# BEFORE THE METRO COUNCIL

AN ORDINANCE RELATING TO PUBLIC MEETINGS ALLOWING COUNCIL MEMBERS TO BE PRESENT AT MEETINGS THROUGH THE USE OF ELECTRONIC MEANS AND DECLARING AN EMERGENCY ORDINANCE NO. 94-559

Introduced by Presiding Officer Judy Wyers

THE METRO COUNCIL HEREBY ORDAINS AS FOLLOWS:

Section 1. Metro Code Section 2.01.090 is amended to read as follows:

)

)

)

2.01.090 CONDUCT OF MEETINGS

(a) A quorum of the Council is seven (7) members. If a quorum is present, the Council may proceed with the transaction of its business. <u>Consistent with the Oregon Public Meeting Law Council meetings may be conducted through the use of telephone conference calls or other electronic communications</u>. <u>Members of the Council shall be considered present at a Council meeting if they are connected to a voice or data communication device that allows two-way communication with all other meeting participants</u>.

(b) Minutes of each meeting shall be prepared by the Clerk of the Council, and shall include at least the following information:

- (1) All members of the Council present;
- All motions, proposals, resolutions, orders, ordinances and rules proposed and their dispositions;
- (3) The results of all votes, and the vote of each Councilor by name; and
- (4) The substance of any discussion on any matter.
- (c) Minutes of Executive Sessions may be limited consistent with ORS 192.660.

## Page 1 - ORDINANCE NO. 94-559

(d) The written minutes shall be available to the public within a reasonable time after the meeting, and shall be maintained as a permanent record of the actions of the Council by the Clerk of the Council.

(e) The Council shall by resolution adopt rules establishing procedures governing conduct of debate on matters considered by the Council at Council meetings.

(f) Council members present, but not voting or not specifically abstaining, shall be counted as voting with the majority. In the event that there is no such majority, such members shall be counted as abstaining.

(g) Except for ordinances and rules, the Presiding Officer may order the unanimous approval of any matter before the Council unless there is an objection from one or more Councilors. If there is an objection, then a voice vote shall be taken, unless the objecting Councilor requests a roll call vote and at least two (2) Councilors concur in such request, in which case a roll call vote shall be taken. At each meeting, the Clerk of the Council shall rotate the order for each roll call vote so that the Councilor who voted first shall vote last on the next roll call vote.

(h) In the event a matter is the subject of a voice vote or a roll call vote, after the vote is taken the Presiding Officer shall announce the result of the votes. Prior to proceeding to the next item on the agenda, or if the item voted upon is the last item on the agenda before adjournment, any member may request that the Clerk of the Council change their vote in which case the change in vote shall be announced by the Presiding Officer and the result of the votes as modified shall also be announced. Upon commencement of the next agenda or adjournment, as the case may be, all votes shall become final and may not be further

Page 2 - ORDINANCE NO. 94-559

changed without the unanimous consent of the Council.

 (i) Any matter not covered by this chapter or a rule adopted by the Council shall be determined by <u>Robert's Rules of Order</u>, newly revised. The Council may by a positive vote of eight (8) members authorize the suspension of any rule adopted by the Council.

(j) All meetings of the Council, its committees and advisory committees shall be held and conducted in accordance with the Oregon Public Meetings law.

<u>Section 2</u>. Pursuant to Section 37(2) of the 1992 Metro Charter all members of the Council present and voting consent to this ordinance being heard and adopted without prior readings, hearings or notice in order that the council may avoid unnecessary expenses by allowing meetings to be conducted consistent with Oregon law.

<u>Section 3</u>. This ordinance being necessary for the health, safety and welfare of the Metro Area because it is necessary to allow for the conduct of Council meetings by voice or other electronic communications in order to avoid unnecessary public expense in the conduct of meetings. This ordinance shall be in force and effect upon its adoption.

ADOPTED by the Metro Council this \_\_\_\_\_ day of \_\_\_\_\_, 1994.

VERBATIM TRANSCRIPT OF COUNCIL CONSIDERATION OF ORDINANCE NO. 94-549A AND 549B AT MAY 26, 1994 COUNCIL MEETING

**Presiding Officer Wyers:** The next item on our agenda is referred by the Finance Committee and I'd like the Clerk to read Ordinance No. 94-549<u>A</u> for the second time by title only.

**Clerk:** An ordinance relating to the Metro Excise Amending the Code and Increasing the Tax Rate on Users of the Solid Waste System.

Presiding Officer Wyers: Ordinance No. 94-549 was first read on May 5, 1994 and referred to the Finance Committee for consideration. The Finance Committee considered it on May 11, 1994 and forwarded Ordiannce No. 94-549<u>A</u> to the Council for consideration with no committee recommendation. Councilor Monroe, will you move for adoption of Ordinance No. 94-549<u>A</u>.

**Councilor Monroe:** Madame Presiding Officer, I move that we adopt Ordinace No. 94-594<u>A</u>.

Presiding Officer Wyers: Is there a second?

Councilor McLain: Second.

**Presiding Officer Wyers:** Councilor Monroe, will you give the Finance Committee report and explain what the ordinance calls for.

