Mary:

I have completed an archaeological record search and on-the-ground survey for project number 200200175, Water Control Structure replacement at Smith and Bybee Lakes Wildlife Area managed by Metro.

As no cultural resources potentially eligible for inclusion on the National Register of Historic Places were found in the project's area of potential effects, under the terms of the US Fish and Wildlife Service Region 1 Programmatic Agreement with the Oregon State Historic Preservation Office and the Advisory Council on Historic Preservation, this project may proceed as planned.

If you have any questions regarding these findings, please contact me.

Alex Bourdeau - Archaeologist

cc: Elaine M. Stewart - Metro
