Exhibit A July #1 FFY 2024 Formal/Full MTIP Amendment Summary Formal Amendment #: JL24-10-JUL1

The July #1 Federal Fiscal Year 2024 MTIP Formal Amendment represents the regular bundle of projects being amended or added to the 2024-27 MTIP to meet various federal delivery process approval requirements. The amendment bundle contains eight projects. Several of the required project changes continue the ODOT STIP rebalancing effort which is examining ways to save on project costs and diminish the impact of an existing funding shortfall. A summary of the eight seven projects includes the following:

1. Projects Being Ccanceled from the 2024-27 MTIP and STIP:

• Key 23410 - I-84: NE Martin Luther King Jr Blvd - I-205 (ODOT): As part the STIP rebalancing actions to address an existing ODOT funding shortfall, Key 23419 is being canceled. The project current contains only the Preliminary Engineering phase programmed and is intended to design for pavement resurfacing to repair ruts and surface wear.

2. New Projects Being Added to the 2024-27 MTIP and STIP:

- New Project Key 23676 Metro Transportation Options FFY25 FFY27 (Metro): Metro is receiving its regular three-year funding allocation from ODOT supporting the Regional Travel Options (RTO) program. The funding supplements the existing RTO program funding approved in the Metro Unified Planning Work Program (UPWP). The RTO program creates safe, vibrant and livable communities by providing grants and supporting efforts that increase walking, biking, ride sharing, telecommuting and public transit use.
- New Project Key 23671 Portland Metro & Surrounding Areas Signing (ODOT): The formal amendment adds the new safety project to the MTIP which will provide various signing upgrades on Region 1 corridors for safety and maintenance improvements. Specific locations are to be determined.
- New Project Key 23658 Tualatin River Water Trail Access Enhancements (Tualatin Riverkeepers): The project was awarded Recreational Trail Program (RTP) funds from the Oregon Parks and Recreations Department and will provide various access improvements to the Tualatin Water Trail

- 3. Existing Projects Being Amended as Part of the July #1 Regular Formal Amendment Bundle:
 - <u>Project Key 22613 Portland Metro and Surrounding Areas Safety Reserve (ODOT):</u> Combining funds into Key 23671as noted previously enabling Key 23671 to be added to the MTIP with full required funding.
 - <u>Project Key 21709 OR120: Columbia Slough Bridge (ODOT):</u> The formal amendment updates the prior obligated Planning phase, decreases the PE phase, and primarily adds the required funding to the construction phase.

7/2/2024 Update: Per ODOT's request, Key 21709 has been removed from the amendment bundle. The construction phase will not be added to the project at this time. This decreases the July #1 202 MTIP Formal Amendment bundle from 8 to seven projects. The removal is considered part of the public notification process for the amendment.

- Project Key 22431 OR141/OR217 Curb Ramps (ODOT): The MTIP formal amendment corrects a programming discrepancy between the MTIP and STIP (corrects and updates the per phase obligations) and adds funding to the construction phase to address a funding shortfall.
- <u>Project Key 21178 US26 (Powell Blvd): SE 99th Ave East City Limits (ODOT):</u> The formal amendment updates the funding levels in PE and ROW, plus adds new funds to support the construction phase.

The Exhibit A Tables that follow on the next pages contain the specific project changes for the fives in the July #2 Formal MTIP Amendment Bundle., See the Exhibit A/MTIP Worksheets for the detailed changes and consistency review areas. Additionally, the Portland Broadway Main Street and Supporting Connections project is being included for information and processing consistency purposes.

Summary of Amendment Changes Occurring:

The MTIP formal amendment corrects a programming discrepancy between the MTIP and STIP (corrects and updates the per phase obligations) and adds funding to the construction phase to address a funding shortfall. The net cost change to the project results in an increase of almost 40% which well above the 20% administrative cost change threshold. This triggers the need to complete the cost changes as a formal/full amendment. The cost increase results from a ADA curb upgrade from 96 to 115 now as well as inflation impacts tot he project.

OR 141 (SW Hall Boulevard) and SW 72nd Avenue Curb Ramps Project Fall 2023

Overview

We are bringing sidewalk curb ramps into compliance with Americans with Disabilities Act (ADA) accessibility standards on highways throughout Oregon including OR 141 (SW Hall Boulevard) and 72nd Avenue. These upgrades create safer and more accessible highway connections for all sidewalk users.

