REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Art Center College of Design and Subsidiary

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standard issued by the Comprobler General of the United States, the consolidated financial statements of Art Center College of Design (the "College") and Subsidiary, which comprise the consolidated statement of Art Gental College of Design (the "College") and Subsidiary, which comprise the consolidated statement of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated College 10, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the College's internal control over financial reporting ("internal control") to determine the audit procedures so that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their saigned functions, to prevent or detect and correct, mistatements on a timely basis. A material weekness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material mistatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may sest that have not been identified.

CONSIDERATION OF FRAUD

To identify fraud-related risks of material misstatement, we:

- Brainstorm with team
- Conduct personnel interviews
- Document understanding of internal control
- Consider unusual or unexpected relationships identified in planning and performing the audit

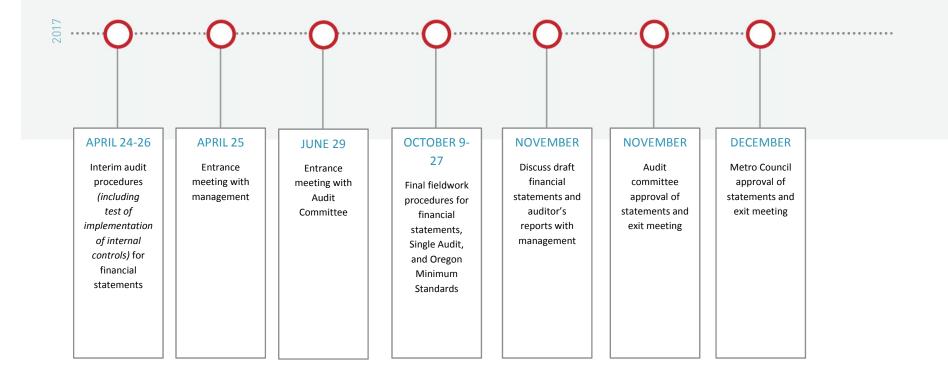

Auditors must consider fraud to "improve the likelihood that auditors will detect material misstatements due to fraud in a financial statement audit."

Procedures we perform:

- Examine general journal entries for nonstandard transactions
- Evaluate policies and accounting for revenue recognition
- Test and analyze significant accounting estimates for biases
- Evaluate rationale for significant unusual transactions

AUDIT TIMING

Financial Reporting for Postemployment Benefit Plans Other than Pension Plans

[GASB 74]

- Effective for the current fiscal year
- Establishes financial reporting standards to improve the usefulness of information about postemployment benefits other than pensions included in the financial reports of state and local government benefit plans for making decisions and assessing accountability
- Applicable for defined benefit OPEB plans that are administered through trusts that meet specified criteria
- Required to include a statement of fiduciary net position, a statement of changes in fiduciary net position, more extensive note disclosures, and RSI related to the measurement of the OPEB liabilities
- Early adoption is allowed

Accounting and
Financial Reporting
for Postemployment
