Tri-County Council
c/o Dave White
1739 NW 156th Avenue
Beaverton, OR 97006

Dear Mr. White and Council Members:

I am writing to express my thanks for the opportunity to speak with you Monday, July 19, 1999. I appreciate your candor regarding your concerns and recommendations for Metro's solid waste savings.

For your information, the Metro Council will be holding a second public hearing on July 29 concerning the issue. There was a public hearing on July 22 as well, and the council will discuss the solid waste issues and the ideas brought forth so far at their work session today.

I look forward to your continued input regarding this and other regional solid waste, recycling and reuse issues.

Sincerely,

Rod Park
Metro Councilor
District 1

Chris,

Please write a thank you letter for me for a visit I had with the Tri-County Council on Monday afternoon care of Dave White. The usual stuff plus a thank you for their input into what to do with the savings. Looking forward for further input and ideas, etc. Appreciate their candor, etc.

Thanks, Rod

Dr. Joel Vela
President
Mt. Hood Community College
26000 SE Stark Street
Gresham, Oregon 97030-3300

Dear Dr. Vela:

Thank you for taking the time and sharing your recycling program with me yesterday. It was very impressive to see how with a little forethought, so much waste could be recycled. The return of 6 to 7 tons of paper per month to the system instead of the garbage heap is indeed an example of that planning.

In walking through the campus, I was impressed with the cleanliness and with the apparent and plentiful blue recycling containers through out. Much has changed since I attended MHCC in the seventies. We had our "Earth Days" and a heightened awareness of the environment but no real action. I can see that it just took time to translate that awareness to action.

Congratulations again on an excellent program and keep up the good work.

Sincerely,

Rod Park