We will upgrade over 120 sidewalk curb ramps at approximately 90 intersections in Tigard along SW Hall Boulevard between Oregon 99W and Durham Road, and on SW 72nd Avenue between Gonzaga Street and Varns Street, making them ADA compliant. Work includes:

Upgrading existing ADA curb ramps

 This improvement will allow all users, including people in wheelchairs and using mobility aids, to make a smooth transition from the street to the sidewalk.

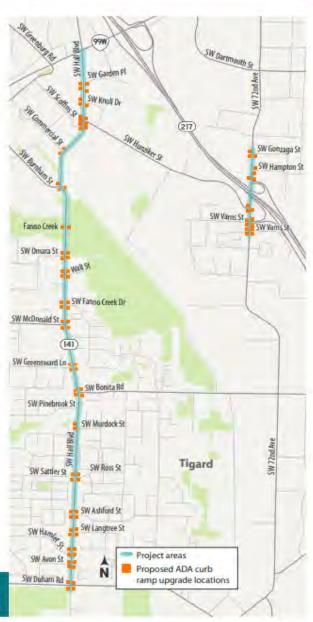

Lowering crosswalk buttons and installing audible pedestrian signals

 These upgrades help all pedestrians cross the street safely by accessing the crosswalk button at signalized intersections and providing an audible cue for the crosswalk signal.

Restriping and realigning crosswalks

 These upgrades will improve visibility and create a direct path from curb-tocurb, increasing pedestrian safety while crossing the street.

The project is currently in design and is scheduled to start construction in 2025.

Summary of Amendment Changes Occurring:

The MTIP formal amendment updates the funding levels in PE and ROW, plus adds new funds to support the construction phase. Construction is now in FFY 2025. As a result the total project cost increases to \$158 million from 119 million which equals a 33% cost increase and is above the 20% threshold for administrative cost changes. The construction phase cost increase is cited as inflationary impacts to the project.

	Fund Codes References
Local	General Local funds committed by the lead agency that normally cover the minimum match requirement to the federal funds
Advance	A funding placeholder tool. This fund management tool allows agencies to incur costs on a project and submit the full or partial amount later for
Construction	Federal reimbursement if the project is approved for funding. Advance construction can be used to fund emergency relief efforts and for any project
ADVCON	listed in the STIP, including surface transportation, interstate, bridge, and safety projects. The use of Advance Construction is normally only by the state
(AC funds)	DOT to help leverage their funding resources and keep projects on their respective delivery schedules.
AC-HB2017	Advance Construction with the anticipation that the final conversion code could be HB2017. In this case, the commitment of another type of federal funds is also still possible. This is why the Advance Construction funds are programmed as federal funds.
ACS-HB2017	Advance construction funds which are expected to convert to state HB2017. In this case, the funds are programmed then as state funds.
ADVCON (no designation)	Advance construction funds without a conversion fund code designation. This is generic advance Construction with the expected conversion code not yet finalized for the project.
HB2017	State funds that originate from HB2017which are formally committed to the project. HB2017 made a significant investment in transportation to help further the things Oregonians value, such as a vibrant economy with good jobs, choices in transportation, a healthy environment, and safe communities
Other	General local or state funds committed to the project above the minimum match requirement. Also referred to as "overmatching" funds.
NHPP	A federal funding source (FHWA based) appropriated to the State DOT. The purposes of this program are: to provide support for the condition and performance of the National Highway System (NHS); to provide support for the construction of new facilities on the NHS; to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS; and [NEW] to provide support for activities to increase the resiliency of the NHS to mitigate the cost of damages from sea level rise, extreme weather events, flooding, wildfires, or other natural disasters. [§ 11105(1); 23 U.S.C. 119(b)]
State	General state funds use to cover the required minimum match requirement to the federal funds in a specific phase
STBG	Surface Transportation Block Grant funds. A federal funding source (FHWA based) appropriated to the State DOT. The Surface Transportation Block Grant Program (STBG) promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
State STBG	Appropriated STBG that remains under ODOT's management and commitment to eligible projects.

