

Annual Comprehensive Financial Report

For the fiscal year ended June 30, 2022

If you picnic at Blue Lake or take your kids to the Oregon Zoo, enjoy symphonies at the Schnitz or auto shows at the convention center, put out your trash or drive your car – we've already crossed paths.

So, hello. We're Metro – nice to meet you.

In a metropolitan area as big as Portland, we can do a lot of things better together. Join us to help the region prepare for a happy, healthy future.

Stay in touch with news, stories and things to do.

November 28, 2022

To the Council and Citizens of the Metro Region:

In accordance with ORS §297.425, we are pleased to present the Annual Comprehensive Financial Report of Metro for the fiscal year ended June 30, 2022, accompanied by the report of Metro's independent auditors, Moss Adams LLP.

This Annual Comprehensive Financial Report (ACFR) presents the financial position of Metro and the results of its operations, as well as cash flows for its proprietary fund types, for the fiscal year ended June 30, 2022. The financial statements and supporting schedules have been prepared by management in accordance with accounting principles generally accepted in the United States of America (GAAP), meet the requirements of the standards as prescribed by the Oregon Secretary of State and are in conformance with the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada.

The ACFR provides meaningful financial information to legislative bodies, creditors, investors and the public. There are four main sections in this report, including a section with reports from our independent certified public accountants required by Oregon Administrative Rules and federal regulations. These reporting requirements are incorporated in the Minimum Standards for Audits of Municipal Corporations, as prescribed by the Secretary of State, Government Auditing Standards and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Metro management is responsible for the completeness and reliability of all the information and representations presented in this ACFR, based upon a comprehensive internal control framework established for this purpose. This framework is designed to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition and that accounting transactions are executed in accordance with management's authorization and properly recorded, so that the financial statements can be prepared in conformity with GAAP. The design and operation of internal controls also ensures that federal and state financial assistance funds are expended in compliance with applicable laws and regulations related to those programs. Because the cost of internal controls should not outweigh their benefits, Metro's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. We assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

In accordance with Oregon law, Metro's financial statements have been audited by Moss Adams LLP. The auditor issued an unmodified ("clean") opinion on Metro's financial statements for the year ended June 30, 2022 (see pages 13-16). The independent audit of the financial statements was performed in accordance with applicable auditing standards as described by Moss Adams LLP in their reports included in this document.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of Metro

Metro crosses city limits and county lines to make our communities safe, livable and ready for tomorrow. From protecting our region's air, water and natural beauty to supporting neighborhoods, businesses and farms that thrive, Metro makes our region a great place. Metro serves more than 1.8 million residents in Clackamas, Multnomah and Washington counties, and the 24 cities in the Portland, Oregon metropolitan area.

The voters of the region approved a constitutional amendment to allow the creation of a home rule regional government in the Portland metropolitan area in 1990, then a home rule charter for Metro in 1992 and a charter amendment in 2000. Metro is a directly-elected regional government in the United States and is governed by a council president, elected region wide, and six councilors elected by district. The charter established the elected position of Metro Auditor. Ordinances are passed by a simple majority vote of the seven council members.

Services. The primary responsibility of Metro, as authorized by its charter, is to provide regional land use planning. The charter further recognizes the significant role Metro has in other regional issues. As such, Metro provides the following services that focus on issues that cross local boundaries:

- **Planning and Development:** Manages the regional urban growth boundary, prepares the Regional Transportation Plan, allocates federal highway and transit funds for the region, facilitates the creation of affordable and supportive housing, and conducts all regional transit and light rail planning. Coordinates data and research activities with governmental partners and develops regional economic and travel forecasts.
- **Solid Waste Management:** Operates regional solid waste transfer stations, household hazardous waste facilities, and develops the Regional Solid Waste Management Plan.
- **Parks and Natural Areas:** Provides regional natural areas, parks, and trails, including historical cemeteries, a golf course, and marine facilities. Purchases land and restores natural habitats.
- **Visitor Venues:** Operates the Oregon Zoo, Oregon Convention Center, Portland Expo Center, and the Portland's Centers for the Arts.

Budget. The annual adopted budget serves as the foundation for Metro's financial planning and control. Metro prepares a budget for each fund in accordance with the modified accrual basis of accounting and legal requirements set forth in Oregon Local Budget Law, ORS §294.305 to §294.565. The Council adopts the budget for all funds by ordinance prior to the beginning of Metro's fiscal year (July 1). Expenditures for each fund cannot legally exceed the appropriation levels set by the authorizing ordinance. The legal level of budgetary control for each fund is set by department, with separate designations within the fund for the categories of debt service, interfund transfers and contingency. Unexpected additional resources and budget revisions may be added to the budget by use of a supplemental budget or, under certain conditions, by an ordinance passed by the Council amending the budget. The original and any supplemental budgets require hearings before the public, publication in newspapers, and approval by the Council. Management may amend the budget within the appropriated levels of control without Council approval. Appropriations that have not been expended at year-end lapse and subsequent actual expenditures are charged against the ensuing year's appropriations.

Reporting Entity. For financial reporting purposes, Metro is a primary government under the provisions of Governmental Accounting Standards Board (GASB) Statements No. 14, 39 and 61. This report includes all organizations and activities for which the elected officials exercise financial control. In addition, the Oregon Zoo Foundation (OZF) warrants inclusion in the report because of the nature and significance of its relationship with Metro, including its on-going financial support of Metro's Oregon Zoo. The OZF is a legally separate, tax exempt organization organized to encourage and aid the development of the Oregon Zoo. The financial statements of OZF are included in this report as a discretely presented component unit.

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which Metro operates.

Local economy. The Portland metropolitan region (i.e., the Portland-Vancouver-Hillsboro, OR-WA Metropolitan Statistical Area (MSA)) is home to more than 2.5 million residents, with over 1.8 million of those residing within the Metro boundary. The Portland MSA ranks 25th in the nation of large U.S. metropolitan areas; regional population shrunk by 0.1% in 2021 (U.S. Census Bureau).

The economic region is comprised of five counties in Oregon and two counties in Washington State. The region is a hub for financial activities, domestic and international trade, transportation and services for all of Oregon, southwest Washington and the Columbia River basin. The Portland MSA has non-farm payroll employment totaling almost 1.2 million jobs (Bureau of Labor Statistics), with over 80 percent of those jobs located inside the Metro boundary. The Metro Area unemployment rate was 4% in August 2022 and, despite being historically low, the fact that the Portland Metro Area ranks 37th out of the 50 largest metro areas in unemployment is evidence of an overheated labor market.

The region continues to bounce back from a record-setting economic downturn beginning with the initial pandemic impact in early 2020. While the ensuing recovery started out slightly better than expected, parts of the economy will take longer to recover. Industries like leisure and hospitality will eventually return and so will many urban areas, but there will be some significant changes to the demand for land, office, space, and other uses in cities. Commercial activity remains strong, as many consumers are unwinding some of the “forced” savings that occurred during the pandemic. That activity remains disrupted by a labor shortage and supply-chain issues, as businesses experience difficulty in hiring new workers and supplies are held up in transit. Job cuts during the pandemic peaked at nearly 150,000 employees in the Portland MSA, with the market returning to pre-pandemic employment levels in August 2022.

Economic outlook. Broad economic data remain positive, though it should be noted that within that data, specific measures such as income inequality were exacerbated by the pandemic. As an example, many homeowners continue to experience large home value appreciation that does not reach renters, except in the form of secondary rent increases. Furthermore, continued federal government support has proven effective in moderating the effects of the lingering economic decline that especially characterized the early months of the pandemic. Unfortunately, many observers believe that has largely run its course and 2022 will test the ongoing resiliency of the current economic rebound.

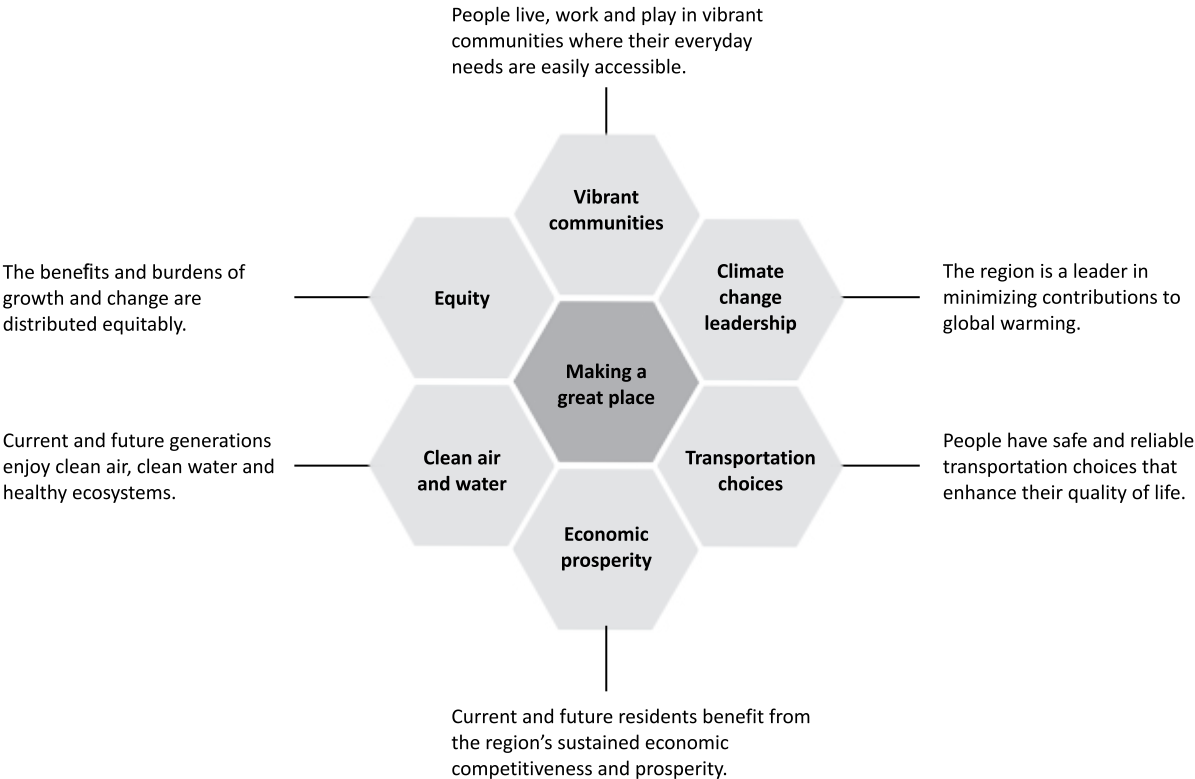

Concerns around labor market instability and inflation remain despite substantial efforts by the Federal Reserve Bank to slow down the overheated economy. Unfortunately, the tools that the fed has – which essentially makes investment and purchasing more or less expensive – may not be what is necessary to avoid recession. For the first time in more than a generation, workers control much of the leverage in today’s job market. There have been more jobs available than workers searching for jobs for much of the recent recovery. The result, along with geopolitical instability, may mean that the economy needs at least some additional diplomatic and/or regulatory help from Congress and the President to avoid a recession.

In spite of the negative news, base economic data remains largely positive, even if a little “too” positive in certain sectors. Workers are demanding and getting higher wages, which, in turn, will generally increase inflationary pressures as long as they are willing or have to spend those raises. Thus far, consumers have shown that they will, even if it means returning to the low pre-pandemic savings rate. The bottom line is that the regional economic outlook is showing some cracks, but the solutions to those cracks are largely national or global in scope. The global economy can operate in these conditions for a short period of time, but the longer the instability stays, the more likely that the case that a recession will be necessary to fix it. This will likely lead to continued uneven growth as many of these factors reach a new normal in the coming years.

Long-term financial planning. Metro’s strong financial policies and disciplined practices have ensured operational stability, as evidenced by the necessary decisions made at the outset and during the COVID-19 pandemic. An important tool for building Metro’s budget is the five-year forecast for its primary operating funds: the General Fund, the Parks and Nature Operating Fund, the Solid Waste Revenue Fund, the Oregon Zoo Operating Fund and the Metropolitan Exposition Recreation Commission (MERC) Fund. Each budget cycle begins with a review of how the funds are performing, what factors affect the funds that are global assumptions and what factors are related to the specific nature of the operations that result in individual assumptions. Metro adheres to common-sense operation practices such as maintaining its assets, using one-time funds for one-time purposes, and ensuring enterprise activities manage to the bottom line.

Significant effort goes into revenue projections, ensuring a balanced budget. Property taxes are a significant component, funding general government and parks operations as well as debt service. Metro is subject to tax abatements granted by the three counties in which Metro operates; more detail is available in Note II.Q to the financial statements. Metro’s abated property taxes total \$9,149,920 for fiscal year 2021-22 and had no material effect on financial stability or service delivery.

Metro’s budgets are anchored by the region’s six desired outcomes. Developed by the region and adopted by the Metro Council in 2010 as part of the region’s growth management policies, the six outcomes help all leaders and their communities focus on what makes this region a great place. Metro uses these outcomes to guide its strategic decision-making by testing department activities and programs against whether they are making these outcomes more likely over time.

In addition, Metro is guiding budgetary decisions with its Strategic Recovery Framework, embodying Metro’s values of Safety, Public Service, and Resilience through the organization-wide guiding principles of Racial Justice, Climate Justice and Resilience, and Shared Prosperity. Each of Metro’s departments is applying that framework to day-to-day decision making and creating high level department specific goals in concert with budget development.

These goals help each department to look ahead and identify key opportunities to make progress on the desired outcomes and ensure that decisions made today will be sustainable and strategic for the next three to five years.

Metro also prepares a five-year Capital Improvement Plan (CIP) with annual updates as part of its financial planning responsibilities. The Metro Council annually reviews Metro's capital asset management policies as part of the budget process.

Major initiatives. The budget for fiscal year 2022 was driven by the strategic goals and key initiatives identified by the Metro Council that guide the agency and region towards the six desired regional outcomes. Metro focused its efforts on recovery, both from the cuts experienced across the agency in response to pandemic-related economic impacts and from the pandemic itself. The budget reflects an almost status quo continuation of the spending levels achieved at the end of calendar year 2020. The 2021-22 Budget included:

Focusing on livability in the region. Metro Council have designated a series of strategic priorities to position Metro to continue to inspire, teach, engage, and invite people to enhance the quality of life and environment for the region's current and future generations. Metro's budget invested in core services and initiatives to improve livability in the region, including refreshing the region's 2040 vision with an updated plan for housing, employment, and land use, implementing voter-approved housing and parks measures, and working with partners to improve the market for plastics recycling and increase the composting of food scraps.

Implementing our goals and strategies for equity, diversity and inclusion. In June 2016, Metro Council adopted the agency's Strategic Plan to Advance Racial Equity, Diversity, and Inclusion and in May 2017, Council considered an update to our Diversity Action Plan. Council has made increasing the diversity of our workforce, increasing the percentage and dollar value of the contracts we award to minority-owned, women-owned, and emerging small businesses, improving our relationships with historically underserved communities, and ensuring that all of the region's residents have access to the six desired regional outcomes a high priority for our departments. The budget includes funding for programs and activities to support diversity, equity, and inclusion in every department of Metro.

Regional recovery. Specific programs were expanded during the year to address acute needs in the region. The Regional Illegal Dumping program increased the number of crews from two to six to help address the substantially increased need. Staffing in the affordable and supportive housing services programs was expanded to ensure speed and precision in distributing funds to our area partners.

Relevant Financial Policies. Comprehensive financial policies are reviewed annually and provide the basic framework for the overall fiscal management of the agency. The policies are designed to operate independently of changing circumstances and conditions and help safeguard Metro's assets, promote effective and efficient operations, and support the achievement of Metro's strategic goals. The policies were re-adopted by the Metro Council on June 16, 2022 (Resolution No. 22-5263), as published in the adopted budget.

Oregon Local Budget Law requires that total resources equal total requirements in each fund. In addition to this legal requirement, Metro considers a budget to be balanced whenever budgeted revenues equal or exceed budgeted expenditures. Metro's Council established financial policies to make significant investments in the future by using a disciplined "pay yourself first" rule to assure that all funds maintain appropriate reserves to safeguard against dips in the economic climate and to protect the public's investment in Metro's physical assets. Metro policy provides that it will designate or assign fund balance amounts that are appropriate to the needs of each fund and that targeted assignment levels shall be established and reviewed annually as part of the budget review process. The policy requires that a new program or service be evaluated before it is implemented to determine its affordability and that Metro will annually prepare a five-year forecast of revenues, expenditures, other financing sources and uses and staffing needs for each of its major funds, identifying major anticipated changes and trends, and highlighting significant items which require the attention of the Metro Council.

Metro has set aside fund balance amounts within the General Fund for potential additional Public Employee Retirement System pension liabilities and for future debt service on the full faith and credit bonds issued to refinance Metro Regional Center. This fund balance also includes amounts for cash flow and fund stabilization. Metro's policies historically called for a minimum of 7 percent of operating revenues be set aside for either contingency or stabilization to guard against unexpected downturns in revenues and to stabilize resulting budget actions. That target provided a 90 percent confidence level that revenues would only dip below this amount once every ten years. After weathering the economic impact from the COVID pandemic, the general fund reserved 9 percent of operating revenues and updated our financial policies setting 16.5 percent as our reserve requirement in future years.

Debt management policies provide that Metro shall issue long-term debt only to finance capital improvements (including land acquisition) that cannot be readily financed from current revenues or to reduce the cost of long-term financial obligations. Metro will not use short-term borrowing to finance operating needs unless specifically authorized by Council. Further, Metro will repay all debt issued within a period not to exceed the expected useful life of the improvements financed by the debt.

Metro's revenue policies provide that the agency will strive to maintain a diversified and balanced revenue system to protect it from short-term fluctuations in any one revenue source. A further detailed discussion of Metro's financial policies and plans for the future can be found in Metro's 2022-23 Adopted Budget.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Metro for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This was the thirtieth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the cooperation of employees across the Metro organization. We especially acknowledge Melissa Weber, Controller, Erica Gallucci, Financial Reporting Program Manager, and the staff in the Accounting Services Division of the Finance and Regulatory Services Department for their efforts in the preparation of this report. We wish to acknowledge the professional and technical assistance of the audit staff of Moss Adams LLP. Finally, we extend our appreciation to the Metro Council, Metro Auditor, and the many Metro managers for their leadership and commitment to financial excellence.

Respectfully submitted,

Marissa Madrigal

November 28, 2022

To the Metro Council and Residents of the Metro Region:

Oregon State law requires an annual audit of Metro's financial records and transactions by independent certified public accountants. The Metro Auditor is required by Metro Code to appoint certified public accountants to conduct this audit. In 2020, after completing a competitive process, I appointed Moss Adams LLP to conduct the audit of Metro. My office coordinated and monitored this audit.

Following this letter is the independent auditor's report on Metro's financial statements as of June 30, 2022. In addition to the above report, Metro is required to have an audit of its expenditures of federal awards in accordance with Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the provisions of *Government Auditing Standards* issued by the Comptroller General of the United States. The necessary reports pertaining to Metro's internal control, compliance with applicable laws, regulations, grants and the Schedule of Expenditures of Federal Awards for the year ended June 30, 2022 are included in the last section of this report, Audit Comments and Disclosures Required by State and Federal Regulations.

I appreciate the work by Metro and Moss Adams employees to make the audit process run smoothly and I want to thank them for completing the audit on time.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "B. Evans", written over a light blue horizontal line.

Brian Evans
Metro Auditor

A photograph of a forest at sunset. The sun is low on the horizon, partially obscured by trees, creating a warm, golden glow. The sky is a mix of blue and orange. The foreground is filled with the silhouettes of evergreen and deciduous trees. A large, dark blue hexagonal shape is overlaid on the lower half of the image, containing the text "Financial Section" in white.

