PRESENTATION TITLE: Solid Waste Roadmap: Landfill Capacity Policy

WORK SESSION PURPOSE & DESIRED OUTCOMES

- **Purpose:** To provide Council with an overview of the Landfill Capacity Policy project work plan and stakeholder engagement outline.
- **Desired outcomes:** Input from Council on the work plan and stakeholder engagement outline to ensure that they meet Council expectations.

TOPIC BACKGROUND & FRAMING THE WORK SESSION DISCUSSION

The Landfill Capacity Policy project was established by Council Resolution 14-4589 on Dec. 4, 2014. The Resolution directs the Chief Operating Officer, as part of the Solid Waste Roadmap, to develop “a Landfill Capacity Policy to evaluate the disposal capacity of waste at new, existing, or expanded landfills and to recommend changes to the Metro Code to implement the policy.” The purpose of this project is to develop a complete and explicit policy to guide Metro’s future decisions about which landfills shall be eligible to receive the region’s waste.

Resolution 14-4589 also directs staff to add the Landfill Capacity Policy project to Metro’s Solid Waste Roadmap, a work program consisting of interrelated projects that will help define the region’s solid waste system in the future. Since the long-term management options Council discussed at the July 28, 2015 work session can only manage some of the region’s discards through alternative technology/processes, there will still be an ongoing need to use landfills. The Landfill Capacity Policy project will inform the procurement process that will determine where to send the region’s waste after the December 31, 2019 expiration of Metro’s current landfill contract.

The project plan includes three major components that will be completed by June 30, 2016:

1. Research and Scenario Development
 - Determine how we should define landfill capacity.
 - Calculate landfill capacity.
 - Work with Council to develop criteria to potentially differentiate landfill capacity.
 - Apply Council’s criteria to scenarios for distributing waste to landfills.

2. Stakeholder involvement

- Hold individual meetings and focus groups with key stakeholders, such as business groups and local governments, to explain the purpose of the Landfill Capacity Policy project and hear their perspectives on policy options.
- Conduct a random sample survey of households in the region to understand public opinion on Metro's landfill choices and potential tradeoffs of choosing one landfill over another.
- Provide the Metro Council with insights and guidance from the public and important stakeholders regarding the landfill disposal of the region's waste.

3. Draft policy and code changes

- Draft policy and code changes based on Council's direction from the criteria and scenarios exercise and input from stakeholders.
- Vet the draft policy and code changes with the Solid Waste Alternatives Advisory Committee and Metro Policy Advisory Committee.
- Bring legislative package to Metro Council by June 30, 2016.