Subject: July #1 FFY 2024 MTIP Formal Amendment & Resolution 24-5426 Approval

Request – JL24-10-JUL1

FORMAL MTIP AMENDMENT STAFF REPORT

Amendment Purpose Statement

FOR THE PURPOSE ADDING, CANCELING, OR AMENDING A TOTAL OF SEVEN PROJECTS TO MEET FEDERAL TRANSPORTATION PROJECT DELIVERY REQUIREMENTS

BACKROUND

What This Is - Amendment Summary:

The July #1 2024 Formal Metropolitan Transportation Improvement Program (MTIP) Formal/Full Amendment is the first of two submitted July 2024 formal amendment bundles. This formal amendment is considered the "regular" monthly MTIP formal amendment. The July #1 Formal Amendment bundle has been separated from the Rose Quarter Improvement Project Formal Amendment bundle in amendment number JL24-11-JUL2 (or the July #2 Rose Quarter formal amendment).

The two July 2024 formal amendment bundles mark the end of MTIP formal amendment submissions for FFY 2024. MTIP and STIP management efforts will now turn to maximizing FFY 2024 phase obligations to ensure both ODOT and Metro meet our minimum obligation targets. The end of the federal year close-out process begins. ODOT and Metro will complete a full review of all projects to confirm they will obligate their phase funding before the end of FFY 2024 or need to be slipped to FFY 2025. Project phase slip actions will occur administratively under FHWA and FTA's oversight. Regular MTIP and STIP formal/full amendments will return in October with the start of FFY 2025.

Adding to the end-of-year close-out review process is ODOT's current STIP rebalancing effort to resolve a significant state funding shortfall. The review actions began last May to first identify projects that can be delayed and slipped to FFY 2025 or later. The next step involves a triage action to leverage and maximize the use of existing funds. This involves determining projects will be canceled from the current STIP and reprogram their funds to other projects to ensure they can move forward. The July #1 2024 Regular Formal MTIP Amendment bundle contains a few results of the rebalancing projects. The impacts and required amendments to the MTIP and STIP will continue for several months.

JULY #1 FFY 2024 FORMAL MTIP AMENDMENT

FROM: KEN LOBECK DATE: JULY 15, 2024

TPAC July 12, 2024 Meeting Summary Notes:

TPAC met on July 12, 2024. Ken Lobeck, Metro staff provided TPAC members with their amendment notification and overview of the included projects in the July #1 2024 MTIP Formal Amendment bundle. A question arose from a TPAC member about the intended locations for new ODOT Portland Metro and Surrounding Areas Signing project in Key 23671. Ken explained that as far as he understood that specific project locations had not yet been determined. The project was being added to the MTIP as a region-wide project grouping bucket (PGB) with specific locations for the safety warning signs to be evaluated. He added that the funding was being shifted from another PGB to formalize the funding commitment to the Region 1 warning signs. ODOT will now move forward to identify, evaluate, rank, and list the final site locations.

Since several of the project changes have emerged as a result from the ODOT STIP Rebalancing Review, a few questions arose about the impacts the STIP Rebalancing could have on other ODOT funded projects. Ken Asked TPAC members that if they specific project questions to please contact ODOT directly as for the reasons for the phase delay, fund swaps, or project cancelations in the STIP. He added may of the future changes would be accomplished administratively with a summary included as part of the monthly amendments report to TPAC. With no further questions or discussion, TPAC provided their approval recommendation to JPACT to approve Resolution 24-5426

JPACT July 18, 202 Meeting Summary Notes:

JPACT is scheduled to met on Thursday, July 18, 2024. The July #1 2024 MTIP Formal Amendment will be included on the Consent Calendar. The bundle contains the regular type of needed project changes to meet federal delivery requirements (e.g., cost increases, phase slips, scope updates, adding new projects, etc.). Due to the routine nature of the amendment contents, JPACT approval is expected with little or no discussion. If a project id pulled for at JPACT, a summary will be provided to Metro Council for their review.

