decrease regionally and 7percent decrease at the Metro stations from the original forecast.

CURRENT EXPENDITURES

Personnel services

The budgeted FTE for FY 2020-21 totals 172.81, which is 6.95 FTE less than the amended FY2019-20 budget. The 6.95 FTE were moved from the Solid Waste Fund to other funding sources within the agency to align with the WPES reorganization. The total FTE includes 27.65 FTE added through the FY2019-20 budget amendment process. The additional costs in FY 2019-20 from the approved FTE were for partial year, as employment from the FTE is delayed. The new FTE are budgeted for a full year for FY 2020-21 and are reflected in the increased personnel costs. The budgeted FTE are substantial enough to meet the goals prioritized from the 2030 Regional Waste Plan and Metro Council priorities for the fiscal year. With this in mind, the Department did an extensive organizational assessment that

resulted in a reorganization and has been fully implemented for FY 2020-21. The new organizational structure of the department is organized under five divisions: Administration (14.65 FTE), Strategic Planning & Support Services (27.0 FTE), Policy & Compliance (16.5 FTE), Community Services & Education (36.90 FTE), and Garbage & Recycling Operations (77.76 FTE).

Materials and services

Materials and services are budgeted to increase by 3.6 percent (\$2.1 million) from the FY 2019-20 amended budget. Due to the COVID-19 pandemic, there were considerable cuts from the budget in materials and services, but this still results in an increase over the prior fiscal year. A new \$5.5 million operating contract at Metro South Transfer Station contributed to the net increase. While these budget cuts were implemented to adjust to the current economic changes, impacted programs and spending will be revisited in more favorable economic times. The remaining increase is well below the annual expectation of inflation.

Capital outlay

This category mainly includes the purchase of equipment and capital improvements at Metro solid waste facilities. Capital improvements are scheduled in Metro's capital improvement plan.

Capital expenditures are segregated into three categories. The Solid Waste General Account expenditures are typically new capital assets intended to improve the efficiency and effectiveness of Metro's two transfer stations. Projects in the Renewal and Replacement Account are undertaken to realize the optimal life span of capital assets. The projects funded or identified in the Landfill Closure Account are limited to projects needed to close St. Johns Landfill or implement post-closure monitoring.

Approximately \$14.5 million of total current expenditures will be spent on capital projects, as scheduled in Metro's capital budget. The largest items in this fiscal year's capital expenditures is the dollars budgeted land purchase (\$7.5 million), Central Station upgrades for organics processing (\$3.5 million), and additional large equipment purchases (\$0.7 million). All of the other projects are \$500,000 and smaller for various software developments and infrastructure replacements and improvements. There have been no planned projects for Landfill Closure.

Transfers

Transfers to other funds include internal service charges for central services, the construction management office costs and Geographic Information System services provided by the Research Center.

Contingency

The total Solid Waste Fund contingency for FY 2020-21 is \$18.5 million. The operating contingency is funded to cover unanticipated cost spikes or tonnage (revenue) losses and any capital cost overages.

ENDING FUND BALANCE

The unappropriated ending fund balance of \$11.5 million consists of designated and restricted funds, including funds reserved for rate stabilization and available as working capital to meet cash flow needs, a capital reserve account and a reserve for probable Environmental Impairment Liability.

A capital project is defined in Metro’s capital improvement plan (CIP) as any asset acquired or constructed by Metro with a total capital cost of \$100,000 or more and a useful life of at least five years. Significant capital maintenance and renewal and replacement projects are also included in Metro’s CIP. The CIP for the next five years, FY 2020-21 through FY 2024-25, includes 148 projects with anticipated new spending of \$396 million.

Each year, departments assess the condition of existing capital assets, the status of current capital projects and future capital needs. The Chief Operating Officer reviews budget requests and includes selected projects in the proposed budget. The Metro Council reviews and acts on the proposed CIP following a public hearing. The Council adopts the five-year plan in its entirety and makes appropriations for the first year through budget adoption. Changes to the plan require Council action by resolution.

Five-year CIP Summary: FY 2020-21 through FY 2024-25

The summary table below presents the capital costs of projects by fiscal year, by operating unit. As in previous years, this year’s CIP projects are primarily funded by capital reserves (73 percent). In 2020-21 Planning and Development continues to budget for capital projects related to the Affordable Housing Bond. Planned costs include purchases of land for the affordable housing projects. The Capital Asset Management department is planning significant upgrades to the MRC building with the use of bond financing issued in 2018. Both interior and exterior upgrades are planned such as drainage and concrete repair, space-planning reconfiguration, and elevator retrofits. Waste Prevention and Environmental Services spending includes Solid Waste planned new facilities and renewal and replacement at existing facilities. Parks and Nature includes spending for regional parks projects from a variety of resources, including both bond funded and local option levy funded projects for land purchases and natural area projects. Projects at the Oregon Zoo reflect expenditures in the zoo bond program approved by voters in 2008 as well as other capital and renewal and replacement projects. MERC includes capital projects for the OCC, Portland’s 5 Centers for Arts (Portland’s 5) and the Portland Expo Center (Expo). Most Information Services projects fund network infrastructure and agency software.

Total projects costs by organization unit

	Total Projects	FY 2020-21	FY 2021-22	FY 2022-23	FY 2023-24	FY 2024-25	5 YR Total

SOURCES OF FUNDS

Expected spending for the next five years is \$395.7 million, funded as follows:

General Obligation Bonds

The Natural Areas, Oregon Zoo Infrastructure and Animal Welfare and Affordable Housing bond proceeds provide 15 percent of funding for CIP projects.

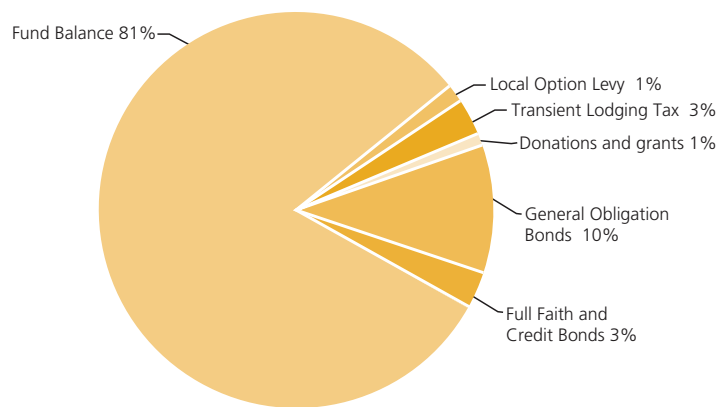

Fund balance

Fund balance provides 73 percent of funding for CIP projects Metro uses an accumulating strategy for its renewal and replacement funding, resulting in a more

predictable and level annual contribution, no matter what projects start in any given year. The Solid Waste Revenue Fund employed this technique as a condition of its now retired bond financing for the transfer stations and continues to do so.

The General Fund established its General Renewal and Replacement Fund (now housed in the General Asset Management Fund) in 2008, fueled by a \$5.7 million initial contribution. A portion of this reserve was split out in 2015 with the creation of a dedicated Oregon Zoo Asset Management Fund. The remaining balance is comprised of dedicated reserves for the Metro Regional Center, Information Services and Regional Parks. In 2011 the MERC Fund also designated dedicated renewal and replacement funding for each of its venues. This financing technique is particularly well suited for small- to medium-sized projects. Fund Balance also supports new capital projects.

Major funding sources

Transient Lodging Tax

The MERC Fund maintains a capital reserve funded by transient lodging tax for capital refurbishment and replacement at all three visitor venues. This reserve provides 7 percent of CIP project funding.

Full Faith and Credit Bonds

Proceeds from full faith and credit bonds represent 3 percent of CIP project funding. The funding will be dedicated to projects at the Metro Regional Center and Lone Fir Cemetery.

Local Option Levy

The Parks and Nature Operating Fund will make up about 1 percent of funding for CIP projects from local option levy sources. All local option levy funding in the CIP will support capital and renewal and replacement projects at Metro’s parks and natural areas.

Donations and Grants

Donations and grants account for 1 percent of the total and vary annually. This year they include grants and contributions from the Oregon Zoo Foundation and contributions from various Portland’s partners.

This section contains capital improvement plan project summaries for each department, including the funding source for each project.

Total projects summary by year

Each section begins with a complete listing of the projects contained in the current capital budget. The chart shows the expected expenditures by year and the five-year total.

Overview of projects

The narrative addresses significant issues regarding each unit's capital budget. The overview includes information about new projects that are in the capital budget proposal and may address changes in timing and scope of projects previously listed.

Project funding

This section of the narrative discusses the sources of funding for the various projects and any significant funding issues. The contribution to the General Fund Renewal and Replacement Account increases each fiscal year for existing assets. When significant new assets are added, the contribution to this fund also increases. For FY 2020-21, the increase is 3 percent.

Capital Asset Management includes improvements at the Metro Regional Center (MRC).

OVERVIEW OF PROJECTS

Capital Asset Management will fund 20 projects in FY 2020-21 through FY2024-25. The projects include upgrades to kitchens and bathrooms to meet ADA accessibility requirements, and other interior and exterior retrofits.

General Renewal and Replacement and Capital

In FY 2020-21 major projects that will take place at MRC include upgrades to the building's kitchen and bathrooms, furniture reconfiguration, lighting upgrades, and elevator retrofits.

MAJOR FUNDING SOURCES

In FY 2020-21 all capital projects associated with Capital Asset Management are funded via proceeds from a full faith and credit bond issued in May 2018.

The Information Services capital budget includes most agency-wide hardware and applications. Applications and hardware specific to individual programs are generally found within those programs.

OVERVIEW OF PROJECTS

The FY 2020-21 through FY 2024-25 Information Services capital budget contains 8 projects. The only item that is new capital is being done in collaboration with Finance and Regulatory Services as IS has a pivotal role in the implementation of a cloud based software service that will facilitate the automation of documents such as invoices from outside vendors into the PeopleSoft application. The remainder of the projects are considered renewal and replacement. Renewal and replacement projects support preservation of Metro's various technology systems and servers and include upgrades to business software. Other projects in FY 2020-21 include multiple server upgrades, work on KRONOS time management system, and updates to Metro's website.

PROJECT FUNDING

Projects for agency-wide applications are generally funded by the general fund, transfers from the participating funds into the General Asset Management Fund, or are funded directly by those other funds.

OPERATIONAL IMPACTS

The operational impact of most of these projects is the ongoing cost to fund renewal and replacement, system support and maintenance cost. Investments in Metro's technology infrastructure is a key element of security and operational success. Metro's website redesign will make it even easier for parties across the agency to work together to serve the public.

Parks and Nature capital projects include the acquisition of natural areas, improvements at Metro regional parks and the planning and development of new facilities for the parks system.

OVERVIEW OF PROJECTS

Parks and Nature will fund at least 30 projects in FY 2020-21 through FY 2024-25, some of which are spread between multiple funding sources.

Parks General Fund Renewal and Replacement

The Capital Improvement Plan includes a variety of Parks and Natural areas renewal and replacement projects. Among the projects scheduled in FY 2020-21 are work on the Chinook Floats and Gangway replacement, multiple fleet replacements, and trail improvements at Oxbow Park.

Parks and Nature Operating Fund

The Parks and Nature Operating fund, which includes the voter-approved Parks and Natural Areas Local Option Levy, is the funding source for these projects and includes a variety of projects dedicated to restoring natural areas and improving facilities at regional parks. Major projects include numerous stream and habitat restorations, as well as construction on the day use and nature park areas of Newell Creek Canyon.

Natural Areas Bond

This capital plan includes the continued acquisition of natural areas and several design and construction projects. Significant natural area access projects in FY 2020-21 include construction at Chehalem Ridge, Columbia Boulevard Bridge Crossing, and work on the Marine Drive Trail.