Councilor Monroe: Thank you, Madame Presiding Officer. This ordinance was amended in committee. This was the excise tax ordinance that provides the necessary funding for the budget that was approved a couple of weeks ago, or last week, or whenever it was. The Committee made several amendments. I guess, actually, two primary amendments. One had two effects and one effect. One of the things...Let me back up a bit. The purpose of this ordinance is to find the funding necessary for our budget. There wasn't any easy solution to finding this funding, but because of the nature of Metro and the nature of this government, we don't have one large general fund like most governments do. IF this were a city or a county or the state legislature, and we found ourselves with one fund that had reserves of over \$9 million and we found ourselves with a small need over in another area, we'd simply grab some money and transfer it over and take care of that need. We are not able to do that, except through the mechanism of the excise tax, and that's basically what this does. It is a measure that enables us to fund the budget without raising taxes or fees but by temporarily accessing some of those excessive reserves that are sitting in Solid Waste.

The Committee amendments did a number of things. There was some language in here that some of the members of the Committee, a majority of those present, found to be somewhat onerous and perhaps inaccurate. And that would be on the first page, item

(q) that said the Metro excise tax on Metro solid waste is a broad-based tax in that all residents and business in the District generate solid waste and therefore are subject to the burden of tax. Many businesses have the ability to pass it on and so on, that language has been deleted. The primary reason for us using this revenue source is not because its a broad-based tax, but because it accesses some excessive revenues on a temporary basis that are available. And likewise language in (m) that says the class of individuals and businesses who use the Metro solid waste is broad-based, et cetera, and distinctly different, that language has also been deleted. The other more substantive amendment that was added was the sunset clause. You all know from the meeting that we had last night, the work shop we had last night, that it is my intention to find, well, I've already found, it is my intention to pass a permanent funding source for planning within the next few months. Therefore this funding source will only be needed until that new funding source is in place but if we fail, for whatever reason, to identify and pass that new funding source this sunsets in one year and the rate will become a flat rate after that one year. So we're only talking about, on a very temporary basis, using a very small amount of money, less than \$200,000, of excess revenue that we find in Solid Waste to fund planning. And the alternative once again, is to raise taxes on the Zoo by \$61,000 and on the Convention and so on. That amendment that was adopted was introduced by myself after my conversations with some of the folks from Solid Waste, and after their concerns were expressed that this would set a bad precedent and perhaps become permanent. It is absolutely not my intention that it will do either; set a precedent or become permanent. In fact, I am absolutely committed that will not be allowed to happen and the language in the amendment guarantees that. So I would urge your support.

**Presiding Officer Wyers:** Are there questions of Councilor Monroe? Seeing none then, I'd like to open a public hearing.

(COUNCILOR DEVLIN MOVED TO SUBSTITUTE ORDINANCE NO. 94-549<u>B</u> FOR ORDINANCE NO. 94-549<u>A</u> AT THIS TIME. VERBATIM NOT DONE ON PUBLIC HEARING PORTION; MINUTES ATTACED TO THIS TRANSCRIPT TO TESTIMONY GIVEN)

COUNCIL DISCUSSION AFTER PUBLIC HEARING:

**Presiding Officer Wyers:** Now we'll proceed with discussion on the amended version of 94-549<u>B</u>. Councilor McFarland, then McLain, then Hansen, then Monroe.

**Councilor McFarland:** Madame Chair, I would like to speak in favor of Councilor Devlin's amendment because I not only am

concerned about the precedent, but I'm also concerned about the money. And I'm absolutely pleased to hear Councilor Monroe publicly recognize that there are some savings to be had in Solid Waste, which I think should be translated in a reduction of the tipping fee rather than to take it as additional excise tax to pay for a non-solid waste related planning. Now, there's lots and lots of planning that goes on for Solid Waste, but that is paid for out of Solid Waste funds. And I will have to tell you that what Mr. Boitano and what Ms. Harlan, what all these people said is really true, the whole industry has been working very hard to coordinate, to save, a small economy here, a small economy there, a compromise here, a compromise there. We have not arrived at this ability to have some savings by magic or by accident. It has been by plan and it has been by continuous adherence to working the plan of all the people involved, not only the ones here, but a lot of people who weren't, who couldn't be here. And to then say, goodie, you have managed to put your business on a more economic plane and instead of giving us a dollar a ton reduction in the rate review which those of us who are involved in it feel is a very conservative request, you've said no; we'll just take this extra money and pay for something else. Not only do I not want the precedent set, but I don't want you to take that money in that way. I think the public and the people who want planning to be done are entitled to choose how it's paid for. I do not think the rate payers who pay to have their garbage hauled off in a can at the curb should be automatically saddled with it. So I'm going to support Councilor Devlin's amendment and I believe it is the lesser of two evils as somebody has already characterized it and I'm delighted to know that now that there are other people who are aware that there really is money in that pot for a rate reduction.