July #1 2024 MTIP Formal Amendment Project Contents Summary:

- Key 23410 I-84: NE Martin Luther King Jr Blvd I-205 (ODOT):
 As part the STIP rebalancing actions to address an existing ODOT funding shortfall,
 Key 23419 is being canceled. The project current contains only the Preliminary
 Engineering phase programmed and is intended to design for pavement resurfacing to repair ruts and surface wear.
- New Project Key 23676 Metro Transportation Options FFY25 FFY27 (Metro):

Metro receives a regular three-year federal funding allocation from ODOT supporting the Regional Travel Options (RTO) program. The funding supplements the existing RTO program funding approved in the Metro Unified Planning Work Program (UPWP). The RTO program creates safe, vibrant, and livable communities by providing grants and supporting efforts that increase walking, biking, ride sharing, telecommuting and public transit use. Metro and ODOT will now coordinate the priorities for the use of the allocated funds.

FROM: KEN LOBECK

DATE: JULY 15, 2024

• New Project Key 23671 - Portland Metro & Surrounding Areas Signing (ODOT):

The formal amendment adds the new safety project to the MTIP which will provide various signing upgrades on Region 1 corridors for safety and maintenance improvements. Specific locations are to be determined. This is a regional project grouping bucket (PGB) being added to the MTIP. The \$366,837 committed to the project is being transferred from Key 22613. Key 22613 is non-MPO PGB. No action in the MTIP is required for key 22613.

• New Project Key 23658 - Tualatin River Water Trail Access Enhancements (Tualatin Riverkeepers):

The project was awarded Recreational Trail Program (RTP) funds from the Oregon Parks and Recreations Department and will provide various access improvements to the Tualatin Water Trail. Because the project upgrades are located on the Metro Bicycle and Pedestrian networks, the project becomes regionally significant for performance measures tracking which requires MTIP programing.

• <u>Project Key 22613 - Portland Metro and Surrounding Areas Safety Reserve</u> (ODOT):

The formal amendment combines the project funds into Key 23671 as noted above enabling Key 23671 to be added to the MTIP with full required funding.

Project Key 22431 - OR141/OR217 Curb Ramps (ODOT):

The MTIP formal amendment corrects a programming discrepancy between the MTIP and STIP (corrects and updates the per phase obligations) and adds funding to the construction phase to address a funding shortfall.

• <u>Project Key 21178 - US26 (Powell Blvd): SE 99th Ave - East City Limits (ODOT):</u> The formal amendment updates the funding levels in PE and ROW, plus adds new funds to support the construction phase.

Added note: Per ODOT 's request, Key 21709, OR120: Columbia Slough Bridge (ODOT), has been pulled and removed from the July #1 MTIP Formal Amendment Bundle. The construction phase will not be added to the project at this time. This reduces the July #1 regular MTIP Formal Amendment Bundle under Resolution 24-5426 from eight to seven projects.

What is the requested action?

JPACT approved resolution 24-5426 and now recommends Metro Council provide the final approval enabling all required MTIP programming actions to be completed for the July #1 MTIP Formal Amendment.

A summary of the individual projects follows:

- Key 23410 I-84: NE Martin Luther King Jr Blvd I-205 (ODOT):
 - o Lead Agency: ODOT.
 - o <u>Description</u>: Design for pavement resurfacing to repair ruts and surface wear
 - <u>Funding Summary:</u> The project is currently programmed in FFY 2025 and funded with \$1,725,436 of federal National Highway Performance Program (NHPP) plus match for a total of \$1,871,000 in the Preliminary Engineering (PE) phase.
 - Action: The formal amendment cancels the PE phase and consequently the project from the MTIP and STIP. The action is part of the ODOT STIP rebalancing action. The funds will be re-allocated to other projects across the state.

- New Project Key 23676 Metro Transportation Options FFY25 FFY27 (Metro):
 - o <u>Lead Agency:</u> Metro
 - O Description: ODOT provides Metro with a three-year suballocation in support of the Regional Travel Options (RTO) program that supports the creation of safe, vibrant, and livable communities by providing grants and supporting efforts that increase walking, biking, ride sharing, telecommuting and public transit use. Since Metro has an existing and well-defined program, ODOT provides the suballocation to Metro to complete RTO activities throughout the Metro Metropolitan Planning Area (MPA) boundary. ODOT and Metro coordinate together the specific activities for the RTO program to complete.
 - Funding Summary: The ODOT allocation provides Metro with \$1,312,637 of federal Surface Transportation Block Grant (STBG) and match of \$150,238 for a project total of \$1,462,875.