Parks and Nature Bond

The Parks and Nature bond was approved by voters in November 2019. The Parks and Nature department is currently working on identifying bond projects eligible for this funding source and has earmarked \$25 million dollars for FY 2020-21 spending. This amount is not currently included on the Capital Improvement Plan as specific projects have not been approved yet and is instead budgeted within the Parks and Nature Bond fund's operating budget. In addition to the \$25 million, there are a few smaller projects that have been added to the capital plan including replacing portions of the Oxbow sanitary system, required ADA upgrades, and construction at Newell Creek Canyon.

Regional Parks Capital

Regional Parks Capital includes one project for the construction a new trail and overlook at the old St. Johns landfill site that is being restored as a natural area.

Willamette Falls Capital Fund

Construction on the Willamette Falls Riverwalk will continue FY 2020-21.

PROJECTS FUNDING

Over \$5 million in projects in FY 2020-21 are funded by General Obligation bond proceeds for Natural Areas, approved by voters in 2006 and again in 2019. The Parks and Natural Areas Local Option Levy, periodic grants, and reserves provide funding for restoration, improvements and increased public access at Metro's regional parks and natural areas. The Willamette Falls Riverwalk also receives funding from Oregon Lottery and non-Metro jurisdictions involved in the project. Parks projects are commonly funded by multiple sources.

OPERATIONAL IMPACTS

Operating costs include a component for renewal and replacement when appropriate and the expected operating costs of the new parks.

Planning and Development

The Planning and Development capital budget includes Affordable Housing Fund projects planned to address the region's affordable housing needs.

OVERVIEW OF PROJECTS

The FY 2020-21 through FY 2024-25 Planning capital budget contains budgeted amounts for land acquisition related to Affordable Housing.

PROJECTS FUNDING

All funding for the Affordable Housing projects comes from general obligation bonds, approved by the region's voters, and issued in May 2019.

OPERATIONAL IMPACTS

The operational impact of these projects aligns with other affordable housing planned programs.

Visitor Venues

Metro's Visitor Venues include OCC, Portland'5, Expo and the Oregon Zoo. Consolidated in July 2010 to enhance collaboration on operational issues, the team actively works toward a common mission of maintaining world-class gathering and entertainment spaces.

OCC is owned by Metro, managed by MERC, and is home to regional and national conventions and trade shows.

OVERVIEW OF PROJECTS

The FY 2020-21 through FY 2024-25 OCC capital budget contains 16 projects; most projects are renewal and replacement. Capital projects in FY 2020-21 were reduced to health and safety projects only.

PROJECT FUNDING

OCC's project funding in this five-year plan comes primarily transient lodging tax collections. Long term COVID-19 pandemic impacts on transient lodging taxes may result in changes to the capital plan in future years.

Portland's Centers for the Arts

Portland's facilities are owned by the City of Portland and managed by MERC through an intergovernmental agreement between Metro and the City of Portland. Portland's provides world class entertainment spaces for residents and visitors in three buildings:

- Antoinette Hatfield Hall, containing Dolores Winningstad Theatre, Newmark Theatre and Brunish Hall
- Arlene Schnitzer Concert Hall
- Keller Auditorium

OVERVIEW OF PROJECTS

The FY 2020-21 through FY 2024-25 Portland's capital budget contains four projects. Capital projects in FY 2020-21 were reduced to health and safety projects and projects with external funding only.

PROJECT FUNDING

Both FY 2020-21 projects have external funding from Portland's partners, some of which was received in prior years and is held in fund balance.

Expo is owned by Metro and managed by the MERC. Expo is Oregon's largest multi-purpose facility. The 53-acre campus boasts five spacious exhibit halls totaling more than 333,000 square feet and ten varied meeting rooms.

OVERVIEW OF PROJECTS

The FY 2020-21 through FY 2024-25 Expo capital budget contains 17 projects, including lighting improvements to one section of the parking which will create a wide-open space for concerts, festivals and other events, and structural repairs to Hall C.

PROJECT FUNDING

Expo's project funding in this five-year plan comes primarily transient lodging tax collections. Long term COVID-19 pandemic impacts on transient lodging taxes may result in changes to the capital plan in future years.

The Oregon Zoo is owned and operated by Metro and attracts approximately 1.5 million in annual attendance. However, due to the COVID-19 pandemic, the Oregon Zoo has reduced its estimated attendance for FY 2020-21 by 50 percent, down to 762,500 for the fiscal year. The 64-acre campus has five major exhibit areas: Great Northwest, Fragile Forests, Asia, Pacific Shores and Africa. Within these large areas are 23 specialized exhibits.

OVERVIEW OF PROJECTS

The FY 2020-21 through FY 2024-25 Oregon Zoo capital budget includes 19 projects. 12 projects are renewal and replacement, with the remaining funded by the Zoo capital projects subfund and by the Oregon Zoo Infrastructure and Animal Welfare bond measure.

Bond-funded projects include the completion in FY 2020-21 of the polar bear, primate, and rhino habitats. In addition the plan provides for features funded under the Oregon Percent for Art legislation and the design of interpretive displays for the bond projects.

Non-bond projects in FY 2020-21 include additional funding for the polar bear, primate forest, and rhino habitats; roof replacements and coating, HVAC replacements, exterior painting and building repair, website redesign, and various enhancements for animal health and welfare.

PROJECT FUNDING

In the FY 2020-21 CIP, \$19.62M is funded from the Oregon Zoo Infrastructure and Animal Welfare General Obligations bonds issued in prior years. Fund balance reserves from the Oregon Zoo Capital Projects and Renewal and Replacement subfunds will provide \$3.95M, and the remaining \$825K will be provided for by grants from the Oregon Zoo Foundation.

Waste Prevention and Environmental Services

Waste Prevention and Environmental Services capital projects include land acquisition and design for a new facility as well as improvements at Solid Waste Facilities.

OVERVIEW OF PROJECTS

Waste Prevention and Environmental Services will fund 23 projects in FY 2020-21 through FY 2024-25.

Solid Waste Revenue Fund

Projects for the Solid Waste Operating program fall into two categories:

General and Operating Accounts

Projects financed through the Solid Waste General Account are typically new capital assets designed to increase the efficiency and effectiveness of Metro's two transfer stations. The current five-year plan includes General Account projects to acquire additional land, a new facility design, major improvements for paint processing and upgrades for organics processing at Central Station.

Renewal and Replacement Account

Projects financed through the Renewal and Replacement Account are replacements of equipment and rehabilitation of facilities necessary to realize the optimal lifespan of capital components. The program regularly contracts with an engineering firm to assess the condition of equipment and facilities and calculate annual contribution amounts to the Renewal and Replacement Account. The latest study was performed in FY 2011-12 in conjunction with a Metro-wide renewal and replacement study. The largest projects in the current five-year plan include concrete removal and installation and work on a conveyor at Metro Central.

MAJOR FUNDING SOURCES

Primary financing for Solid Waste projects derives from reserves established for that purpose.

Metro uses long and short-term debt to finance capital projects and some capital equipment. The following pages provide a summary of Metro's overall debt level as well as an explanation of Metro's outstanding debt by type and issue.

All of Metro's current bond issuances have been assigned extremely favorable bond ratings from one or both major credit ratings agencies, confirming Metro's strong financial practices. Standard and Poor's has consistently assigned and affirmed Metro's AAA long-term rating on full faith and credit obligations (FFCO) and general obligation (GO) bond issuances. And Moody's Investor Services has assigned either Aaa or Aa3 designations to Metro's GO bonds, Limited Tax Pension Obligation bonds, and Dedicated Tax Revenue bonds. The value of these high grade ratings results in favorable interest rates and, in some cases, high yield premiums. Standard and Poor's and Moody's most recently reviewed Metro for the Natural Areas Bonds Series 2020 issued in April 2020 and affirmed the AAA and Aaa ratings.

SUMMARY OF OVERALL DEBT

Metro has a relatively low level of outstanding debt. As of July 1, 2020, Metro has nine debt issues outstanding, totaling \$1,029,520,000. This total includes \$200 million from the most recent issuance under the Natural Areas Program that was issued in May 2020.

The graphs and charts on the following pages summarize Metro's total outstanding debt by fiscal year as well as total debt as a percentage of real market value and assessed value. In addition, the Debt Ratios table shows Metro's level of outstanding debt on a per capita basis and as compared to the estimated real market value of the Metro region. With the passage of Ballot Measure 50 in May 1997, assessed values were rolled back to FY 1994-95 levels less 10 percent and capped at no more than a 3 percent annual increase with exceptions for new construction. In the first 15 years following passage of the measure, real market values rose significantly faster than assessed values. As the economy struggled, real market value decreased by almost 17 percent between 2009 and 2013. As a result, the ratio of assessed value to real market value rose from 53 percent in 2009 to 72 percent in 2013. With the economy continuing at a more normal pace, real market value increases are outpacing the changes to assessed value and the result is that the ratio of assessed value to real market value has declined from 72 percent in 2013 to 53 percent in 2020 (see chart on the next page). New construction is also on the rise allowing for an average growth in assessed values greater than the 3 percent annual limit allowed under Ballot Measure 50. Bonded debt is not subject to compression under Oregon's property tax laws.

Periodically Metro will refund bond issues to take advantage of lower interest rates. Metro currently has two refunding bond issues outstanding. The net present value of the savings from refunding is calculated when the new bonds are issued and is included on the debt service schedules.

General Obligation Debt: \$942,030,000 outstanding

Metro's Charter and Oregon state law require Metro to obtain voter approval prior to issuing any general obligation bonds. Voters have approved seven general obligation bond issues, four of which have outstanding debt: 1)\$56.4 million is outstanding on the Natural Areas measure approved by voters in 2006 for \$227.4 million. Two issuances under this measure are outstanding: Natural Areas 2012A series and 2018 series, both maturing in 2026; 2)\$44.9 million remains on the \$125 million 2008 measure for Oregon Zoo infrastructure and projects related to animal welfare. There have been five total issuances, two of which remain outstanding: Oregon Zoo Infrastructure 2012A and 2018 series, both maturing in 2028; 3)\$640.6 million is outstanding for Affordable Housing approved by voters in 2018 and issued in a single issuance in May 2019; and 4) In 2019 voter's approved \$475 million for Natural Areas. \$200 million

in bonds were issued in April 2020 under this measure: Series 2020A (Tax-Exempt) for \$110 million, maturing in 2040; and Series 2020B (Federally Taxable) for \$90 million, maturing in 2030.

State law establishes a limit of 10 percent of real market value on Metro's total general obligation indebtedness. Metro's general obligation debt is 0.27 percent of real market value. The Metro Debt Limitation Comparison table (page F-6) shows a comparison of Metro's outstanding general obligation bonds to the statutory debt limit.

Full Faith and Credit Bonds: \$22,055,000 outstanding

In 2013, Metro issued bonds to refund a portion of previously issued obligations for Metro Regional Center (MRC) acquisition and construction. Metro received a net present value savings of 10.1 percent due to the refunding. Assessments are made by Metro departments occupying Metro's headquarters building to pay for the debt service. The outstanding obligation is \$4 million, maturing in 2022.

In 2016, Metro issued bonds to refund outstanding loans that were used to finance the construction of a new building to replace the existing Hall D at Expo. Metro received a net present value savings of 14.7 percent. The loan is paid from Expo revenues. \$4.7 million remains on the outstanding bonds which mature in 2024.

In 2018 Metro issued a Council-authorized full faith and credit bond for \$13.29 million, maturing in 2033. This bond is used to fund renovation projects and necessary upgrades and repairs to the Metro Regional Center building and the Lone Fir Cemetery. The debt service payments are paid by General Fund revenue, including assessments on various Metro departments based on their shared use of the facilities.

The full faith and credit bonds are backed by a broader pledge of Metro revenues, including property taxes used to support operations and excise taxes levied on users of certain Metro services. The prior funding sources will continue to be used to pay debt service on the full faith and credit bonds, but the additional backing from other Metro revenues provides greater security for bondholders.

