Tualatin, OR 97062

Dear Michael and Margie:

Thank you again for the opportunity to look at a sample of your photograph collection. Clearly, these photographs represent the best that I have seen taken of birds in our region.

Our project is to develop an interpretive display at Smith and Bybee Lakes wildlife observation platforms. We need illustrations to accompany text that will assist in identification of wildlife typically found around the lakes.

We have decided to use hand drawings for wildlife illustrations. Scanning line drawings into digital files will allow us considerable flexibility in manipulating the illustrations with the design layout, including positioning, size, colors, and reproducibility.

Our need for photographs of regional wildlife is most critical in our slide shows and roving displays. I hope that we can work together in the future on other projects. I will continue to alert you when I have wildlife sightings that may provide you with photo opportunities.

Sincerely,

Jim Morgan