FROM: KEN LOBECK

DATE: JULY 15, 2024

Three ODOT non-MPO project grouping buckets will commit funding to the Metro RTO allocation as shown below. Added note: The ODOT contribution originates from PGBs outside of the Metro region. ODOT will complete the required adjustments to Keys 21347, 23048, and 23397 in the STIP. No action in the MTIP is required as the three PGBs do not exist in the Metro MTIP.

Source of Funding for Key 23676	State STBG	State Match
\$461,190 from Key 23147	\$413,826	\$47,364
\$ 438,455 from Key 23048	\$393,425	\$45,030
\$563,230 from Key 23397	\$505,386	\$57,844
\$1,462,875 total	\$1,312,637	\$150,238

O Action: The formal amendment adds the new travel options allocation in Key 23676 to the MTIP in FFY 2025. The funding supplements existing approved Metro RTO funding from the Unified Planning Work Program (UPWP) in Key 23215. The new funding also will proceed through the FHWA Financial Management Information System (FMIS) to be obligated and expended.

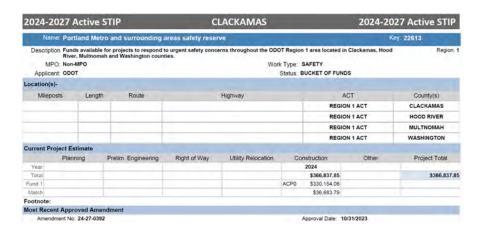

• New Project Key 23671 Portland Metro & Surrounding Areas Signing (ODOT):

- <u>Lead Agency:</u> ODOT.
- <u>Description:</u> Implement various signing upgrades in Region 1 corridors for safety and maintenance improvements. Locations to be determined as needed based on investigations. This will allow for quicker response to safety concerns.
 - Added Note: This is a region-wide project grouping Bucket (PGB) being added to the MTIP. Specific project locations have not yet been identified.
- Funding Summary: The project is being programmed with \$366,837 if state HB2017 funds. The funds are being transferred from Key 22613 (Also part of this amendment bundle. See next project)
- o <u>Action:</u> The formal amendment adds the region-wide PGB to the MTIP.

• Key 22613 - Portland Metro and Surrounding Areas Safety Reserve (ODOT):

- o Lead Agency: ODOT
- Description: A region-wide project grouping bucket (PGB) that makes funds available for projects to respond to urgent safety concerns throughout the ODOT Region 1 area located in Clackamas, Hood River, Multnomah, and Washington counties.

- o <u>Funding Summary:</u> The project is currently has \$366,837 of ODOT committed funds that will be transferred to Key 23671 as noted above.
- Action: The formal amendment transfers the funds to Key 23671 which essentially cancels project Key 22613.

- New Project Key 23658 Tualatin River Water Trail Access Enhancements (Tualatin Riverkeepers):
 - <u>Lead Agency</u>: Tualatin Riverkeepers
 - <u>Description:</u> Access improvements to the Tualatin Water Trail including updated map and river information, signage, personal flotation device (PFD) kiosks, and a boat storage shelter.
 - o <u>Funding Summary:</u> The project was awarded a small Recreational Trails Program (RTP) grant of \$33,660. Along with the required local match, the total project cost estimate is \$61,660.
 - o <u>Action:</u> The formal amendment adds the new project to the MTIP.
 - O Added Note: RTP funded projects often are awarded to recreational type trail improvements. As such, there usually are not considered regionally significant or are located on the Metro Pedestrian and Bicycle networks. The location of this project is on the Metro Pedestrian and Bicycle networks. The project is now required to be included in the MTIP in support of Metro's performance measures.

2023 Recreational Trails Program (RTP) Grants

• Key 22431 - OR141/OR217 Curb Ramps (ODOT):

- Lead Agency: ODOT.
- Description: At various location on OR 141 (Hall Blvd) and SW 72nd Ave in the Tigard area, construct ADA compliant curbs and ramps impacting up to 115 site locations.
- <u>Funding Summary:</u> The project currently is programmed with multiple federal funds for a federal total of \$6,746,150. With match the total existing programing is \$7,518,278. The formal amendment adds State managed Surface Transportation Block Grant (STBG) and Advance Construction funding to the project's PE and Construction phases. This increases the federal contribution to \$9,416,265. Along the required match to the project, the revised project total is \$10,494,000. The increase represents a 39% increase which is above the 20% administrative threshold for cost change.
- Action: The formal amendment adds the STBG and AC funds to PE and construction. The funding shortfall in the construction phase is resolved through the amendment allowing the construction phase to obligate during FFY 2025.