Pension Obligation Bonds: \$15,660,000 outstanding

In fall 2005 Metro joined with a pool of other local governments in the State of Oregon to issue limited tax pension obligation bonds to fund its share of the Oregon Public Employees Retirement System unfunded actuarial liability. Metro's share of the total principal will be repaid over a period of 22 years through assessments on operating units in exchange for a lower pension cost. The bonds mature in 2028.

Dedicated Tax Revenue Bonds: \$49,775,000 outstanding

Metro negotiated with a developer to construct a 600-room hotel adjacent to the Oregon Convention Center. The hotel opened to the public in December 2019. Approximately \$49.8 million remains on the bonds, which were issued in August 2017 and are backed by the site specific transient lodging tax revenue. The bonds mature in 2047.

PLANNED DEBT

In May 2020, voter's approved measure 26-210 to provide for supportive housing services to prevent and reduce homelessness in the Portland region. The services will be financed through a combination of a personal income tax on high income earners and a business profits tax on businesses with income over \$5 million. Metro is considering short-term debt financing to allow flexibility in operating the program during FY 2020-21 as tax revenue is not expected until April 2021.

Metro is referring the Get Moving 2020 ballot measure to voters in November 2020 for approximately \$5 billion in regional transportation projects. The investments in the measure would be funded through a tax paid by businesses on up to 0.75% of their total wages paid in the Metro region. The tax would not begin until 2022, however some investments could begin as soon as 2021.

Outstanding debt issues

(1) The passage of ballot measure 50 converted the State of Oregon from a levy based to a rate based property tax system with reductions in assessed values.

(2) Dramatic increase in compression is due to first year of 5-year Natural Areas local option levy

(3) Estimate for FY 20-21 budget.

Dedicated Tax Revenue Bond, Oregon Convention Hotel Project, Series 2017

Metro negotiated with a developer to construct a 600-room hotel adjacent to the Oregon Convention Center. The hotel opened in January 2020. In August 2017 Metro issued \$52.3 million in bonds to fund a \$60 million contribution to the project. The bonds are backed by site specific transient lodging tax revenue.

General Obligation Bond, Affordable Housing, Series 2019

In November 2018 the region's voters approved the Affordable Housing Measure, a \$652.8 million general obligation bond measure that directed Metro to fund affordable housing for low-income families, seniors, veterans and people with disabilities. The bond creates affordable housing for an estimated 12,000 people in the greater Portland region. Metro issued the full amount authorized of \$652.8 million in May 2019.

General Obligation Bonds, Natural Areas, 2012A Series

In November 2006 the region's voters approved Measure 26-80, a \$227.4 million bond measure that directed Metro to acquire natural areas, parks and streams to protect open spaces and water quality, enhance the region's network of trails, and provide greater access to nature. The first series of bonds for \$124,295,000 was issued April 3, 2007. The second series of \$75 million was issued in May 2012. The balance of the authorization was issued in May 2018.

General Obligation Bonds, Natural Areas, Series 2020A

In November 2019 the region's voters approved Measure 26-203, a \$475 million bond measure to fund programs designed to protect natural areas and connect people to nature. The bond will be used for protecting clean water for people, fish and wildlife; improving habitat for native fish and wildlife; protecting and restoring culturally significant native plant communities; and improving access to parks and nature. The first series of bonds was issued in April 2020 in two series: 2020A (Tax-Exempt) for \$110 million and 2020B (Federally Taxable) for \$90 million. The debt service payments for 2020A begin in FY20-21 and mature in FY39-40.

General Obligation Bonds, Oregon Zoo Infrastructure and Animal Welfare Bonds, 2012A Series

In November 2008 the region's voters approved Measure 26-96, a \$125 million general obligation bond measure that directed Metro to fund Oregon Zoo capital projects to protect animal health and safety, conserve and recycle water and to improve access to conservation education. The first series of bonds in the form of a private placement with Bank of America for \$5 million was issued December 22, 2008. A second series of bonds was issued on August 5, 2010, in the form of a two-year private placement with Wells Fargo for \$15 million. The bonds were issued as taxable Build America Bonds (BABs). An additional \$65 million of bonds was issued in May 2012. Two final issuances in March 2016 and May 2018, issued the remaining balance of the authorization.

Full Faith and Credit Refunding Bonds, 2013 Series

Full faith and credit bonds were issued in October 2003 to refund outstanding obligations for Metro Regional Center (MRC) acquisition and construction, and for loans from the Oregon Economic and Community Development Department's (OECDD) Special Public Works Fund to the Oregon Zoo for Metro's share of light rail station construction and Washington Park parking lot improvements. Bonds to finance Metro Regional Center were originally issued in 1991, and refunded in 1993, as revenue bonds to be paid by assessments to Metro departments. The OECDD loans were issued in two series, in 1995 and 1996, to coincide with construction schedules for the Light Rail and parking lot improvements projects. These loans were paid from zoo revenues. The 2003 refunding broadened the pool of available funds to back payment of the obligations, by pledging Metro's general revenues including excise taxes and Metro's permanent rate property tax levy. Debt service payments will continue to be made from the same sources as before, but the full faith and credit pledge strengthens the security for bondholders. The refunding bonds produced net present value savings of \$2,462,082. In February 2013 the callable portion of the 2003 bond was refunded resulting in a net present value savings of \$1,284,311 or 10.1 percent of the refunding proceeds.

Full Faith and Credit Refunding Bonds, 2016 Series

In April 2000, Metro obtained a loan from the Oregon Bond Bank through the Oregon Economic Development Department (OEDD) Special Public Works Fund (SPWF) to pay for the construction of a new building to replace the existing Hall D at the Expo Center. The loan was divided into two parts with the first being used to finance the construction of the Hall D replacement. The second part of the loan was for infrastructure improvements associated with the new building. In April 2006, Metro joined with two other Oregon local governments to issue full faith and credit refunding bonds to refund the outstanding obligation remaining on the loan. The refunding realized a net present value savings of \$758,683; 5.05 percent of refunding proceeds. In September 2016, the callable portion of the 2006 bonds were refunded realizing a net present value savings of \$1,196,739; 14.678 percent of refunding bonds.

Full Faith and Credit Bonds, 2018 Series

In May 2018, Metro issued \$13.3 million in bonds to fund renovations, upgrades and repairs to two existing Metro properties , the Metro Regional Center (MRC) building and Lone Fir Cemetery. The MRC building projects include exterior and interior replacements and upgrades and IS infrastructure. The Lone Fir Cemetery projects include retaining wall replacement, fencing, and security and safety upgrades. The debt service will be repaid through existing Metro revenues which includes assessments on departments to pay for their share of the MRC building upgrade costs along with other General Fund revenues.

Limited Tax Pension Obligation Bonds, 2005 Series

Metro joined in a pool with other local governments in the State of Oregon to issue limited tax pension bonds to fund its share of the Oregon Public Employee Retirement System unfunded actuarial liability. The taxable bonds were issued on September 23, 2005. Debt service will be repaid through assessments on departments in exchange for a lower pension cost. The underlying Moody's rating is A3. The issue was insured to receive a Aaa rating.

Charter limitation on expenditures

In November 1992 the voters of the region approved a home rule charter for Metro. Section 14 of the Charter places limitations on the expenditures of certain tax revenues as follows:

Section 14. Limitations on Expenditures of Certain Tax Revenues

1. Generally, except as provided in this section, for the first fiscal year after this charter takes effect Metro may make no more than \$12,500,000 in expenditures on a cash basis from taxes imposed and received by Metro and interest and other earnings on those taxes. This expenditure limitation increases in each subsequent fiscal year by a percentage equal to (a) the rate of increase in the Consumer Price Index, All Items, for Portland-Vancouver (All Urban Consumers) as determined by the appropriate federal agency or (b) the most nearly equivalent index as determined by the council if the index described in (a) is discontinued. The Portland-Vancouver price index was discontinued as of January 2018 and Metro now uses the Consumer Price Index, All Urban Consumers, West Size Class A in determining the limitation on expenditures.
2. Exclusions from limitation. This section does not apply to (a) taxes approved by the voters of Metro or the Metropolitan Service District and interest and other earnings on those taxes, (b) payroll taxes specified in section 11 of this charter, and (c) tax increment financing charges on property.

The following table reflects a 15-year history of the dollar limitation on expenditures from these tax revenues for each fiscal year. The Consumer Price Index (CPI) is calculated using the latest calendar year-end data available at budget adoption time and comparing that with the prior year. Data is from the U.S. Department of Labor, Bureau of Labor Statistics.

The Consumer Price Index for All Urban Consumers, West Size Class A now stands at 281.17 on the 1982–84=100 reference base.

For FY 2020-21 the budget authorizes 79 percent of the limit.

15-year History			
Fiscal Year	CPI Prior Year End	% Change	Limit

Excise tax

Chapter III Section 10 of the Metro Charter authorizes Metro to levy and collect taxes except as prohibited by law or restricted by the Charter. The Metro Code Chapter 7.01.020 imposes a tax on each user for the privilege of using the facilities, equipment, systems, functions, services or improvements owned, operated, franchised or provided by Metro. Certain exemptions to the tax are specified in Section 7.01.050 of the Code. The tax is not applied to the Portland's Centers for the Arts under terms of the Consolidation Agreement with the City of Portland. By Council action, Metro does not charge an excise tax to the Oregon Zoo, the Oregon Convention Center, or the Portland Expo Center. The excise tax is Metro's primary General Fund revenue source. It supports the Council Office and transfers of indirect costs of associated central services. The tax also supports various planning, parks facility activities and marketing efforts.

Approximately 99 percent of all excise tax is generated on solid waste revenue. To increase revenue predictability, solid waste excise tax is calculated by a per-ton fee instead of a percentage of the tipping fee. For budgeting purposes, the revenue raised increases at the same rate as the Consumer Price Index. The Council may exceed the Consumer Price Index limitation if additional resources are deemed necessary during the budget review and adoption process.

The Metro excise tax is levied as a flat rate per-ton tax on solid waste disposal and as a percentage of all other authorized sales and services. The Metro excise tax is estimated to raise \$19.2 million in FY 2020-21. By Metro Code, the amount of the per-ton tax may be increased annually based on the Consumer Price Index. The flat rate per-ton tax was consolidated into a single yield-based tax in FY 2010-11, folding in a number of individual per-ton rates which had been imposed at different times. The single rate approach increases predictability and moderates revenue swings in times of either increasing or decreasing tonnage. The consolidation did not change the charter limitation on expenditures. The consolidated rate for FY 2020-21 will be \$12.47 per ton, an increase of \$0.90, effective July 1. The rate for all other authorized revenues, currently 7.5 percent, will not change unless amended by the Metro Council.

FY 2020-21 budget transfers

Interfund transfers are a significant part of the annual budget. Generally, transfers are made between funds when the revenue is received in one fund for an expenditure that occurs in another fund. Another primary reason for transfers is for a fund to pay for services provided by another fund. For example, the Solid Waste Revenue Fund transfers money to the Risk Management Fund for insurance coverage.

A transfer is a requirement to the fund that is transferring the money out for receiving services. A transfer is a resource to the fund that is receiving the money for providing the services. For every requirement transfer there is a corresponding resource transfer. The requirement of “Transfer to Risk Management Fund” in the Solid Waste Revenue Fund would show as a resource “Transfer from Solid Waste Revenue Fund” in the Risk Management Fund. The corresponding transfers must show the same dollar amount. Since the internal transfers are complex and can be difficult to understand and trace through the budget document, the following explanation is provided for each transfer, by fund.

From (Expenditures)	To (Resources)	Type	\$ Amount	Purpose
General Fund	Risk Management Fund	Indirect	\$19,040	Charges for insurance premiums and costs associated with the agency's liability, property, safety and worker's compensation programs.
	General Asset Management Fund	Resources	\$1,218,776	Annual renewal and replacement contribution to provide for General Fund assets including Metro Regional Center, Parks, Sustainability, and Information Services. Also including transfer of merchandise revenue from Glendoveer.

