Exhibit A November FFY 2025 Formal/Full MTIP Amendment Summary Formal Amendment #: NV25-02-NOV

The November Federal Fiscal Year (FFY) 2025 MTIP Formal Amendment represents the regular bundle of projects being amended or added to the 2024-27 MTIP to meet various federal delivery process approval requirements for November 2024. The amendment bundle contains six projects. This amendment adds four new projects and amends two existing projects primarily completing funding adjustments to the existing projects. There are no projects being canceled from the MTIP and STIP through this amendment. A summary of the six projects includes the following:

- 1. Projects Being Canceled from the 2024-27 MTIP and STIP: None.
- 2. New Projects Being Added to the 2024-27 MTIP and STIP:
 - Key 23738 Supplemental Planning: Civil Rights & Community (Clackamas County): The MTIP formal amendment adds the Safe Street For All discretionary awarded planning project to the MTIP for historical accounting purposes. The project is a FHWA FFY 2023 Planning and Demonstration grant award planning project. Clamas County is delivering this project as a direct recipient working directly with FHWA. This award will be used by Clackamas County to update its existing Transportation Safety Action Plan to integrate equity and community engagement and align the plan with the SS4A Action Plan requirements.
 - Key 23692 Portland Metro Area 2024-2027 ADA Curb Ramps, Phase 2 (ODOT): The formal amendment adds the new ADA curb and ramps upgrades construction phase portion to the MTIP. Preliminary Engineering was completed through Key 22978. A list of the proposed curb and map improvement site locations is included with the MTIP worksheet. Approval from the Oregon Transportation Commission is required and is scheduled to occur during their December 4, 2024 meeting. With no issues expected at OTC, concurrent processing is authorized to initiate MTIP and STIP programming actions. OTC approval is scheduled to occur before final Metro Council approval on December 12, 2024.
 - <u>Key 23043 Portland Metro Area 2024-2027 ADA Curb Ramp Construction (ODOT):</u> This is a non-MPO state project grouping bucket (PGB) that is providing the construction phase funding to Key 23692 above. \$10,850,000 is being split from Key 23043 and committed to Key 23692.

- Key 22316 I-5: Interstate Bridge, NB Electrical Components (Portland) (ODOT): This project is being re-added to the MTIP and STIP. The PE and construction phases previously obligated under the 2021-24 MTIP and STIP. As a result, the project was not carried over into the 2024-27 MTIP and STIP as no further obligations needed to occur. However, the construction bids came in much higher than expected resulting in a delay to the construction phase. The delay was significant enough that the construction had to be de-obligated. Now resolved, the construction phase can move forward. The project must be first re-added to them MTIP and STIP before the construction phase can complete a re-obligation. The construction phase is expected to re-obligate during FFY 2025. Please not that this project is an operations and maintenance type project and not related to the I-5 Interstate Bridge Replacement project.
- Key 23769 Portland Streetcar Montgomery Park Extension (TriMet):

The formal amendment adds the Preliminary Engineering and Other phase with local funding to the MTIP. TriMet is moving forward to secure a FTA Small Starts Capital Investment Grant (CIG) for the construction phase. Adding the project now to the MTIP and STIP will allow the pre-award authorization clock to be established enabling the local funds committed to PE and the other phase to count as part of the required match to the Small Starts grant. The programming action also enables TriMet the ability to initiate the streetcar vehicle procurement process with FTA. A total of \$41 million dollars of local funds are being added to the MTIP and TSIP for the project. The preliminary estimated total project cost is \$186 million dollars.

- 3. Existing Projects Being Amended as Part of the November FFY 2025 Formal Amendment Bundle:
 - **Project Key 23043 Portland Metro Area 2024-2027 ADA Curb Ramp Construction (ODOT):** The Non-MPO State PGB the construction phase funding to Key 23692 as described in the New Projects section.
 - Key 23026 Enhanced Mobility E&D (5310) TriCounty Λrea FY26

Oregon Transportation Network - TriMet FFY26 (ODOT): The formal amendment reduces the authorized funding award to TriMet per a change in the FTA allocation to ODOT. OTC approval was required and occurred during their August 2024 meeting. ODT Public Transportation Division remains as lead agency to initiate the funding flex transfer to FTA. TriMet will then complete their TrAMS grant application to obligate and expend the funds.