Gonzaga Street and Varns Street, making them ADA compliant. Work includes:

Upgrading existing ADA curb ramps

• This improvement will allow all users, including people in wheelchairs and using mobility aids. to make a smooth transition

and on SW 72nd Avenue between

Lowering crosswalk buttons and installing audible pedestrian signals

from the street to the sidewalk.

 These upgrades help all pedestrians cross the street safely by accessing the crosswalk button at signalized intersections and providing an audible cue for the crosswalk signal.

Restriping and realigning crosswalks

 These upgrades will improve visibility and create a direct path from curb-tocurb, increasing pedestrian safety while crossing the street.

The project is currently in design and is scheduled to start construction in 2025.

- o Lead Agency: ODOT.
- Description: On US26 (Powell Blvd) in SE Portland, widen from three to four lanes (inclusive of a center turn lane) with sidewalks and buffered bike lanes or other enhanced bike facility. Add enhanced pedestrian and bike crossings.
- Funding Summary: The project contains multiple federal and state funds for an existing project total of \$119,378,530. The construction phase currently is programmed with a total of \$73,246,248. The latest cost estimate for the construction totals \$113,088,072. The construction phase requires added funding totaling \$39,841,824. Along with addressing the construction phase funding shortfall, funding updates are required to the PE, ROW, and Other phase to the project. The updates result in a revised total project cost of \$158,786,600. The cost increase represents a 33% increase to the project which is above the 20% threshold for administrative cost changes to projects.

- Action: The formal amendment updates the PE, ROW construction, and other phase with the required additional funds. This will enable the construction to move forward to obligate and be implemented in FFY 2025.

METRO REQUIRED PROJECT AMENDMENT REVIEWS

In accordance with 23 CFR 450.316-328, Metro is responsible for reviewing and ensuring MTIP amendments comply with all federal programming requirements. Each project and their requested changes are evaluated against multiple MTIP programming review factors that originate from 23 CFR 450.316-328. They primarily are designed to ensure the MTIP is fiscally constrained, consistent with the approved RTP, and provides transparency in their updates, changes, and/or implementation. The programming factors include ensuring that the project amendments:

JULY #1 FFY 2024 FORMAL MTIP AMENDMENT

FROM: KEN LOBECK

DATE: JULY 15, 2024

ANALYSIS/INFORMATION

1. **Known Opposition:** None known at this time.

2. Legal Antecedents:

- a. Amends the 2024-27 Metropolitan Transportation Improvement Program adopted by Metro Council Resolution 23-5335 on July 20, 2023 (FOR THE PURPOSE OF ADOPTING THE 2024-2027 METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAM FOR THE PORTLAND METROPOLITAN AREA)
- b. Oregon Governor approval of the 2021-24 MTIP on September 13, 2023.
- c. 2024-2027 Statewide Transportation Improvement Program (STIP) Approval and 2024 Federal Planning Finding on September 25, 2023.
- 3. **Anticipated Effects:** Enables the new projects to be added into the MTIP and STIP. Follow-on fund obligation and expenditure actions can then occur to meet required federal delivery requirements.
- 4. **Metro Budget Impacts:** There is one direct impact to the Metro budget. The Travel Options allocation from ODOT in Key 23676 Metro Transportation Options FFY25 FFY27 provides supplemental funding to the Metro RTO program. This appears to require a minor budget adjustment to the SFY 2025 UPWP. Other than Key 23676, the remaining projects and their funding adjustments do not have an impact to the Metro budget. The identified funding for these projects does not originate from Metro.

RECOMMENDED ACTION:

JPACT approved resolution 24-5426 and now recommends Metro Council provide the final approval enabling all required MTIP programming actions to be completed for the July #1 MTIP Formal Amendment.