	General Fund	Direct	\$338,429	Charges for services and personnel to the Data Resource Center and for data maintenance	
	(Research Center and Planning & Development)				
	General Fund (Diversity, Equity & Inclusion)	Direct	\$50,000	Contribution for Diversity, Equity and Inclusion programs	
Renewal and Replacement Fund	Resources	\$1,006,210	Contributions to Renewal and Replacement funds including transfer from residential rental receipts		

FY 2020-21 Budget transfers, *continued*

Smith and Bybee Wetlands Fund	General Fund	Direct	\$69,907	Charges for education staff managing operations and providing education at Smith and Bybee Lakes.
Solid Waste Fund	General Fund	Indirect	\$5,990,839	Charges for services provided, including but not limited to, accounting, human resources, legal and information services support. Also includes a share of the Chief Operating Officer program.
	Risk Management Fund	Indirect	\$99,839	Charges for insurance premiums and costs associated with the agency's liability, property, safety and worker's compensation programs.
	General Fund (Research Center and Planning & Development)	Direct	\$914,017	Charges for services and personnel to the Data Resource Center and for data maintenance
	General Fund (Property and Environmental Services)	Direct	\$17,500	Charges for services incurred on behalf of and directly related to solid waste issues, including weekend security service.
	General Fund (Diversity, Equity & Inclusion)	Direct	\$200,000	Contribution for Diversity, Equity and Inclusion programs
	Oregon Zoo Operating Fund	Direct	\$25,000	Support for joint education programs with Zoo Conservation Education Division
	Parks & Nature Operating Fund	Direct	\$7,684	Natural Technician Support for St. Johns Landfill

GASB 54 fund balance designations

Governmental Accounting Standards Board Statement 54 introduced a restructuring and redefinition of fund balance components for governmental fund types. Enterprise funds such as the Solid Waste and MERC funds are not included. The statement is intended to improve the usefulness of the amount reported in fund balance by providing more structured classification. To improve the reporting of fund balance, a hierarchy of fund balance classifications has been created based primarily on the extent to which governments are bound by constraints on resources reported in the funds. This approach is intended to provide users more consistent and understandable information about a fund's net resources.

The hierarchy of five possible classifications of fund balance is:

- Nonspendable - balances in permanent funds and inventories that are permanently precluded from conversion to cash.
- Restricted - constrained to a specific purpose by enabling legislation, external parties or constitutional provisions.
- Committed - constraints imposed by the government using the highest level of decision-making authority.
- Assigned - amounts intended for a specific purpose by a government's management.
- Unassigned - amounts available for any purpose.

Estimated July 1, 2020, fund balance designations are:

Fund	FY 2020-21 Beginning Fund Balance	FY 2020-21 DESIGNATIONS				
		Non- spendable	Restricted	Committed	Assigned	Unassigned
General Fund	\$49,399,445	\$ -	\$24,358,000	\$12,902,251	\$ -	\$12,139,194
General Obligation Bond Debt Service Fund	2,278,000	-	2,278,000	-	-	-

General Fund Reserves Detail

The General Fund beginning and ending reserve balances include a variety of restricted, committed, reserved and unassigned balances. The following is a detailed listing of the balances included in the FY 2020-21 General Fund.

Total Beginning Fund Balance / Reserves		\$49,764,645
Restricted		\$24,358,000
Restricted for Transit Oriented Development Program	13,760,000	
Restricted for IGA Projects	10,598,000	
Committed		\$12,902,251
Committed for Local Gov't Grants (CET)	12,902,251	
Unassigned/Reserved		\$12,504,394
Reserve for Future Debt Service - Metro Regional Center	936,116	
Reserve for Future Debt Service Pension Bonds	563,624	
Reserve for PERS	775,475	
Reserve for Cost Allocation Plan adjustments	1,784,834	
Reserve for Pay Equity	215,000	
Reserve for carryover	365,200	
Unassigned	7,864,145	
Total Ending Reserves (Contingency / Unappropriated Balance)		\$35,495,024
Contingency - Opportunity Account		\$0
Council Opportunity Account (per Council policy)	350,000	
Reduction: Contribution Regional Investment Strategy	(350,000)	
Contingency - Operating		\$11,830,346
General Contingency	4,958,079	
TOD Contingency	4,000,000	
IGA Projects Contingency	2,000,000	
CET Contingency	418,000	
Contingency for Federal grant match	239,267	
Contingency Reserved for Pay Equity	215,000	
Restricted		\$6,983,823
Restricted for TOD Program	2,981,246	
Restricted for IGA Projects	4,002,577	
Committed		\$13,017,401
Committed for Local Gov't Grants (CET)	13,017,401	
Unassigned/Reserved		\$3,663,454
Reserve for Future Debt Service - Metro Regional Center	946,222	
Reserve for Future Debt Service Pension Bonds	932,398	
Reserve for Cost Allocation Plan adjustments	1,784,834	

Interfund loans

Metro has an interfund capital loan made in accordance with Oregon Budget Law. An interfund capital loan is made for the purpose of financing the design, acquisition, construction, installation or improvement of real or personal property. The loan is repaid over a period not to exceed ten years. Interest is charged at a rate equal to the average yield on Metro's pooled investments. The Oregon Zoo made additional principal and interest payments in FY 2019-20 and will not be making a payment in FY 2020-21. The next scheduled payment will be made in FY 2021-22 and the loan will be fully repaid by the end of FY 2023-24.

Solid Waste Revenue Fund to Oregon Zoo Asset Management Fund

Purpose	Oregon Zoo capital projects		
Initial Loan Amount	\$3,228,000		
Initial Fiscal Year	FY 2014-15		
Balance due as of June 30, 2020	FY 2020-21 Principal Repayment	Balance due as of June 30, 2021	FY 2020-21 Budgeted Interest
1,342,839	-	1,342,839	-

Fringe benefit rate calculation

The base fringe rate calculation is split into two components: a fixed rate per FTE and a variable rate to be applied to estimated salaries and wages. The variable rate includes all portions of the fringe benefits that are calculated on a straight percentage of salaries/wages—Oregon Public Employees Retirement System (PERS), FICA, TriMet payroll tax and long-term disability. The fixed rate per FTE includes all other benefits—health and welfare (medical, dental, vision), life insurance, dependent life insurance, accidental death insurance and workers' compensation tax. All benefits are explained in detail below.

The variable rate fringe includes a component called "PERS Bond Recovery". In FY 2005–06 Metro financed its unfunded liability with the PERS through the issuance of pension obligation bonds. Metro received a 4.04 percent reduction in its direct pension costs to PERS, substituting an annual debt service payment on the outstanding pension bonds. The funding to pay the debt costs is recovered from all departments in lieu of higher direct pension costs. The PERS Bond Recovery rate is applied against estimated salaries to recover the amount needed to fund the annual debt service payments. The rate will vary from year to year depending on the annual debt payments and estimated salaries.

The pension obligation bond offset continues because the reserve set up by Metro continues to offset a portion of the costs that would otherwise be paid by departments. In FY 2020-21, the offset is 0.5 percent of the 3.0 percent PERS bond recovery rate (the other 2.5 percent being paid by departments, as the PERS Bond Debt Recovery).

Explanation of individual benefits

FICA (Social Security tax): The total tax rate is 15.30 percent of salary, with half paid by the employer and half paid by the employee. The employer-paid tax is included in the benefit rate calculation. The tax is divided into two components: Medicare at 1.45 percent of salary and Old Age, Survivor and Disability Insurance at 6.20 percent of salary.

TriMet Payroll Tax: Tax charged on all salaries and wages and paid to TriMet, the local mass transit provider. The tax is calculated at 0.7787 percent of salary.

Long-Term Disability: Benefit paid to employees in the event of qualified non-work related injury or illness. Benefit is calculated at 0.31 percent of eligible salaries and wages.

Pension: Metro's pension is provided through PERS. PERS contribution rates are divided into two components: employee contribution and employer contribution. The employer rate is determined through actuarial studies performed every two years. For FY 2020-21 Metro's average composite employer rate is estimated at 16.4 percent. The employee pick-up rate is set at 6 percent. As of July 1, 2014 almost all newly hired employees began paying their own PERS employee contributions. Metro's functions employ a number of temporary, seasonal or event-related part-time employees. While these employees may not be benefit eligible under Metro regulations, they may be PERS eligible if they meet certain criteria.

PERS Bond Recovery Rate: Percent applied against pension eligible salaries to fund the annual debt service payments on the pension obligation bonds. The rate will vary from year to year depending on annual debt service payments and the estimated salaries. Historically, it has ranged from 3.0 percent to 3.2 percent. Beginning in FY 2011-12 the accumulated PERS Reserve began to be used to offset all or a portion of

the costs of the PERS Bond Recovery rate. With the offset, for FY 2020-21, the rate charged to departments will be 1.0 percent. FY 2020-21 is expected to be the final year that the offset is available, and departments will be charged the full rate in future years.

Workers' Compensation Tax: State tax calculated at \$0.014 per hour worked.

Life Insurance: Benefit paid on behalf of all regular employees. Calculated at \$0.07 per month per \$1,000 of eligible salary up to a maximum of \$50,000.

Accidental Death Insurance: Benefit paid on behalf of all regular employees. Calculated at \$0.02 per month per \$1,000 of eligible salary up to a maximum of \$50,000.

Dependent Life Insurance: Benefit paid on behalf of all regular employees. Calculated at \$0.22 per employee per month.

Dependent Accidental Death Insurance: Benefit paid on behalf of all regular employees. Calculated at \$0.02 per employee per month.

Health and Welfare Program: Costs paid by Metro on behalf of the employee for medical, dental and vision coverage. Metro shares the cost of health and welfare premiums with employees. Metro pays a set percentage of the premium based on an employee's health and welfare elections, with the employer paying the remaining portion. As of July 1, 2016 all employee groups utilize a 92 percent/8 percent cost sharing plan. The FY 2020-21 budget assumes a 10 percent increase in health care premiums effective upon renewal in January.

Variable rate components

	Elected officials	Non-represented employees	AFSCME 3580 represented employees	Other represented employees with pick-up	Other represented employees w/o pick-up	Pension eligible temporary/seasonal employees	Non-pension eligible temporary/seasonal employees

TOTAL FIXED RATE COMPONENT	\$17,319	\$17,319	\$17,319	\$30

*Includes Dependent Accidental Death Insurance

Limited duration positions

Limited duration positions are approved by the Metro Council. In some cases, the projects or programs related to these positions have a funding source that is non-recurring or one-time sources of revenues such as grant funds or bond proceeds. In November 2008, voters approved the Oregon Zoo Infrastructure and Animal Welfare program. Council has authorized the addition of a number of positions specifically funded by these bond proceeds. Some limited duration positions serve a particular initiative or program need and are only authorized for the duration of the program. Unless re-authorized during the budget process, limited duration positions are eliminated at the end of the authorized duration. The following changes are budgeted for FY 2020-21:

<i>Position</i>	<i>Pos #</i>	<i>Organizational Unit</i>	<i>Duration</i>	<i>FTE</i>	<i>Program/Project</i>
<u>Position Eliminated on or before 6/30/2020</u>

Development of the budget is an important and legally required process. The result is a policy and financial plan covering all of Metro’s programs and services. The budget document presents a strategically focused discussion of goals and objectives, programs and outcomes and spending priorities within resource constraints. The budget process at Metro includes two concurrent, complementary cycles: (1) the strategic process for evaluating progress and setting future expectations and (2) the development of the final policy and financial document.