Exhibit A Tables (MTIP Worksheets) follow on the next pages and contain the specific project changes for the FFY 2025 November Formal MTIP Amendment bundle of projects. See the Exhibit A/MTIP Worksheets for the detailed changes and consistency review compliance areas.

MTIP Formal Amendment

RE-ADD PROJECT

Re-add the project with the construction phase in 2025

Project #4

	Project Details Summary										
ODOT Key # 22316 RFFA ID: N/A RTP ID: 12092 RTP Approval Date: 11/30/2023											
MTIP ID:	71235	CDS ID:	N/A	Bridge #:	01377A	FTA Flex & Conversion Code	No				
MTIP Amendment ID: NV25-02-NOV STIP Amendment ID: 24-27-1882											

Summary of Amendment Changes Occurring:

The MTIP formal amendment re-adds Key 22316 to the 2024-27 MTIP to enable the construction phase to re-obligate and move forward. The construction phase had obligated back I FFY 2022 and then de-obligated due bid issues. The construction phase was held in abeyance until the phase costs could be resolved. With no additional delivery guidance, the project was not carried over into the 2024-27 MTIP and STIP and removed. The ODOT Bridge program has now resolved the construction bid issues, but the project now must re-obligate the construction phase to begin expending the funds. The project has to be re-added into the MTIP as a new project. There is no change in scope or total project costs. Finally, the use of local "Other" funds represents WSDOT's 50% funding commitment to the project as well.

An Other phase also is being added with local funds that will be used for the later procurement of up to 10 replacement and/or Project development work is being added through the Preliminary Engineering phase. This is required to occur to establish the pre-award clock for the project. TriMet is pursuing a FTA Small Starts Capital Investment Grants (CIG) funding award. Between the city of Portland's commitment and the CIG grant, both agencies believe they will be able to cover the estimated \$182 million total project cost. Only PE/project development and the Other phase supporting the streetcar procurement are being added through this amendment. The implementation phases will be added upon the Small Starts CIG award. Summary of Amendment Changes Occurring:

The formal amendment reduces the authorized funding award to TriMet per a change in the FTA allocation to ODOT. OTC approval was required and occurred during their August 2024 meeting. The fund code and fund type code are being changed from FTA Section 5310 to be State Surface Transportation Block Grant (STBG) funds. The project name is also being update. The project scope remains unchanged. ODOT will flex transfer the funds to FTA with an expected conversion code of FTA 5310 funds. TriMet will then complete their TrAMS grant application to access and expanded the funds. 11-21-2022 Added Note: Subsequent to the initial programming submission, ODOT discovered an error with the reduction methodology. Submitted as a public comment request, the reduction correction has been incorporated into the MTIP worksheet as shown in the funding table.

Subject: November FFY 2025 MTIP Formal Amendment & Resolution 24-5443 Approval

Request – NV25-02-NOV

FORMAL MTIP AMENDMENT STAFF REPORT

Amendment Purpose Statement:

FOR THE PURPOSE OF ADDING OR AMENDING, A TOTAL OF SIX PROJECTS TO THE 2024-27 MTIP TO MEET FEDERAL PROJECT DELIVERY REQUIREMENTS.

BACKROUND

What This Is - Amendment Summary:

The November 2025 Formal Metropolitan Transportation Improvement Program (MTIP) Formal/Full Amendment continues formal project amendments to the MTIP and STIP for FFY 2025. The amendment number is NV25-02-NOV. The formal amendment will be under Resolution 24-5443. The amendment bundle contains changes, updates, cancelations, and new project additions to a total of six projects.

The amendment can be divided into two basic project categories:

- Adding new projects with various federal fund awards.
- Adjusting and amending two existing projects primarily to shift and update the project authorized project funding.