## Presiding Officer Wyers: Councilor McLain.

**Councilor McLain:** I also will be favoring the flat rate. Councilor Devlin and I voted for the flat rate at the Finance level and we will do so here again, and I hope many of you will join us. I want to talk about four issues here tonight are important. I've mentioned some of these before, but I think for the general public and for the folks that are with us today who weren't here the other day, that it's important to talk about. Number one, we're talking about excessive revenues. Personally, I think that term is inappropriate. It's inappropriate as it's being used here tonight. I don't think there are excessive revenues. I think there are revenues there that are in funds for specific solid waste purposes that we need to go forward with. Some of those are the buy-down that has been mentioned already, some of them are the stabilizing fund that we want to have to make sure we can go forward with that stable tipping fee. We

also have recycling efforts that we've talked to many of you about and I'm glad to see all the jurisdictions here tonight who know that we're working on commercial recycling. That's a solid waste activity and that is something that we're trying to be a leader in. And so that those funds need to go forward with that commercial recycling efforts that we're trying to give some coordination and some leadership. Also modelling. We have our own Solid Waste staff that have talked about the problems with the modeling, that have talked about the needs for better and more updated and accurate modeling, and including, to include more factors in your modelling, you have to use more data. TO collect more data you need more of this dollar figure we have been talking about. And, as you know, for the last four years, there is a weakness in our Solid Waste system as far as I'm concerned. And Councilor McFarland and I have again and again pointed out that we need to do something about the household hazardous waste that cannot be disposed of in the east part of our region and the west part of our region. We have a depot at Central, we have a depot at South, but we're still needing one and we've asked staff to come up with a proposal. So if there are indeed excessive solid waste dollars then it should be a lot easier for that proposal to come out of the solid waste staff for the van, or for the other sites in the east and the west for that household hazardous waste and that's just a gentle reminder to staff that we need to go forward with that. I would like to point out also that the flat rate is fair. To me, as much as I love the Zoo and those other types of facilities that will not be benefitted by the flat rate, going to the Zoo is a treat. Going to the garbage can or to a recycling bin is a necessity. And to me that is a difference. You do not have a higher charge on a necessity, a basic necessity, when you look at your luxuries or your entertainment. That may cost more, and you may not do as much, but I think that that's backwards if we do it the other way. The sunset, I've said this before, I'll say it again, if it's a good idea in a year, it's a good idea now. And that sunset, again, talks to the issue of precedents and we know that sunsets have gone by the wayside at times. As far as this particular exercise, I want to quit saying though, that voting for the flat rate is voting for the lesser of two evils. We do have a business to run here just like everyone else has a business to run. We have services to provide, we have coordination to give and we have leadership and planning to And so I do not apologize for providing funds for those provide. other functions that we have in this agency besides the Solid Waste services. Please vote for the flat rate. It's fair, it's equitable, it does the job and we're going to be able to go forward very quickly with some of those changes and how we finance many items around this agency in a very short period of time. And I do want to say to Councilor Monroe and to the rest

of the Councilors that we've all worked on this hard. This is one of those decisions where we're voting our heart and we're voting what we believe to be the most logical choice. And, so I understand that you may disagree with me Mr. Monroe, and I may disagree with you, but I respect what you've been saying tonight. I hope though that the rest of us will vote for the flat tax.

**Presiding Officer Wyers:** Councilor Hansen, then Monroe, then Gates, then Moore.

Councilor Hansen: Councilor McLain did a very good job in identifying some of the needs for the savings, the funds we put away each year, to help Solid Waste stay on an even keel. I also have concerns about where that money is going to go into some unknown areas that will probably come up. So to me, those reserves are not excessive at all. We still are closing a major landfill that was horrendously put into a wetlands area. We still don't know what the end cost of that closure will be. We could have, at any time, new EPA and DEQ household hazardous waste standards. We have seen those standards increase in the last ten years. We could certainly have new state goals in recycling efforts that we would have to meet, and we certainly already face the challenge of trying to develop markets for the recyclables that we have warehoused all throughout the region. Those are the unknowns that face this fund. That's nothing that you can simply say, well, when that problem comes somehow we'll find funding for it. The problem with general funds of any government, and I am actually quite pleased Metro doesn't have a general fund to speak of, general funds often to lead to the downfall of a lot of government spending. IF you have a general fund and you are pooling reserves from each of your functions and each of your departments, then what happens is you develop a very complacent management system and you don't bother to look at the drains in your government agency. Because if one department is showing good fiscal management, it can cover the bad fiscal management of another department. What we have to do at Metro is continue allowing this department to work well fiscally, at the same time that we then face the other departments and try to develop systems within them that are equal to what we see going on with the Solid Waste Department. By taking funds from Solid Waste in any way and trying to plug holes throughout the agency we've really created, not just a bad precedent for the industry, but a very bad precedent of how to govern ourselves.

Presiding Officer Wyers: Councilor Monroe.