Report of Independent Auditors

The Metro Council and Metro Auditor
Metro

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Metro as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Metro's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Metro as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of The Oregon Zoo Foundation, a discretely presented component unit, which represents 100% of the assets, net position, and revenues of the discretely presented component unit of Metro. Those financial statements were audited by other auditors, whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for The Oregon Zoo Foundation, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Metro and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of The Oregon Zoo Foundation were not audited in accordance with *Government Auditing Standards*.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Metro's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Metro's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Metro's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Metro's basic financial statements. The other supplementary information and schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

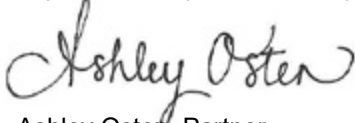

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2022, on our consideration of Metro's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Metro's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Metro's internal control over financial reporting and compliance.

Other Reporting Required by Minimum Standards for Audits of Oregon Municipal Corporations

In accordance with the *Minimum Standards for Audits of Oregon Municipal Corporations*, we have also issued our report dated November 28, 2022, on our consideration of Metro's compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Management's Discussion and Analysis

As management of Metro, Oregon, we provide readers of Metro's financial statements this narrative overview and analysis of the financial activities of Metro for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages 1 - 6 of this report. This information is based upon currently known facts, decisions or conditions.

FINANCIAL HIGHLIGHTS

- Metro's assets and deferred outflows of resources exceed its liabilities and deferred inflows of resources (also defined as *net position*) by \$793,881,842 at June 30, 2022, which reflects an increase of 25.6 percent or \$162,034,106 over the prior fiscal year.
- Metro completed the fiscal year with its governmental funds reporting *combined* fund balances of \$1,053,886,593. Of the total amount of governmental combined fund balance, \$34,070,647 or 3.2 percent, is considered available for spending at Metro's discretion (*unassigned* fund balance).
- At the end of fiscal year 2022, unrestricted spendable fund balance (the total of the *committed*, *assigned* and *unassigned* components of fund balance) in the general fund totaled \$47,685,183 and represents 86.0 percent of total general fund expenditures.
- Metro's total outstanding long-term liabilities decreased \$103,896,126 or 8.7 percent during the current fiscal year. This reflects no debt issuance during the fiscal year, repayment on existing debt, and a reduction in net pension liabilities.
- Voters approved a new regional supportive housing services program in May 2020, funded by personal and business income taxes. This income tax generated \$242,650,036 in revenue in this fiscal year and represents a significant increase in general government revenues.
- Program revenues of Metro's business-type activities (Solid Waste, Oregon Zoo and MERC operations) totaled \$195,159,841, up \$70,667,337 or 56.8 percent, attributable to the increased activity following necessary pandemic-related closures in the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to Metro's basic financial statements, which consist of the following three components: 1) the *government-wide financial statements*, 2) the *fund financial statements*, and 3) the *notes to the financial statements*. This report also includes *supplementary information* intended to furnish additional detail to support the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of Metro's finances using accounting methods similar to those used by private-sector business. Government-wide financial statements provide both short-term *and* long-term information about Metro's overall financial status.

The *Statement of Net Position* includes all of Metro's assets, liabilities, and deferred outflows/inflows of resources, with the net difference between these elements reported as net position. Over time, increases or decreases in Metro's net position may serve as a useful indicator of whether the financial position of Metro is improving or deteriorating.

The *Statement of Activities* accounts for all of the current fiscal year's revenues and expenses. The statement presents information showing how Metro's net position changed during the fiscal year. Such changes are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected property taxes and earned but unused vacation leave).

Each government-wide financial statement is divided into three categories:

Governmental activities – Activities supported principally by general revenue sources including various taxes that provide Metro’s basic governmental services. These services include the *general government operations* functions of the Council office and various administrative functions; *regional planning and development* which includes regional transportation and land use planning; and *culture and recreation* which includes regional parks and natural areas, community enhancement activities near Metro area solid waste facilities, management of Smith and Bybee Wetlands and Pioneer Cemeteries.

Business-type activities – Activities supported by charges for services and fees to customers to help cover the costs of certain services. These activities consist of the Solid Waste, Oregon Zoo, and Metropolitan Exposition-Recreation Commission (MERC) operations. Solid waste operations include the operation of two transfer stations and recycling centers (Metro South and Metro Central), household hazardous waste collection centers, paint recycling center and other solid waste system programs. Oregon Zoo operations include zoo visitor experience, environmental education, and animal conservation and research. MERC operations include the Oregon Convention Center (OCC), Portland’s Centers for the Arts (Portland’s) and Portland Expo Center (Expo) facilities.

Component unit – Metro includes The Oregon Zoo Foundation (OZF) as a discretely presented component unit. OZF is considered a component unit as the sole purpose of this legally separate non-profit organization is to provide support and significant additional funding for Metro’s Oregon Zoo.

The government-wide financial statements can be found on pages 33 - 35 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Metro, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements – including bond covenants and Oregon local budget law requirements. The funds of Metro can be classified into two categories:

- **Governmental funds** are used to account for essentially the same functions as reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, these statements focus on *near-term inflows and outflows of spendable resources*, as well as on balances of spendable resources available at the end of the fiscal year. Thus, the governmental funds statements provide a detailed short-term view that helps the reader determine the comparative level of financial resources that can be spent in the near future to finance Metro’s programs.

Because this information does not encompass the additional long-term focus of the government-wide statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of Metro’s near-term financing decisions. A reconciliation that follows the governmental funds statements explains the differences between the two statements to facilitate this comparison between *governmental funds* and *governmental activities*.

Metro maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the seven funds considered major: General, Parks and Nature Operating, Affordable Housing, Supporting Housing Services, General Obligation Bond Debt Service, Natural Areas and Parks and Nature Bond funds. Data from the other four governmental funds (Smith and Bybee Wetlands, Community Enhancement, Oregon Zoo Infrastructure and Animal Welfare and Cemetery Perpetual Care) are combined into a single,

aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Of special note, a portion of one budgetary fund (the General Revenue Bond Fund) and one additional entire budgetary fund (General Asset Management Fund) are allocated to the General Fund and combined with those operating activities for reporting in conformance with generally accepted accounting principles (GAAP) in the governmental fund financial statements. The remaining portions of the budgetary General Revenue Bond Fund is allocated to the MERC Fund for proprietary fund presentation noted below.

The governmental fund financial statements can be found on pages 39 - 45 of this report.

- **Proprietary funds** provide the same type of information as the government-wide financial statements, only in more detail, including cash flows. Metro includes two different types:

Enterprise funds are used to report the same functions as *business-type activities* in the government-wide financial statements. Metro uses enterprise funds to account for its Solid Waste, Oregon Zoo and MERC operations, all three of which are considered major funds. The entire budgetary fund Oregon Zoo Asset Management Fund is combined with the Oregon Zoo for the proprietary fund presentation.

Internal service funds are an accounting device used to accumulate and allocate costs internally among Metro's various functions. Metro uses an internal service fund to account for management of its retained risks. The revenues and expenses of the internal service fund that are duplicated in other funds through cost allocations are eliminated in the government-wide statements, with the remaining balances included in governmental activities in the government-wide financial statements.

The proprietary fund financial statements can be found on pages 46 - 51 of this report.

Notes to the financial statements. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 52 - 96 of this report.

Required Supplementary Information (RSI). In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning budget-to-actual results for Metro's General Fund and its major special revenue funds, and pension and post-employment benefit disclosures. RSI can be found on pages 98 - 112.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 115 - 139.

FINANCIAL ANALYSIS OF METRO AS A WHOLE (Government-Wide)

Net position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Metro's assets and deferred outflows of resources exceed liabilities and deferred inflows of resources (defined as *net position*) by \$793,881,842 at June 30, 2022. The table on the following page reflects the condensed Government-wide Statement of Net Position.

Metro's governmental activities account for a total net position – totaling \$408,252,328, or 51.4 percent, whereas business-type activities account for \$385,629,514 or 48.6 percent.

Of Metro's total net position, 78.6 percent reflects its net investment in capital assets (e.g., headquarters offices, zoo exhibits, natural areas property, transfer stations, convention center, and other significant assets), less any related outstanding debt that was used to acquire those assets. Metro uses these capital assets to provide services to its citizens; therefore, this amount is not available for future spending. Although Metro's investment in its

Management Discussion and Analysis

For the fiscal year ended June 30, 2022

capital assets is reported net of the related debt, it should be noted that the resources needed to repay this debt must come from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Metro's restricted net position (43.1 percent) represents resources that are subject to external restrictions on how they may be used. External restrictions for specific purposes include areas such as parks and natural areas local option levy, Transit Oriented Development (TOD), Smith and Bybee Wetlands management plan, and capital projects funded by bond or restricted proceeds. The restricted component of net position increased \$212,745,296 or 164.1 percent from the amount at June 30, 2021, reflecting income taxes revenue restricted to supportive housing services received by Metro but not yet distributed to partner agencies, as well as funds distributed to partner agencies but not yet spent.

Metro's Net Position

Net position:						
Net investment in capital assets	331,538,185	324,068,485	333,384,655	343,691,434	623,668,341	621,205,786
Restricted	334,925,580	122,154,281	7,480,840	7,506,843	342,406,420	129,661,124
Unrestricted	(258,211,437)	(177,771,010)	44,764,019	12,197,703	(172,192,919)	(119,019,174)
Total net position	<u>\$ 408,252,328</u>	<u>268,451,756</u>	<u>385,629,514</u>	<u>363,395,980</u>	<u>793,881,842</u>	<u>631,847,736</u>

The remaining \$172,192,919 is an unrestricted deficit, which represents the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements. Of this amount, \$44,764,019 is attributable to Metro's business-type activities which cannot be used to make up for the deficit reported in governmental activities. Unrestricted net position decreased \$80,440,427 (to a total deficit of \$258,211,437) in governmental activities primarily due to transfers to other governments for Affordable Housing projects. A portion of this deficit can be attributed to the allocable proportion of the Oregon Public Employees Pension System liability, as discussed in Note V.G.1. Metro has several bonds which are accounted for in governmental activities without a corresponding asset; the proceeds from Dedicated Tax Revenue bonds for the Oregon Convention Center hotel were distributed to the developer in prior years and there is no asset owned by Metro. Similar transactions contributed to the unrestricted net deficit such as the local share component of the Natural Areas program, the bond construction at the Oregon Zoo, and housing projects funded by the Affordable Housing bond. It should further be noted that all four of these bond issuances are supported by dedicated tax revenues (property taxes and site-specific transient lodging taxes) and current accounting standards only allow the recording of taxes as they are levied. Unrestricted net position in business-type activities increased \$32,566,316 or 267.0 percent which is explained later in this analysis.

Changes in net position. Overall, Metro's net position increased 25.6 percent or \$162,034,106 over the prior fiscal year. Governmental activities' net position increased \$139,800,572, while business-type activities' net position increased \$22,233,534 for the fiscal year ended June 30, 2022. The components of the change in net position are reflected in the condensed information from Metro's Statement of Activities presented in the table below. The reasons for the changes noted here are discussed in the following sections for governmental activities and business-type activities.

Governmental activities. Governmental activities program revenues increased \$5,807,322 or 14.6% and totaled \$45,537,389. This was a combination of a \$10,331,281 increase in operating grants, primarily in the regional planning function and a decrease of \$3,865,258 in charges for services. Metro determined that it would not fully recover indirect costs incurred by the general fund from the visitor venues to help stabilize their budgets.

Metro's Changes in Net Position

Increase in net position before transfers	154,595,957	75,840	7,438,149	(38,532,935)	162,034,106	(38,457,095)
Transfers	(14,795,385)	(34,333,138)	14,795,385	34,333,138	-	-
Increase in net position	139,800,572	(34,257,298)	22,233,534	(4,199,797)	162,034,106	(38,457,095)
Net Position, July 1	268,451,756	302,709,054	363,395,980	367,595,777	631,847,736	670,304,831
Net Position, June 30	\$ 408,252,328	268,451,756	385,629,514	363,395,980	793,881,842	631,847,736

Metro's general government operations expenses totaled \$10,172,047 or 2.3 percent of Metro's total program expenses, which was a decrease of \$13,775,570 or 57.5 percent from that reported in the prior fiscal year. This is reflective of a smaller current year adjustment to pension-related items for the year-end valuation compared to the prior fiscal year. Metro's regional planning and development program had total costs of \$167,988,989, up \$88,125,287 or a 110.3 percent increase from the prior fiscal year. Funding projects and administrative costs for the Affordable and Supportive Housing programs drove this increase.

Interest on long-term debt decreased by \$2,809,522 or 8.8 percent from the prior fiscal year and totaled \$29,286,520 or 6.7 percent of Metro's total program costs, down from 9.6 percent in the prior fiscal year, reflecting a relatively stable amount of debt and its corresponding repayment.

Metro Governmental Activities Sources of Revenue

Note: negative investment income is excluded from this chart

Metro Function/Program Expenses

Business-type activities. Program revenues of Metro's business-type activities (Solid Waste, the Oregon Zoo and MERC operations) totaled \$195,159,841, up \$70,667,337 or 56.8 percent. Metro's business-type activities were the most directly impacted area by the COVID-19 pandemic. The Zoo and MERC facilities were limited in allowable capacity for part of the year in compliance with directives from the state and county governments. Tonnage at Metro owned facilities increased 5.6 percent over the prior year and rates increased 17.1%, to \$115.15 per ton. The Regional System Fee increased from \$18.58 to 25.65; corresponding with those increases,

fee revenue increased \$19.4 million, or 25.2 percent. The Oregon Zoo had a 33.2 percent increase in fee revenue, amounting to \$5.9 million dollars, as well as \$6.5 million in additional operating grant revenue, primarily from the Shuttered Venues Operating Grant (SVOG) program run by the Small Business Administration. The MERC fund had a \$31.1 million increase in charges for services (676% increase), reflecting reopening of the venues and return of activity. Additionally, Portland's Centers for the Arts also received an SVOG grant, explaining the \$9.2 million increase in operating grant revenue.

Total expenses increased \$22,352,200 or 13.7 percent to a total of \$185,416,388. Solid Waste program expenses decreased \$4,359,873, or 4.5 percent, due to lower than typical capital spending. Oregon Zoo program expenses were effectively flat, reflecting the cost cutting measures that were enacted in the prior year. MERC expenses increased \$26,408,775, or 89.3 percent, evidence of the reopening and return of activity at the venues.

General revenues. Historically, the most significant general revenue, property taxes, accounts for 18.1 percent of all primary government activities revenues. Property taxes are dedicated to repayment of general obligation bond debt, for programs authorized by the Parks and Natural Areas Local Option Levy, or allocated by the Council in support of governmental activities. The total amount of property taxes increased \$1,860,944 or 1.7 percent. Metro began to receive personal and business income tax revenue in the fiscal year ending June 30, 2021 and receipts, as anticipated, grew substantially in the fiscal year ending June 30, 2022 with tax returns first submitted in April 2022. The prior year had only \$1,524,473 recorded, from estimated tax payments in the first and second quarter of the calendar year 2021. Current year receipts jumped to \$242,650,036. This type of variation is not expected in the future, but some fluctuations are anticipated due to the nature of income taxes.

FINANCIAL ANALYSIS OF METRO'S FUNDS

As noted earlier, Metro uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of Metro's *governmental funds* financial statements is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing Metro's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for discretionary spending at the end of the fiscal year.

At June 30, 2022, Metro's governmental funds reported *combined* fund balances of \$1,053,886,593. This is up \$78,599,739 or 8.1 percent. The increase is due to a combined distribution of Affordable Housing bond proceeds, leading to a reduction of \$83,005,525 of restricted and non-spendable fund balances, and the collection of income tax proceeds for Supportive Housing services, an increase of restricted and non-spendable fund balances in the amount of \$158,588,059. A total of \$223,197,726 is recorded as advances in those two funds, reflecting the transfer of resources to our regional partners. Of the total amount of governmental combined fund balance above, \$34,070,647 or 3.2 percent, is considered *unassigned* fund balance and available for spending at Metro's discretion.

The remainder of the fund balance is either *nonspendable*, *restricted*, *committed* or *assigned*. *Nonspendable* fund balance represents amounts not in spendable form and the corpus of the permanent fund, which total \$224,195,101 at June 30, 2022. Fund balances *restricted* for particular purposes, such as affordable housing, parks and natural areas, bonded capital projects, the Willamette Falls Legacy project, and debt service totaled \$782,016,538. Metro has \$12,167,202 of fund balance *committed* by Metro Council resolution and consists of proceeds from the Coronavirus Response and Relief Supplemental Appropriation Act. *Assigned* fund balance totaled \$1,437,105 and is reflected in Metro's permanent fund dedicated to cemetery programs, information technology reserves and encumbered fund balance.

Management Discussion and Analysis

For the fiscal year ended June 30, 2022

Note II.D.14 and Note V.O provide further information on Metro's fund balance classifications for all governmental funds.

The General Fund is the primary operating fund of Metro. At the end of fiscal year 2022, unassigned fund balance of the general fund was \$34,080,876. Total fund balance increased \$29,393,245 to a total of \$121,124,753 at June 30, 2022. As a measure of the general fund's liquidity, it may be useful to compare both the unassigned fund balance and total fund balance to total General Fund expenditures. Unassigned fund balance represents 61.5 percent of total general fund expenditures, while total fund balance represents 218.7 percent of that same amount.

The General Fund expended \$6,937,209 for general government operations. These operational expenditures included the general government share of costs for the Council Office, Metro Auditor, Office of Metro Attorney, Communications, Human Resources, Finance and Regulatory Services, and Information Technology. Expenditures were \$5,940,553 lower than the prior year, primarily due to a smaller adjustment for pension-related items.

Metro collected \$3,877,675 in CET during the fiscal year ended June 30, 2022, up \$558,892 or 16.8 percent from the prior fiscal year. This tax is imposed on new construction within the region, with limited exceptions, and is intended to provide funds to local governments for planning of future expansion areas, future urban reserves and planning that enables redevelopment of centers, corridors and employment areas within the existing Urban Growth Boundary. Collections are still at relatively high levels, corresponding with the high level of construction activity in the region despite pandemic related slowing.

The restricted and non-spendable positions in other governmental funds changed from \$883,487,945 to \$932,772,069, or an increase of \$49,284,124. As discussed earlier, reduction in restricted funds in the Affordable Housing account offset increased balances in Supportive Housing. Local partners have been able to fund affordable housing projects, while the Supportive Housing program was only in its first full year and partners have been building staffing and program capacity. Future balances are anticipated to decrease as our partners expand their programs.

Metro's other major governmental funds also include the Parks and Nature Operating Fund, Affordable Housing, Supportive Housing Services, the General Obligation Bond Debt Service Fund, Natural Areas, and Parks and Nature Bond Funds. All of these funds carry restricted or non-spendable fund balances because they were established for specific purposes by the passage of various ballot measures.

There was an increase in expenditures in the Affordable Housing Fund, from \$40.5 million to \$76.0 million. Supportive Housing Services also had substantially higher activity, with expenditures amounting to \$71.5 million, as the tax collection system was put in place and regional partners started to ramp up their programs addressing the housing crisis.

The Natural Areas Fund is winding down; there was 71.2 percent fewer expenditures in the current fiscal year and a remaining fund balance of \$4,506,462. The Parks and Nature Bond, however, was passed in November 2019 and has a substantial fund balance (\$179.6 million) and bond authorization remaining. Expenditures increased 130.0 percent and will continue to increase in future years as capital projects complete planning and start construction.

Proprietary funds. Metro's proprietary fund statements provide the same type of information found in the government-wide financial statements on pages 46 -51, but in more detail.

At the end of fiscal year 2022, *unrestricted net position* of the Solid Waste Fund, Oregon Zoo Fund, and MERC Fund amounted to \$14,544,700, \$13,065,929, and \$20,849,717, respectively. The total change in *unrestricted net position* for each fund equaled increases of \$4,277,042, \$19,658,321, and \$9,615,752, respectively. Solid Waste increased their rates in line with program expenditures. The Oregon Zoo and MERC venues all aggressively reduced their expenditures in response to the pandemic in order to preserve fund balance reserves. Additionally,

the Oregon Zoo and one of the MERC venues (Portland's Centers for the Performing Arts) received \$10.0 million each in relief grants from the Small Business Administration.