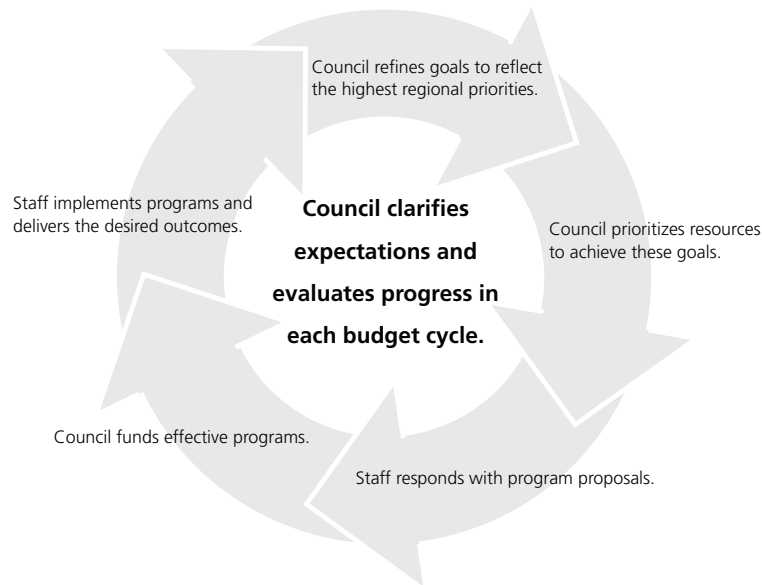

THE STRATEGIC BUDGET PROCESS

Metro follows a strategic budgeting process that guides not only the development of its annual budget but also provides focus for multi-year funding commitments toward specific objectives. In 2008 under Metro’s leadership, regional leaders agreed on six desired outcomes for communities throughout the region. By embracing measurable outcomes, leaders shifted from talking about abstract concepts like “compact urban form” to focusing on what really matters in the everyday lives of the region’s 1.8 million residents. Identifying regional values ensures decisions are guided by a clear focus. The following six desired outcomes for the region were adopted by the Metro Council in 2010 as part of the region’s growth management policies:

With this regional framework in mind, Metro adopts its agency goals and operates programs and projects that make positive contributions to the regional outcomes. Metro adopts program goals and measures performance, including the internal efficiency and effectiveness of its business practices. During the year the Metro Council receives periodic program and financial updates and reports to track performance towards these outcomes. Every fall the Council provides direction to the Budget Officer, increasing focus in particular areas or redirecting efforts to adjust to changing circumstances within the region. The diagram at the top of next page illustrates this year-round dynamic process.

Annual strategic budget process

THE BUDGET CYCLE

The budget cycle focuses on the development of an annual budget document that incorporates the Metro Council's strategic direction into a comprehensive policy and financial plan for all Metro programs and services. It is a process designed to meet the expectations of the general public, the Metro Council and the requirements of Oregon Budget Law.

Review of prior year

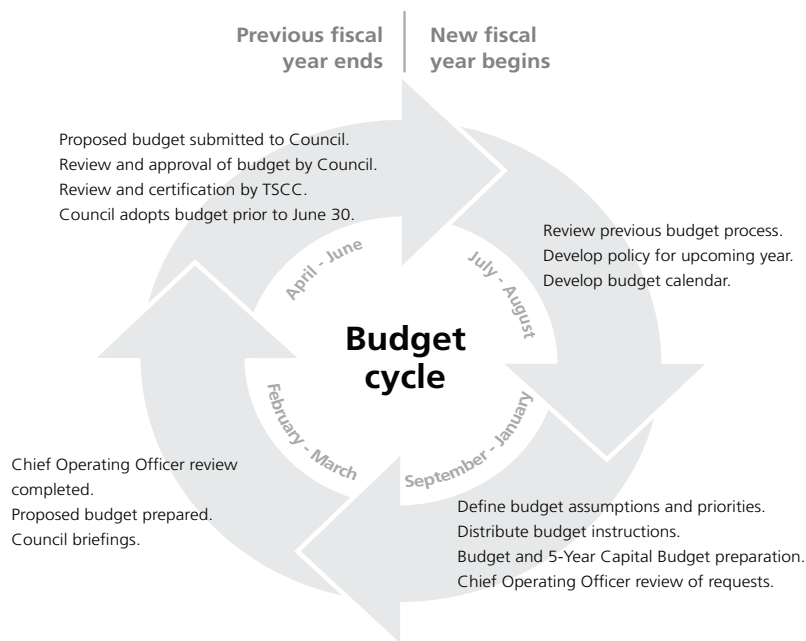

Each fiscal year begins with a review of the previous year's budget cycle to determine areas of success and areas of concern. Staff works to refine the process for the upcoming year. New budget parameters are developed to set out the basic assumptions organizational units should adopt for the preparation of their budgets. These parameters are incorporated with the policies and priorities set by the Metro Council and the Chief Operating Officer.

Five Year Forecast Development

An important tool in the evaluation of operating fund performance is the development of the five-year forecasts. The principles of Metro's financial policies are followed throughout the five-year forecast. A factor for historic underspending is included. In the absence of contractual escalators tied to specific indices, general inflationary increases are allowed. A prudent contingency reserve is assumed for each fund. Annual renewal and replacement contributions are required. Basic labor assumptions for salaries, wages, COLA, health and welfare, PERS and other benefits are included. The purpose of the forecasts is not to display a balanced budget in all future years. The purpose is to identify vulnerabilities, highlight trends and provide a line of sight to decision making. The forecasts serve as an early warning system for future concerns. Issues identified in the forecasts are considered when setting budget instructions and parameters for the ensuing process.

Budget instructions

The Financial Planning division of Finance and Regulatory Services provides detailed instructions for the preparation of the requested operating and capital budgets. The instructions provide the universal assumptions for increasing or decreasing staff, calculating changes in personnel costs and costing out commonly purchased items such as office furniture and computer software. The instructions also give operating

units detailed information for budgeting capital projects already approved in the five-year Capital Improvement Plan, for proposing new capital projects for future years and for undertaking scheduled renewal and replacement projects to safeguard Metro's public assets.

Budget requests

Staff in operating units apply the instructions and assumptions from Financial Planning and the direction received from the COO to forecast their base program activities and financial needs for the next fiscal year. In addition, programs prepare a series of proposals to add, cut or change program activities, functions or funding levels. The base forecasts along with the add, cut or change proposals form the basis of the requested budgets.

Review and analysis resulting in proposed budget

The Financial Planning division reviews, analyzes and consolidates the base budget requests, meeting with each operating unit to verify and refine the requests, as needed. The COO, serving as the agency's Budget Officer, conducts review meetings to discuss identified issues and program changes. The COO presents preliminary budget information to the Metro Council identifying early issues and revenue constraints, seeking additional guidance on program and policy direction. Following additional review, analysis and discussion and budget modification, the COO may hold a work session with the Senior Leadership Team and the Finance Team to discuss the Council's additional guidance, the operating proposals and budget balancing options. The COO, as Budget Officer, makes the final decisions, and delivers a budget message and proposed budget to the Metro Council and the public.

Review and analysis by the Metro Council resulting in approved budget

The Metro Council, sitting as the Budget Committee, holds one or more public work sessions to review the budget, take program and public testimony, and make any additions, deletions or modifications to the proposed budget. After due consideration, the Metro Council approves a budget and determines the amount required and allowed to be levied from property taxes. The approved budget and tax levy are then submitted to the Multnomah County Tax Supervising and Conservation Commission (TSCC).

Tax Supervising and Conservation Commission review and certification

Oregon law requires local governments to establish a budget committee that reviews the budget and makes decisions regarding the approved budget. For most jurisdictions this committee comprises members of the governing body and an equal number of citizens. In counties where the population is greater than 500,000 (currently Multnomah County and Washington County), a TSCC may be established. Members of this commission are appointed by the governor to supervise local government budgeting and taxing activities. Currently, Multnomah County is the only county with a TSCC. Washington County has chosen to retain its citizen budget committee and implement the alternative publication option allowed under Oregon Budget Law. Because more than 50 percent of Metro's total assessed value is within Multnomah County, Metro submits its budget to the Multnomah County TSCC. After the commission reviews Metro's budget, it holds a public hearing and asks for clarification on items within the budget or items affecting the financial health of the organization. Upon completion of the public hearing, the TSCC issues a letter of certification, which becomes part of the official record included with the adoption of the budget.

Metro Council adoption and submission to County Tax Assessors

After receiving certification by the TSCC, the Metro Council makes any necessary and final technical adjustments and adopts the budget prior to June 30, the end of the fiscal year. Legally required documentation to levy property taxes for the ensuing year is filed with each county tax assessor in the region prior to July 15th. The final adopted budget document is prepared, printed and submitted to each of the county tax assessors in the region and to the TSCC.

Changes to the budget after adoption

Oregon Budget Law provides ways for a budget to be changed after adoption. Amendments to transfer appropriations within a fund (between appropriation categories such as organizational unit and contingency) or between funds may be made through Council approval of a resolution. Certain increases in appropriations due to recognition of new revenues are allowed under narrowly defined exceptions contained in Oregon Revised Statutes. In these circumstances, the budget may be amended through Metro Council approval of a resolution. In most circumstances, however, the recognition of new revenues and equal amounts of appropriations require the preparation of a supplemental budget.

The five-year capital improvement plan

Metro's five-year capital planning process identifies the agency's capital asset needs for projects that cost \$100,000 or more and have a useful life of five years or more. The Metro Council adopted the agency's first capital improvement plan in January 1997. Metro Council reviews the capital budget concurrently to promote improved coordination between capital spending and the overall budget.

Budget calendar

Preparation and analysis of Five Year Forecasts for all major operating areas	September – December 2019
Council holds strategic planning work sessions to provide direction on programs and upcoming budget	November 2019 - February 2020
Financial Planning issues budget instructions and assumptions	Mid-December 2019
Budget requests including base budgets, CIPs and modification packages submitted to Financial Planning	January 17, 2020
Financial Planning review, analysis and consolidation of base budgets, base CIPs and modification packages	January 22 – 31, 2020
COO review, analysis and discussion of department budget requests including base budgets, CIPs and modification requests	February 3 – 28, 2020
COO makes final budget decisions for base budgets, base CIPs and final modification packages to be included in Proposed Budget	By February 28, 2020
Final Proposed budgets due from all departments	March 6, 2020
Financial Planning produces Proposed Budget documents	March 9 – April 1, 2020
Proposed Budget released to Council for individual review	April 2, 2020
Chief Operating Officer presents Proposed Budget; initial public hearing held	April 16, 2020
Council work session on proposed budget	April 21, 2020
Council public hearing; budget approval and tax levies (Resolution No. 20-5092)	May 7, 2020
Metro submits approved budget to Tax Supervising and Conservation Commission	By May 15, 2020
Tax Supervising and Conservation Commission public comment period	May 15 – 29, 2020
Tax Supervising and Conservation Commission public hearing on approved budget	June 4, 2020
Council work session on approved budget and final amendments	June 9, 2020
Council considers and approves final amendments to budget; public hearing	June 11, 2020
Council budget public hearing; adoption (Resolution No. 20-5095A)	June 18, 2020
File property tax levies with Tax Supervising and Conservation Commission and three counties	By July 15, 2020

GENERAL FUND

In accordance with GAAP, the General Fund accounts for all activities not required to be accounted for in another fund. This includes Metro's general government activities (including Council and Communications functions, regional investment strategies and certain regional parks and nature operations), as well as all administrative support functions (such as Capital Asset Management, Finance and Regulatory Services, Human Resources, Information Services, Metro Auditor, and Office of Metro Attorney). The principal resources of the fund are an excise tax on Metro's facilities and services levied in accordance with the Metro Code, general property taxes derived from a tax levy approved by voters in May 1990, charges for services provided by the various activities of Metro, intergovernmental revenues in the form of grants and contracts, and investment earnings.

ENTERPRISE FUNDS

Solid Waste Revenue Fund

This fund accounts for revenues and expenditures for the implementation, administration, and enforcement of Metro's Solid Waste Management Plan. The primary revenue source is from fees collected for the disposal of solid waste. This fund also accounts for the operation of the Metro South and Metro Central transfer stations and recycling facilities, and the closed St. Johns Landfill.