**Councilor Monroe:** Thank you, Madame Presiding Officer. First of all, let me say that I have nothing but the highest respect for every member of this Council and for those people that took time

out to come and testify, those people that have talked to me about this issue in various forms, I hope you will understand that as the appointed chair of the Budget Committee, I feel that I have a responsibility to try to propose the best tax law as I see it. I don't expect everybody to agree with me, but I have truly tried to do that in putting forth this ordinance. Now, specifically, let me say a couple of things. First of all, the reserves that are available in Solid Waste right now, over \$9 million, are far in excess of the \$1.5 million that's in a rate stabilization fund and of the \$3 million in additional reserves that the auditors tell us we need to have intact in case there's up and down fluctuations in the economy, and so. So there are reserves available, and yes Councilor McFarland, a reduction of the tipping fee is in order and there will be a reduction in the tipping fee coming in the next few months, I don't know whether it will be \$1 or \$2, that's yet to be determined by public testimony and by decision of the committee and the full Council. But that is going to happen, I guarantee you. I can come as close as I possibly can, although I can't absolutely guarantee anything because I'm just one vote, but I feel very certain that within the next very short period of time, there will be some kind of reduction in the tipping fee. Let me further say that this measure that takes a bit more Solid Waste than it does from other folks that are more needy right now because they have less in reserves, this tax, the additional tax, the difference between the 7.4 or 7.5 and a 7.7, which is something between \$100,000 and \$200,000, will come from Metro's Solid Waste Department, will come from those reserves I identified, will not come from the rate payer. Now you can tell me yes, but if it went on into perpetuity, ultimately it would affect the rate payer. And you're right. First of all, it's not going to go on in perpetuity, at the most, one year. I hear what you're saying about precedent. I didn't know this for sure until a very short time ago, but I can tell you now, that unless I get run over by a semi-truck out jogging, I will be here next year. And I will absolutely commit to you that I will use any influence that I may have to absolutely commit that there will be no split role beyond the time when the sunset runs out. If, in fact, it sticks today. So, you know, you have my pledge on that and I keep my word, but if, if it set a precedent and it went on forever more, how much would we be talking about. I probably shouldn't even tell you because it's not going to happen, but it's less than a penny a month per customer. Now just today, I got from Jennifer Sims the monthly report on how our various agencies of Metro are doing. And it says that Solid Waste is up 6.8 percent, the Zoo is down 8.5 percent. And that's before the construction really starts up there, which will be going for the next three years for light rail and for tearing up the Sunset Highway. It just doesn't seem prudent to me to raise the tax on the Zoo \$61,000, and that's

what we're talking about. If we can take that small amount of money from the \$9.4 million approximately that are in reserves in Solid Waste, on a temporary basis, until we can find that permanent fix, that permanent source of funding for planning that I hope to do with the help of Council, during the next, very short period of time. During the next couple of months. I would urge your no vote on Councilor Devlin's amendment.

**Presiding Officer Wyers:** Councilor Gates, then Moore, than Van Bergen.

Councilor Gates: Thank you. Most of the points I wanted to make have been done already. But, I want to make one clarification here. We're going from a conversation about a split tax with 7 percent excise tax on solid waste and 6 percent excise tax on the other excise tax payers within the agency, to offering this amendment of a 7.5 percent excise tax on everything. Now, mathematically, on the surface that would not seem to make any sense because we're just raising money all the way around. I think the 7.5 percent excise tax anticipates other actions that were not anticipated in the original amendment. I would ask at this point if Councilor Devlin would clarify those actions that he anticipates making in this amendment.

**Presiding Officer Wyers:** Councilor Devlin.

**Councilor Devlin:** Thank you, Madame Chair. Councilor Gates, there's no other actions that are anticipated. This is merely setting the Code limitation. The reason why you see the rate, well, where you'd have the 6 percent at facilities such as the Zoo and the Convention Center and you see 7.7 on Solid Waste, and if you meld the two together you come to 7.5. The reality is that Solid Waste pays 85 percent of it anyway. So it takes, it takes a 7.5 percent rate overall to generate the same amount of revenue as it does as the 6 percent at the Zoo and the Convention Center and a 7.7 on solid waste. It's just where the revenue comes from.

**Councilor Gates:** Okay, what I was looking at was in page 4 of the revised ordinance (unintelligible). I understand what you're talking about. We've been over that discussion a lot of times. That was what was confusing me in our conversation this evening. Going from a 7 to a 7.5 percent.

General Counsel Cooper: Madame Presiding Officer, if I may, just to clear up some of that confusion Councilor Gates, in drafting these Code amendments, we had to take into account that currently the 7 percent rate that you authorized last year, expires in September and automatically reverts to 6. So, the effect of this

amendment, the Code currently reads 7, but it automatically reverts to 6 without further Council action. So if no action is taken, that 7 there automatically becomes a 6, and I chose for drafting purposes to show it as it currently reads today, not as it will read on September 1.

Presiding Officer Wyers: Councilor Moore, then Van Bergen.

Councilor Moore: Thank you, Madame Presiding Officer. I came this evening with a completely open mind on this. I find the conversation very, very good and I think that we're getting the point that we have to do. I want to make it clear, I want to understand for myself though, what we're talking about as far as, quote, saving the Zoo. And it seems to me somewhere in the area of \$60,000? \$61,000 between the original Mr. Monroe version, or the Finance Committee without a recommendation version, and the amendment. So, a whole realm of things in that dollar amount. The second thing I want to make sure I understand is that we have two advisory committee, and both those committees have reviewed what came from the Finance Committee and both those committees have objected to it based on the arguments that have been made today in testimony and by the Councilors, okay.