What is the requested action?

JPACT met on 11/21/2024 and approved Resolution 24-5443 and is now providing their approval recommendation to Metro Council to provide the final approval for Resolution 24-5443 allowing the required changes and updates to the six projects in November FFY 2025 MTIP Formal Amendment bundle.

TPAC 11/1/2024 Meeting Summary:

TPAC met on November 1, 2024 and received their MTIP amendment notification and overview. Ken Lobeck, Metro Funding Programs Lead provided an overview of the specific changes to the included projects. The overview concluded with an opportunity from TPAC members to ask questions about the amendment. TPAC members did not raise any specific questions or concerns about the amendment and unanimously voted to provide JPACT an approval recommendation.

IPACT 11/21/2024 Metting Summary:

JPACT met on November 21, 2024. The November FFY 2025 MTIP Formal Amendment bundle was included on the Consent Calendar. JPACT approved the Consent Calendar with

one subsequent question that arose about the new Portland Streetcar Montgomery Park Extension project. The question involved the extension location for the streetcar and how close it would now be to the Montgomery Park building. Ted Leybold, Transportation Policy Director and Catherine Ciarlo, Director, Planning Development & Research, explained that the

streetcar route will extend up 23rd Ave to NW Roosevelt St and then west over to NW 26th Ave. It will then loop around on NW Wilson St back to NW 23rd Ave. Both discuss the extension alignment will support planned redevelopment in that area. Additionally, the Portland Streetcar extension results from and provides:

- Proposed land use changes and public benefits, the extension is expected to help the area.
- Support the potential for thousands of new housing units and hundreds of new jobs, including hundreds of affordable housing units with access to Forest Park.
- Connect more people via transit to critical destinations, including work, healthcare, parks, schools, and services in Northwest Portland, Downtown, and throughout the region.
- **Reduce carbon emissions** by helping people meet their daily needs without driving.
- **Expand streetcar access to diverse riders** who rely on transit to get where they need to go.

Also, see Attachment 1, Portland Streetcar Montgomery Park Extension Overview flyer for additional details.

November FFY 2025 MTIP Formal Amendment Project Contents Summary:

Projects being canceled as part of the formal amendment bundle: None

New projects being added to the MTIP as part of the October FFY 2025 Formal Amendment bundle:

• <u>Key 23738 - Supplemental Planning: Civil Rights & Community (Clackamas County):</u>

The MTIP formal amendment adds the Safe Street For All discretionary awarded planning project to the MTIP for historical accounting purposes. The project is a FHWA FFY 2023 Planning and Demonstration grant award planning project. Clackamas County is delivering this project as a direct recipient working directly with FHWA. Clackamas County has already completed their requirement with FHWA, obligated the project funds, and received their Notice To Proceed (NTP) allowing them to begin expending funds This award will be used by Clackamas County to update its existing Transportation Safety Action Plan to integrate equity and community engagement and align the plan with the SS4A Action Plan requirements.

• Key 23692 - Portland Metro Area 2024-2027 ADA Curb Ramps, Phase 2 (ODOT):

The formal amendment adds the new ODOT ADA construction phase project grouping bucket to the MTIP supporting region-wide construction of ADA curb and ramp safety upgrades on multiple routes including I-5 , OR8, OR10, US26, OR47, OR99W, OR127, OR141, and OR217 in Hillsboro, Tigard, Beaverton Tualatin, Forest Grove, and Sherwood to meet compliance with the American with Disabilities Act (ADA) standards...

- Key 23043 Portland Metro Area 2024-2027 ADA Curb Ramp Construction: The formal amendment splits \$10,850,000 from the ODOT Non-MPO ADA construction support project grouping bucket and commits the funding to the ADA curb and ramps project in Key 23602 above.
- <u>Key 22316 I-5: Interstate Bridge, NB Electrical Components (Portland) (ODOT):</u>

The formal amendment re-adds this project to the MTIP and STIP to enable the construction phase to re-obligate the funds and move forward to complete the project.

