Subject: Advancing Powell II and Highway 212 Projects

As we discussed, Powell Phase II and the Highway 212 projects are advancing into right-of-way and construction phases. Pursuant to our discussion, I would appreciate the affirmation of the Metro Transportation Improvement Program authorizations for these phases of work.

It is my understanding that the Banfield Transitway Project conditions in the TIP only apply to additional systems analyses such as the transit station land uses study work currently underway.

Thank you for your assistance.