# Presiding Officer Wyers: Councilor Van Bergen.

**Councilor Van Bergen:** I think the first thing we ought to do is scratch Mr. Monroe's name from this ordinance and insert Mr. Devlin's name at the top, because the amendment is the more emasculated of what you have there, Mr. Monroe. I don't know, I'm not offering that as an amendment...

Councilor Monroe: Well, it hasn't passed yet. If it passes, I may ask that that happen.

Councilor Van Bergen: Okay. That first question I asked Mr. Devlin was because I hadn't really got into this amendment, and I since have, since we've all been talking here, and I first...Mr. Cooper stole part of my presentation when he advised you that the 7 goes to 6 in September which is a very important thing for you all to recall. So as I read this amendment, it sets up that there shall not be, shall not exceed 7.5 percent if and when there is any vote that would alter the 6 percent coming into play on the first of September. Otherwise, I am going to change my opinion about this because I am in favor of levelling the application of fees to all enterprise revenue that we're not otherwise prohibited by contract from doing and I, so that you know that my vote will remain consistent on the issue of rate, I will vote for this, but I certainly reserve for myself the vote

that I will keep in my heart when we get to voting on the rates in future. Which I assume will be sometime soon. And that's about it folks, thank you.

Presiding Officer Wyers: Executive Officer Cusma.

**Executive Officer Cusma:** Thank you, Madame Presiding Officer. Ι considered whether or not to speak to this at all. On the other hand, a couple of issues that have not been spoken to that I think are important to mention, so I decided to do that. I recognize the hard work that's gone into this and the good principle behind it, including the position that our Finance chair has taken. I know that the concern here is primarily is how we're going to meet Charter mandates, how we're going to deal with growth management planning, how we're going to deal with a whole range of top priority issues. What I want to say, however, about that, and I would urge that you support the amendment, and I would also tell you that the Executive budget was a 7 percent excise tax and considerably reduced total budget. And when the time comes I will again be speaking for that. The reason I take that position, and I guess the reason I think it's important to speak to this issue now, is I think it's a real strategic mistake to try to fix the problem that we now face by manipulating our finances. Eight years ago, or seven, almost eight years ago when I came into this agency, we had a history of funding things in this agency in this fashion. It did not serve us well. It did not serve us well in terms of our constituencies, it didn't serve us well in terms of the public, we were viewed as manipulating our own funds. It doesn't make any difference how true that was or how valid, or whether or not it was legal or not legal, I think it was very bad practice. And we worked very hard to get away from that. So for that reason, I would urge you to give some real serious thought before we do that. Lastly I think that it is a mistake, particularly at this time when we are looking, when we're in the midst of dealing with Ballot Measure Five and the whole public attitude about government and those impacts, we're looking at something like Son of Five, I think it is a very big mistake for us to send a message to the public that somehow we can fix the problem easily. It isn't going to be fixed easily. The finances of this agency are substantial and the mandates of the Charter simply did not come with funding, and I think we need to be very clear with the public about that. Even to the extent to which, if it were me, I would say this thing isn't going to be implemented unless you fund it.

Presiding Officer Wyers: Councilor Devlin, I think to close.

**Councilor Devlin:** Yes, thank you Madame Chair. Just in closing, I only wanted to state that I have the utmost respect for

Councilor Monroe's capabilities and understanding of the budget of this agency. I think there's simply just a general philosophical disagreement about this particular action. This is step one of a two-step process. The first step that we're doing tonight is to set the maximum Code limitation on the excise tax rate and to set it at a flat fee. To do anything differently I think would raise the issues highlighted relative to issues of equity and issues of precedent. The second step, which we're not doing tonight, is the adjustment in the solid waste rate. I think it's important that we act on that as soon as possible. Because I think fundamentally we're talking about, when we pay for the costs of our solid waste system if we believe we have adequate reserves, if we're paying all the other costs that are entailed, and we still have money left over, I don't think we have another option left, legitimately other than to refund the money back to the users of the system. And with that I'll close.

Presiding Officer Wyers: Will the Clerk please call the roll.

Vote: Councilors Devlin, Hansen, McFarland, McLain, Moore, Van Bergen, Washington and Wyers voted aye. Councilors Gates and Monroe voted nay. Councilors Buchanan, Gardner and Kvistad were absent. The vote was 8/2 in favor and the motion to substitute Ordinance No. 94-549<u>B</u> for Ordinance No. 94-549<u>A</u> passed.

**Presiding Officer Wyers:** Is there any other Councilor who wishes to speak on the original ordinance that's in front of us. Councilor Monroe.

Councilor Monroe: Madame Presiding Officer, I would urge everybody to vote for this ordinance. I will not ask that my name be removed from it as has been suggested. When we started this process back a while back, when we laid out all of the revenue options before the committee, I said that my bottom line was we must find a way to fund planning at a rational, appropriate, but fiscally conservative level, and that level is the level in the budget as identified by the Budget Committee and by the full Council. So this ordinance is essential to do that, and even thought there's only 10 of us here tonight, I hope that at least 7 of those 10 will support it, because it's necessary move this process forward without having some gaps occur next September. And so I would urge you all to support this measure and then work with me to find a better way to pay for planning.

