Deputy Council President Lewis called on Alex Oreschak, Metro, Megan Neil, Multnomah County, Taylor Steenblock, Multnomah County to present to Council.

Staff pulled up the Earthquake Ready Burnside Bridge Project to present to Council.

Summary of the presentation: The bridge is an important route for emergency responders to take in case of a

disaster, & for people to take in case of emergency. The Burnside Bridge is chosen for that reason and since there is no other resilient bridge in the region that serves as an emergency route. The bridge is also 100 years old, so the bridge is needing funding to rebuild the structure & to add bike lanes plus more lanes.

Council Discussion:

Councilor Rosenthal asked if the bridge is seismically resilient, are the bicycle lanes can be converted into emergency lane responses?

Taylor Steenblock answered the bridge is seismically resilient however to achieve access to the bridge after a disaster there must be a rebuilding of the area that may take a month. & that the bike paths designs are still not implemented so she cannot provide an answer.

Councilor Hwang asked if the funding was a federal grant

Taylor Steenblock said that there was a few funds the federal government renewed.

Councilor Simpson asked if there is any talks about continuity with DTOT and if the community is involved.

Taylor Steenblock explained that they are in conversation with DTOT

Megan Neil answered that they have been working with a group within the community that involves the paths on the bridge and getting feedback on the designs of the use and safety, and the color of the bridge.

Councilor Deputy President Lewis asked when the bridge will be shown again to council

Margi Bradway answered that it will be soon once all necessary steps are taken.

Seeing no further discussion on the topic, Deputy Council President Lewis moved on to the next agenda item.

**A motion was made by Councilor Gonzalez, seconded by Councilor Rosenthal, that this Resolution was adopted..