BUDGETARY HIGHLIGHTS

As noted earlier, Metro's General Fund is used to account for general government operations and the programs of Planning and Parks and Nature. Over the course of the fiscal year, the Metro Council revised the budget for the General Fund four times, and total appropriations came to \$139,045,749. The total budgeted appropriation for expenditures and transfers increased \$2,065,829 as the agency recovered from the economic impacts of the pandemic.

Revenue from government contributions were \$28,348,993, but budgeted at \$5,543,518; this is a combination of annual support from TriMet for TOD and transportation planning was not received within 60 days of last fiscal year end and a grant award of \$12.2 million from the Coronavirus Response and Relief Supplemental Appropriations Act. Expenditures in Planning and Development were \$10,727,808 less than budgeted; Metro routinely budgets in a manner to ensure there is sufficient appropriation for potential TOD program purchases.

As previously mentioned, the COVID-19 pandemic had a dramatic impact on Metro's visitor venues. The Oregon Zoo Operating fund received \$36,857,679 compared to a budgeted \$23,045,303 in total revenues, a positive variance of 59.9 percent. This reflects a very conservative budget, anticipating further pandemic-related capacity restrictions, and the unanticipated SVOG grant in the amount of \$10.0 million. Expenditures were a restrained \$25,876,206 on a budget of \$37,567,843, as the department sought to keep spending as low as possible in the face of uncertainty. Similarly, the MERC Fund exceeded the budgeted \$46,175,182 in revenues by \$15,905,111, and spent \$13,485,599 less than the budgeted \$51,835,261 in expenditures. MERC leadership sought to maintain as much flexibility as possible and was judicious in adding back staff and programs.

Year over year, total revised budget across all funds was \$1,566,181,759, up 5.8% from Fiscal Year 2020-21. A large portion of this budget is unappropriated fund balance in the Affordable Housing program, which is expected to be spent over a seven to ten year period.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. Metro's capital assets for its governmental and business-type activities totals \$740,860,298 (net of accumulated depreciation and amortization) as of June 30, 2022.

Management Discussion and Analysis

For the fiscal year ended June 30, 2022

This investment includes land, buildings and exhibits, improvements, and various types of equipment. The total increase (including additions and deductions) in Metro's investment in capital assets for the current fiscal year was \$15,745,342 or 2.2 percent, net of accumulated depreciation and amortization. Metro reflects an increase of \$11,599,926 or 3.1 percent in capital assets attributable to governmental activities and an increase of \$4,145,416 or 1.2 percent in business-type activity capital assets (additional capital assets, less increases in accumulated depreciation and amortization). Additional information on Metro's capital assets can be found in Note V.D to the financial statements.

Metro implemented GASB Statement No. 87 Leases in the current year. The implementation required the recognition of contracts that transfer the rights to use another entity's asset for a specific period of time in an exchange or exchange-like transaction. Additional information on Metro's leased assets can be found in Notes V.D and V.J to the financial statements.

Long-term debt. At the end of the current fiscal year, Metro had total bonded debt outstanding of \$977,003,725 net of unamortized premiums and discounts. Of this amount, \$878,162,868 comprises debt backed by property tax assessments and the remainder of \$98,840,857 represents bonds secured by a broad pledge of Metro revenues, including property taxes used to support operations, and excise taxes levied on users of certain Metro services.

The table below provides a summary of Metro's debt activity. Bonds are reflected net of unamortized premiums and discounts as disclosed in the notes to the financial statements:

Metro's total debt decreased \$64,987,780 or 6.2 percent during the current fiscal year. This is reflective of the scheduled debt repayment.

Metro's Outstanding Debt

	Governmental Activities		Business-type activities		Total - Primary Government	
	2022	2021	2022	2021	2022	2021
General Obligation bonds	\$ 878,162,868	925,901,419	-	-	878,162,868	925,901,419
Full Faith & Credit/Revenue	95,695,835	111,931,951	3,145,022	4,158,135	98,840,857	116,090,086
Total	<u>\$ 973,858,703</u>	<u>1,037,833,370</u>	<u>3,145,022</u>	<u>4,158,135</u>	<u>977,003,725</u>	<u>1,041,991,505</u>

In March 2020, Standard & Poor's reaffirmed its AAA rating on Metro general obligation bonds, while Moody's Investor Services reaffirmed its Aaa rating. The rating agencies' reports emphasized the strong financial reserves of the agency, the low debt ratio, significantly broad tax base and the strength of its financial policies. In May 2020, Moody's issued a credit opinion on Metro's 2017 Dedicated Tax Revenue Bonds affirming their Aa3 rating due to strong reserves, historically robust coverage, and solid mechanisms for bond repayment. However, they were assigned a negative outlook because of the expected declines in tourism due to the COVID-19 pandemic. In April 2022, Moody's revised the outlook to stable, reflecting strong management, solid reserves, and an expectation that hotel tax revenue will likely improve as business travel and tourism resume.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for Metro is \$37,689,714,078, which is significantly in excess of Metro's outstanding general obligation debt.

Additional information on Metro's long-term debt can be found in Notes V.K through V.L in the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

By law, Metro must present a balanced budget. When accounting for all resources and requirements, the budget for Fiscal Year 2022-23 totals \$1,630,360,038, up 4.6 percent from Fiscal Year 2021-22. A detailed discussion can be found in Metro's 2022-23 Adopted Budget.

Budgetary assumptions impacting Metro's budget are:

- Property taxes reflect Metro's permanent operating rate of \$0.0966/\$1,000 of assessed value; and the local option levy rate of \$0.0960/\$1,000 of assessed value. FY 2022-23 is the fifth year of the second five-year local option levy approved for renewal approved by voters in 2016. Both levies assume a 4.0 percent increase in assessed value and a 94.5 percent collectible rate.
- Local government revenues include the Transient Lodging Tax (TLT) collected by Multnomah County to support operations of OCC and Portland's and capital funding for OCC and Expo, and the Visitor Facilities Trust Account (VFTA) allocations to OCC and Portland's. Those revenues are expected to increase as the region continues to recover from the COVID-19 pandemic.
- Enterprise revenues include a 173.0 percent increase at MERC, a 7.6 percent decrease at the Oregon Zoo, and a 17.3 percent increase in solid waste revenues.
- Personnel services costs increased by 24 percent. The increase is mainly related to staff additions needed to provide quality services for internal and external stakeholders. A large percentage of Metro staff are represented and salary increases are based on specific collective bargaining agreements, contributing to the personnel services cost increase.
- The number of authorized positions increased in the adopted fiscal year 2022-23 budget from the amended 2021-22 budget by a net 46.9 FTE to a total of 1,074.1 FTE, as programs are being restored from pandemic-related reductions-in-force, additional staff need identified to support the housing program, and as other programs grew, such as illegal dumping enforcement.
- Voters in greater Portland approved a supportive housing services tax in May 2020, levying a 1% tax on personal taxable income above \$125,000 for individuals and \$200,000 for those filing jointly, and a 1% tax on net business income for businesses with gross receipts in excess of \$5.0 million. The budget anticipates \$225.0 million in revenues and \$216.1 million in payments to other governmental agencies for the implementation of the supportive housing services program, related tax collection, and program administration and oversight.
- Significant capital and bond project expenditures in fiscal year 2023 include: \$250 million to local partners for approved affordable housing projects and \$24.0 million for Metro's site acquisition program, \$27 million in payments to grantees and other governmental agencies for parks and natural area projects, \$14.6 million for infrastructure related work at Metro parks and natural areas, \$7.0 million for land acquisition to protect and restore natural areas, and \$3.0 million for organics processing upgrades at Metro Central Transfer Station.

Metro's financial policies are the backbone of Metro's financial accountability and transparency. The fiscal year 2022-23 budget is a chance to prepare both for the coming fiscal year and for the longer term. Preparing for the future is a core element of Metro's charter and organizational culture.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Metro's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, Metro, 600 NE Grand Avenue, Portland, Oregon, 97232-2736.

Fund Financial Statements

Major Funds

General Fund

The *General Fund* accounts for all activities not required to be accounted for in another fund. This fund accounts for Metro’s primary governmental programs and support services including Council, Office of the Auditor, Office of Metro Attorney, Information Services, Communications, Finance and Regulatory Services, Human Resources, Capital Asset Management (construction project management and Metro Regional Center building operations components), Parks and Nature, Planning and Development (land use, urban growth management, research, and environmental and transportation planning), and special and non-departmental appropriations. The principal resources of the fund are charges for services, grants, property taxes, construction excise tax, and excise taxes on Metro’s facilities and services levied in accordance with the Metro Code.

The budgetary General Fund is combined with two other budgetary funds, the General Revenue Bond Fund – General and the General Asset Management Fund, to become one fund in accordance with accounting principles generally accepted in the United States of America.

Special Revenue Funds

Parks and Nature Operating Fund

This fund accounts for a dedicated local option levy and other funding that is used to improve water quality and restore wildlife habitat, wetlands, and floodplains in the region, as well as needed upkeep to parks, nature education and community partnerships throughout the region.

Affordable Housing Fund

This fund was established to account for bond proceeds and expenditures related to the 2018 Affordable Housing Measure. Metro sold \$652.8 million in taxable bonds in May 2019 to fund affordable housing for low-income families, seniors, veterans and people with disabilities in the greater Portland region.

Supportive Housing Services Fund

This fund was established to account for income tax proceeds and expenditures related to the 2020 Supportive Housing Services Measure. Specifically, funds will provide funding for housing assistance and wraparound services. The principal source of revenue is personal income taxes and business income taxes.

Major Funds

Debt Service Fund

The General Obligation Bond Debt Service Fund accounts for payments of general obligation bond principal and interest to bondholders. The principal resources are property taxes and investment income.

Capital Projects Funds

Natural Areas Fund

This fund accounts for activities to acquire and preserve natural areas and stream frontages, maintain and improve water quality, and protect fish and wildlife habitat. The principal resources are investment income and grants.

Parks and Nature Bond Fund

This fund accounts for activities to protect natural areas, water quality, and fish and wildlife habitat and connecting people to nature. The principal sources of revenue are bonds issued, premium on bonds issued, and investment income.

Nonmajor Funds

Other Governmental Funds

Other governmental funds include Smith and Bybee Wetlands Fund, Community Enhancement Fund, Zoo Infrastructure and Animal Welfare Fund, and Cemetery Perpetual Care Fund.

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

The net pension liability and related deferred outflows and inflows of resources are not available/payable in the current period and therefore are not reported in the funds.

The net OPEB liability and related deferred outflows and inflows of resources are not available/payable in the current period and therefore are not reported in the funds.

Property taxes and certain other revenues are not available to pay for current period expenditures and therefore are reported as unavailable revenue in the funds.

An internal service fund is used by management to charge the costs of insurance and risk management to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.

Long-term liabilities (including bonds payable) and related deferred outflows of resources, are not due and payable in the current period and therefore are not reported in the funds.

METRO
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the year ended June 30, 2022

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances-total governmental funds	\$	78,599,739
Governmental funds report capital outlays as expenditures, while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which capital outlays exceeded depreciation and amortization		
Expenditures for capital assets	15,070,748	
Less current year depreciation and amortization	<u>(3,977,395)</u>	11,093,353
In the statement of activities, only the gain or loss on the disposal of capital assets is reported, while in governmental funds, the entire proceeds from sales increase financial resources. The change in net position differs from the change in fund balance by the book values of the assets disposed.		
		(292,201)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Change in unavailable revenue-property taxes	137,893	
Change in unavailable revenue-other	<u>(5,966,101)</u>	(5,828,208)
An internal service fund is used by management to charge the costs of insurance and risk management to individual funds. The net revenue of certain activities of the internal service fund is included in governmental activities in the statement of activities.		
		(637,405)
The issuance of long-term debt provides current financial resources to governmental funds, but issuance of debt increases long-term liabilities in the statement of net position. The repayment of principal on long-term debt uses current financial resources of governmental funds, but repayment of debt reduces long-term liabilities in the statement of net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas premiums and discounts are deferred and amortized in the statement of activities. These are the effects of the differences in the treatment of long-term debt and related items.		
Principal payments on bonds	60,670,000	
Amortization of unamortized premium or discount	<u>3,304,667</u>	63,974,667
Expenses in the statement of activities that do not require the use of current financial resources are not reported as expenditures in the funds.		
Pollution remediation liability	(8,156,442)	
Other postemployment benefits	(181,642)	
Compensated absences	(132,036)	
Amortization of deferred charge on refunding	(153,503)	
Accruals associated with pension related obligations	325,788	
Leases payable	74,577	
Accrued interest on long-term debt	<u>1,113,885</u>	(7,109,373)
Change in net position of governmental activities	\$	<u><u>139,800,572</u></u>

The notes to the financial statements are an integral part of this statement.

Enterprise Funds

Major Funds

Solid Waste Fund

This fund accounts for revenues, primarily from charges for services for the disposal of solid waste, and expenses for the implementation, administration and enforcement of Metro's Solid Waste Management Plan. This fund also accounts for Metro South Station and Metro Central Station solid waste transfer and recycling facilities, and the closed St. Johns Landfill.

Oregon Zoo Fund

This fund accounts for revenues and expenses related to the management and operation of the Oregon Zoo. The principal sources of revenue are charges for services such as admission and membership fees, and food, beverage and gift sales. Expenses consist primarily of facility operation costs and payroll. This fund consists of three budgetary funds (Oregon Zoo Operating Fund, Oregon Zoo Asset Management Fund and General Revenue Bond Fund-Oregon Zoo) that are combined as one Enterprise Fund to be in accordance with accounting principles generally accepted in the United States of America.

MERC Fund

This fund accounts for revenues and expenses related to the management and operation of facilities managed by MERC, including the OCC, Expo Center, and Portland's 5. The principal sources of revenue are charges for services and local government shared revenue. Expenses consist primarily of management, food and beverage and operation costs. This fund consists of two budgetary funds (MERC Fund and General Revenue Bond Fund-MERC) that are combined as one Enterprise Fund to be in accordance with accounting principles generally accepted in the United States of America.

Internal Service Fund

Major Funds

Risk Management Fund

This fund accounts for risk management and self-insurance programs performed for other organizational units within Metro. The primary revenue is charges for services to user funds. Primary expenses are insurance premiums, claims costs, and studies related to insurance issues.

Notes to the Financial Statements

I. HISTORICAL INTRODUCTION

Metro, the nation's only directly elected regional government, was organized under the provisions of Oregon Revised Statutes (ORS) Chapter 268 to make available, in the Portland, Oregon metropolitan area, public services not adequately available through previously authorized governmental agencies. Under the 1992 Metro Charter, Metro's primary function is regional planning services. Metro is also authorized to exercise the following functions and is permitted by Charter to assume additional functions if approved by ordinance:

- Acquisition, development, maintenance and operation of:
 - a metropolitan zoo,
 - public cultural, trade, convention, exhibition, sports, entertainment, and spectator facilities,
 - facilities for disposal of solid and liquid wastes, and
 - a system of parks, open spaces and recreational facilities of metropolitan concern
- Metropolitan aspects of natural disaster planning and response coordination
- Development and marketing of data
- Performance of any other function required by state law or assigned to Metro by voters

The Metro Council is the governing body and consists of six part-time councilors, each elected on a nonpartisan basis from a single district within the Metro area. The Council President, who both administers the agency and presides over the policy-making of the Council, is elected from the Metro area at large. A Chief Operating Officer, appointed by the Council President and confirmed by the Council, is responsible for day-to-day administration of Metro, under the guidance of the Council President and the full Council. The Metro Auditor is elected at large, and that office performs financial and performance audits and makes reports to the Council and Chief Operating Officer.

The Metropolitan Exposition-Recreation Commission (MERC) was established by Metro ordinance to operate, maintain and renovate metropolitan convention, trade and spectator facilities pursuant to appropriate state statutes. The Commission consists of seven members, five recommended to the Council by local governments and two directly appointed by the Council President, and all confirmed by the Council. MERC is not legally separate from Metro.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Metro have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following summary of Metro's significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. These policies, as presented, should be viewed as an integral part of the accompanying financial statements.

A. THE REPORTING ENTITY

1. Primary Government

Metro is a municipal corporation governed by a Council President and six Councilors. As required by GAAP, Metro's financial statements present Metro (the primary government) and its component unit – the Oregon Zoo Foundation (OZF), a legally separate non-profit organization whose sole purpose is to provide support and

significant additional funding for Metro's Oregon Zoo (the Zoo). This discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from Metro. For materiality reasons, disclosures accompanying Metro's financial statements have generally been limited to those of the primary government.

2. Discretely Presented Component Unit

OZF - The legally separate OZF exists exclusively for the support and benefit of the Zoo. It is a public benefit corporation organized and operated under Section 501(c)(3) of the Internal Revenue Code. The OZF conducts fundraising efforts on behalf of the Zoo, receiving donations from both individuals and corporations that are provided as financial support to the Zoo. The OZF is included in Metro's report under provisions of GASB Statement No. 39. Complete financial statements for OZF can be obtained from the Finance Manager at 4001 SW Canyon Road, Portland, OR 97221-2799.

B. BASIC FINANCIAL STATEMENTS

1. Government-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component unit. For the most part, the effect of interfund activity has been eliminated from these statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The primary government is reported separately from its legally separate component unit.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are reported instead as *general revenues*, as are internally dedicated resources.

2. Fund financial statements are presented for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using an *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. All transactions affecting increases (revenues) and decreases (expenses) in total net position during the period are reported. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants are recognized as revenue when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using a *current financial resources measurement focus* and the *modified accrual basis of accounting*. Governmental funds' operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) of net current position during a period. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are both "measurable and available"). "Measurable" means the amount of the transaction can

be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Metro considers revenue arising from federal and state grants to be available in the period when the underlying related expenditures for reimbursement based grants have been incurred, if it is known that all eligibility requirements that allow for billing of the amount to the grantor agency under the applicable grant agreement have been satisfied. All other revenue is considered available if received within 60 days of fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on long-term debt, including lease liabilities, that is recorded when due and certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources. General capital asset acquisitions, including entering into contracts giving Metro the right to lease assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Property taxes, income taxes, excise taxes, construction excise tax, cemetery revenue surcharges, grants, local government shared revenues, government contributions, charges for services, and investment income are susceptible to accrual. Contributions and donations and other receipts become measurable and available when cash is received and are recognized as revenue at that time.

The accounts of Metro are organized on the basis of funds, each of which is a separate accounting entity with self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues, and expenditures or expenses, as appropriate. The segregation by fund is for the purpose of carrying on specific activities or attaining certain objectives in accordance with ordinances, special regulations, restrictions or limitations. The various funds are grouped by fund type and classified into two broad fund categories: governmental and proprietary.

Major funds are those whose revenues, expenditures/expenses, assets plus deferred outflows of resources, or liabilities plus deferred inflows of resources (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental or enterprise funds and at least 5 percent of the aggregate amount for all governmental and enterprise funds for the same item. Additional funds may be reported as a major fund if Metro’s officials believe that fund is particularly important to financial statement users. Metro reports the following major governmental funds:

General Fund – This fund accounts for all activities not required to be accounted for in another fund: Metro’s primary governmental programs and support services including Council, Office of the Auditor, Office of Metro Attorney, Information Services, Communications, Finance and Regulatory Services, Human Resources, Capital Asset Management (construction project management and Metro Regional Center building operations components), Parks and Nature, Planning and Development (land use, urban growth management, and environmental and transportation planning), and special non-departmental appropriations. The budgetary General Fund is combined with two other budgetary funds, the General Revenue Bond Fund – General and the General Asset Management Fund, to become one fund in accordance with accounting principles generally accepted in the United States of America.