Metropolitan Exposition Recreation Commission Fund

This fund accounts for the revenues and expenditures of the Metropolitan Exposition Recreation Commission (MERC), which includes the Oregon Convention Center, Portland's 5 Centers for the Arts and the Portland Expo Center. The fund maintains the facilities and administration as divisions within the fund but is appropriated at the following levels: total operating expenditure including capital outlay for all venues, debt service, transfers and contingency. Principal sources of revenues are user fees and charges, food service revenues and hotel/motel tax.

Oregon Zoo Operating Fund

This fund accounts for the revenues and expenditures of the Oregon Zoo operations. Principal sources of revenues are various admissions fees and charges, food service revenues and tuition and lecture fees. The fund also receives a contribution from the General Fund for operating support.

SPECIAL REVENUE FUNDS

Affordable Housing Fund

This fund accounts for the bond proceeds and expenditures related to the implementation and administration of the regional Affordable Housing program approved by voters in 2018. The primary revenue source in FY 2018-19 was the issuance of \$652.8 million in general obligation bonds. The primary revenue source in FY 2020-21 and future years will be investment earnings. Expenditures are governed by the bond measure and are related to the creation of permanently affordable housing in the greater Portland region.

Smith and Bybee Wetlands Fund

This fund accounts for the implementation of the Smith and Bybee Lakes management plan, managed by Metro's Parks and Environmental Services. A natural Resources Plan for Smith and Bybee Lakes was adopted by the City of Portland and Metro in December 1990. Primary resources are interest earnings.

General Asset Management Fund

This fund accounts for major non-general obligation bond funded capital acquisition and construction projects undertaken by General Fund assets of Metro as well as provides for the ongoing and future renewal and replacement needs of Metro's assets acquired by the General Fund. Included are projects for regional parks and facilities,

Metro Regional Center and Information Services as well as significant capital expenditures for other non-enterprise related Metro activities. In addition, this fund accounts for designated funds transferred from Multnomah County as of January 1, 1994. The funds are restricted for use at Oxbow Regional Park. Major capital project revenue sources include, but are not limited to, grants, donations, contributions from the General Fund and other revenues and contributions identified for capital purpose. Primary sources of revenue for renewal and replacement are annual scheduled contributions from the General Fund and interest earnings. Expenditures are made in accordance with an approved renewal and replacement schedule reviewed and updated on a regular basis, with physical inventory and evaluation at least once every five years. In the CAFR, this fund is consolidated as part of the General Fund to be in compliance with GAAP.

General Revenue Bond Fund

General revenue bonds and other financing proceeds are accounting for in this fund. The proceeds are used to finance projects such as construction, renovations and repairs at the Metro Regional Center, the Lone Fir Cemetery, and the Washington Park parking lot. Proceeds have also been used for construction of the Expo Center Hall D replacement and the revenues and expenditures associated with the Oregon Convention Center Hotel project. This fund also accounts for the payments on outstanding debt associated with these projects. This fund receives revenue from the Visitor Facilities Trust Account to pay for the debt service on the OCC hotel project. Other principal sources of revenues are charges to organization units for debt service, bond and loan proceeds and interest earnings. In the CAFR, this fund is segregated and then combined with other applicable funds for proper GAAP classification within the General Fund (building and property management and OCC hotel) and the MERC and Oregon Zoo enterprise funds on a GAAP basis.

Community Enhancement Fund

This fund accounts for funds received and expenditures for rehabilitation and enhancement of the area in and around the solid waste transfer facilities and St. Johns Landfill. Primary resources are rehabilitation and enhancement fees and interest. Expenditures are for planning and implementation of rehabilitation and enhancement programs in the area.

Parks and Nature Operating Fund

This fund accounts for proceeds received from the five-year local option levy approved by the voters of the Metro region in May 2013 and renewed in November 2016. Primary resources of the fund are property taxes. These resources are restricted by the local option levy measure for specified expenditures related to the operation, restoration and development of regional parks and natural areas and do not include debt service expenditures or expenditures on large capital projects. This fund also receives revenue from various service charges including parking at some of the park and boat ramp sites, cemetery sales, camping, nature education programming, and rental space.

Oregon Zoo Asset Management Fund

This fund accounts for major non-bond funded capital acquisition and construction projects undertaken by the Oregon Zoo as well as provides for the ongoing and future renewal and replacement needs of the Oregon Zoo assets. Major capital project revenue sources include, but are not limited to grants, donations, contributions from the General Fund and other revenues and contributions identified for capital purpose. Primary sources of revenue for renewal and replacement are annual scheduled contributions from the General Fund and interest earnings. Expenditures are made in accordance with an approved renewal and replacement schedule reviewed and updated on a regular basis, with physical inventory and evaluation at least once every five years. In the CAFR, this fund is consolidated as part of the Oregon Zoo Operating Fund to be in compliance with GAAP.

CAPITAL PROJECTS FUNDS

Parks and Nature Bond Fund

This fund accounts for the bond proceeds and expenditures related to the general obligation bonds approved by the voters in 2019 for the purpose of protecting natural areas, water quality and fish and wildlife habitat and connecting people to nature. In April 2020, the first series of bonds under the 2019 authorization was issued. Metro issued \$110,000,000 in Tax-Exempt bonds under the Natural Areas 2020A series, and \$90,000,000 in Federally Taxable bonds under the Natural Areas 2020B series, for a total of \$200,000,000. Interest earnings are expected to generate some revenues in FY 2020-21. Expenditures are governed by the bond measure and are related to the acquisition and stabilization of land purchased, capital projects at our existing park and natural area sites, acquisition and construction costs related to building new trails, and for local share payments to other jurisdictions and community grants.

Open Spaces Fund

This fund accounts for the bond proceeds and expenditures related to the Open Spaces, Parks and Streams general obligation bonds approved by the voters in 1995. Primary sources of revenue include interest earnings on the bond proceeds and public and private contributions toward the acquisition program. Expenditures are governed by the bond measure and are related to the acquisition of land and the establishment of trails.

Natural Areas Fund

This fund accounts for the bond proceeds and expenditures related to the Natural Areas general obligation bonds approved by the voters in 2006. Primary sources of revenues include bond proceeds, interest earnings on the bond proceeds and public and private contributions toward the acquisition program. Expenditures are governed by the bond measure and are related to the acquisition of land and the preservation of natural areas.

Oregon Zoo Infrastructure and Animal Welfare Bond Fund

This fund accounts for bond proceeds and expenditures related to the Oregon Zoo general obligation bonds approved by the voters in 2008. Primary sources of revenue include bond proceeds and interest earnings on the bonds. Expenditures are governed by the bond measure and are related to design and construction of capital projects for infrastructure and animal welfare at the Oregon Zoo.

INTERNAL SERVICE FUNDS

Risk Management Fund

This fund accounts for insured, self-insured and risk management activities performed for the organizational units within Metro. The fund purchases property and liability insurance and maintains reserves for self-insured deductible expenses. Workers' compensation costs are also a combination of purchased and self-insurance. In addition, the fund accounts for unemployment insurance. Primary revenues are charges to user funds and interest. Primary expenditures are insurance premiums, claims costs and actuarial evaluations.

DEBT SERVICE FUND

General Obligation Bond Debt Service Fund

This fund accounts for payments of general obligation bond principal and interest to bond holders. The principal source of revenue is property taxes.

PERMANENT FUND

Cemetery Perpetual Care Fund

This fund was created in 2003 to provide financial support for the long-term maintenance of the Metro Pioneer Cemeteries after the cemeteries are no longer receiving revenue from grave sales and burial services. The fund will receive revenue from a 25 percent surcharge on grave sales. It is anticipated that no expenditures will be made from this fund until grave sites are exhausted at the cemeteries.

2040: See *Metro 2040 Growth Concept*.

Accrual Basis of Accounting: Accounting method in which revenue is recognized when it is earned, regardless of when cash is received; expenses are recognized when the associated liability is incurred, regardless of when cash is paid.

Ad Valorem Tax: A tax based on the assessed value of taxable property.

AFSCME: See *American Federation of State, County, and Municipal Employees*.

American Federation of State, County, and Municipal Employees (AFSCME): An organized labor bargaining unit.

Appropriation: The legal spending authority approved by Metro Council to fund Metro activities. Can be changed only by the action of the Council and in some instances is further restricted by Oregon budget law.

Arbitrage: Interest earned from the proceeds of bond issues in which the rate of interest earned is greater than the interest rate owed on the bonds. Arbitrage earnings must be reported to the Internal Revenue Service.

Assessed Value: The value set by a county assessor on real and personal taxable property as a basis for levying taxes.

Ballot Measure 5: Amendment to the Oregon Constitution approved by the voters in 1990, which limits property tax rates. This is now Article XI, Section 11(b) of the Oregon Constitution.

Ballot Measure 37: Constitutional amendment approved by voters in November 2004. Measure 37 requires that governments pay owners, or waive enforcement by repealing, changing or not applying restrictions, when certain land use restrictions reduce owners' property value.

Ballot Measure 47: Constitutional amendment approved by voters in November 1996. Ballot Measure 47 rolled back property taxes on individual properties to either the FY 1994–95 tax or the FY 1995–96 tax less 10 percent, whichever was less. The measure allowed increases of no more than 3 percent per year in property tax bills in ensuing years and limited fee increases without voter approval. Ballot Measure 47 was to take effect in FY 1997–98, but was repealed in May 1997 by Ballot Measure 50.

Ballot Measure 50: A Constitutional amendment referred to the voters by the Legislature in May 1997. Ballot Measure 50 repealed and replaced Ballot Measure 47. Ballot Measure 50 rolled assessed values back to FY 1994–95 levels less 10 percent and allows them to increase no more than 3 percent per year. Existing operating tax levies (including tax bases and levies approved in November 1996) were reduced by a statewide average of 17 percent and were converted to rate-based levies. Ballot Measure 50 took effect in FY 1997–98.

Beginning Fund Balance: Net resources (cash and non-cash) available in a fund at the beginning of a fiscal year, carried over from the prior fiscal year.

Bonds: A written promise to pay a sum of money at a future date, with interest paid at an agreed rate on a set schedule. Bonds are typically used by governments to finance long-term capital improvements.

Brownfield: Land previously used for industrial purposes or certain commercial uses. The land may be contaminated by low concentrations of hazardous waste or pollution, and has the potential to be reused once it is cleaned up.

Budget: A plan for receiving and spending money in a fiscal year. The budget is the financial plan for Metro's allocation of resources to provide services, accomplish Metro's objectives and perform activities.

Budget Calendar: The schedule of key dates and major events in the budget process.

Budget Committee: The Metro Council sits as a special committee under Oregon Budget Law to review the Chief Operating Officer's proposed budget and to adopt the budget for the following fiscal year.

Budget Phases: Metro's annual budget is developed in four phases, as follows:

Requested: Requests from departments for the following year's budget.

Proposed: The Chief Operating Officer's recommended budget, which is reviewed by the Council Budget Committee.

Approved: The budget and tax levy as approved by the Council that is forwarded to the Multnomah County Tax Supervising and Conservation Commission for its certification.

Adopted: The budget as adopted by the Council in the annual budget resolution, following certification by the Tax Supervising and Conservation Commission.

Budget Program: A portfolio of products, services, funding and performance measures that links to Council goals within a performance-based program budget. A performance-based program budget links funding to agency results affecting external audiences. Metro budget programs include varying levels of programs, projects and operations.

CAFR: See *Comprehensive Annual Financial Report*.

Capital Improvement Plan (CIP): a long-range plan prepared annually to identify capital projects to be funded over a five-year period. The five-year capital budget identifies each project, the year in which it will be started or acquired, the yearly expenditures of the project and proposed method of financing. The capital budget is reviewed and approved by the Chief Operating Officer and the Metro Council. Projects approved for the first year of the plan become part of Metro's budget for the ensuing year and may be modified in subsequent years. The document is included in the agency budget document. The capital budget and the annual operating budget document are presented to the Council by the Chief Operating Officer for its consideration and adoption.