Background

The purpose of the *US26 (Powell Blvd): SE 99th Ave - East City Limits* project (K21178) is to make safety improvements to US26 (SE Powell Blvd) that include sidewalks, buffered bike lanes, enhanced pedestrian crossings, and a center turn lane. In 2007, ODOT began collaborating with the residents of East Portland and the city of Portland on how to turn Powell Boulevard into a safe and high-quality corridor to better serve the community with a specific focus on improving conditions for people walking, biking and accessing public transportation. The Oregon legislature provided funding, through House Bill 2017, for ODOT to design and construct the project on SE Powell Blvd from SE 99th Avenue to the east city limits (just past SE 174th). Upon completion of construction, the corridor will be jurisdictionally transferred to the city of Portland.

Throughout the design phase, the design team utilized several tools to continually manage the project costs and find opportunities for cost reductions and project efficiencies including:

- A Value Engineering (VE) Study at the Design Acceptance Package (Dec 2020) This study found cost reductions in stormwater design, set expectations for close coordination with utilities and work zones to minimize risks, and established the need for early procurement packages to reduce schedule risks.
- Constructability Workshop with the Association of General Contractors (AGC) (Jan 2022) between Advance and Final plans Contractors provided valuable information that the team used to assess an alternative traffic control strategy, as well as unit cost info that led to a refined cost estimate.
- Cost Risk Analysis (CRA) at the Advance and Final plans stage (May and Aug 2022) The CRA evaluated and confirmed appropriate market conditions, unit prices, and contingencies; and addressed strategies to mitigate top project risks.
- Variability analysis for unit costs and quantities (each project milestone) This cost estimating tool further refined estimate certainty range.
- **Project Risk Register** (ongoing) This project management tool continually identified and assessed project risks and determined the best risk response strategies to mitigate cost and schedule impacts.
- **Project Financial Plan** (ongoing) established during design in collaboration with Division leadership, the Finance Office and Statewide Project Delivery Branch to identify costs risks and develop long term funding strategies to deliver the project through construction completion.

Even with these measures in place, some cost elements grew beyond what the project team could control and estimated project costs expanded past the available funding. ODOT now seeks to add \$39.8 million to the CN phase to ensure that when the project is bid, there are adequate funds to support the project for the full five-year construction duration. To do so, ODOT is seeking to add \$39.8 million to the construction phase via:

- \$5.5 million from the city of Portland to cover agreed upon improvements on their behalf.
- \$8 million in ADA funding for replacement of over 240 ADA settlement ramps.
- \$25 million from the FFY 2024 Redistribution process to cover the following:

Oregon Transportation Commission Page 3

- o \$15 million: Increased effort to administer a 5-year construction contract. This project originally anticipated a Construction Engineering (CE) budget of 20% of the biddable items. Since the project cost was originally estimated, the biddable item costs and the percentage guidance for CE budgets have both increased. For a project of this complexity (urban arterial, multiple partner agencies, five-year construction duration) the recommended CE percentage is now 30% to 40%. The increased CE estimate is based on lessons learned from recent long-term projects such as OR217 and Abernethy Bridge, and guidance from the statewide construction office.
- \$10 million: Additional funding to cover design, right of way and material costs due to two-year delay associated with resolving contracting methodology and approach. The delay required extensions of temporary ROW easements, additional consultant work to update project plans and specs with updated requirements, and additional ODOT work to review and coordinate additional final design and contracting submittals.
- \$1.3M for Portland Water Bureau and other utility relocation work.

Outcomes:

With approval of the increased project funding, ODOT will proceed to fund, award, and construct US26 (Powell Blvd): SE 99th Ave - East City Limits project as described above.

Without approval, ODOT will not move forward with constructing the entire project alignment in one contract. ODOT will direct the design team to revise the plan set to deliver a segment of the project alignment, from SE 136th to 174th, and to develop a second set of plans for SE 99th to SE 122nd for delivery at a future date, when funding is secured. ODOT will request a STIP amendment at your October 2024 meeting to add funding from the City of Portland and the ADA program and to revise the project limits.

This revised approach will result in the following impacts:

- Additional design costs to divide the project into multiple bid packages.
- Increased total construction cost due to inflation impacts on delayed work.
- Additional costs due to inefficiencies from splitting the project into multiple packages.
- Delayed completion of the city of Portland Water Bureau work on the west segment
- New or amended intergovernmental agreements with our project partners at the city of Portland to split the project, which could further delay both phases.
- Delay of safety improvements for all Outer Powell roadway users.
- Delay of the Jurisdictional Transfer to city of Portland.