Special Revenue Fund – Special revenue funds account for revenues (other than fiduciary resources or major capital projects) that are legally restricted to expenditures for specific purposes. Metro’s major special revenue funds are:

Parks and Nature Operating Fund– This fund accounts for a dedicated local option levy and other funding that is used to improve water quality and restore wildlife habitat, wetlands, and floodplains in the region, as well as needed upkeep to parks, nature education and community partnerships throughout the region.

Affordable Housing Fund– This fund was established to account for bond proceeds and expenditures related to the 2018 Affordable Housing Measure. Metro sold \$652.8 million in taxable bonds in May

2019 to fund affordable housing for low-income families, seniors, veterans and people with disabilities in the greater Portland region.

Supportive Housing Services Fund— This fund was established to account for income tax proceeds and expenditures related to the 2020 Supportive Housing Services Measure. Specifically, funds will provide funding for housing assistance and wraparound services.

Debt Service Fund – The *General Obligation Bond Debt Service Fund* accounts for payments of general obligation bond principal and interest to bondholders.

Capital Projects Funds - This fund type is used to account for resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). Metro's major capital projects funds are:

Natural Areas Fund – This fund accounts for activities to acquire and preserve natural areas and stream frontages, maintain and improve water quality, and protect fish and wildlife habitat.

Parks and Nature Bond Fund – This fund accounts for activities to protect natural areas, water quality, and fish and wildlife habitat and connecting people to nature.

Metro reports the following major proprietary funds:

Enterprise Funds - These funds account for the financing of predominantly self-supporting activities that are funded through service charges and user fees to customers. Metro's enterprise funds are:

Solid Waste Fund - This fund accounts for revenues, primarily from charges for services for the disposal of solid waste, and expenses for the implementation, administration and enforcement of Metro's Solid Waste Management Plan. This fund also accounts for Metro South Station and Metro Central Station solid waste transfer and recycling facilities, and the closed St. Johns Landfill.

Oregon Zoo Fund - This fund accounts for revenues and expenses related to the management and operation of the Oregon Zoo. The principal sources of revenue are charges for services such as admission and membership fees, and food, beverage and gift sales. Expenses consist primarily of facility operation costs and payroll. This fund consists of three budgetary funds (Oregon Zoo Operating Fund, Oregon Zoo Asset Management Fund and General Revenue Bond Fund-Oregon Zoo) that are combined as one Enterprise Fund to be in accordance with accounting principles generally accepted in the United States of America.

MERC Fund - This fund accounts for revenues and expenses related to the management and operation of facilities managed by MERC, including the Metro-owned Oregon Convention Center (OCC) and the Portland Expo Center (Expo). In addition, under the provisions of an intergovernmental agreement with the City of Portland, MERC is responsible for operation and management of the City-owned Portland's Centers for the Arts (Portland's). This fund consists of two budgetary funds (MERC Fund and General Revenue Bond Fund-MERC) that are combined as one Enterprise Fund to be in accordance with accounting principles generally accepted in the United States of America.

Internal Service Fund - Internal service funds are used to account for activities or services furnished by designated departments to other organizational units. Charges are made to the user departments to support these activities. Metro's internal service fund is:

Risk Management Fund - This fund accounts for risk management and self-insurance programs performed for other organizational units within Metro.

Metro also reports *nonmajor* funds of the following fund types:

Special Revenue Funds

Capital Projects Fund

Permanent Fund - This fund type is used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions are direct charges for services between various funds that represent services provided and used. Elimination of these charges would distort the measurement of the cost of individual functional activities. Certain indirect costs for central administration and support have been included as part of program expenses reported for the various functions in the government-wide financial statements.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Solid Waste Fund, Oregon Zoo Fund, MERC Fund, and of the internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation and amortization on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION/FUND BALANCES

1. Cash and Investments

Metro maintains a cash and investment pool that is available for use by all funds for investment purposes, excluding the component unit. Interest earned on pooled investments is allocated monthly based upon each fund's average monthly cash balance. Investments are presented at fair value within the fair value hierarchy established by GAAP. Fair value is determined annually as of June 30.

For purposes of the statement of cash flows, cash is considered to be cash on hand, demand deposits, cash in restricted accounts and equity in the internal cash and investment pool. All pooled investment purchases and maturities are part of Metro's cash management activity and are considered cash and cash equivalents.

As authorized by State statutes, policies recommended by Metro's Investment Advisory Board and adopted by the Metro Council authorize Metro to invest in obligations of U.S. government agencies, U.S. Government Sponsored Enterprises (USGSE), the U.S. Treasury, certificates of deposit, repurchase agreements, money market investments, bankers' acceptances, commercial paper, certain corporate promissory notes, State of Oregon and local government securities, debt obligations of the states of California, Idaho and Washington and their political subdivisions, and the State Treasurer's Local Government Investment Pool (LGIP).

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at fiscal year-end are referred to as "due to/from other funds" (short-term) and "advances to/from other funds" (long-term) in the fund financial statements. The residual balances outstanding between governmental activities and business-type activities, along with the other interfund balances described above, are reported in the government-wide financial statements as "internal balances."

Uncollected property taxes receivable collected and remitted to Metro by county treasurers within approximately 60 days of fiscal year-end are recognized as revenue. The remaining balance is recorded as unavailable revenue because it is not deemed available to finance operations of the current period. Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic remittances of collections to entities levying taxes. Property taxes are assessed and become a lien against the property as of July 1 each year. Since property taxes may be collected by foreclosure, no allowance for doubtful accounts is deemed necessary. Property taxes are levied on November 15 and are payable in three installments that are due on November 15, February 15 and May 15. Taxes unpaid and outstanding after May 16 are considered delinquent.

Income tax receivable is considered measurable once received by the tax collector. Estimated payments received prior to the due date are recorded as revenue.

Other receivable consists primarily of contracts receivable, lodging tax receivable, and other miscellaneous receivable. The underlying revenue is recorded when earned and included in other receivable until collected.

Receivables are stated net of an allowance for uncollectibles when required.

Metro allocates indirect costs, primarily of an administrative nature, to grants in compliance with cost allocation plans that are subject to the approval of Metro's oversight agency. The plan in effect for fiscal year 2022 allocated indirect costs to grants at a rate of approximately 59.2 percent of the related direct personnel costs.

3. Advances

Payments made to other jurisdictions or grantees in advance of spending on eligible activity are recorded as advances. Expenses and expenditures are recognized once funds are expended on the eligible purpose.

4. Inventories and Prepaid Items

Inventories, consisting of consumable food and items held for resale, are valued at cost (first-in, first-out method), and are charged as expenses when consumed. Payments to vendors for services that will benefit future periods are recorded as prepaid items using the consumption method.

5. Animal Collections

In accordance with industry practice, animal collections of the Zoo are recorded at the nominal amount of \$1, as there is no objective basis for establishing value. Differences in attributes such as species, age, sex, endangered status, and breeding potential make it impracticable to assign value. Acquisitions are recorded as expenses of the operating activity.

6. Transit-Oriented Development (TOD) Program Easements

Metro purchases easements on various TOD projects from developers. These easements contain property use conditions for periods up to 30 years to accomplish the goals of the TOD program. Metro does not consider the substance of such easements as assets, but rather project funding and amounts paid are reflected as a period cost. This policy is based on the concept that assets are resources that Metro controls and that have a present capacity to provide services, directly or indirectly. TOD easements, while a contractual or property right controlled by Metro, are entered into for the purposes of developing properties that increase transit ridership. The transit system is a service function of a wholly separate government entity. In the broadest sense, success of the program through TOD easements can enable the region and its individual government entities to maximize future resources. As such, there is no increase in Metro's present capacity to provide service and TOD easements are effectively contributions to the programs and service capacity of other governments.

7. Restricted Assets

Resources for future payment of bonds and certain long-term liabilities or activities have been classified as restricted assets on the statement of net position because their use is limited by certain applicable agreements or state laws. Assets of the Parks and Nature Operating Fund are restricted by Measure 26-178, a voter-approved five-year local option property tax levy. Assets of the Debt Service, Natural Areas, and Parks and Nature are restricted by state law controlling the use of bond proceeds. Assets of the Smith and Bybee Wetlands Fund, and portions of the General Fund related to the TOD program, Convention Center Hotel project and Willamette Falls Legacy project are restricted by contractual agreements with third parties. Assets of the Community Enhancement and the Cemetery Perpetual Care Funds are restricted by state law and/or Metro Code.

8. Capital Assets

Capital assets, which includes land, intangible easements, artwork, construction in progress, buildings and exhibits, improvements, equipment and vehicles, leased assets, intangible software, office furniture and equipment, and railroad equipment and facilities, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined as assets with an initial cost of \$10,000 or more, and an estimated useful life in excess of one year. Capital assets are recorded at cost (except for leased assets, the measurement of which is discussed in note 11 below), and donated capital assets are stated at acquisition value when received, which is the price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date. Normal maintenance and repairs are charged to operations as incurred. Replacements exceeding \$10,000 that improve or extend the lives of property are capitalized.

Capital assets are recorded as capital outlay expenditures in the governmental funds statements when purchased. Capital assets in the enterprise and internal service funds are capitalized when purchased. Interest expense incurred before the end of a construction period is recognized as an expense in the period in which the cost is incurred and is not capitalized as part of the asset's historical cost.

Depreciation/amortization is computed using the straight-line method over the following estimated useful lives:

Asset	Years
Buildings and exhibits	20-50
Improvements	10-65
Equipment and vehicles	8-20
Intangible-software	5-20
Office furniture and equipment	5-20
Railroad equipment and facilities	10
Leased assets	1-60

Pursuant to an intergovernmental agreement with the City of Portland, Metro (through MERC) operates and manages activities for Portland's, but capital assets purchased from funds derived from these operations become property of the City. As such, these expenses are reflected as contributions to other governments and are not capitalized.

9. Deferred outflows/inflows of resources

In addition to assets, the statement of net position reports a separate section for *deferred outflows of resources*, which represents a consumption of net assets that applies to future periods and will *not* be recognized as an outflow of resources (expense/expenditure) until that time. Metro reports two items in the government-wide statement of net position: deferred charge on refunding and deferred pension and OPEB amounts. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred

pension and OPEB amounts are contributions to the pension plan subsequent to the measurement date of the plan for reporting purposes and are recognized as outflows of resources in the following fiscal year.

In addition to liabilities, the statement of net position reports a separate section for *deferred inflows of resources*, which represents an acquisition of net assets that applies to future periods and will *not* be recognized as an inflow of resources (revenue) until that time. The government-wide statement of net position reports deferred pension amounts which represent the net difference between projected and actual earnings on pension plan investments and the changes in proportionate share of contributions. The government-wide statement of net position also reports deferred lease amounts which represents the net present value of future lease receipts. Metro also has *unavailable revenue*, which arises only under a modified accrual basis of accounting and so is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from three sources: deferred leases, property taxes and other. All deferred inflows are recognized as inflows of resources in the period that the amounts become available.

10. Pension Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement System (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same accrual basis as they are reported by PERS. For this purpose, revenues are recognized when earned. Contributions are recognized when due, pursuant to formal commitments, as well as statutory and PERS Board requirements. Expenses are recognized when incurred. Benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Withdrawals are recognized in the month they are due and payable. Investments are reported at fair value.

11. Leases

Lessee Arrangements: Lease liabilities and intangible right-to-use lease assets (leased assets) are reported in the government-wide financial statements. Metro recognizes lease liabilities with an initial, individual value of \$50,000 or more. At the commencement of the lease, lease liabilities are measured at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

The interest rate charged by the lessor is used as the discount rate. When the interest rate charged by the lessor is not provided, Metro's estimated incremental borrowing rate is used. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that is reasonably certain to be exercised.

Lease assets are reported with capital assets and lease payables are reported as liabilities on the statement of net position.

Lessor Arrangements: Lease receivables and deferred inflows of resources are reported in the government-wide and fund financial statements. At the commencement of a lease, the lease receivable is initially measured at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Metro uses its estimated incremental borrowing rate as the discount rate for leases where Metro serves as the lessor. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments to be received from the lessee over the term of the lease.

12. Long-term Obligations

In the government-wide financial statements, and in proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums, discounts, and deferred charge on refunding amounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported on the statement of net position net of the unamortized portion of premiums or discounts.

For governmental fund types in the fund financial statements, bond premiums, discounts and issuance costs are recognized in the period incurred. The face amount of debt issued plus any premium received on issuance is reported as other financing sources. Discounts on issuance are reported as other financing uses. Issuance costs are reported as expenditures.

13. Liability for Compensated Absences

Accumulated unpaid vacation benefits are accrued as earned in government-wide and proprietary fund financial statements. Accumulated unpaid vacation benefits are recorded as liabilities in the governmental fund types only if they have matured as the result of employee resignations or retirements. Calculated amounts of vacation leave payable include salary-related payments associated with the leave, such as Metro's share of Social Security and Medicare taxes. The amount due within one year is estimated on a historical average of leave taken during a fiscal year. Accumulated sick leave does not vest and is, therefore, recorded in all funds when leave is taken.

14. Fund Balances and Net Position

Fund balance is classified in the governmental fund financial statements in five components to give users information necessary to understand any constraints imposed upon the resources and how those constraints may be modified or eliminated. Fund balance is classified as *nonspendable* when amounts cannot be spent because they are either in nonspendable form, such as prepaid expenditures, advances, long-term receivables, or inventory, or are legally required to remain intact, such as the corpus of a permanent fund. Amounts classified as *restricted* fund balance are amounts with constraints imposed externally by creditors, grantors, contributors, or the laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The Metro Council is the highest level of decision-making authority for Metro that can, by adopting an ordinance, place constraints on resources that are reported as *committed* fund balance. These commitments can be modified or rescinded only by Council adoption of subsequent ordinances. *Assigned* fund balances are amounts intended to be used for specific purposes but do not meet the criteria to be classified as committed. Metro Council has, by resolution, authorized the Chief Operating Officer to assign fund balance. Metro's assigned fund balance category also reflects the appropriation of a portion of existing fund balance to eliminate a projected deficit in the subsequent year's adopted budget, as well as the encumbered amounts that represent commitments of resources. *Unassigned* fund balance is available for other uses and only the general fund may report a positive unassigned fund balance amount. It is Metro's policy to use restricted resources first, then unrestricted resources as needed when both restricted and unrestricted resources are available for use. Within unrestricted amounts, committed amounts are considered to have been spent first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

In the government-wide statement of net position and the statement of net position for proprietary funds, limitations on how the net position may be used are reported as restrictions. Restrictions may be placed by an external party providing the resources, by enabling legislation, or by the nature of the asset.

The government-wide statement of net position includes the result of Metro financing capital assets for the business-type activities through the issuance of general obligation bonds, a governmental activities function. The amount of long-term debt outstanding on the bonds is reflected as a liability (and as a component of unrestricted net position) in the governmental activities column, whereas the associated capital assets financed by this debt are reflected as assets (and as a component of invested in capital assets, net of related debt) in the business-type activities column. The primary government total column has been adjusted to match the debt against the assets in the invested in capital assets, net of related debt category.

E. ADOPTION OF NEW GASB PRONOUNCEMENTS

During the fiscal year ended June 30, 2022, Metro implemented the following GASB Statements that were applicable to Metro's operations:

GASB Statement No. 87, *Leases*. Issued June 2017, the primary objective of this Statement is to establish a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. Issued June 2018, the primary objective of this Statement is to clarify relevance and comparability of information about capital assets and the cost of borrowing and simplifies accounting for interest cost incurred before the end of a construction period.

GASB Statement No. 91, *Conduit Debt Obligations*. Issued May 2019, the primary objective of this Statement is to provide a single method of reporting conduit debt obligations and eliminates a diversity in practices associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures.

GASB Statement No. 92, *Omnibus 2020*. Issued January 2020, the primary objective of this Statement is to address comparability in accounting and financial reporting by improving the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Source Code Section 457 Deferred Compensation Plans*. Issued June 2020, the primary objective of this Statement is to clarify component unit criteria for a potential component unit in the absence of a governing board in determining financial accountability; limits the applicability of financial burden criteria in paragraph 7 of GASB Statement No. 84; and classifies Section 457 Deferred Compensation Plans as either a pension plan or other employee benefit plan.

GASB Statement No. 100, *Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62*. Issued June 2022, the primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

F. FUTURE ADOPTION OF GASB PRONOUNCEMENTS

Metro will implement future GASB pronouncements no later than the required effective date. Metro is currently evaluating the applicability of the following GASB pronouncements for their impact on Metro's financial statements in subsequent years:

- GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, effective for reporting periods beginning after June 15, 2022.
- GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for reporting periods beginning after June 15, 2022.
- GASB Statement No. 99, *Omnibus 2022*, effective for reporting periods beginning after June 15, 2022.
- GASB Statement No. 101, *Compensated Absences*, effective for reporting periods beginning after December 15, 2023.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**A. BUDGETARY INFORMATION**

Annual budgets are adopted on a basis consistent with ORS 294 - Local Budget Law and accounting principles generally accepted in the United States of America. All annual appropriations lapse at fiscal year-end.

The following fund had excess expenditures over appropriations for the fiscal year-end:

<u>Fund</u>	<u>Amount</u>
General Fund	
Parks and Nature	\$277,710

IV. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance-total governmental funds and net position-governmental activities as reported in the government-wide statement of net position. Elements of that reconciliation explain that capital assets, net pension liability and related amounts, and long-term liabilities/deferred outflows are either not reported or are reported as unavailable in the funds. The details of these differences are:

	Capital assets	Net pension liability and related amounts	Net OPEB liability and related amounts	Long-term liabilities/ deferred outflows
Capital assets	\$ 430,540,959	-	-	-
Accumulated depreciation and amortization	(41,675,645)	-	-	-
Deferred pension amounts (deferred outflows)	-	23,292,452	-	-
Net pension liability	-	(41,653,574)	-	-
Deferred pension amounts (deferred inflows)	-	(34,844,788)	-	-
Net OPEB asset	-	-	693,179	-
Deferred OPEB amounts (deferred outflows)	-	-	214,973	-
Net OPEB liability	-	-	(988,611)	-
Deferred OPEB amounts (deferred inflows)	-	-	(733,201)	-
Accrued interest payable	-	-	-	(2,447,016)
Leases payable	-	-	-	(723,596)
Bonds payable (net of unamortized premium/discount)	-	-	-	(973,858,703)
Pollution remediation obligation	-	-	-	(9,042,942)
Compensated absences	-	-	-	(4,564,670)
Deferred charge on refunding	-	-	-	12,792
Net adjustment to fund balance-total governmental funds to arrive at net position-governmental activities	\$ 388,865,314	(53,205,910)	(813,660)	(990,624,135)

V. DETAILED NOTES ON ALL FUNDS CASH AND INVESTMENTS

A. CASH AND INVESTMENTS

Metro pools virtually all funds for investment purposes. Each fund's portion of this pool is reported as "equity in internal cash and investment pool."

Policies adopted by Metro's Investment Advisory Board and the Metro Council authorize Metro to invest in obligations of U.S. government agencies, U.S. Government Sponsored Enterprises (USGSE), the U.S. Treasury, certificates of deposit, repurchase agreements, money market investments, bankers' acceptances, commercial paper, certain corporate promissory notes, State of Oregon and local government securities, debt obligations of the states of California, Idaho and Washington and their political subdivisions, and the State Treasurer's local government investment pool (LGIP). The LGIP is an external investment pool that is not rated by any national rating agency. LGIP investments are reported at fair value and are materially the same as the value of the pool shares. The State Treasurer's investment policies are governed by Oregon Revised Statutes and the Oregon Short Term Fund Board (OSTFB).

Fair Value Measurements- Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their value, as follows:

Level 1- Unadjusted quoted prices for identical instruments in active markets.

Level 2- Quoted prices for similar instruments in active markets; quoted prices for identical or similar investments in markets that are not active.

Level 3- Valuations derived from valuation techniques in which significant inputs are unobservable.