Presiding Officer Wyers: Will the Clerk please call the roll.

**Vote on Main Motion as Amended:** Councilors Devlin, Gates, Hansen, McFarland, McLain, Monroe, Moore, Van Bergen and

Washington voted aye. Councilor Wyers voted nay. Councilors Buchanan, Gardner and Kvistad were absent. The vote was 9/1 in favor and Ordinance No. 94-549B was adopted.

END OF TRANSCRIPT

Councilor McLain thanked Executive Officer Cusma and Doug Butler, Director of General Services, for their work to resolve the issue. Councilors Hansen and McFarland concurred with Councilor McLain and thanked them for their work on the issues also.

## 6.2 Ordinance No. 94-549A, An Ordinance Relating to the Metro Excise Tax Amending the Code and Increasing the Tax Rate on Users of the Solid Waste System (Public Hearing)

The Clerk read the ordinance for a second time by title only.

Presiding Officer Wyers announced that Ordinance No. 94-549 was first read on May 5, 1994, and referred to the Finance Committee for consideration. The Finance Committee considered it on May 11 and forwarded Ordinance No. 94-549<u>A</u> to the Council with no recommendation.

<u>Main Motion</u>: Councilor Monroe moved, seconded by Councilor McLain, for adoption of Ordinance No. 94-549A.

Councilor Monroe gave the Finance Committee's report. He said the ordinance was necessary to fund Metro operations and discussed amendments made to the ordinance at committee. He said Section Nos. 2 and 3 provided for a split rate excise tax effective September 1, 1994 and that Section Nos. 4 and 5 provided for a uniform excise tax of 7.5 percent effective September 1, 1995. He said he planned to introduce an ordinance to provide for broad-based funding of Metro's planning operations at a later date.

Motion to Substitute: Councilor Devlin moved, seconded by Councilor McLain, to substitute Ordinance No. 94-549<u>B</u> for Ordinance No. 94-549<u>A</u>.

Councilor Devlin explained Ordinance No. 94-549<u>B</u> would impose a uniform excise tax rate effective September 1, 1994, of 7.5 percent on Metro goods and services. He said he anticipated that, when the Council adopted the FY 1994-95 Budget in June, the excise tax rate necessary to fund Metro operations would be 7.4 percent, but said the ordinance would limit the excise tax rate to 7.5 percent.

Presiding Officer Wyers opened the public hearing.

<u>Susan Ziolko</u>, Clackamas County waste reduction manager, 902 Abernethy Road, Oregon Road, said the Clackamas County Board of Commissioners did not support a higher, split excise tax rate imposed on solid waste services to fund other, Metro non-solid waste functions. She said Clackamas County could support the ordinance proposed by Councilor Devlin.

<u>Councilor Chris Boitano</u>, City of Gresham, 1333 NW Eastman Parkway, Gresham, said he understood Metro's need to find funding for planning functions, but said Metro had not fully explored all other options. He said it was not fair to utilize solid waste funds simply because they were easy to access. He said the Cities of East Multnomah County were strongly opposed to that. He said East Multnomah County had worked very hard to implement Metro's solid waste planning and functions.

Councilor Boitano and the Council discussed the issues further. To Councilor Moore's question, Councilor Boitano said his constituents felt the split rate excise tax would set precedent. Councilor Gates asked Councilor Boitano if his constituents had identified alternative financing sources for Metro. Councilor Boitano said they had not. Councilor Gates said that his support for a split rate excise tax rate stemmed from his knowledge that other Metro departments and facilities had severe financial needs.

Estle Harlan, Tri-County Council, 2202 Lake Road, Milwaukie, distributed her written testimony and said the Tri-County Council supported the uniform excise tax rate because it was the lesser of two evils. She said the Tri-County Council felt a split rate excise tax with a higher excise tax imposed on solid waste was inequitable and would set a precedent even if it was only for a short term. She said per Section 13 of the 1992 Metro Charter, the Council had to seek the advice of a Tax Study Committee before imposing a new tax. She said Metro had a Tax Study Committee in place, but said it did not review a split rate excise tax option. She said the Small amount gained would not compensate for the unfairness of such a tax. She said Section 15 of the Charter stated: "Charges for the provision of goods or services by Metro may not exceed the costs of providing the goods or services." She said if the solid waste excise tax was raised, and the cost per ton dropped to \$74 or \$73 per ton, the necessary funds for planning could only be achieved from the solid waste reserves and said that was also troublesome to haulers. She said if the Solid Waste Department had achieved savings, those savings should not be used to pay for non-solid waste uses/users. She said she understood the need to balance the budget, but said Metro had to do further work to do so.

Councilor Monroe said, with regard to Ms. Harlan's testimony on the Metro Charter, that the excise tax was not a new tax, but an existing one that the Council was trying to raise. He said, with regard to fees exceeding the cost of goods and services, that Metro had the authority to do so from the original legislation which granted Metro the power to enact an excise tax.

