

Doug Morgan  
Tuesday, 7/22/03, 3:24 p.m.

Elaine, this is Doug Morgan, City of Portland. Just getting back to you regarding your permit for the water control structure. We've been having some discussion here about that and we've decided that that would be considered a flood control structure and as such it does not require a permit. So what we're gonna do is we're gonna cancel the commercial permit - the 03-141526-CO - refund all your fees on that permit. The grading work and all the mitigation plantings and all that work still does require a permit but that's all covered under the permit 03-141515-SD. I'm sure you have questions about this so feel free to give me a call back. My number's 503-823-5824. I'll talk to you then. Thanks.