Equity in internal cash and investment pool on the Statement of Net Position includes the internal pool reported below. The OZF component unit does not participate in the internal investment pool of Metro. As of June 30, 2022, Metro had the following investments and maturities presented at fair value within the fair value hierarchy established by GAAP:

Investment Type	Standard & Poor's Ratings	Held by		Fair Value		Investment Maturities (in months)		
		Individual funds	Internal pool	Level 1	Level 2	Less than 3	3-17	18-59
U.S. Treasuries	AA+	\$ 336,156,232	81,262,550	417,418,782	-	38,693,977	225,841,476	152,883,329
U.S. Government securities - USGSE	AA+	225,803,513	68,574,240	-	294,377,753	31,960,793	187,968,798	74,448,162
Corporate Debt	AA	-	5,276,548	-	5,276,548	-	-	5,276,548
	AA+	-	5,266,435	-	5,266,435	-	1,000,370	4,266,065
	AAA	1,292,133	-	-	1,292,133	-	1,292,133	-
	AA-	3,700,481	5,421,082	-	9,121,563	3,700,481	1,989,700	3,431,382
	A	-	7,438,960	-	7,438,960	-	-	7,438,960

Total cash and investments		\$ 610,523,529	297,151,613					
Per statement of net position:								
Unrestricted		\$ -	152,944,052					
Restricted		610,523,529	144,207,561					
Total		\$ 610,523,529	297,151,613					

Interest Rate Risk - As a means of limiting its exposure to fair value losses resulting from rising interest rates, Metro's investment policy allows only the purchase of investments that are intended to be held to maturity. However, securities may be sold prior to maturity in order to improve the quality, net yield, or maturity characteristics of the portfolio. The structure of the investment portfolio aims to fund cash needs of ongoing operations, thereby avoiding the need to sell securities. Metro uses a laddered or constant stream of maturing securities in constructing the portfolio to ensure ample liquidity to support business operations without the need to sell securities. Investments cannot be made predicated upon selling the security prior to maturity. Metro avoids purchasing callable investments unless liquidity needs can be met without relying on the call being exercised.

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted an investment policy that was submitted to and reviewed by the OSTFB. Metro's investment policy has been reviewed by the OSTFB. Metro limits investment maturities as follows:

Maturity	Minimum to mature
Under 3 months	10 percent minimum
Under 18 months	25 percent minimum
Under 60 months	100 percent minimum

Credit Risk - Metro's investment policy seeks to minimize credit risk by (1) limiting exposure to poor credits and concentrating investments in the safest types of securities, (2) diversification, (3) pre-qualification of the financial institutions, broker/dealers, and advisers with which Metro will do business, and (4) active monitoring of the portfolio. Neither Oregon Revised Statutes nor Metro investment policy limits investments as to credit rating for securities purchased from U.S. Government Agencies or from USGSE. Other allowed investments, by Metro policy, must have a minimum rating as follows: bankers acceptances, A-1; corporate notes, AA-, or A- if an Oregon based entity; commercial paper, A-1, or A-2 if an Oregon entity; municipal debt, AA- for debt of the states of Idaho, California or Washington or their political subdivisions, or A- if the state of Oregon or its political subdivisions. Private placement or 144A securities and mortgage-backed securities are not allowed. The State Investment Pool is unrated.

Oregon Revised Statutes require bankers' acceptances to be guaranteed by and carried on the books of, a qualified financial institution, eligible for discount by the Federal Reserve System, and issued by a qualified financial institution whose short-term letter of credit rating is rated in the highest category by one or more nationally recognized statistical rating organizations.

Custodial Credit Risk - Metro monitors custodial credit risk on deposits (the risk that if a bank failed, Metro's deposits would not be returned) in accordance with Metro investment policy which specifies the requirements of Oregon statutes. Oregon Revised Statutes Chapter 295 governs the collateralization of Oregon public funds and provides the statutory requirements for the Public Funds Collateralization Program, a collateral pool administered by the Oregon State Treasurer. Bank depositories are required to pledge collateral against any public funds deposits in excess of federal deposit insurance amounts. The Oregon Treasury monitors each depository bank and ensures compliance with collateralization requirements for all Oregon public fund deposits. Banks are able to pledge a reduced amount if they are well capitalized; and in turn, the banks are required to share in the liability of a failed institution, should it ever occur. Public entities are required to verify that deposit accounts in excess of federal deposit insurance limits are maintained only at financial institutions included on the list of qualified depositories found on the Treasurer's website. It is the responsibility of the public official to ensure compliance with these requirements in order to eliminate personal liability in the event of a bank loss. Metro also monitors its depository institutions for indications of financial health. At June 30, 2022, all of Metro's deposits were insured as described above.

For investments, custodial credit risk is the risk that, in the event of failure of the counterparty, Metro will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Metro's investment policy requires that all trades are executed by delivery vs. payment to ensure that securities are deposited for safekeeping in an eligible financial institution prior to the release of funds. As of June 30, 2022, Metro had no investments that were held by either counterparty or the counterparty's trust department agent. Therefore, Metro has no outstanding investments that were exposed to custodial credit risk.

Concentration of Credit Risk - To avoid incurring unreasonable risks inherent in over-investing in specific instruments or in individual financial institutions, Metro diversifies its portfolio and follows the Metro investment policy which sets maximum limits on the percentage of the portfolio that can be invested in any one type of security. In addition, Oregon Revised Statutes require no more than 25 percent of the moneys of a local government to be invested in bankers' acceptances of any qualified financial institution. At June 30, 2022 Metro was in compliance with all percentage restrictions. More than 5 percent of Metro's total investments are in securities by the following issuers:

Issuer	Percentage of Total Investments (Total Entity Concentration)	Policy Allowed Maximum	Fund Concentrations Exceeding Total Entity Concentration	
			Affordable Housing Fund	Parks and Nature Bond Fund
Federal Home Loan Bank (FHLB)	13.3%	40.0%	15.3%	-
Federal Home Loan Mortgage Corp (FHLMC)	8.9%	40.0%	11.2%	9.0%
Federal National Mortgage Association (FNMA)	8.2%	40.0%	-	17.8%
State Treasurer's Investment Pool	6.0%	100.0%	-	-
U.S. Treasuries	47.7%	100.0%	57.7%	-

B. ASSETS HELD FOR RESALE

Acquisition and improvements to real property that is purchased with the intent to sell to private-sector purchasers meeting certain criteria under Metro's TOD and Housing programs are reported in governmental activities in the statement of net position as Assets Held for Resale. Such assets are reported at the lower of cost or net realizable value. The carrying value at June 30 is:

Property Name	Address	Amount
Gresham Civic	NW Civic Drive & NW 15th, Gresham, OR	\$ 2,648,104
Milwaukie Town Center	10700 SE McLoughlin Boulevard, Milwaukie, OR	409,186
The Crossings	Section 4, Township 1, South Range 3 East (Parcel 2), Gresham, OR	355,850
Elmonica	Section 6DB, Township 1 South, Range 1 West (Parcel R0037258), Beaverton, OR	802,427
Trinity Christian Center	432 NE 74th Avenue, Portland, OR	2,300,000
Barbur Value Inn	10450 SW Barbur Blvd, Portland, OR	4,250,000
Walker Road	9985 & 10085 NE Walker Road, Hillsboro, OR	1,750,000
		<u>\$ 12,515,567</u>

C. LOANS RECEIVABLE

1. TOD Loans

TOD loans receivable, reflected in the schedule below, are loans to developers who agree to develop projects in accordance with TOD program criteria. The loans are secured by the underlying property, which is subject to TOD use restrictions for a period of 30 years. Metro's security interest in the property is subordinate to other security interests on the property. These loans receivable are not discounted in accordance with guidance in GASB Statement No. 62.

2. Von Ebert Brewing Loan

Metro leased property to Von Ebert Brewing as part of the operation of the Glendoveer Golf Course. Under the lease agreement, Metro advanced money to pay for certain tenant improvements, with repayment to occur over time.

Details on loans receivable at June 30 are as follows:

Maximum Term	Interest Rate	First Payment	Last Payment	Payment Frequency	TOD Loans	Von Ebert Loans	Total Loans
50 years	0 to 1%	03/15/26	03/15/56	annually	\$ 645,380	-	645,380
50 years	0 to 1%	03/01/28	03/01/58	annually	416,092	-	416,092
60 months	3.50%	07/01/18	06/01/23	monthly	-	8,546	8,546
					<u>\$ 1,061,472</u>	<u>8,546</u>	<u>1,070,018</u>

Notes to the Financial Statements

For the fiscal year ended June 30, 2022

D. CAPITAL ASSETS

Capital asset balances and activity for fiscal year 2022 were as follows:

	Balance July 1, 2021	Increases	Decreases	Reclassifications and Transfers	Balance June 30, 2022
Governmental activities:					
Capital assets, non-depreciable:

Business-type activities capital assets, net	\$ 364,109,774	(10,830,739)	(111,262)	-	353,167,773

In 1984, Metro entered into a lease-leaseback transaction for theater land. In a lease-leaseback transaction, each party is a lessor and a lessee. Since each portion of the transaction is with the same counterparty, a right of offset exists. The lease-leaseback is presented net on the Statement of Net Position in accordance with GASB Statement No. 87, Leases. As such, the Capital Assets footnote total for business-type activities is \$1,172,789 higher than the face of the financials. The difference is comprised of the June 30, 2022 balance in deferred inflows related to leases, which is netted with capital assets on the Statement of Net Position.

Additional note disclosure of the gross amounts of the lease and leaseback provide essential information about the magnitude of each portion of the transaction. See Note J.

An agreement between the City of Portland and Metro regarding the real property at the Zoo provides that the property must be used for zoo or zoo related purposes and, if such property ceases to be used for such purposes or is used for other purposes, title reverts to the City. Metro was in compliance with this agreement for the fiscal year ended June 30, 2022.

Capital assets for MERC are those of Metro-owned facilities. Capital assets used in operating the Portland's are not included in the statement of net position of Metro as title to the assets remains with the City in accordance with an intergovernmental consolidation agreement. These capital assets are included in the Annual Comprehensive Financial Report of the City of Portland.

Depreciation and amortization expense was charged to functions/programs as follows:

Governmental activities:		
General government operations	\$	1,063,251
Culture and recreation		2,914,144
Total depreciation and amortization expense - governmental activities	\$	3,977,395
Business-type activities:		
Solid Waste	\$	2,723,573
Oregon Zoo		7,394,014
MERC		4,955,448
Total depreciation and amortization expense - business-type activities	\$	15,073,035

E. UNEARNED REVENUE

Unearned revenue is reported for resources that have been received, but not yet earned. The details of these amounts at June 30, 2022 were:

	Governmental Activities	Business-type Activities
Advance ticket sales/registrations	\$ 130,226	4,811,709
Unredeemed gift certificates	88,754	79,609
Advance park reservations	132,028	-
Grant and contract drawdowns prior to meeting all eligibility requirements	11,891	175,470
Total	\$ 362,899	5,066,788

F. DEFERRED COMPENSATION PLAN

Metro offers its employees a 401(k) deferred compensation plan in accordance with Internal Revenue Code provisions. The plan is available to all Metro employees and permits employees to contribute a portion of their salary to the plan to obtain favorable tax treatment for amounts contributed. Moneys accumulated under the plan are deposited with a trustee for the exclusive benefit of the participants and are invested in mutual funds that are self-directed by participants. The deferred compensation is not available to participants until termination, retirement, death, or certain hardship conditions. In accordance with authoritative guidance, the plan is not included in Metro's financial statements.

G. PENSION PLAN

1. Defined Benefit Plan Description

Name of pension plan - Metro participates in the Oregon Public Employees Retirement System (PERS) which is a cost-sharing multiple employer defined benefit pension plan.

Description of benefit terms - Benefit provisions and other requirements of the system are established by the State of Oregon legislature pursuant to Oregon Revised Statutes, Chapters 238 and 238A.

a. Tier One/Tier Two Retirement Benefit (Chapter 238). This segment of the plan is closed to new members hired on or after August 29, 2003.

Pension benefits. The PERS retirement allowance is payable monthly for life. It may be selected from thirteen retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for General Service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General Service employees may retire after reaching age 55. Tier One General Service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60.

Death benefits. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by a PERS employer at the time of death,
- the member died within 120 days after termination of PERS-covered employment,
- the member died as a result of injury sustained while employed in a PERS-covered job, or
- the member was on an official leave of absence from a PERS-covered job at the time of death.

Disability benefits. A member with ten or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

Benefit changes after retirement. Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the fair value of equity investments.

Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living adjustments, which are capped at 2.0 percent per year.

- b. Oregon Public Service Retirement Plan (OPSRP).** This pension program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003.

Pension benefits. OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for General Service members who attain normal retirement age: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for General Service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death benefits. Upon the death of a non-retired member, the spouse (or other person who is constitutionally required to be treated in the same manner as the spouse), receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse or other person may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70 ½ years.

Disability benefits. A member who has accrued ten or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit changes after retirement. Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living adjustments.

Contributions - PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the PERS Retirement Health Insurance Account described in Note V.H.2.

Employer contribution rates during the period were based on the December 31, 2019 actuarial valuation. The rates, based on a percentage of payroll, first became effective July 1, 2021. Metro has previously made a lump sum payment to establish a side account, and its rates have been reduced. Metro's actuarially determined contribution rate for the Tier One/Tier Two and OPSRP plans was 20.50 percent and 16.76 percent of subject payroll, respectively. Employer contributions recognized by PERS for the fiscal year ended June 30, 2022 were \$12,296,540.

A ten year schedule of Defined Benefit Pension Plan Contributions can be found in the Required Supplementary Information section of this report.

Pension plan ACFR - Both the PERS and OPSRP plans are administered by the Oregon Public Employees Retirement Board (OPERB), which issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700, by calling 1-888-320-7377, or by accessing the PERS web site at <http://oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>

Actuarial valuation - The employer contribution rates effective July 1, 2021, through June 30, 2023, were set using the entry age normal actuarial cost method. This method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), and (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized as described in the following table.

Actuarial methods and assumptions used to measure the total pension liability -

Valuation Date	December 31, 2019
Experience Study Report	2018, published July 24, 2019
Actuarial cost method	Entry Age Normal
Amortization method	Amortized as a level percentage of combined payroll; Tier One/Tier Two Unfunded Actuarial Liability (UAL) is amortized over 20 years and OPSRP pension UAL is amortized over 16 years.
Asset valuation method	Fair value of assets
Inflation rate	2.40 percent
Investment rate of return	6.90 percent
Projected salary increases	3.40 percent
Mortality	Healthy retirees and beneficiaries: Pub-2010 Healthy Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. Active members: Pub-2010 Employee, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. Disabled retirees: Pub-2010 Disabled Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2018 Experience Study which reviewed experience for the four-year period ending on December 31, 2018.

Discount rate. The discount rate used to measure the total pension liability was 6.90 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

The assumed asset allocation and the Oregon Investment Council's (OIC) target are provided in the table below:

Asset Class/strategy	Low Range	High Range	OIC Target
Debt securities	15.0%	25.0%	20.0%
Public equity	27.5	37.5	32.5
Real estate	9.5	15.5	12.5
Private equity	14.0	21.0	17.5
Alternative equity	7.5	17.5	15.0
Opportunity portfolio	0.0	5.0	0.0
Risk parity	0.0	2.5	2.5
Total			100.0%

Long-Term Expected Rate of Return. To develop an analytical basis for the selection of the long-term expected rate of return assumption, in June 2021 the PERS Board reviewed long-term assumptions developed by both the actuary's capital market assumptions team and the OIC's investment advisors. The table below shows the actuary's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Asset Class	Target	Compound Annual Return (Geometric)
Global equity	30.6%	5.9%
Private equity	25.5	7.7
Core fixed income	23.8	2.7
Real estate	12.3	5.7
Master limited partnerships	0.8	5.7
Infrastructure	1.5	6.3
Commodities	0.6	3.1
Hedge fund of funds- multistrategy	1.3	5.1
Hedge fund equity- hedge	0.6	5.3
Hedge fund- macro	5.6	5.1
US Cash	-2.5	1.8
Assumed inflation- mean		2.4

Sensitivity of Metro's proportionate share of the net pension liability to changes in the discount rate- The following presents Metro's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.90 percent, as well as what Metro's proportionate share of the net pension liability would be if it were calculated using a discount rate that was one percentage-point lower or one percentage-point higher than the current rate:

Metro's Net Pension Liability (Asset)	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
Defined benefit pension plan	\$ 153,344,411	78,087,113	15,124,070

Determination of Metro's proportionate share - Metro's actuarially determined proportionate share of the plan amounts was 0.65254874 percent for the fiscal year ended June 30, 2021 (measurement date). Metro's share of pension balances are determined by rolling forward the total net pension liability (actuarially determined at December 31, 2019) to the measurement date of June 30, 2021 and subtracting the plan's net position as of June 30, 2021.

The basis for Metro's proportion is actuarially determined by comparing Metro's projected long-term contribution effort to the plan with the total projected long-term contribution effort for all employers. The rate for every employer has at least two major components; Normal Cost Rate and Unfunded Actuarial Liability (UAL) Rate.

The projected long-term effort is estimated by projecting the present value of all future Normal Cost Rate Contributions (PVFNC). The PVFNC represents the portion of the projected long-term contribution effort related to future service.

An employer's PVFNC depends on both the Normal Cost Rates charged on the employer's payrolls, and on the underlying demographics of the respective payrolls. For PERS funding, employers may have three different payrolls, each with a different Normal Cost Rate:

- Tier 1/Tier 2 payroll
- OPSRP General Service payroll
- OPSRP Police and Fire payroll

A UAL exists when Plan assets are less than the actuarial liability as measured by the Plan's actuarial funding valuations. UAL can arise in a biennium when an event such as experience differing from the assumptions used in the actuarial valuation occurs. An amortization schedule is established to eliminate the UAL that arises in a given biennium over a fixed period of time if future experience follows assumption. The UAL Rate is the upcoming year's component of the cumulative amortization schedules, stated as a percent of payroll. The UAL represents the portion of the projected long-term contribution effort related to past service.

The projected long-term contribution effort is equal to the sum of the PVFNC and the UAL. After Metro's projected long-term contribution effort is calculated, that amount is reduced by the value of Metro's supplemental lump-sum payments, known as side accounts. Side accounts decrease Metro's projected long-term contribution effort because side accounts are effectively prepaid contributions.

The preparation of these amounts in conformity with GAAP requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ from those estimates.

Pension plan's fiduciary net position - Detailed information about the pension plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources and fiduciary net position can be found in the separately issued ACFR for the plan which is available as noted above.

Payables to the pension plan - At June 30, 2022, Metro reported a payable of \$971,765 for the outstanding amount of legally required pension contributions to the pension plan for the fiscal year ended June 30, 2022.