• Key 23769 - Portland Streetcar Montgomery Park Extension (TriMet):
The formal amendment adds the PE and Other phases for the project to the MTIP and STIP. TriMet and Portland are contributing a total of \$41 million of local funds to complete required project development activities (NEPA and final design) along with the need to procure streetcars to support the route extension. TriMet is pursuing a FTA Small Start Capital Investment Grant (CIG). By adding the PE and

Other phases now, TriMet can establish the pre-award authorization clock which enables the local funds to be counted as part of the required match to the FTA Small Starts grant.

Existing projects being modified in the MTIP as part of the November FFY 2025 Formal Amendment bundle:

- Key 23043 Portland Metro Area 2024-2027 ADA Curb Ramp Construction: The split funding from this project in support of Key 23692 is addressed in the New Project section after the description for Key 23692.
- Key 23026 Enhanced Mobility E&D (5310) TriCounty Area FY26: Change name to be: **Oregon Transportation Network - TriMet FFY26**): The formal amendment reduces the authorized State STBG funds to the project from \$4,968,103 to \$1,700,000. The total programming amount decreases from \$5,536,725 to \$1,894,572. The reduction occurs from an allocation revision from FTA which is has also been approved by OTC. Subsequent to the original amendment submission from ODOT, a change occurred. On 11/2021/2024 ODOT notified Metro through the public comment process that the Public Transportation Division's original submission was in error. The total required funding reduction was far less that submitted. The original federal funding adjustment reduced the ODOT authorized funding from \$4,968,103 to \$1,700,000. The corrected version reduces the authorized federal funds to \$3,674,037. Upon discussion with Metro's Lawyer, we determined that since the public comment period was still open the correction is an administrative update, and the amendment had not yet proceeded to Metro Council for approval, the change could be incorporated in the November formal amendment bundle. The correction did not have to be re-submitted as part of the December MTIP formal amendment bundle. The required changes have occurred to Exhibit A/MTIP Worksheet. Key 23026 now reflects the correct federal award amount to TriMet at \$3,674,037 with an adjusted minimum match of \$420,510. This is the corrected amount staff now requests Metro Council approve for Key 23026.

A more details summary of the individual projects follows:

New Projects being added to the 2024-27 MTIP as part of the FFY 2025 November Formal Amendment bundle.

Project Number: 1	Key Number: 23738	Status: Add New Project
Project Name:	Supplemental Planning: Civ	vil Rights & Community
Lead Agency:	Clackamas County	
Description:	Action Plan to integrate equi	e its existing Transportation Safety ty and community engagement and Action Plan requirements. Project recipient delivery rules.

Funding Summary:	This is a new project for MTIP and STIP inclusion. The federal grant award is \$330,000. The required minimum match is \$82,500. Clackamas County is also including \$1,405 of local funds for overmatching needs. The total programming amount is \$413,905.
	The formal amendment adds the new project to the MTIP. As a direct recipient authorized project, Clackamas County has already competed and executed their required agreement with FHWA, obligated the funds through the USDOT Delphi system. Delphi is an automate the invoice and grants payment process some federal funded transportation projects will use instead of the FHWA Financial Management Information System (FMIS).
Amendment Action:	Some questions emerged over the MTIP and MTIP programming requirements versus inclusion in the UPWP. To resolve these questions and ensure federally fund planning grants complete a public notification/opportunity to comment process, Metro and ODOT have agreed to add federally funded planning grant back into the MTIP and STIP. The public notification/opportunity to comment process will be completed through the regular MTIP formal amendment process. This will alleviate the need to create duplicate public notification procedures in the STIP and UPWP amendment process.
Added Notes:	Project Location References: Not applicable. The project applies across Clackamas County. The Safe Streets and Roads for All (SS4A) discretionary program has \$5 billion in appropriated funds over 5 years, 2022-2026. The program divides the funding award into Planning and implementation awards. Planning and Demonstration grants provide federal funds to develop, complete, or supplement an Action Plan. The goal of an Action Plan is to develop a holistic, well-defined strategy to prevent roadway fatalities and serious injuries in a locality, Tribal area, or region. SS4A requires an eligible Action Plan be in place before applying to implement projects and strategies. Implementation Grants provide Federal funds to implement projects and strategies identified in an Action Plan to address a roadway safety problem. METRO REQUIRED PROJECT AMENDMENT REVIEWS