Councilor Devlin asked Ms. Harlan if she was aware of an ordinance currently in the Finance Committee which dealt with adjustment of the solid waste rates. Ms. Harlan said she was aware of that ordinance.

Lynne Storz, acting program manager, Washington County Solid Waste and Recycling, 155 N. First Avenue, Hillsboro, concurred with those who had already testified. She said the proposed split rate excise tax created an unfair burden for the rate payer. She said it would be more equitable to charge all users the same excise tax rate.

<u>Mike Hutchens</u>, chair, Bureau Advisory Committee, City of Portland Environmental Services, 501 N. Dixon, Portland, said the City's solid waste rate payers already paid for general service funds. He said that cost was understandable, but said rate payers should not subsidize the cost of planning functions also.

Also, <u>Howard Werth</u>, president, Oregon Metals Industry Council, submitted written testimony (filed with the record of this meeting). The letter stated that Ordinance No. 94-549<u>A</u> would set a precedent by taxing solid waste services at a higher rate than other Metro taxed services. The letter stated solid waste services were a necessity and that taxing necessities at a higher rate than leisure services was not a defensible means of funding government.

Presiding Officer Wyers asked if any other persons wished to testify. No other persons appeared to testify and the public hearing was closed.

The Council discussed the two ordinances before them for consideration.

Councilor McFarland spoke in favor of Ordinance No. 94-549<u>B</u>. She expressed concern about the precedent Ordinance No. 94-549<u>A</u> would set and said she had been pleased to hear Councilor Monroe state that there were potential savings in solid waste and said those savings realized should be used to reduce the tipping fee. She said additional funds should not be used for non-solid waste functions. She concurred with the testimony given by Ms. Harlan and Councilor Boitano. She said the entire solid waste industry had worked very hard to coordinate and to save funds. She said if the Solid Waste Department had achieved savings, it had not

happened by accident. She said many different parties and entities had adhered to Metro's solid waste plan. She said the savings should be used to reduce the tipping fee.

Councilor McLain said she favored Ordinance No. 94-549<u>B</u> also. She said the term "excessive revenues" was inappropriate. She said additional revenues were used for bond debt and stabilization and future recycling activities. She said solid waste funds should be used for those and other efforts including updated modelling. She said household hazardous waste (HHW) needs should be addressed in east Multnomah County and other parts of the region.

Councilor Hansen said revenues were placed in solid waste funds for known future needs as noted by Councilor McLain. She said Metro still had to close the St. Johns Landfill and said there were other goals to be achieved in solid waste. She said what Metro should do was to continue to allow the Solid Waste Department to work well fiscally and to solve the problems of other departments separately. She said if solid waste funds were used for planning functions, it would set a bad precedent for the agency.

Councilor Monroe said the solid waste reserves of over \$9 million were in excess of \$1.5 million in a rate stabilization fund and \$3 million in additional reserves deemed necessary by Metro's auditors. He said a reduction in the tipping fee was in order, and that one would be proposed within several months, but did not know if it would be a reduction by \$1.00 or \$2.00. He said that would be determined after public testimony, and committee and Council consideration. He said the additional funds via Ordinance No. 94-549<u>A</u> would come from solid waste reserves already in hand and not from the rate payer. He said there would be no split rate excise tax after September 1, 1995. He said such a split rate would cost less than a penny a month per can customer. He said the Zoo's revenues were down before construction of light rail and the new entry way and said an excise tax rate of 6 percent would make it easier for the Zoo.

Councilor Gates asked Councilor Devlin to clarify what Ordinance No. 94-549B would do.

Councilor Devlin said no other action was anticipated other than a flat rate for all Metro goods and services which would be limited in the Metro Code to 7.5 percent.

General Counsel Dan Cooper explained that the current 7 percent excise tax rate would expire September 1, 1994, and then revert to 6 percent. He said the ordinance before the Council showed current Metro Code language, not language as it would read September 1, 1994.

The Council as a whole discussed the two ordinances further.

Executive Officer Cusma urged the Council to adopt Ordinance No. 94-549<u>B</u>. She said Metro's finances were complicated and it was important to find long-term permanent funding to implement the Charter's mandate.

Vote on Motion to Substitute:

Councilors Devlin, Hansen, McFarland, McLain, Moore, Van Bergen, Washington and Wyers voted aye. Councilors Gates and Monroe voted nay. Councilors Buchanan, Gardner and Kvistad were absent. The vote was 8/2 in favor and the motion to substitute Ordinance No. 94-549<u>B</u> for Ordinance No. 94-549<u>A</u> passed.

Vote on Main Motion as Amended:

Councilors Devlin, Gates, Hansen, McFarland, McLain, Monroe, Moore, Van Bergen and Washington voted aye. Councilor Wyers voted nay. Councilors Buchanan, Gardner and Kvistad were absent. The vote was 9/1 in favor and Ordinance No. 94-549B was adopted.

### 7. <u>RESOLUTIONS</u>

7.1 Resolution No. 94-1960, For the Purpose of Authorizing the Executive Officer to Execute Fourteen (14) Multi-Year Intergovernmental Agreements for South/North AA/DEIS Projects

Motion:

Councilor Monroe moved, seconded by Councilor Washington, for adoption of Resolution No. 94-1960.