Pension Expense, Net Pension Liability or Asset, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - For the fiscal year ended June 30, 2022, Metro recognized a net pension liability of \$78,087,113 and a pension expense of \$11,178,387. At June 30, 2022, Metro reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Governmental activities		Business-type activities		Net Deferred Outflows/ (Inflows) of Resources
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience in the measurement of the total pension liability	\$ 3,899,047	-	3,410,417	-	7,309,464
Changes in assumptions	10,427,143	109,622	9,120,413	95,885	19,342,049
Net difference between projected and actual earnings on pension plan investments	-	30,835,818	-	26,971,467	(57,807,285)
Changes in the employer's proportion	2,406,987	-	2,105,342	-	4,512,329
Differences between employer contributions and employer's proportionate share of system contributions	-	3,899,348	-	3,410,680	(7,310,028)
Total (prior to post-measurement date contributions)	\$ 16,733,177	34,844,788	14,636,172	30,478,032	(33,953,471)
Contributions subsequent to the measurement date	6,559,275	-	5,737,265	-	12,296,540
Net deferred outflows/(inflows) of resources	\$ 23,292,452	34,844,788	20,373,437	30,478,032	(21,656,931)

The \$12,296,540 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in subsequent years as follows (outflows and inflows netted):

Fiscal year ended June 30:	Governmental activities	Business-type activities	Total
2023	\$ (2,970,995)	(2,598,669)	(5,569,664)
2024	(3,399,901)	(2,973,825)	(6,373,726)
2025	(4,841,385)	(4,234,662)	(9,076,047)
2026	(7,752,934)	(6,781,335)	(14,534,269)
2027	853,604	746,631	1,600,235
Total	\$ (18,111,611)	(15,841,860)	(33,953,471)

Changes in Plan Provisions Subsequent to Measurement Date - On July 23, 2021, the PERS Board voted to set the assumed rate of return to 6.9 percent, down from 7.2 percent. The PERS Board reviews the assumed rate in odd-numbered years as part of the board's adoption of actuarial methods and assumptions. The rate was then adopted in an administrative rule at the PERS Board's October 1, 2021, meeting. The new assumed rate will be reflected in the December 31, 2021 actuarial valuation for funding, and decreases in the assumed rate typically increase the system's unfunded actuarial liability as well as employer contribution rates. The new assumed rate was applied by the actuaries to the Net Pension Liability and Net OPEB Liability as of June 30, 2021.

2. Defined Contribution Pension Plan

Beginning January 1, 2004, PERS active Tier One and Tier Two members became members of the Individual Account Program (IAP) of OPSRP. Although existing PERS members retain their existing PERS account, all current member contributions are deposited into the member's IAP, a defined contribution pension plan. Accounts are credited with earnings and losses net of administrative expenses. The IAP, as part of OPSRP, is administered by the PERS Board which is directed to adopt any rules necessary to administer OPSRP. The IAP is provided to all members or their beneficiaries who are PERS or OPSRP eligible.

State statutes require covered employees to contribute six percent of their annual covered salary to the IAP plan effective January 1, 2004. Metro pays for the IAP contribution for all employees. An IAP member becomes vested on the date the employee account is established or on the date a rollover account was established. If Metro makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5, 10, 15, 20 year period or an anticipated life span option. Installment amounts vary with market returns as the account remains invested while in distribution. Each distribution option has a \$200 minimum distribution limit.

Death Benefits – Upon the death of a non-retired member, the beneficiary receives a lump sum of the member's account balance, rollover account balance, and the vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Metro paid contributions to the IAP of \$3,730,095 for the fiscal year ended June 30, 2022, which is included in payroll and fringe benefits expense. At June 30, 2022, a payable to the IAP portion of the plan in the amount of \$327,057 for the contractually required contributions for the month of June 2022 is included in accrued salaries and benefits.

H. OTHER POSTEMPLOYMENT BENEFITS

The other postemployment benefits (OPEB) for Metro combines two separate plans. Metro provides an implicit rate subsidy for retiree health insurance premiums, and a contribution to the State of Oregon's PERS cost-sharing multiple-employer defined health insurance benefit plan.

1. Metro Retiree Health Insurance Plan - Implicit Rate Subsidy

Plan Description - All employees of Metro retiring from active service with a pension benefit payable immediately under Oregon PERS are eligible for other postemployment benefits (OPEB) relating to health care. As required by state law, retirees of Metro and their dependents under age 65 are allowed to receive the same health care coverage at tiered premium rates as offered to active Metro employees, resulting in an implicit employer subsidy (health care premiums priced only for retirees would be more expensive than tiered premiums because retirees have higher health care claims on average). The implicit employer subsidy is only measured for retirees and spouses younger than age 65, at which point such retirees and spouses typically become eligible for Medicare. Metro has not established a trust that meets the criteria in paragraph 4 of GASB Statement 75 for the accumulation of assets. Metro's single-employer OPEB plan does not issue a publicly available financial report.

Benefits Provided - The plan provides eligible retirees and their dependents under age 65 the same health care coverage at the same premium rates as offered to active employees. The retiree is responsible for the premiums.

As of the valuation date July 1, 2021, the following number of employees were covered by the benefit terms:

Inactive employees or beneficiaries receiving benefits	11
Active employees	728
<u>Total</u>	<u>739</u>

Total OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - Metro's total OPEB Liability of \$2,298,945 was measured as of June 30, 2022, and was determined by an actuarial valuation as of July 1, 2021. For the fiscal year ended June 30, 2022, Metro recognized OPEB expense from this plan of \$180,991.

At June 30, 2022, Metro reported deferred outflows of resources and deferred inflows of resources related to this OPEB plan from the following sources:

Sources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	482,884
Changes in assumptions	183,016	728,828
Benefit payments	102,095	-
Total	\$ 285,111	1,211,712

Deferred outflows of resources related to OPEB of \$102,095 resulting from Metro's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources to OPEB will be recognized in OPEB expense as follows:

Fiscal year ended June 30:		
2023	\$	(143,615)
2024		(143,615)
2025		(143,615)
2026		(129,435)
2027		(117,711)
Thereafter		(350,705)
Total	\$	(1,028,696)

Actuarial Assumptions and Other Inputs - The total OPEB liability in the July 1, 2021 valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial cost method	Entry Age Normal
Inflation rate	2.40 percent
Salary increases	3.40 percent
Mortality	Pub-2010 General Service Employee and Healthy Retiree tables, sex distinct for members and dependents, with a one-year setback for male general service employees. Future mortality improvement is projected generationally with unisex Social Security data scale.
Discount rate	2.16 percent (change from 2.21 percent in previous measurement period)
Healthcare cost trend rate	Medical and vision: 0.75 percent in the first year, 5.25 percent in the second year, and varying from 5.00 to 3.75 percent over the remainder of the projection period. Dental: 4.00 percent per year

The discount rate was based on Bond Buyer 20-Year General Obligation Bond Index.

Changes in the Total OPEB Liability

	Total OPEB Liability
Balance as of June 30, 2021	\$ 3,366,979
Changes for the year:	
Service cost	246,402
Interest on total OPEB liability	78,204
Effect of economic/demographic gains or losses	(533,513)
Effect of assumptions changes or inputs	(708,759)
Benefit payments	(150,368)
Balance as of June 30, 2022	\$ 2,298,945

Changes in assumptions is the result of the change in the discount rate from 2.21 percent to 2.16 percent.

Sensitivity of the Total OPEB Liability - The following presents Metro's total OPEB liability, as well as what the liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.16 percent) or 1-percentage-higher (3.16 percent) than the current discount rate. A similar sensitivity analysis is then presented for changes in the healthcare trend assumption.

Discount Rate:	1% Decrease (1.16%)	Current Discount Rate (2.16%)	1% Increase (3.16%)
Total OPEB Liability	\$ 2,468,792	2,298,945	2,137,504

Healthcare Cost TrendRate:	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Total OPEB Liability	\$ 2,056,131	2,298,945	2,584,381

2. PERS Retirement Health Insurance Account

Plan Description - Metro contributes to the PERS Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by PERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums for eligible retirees. ORS 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants on or after August 29, 2003. PERS issues publicly available financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700, by calling 1-888-320-7377, or by accessing the PERS website at <http://oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>

Benefits Provided - Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the RHIA established by the employer, and any monthly cost in excess of \$60 shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost, the member must (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS, or (2) was insured at the time the member died and the member retired before May 1, 1991.

Contributions - PERS funding policy provides for employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. Employer contribution rates for the period were based on the December 31, 2019 actuarial valuation. The rates based on a percentage of payroll, first became effective July 1, 2021. Metro's contribution rates for the period were 0.06% for Tier One/Tier Two members, and 0.00% for OPSRP members. Metro's total for the year ended June 30, 2022 contribution was \$12,601.

Total OPEB Assets, Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - At June 30, 2022, Metro reported an asset of \$1,314,537 for its proportionate share of the OPERS net OPEB asset. The net OPEB asset was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2019. Metro's proportion of the net OPEB asset was based on Metro's contributions to the RHIA program during the measurement period relative to contributions from all participating employers. At June 30, 2021, Metro's proportionate share was 0.3828% which is an increase from its proportion of 0.3558% as of June 30, 2020.

For the year ended June 30, 2022, Metro recognized OPEB expense from this plan of \$88,692. At June 30, 2022, Metro reported deferred outflows of resources and deferred inflows of resources related to this OPEB plan from the following sources:

Sources	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on investments	\$ -	312,403
Changes of assumptions	25,865	19,556
Changes in proportionate share	136,699	33,750
Differences between expected and actual experience	-	36,573
Contributions subsequent to the measurement date	12,601	-
Total	\$ 175,165	402,282

Deferred outflows of resources related to OPEB of \$12,601 resulting from Metro's contributions subsequent to the measurement date will be recognized as either a reduction of the net OPEB liability or an increase in the net OPEB asset in the year ended June 30, 2023. Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal year ended June 30:	
2023	\$ 6,961
2024	(76,672)
2025	(71,322)
2026	(98,685)
Total	\$ (239,718)

Actuarial Assumptions and Other Inputs - The total OPEB asset based on the December 31, 2019 valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Notes to the Financial Statements

For the fiscal year ended June 30, 2022

Valuation date	December 31, 2019
Measurement date	June 30, 2021
Experience study	2018, published July 24, 2019

Actuarial assumptions:

Actuarial cost method	Entry Age Normal
Inflation rate	2.40 percent
Long-term expected rate of return	6.90 percent
Discount rate	6.90 percent
Projected salary increase	3.40 percent
Healthcare cost trend rate	Not applicable
Mortality	Healthy retirees and beneficiaries: Pub-2010 Healthy Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. Active members: Pub-2010 Employee, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. Disabled retirees: Pub-2010 Disabled Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

All other actuarial method and assumptions are consistent with those disclosed in the OPERS Pension Plan. See Note V.G.1, for additional information on Actuarial Assumptions and Methods, the Long-Term Expected Rate of Return, and the Discount Rate.

Sensitivity of Metro's proportionate share of the net OPEB liability (asset) to changes in the discount rate - The following presents Metro's proportionate share of the net OPEB liability (asset), calculated using the discount rate of 6.90%, as well as what Metro's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate of 1-percentage-point lower (5.90 percent) or 1-percentage-point higher (7.90 percent) than the current rate.

	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
Total OPEB Liability (Asset)	\$ (1,162,515)	(1,314,537)	(1,444,400)

OPEB Plan Fiduciary Net Position - Detailed information about the pension plan's fiduciary net position is available in the separately issued OPERS financial report.

I. COMMITMENTS

1. Columbia Ridge Landfill

Metro has waste disposal services agreements with the owner and operator of Columbia Ridge Landfill in Gilliam County, Oregon for disposal of solid waste from the transfer stations owned by Metro. The monthly disposal rate will be adjusted annually by an amount equivalent to 90 percent of the annual change of CPI on July 1 each year until the contract expires on December 31, 2029. The rate for fiscal year 2022 is \$19.20 per ton. The estimated increased rate for fiscal year 2023 is \$19.86 per ton.

2. Waste Transport

Solid waste transport from Metro facilities to Columbia Ridge Landfill and other disposal sites is privately contracted through December 31, 2029. For fiscal year 2022, the unit price is \$610.49 per load (equivalent to about \$18.37 per ton). The current contract will adjust the per load unit price by a percentage equal to 95 percent of the annual percent change of CPI every July 1. The additional unit prices for the new contract includes a mile tax of \$66.71 and wage increase of \$27.63 per load. Both additional costs per load are *not* subject to the CPI increases.

The contract calls for Metro to reimburse the contractor for the cost of shuttle fuel used at the transfer stations. The fuel price is highly variable and tied to a weekly index, but historically has added \$10 to \$15 to the cost of each load.

Expiring on December 31, 2024, the current fuel contract for over-the-road diesel fuel sets a price per gallon that is tied to a national weekly fuel index.

3. Metro South Station

The operation of Metro South, a solid waste transfer station and materials recovery facility, is privately contracted through December 31, 2024. Monthly payments for personnel costs, maintenance, and equipment are on a reimbursed basis within agreed parameters plus a gross margin. There are prices for putrescible and non-putrescible waste and other waste materials that are subject to CPI adjustments annually and performance adjustments.

4. Metro Central Station

The operation of Metro Central, a solid waste transfer station and materials recovery facility, is privately contracted through December 31, 2023. The contractor receives incentives for materials recovered from the waste stream and not sent to Columbia Ridge Landfill. The cost of transfer, transport and processing at remote composting sites is also included. The contractor provides transfer services and arranges for transport and processing. All payments are adjusted annually on July 1 in an amount equal to CPI.

5. Summary

The following table presents approximate annual commitments based on forecasted refuse tons and assumed annual inflation equal to the average of the preceding four fiscal years for all of the previously described contracts. The figures for Metro South and Metro Central reflect costs and tonnage as estimated at contract prices and tonnage from the tonnage forecast and at various contract expiration dates.

Fiscal year ending June 30:	Columbia Ridge Landfill	Waste Transport	Metro South	Metro Central
2023	\$ 11,014,677	11,937,962	10,942,188	7,657,130
2024	11,147,674	12,056,994	11,152,321	5,340,901
2025	11,299,607	12,196,885	5,685,550	-
2026	11,605,135	12,501,209	-	-
2027	11,919,295	12,813,515	-	-
Total	\$ 56,986,388	61,506,565	27,780,059	12,998,031

6. Construction Projects

Metro is committed under a number of contracts for construction services. The amount of major uncompleted contracts is approximately \$2,600,000 at June 30, 2022.

Notes to the Financial Statements

For the fiscal year ended June 30, 2022

7. Affordable Housing

Metro Council has approved the following projects under the Affordable Housing Bond program. The projects fund affordable housing for low-income families, seniors, veterans and people with disabilities in the Metro region.

Housing Partner	Project	Commitment
City of Beaverton	Elmonica	\$ 11,900,000
Clackamas County	Marylhurst Commons	3,000,000
Home Forward	Troutdale	15,213,585
City of Portland	74th and Glisan	19,972,884
City of Portland	5020 N Interstate	9,216,838
City of Portland	Albina one	13,572,107
City of Portland	Meridian Gardens	12,435,416
City of Portland	Hollywood Hub	29,084,328
City of Portland	PCC Killingsworth	2,538,237
City of Portland	Tistilal Village	3,511,176
Washington County	Goldcrest (Cooper Mountain)	8,700,000
Washington County	Plambeck Gardens (Basalt Creek)	14,320,000
Total		<u>\$ 143,464,571</u>

J. LEASES**1. Lease Receivable**

The following changes occurred during fiscal year 2022 in lease receivable:

	Balance July 1, 2021	Additions	Reductions	Balance June 30, 2022
Governmental activities:				
Restaurant building lease; interest at 2%, principal and interest from \$5,858 to \$8,042 monthly, final payments due 2037	\$ 1,159,025	-	(50,227)	1,108,798
Cell tower land lease; interest at 1%, principal and interest of \$2,057 monthly, final payments due 2026	-	120,414	(21,710)	98,704
Governmental activities				
Total Lease Receivable	<u>\$ 1,159,025</u>	<u>120,414</u>	<u>(71,937)</u>	<u>1,207,502</u>
Business-type activities:				
Theater land leaseback; interest at 3%, principal and interest from \$3,515 monthly, final payments due 2083	1,191,910	-	(9,581)	1,182,329
Business-type activities				
Total Lease Receivable (1)	<u>\$ 1,191,910</u>	<u>-</u>	<u>(9,581)</u>	<u>1,182,329</u>

During the year ended June 30, 2022, Metro recognized \$92,320 in lease revenue and \$23,619 in interest revenue for governmental activities. Additionally, during the year ended June 30, 2022, Metro recognized \$19,122 in lease revenue and \$35,561 in interest revenue for business-type activities. During the fiscal year, there were no inflows of resources related to variable or other payments not previously included in the measurement of the lease receivable.

2. Lease Payable

The following changes occurred during fiscal year 2022 in governmental activities lease payable:

	Balance July 1, 2021	Additions	Reductions	Balance June 30, 2022
Governmental activities:				
Office building lease; interest at 1%, principal and interest from \$15,766 to \$17,755 monthly, final payments due 2025	\$ 798,775	-	(184,128)	614,647
Trailer equipment lease; interest at 1%, principal and interest of \$4,587 monthly, final payments due 2024	-	192,763	(83,814)	108,949
Governmental activities				
Total Lease Payable	\$ 798,775	192,763	(267,942)	723,596
Current portion				(245,253)
Long-term portion				\$ 478,343

During the fiscal year, there were no outflows of resources related to variable payments not previously included in the measurement of the lease liability.

Future maturities are as follows:

Fiscal year ending June 30:	Principal	Interest
2023	\$ 245,253	6,119

(1) Due to the netting of the lessee and lessor portions of the Theater Land Lease-Leaseback, the lease receivable and lease payable totals within this footnote do not tie to the Statement of Net Position. The following reconciliation has been prepared in order to illustrate the difference.

Business-type activities:

Lease receivable- government wide statement of net position	\$ -
Theater Land Leaseback receivable, netted with lease payable on statement of net position	1,182,329
<u>Total lease receivable per footnote</u>	<u>\$ 1,182,329</u>
Lease payable due within one year - government wide statement of net position	\$ 694,570
Lease payable due in more than one year - government wide statement of net position	14,770,735
Theater Land Leaseback receivable, netted in lease payable on statement of net position	1,182,329
<u>Total lease payable per footnote</u>	<u>\$ 16,647,634</u>

K. BONDS PAYABLE

Metro issues a variety of long-term debt types to finance capital projects and some capital equipment. The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt after August 1986 calculate and rebate arbitrage earnings to the federal government. Metro's tax-exempt debt is in compliance with all Internal Revenue Service arbitrage regulations.

The various debt issues are discussed below.

*Governmental Activities***1. 2012A and 2018 Series Natural Areas General Obligation Bonds and 2014 Series General Obligation Refunding Bonds**

In prior years, Metro issued \$124,295,000 of 2007 Series Natural Areas General Obligation Bonds and an additional \$75,000,000 of 2012A Series bonds. The bonds were issued by Metro under authority granted by voters for a total of \$227.4 million in general obligation bonds to fund activities to acquire and preserve natural areas and stream frontages, maintain and improve water quality, and protect fish and wildlife habitat. On May 15, 2018,

Metro issued \$28,105,000 of Series 2018 bonds, which is the final issuance of bonds authorized under the 2006 voter approved measure.

In prior years, Metro issued \$57,955,000 of General Obligation Refunding Bonds, Series 2014 to refund all callable outstanding 2007 Series Natural Areas General Obligation Bonds. The defeased bonds have been called and paid and the escrow account for the defeasance is closed.

The bonds are to be repaid with proceeds of Metro's *ad valorem* property tax levied each year. Interest rates on individual bonds range from 4.0 percent to 5.0 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	2012A Series		2018 Series	
	Principal	Interest	Principal	Interest
2023	\$ 6,840,000	1,538,200	1,975,000	441,500
2024	7,690,000	1,196,200	2,125,000	342,750
2025	8,590,000	811,700	2,280,000	236,500
2026	9,555,000	382,200	2,450,000	122,500
	32,675,000	3,928,300	8,830,000	1,143,250
Unamortized premium	4,200,871		1,258,241	
Per statement of net position	\$ 36,875,871		10,088,241	

2. 2012A, 2016, and 2018 Series Oregon Zoo Infrastructure and Animal Welfare General Obligation Bonds

In prior years, the region's voters granted authority for a total of \$125 million in general obligation bonds to fund Oregon Zoo capital projects to protect animal health and safety, conserve and recycle water and to improve access to conservation education. The first and second series of this bond, issued as taxable Build America Bonds (BABs), for \$5,000,000 and \$15,000,000 were issued and paid off in prior fiscal years. Also in prior years, Metro issued \$65,000,000 of 2012A Series bonds and \$30,000,000 of 2016 Series bonds. On May 15, 2018, Metro issued the \$10,000,000 of Series 2018 bonds, which is the final issuance of bonds authorized under the 2008 voter approved measure.

