

PETITION

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

PETITION

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

PETITION

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

PETITION

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

PETITION

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.

PETITION

REQUESTS METRO NOT CAUSE LOCAL GARBAGE RATES TO INCREASE BY SPENDING \$3.5 MILLION PER YEAR ON ANOTHER UNNEEDED TRANSFER STATION IN WASHINGTON COUNTY.

METRO, at the urging of some Washington County Commissioners, is proposing to build another garbage transfer station. Independent studies, by private consultants and Portland State University have shown that this garbage transfer station is not needed now and may not be needed ever. But, because private interests would profit, there is strong pressure on Metro to spend \$3.5 million per year for twenty years on this project. This unneeded project will cause garbage rates to go up.

This petition requests that the Metro Councilors resist the pressure and not add to our rates by building this station.