Capital Outlay: A major expenditure category that includes appropriations for the purchase or improvement of land and buildings, and for furniture and equipment with a cost of more than \$10,000 and a useful life of one or more years.

Capital Project: A capital project is any physical asset acquired, constructed or financed by Metro, with a total capital cost of \$100,000 or more and a useful life of at least five years. It can include land, facilities, trails, roads, other infrastructure, major equipment and parts. It can include renewal and replacement projects as well as new acquisitions and construction projects. Acquisition or construction of a capital project may be staged over several years.

Cash Basis of Accounting: Accounting method under which transactions are recognized when cash changes hands.

Centers and Services: Work units organized to serve budget programs and/or provide internal services (also referred to "as departments").

Central Services: Services provided internally to Metro departments by another Metro department or departments. These are primarily business services, such as accounting, risk management, information services, human resources and legal services.

CET: See *Construction Excise Tax*.

Chart of Accounts: A coding framework that categorizes various financial information into a logical structure which is the basis and foundation for all financial reporting within the agency.

CII: See *Community Investment Initiative*.

CIP: See *Capital Improvement Plan*.

CIS: See *Community Investment Strategy*.

COBID: Certification Office for Business Inclusion and Diversity

COLA: Cost of Living Adjustment.

Commission: An appointed body established in the Metro Code responsible for daily operations of a Metro operation (specifically MERC).

Compensation Plan: A listing of all Metro position classifications, their classification number and the rates of pay authorized.

Component Unit: Legally separate organization for which elected officials of the primary government are financially accountable. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's statements to be misleading or incomplete, in accordance with GASB Statements 14 and 39.

Comprehensive Annual Financial Report (CAFR): The official public record of Metro's financial condition and results of operations, prepared at the close of each fiscal year, subject to audit.

Compression: The effect produced if the combined (and otherwise authorized) property tax rates of all non-school jurisdictions in a taxing area exceed the limit of \$10 tax per \$1000 in assessed value, as required by the Oregon Constitution since the passage of Ballot Measure 5. The result of such an excess is reduced proportionally to each general government jurisdiction's rate so the total rate does not exceed \$10.

Concept Plan: See *Metro 2040 Growth Concept*.

Construction Excise Tax (CET): Effective July 1, 2006, Metro imposed a 0.12 percent Construction Excise Tax on eligible construction throughout the region to fund concept planning for areas brought into the Urban Growth Boundary in 2002 and 2004. All jurisdictions issuing permits have signed intergovernmental agreements to collect the tax on Metro's behalf. The CET is authorized through 2020.

Contingency: A major expenditure category that includes appropriations set aside for unforeseen expenses. The Council must approve, by resolution, any transfers from a contingency account to an expenditure account.

Contract: An agreement in writing between two parties where there is an exchange of goods or services. A contract is enforceable by law.

COO: Chief Operating Officer.

Cost Allocation Plan: A document prepared each fiscal year that identifies costs for central services and assigns them to operating units based on the best estimate of use or benefit received. The plan is used in preparing the annual budget to determine the amount of interfund transfers for the central service funds.

COVID-19: A respiratory illness that has evolved into a global pandemic in 2020. Due to the extremely infectious nature of the disease, significant impacts to daily life and the economy have occurred.

CPI: Consumer Price Index.

CRAG: Columbia Region Association of Governments.

Data Resource Center (DRC): The division of Metro's Research Center that supplies economic and demographic information for Metro's planning functions, and that manages the Regional Land Information System (RLIS).

Debt Service: 1. Payment of principal and interest on bonds, interest-bearing warrants and short-term notes; 2. A major expenditure category that includes all categories of debt service payments.

DEIS: Draft Environmental Impact Statement.

Department: A functional unit of Metro.

Department of Environmental Quality–Oregon (DEQ): The Oregon Department of Environmental Quality, a state agency, which regulates Metro's solid waste disposal

system and aspects of Metro planning operations such as air quality and water quality.

DEQ: See *Department of Environmental Quality*.

Direct Costs: The amount of charges to a department for specific services provided by another department.

Diversity, Equity and Inclusion (DEI): A program dedicated to promoting diversity, equity and inclusion of underrepresented people, either due to racial/ethnicity disparities, sexual orientation, or disability, both for employees of Metro and the Oregon Metro population.

DRC: See *Data Resource Center*.

Dry Waste: Non-putrescible (does not decay) waste, including demolition debris.

EBMS: See *Event Business Management System*.

EEO: Equal Employment Opportunity.

Ending Fund Balance: Unspent and unobligated net resources at the end of a fiscal year. Usually generated by cash reserves and under-spending of appropriations.

Enhancement Grants: Grants for community projects made to local communities that contain major solid waste disposal facilities. These grant programs are funded out of the Community Enhancement Fund by a surcharge of \$1.00 per ton on waste deposited at the facility.

Enterprise Activity: Business conducted by Metro in which a customer pays a fee or charge for a service or product.

Enterprise Revenues: Revenues earned through the sale of Metro goods or services, including admission fees, building rentals, food and drink at Metro facilities; solid waste fees for disposal and waste processing.

EPA: Environmental Protection Agency (Federal agency).

Event Business Management System (EBMS): an integrated software for event based programs.

Excise Tax: A tax that is paid by users of Metro facilities for the privilege of the use of the facilities, equipment, systems or services owned, licensed, franchised or operated by Metro.

Expenditure: The actual outlay of, or obligation to pay, cash.

Expo: *Portland Expo Center*; located at 2060 North Marine Drive in Portland, consists of 333,000 square feet of flat floor space in four adjacent buildings for public exhibits and shows.

Ex Situ research: Research conducted on wildlife that is not in its native range.

FRS: Finance and Regulatory Services.

Fiscal Year: Metro's annual budget and accounting period, from July 1 through June 30.

FMLA: Family Medical Leave Act.

Fringe Benefits: Non-salary employee benefits provided in accordance with state and federal law, union contracts and/or Council policy. Such benefits for regular employees include pension plans (including PERS and Social Security); medical, dental, vision and life insurance; vacation, holiday and sick leave; workers' compensation and unemployment insurance. Temporary employees receive only those benefits mandated by law, such as Social Security, workers' compensation and unemployment insurance.

FTA: Federal Transit Administration (formerly UMTA, Urban Mass Transit Administration).

Full-time Equivalent (FTE): The ratio of time expended in any position to that of a full-time position. One person working full-time for one year is one FTE.

Functional Plan: Urban Growth Management Functional Plan.

Fund: An independent fiscal and accounting entity with a self-balancing set of

accounts that is segregated for the purpose of carrying on specific activities or attaining certain objectives. Metro maintains several types of funds, including:

General: Revenues may be spent for any legitimate Metro purpose.

Enterprise: A fiscal and budgeting entity that accounts for a specific Metro operation that earns a substantial portion of its money through enterprise activities. An example of a Metro enterprise fund is the Solid Waste Revenue Fund.

Special Revenue: Resources are restricted to expenditures for specific purposes, generally in support of the department that manages the fund.

Capital Projects: Dedicated to acquisition, construction or improvement of the fixed assets managed by a particular department.

Internal Service: Accounts for the financing of goods or services provided by a central service department, with revenues coming from benefiting units on a cost-reimbursement basis.

Debt Service: Dedicated to paying debt service obligations.

Trust: Expenditures are dedicated to a specified purpose, as stipulated by the entity or entities that provided money to establish the fund.

Fund Balance: The difference between a fund's assets and its liabilities; a fund's net resources.

FY: Fiscal Year.

GAAP: See *Generally Accepted Accounting Principles*.

GASB: See *Governmental Accounting Standards Board*.

General Fund: See description under *Fund*.

General Obligation Bonds: Bonds that are backed by the full faith and credit of the issuing government. General obligation bonds must be approved by the voters, and are paid through property taxes.

General Renewal and Replacement Fund: The General Renewal and Replacement Fund was created as a separate fund in FY 2008-09 to provide for Metro's general assets including the Oregon Zoo, Regional Parks, Metro Regional Center and Information Services. Now a subfund of the General Asset Management Fund.

Generally Accepted Accounting Principles (GAAP): A standard established by the Accounting Practices Board of the American Institute of Certified Public Accountants. These rules, conventions and procedures define accepted accounting practices.

GFOA: Government Finance Officers Association.

GIS: Geographical Information System.

Governmental Accounting Standards Board (GASB): A private, non-profit organization established in 1984; responsible for setting generally accepted accounting principals for state and local governments.

Grant: A contribution of assets by one entity to another. Grants are generally designated for a specific expenditure or project.

Greater Portland Pulse: Greater Portland Pulse is a joint Metro/Portland State University collaborative effort to establish, maintain and utilize a common set of regional performance indicators and data that tracks the interconnected social equity, economic and environmental objectives for Clackamas, Washington, and Multnomah Counties in Oregon and Clark County, Washington. The indicators are intended to guide policy and resource decisions across nine key community livability categories including the economy, education, access to culture, civic engagement, health and safety, access and mobility, housing and the environment (all within an equity framework).

Growth Concept: See *Metro 2040 Growth Concept*.

Household Hazardous Waste: Any discarded chemical materials or products that are or may be hazardous or toxic to the public or the environment and are commonly used in or around households.

International Alliance of Theatrical State Employees (IATSE): An organized labor bargaining unit.

IGA: See *Intergovernmental Agreement*.

Indirect Costs: The central overhead costs (i.e., payroll, accounts payable, legal counsel) necessary for the operation of a department or execution of a grant and not directly attributable to a specific function or grant. These costs are computed and charged to the appropriate department or grant based on a cost allocation plan.

In Situ research: Research conducted with wildlife in its native range.

Interfund Transfer: 1. An amount of money distributed from one fund to finance activities in another fund. The most common types of interfund transfers are for central services, payment for specific services performed or for general financial support. 2. A major expenditure category that accounts for all movement of money from one fund to another.

Intergovernmental Agreement (IGA): A signed agreement between two or more units of government, often approved by governing bodies, that provides for the exchange of goods or services between the governments.

Intergovernmental Revenue: Funds received from a unit of government other than Metro in support of a Metro activity.

The Intertwine: A network of integrated parks, trails and natural areas. The Intertwine provides opportunities to preserve natural areas, open spaces, water and wildlife habitat.

IT: Information Technology.

IS: Information Services.

Joint Policy Advisory Committee on Transportation (JPACT): This committee consists of elected and appointed officials from jurisdictions throughout the region who are charged with developing and approving regional transportation plans.

KFD: Killingsworth Fast Disposal (landfill site).

Latex Paint Facility: Metro facility which treats, recycles and disposes of latex paint.

Leadership in Energy and Environmental Design (LEED): A Green Building Rating System; a voluntary, consensus-based national standard for developing high-performance, sustainable buildings; developed by U.S. Green Building Council, representing all segments of the building industry.

Line Item: An individual object of expenditure. See *Chart of Accounts*.

Line Item Budget: An increasingly rare form of government budgeting in which proposed expenditures are appropriated by individual objects of expenditure within a fund or department.

LIU: Laborers International Union.

Major Expenditure Category: One of six classifications of spending, including personal services, materials and services, debt service, capital outlay, interfund transfers and contingency.

Master Plan: A comprehensive plan for a program or facility that establishes policies and goals for the program or facility, for a period of five years or longer.

Material Recovery Facility (MRF): A waste facility that receives commingled loads of waste and sorts them into recyclable and non-recyclable components.

Materials and Services: A major expenditure category that includes contractual and other services, materials, supplies and other charges.

MAX: TriMet's Light Rail system, Metropolitan Area Express, connects Portland, Gresham, Beaverton, Hillsboro, Clackamas, Milwaukie and the Portland Airport.

Measure 5, Measure 37, Measure 47, Measure 50: See *Ballot Measures*.

MERC: See *Metropolitan Exposition Recreation Commission*.

Metropolitan Exposition Recreation Commission (MERC): An appointed seven-member board and its staff, which is responsible for daily operations of the Oregon Convention Center, Portland's Centers for the Arts and the Portland Expo Center.