The bonds are to be repaid with proceeds of Metro's *ad valorem* property tax levied each year. Interest rates on individual bonds range from 3.0 percent to 5.0 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	2012A Series		2018 Series	
	Principal	Interest	Principal	Interest
2023	\$ 4,000,000	1,288,075	890,000	334,000

Unamortized premium	3,958,790		890,711	
Per statement of net position	\$ 33,683,790		7,570,711	

3. 2019 Series Affordable Housing General Obligation Bonds

On November 6, 2018, the region's voters granted authority for a total of \$652.8 million in general obligation bonds to fund affordable housing projects for low-income families, seniors, veterans and people with disabilities in the Metro region which includes Washington, Clackamas, and Multnomah counties. On May 15, 2019, Metro issued \$652,800,000 of federally taxable Series 2019 bonds authorized under the 2018 voter approved measure.

Notes to the Financial Statements

For the fiscal year ended June 30, 2022

The bonds are to be repaid with proceeds of Metro's *ad valorem* property tax levied each year. Interest rates on individual bonds range from 3.0 percent to 3.5 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	Principal	Interest
2023	\$ 17,835,000	20,208,129
2024	19,600,000	19,583,904
2025	21,465,000	18,897,904

Unamortized premium	2,220,201	
Per statement of net position	\$ 612,145,201	

4. Full Faith and Credit Refunding Bonds 2013 Series

In prior years, Metro issued \$12,600,000 of Full Faith and Credit Refunding Bonds, 2013 Series to refund the portion of the Full Faith and Credit Refunding Bonds, 2003 Series callable without premium. The defeased bonds have been called and paid and the escrow account for the defeasance is closed.

The bonds are payable from all legally available taxes and other revenues of Metro. Interest rates on individual bonds range from 1.3 percent to 2.2 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	Principal	Interest
2023	\$ 1,370,000	15,070
Per statement of net position	\$ 1,370,000	15,070

5. Full Faith and Credit Bonds 2018 Series

On May 24, 2018, Metro issued \$13,290,000 of Full Faith and Credit Bonds, Series 2018 to fund renovations, upgrades and repairs to the existing Metro Regional Center (MRC) building. The MRC building projects include exterior and interior replacements and upgrades and Information Services infrastructure.

The bonds are payable from existing Metro revenues which includes assessments on departments to pay for their share of the MRC building upgrade costs along with other General Fund revenues. Interest rates on individual bonds range from 3.0 percent to 5.0 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	Principal	Interest
2023	\$ -	586,450
2024	1,060,000	586,450

Unamortized premium	1,333,112	
Per statement of net position	\$ 14,623,112	

6. Dedicated Tax Revenue Bonds OCC Hotel Project 2017 Series

On August 8, 2017, Metro issued \$52,260,000 in Dedicated Tax Revenue Bonds, Oregon Convention Center Hotel project, Series 2017 to fund a contribution to the construction of a 600-room hotel adjacent to the OCC, a project to assist in marketing the OCC for national conventions.

Metro negotiated with a development partner who committed to design and construct the hotel, which was finished in 2022 and is owned and operated by Hyatt Hotels Corporation; the developer and operator provided approximately \$166 million of the estimated \$240 million cost. As part of the Development and Financing Agreement, Metro committed to provide a portion of the funding, consisting of the revenue bonds, \$4 million contributed by the MERC Proprietary Fund and \$10 million received previously from the State of Oregon lottery funds. Metro has transferred these funding sources to the developer.

The bonds are backed by site specific transient lodging tax revenue. Interest rates on individual bonds range from 3.0 percent to 5.0 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	Principal	Interest
2023	\$ 1,005,000	2,394,000
2024	1,055,000	2,343,750
2025	1,105,000	2,291,000
2026	1,160,000	2,235,750

	47,880,000	37,047,750
Unamortized premium	7,337,723	
Per statement of net position	\$ 55,217,723	

7. Pension Obligation Bonds Metro Limited Tax Series 2005

In prior years, Metro, along with certain other Oregon cities, counties and special districts issued Limited Tax Pension Bonds Series 2005 to finance their PERS unfunded actuarial liabilities. The proceeds of Metro's \$24,290,000 in bonds were paid to PERS and resulted in a new, lower employer contribution rate.

The bonds are to be repaid through assessments on Metro departments in exchange for the lower pension cost. The individual bonds have interest rates ranging from 4.859 percent to 5.004 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	Principal	Interest
2023	\$ 1,820,000	627,251
2024	2,010,000	536,179
2025	2,210,000	435,598
2026	2,430,000	325,010
2027	2,660,000	203,413
2028	1,405,000	70,306
Per statement of net position	\$ 12,535,000	2,197,757

8. 2020A and 2020B Series Parks and Nature General Obligation Bonds

In May 2020, Metro issued \$200,000,000 of 2020 Series Parks and Nature General Obligation Bonds. The bonds were issued by Metro under authority granted by voters for a total of \$475 million in general obligation bonds

Notes to the Financial Statements

For the fiscal year ended June 30, 2022

to fund programs designed to protect natural areas and connect people to nature. The bond will be used for protecting clean water for people, fish and wildlife; improving habitat for native fish and wildlife; protecting and restoring culturally significant native plant communities; and improving access to parks and nature.

The bonds are to be repaid with proceeds of Metro's *ad valorem* property tax levied each year. Interest rates on individual bonds range from 1.2 percent to 5.0 percent.

Fiscal year ending June 30:	Principal	Interest
2023	\$ 16,945,000	4,289,494
2024	17,425,000	4,104,793
2025	8,685,000	3,900,921
2026	3,000,000	3,786,279
2027	3,000,000	3,741,279
2028-32	25,145,000	17,580,795
2033-37	53,290,000	10,009,367
2038-40	40,565,000	2,153,098
	168,055,000	49,566,026
Unamortized premium	9,744,055	
Per statement of net position	\$ 177,799,055	

9. Full Faith and Credit Bonds 2021 Series

On May 19, 2020, the voters of the Metro region approved Metro's Supportive Housing Services Ballot Measure 26-210, which authorized Metro to impose a business income tax and a personal income tax to fund Supportive Housing Services. Metro council authorized the issuance of revenue bonds to begin implementation of the Supportive Housing Services program prior to receiving expected tax revenues. In February 2021, Metro issued \$27,500,000 of Full Faith and Credit Bonds, Series 2021 to begin implementation of the necessary tax collection infrastructure and administration of the Supportive Housing program.

The bonds are payable from all legally available taxes and other revenues of Metro. Interest rates on individual bonds was 0.71 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Fiscal year ending June 30:	Principal	Interest
2023	\$ 11,950,000	84,846
Per statement of net position	\$ 11,950,000	84,846

Business-type Activities

10. Full Faith and Credit Refunding Bonds 2016 Series

In prior years, Metro issued \$7,385,000 of Full Faith and Credit Refunding Bonds, Series 2016 to refund all callable outstanding series 2006 Series Oregon Local Governments Full Faith and Credit Bonds. The defeased bonds have been called and paid and the escrow account for the defeasance is closed.

The bonds are payable from all legally available taxes and other revenues of Metro. Interest rates on individual bonds range from 1.5 percent to 5.0 percent.

Bond principal and interest outstanding at June 30 and the corresponding maturities are:

Governmental activities					
Long-term liabilities	<u>\$ 1,119,576,049</u>	<u>12,960,282</u>	<u>(101,677,584)</u>	<u>1,030,858,747</u>	<u>69,453,122</u>
Business-type activities:					
Leases payable					
Bonds payable:					
Full faith and credit bonds	\$ 3,840,000	-	(920,000)	2,920,000	950,000
Less unamortized amounts:					
For premium or discount	318,134	-	(93,112)	225,022	-
Total bonds payable	4,158,134	-	(1,013,112)	3,145,022	950,000
Leases payable	16,260,203	1,069,659	(682,228)	16,647,634	701,377
Post-closure costs payable	2,976,870	-	(80,238)	2,896,632	682,128
Pollution remediation obligation	95,000	-	-	95,000	-
Net other postemployment benefits	2,155,445	-	(845,111)	1,310,334	-
Compensated absences	4,259,059	3,886,239	(4,259,059)	3,886,239	3,826,254
Net pension liability	65,565,162	-	(29,131,623)	36,433,539	-
Business-type activities					
Long-term liabilities	<u>\$ 95,469,873</u>	<u>4,955,898</u>	<u>(36,011,371)</u>	<u>64,414,400</u>	<u>6,159,759</u>

The internal service fund predominantly serves the governmental funds. Accordingly, long-term liabilities for it are included as part of the above totals for governmental activities. For governmental activities, compensated absences and net pension liabilities are generally liquidated by the General Fund and the Natural Areas Fund, and net other postemployment benefits are charged to the General Fund.

In 1984, Metro entered into a lease-leaseback transaction for theater land. In a lease-leaseback transaction, each party is a lessor and a lessee. Since each portion of the transaction is with the same counterparty, a right

of offset exists. The lease-leaseback is presented net on the Statement of Net Position in accordance with GASB Statement No. 87, Leases. As such, the Changes in Long-Term Liabilities footnote total for business-type activities is \$1,182,329 higher than the face of the financials. The difference is comprised of the June 30, 2022 balance in lease receivable related to the leaseback, which is netted with lease payable on the Statement of Net Position.

Additional note disclosure of the gross amounts of the lease and leaseback provide essential information about the magnitude of each portion of the transaction. See Note J.

M. POST-CLOSURE COST PAYABLE

The St. Johns Landfill was closed for operations in a prior year. Closure and post-closure care costs were originally recognized while the St. Johns Landfill was still in operation based on the then current estimate of total costs to complete such efforts, regardless of when cash disbursements were to be made. Such costs include methane gas and leachate collection systems, final cover, seeding, roads, drainage, ground water monitoring wells, liner systems, storm water management and operations and maintenance costs. State and federal laws and regulations require Metro to perform certain post-closure maintenance and monitoring functions for thirty years after closure. At June 30, 2022, there were 4 years remaining until the post-closure care requirement is completed in fiscal year 2026.

The total post-closure cost of the St. Johns Landfill as of June 30, 2022 is estimated to be \$50,951,827 under current Federal and state regulations, an increase of \$566,447 in the current fiscal year in the estimated total liability. Actual cost may vary due to inflation or deflation, changes in technology, or changes in regulations. During the fiscal year, Metro paid \$646,684 in closure costs as the closure process continued (\$48,055,197 cumulative to date); reducing the remaining estimated liability to \$2,896,632 at June 30, 2022.

Metro is required by state and federal laws and regulations to provide financial assurance for the coverage of these overall post-closure care estimated costs. Metro is currently providing this financial assurance through an Alternative Financial Assurance Mechanism which has been approved by the Oregon Department of Environmental Quality (DEQ) and consists of its Solid Waste Fund, a post-closure funding guarantee of future revenues to cover these costs and a Landfill Post-Closure Account. Metro is required to submit annual re-certifications of this mechanism and Metro is currently awaiting DEQ approval for this year's annual recertification.

N. POLLUTION REMEDIATION OBLIGATION

Metro follows the requirements of GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* to account for its pollution remediation liabilities. Various Metro properties have pollution remediation obligations where obligating events have occurred and amounts are estimable using the expected cash flows technique.

Governmental Activities

Estimable pollution remediation obligations are present at what is referred to as the Texaco site on McLoughlin Boulevard in Milwaukie, Oregon. DEQ includes this site in the Underground Storage Tank (UST) Cleanup program and the incomplete nature of cleanup activities by the prior owners constitutes an obligating event. Metro entered into a Prospective Purchaser Agreement (PPA) with DEQ which called for the decommissioning of USTs and remediation of soil contamination exceeding DEQ tolerances. Initial remediation work, including UST removal has been completed. Some shallow soil contamination remains. A cost estimate was developed for remaining DEQ oversight costs and cleanup of the remaining soil contamination during future site development work, as notified by DEQ in 2006. The estimated pollution remediation obligation for this site is estimated to be \$2,500, reflected in governmental activities on the government-wide statement of net position.

Other Metro properties fall within the Initial Study Area of the Portland Harbor Superfund site adjacent to the Portland Harbor. The area has been under investigation by the Lower Willamette Group (LWG) under a 2001 Environmental Protection Agency (EPA) Administrative Order on Consent. For the entire Portland Harbor Superfund site, the LWG has been conducting a remedial investigation in the Willamette River (in water) since 2001 with oversight from EPA. EPA issued a Record of Decision outlining the Selected Remedy in January 2017, which includes dredging, capping, and enhanced natural recovery, estimated to take 13 years to complete. Costs associated with investigations and studies as they pertain to Metro properties and the allocation of such costs among potentially responsible parties (PRPs) are still being determined. The PRPs have engaged an allocator to develop a method for allocation of costs associated with the remedial investigation and feasibility study. Based upon the uncertainty of the Portland Harbor Superfund site remediation and allocation approach, pollution remediation obligations for the in-water remedy at Willamette Cove are not considered estimable. For the upland portion of the site, Metro's current share of the pollution remediation obligation is estimated to be \$9,445,000, an increase of \$8,176,198 in the current fiscal year in the estimated total liability, including the added costs of the contingency remedy committed to by Metro Council during July 2022. During the fiscal year, Metro paid \$404,558 in remediation costs toward this liability. The remaining liability of \$9,040,442 is reflected in governmental activities on the government-wide statement of net position.

Business-type Activities

At the St. Johns Landfill, work associated with pollution remediation for sediment located adjacent to the landfill levees and potentially shallow groundwater includes: completion of a remedial investigation (RI)/feasibility study (FS) and remedial design; remedial action implementation; and remedial action performance monitoring. The work associated with the RI has been completed and the final RI report has been accepted by DEQ. The work associated with the FS component was completed during fiscal year 2013. DEQ signed and issued a Record of Decision on July 9, 2014, which includes DEQ's selected remedial action. Work going forward is based on the Draft Remedial Action Work Plan (RAWP) for implementation of the preferred alternative which calls for activated carbon pellets to be spread across the sediment surface in the risk-based areas. Metro has elected to expand the treatment area to provide greater coverage of the Westside Mud Flat to reduce uncertainty. Metro received DEQ approval and certification of these results at June 30, 2022. There is no liability related to this site recorded as of June 30, 2022.

For Metro Central Station, Metro received a request from the EPA and recommendation from DEQ to perform an expanded Preliminary Assessment. Metro then entered into an agreement with DEQ regarding the source control evaluation for the property. Metro has contracted with AECOM to update the station's stormwater treatment system to satisfy Tier 2 correction actions related to the DEQ's recommendation. Site improvements have been completed and Metro is awaiting DEQ approval and certification of these results at June 30, 2022. There is no liability related to this site recorded as of June 30, 2022.

Current information on estimable pollution remediation obligations at Expo, which is adjacent to a designated Superfund site, is limited. Therefore, the cost associated with work beyond the initial preliminary study is not yet estimable. The pollution remediation obligation estimate for the DEQ recommended preliminary assessment, which is recorded in the MERC Fund, is \$95,000.

The total pollution remediation obligation on the government-wide statement of net position for governmental activities is \$9,042,942 and for business-type activities \$95,000.

Notes to the Financial Statements

For the fiscal year ended June 30, 2022

O. FUND BALANCE CLASSIFICATIONS

Fund balance classifications as presented on the governmental funds balance sheet are further detailed below:

						Major Capital Projects Funds

P. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivables and payables are detailed in the table below.

<i>Receivable Fund/Entity</i>	<i>Payable Fund/Entity</i>
	<i>Internal balances</i>
	(to reflect the consolidation of internal service fund activities) Business-type activities
Internal balances (to reflect the consolidation of internal service fund activities)	
Governmental activities	(3,696,327)
Reconciliation to government-wide statements:	
Internal balances per the government-wide statement of net position	(\$ 3,696,327)

Note that amounts shown between Solid Waste and Oregon Zoo net within business-type activities in internal balances

Interfund transfers for the fiscal year by fund were:

<i>Transfers out</i>	<i>Transfers in</i>					<i>Total</i>
	<i>General</i>	<i>Parks and Nature Operating</i>	<i>Solid Waste</i>	<i>Oregon Zoo</i>	<i>MERC</i>	
General	\$ -	2,155,939	113,089	15,268,229	722,497	18,259,754
Parks and Nature Operating	700,587	-	-	-	-	700,587
Affordable Housing	19,682	-	-	-	-	19,682
Supportive Housing Services	12,048,179	-	-	-	-	12,048,179
Natural Areas	6,998	-	-	-	-	6,998
Parks and Nature Bond	89,357	180,900	-	-	-	270,257
Cemetery Perpetual Care	61,485	-	-	-	-	61,485
Solid Waste	647,120	-	-	-	-	647,120
Oregon Zoo	339,300	-	-	-	-	339,300
MERC	322,010	-	-	-	-	322,010
Risk Management	326,296	-	-	-	-	326,296
Total	\$ 14,561,014	2,336,839	113,089	15,268,229	722,497	33,001,668

The transfers detailed above are transfers of resources from one fund to another that are not based upon a cost allocation plan or any expectation of a payment for services provided, but rather to provide resources for other uses.

Q. TAX ABATEMENTS

Metro has not entered into any tax abatement programs. However, Metro is subject to tax abatements granted by the three counties in which Metro operates. Metro's abated property taxes total \$9,149,920 for fiscal year 2022. The following two tax abatement programs account for 96 percent of the abated property taxes:

Strategic Investment Program

The Strategic Investment Program (SIP) was adopted by the Oregon legislature in 1993 under ORS 285C.600. The purpose of this program is to attract and keep companies that provide good jobs in Oregon, particularly capital-intensive, high-technology employers. It allows "traded-sector" businesses, such as manufacturing firms,

and local governments to negotiate alternative property tax agreements if these businesses are willing to invest at least \$100 million at an urban site or at least \$25 million at a rural location in Oregon. “Traded sector” is defined in Oregon law as “industries in which member firms sell their goods or services into markets for which national and international competition exists.” The project must either receive local approval through a custom agreement with the county/city or be located in a pre-established “Strategic Investment Zone.”

SIP allows for tax exemptions on project property for fifteen years. In exchange for receiving a property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor (Washington County).

Oregon Enterprise Zone

The Enterprise Zone program (E-Zone) was adopted by the Oregon legislature under ORS 285C.175. The purpose of this program is to encourage business investment through property tax relief, in specific areas of the state. In exchange for locating or expanding into an Enterprise Zone, eligible (generally non-retail) businesses receive total exemption from the property taxes normally assessed on new plant and equipment. Subject to local authorization, timely filings and criteria the benefits include:

- Construction-in-Process Enterprise Zone Exemption-For up to two years before qualified property is placed in service, it can be exempt from local taxes, which can cover more property than the regular exemption for commercial facilities under construction.
- Three to five consecutive years of full relief from property taxes on qualified property, after it is in service.
- Depending on the zone, local incentives also may be available.

Metro’s property tax abatements under these programs for the fiscal year ended June 30, 2022 were:

Tax Abatement Program	Amount of Taxes Abated
SIP	\$ 7,811,000
E-Zone	975,365
Subtotal major abatement program	8,786,365
Other immaterial abatement programs	363,555
Total	\$ 9,149,920

R. INSURED RISKS

Metro is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Metro has established a Risk Management Fund (an internal service fund) to account for risk management activities, including payment of insurance policy premiums, payment of claims, and to finance its uninsured risks of loss. Under this program, the Risk Management Fund provides risk of loss coverage as follows:

- General liability, bodily injury to or property damage of third parties resulting from the negligence of Metro or its employees and errors and omissions risks: these risks are fully covered by the Risk Management Fund. Metro is protected by ORS Chapter 30, the Oregon Tort Claims Act, which contains statutory claim limits of \$782,600 for a single claimant and \$1,565,100 per multiple claimants. These statutory limits are indexed and change every year on July 1. Metro carries an excess liability policy of \$10 million, with a \$1 million deductible, which is intended to insure possible liability outside the Oregon Tort Claims Act.

