Re: topo map of Smith Bybee Lakes

Emily:

This is the topo map from one of my reports. All elevations are in ft MSL as well as x,y distances. I am also e-mailing the file that was used to create this map - it is a text file - with x,y,z columns, all of which are in ft. The z value of 1E38 is a blanking value used so that no contours are plotted outside the lake area. Call me if further questions.

Scott