In accordance with 23 CFR 450.316-328, Metro is responsible for reviewing and ensuring MTIP amendments comply with all federal programming requirements. Each project and their requested changes are evaluated against multiple MTIP programming review factors that originate from 23 CFR 450.316-328. They primarily are designed to ensure the MTIP is fiscally constrained, consistent with the approved RTP, and provides transparency in their updates, changes, and/or implementation. The programming factors include ensuring that the project amendments:

APPROVAL STEPS AND TIMING

Metro's approval process for formal amendment includes multiple steps. The required approvals for the November FFY 2025 Formal MTIP amendment (NV25-02-NOV) will include the following actions:

- Are eligible and required to be programmed in the MTIP.
- Properly demonstrate fiscal constraint.
- Pass the RTP consistency review which requires a confirmation that the project(s)
 are identified in the current approved constrained RTP either as a stand- alone
 project or in an approved project grouping bucket.
- Are consistent with RTP project costs when compared with programming amounts in the MTIP.
- If a capacity enhancing project, the project is identified in the approved Metro modeling network and included in transportation demand modeling for performance analysis.
- Supports RTP goals and strategies consistency: Meets one or more goals or strategies identified in the current RTP.
- Contains applicable project scope elements that can be applied to Metro's performance requirements.
- Verified to be part of the Metro's annual Unified Planning Work Program (UPWP) for planning projects that may not be specifically identified in the RTP.
- Verified that the project location is part of the Metro regional transportation network, and is considered regionally significant, or required to be programmed in the MTIP per USDOT direction.
- Verified that the project and lead agency are eligible to receive, obligate, and expend federal funds.
- Does not violate supplemental directive guidance from FHWA/FTA's approved Amendment Matrix.

- Reviewed and evaluated to determine if Performance Measurements will or will not apply.
- Successfully complete the required 30-day Public Notification/Opportunity to Comment period.
- Meets other MPO responsibility actions including project monitoring, fund obligations, and expenditure of allocated funds in a timely fashion.

Portland Streetcar Montgomery Park Extension

Transit Project

Project overview

The Portland Bureau of Transportation (PBOT) is planning a .65-mile one-way extension of the Portland Streetcar NS Line along NW 23rd Avenue to Montgomery Park in Northwest Portland. Paired with recommended land use changes in the area, this project creates the opportunity for a new climate-friendly and transit-oriented district west of Highway 30.

The project will include a complete rebuild of NW 23rd Avenue from NW Lovejoy to NW Vaughn,

including stormwater and accessibility upgrades. Extensions of NW Roosevelt, NW Wilson, and NW 25th Avenue will improve connections for pedestrians, people bicycling, and people driving in the new district. The project is currently in the planning phase.

Visit the project website to learn more and sign up for updates: **Portland.gov/MPstreetcar**

The opportunity

Combined with proposed land use changes and public benefits, the extension is expected to help:

- Support the potential for thousands of new housing units and hundreds of new jobs, including hundreds of affordable housing units with access to Forest Park
- **Connect more people via transit to critical destinations**, including work, healthcare, parks, schools, and services in Northwest Portland, Downtown, and throughout the region
- Reduce carbon emissions by helping people meet their daily needs without driving
- Expand streetcar access to diverse riders who rely on transit to get where they need to go

Project facts

- Two travel lanes and two parking lanes will be maintained along NW 23rd Avenue.
- The new extension will be 100% off-wire using hybrid battery technology, allowing streetcars to switch effortlessly between the existing system and the extension.
- The reconstruction of NW 23rd Avenue will include utility, accessibility, and stormwater upgrades, while preserving almost all of the existing onstreet parking.
- Project elements will be coordinated to save money and minimize impacts.