- Property damage to Metro owned facilities: this risk is covered with a commercial property insurance policy. The property policy insures \$950,423,604 of property values with a \$500,000,000 limit blanket policy and a \$500,000 deductible.
- Workers' compensation, bodily injury or illness to an employee while in the course of employment: this risk is covered through a guaranteed cost program from SAIF Corporation, a commercial carrier, in amounts that meet statutory requirements.

Metro has not experienced settlements in excess of insurance coverage in any of the last three fiscal years. An independent actuary prepared an actuarial valuation and estimate of liabilities for unpaid claims as of June 30, 2022. Claims liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and social factors. Metro also monitors risk activity to ensure that proper reserves are maintained. All operating funds of Metro participate in the program and make payments to the Risk Management Fund based upon actuarial estimates of the amounts needed to pay prior and current year claims and to establish sufficient reserves.

The estimated claims liability of \$637,000 reported as accrued self-insurance claims in the Risk Management Fund at June 30, 2022 was established in accordance with the requirements of GASB Statement No. 30, Risk Financing Omnibus, which requires that a liability for total estimated claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. A portion of the loss reserves have been discounted, using an assumed average investment rate of 1.025 percent in preparing the estimates. Metro does not purchase annuity contracts from commercial insurers to pay any aggregate amount of outstanding claims liabilities.

Changes in Risk Management Fund claims liability for the previous and current fiscal year were:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	End of Fiscal Year Liability
2020-21	\$ 466,000	494,000	190,000	770,000
2021-22	770,000	368,000	501,000	637,000

5. CONTINGENT LIABILITIES

1. Reviews by Grantor Agencies

Grant costs are subject to review by the grantor agencies. Any costs disallowed as the result of the review would be borne by Metro and may require the return of such amount to the grantor agency. Should costs be disallowed on a grant for which Metro acts in a pass-through capacity, Metro should be able to require repayment of amounts disallowed from the subgrantees.

2. Legal Matters

Metro is involved as a defendant in several claims and disputes that are normal to Metro's activities. Management intends to vigorously contest these matters and does not believe their ultimate resolution will have a material effect upon its financial position or operations.

METRO
Notes to Required Supplementary Information
For the fiscal year ended June 30, 2022

BUDGETARY INFORMATION**1. BUDGETS**

A budget is prepared for each fund in accordance with the modified accrual basis of accounting and legal requirements set forth in the Oregon Local Budget Law. This basis differs from GAAP. The Council adopts the original budget for all funds by ordinance prior to the beginning of Metro's fiscal year. The ordinance authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. The legal level of control for each fund is set by department, with separate designations within the fund for the categories of debt service, interfund transfers and contingency.

The General Revenue Bond Fund is a budgetary fund comprised of three components that are separated and combined with other budgetary funds for reporting under GAAP. The General Asset Management Fund is a budgetary fund that is combined with the General Fund for reporting under GAAP. The Oregon Zoo Asset Management Fund is a budgetary fund that is combined with the Oregon Zoo Operating Fund for reporting under GAAP.

The detail budget document is required to contain more specific, detailed information about the aforementioned expenditure categories. Appropriations that have not been expended at year end lapse and subsequent actual expenditures are charged against ensuing year appropriations. Encumbrances are recorded in Metro's internal accounting records for management reporting and control. Encumbrances are closed at June 30 and re-established in the ensuing fiscal year against appropriations for that year.

Unexpected additional resources and budget revisions may be added to the budget through the use of a supplemental budget or by an ordinance passed by the Council amending the budget. A supplemental budget requires hearings before the public, publication in newspapers and approval by the Council. Original, amended and supplemental budgets may be modified by the use of appropriation transfers between the levels of control, with approval of the Council. Management may amend the budget within the appropriated levels of control without Council approval.

2. RECONCILIATION OF BASIS OF BUDGETING TO GAAP BASIS

Oregon Local Budget Law, as adopted by Metro, requires accounting for certain transactions to be on a basis other than GAAP. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis of Budgeting) for each fund as presented in supplementary information is presented on the basis of budgeting and is adjusted to the GAAP basis for presentation in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds. The accounting for the reclassification of interfund transfers as operating transactions causes no difference between the excess of revenues and other sources over expenditures and other uses on the basis of budgeting and such amounts on a GAAP basis. Other reconciliations as necessary are presented on the face of the budgetary schedules.

PENSION PLAN INFORMATION**1. CHANGES IN BENEFIT TERMS**

The 2013 Oregon Legislature made a series of changes to PERS that lowered projected future benefit payments from the System. These changes included reductions to future Cost of Living Adjustments (COLA) made through Senate Bills 822 and 861. Senate Bill 822 also required the contribution rates scheduled to be in effect from July 2013 to June 2015 to be reduced. The Oregon Supreme Court decision in *Moro vs. State of Oregon*, issued on April 30, 2015, reversed a significant portion of the reductions the 2013 Oregon Legislature made to future

System Cost of Living Adjustments (COLA) through Senate Bills 822 and 861. This reversal increased the total pension liability as of June 30, 2015 compared to June 30, 2014 pension liability.

2. CHANGES IN ASSUMPTIONS

The PERS Board adopted assumption changes that were used to measure the June 30, 2016 total pension liability and June 30, 2018 total pension liability. For June 30, 2016, the changes included the lowering of the long-term expected rate of return to 7.50 percent and lowering of the assumed inflation to 2.50 percent. For June 30, 2018, the long-term expected rate of return was lowered to 7.20 percent. For June 30, 2021, the long-term expected rate of return was lowered to 6.90 percent, and the inflation rate was lowered from 2.5 to 2.4 percent. In addition, the healthy mortality assumption was changed to reflect an updated mortality improvement scale for all groups, and assumptions were updated for merit increases, unused sick leave, and vacation pay were updated.

OTHER POSTEMPLOYMENT BENEFITS (OPEB) INFORMATION-OREGON PUBLIC EMPLOYEES' RETIREMENT SYSTEM, RETIREMENT HEALTH INSURANCE ACCOUNT

1. CHANGES IN BENEFIT TERMS

There were no changes of benefit terms between the periods shown in the schedules.

There were no changes in the size or composition of the population covered by the benefit terms.

2. CHANGES IN ASSUMPTIONS

The PERS Board adopted assumption changes that were used to measure the June 30, 2021 total OPEB liability. The changes include the lowering of the long-term expected rate of return from 7.20 to 6.90 percent and the inflation rate from 2.5 to 2.4 percent. In addition, the healthy healthcare participation and healthy mortality assumptions were changed to reflect an updated trends and mortality improvement scale for all groups.

OTHER POSTEMPLOYMENT BENEFITS (OPEB) INFORMATION-IMPLICIT RATE SUBSIDY PLAN

1. CHANGES IN BENEFIT TERMS

There were no changes of benefit terms between the periods shown in the schedules.

There were no changes in the size or composition of the population covered by the benefit terms.

2. CHANGES IN ASSUMPTIONS

In the July 1, 2021 actuarial valuation, the OPEB liability discount rate decreased from 2.21 percent to 2.16 percent for results as of the June 30, 2021 measurement date. In the July 1, 2021 actuarial valuation, future retiree coverage was updated to more closely reflect actual and expected future experience. In the July 1, 2021 actuarial valuation, expected claims and premiums were updated to reflect changes in available benefits and premium levels. Expected retiree and dependent costs were updated to reflect current health care cost guidelines. In the July 1, 2021 actuarial valuation, the Health Care Cost Trend was revised to reflect recent economic conditions. In the July 1, 2021 actuarial valuation, the mortality, retirement and withdrawal rates and general inflation and annual salary increases were updated to reflect assumptions used in the Oregon December 31, 2020 actuarial valuation.

Combining Statements

Special Revenue Funds

Smith and Bybee Wetlands Fund

This fund accounts for development and management of the Smith and Bybee Wetlands Natural Resource Management plan, which calls for Smith and Bybee Wetlands to be managed as environmental and recreational resources for the region. The principal source of revenue is investment income.

Community Enhancement Fund

This fund accounts for special fees collected on solid waste disposal. The funds are used for community enhancement projects in the areas around various solid waste disposal facilities and for administration of the enhancement program.

Capital Projects Fund

Zoo Infrastructure and Animal Welfare Fund

This fund accounts for proceeds of voter-approved general obligation bonds to fund infrastructure and projects related to animal welfare at the Oregon Zoo. The principal source of revenue is investment income.

Permanent Fund

Cemetery Perpetual Care Fund

This fund accounts for amounts provided to build a permanent investment of principal from which the earnings will be used to provide long-term maintenance of pioneer cemeteries under Metro's management. The principal resource is investment earnings.

Budgetary Comparison Schedules

Oregon Administrative Rules 162-010-0050 through 162-010-0330 incorporated in the Minimum Standards for Audits of Oregon Municipal Corporations, as prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, requires an individual schedule of revenues, expenditures, and changes in fund balance, budget and actual be presented for each fund for which a legally adopted budget is required.

In accordance with GASB Statement No. 34, Metro's General Fund and major special revenue funds, the Affordable Housing Fund, Supportive Housing Services Fund, Parks and Nature Operating Fund are presented as required supplementary information. Budgetary comparisons for all other funds are displayed in the following pages.

Statistical Section

Table of Contents

This section of Metro’s annual comprehensive financial report presents detailed data regarding the current and prior fiscal years for assistance in understanding what the information in the financial statements, note disclosures, and required supplementary information says about Metro’s overall financial health.

The information is presented in these categories.

Financial Trends Information

These schedules contain trend information to help the reader understand how Metro’s financial performance and well-being have changed over time..... 153

Revenue Capacity Information

These schedules contain information to help the reader assess the factors affecting Metro’s ability to generate its most significant own-source revenue, solid waste fees. 166

Debt Capacity Information

These schedules present information to help the reader assess the affordability of Metro’s current levels of outstanding debt and Metro’s ability to issue additional debt in the future..... 169

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which Metro’s financial activities take place. 177

Operating Information

These schedules contain information about Metro’s operations and resources to help the reader understand how Metro’s financial information relates to the services Metro provides and the activities it performs..... 180

Additional Information

These schedules present information to meet Metro’s continuing disclosure requirements under The Securities and Exchange Commission’s Rule 15c2-12 pertaining to governmental debt issuers 185

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

(1) Starting in fiscal year 2016, these balances include the result of Metro financing capital assets for the business-type activities through the issuance of general obligation bonds. The amount of long-term debt outstanding on these bonds is reflected as a liability of the governmental activities in which repayment of the bonds occurs, whereas the associated capital assets financed by this debt are reflected with the business-type activities. The primary government totals have been adjusted to match the debt against the assets. These balances increase over time as a result of increases in capital assets, decreases in related long-term debt outstanding, and reductions in the amount of related unspent bond proceeds.

Prior period adjustment/cumulative change in accounting principle	<u>\$ -</u>	<u>-</u>	<u>(8,084,088)</u>

(1) The large change in General government operations governmental activities expense between fiscal years 2017 and 2018 is due to the approximately \$74 million Convention Center Hotel project bond proceeds which were transferred to the developer of the project in fiscal year 2018.

(2) In fiscal year 2016, Metro began reporting the activities of the Zoo in the Oregon Zoo enterprise fund. Prior to this, activities of the Zoo were reported as part of the General Fund, a governmental fund.

(3) Changes in governmental activities operating grants and contribution revenue between fiscal years 2014 and 2015 is due primarily to the receipt in fiscal year 2015 of one-time grants of approximately \$15 million for the Willamette Falls Legacy and Convention Center Hotel projects.

(4) Changes in business-type activities operating grants and unrestricted local government shared revenues between fiscal years 2013 and 2014 is due to a change in classification in fiscal year 2014 of MERC transient lodging taxes received from Multnomah County.

(1) Changes in Restricted fund balance of all other governmental funds between 2017 and 2018, and between 2018 and 2019 is due primarily to the issuance of bonds in 2018 and 2019; subsequent years changes are primarily due to the spend down of the proceeds.

(2) Changes in Nonspendable fund balance of all other governmental funds between 2019 and 2020, and between 2021 and 2022 is due primarily to advance payments made within the Affordable Housing and Supportive Housing programs.

(1) Waste generated in the Metro region and delivered to solid waste facilities for disposal. The figures represent tons of solid waste from which Metro derives revenue.

(2) "Waste" is mixed solid waste on which Metro levies a Public Goods Charge that generates revenue for the Solid Waste Fund and pays for solid waste programs, and on which an Excise Tax that generates revenue for the General Fund is levied. Waste delivered to Metro's own transfer stations also incurs a user charge that is deposited in the Solid Waste Revenue Fund to pay for station operation, transport, and disposal.

(3) "Organic" is source-separated wood waste, yard debris and compostable food wastes delivered to Metro's own transfer stations. Metro levies a user charge and host fee only on the food waste portion of this group of wastes.

(4) "ECU" or "Environmental Clean-Up" material is soil and cleanup media contaminated by hazardous substances (though not itself a hazardous waste), including petroleum contaminated soils. Metro levies a reduced-rate Public Goods Charge and Excise Tax only on ECU.

			(2)	(3)		(4)	(5)	(6)	(7)	(8)

(1) In fiscal year 2016, Metro began reporting the activities of the Zoo in the Oregon Zoo enterprise fund. Prior to this, activities of the Zoo were reported as part of the General Fund, a governmental fund.

(2) Increase over previous fiscal year is due primarily to first time tracking of part-time personnel and the conversion of temporary to permanent positions. Increased service also led to the addition of staff.

(3) Increase over previous fiscal year is due to conversion of temporary to permanent positions. Increased service demands at the venues and in parks management also led to the addition of staff.

(4) Increase over previous fiscal year is primarily due to an increase in service demand for visitor venues, central services, solid waste operations and parks management.

(5) Increase over previous fiscal year is due to planning staff needed for the Affordable Housing Bond projects, increase in service demand for solid waste operations, and MetroPaint staff converted from contracted to permanent positions.

(6) General Fund increases are primarily due to new Parks and Nature Bond passing.

(7) There were four major changes that influenced FTE as follows:

a. COVID impacted the organization and nearly every department had to make personnel reductions, eliminate vacant FTE, or opt to share single FTE's. Additionally, COVID had a substantial impact on visit venues, specifically the Zoo.

b. Parks and Nature issued a new bond and brought on numerous new positions to perform the work associate with the bond.

c. The Supportive Housing Services measure passed and Planning and Development hired new staff to perform this work.

d. Capital Asset Management was stood up as an independent department within Metro. This was done without hiring new staff explicitly for this department which led to interdepartmental transfers between Council Offices, Waste Prevention & Environmental Services, and Parks & Nature.

(8) Increase over previous fiscal year is primarily due to adding back COVID staffing cuts, increases in staffing levels to support housing programs, and transitioning some contracted labor to Metro FTE.

(1) Regional recovery rate is calculated by taking total waste generated in the region divided by amount recycled plus DEQ credits up to 6% for waste prevention, reuse, and home composting. 2016 rate reflects DEQ no longer adding the 6% in recovery credits.

(2) In fiscal year 2016, Metro began reporting the activities of the Zoo in the Oregon Zoo enterprise fund. Prior to this, activities of the Zoo were reported as part of the General Fund, in governmental activities.

(3) Was renamed from Portland Center for the Performing Arts in 2014.

(4) In November 2018, the Recycling Information updated the phone system moving from a Cisco-VOIP system supported by Metro's information services department to a cloud-based hosted service (aka interaction routing strategy) managed by CenturyLink. The data tracking for the year was split between the two systems and tracked similarly with some differences.

(5) PaintCare revenues derived from a project for the management of post-consumer paint.

(6) Car counter was not in place at Blue Lake from January 2015 thru June 2015 due to new entry construction.

(7) The Metro Youth Education team adapted to distance learning by continuing to reach youth virtually over the 2020-21 school year.

(8) Oregon Convention Center and Portland's had no activity to report for fiscal year 2021 as the venues were shuttered due to COVID.

Source: Various Metro departments. Data reflects revisions to previous years and therefore may not match previously published reports.

Audit Comments and Disclosures

Introduction

AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE AND FEDERAL REGULATIONS

Oregon Administrative Rules 162-010-0000 through 162-010-0330 incorporated in the Minimum Standards for Audits of Oregon Municipal Corporations, as prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments and disclosures required in audit reports. The required financial statements and schedules are set forth in the preceding sections of this report.

Metro is the recipient of Federal Grant Awards and requires an audit subject to the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). As a result, Metro's audit is also required to be performed in compliance with Generally Accepted Government Audit Standards.

Comments and disclosures required by the above rules and regulations are set forth on the following pages.

Report of Independent Auditors Required by Oregon State Regulations

The Metro Council and Metro Auditor
Metro

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Metro as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Metro's basic financial statements, and have issued our report thereon dated November 28, 2022. Our report includes a reference to other auditors who audited the financial statements of The Oregon Zoo Foundation, a discretely presented component unit, as described in our report on Metro's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Compliance

As part of obtaining reasonable assurance about whether Metro's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules (OAR) 162-010-0000 to 162-010-0330, of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the financial statements: However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to, the following:

- Accounting records and internal control
- Public fund deposits
- Indebtedness
- Budget
- Insurance and fidelity bonds
- Programs funded from outside sources
- Highway funds
- Investments
- Public contracts and purchasing

In connection with our testing, nothing came to our attention that caused us to believe Metro was not in substantial compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of ORS as specified in OAR 162-010-0000 through 162-010-0330 of the Minimum Standards for Audits of Oregon Municipal Corporations except as follows. Metro experienced one over-expenditure in one fund which is disclosed in the notes to the financial statements.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Metro's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Metro's internal control. Accordingly, we do not express an opinion on the effectiveness of Metro's internal control.

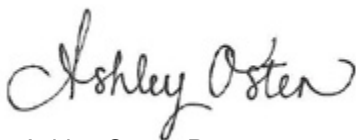

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the Metro Council, Metro Auditor, and management of Metro and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Metro Council and Metro Auditor
Metro

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Metro as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Metro's basic financial statements, and have issued our report thereon dated November 28, 2022. Our report includes a reference to other auditors who audited the financial statements of The Oregon Zoo Foundation, a discretely presented component unit, as described in our report on Metro's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Metro's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Metro's internal control. Accordingly, we do not express an opinion on the effectiveness of Metro's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Metro's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

The Metro Council and Metro Auditor
Metro

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Metro's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Metro's major federal programs for the year ended June 30, 2022. Metro's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Metro complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Metro and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Metro's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Metro's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Metro's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Metro's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Metro's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Metro's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Metro's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

METRO
Notes to Schedule of Expenditures of Federal Awards
For the fiscal year ended June 30, 2022

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes all federal grant activity of Metro, under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because this Schedule presents only a selected portion of the operations of Metro, it is not intended to and does not present the financial position, changes in net position or cash flows of Metro.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in note II.C to Metro's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenses are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where applicable. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – ELECTION OF DE MINIMIS INDIRECT RATE

During the current year ended June 30, 2022, Metro did not elect to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4 – SHUTTERED VENUE OPERATORS GRANTS (SVOG)

Metro received SVOG funding from the Small Business Admission during the year ended June 30, 2022; however, in accordance with the 2022 OMB Compliance Supplement, issued in April 2022, Metro was able to include expenditures in the Schedule for which did not occur during the year ended June 30, 2022. A portion of expenditures reported in the Schedule are for expenditures that occurred prior to the year ended June 30, 2022 totaling \$14,157,235.

Metro
Schedule of Findings and Questioned Costs
For the Year Ended June 30, 2022

Section I – Summary of Auditor's Results

Financial Statements

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified? ☐ Yes ☒ No
- Significant deficiency(ies) identified? ☐ Yes ☒ None reported

Noncompliance material to financial statements noted? ☐ Yes ☒ No

Federal Awards

Internal control over major federal programs:

- Material weakness(es) identified? ☐ Yes ☒ No
- Significant deficiency(ies) identified? ☐ Yes ☒ None reported

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? ☐ Yes ☒ No
