Arsenic -

- Our results are total recoverable arsenic.
- Denise's 1992 DEQ table gives particular species so can't compare.

Chromium -

- Ditto to arsenic.

Mercury -

- Our results are elemental mercury.

DDD, DDE -

- Our results are comparable to 1992 DEQ table and DEQ's Appx 1.
- i.e., DDD = p,p-DDD = DDD,4,4 -