Councilor Monroe gave the Planning Committee's report and recommendations. He explained the resolution would authorize 14 multi-year intergovernmental agreements between Metro and several local jurisdictions for the South/North AA/DEIS Projects. He explained Metro would act as the lead agency for the South/North Transit Corridor Study and as project manager.

- <u>Vote</u>: Councilors Devlin, Gates, Hansen, McLain, Monroe, Moore, Van Bergen, Washington and Wyers voted aye. Councilors Buchanan, Gardner, Kvistad and McFarland were absent. The vote was 9/0 in favor and Resolution No. 94-1960 was adopted.
- 7.2 <u>Resolution No. 94-1962A, For the Purpose of Coordinating Technical Assistance Between Metro and</u> the Regional Water Supply Planning Study
- Motion: Councilor McLain moved, seconded by Councilor Hansen, for adoption of Resolution No. 94-1962<u>A</u>.

Councilor McLain gave the Planning Committee's report and recommendations. She explained the resolution would coordinate technical assistance between Metro and the Regional Water Supply Planning Study and ensure that the water supply element of Metro's Regional Framework Plan was consistent with the work contained in the Regional Water Supply Study.

Councilor Washington thanked Andy Cotugno, Director of Planning, and Rosemary Furfey, Senior Regional Planner, for their work on the issues.

<u>Vote</u>: Councilors Devlin, Gates, Hansen, McFarland, McLain, Monroe, Moore, Van Bergen, Washington and Wyers voted aye. Councilors Buchanan, Gardner and Devlin were absent. The vote was 10/0 in favor and Resolution No. 94-1962<u>A</u> was adopted.

Presiding Officer Wyers recessed the Metro Council and convened the Metro Contract Review Board to consider Agenda Item No. 7.3.

7.3 <u>Resolution No. 94-1936, For the Purpose of Authorizing an Exemption to Metro Code Chapter</u> 2.04.041(c) Competitive Bidding Procedures and Authorizing a Sole Source Contract with the 40-Mile Loop Land Trust

Motion: Councilor Gates moved, seconded by Councilor Hansen, for adoption of Resolution No. 94-1936.

RE: ADDITION TO 94-95 CONTRACTI LIST.

U

M

BASED ON A PIECUSSION WITH THE CHAIR OF THE SOLID WASTE COMMITIEE THE STROHED NEW CONTRACT IS PROPOSED TO BE DESTENATED AS A "A" CONTRACT, PLEASE INCLUDE THIS WITH YOUR CONTRACT BESIGNATION LIST FOR AFFROURL WITH THE FY 94-95 BUDGET.

It has come to my attention that a contract for the Recycling Information and Education Division of Solid Waste was inadvertently not listed on the FY 1994-95 contract list. The contract is for media purchase and creative media consultant services in the amount of \$65,000.

A copy of the page on which it was added is attached for your information and distribution.

Thank you.

Counci (

6/30/94

DATE: June 22, 1994

TO: Metro Council

FROM: Casey Short, Council Analyst

RE: Contract List Designations

Attached are the Council standing committee recommendations for contract list designations for inclusion in the adopted budget. All committees have made their recommendations except the Solid Waste Committee, which was scheduled to do so at its June 21 meeting; that meeting had to be cancelled because Metro Regional Center was closed.

There are 239 new contracts on the list, of which 54 are recommended for designation as "A" contracts. A summary of the "A" list recommendations, by department, is provided below. (Contract amounts are the 1994-95 amounts.) Three contracts with committee designations of "A" are listed as already executed; those are marked with an asterisk.

**EXECUTIVE MANAGEMENT** (Office of Government Relations) Special Districts Association of Oregon -Professional Governmental Services (\$60,000)

## FINANCE & MANAGEMENT INFORMATION

#### RISK MANAGEMENT

Liability Claims Adjusting Services (\$7,500)

#### GENERAL SERVICES

City of Portland - Disparity/Predicate Study (\$50,000)
 Travel Agent: Metro-wide (\$0)

#### PLANNING

Household Activity/Travel: Phase II Survey (\$200,000)

Development of Intermodal Management System (\$143,000)
 Professional Consultant(s): S/N Transit Corridor (\$650,500)
 Station Area Planning - IGA's (\$900,000)

#### REGIONAL PARKS & GREENSPACES

Year 4, Multiple Greenspaces Restoration Grants (\$50,000) Year 3, Multiple Greenspaces Education Grants (\$60,000) Master Plan: Bybee Howell Territorial Park (\$30,000) Feasibility Study: RV Develop at Expo/Blue Lake (\$89,521)

#### SOLID WASTE

Budget Review & Rate Development (\$35,000)

Multnomah County Sheriff's Department - Investigative Services (\$329,900)

Advertising: HHWF (\$65,000)

Yard Debris Hauling/Processing: Metro South (\$22,500) Computer Maintenance/Repair: Transfer Stations/HHWF

(\$30,000)

Steel Drum Purchases: HHWF (\$148,655)

Burlington Northern Railroad - Parking Facility Rental: Metro Central (\$6,000)