Metro 2040 Growth Concept: Defines regional growth and development in the Portland Metropolitan region. The growth concept was adopted in the Region 2040 planning and public involvement process in December 1995.

Metro Central: Metro's solid waste transfer station at 6161 NW 61st Avenue, Portland.

Metro Export Initiative (MEI): a strategy sponsored by Greater Portland Inc. and developed in cooperation with the Brookings Institute that seeks to double regional exports in the next five years.

MetroPaint: A high quality, affordable, 100 percent recycled latex paint produced in Portland, Oregon, since 1992. Metro produces and sells recycled latex paint in 5-gallon pails and 1-gallon cans.

Metro Regional Center: Metro's governmental headquarters, located at 600 NE Grand Avenue, Portland.

MetroScope: MetroScope is a set of decision support tools used by Metro and the City of Portland to model changes in measures of economic, demographic, land use and transportation activity. MetroScope comprises four models and a set of GIS (geographic information system) tools that keep track of the location of development activities and produce visual representations (maps) from the models' output.

Metro South: Metro's solid waste transfer station at 2001 Washington St., Oregon City.

Modified Accrual Basis of Accounting: The accrual basis of accounting adapted to the governmental fund type under which revenues are recognized when they become both measurable and available to finance expenditures of the current period. Expenditures are generally recognized when the related fund liability is incurred.

MPAC: Metro Policy Advisory Committee.

MPO: Metropolitan Planning Organization.

MRC: Metro Regional Center

MRF: See *Material Recovery Facility*.

MTAC: Metro Technical Advisory Committee.

MTIP: Metropolitan Transportation Improvement Program.

MTOCA: Metropolitan Tourism Opportunity and Competitiveness Account.

MTP: Metropolitan Transportation Plan (Clark County, Washington).

Natural Areas Program (2006): Program designed to conserve a regional system that protects the very best remaining fish and wildlife habitats, lands around local rivers and streams that are important to water quality and natural areas threatened by urban development. It establishes target areas for protection by incorporating some of the target areas established in the 1995 open spaces, parks and streams bond measure and adding new areas that have been recognized as priorities during the past decade.

Natural Areas Bond Measure: A voter-approved bond measure passed in November 2006. The \$227.4 million bond measure protects natural areas and lands near rivers and streams throughout the metro region, safeguarding the quality of our water while managing the impacts of growth and maintaining the area's quality of life for future generations.

Nature in Neighborhoods: A regional habitat protection, restoration and greenspaces program that inspires, strengthens, coordinates and focuses the activities of individuals and organizations with a stake in the region's fish and wildlife habitat, natural beauty, clean air and water and outdoor recreation.

OCC: See *Oregon Convention Center*.

ODOT: See *Oregon Department of Transportation*.

OECD: See *Oregon Economic and Community Development Department*.

OMA: Office of Metro Attorney.

One-time Revenue: A source of funding that cannot reasonably be expected to recur. Examples include single-purpose grants, use of reserves and proceeds from the sale of property or other assets.

Open Spaces: Undeveloped land, preserved for its natural, environmental or recreational benefits.

Open Spaces Bond Measure: The Metro bond measure approved by the voters in 1995, authorizing \$135.6 million for public acquisition of open spaces and natural areas in and near the Metro region.

Open Spaces Program: Metro's program of acquiring and preserving open spaces and natural areas. The program is administered by the Sustainability Center and funded by bond proceeds through the Open Spaces Fund.

Oregon Convention Center (OCC): The Oregon Convention Center, located at 777 N.E. Martin Luther King Jr. Boulevard in Portland, consists of 50 meeting rooms and 255,000 square feet of exhibition space.

Oregon Department of Transportation (ODOT): A department of the Oregon state government responsible for systems and transportation.

Oregon Economic and Community Development Department (OECD): Invests lottery, federal and other funds to help communities and regions build a healthy business climate that stimulates employment, enhances quality of life and sustains Oregon's long-term prosperity.

ORS: Oregon Revised Statute.

Pass-through: Resources given by one government or organization to another with a requirement that it be given to a third government or organization.

Portland'5: See *Portland'5 Centers for the Arts*.

PDC: Portland Development Commission.

PeopleSoft: Metro's enterprise software which provides centralized accounting, payroll, human resource and budgeting information.

Performance Audit: Investigation of a program, operation or department that is designed to determine whether the subject of the audit is properly, efficiently and effectively managed. Metro's elected Auditor is responsible for conducting performance audits for Metro.

Performance Measures: Quantifiable effectiveness measures of the impact of specific Metro efforts towards achieving program goals.

PERS: See *Public Employees Retirement System*.

PERS Reserve: An amount set aside for potential future pension cost liabilities.

Portland Expo Center: See *Expo*.

Portland'5 Centers for the Arts (Portland'5): This leading cultural institution encompasses five venues that include Keller Auditorium, Arlene Schnitzer Concert Hall, and the Newmark Theater, Dolores Winningstad Theater and Brunish Hall, all located in the Antoinette Hatfield Hall.

Position: A budgeted authorization for employment, which can be full-time or part-time. One position may be budgeted as any fraction of an FTE but cannot be budgeted

in excess of one FTE.

Post-closure Activities: The planning, execution and environmental monitoring of activities associated with the closure of the St. Johns Landfill.

Program: Defined as either a group of related projects managed in a coordinated way or a distinct set of offerings targeted at a specific audience to yield a specific outcome (such as the Drive Less/Save More program). Multiple programs can roll up to a budget program to align with Council goals. Programs are based upon outcomes of offerings, target audience and delivery method, and do not have a defined life.

Project: A temporary endeavor to create a unique work product, service or result.

Public Employees Retirement System (PERS): The retirement benefit package offered by most public jurisdictions in the state.

Putrescible waste: Solid waste containing organic matter having the tendency to decompose, form malodorous by-products and attract vectors; also referred to as “wet waste.”

Rate Stabilization Reserve: A reserved fund balance established to stabilize solid waste rates from unanticipated fluctuations.

Records and Information Management (RIM): Provides for Metro’s professional management of information from the time records are received or created through their processing, distribution, use and placement in a storage or retrieval system until their eventual destruction or permanent archival retention.

Recovery Rate: The percent of solid waste that is recovered from the total municipal solid waste stream.

Recycling Information Center: The clearinghouse for waste reduction, recycling and solid waste disposal information in the region.

Region: The area inside Metro’s boundary.

Regional Land Information System (RLIS): Metro’s computerized mapping system, which has the capability to apply demographic, topographic, land-use, infrastructure and other information in map form.

Regional Solid Waste Management Plan (RSWMP): A policy and planning document adopted by the Metro Council in ordinance form that establishes policies for managing the disposal of solid waste from the region.

Regional System Fee (RSF): Solid waste revenue raised from all customers system wide to fund regional solid waste programs. Rate is set annually and adopted by ordinance.

Regional Transportation Plan (RTP): The plan required by the federal government, in order to receive federal transportation funds that includes regional transportation policies and goals as well as a list of major transportation projects contemplated for a six-year period. This plan must be approved by the Joint Policy Advisory Committee on Transportation and the Metro Council.

Regional Travel Options (RTO): Promotes and supports the transportation choices available in the region to reduce the number of drive-alone trips. Reducing the number of vehicles on the road cuts vehicle emissions, decreases congestion, extends the life cycle of existing roadways and promotes a healthier community.

Regional Urban Growth Goals and Objectives: A policy and planning document approved by the Metro Council in ordinance form that establishes policies to guide growth management planning in the region.

Requirements: Total budgeted expenditures (including contingency) plus the amount of unappropriated balance.

Resources: All financial assets of a fund, including anticipated revenues plus fund balance available at the start of the fiscal year.

Restoration/Education Grants: Grants administered by the Sustainability Center for funding projects of public education on natural resource preservation or in support of restoring land to its natural state.

Revenue: Assets earned or received by a Metro fund during a fiscal year.

RIC: See *Recycling Information Center*.

RISE: Regional Infrastructure Supporting Our Economy.

RLIS: See *Regional Land Information System*.

RSWMP: See *Regional Solid Waste Management Plan*.

RTC: Regional Transportation Council (of southwest Washington, formerly IRC).

RTO: See *Regional Travel Options*.

RTP: See *Regional Transportation Plan*.

Safe, Accountable, Flexible, Efficient Transportation Equity Act (SAFETEA-LU): Authorizes the Federal surface transportation programs for highways, highway safety, and transit for a five-year period; currently expired and awaiting federal reauthorization.

St. Johns Landfill: A 238-acre parcel of land in North Portland used as the region's principal general purpose landfill for more than fifty years until its closure in 1991. Metro manages activity at the facility, which primarily consists of implementing an approved closure plan.

Smith and Bybee Wetlands Area: The area including Smith and Bybee Lakes and surrounding property in North Portland that is managed as an environmental and recreational resource for the region.

Solid Waste Information System (SWIS): The data base maintained by Metro staff providing statistical analyses of the region's solid waste generation, recovery and disposal characteristics.

SOV: Single Occupancy Vehicle.

Special Revenue Fund: Resources are restricted to expenditures for specific purposes, generally in support of the department that manages the fund.

Supplemental Budget: A change to an adopted budget that is undertaken during the fiscal year a budget is in effect, as defined by Oregon local budget law. A supplemental budget is required to create a new fund or appropriation category, to increase appropriation authority, or to transfer more than 15 percent of total appropriations from contingency to another appropriation category. A supplemental budget that is greater than 10 percent of appropriated expenditures requires TSCC review and certification, and Council adoption by resolution. A supplemental budget less than 10 percent of appropriated expenditures requires Council adoption by resolution.

Sustainability: Using, developing and protecting resources in a manner that enables people to meet current needs while ensuring that future generations can also meet their needs, from the joint perspective of environmental, economic and community objectives.

SWIS: See *Solid Waste Information System*.

Target Area: An area containing regionally significant open spaces that are to be preserved through public acquisition.

Tax Base: Property taxes dedicated to the annual financial support of a government or a government operation, authorized by voter approval.

Tax Supervising and Conservation Commission (TSCC): Review body composed of citizens appointed by the governor, whose charge under state law is to review the budgets of jurisdictions headquartered in Multnomah County and determine whether they comply with Oregon's local government budget law. The TSCC reviews the approved budget and supplemental budgets of Metro prior to Council adoption, in

order to certify compliance.

TOD: See *Transit Oriented Development*.

TPAC: Transportation Policy Alternatives Committee.

Transfer Station: A facility that receives solid waste from commercial haulers and private citizens and ships the material to an appropriate disposal facility.

Transit Oriented Development (TOD): Development of property near major transit stations that supports reduced dependence on automobile use by mixing housing, retail and commercial activity with access to transit.

Transient Lodging Tax (TLT): Lodging establishments are required by Portland and Multnomah County Transient Lodgings Tax Laws to collect a total of 11.5% occupancy taxes from guests. A portion of this tax is returned to Oregon Convention Center projects.

TriMet: Provides public transportation in the Portland, Oregon, metropolitan area, including most of Clackamas, Multnomah and Washington counties.

TSCC: See *Tax Supervising and Conservation Commission*.

Unappropriated Balance: A line item in the budget that represents amounts set aside to be carried over to the following fiscal year. Unappropriated balances may not be spent in the current fiscal year.

UGA: Urban Growth Area.

UGB: See *Urban Growth Boundary*.

UPWP: Unified Planning Work Program.

Urban Growth Boundary (UGB): A line delineating the area within the Metro region that may be developed at urban density levels.

Visitor Development Initiative (VDI): The initiative to fund the expansion of the Oregon Convention Center and capital improvements to the Portland's Centers for the Arts and PGE Park (Civic Stadium).

Waste Prevention and Environmental Services (WPES): A department at Metro that is dedicated to recycling services and education, solid waste disposal, and landfill monitoring. WPES is also dedicated to community enhancement projects.

Willing Seller: A land owner who freely agrees to sell land to Metro for its Natural Areas Acquisition program.
